CUMBERLAND TENNIS CLUB HOLD DANCE

The Cumberland Tennis Club opened their new Board Tennis Court, with a dance on Tuesday evening last, which was fairly well attended. Quite a number from Courtenay and district were present. A good time was spent by all, music being supplied by Miss Amy Dallos and Messrs. "Toots" Plump, Frank Potter, Bobby Strachan and James Walker.

SHIPPING

Union Bay shipping at the loading wharves of the Canadian Collieries (Dunsmuir) Limited.

Dola, coastwise; Gray, coastwise; Shuldenn, coastwise; Hulk Melanope, Vancouver; Bell, coastwise; Bockren, San Francisco; Glenbora, coastwise; Katie, coastwise; Peggy McNeil, coast wise; Wireless, coastwise; Princess Beatrice, coastwise; Clayburn & Scow, Vancouver; J. W. P. coastwise; Otter, coastwise.

COURTENAY WIN FIRST GAME OF SERIES

Cumberland Fail To Stop Courtenay Balltossers.

Courtenay took the lead, in the five game series, here last Sunday, when they won over the Cumberland aggregation 11—8.

Courtenay was first to score having four runs in the lead when the locals wakened up and tied. Courtenay piled up a nice lead in the next few innings, Cummins taking the mound in the third and pitched a nice game for the Cow Boys.

Larson was in the box for Cumberland during the first five innings and was replaced by J. Davis, formerly of Powell River, who was stingy with the hits. Larson was not hit so hard as the score would indicate but errors and bad hops came when most need by the opposition.

The feature of the game was mostly in the outfield, when Mitchell grabbed one nice line drive, which looked good for three bases. One double play featured the in field when King James and Plump did the trick in nice style.

For Courtenay Andy Robertson got a circuit clout along with two other hits and Cummins also three safetys, while for Cumberland Plump James and Marrochi got two hits each.

WHAT THE ROYSTON PEOPLE ARE SAYING

That Mayor Henderson will soon be in residenee.

That the Ladies are unanimous in their choice of Mr. Henderson as they have a promise of free ice cream.

That Congratulations are in order to Mr. F. J. Dalby as chairman of the School Board.

That the visit of Mr. and Mrs. Robert Henderson of Nanaimo will do them a lot of good, as the sea breezes at Royston are the best on the Coast.

That Principal Webb from Cumberland will receive an official welcome one of these nights, and he better be ready as the ladies are going to descend on him en masse.

That Mr. Hayworth seems to be having a good time these days disporting himself in the briny.

That all eyes are fixed on our yacht which lies at anchor, eagerly waiting to see her put out to sea.

That the sailing of the fleet is one of the events of the season.

That the feat achieved by John Cameron and Miss Hood in swimming from Tony beach to our shore was some swim. The whale had nothing on them.

That Irene and the girls are having the time of their lives camping, the only trouble being the cooking, boys get a good cook.

That Dr. Christies house is nearly finished and presents quite an attractive appearance.

That the first case on the docket with the arrival of our Mayor will be a charge of bribery against an aspirant for the Mayors chair.

A very enjoyable party was held last Saturday at the summer camp of Mr. and Mrs. J. Berglund. Dainty refreshments were served and the evening spent in playing various games. Among those present were: Priscilla Cloutier, Margaret Richardson, Gladys Idiens, Fannie Dando, Leslie Dando, Lawrence Edwards, Norman Bateman, and Dick Idiens.

BEVAN HEAD THE INTERMEDIATE LEAGUE

Evenly Fought Game Gives Bevan 8—9 Victory.

Bevan balltosser made it two wins out of three starts last Sunday on their home lot when they nosed out the Cumberland crew by the odd run.

The Cumberland boys looked sure winners when they managed to put four men around the paths before the side was retired. This did not discourage the home team in the least, but went right in only to retire one two three.

The second inning saw Aitken replace Bennie in the box and everybody played ball behind the new slabster. Bevan got three runs in the second. When with some timely hitting aided by some costly errors they scored five runs and were never headed although they never had the game won until the last man was out, as Cumberland ha dthe tying run on third twice only to have the third man put out.

Both teams played nice ball all the way from the second inning and both teams were forced to burn up two pitchers, Robertson and Bennie for Cumberland and Bennie and Aitken for Bevan, while Stratchan and Westfield did the receiving in a capable manner. All the new material so far introduced have shown signs of coming players with practise.

SACRED CONCERT AT ROYSTON WAS VERY SUCCESSFUL AFFAIR

Proceeds Handed Over For Benefit of Cumberland General Hospital.

The sacred concert held at the Royston Tennis Court on Sunday last was very successful and although there was not as large a crowd present as one would expect, the promoters feel highly delighted with this, their first attempt on the new court. Approximately $30.00 was taken in the collection, which will be handed over to the local Hospital.

The programme consisted of: Community song, "O Canada;" song, "Open the Gate of the Temple," by Mr. Turner; "The Memory of a Song," by Mrs. Ledingham; violin solo, "Berceause de Jocelyn," by Miss F. Howard, song, "Learn to Hope,"by Miss J. McDonald; song, selected, by Mr. W. A. W. Hames; song, "O, For the Wings of a Dove," by Mrs. A. C. Lymn; violin and cello, "Humoresque;" song, "Recessional," by Mr. Turner; cello solo, "Largo," by Mr. Owen; song, "The Holy City," by Miss J. McDonald; song, "Two Cities," by Mrs. J. Ledingham. "God Save the King."

CUMBERLAND JAPANESE AT CAMPBELL RIVER

The Cumberland Japanese Baseball Team have been invited to meet the newly formed Campbell River Team, and the local sons of Nippon will make the journey on Sunday, fully expecting to take the measure of the Campbell River boys.

NANAIMO FOOTBALL TEAM LEAVES FOR CALGARY

Nanaimo—The Nanaimo City Football Club, in charge of Manager James Watson, Trainer Dick Jackson and Secretary Fred Hart, left Tuesday afternoon for Vancouver en route for Calgary, where they will play the first match in the Connaught Cup Series Friday evening. The boys are all in tip-top shape and are all confident they can give a good account of themselves.

MOTHER IS ENTICED FROM HER HOME AND ASSAULTED BY INDIAN

FULL-BLOODED INDIAN IS CHARGED WITH SERIOUS OFFENCE. 22-YEAR-OLD MOTHER LEAVES HOME AND BABY AND FOLLOWS ALLEGED ASSAULTER TO THE BEACH. PRISONER TAKEN TO MAINLAND TO PLACE OF SAFETY.

The tale, in brief, is as follows:

On Sunday evening, Mrs. H. Barker was left alone, with the exception of her infant child, in their home near Campbell River. Mr. Barker, her husband, was expected to be absent for but a brief time. Came suddenly a knock on the door, and a full-blooded Indian appeared. He informed Mrs. Barker that her husband had met with an accident, and had reqtrested her presence at once. It was intimated to her that an automobile accident had occurred, and under this pretense, she was led to the beach, and the following story, which was taken under evidence from her while confined as a patient at the Campbell River Hospital, is conceded a true account of events as they occurred thenceforth.

The Victim's Evidence

"My husband was at Comox Camp No. 2, I put the baby to bed, and sat down and read, until little after ten. The accused came to the side of the house and I called out 'who is there?' and he said 'Jackson,' and he said my husband was hurt, and wanted me to come to him. I asked what had happened, and he said he had run into a stump. I asked where abouts was he, and how badly he was hurt. I thought he must be dead when he would not tell me, and he said "Oh no," "I would see when I got there."

Evidently the deponent then left the house with the accused. Continuing, the evidence is: "I said again, 'where is he?' He said, 'Down on the beach.' I answered 'No. He cannot be there. Where is his car?' I couldn't see any car, and I thought he was lying. Then I tried to get away. He hit me with his fist on the head. I don't know, exactly, but I must have fallen with the blow. He grabbed me by the throat and held me on the ground." Then comes some evidence which is too pathetic to print. It is a tale of brutality which is but seldom told with truth, and one which makes the blood chill.

After describing the first assault, the deponent continues: "I ran away and fell over some logs. I cried for help during the time I was free, but was caught and again assaulted. Then I ran into Holmstead's house. Holmstead's brother loaded up a gun and ran and got my baby."

Police Help is Obtained

After this came a description of obtaining police help, when Provincial Constable Dawson was summoned, and he immediately responded, with the result that Edward Thomas was arrested at McDonald's & Murphy's logging camp, seven miles from Campbell River. He was taken before Mrs. Barker, who identified him as her assailant.

The Doctor's Evidence

Dr. Shaw's evidence was heard, and it substantiated an assault with violence. He remarked on bruises found by him on the neck, arm, ear and chin of the victim, besides other marks of violence.

Prisoner Removed to Safety

It is understood that, in order to escape the vengeance of the residents, the prisoner was yesterday rushed to New Westminster, and to jail for trial.

37TH ANNUAL CALEDONIAN GAMES AT VANCOUVER

Saturday, August 4th, Set Aside For St. Andrew's And Caledonian Society's Annual Celebration.

Local Athletes will be interested in the announcement that the above Society intend holding their usual celebration at Brockton Point on Saturday, August 4th. There are 22 open events under B. C. A. A. U. Rules for all registered amateurs. There are 10 events in the special class, including a five?a?side Football competition, a competition inwhich the Cumberland five have nearly always been successful in capturing

All entries are to be in the hands of the Secretary not later than Saturday evening, July 28th at 8 p.m.

En try forms may be obtained from Mr. R. Strachan, Cumberland, who will be pleased to give intending competitors from this district, all the information possible.

BUSH FIRE IS FOUGHT DOWN

A serious bush fire started on Tuesday last on Bloedel Welch and Stewarts limits, between Union Bay and Cumberland. We understand the fire started in a slashing and as a strong wind was blowing at the time the fire soon made considerable headway.

The combined forces of Bloedel, Welch & Stewart, and the Dollar Logging Company turned out to fight the fire, the wind abating considerably they soon had the blaze under control.

CUMBERLAND MOTORISTS FINED FOR SPEEDING

Several residents of Cumberland were charged at Courtenay last week with exceeding the speed limit and were fined $5 and costs.

Those appearing were: C. W. Willard, James Bennie, T. Shields, and A. W. Watson.

NO USE FOR CANDLECOURTING

Boys brought up by wise mothers, in companionship with sensible sisters, have a high ideal of woman. They have a protecting, worshipping attitude. They realize to the full her sweetness and her abounding self-sacrifice, and so, through the force of understanding and appreciation, they place her on a little pedestal of their own making.

They carry this view of woman to school with them. It dignifies their companionship with the little girls. It breeds chivalry. It goes with them through boyhood and when they get out in the great world, it colors and glorifies their lives.

And when they come to real love-making, in a serious way, after those periods of what we term "Puppy love", they approach it in a spirit of manliness and reverence appropriate to its value and importance in the scale of life.

This spirit dignifies the man who has it, be he of the slums or of the avenues. It makes the conduct of a certain young fellow named Andrew Yotson stand out like a snow-clad peak.

Andrew was the suitor of a young girl named Anna Dugan. Two other young men sought her favor, and this wealth of admirers turned Anna's head and she giggled up a scheme to settle her own fate and that of the three suitors.

One night Anna invited the three lovers to a party at her home. During the festivities she brought out three candles, lighted them and placed them on a board declaring a mysterious prize awaited somebody. When the last candle had burned out, Anna announced that she had placed the name of the young men under each candle and that she herself was the prize.

Yetson's candle had burned the longest.

Andrew told her that his ideas of the sanctity of courtship and marriage didn't agree with hers, and withdrew in disgust. She, however, took the proceedings as entirely normal, went on with her wedding plans and when Andrew didn't appear, sued him for breach of promise.

The court decided against the silly girl and approved the manliness and real chivalry of Andrew's conduct.

DON'T WORRY

One day at a time conscientiously lived up to will keep the eyes bright and the cheeks round and rosy.

Don't begin to worry about things days beforehand. It will be time enough when they happen.

It is the dread of what may come,, not what is, that makes one old before the time. If you lie awake half the night, worrying about something that is going to happen the next morning, you will be far less able to face it bravely and work out the problem, than if you had made an effort and thought of something else until sleep came. It is not half as hard as it sounds and will grow easier every time you try it.

Perhaps, after all, the disaster will not befall you or will be less awful than you anticipated and just think what a lot of unnecessary wrinkles you have worried into your face.

GOVERNMENT INSURANCE FOR ALL WHO SERVED

Expiry Date For Receiving Applications September 1, 1923.

Whilst figures are not available at this writing, we are of the opinion that already Returned Soldiers' Insurance Policies aggregating over $3,000,000 have been written and distributed over Vancouver Island and Islands adjacent. In the Dominion at large, according to returns recently presented, there were on the 31st March last 19,560 policies issued and their value was $46,864,000. Death claims taken at the same date were 514, amounting to $1,622,500.

The method of paying insurance made to suit the convenience of the policy-holder. Generally speaking, the monthly plan of payment at the Victoria office is very popular and 30 days' grace is allowed on all payments due.

THE VOICE IS THE SOUL OF TELEPHONING

When you complete a long distance conversation you experience a satisfaction that does not follow under other circumstances. Your message has been conveyed as you would have it, and you know exactly how it has been received by the person at the other end.

The reason o fthe satisfaction is the intimacy which the telephone gives. It is your voice and the voice in reply that makes long distance telephoning real conversation.

Shampoo This Way with Olive Oil

and you will have hair with gleam and softness of silk

Olive oil for the shampoo, say leading hair specalists. Olive oil for the shampoo, agree women who have learned the secret—who are admired for their lovely hair

And this, specialists tell you, is why:

Olive oil cleanses thoroughly but gently. It never leaves hair dry and brittle—robbed of the delicate gloss and sheen that means beauty.

It washes away all dirt and oil. Dissolves and removes clogging dandruff. It leaves hair fluffy and soft. But never dry, never dull.

Pliant and shimmering as new silk, instead.

And this means beautiful, attractive hair—without which no beauty of face or dress is quite sufficient.

Olive oil treatment in its finest, most convenient form, is PALMOLIVE SHAMPOO. Thousands and thousands of women use it today. They find it most economical—for a treatment that costs a great deal when given by specialists.

You may have a 15c trial bottle free, by sending the coupon. Or you can get full-sized bottles at your dealer's. A single shampoo will amaze you.

FINANCIAL AND MARKET NEWS

Gathered Over the Private Wires of Burdick, Logan and Company, Limited.

Wheat in Canada. Winnipeg.—Outside some minor damage by hail and excessive moisture crop prospect for wheat in western Canada remains unimpaired. Acreage is estimated at 20,900,000 acres and yield may easily average 25 bushels to the acre. Present outlook compares with that of 1882 and 1887, and is really much better than in 1915 when the great crop was raised. Prominent grain men say it will not be surprising of more than 500,000,000 bushels of wheat are harvested. Clean up of last year's harvest approximates 370,000,000 bushels. Oats crop promises to be by far the largest on record.

Moving Canadian Wheat Will Tax All Moving Resources

Though six weeks will elapse before harvest, bank and railway managers, elevator companies and mill men are preparing to handle unusual production. All are cooperating in view of the general report that the yield promised to approximate 500,0000,000 bushels. That officers of United Grain Growers are not alarmed over hazard presented is quoted on the Grain Exchange as evidence that all the money required will be arranged by the banks, that transportation companies are rapidly getting their equipment in condition to give adequate service in record time and that the elevators, both interior and terminal, will be ample even with 150,000,000 larger yield of wheat than the west was ever called upon to market. Between 75,000 and 100,000 box cars with locomotives will be distributed at strategic points over the prairie provinces by the two railroads. The National is putting into service 2,500 new box cars designed especially for this traffic, and two or three car companies are now figuring on a National order for 2,000 additional cars.

General manager Charles Murphy of the Canadian Pacific Railway recently announced that his company was constructing at Montreal a number of special locomotives of greater capacity than anything ever seen in the west, especially for handling the fall rush. The first of these huge engines will be placed in service July 15. Both companies have had all their shop men working full time for several months getting the rolling stock ready for the grain rush. Each is in better condition than at any time in history for putting adequate cars an engines in service. Railroad circles admit that unusual precautions must be taken in view of the probable excessive quantity of grain to be handled.

The Oil Surplus a Blessing

Everybody in this country ought to be interested in the liberal oil supply. Unless oil supplies are to continue indefinitely how can we safely go from 14,000,000 motors to 20,000,000 motors? Had not California burst forth with an additional 20 per cent. to the world's oil supply, Henry Ford might have had another problem on his hands. Gasoline might have been 50 per cent. higher.

The motor industry rests not only on good roads but on cheap gasoline.

E. L. Doheny, President of the Pan-American Petroleum & Transport Co. who has done more for the development of oil in California and Mexico than anybody else, looked over the southern California fields last fall and estimated that the output would reach its maximum at 400,000 barrels per day. Later he named 500,000 barrels a day. When he stopped estimating the production shot above 700,000 barrels. Shipping men and owners of tankers should be grateful for the Panama Canal which permits this surplus of California oil to be quickly routed to the Atlantic Seaboard for refining. Yet only last year the great oil-producing state of California was an importer of gasoline, because its magnificent highways had so stimulated motoring.

Oil people who look askance at the California oil output should remember that wealth is in production and not in prices. The Standard Oil wealth has been coined in low-priced oil.

It Is Yours

Five-sixths of the timbered area in B. C. belongs to the People.

Each year, it is increasing in value as the more accessible timber is cut.

In 1922 there was received from the sale of such timber the sum of $620,000.

This helped to keep your taxes down, and to build up the Province.

Green Timber is British Columbia's assurance of Perpetual Prosperity.

RESUME OF EVENTS AND LEGISLATIVE ENACTMENTS BY RECENT PARLIAMEN T DURING THE PAST YEAR, AS THEY AFFECT AGRICULTURE

(By the Hon. W. R. Motherwell)

An effort has been made, by not altogether disinterested parties, to belittle the net results of the recent session of Parliament.

Speaking more particularly with respect to agriculture, I may say that I cannot recall any Session of Par liament since Confederation that passed more beneficial legislation on behalf of agriculture than the one re cently prorogued. True, five months was a long time to spend in performing the work but that is one of the prices we must pay for groups in Parliament, all of whom have to have their say.

A number of Acts have been passed such as "An act to amend and consolidate the Acts respecting Live Stock" and "An Act to regulate the sale and inspection of Fruit and Fruit Containers," which can be merely referred to here as containing very important and up-to-date legislation in their respective fields. The same may be said of the amendments to Feeding Stuffs Act and the Dairy Industry Act, the latter of which prohibition of the manufacture and importation of filled butter, filled milk and filled cream—three pernicious practices that were quietly but persistently establishing a foot-hold in Canada to the great detriment of the dairy industry.

In addition to this important legislation affecting one of our chief corner stores of Canadian agriculture—dairying—was the fight to a finish during the last Session on the question of whether the prohibition of the manufacture and importation of Oleo, would be again reverted to, as it existed for thirty years prior to 1917. By a non-party vote of fifty-four to one hundred and twenty-five Oleo, for the time being, received a solar plexus blow that will take some recovering from. Nothing daunted, however, the packers' professional lobbyist was an anxious inquirer around the corridors the week following the vote, doubtless with a view to renewing the battele at some later date.

The report of Dairy Commissioner Mr. J. A. Ruddick and Mr. W. A. Wilson on their return from New Zealand and Australia, coupled with all the before-mentioned beneficial legislation on behalf of the dairy industry, makes the last Session of Parliament an outstanding one, so far as the dairy industry of Canada is concerned.

Although the removal of the British Embargo on Canadian cattle did not require legislative action on the part of the Canadian Parliament, it did on the part of the Imperial Government, which was the outcome of a conference between the Imperial and Canadian Authorities — hence, properly referred to in this article as one of the advanced steps taken on behalf of agriculture during the past year.

The removal of the British Embargo against Canadian cattle has had a greater direct result in improving the farmers' market than any other single move that has been accomplished during the past few years.

Canada was in the unfortunate position of being largely shut out of the only two available markets for her live cattle—the American tariff and the British Embargo accomplishing this end.

An agitation has been carried on, both in Great Britain and Canada for a number of years for the removal of the Embargo, and a great many people on both sides of the water have given valuable assistance in this effort and not a few of them claim that the removal of the Embargo is entirely due to their efforts. But to say that a great many people helped in bringing this about, is much nearer the truth of the matter.

For the last two or three years, while it was generally expected that the Embargo would be ultimately removed, it was of vital interest to the business of raising cattle in Canada, that it should be removed quickly, and the delay was not only disappointing, but it was ruinous to the cattle business. The present Canadian Government not only acted promptly but effectively, in this matter, and when the Ministers of the Government and the officials of the Department of Agriculture entered into a conference with the members of the British Government and officials of the British Ministry of Agriculture, they had a very difficult task on their hands. They accomplished something however, of real importantce for the Canadian farmer when they came to a satisfactory settlement of the case, which as a matter of fact, was only concluded the morning after the Lloyd George Government had resigned.

A new Government took office in Britain, and then for a time it looked like another year's delay. A special Session of the new Parliament was called in November to pass the Irish Bill. The Canadian Government pressed the Embargo enacted at this special Session, but the new Government urged that it had just taken office, that this Session was for a special purpose, an that the Embargo legislation should remain in obeyance until the regular Session after the first of the year. It was only after repeated and persistent urging on the part of the Canadian Government that this question which had been of such long standing was finally solved by the British Government passing an Act removing the Embargo, which came into effect April 1st of this year.

There is not a live stock man in Canada but recognizes clearly the tremendous adantage it would have been to have had this market last fall, and what a calamity it would have been were it not available this year.

Mention might also be made of the granting of a certain bounty on twine and cordage made from hemp, for the purpose of establishing a hemp industry in Western Canada—a movement well worthy of a moment's consideration.

Canada last year became famous by having arrived at the stage of being the largest exporter of wheat in the world. In the face of this it does seem a mistake to longer continue to depend uopn foreign countries for the twine with which to tie nine-tenths of this crop. Hemp is a product that can be growin successfully, almost luxuriantly, in many parts of the West and East, with or without irrigation. It grows freely in this country, and should supply unlimited quantities of raw material for the successful establishment of a hemp industry, the future production of which for both some consumption and export no man can estimate. As important as this should be to every Western man, strange to say, three Western Members supported it.

Following the reduction of freight rates by the restoration of the Crow's Nest Pass Agreement, important legislation had been passed designed to control and regulate lake rates, which soared to such alarming proportions last Fall.

The personnel and work of the newly-appointed Royal Grain Enquiry Commission, presided over by Mr. Justice Turgeon, is another indication of the desire of the present Government to serve agriculture faithfully and well.

The increase in the Estimates of over half a million dollars for the Eradication of Bovine Tuberculosis, twenty-five thousand for further experiments in the exportation of chilled beef and ten thousand for experimentation with the rehydrating of fruit, all speak for themselves and indicate a further desire to grapple with first things first in the solution of Canada's many agricultural problems.

Live stock men generallly will great ly appreciate the valuable importation of the various purebred breeding animals imported and selected personally by Mr. Archibald, Director of Experimental Farms. These animals are intended for distribution amongst the various Experimental Farms, from which farmers may replenish their breeding stock to advantage as desired.

A question of more than usual significance to Western agriculture was the three-year Canadian National Rail way Construction programme, passed by the House of Commons and approved of by the country generally, more particularly by the West. Imagine with what consternation it was learned that the irresponsible Senate stepped in and thwarted the will of the people by giving this railway programme the six months' hoist. As if to add insult to injury, some Western Senators have the audacity to say (as per Senate Debates) that the Government so enacted this legislation that it would court the disaster that befell it. How false this statement is, nobody knows better than the ones who make it.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistance" in poorly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.

Crop Returns Should be Increased

On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets:

	Cost per acre	*Profit per acre*
Hay	$21.13 ($13.50)	$11.21 ($5.09)
Corn for Forage	$47.50 ($33.75)	$10.38 ($2.86)
Oats	$26.47 ($19.32)	$ 7.33 (.04)

Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management, "boarder" milkers, scrub beeves, poor quality hogs or non-profitable hens.

That even under present conditions profits may be made is testified by many skilful, observant and non-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed, with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing seed or interested in fruit? We can give you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you.

We have published and have for free distribution 390 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

Have Faith in Canada

Authorized for publication by the
Dominion Department of Agriculture
W. R. MOTHERWELL, Minister. Dr. J. H. GRISDALE, Deputy Minister. 132

News Of British Columbia

Through the efforts of Hon. E. D. Barrow, Minister of Agriculture, surplus British Columbia berries will find a ready market in Great Britain, where jam manufacturers require large quantities of raw fruits between June and October. The fruit will be pulped and shipped in sealed tins. Agent-General F. C. Wade advises provincial growers to make a closer study of British markets.

* * *

Attorney-General A. M. Manson is greatly disappointed in the action of the Canadian Senate in reqiring British Columbia to hold a plebiscite on the question of provincial control of liquor importations. He and Premier Oliver maintain that the people of this province decided in favor of government control and that it is unfair to ask that the province be put to an expense of between $75,000 and $100,000. However, if a plebiscite is necessary, it will not be held until after the next session of the Legislature, which will commence in October and end before Christmas.

* * *

Hon. T. D. Pattullo, minister of lands, announces the income from the forest branch of the month of May as $258,431, an increase over May, 1922, of nearly $10,000. The revenue is made up from the sale of timber, scale and royalty, timber licences and leases.

* * *

The first party of British boys, numbering 25, of the 250 who are to be placed in this province by the Salvation Army, arrived in Vancouver recently and were met and welcomed by Hon. T. D. Pattullo, minister of lands, on behalf of the govenment. The lads were between the ages of 14 and 19 and presented a fine apprearance. They were placed mostly in the Lower Fraser Valley.

* * *

A splendid opportunity is being overlooked in British Columbia by the farmer who does not raise sheep and the goverment is carrying on an educational campaign to encourage the production of mutton and wool. The grazing commissioner, Mr. T. P. Mackenzie, urges farmers to organize grazing community flocks, especially in districts where there are logged-off lands, which means nearly every part of the province. He suggests that the logged-off lands be seeded with cocksfoot grass, excellent feed for sheep, and that a sheepherd be placed in charge of the big flock, which each farmer will have an interest in.

In this way losses would be cut to a minimum, the farmer would be free from the care of his flock during the busy summer season and the profits would unusually encouraging.

* * *

Changes in the affairs of the provincial police include the transfer of Inspector Parsons from Prince George to Prince Rupert and inspector Dunwoodie from Fernie to Nelson. Both these officials have had long and meritosious careers in this province.

Before long the provincial police will be in uniform. Attorney-General Manson is now deciding upon the uniform to be worn.

* * *

The government have appointed Mr. W. A. McAdam, assistant deputy minister of finance, as secretary and assistant to Agent-General F. C. Wade in London. A strong campaign will be carried on to interested Britishers in settling in British Columbia and directing capital to this province. Mr. McAdam will tour the province before leaving for London, in order to familiarize himself with conditions here in every branch of industry.

* * *

Working conditions for women and girls in British Columbia are steadily improving under the supervision of the provincial department of labour, Attorney-General Manson being the minister in charge. According to the annual report o fthe Minimum Wage Board, just completed, it is shown that the 8989 female workers who were experienced received an average of exactly $17 per week, which was well above the average minimum wage, $14.23. The workers averaged 43.28 hours per week, where as the maximum permitted is 48. These facts are striking refutations of the argument often met that the legal minimum wage in industry tends to become the maximum.

A review of the report shows that women and girls in offices were the best paid. They averaged $19.32 per week of only 41.95 hours. In the mercantile industry female employees averaged $15.09, or $2.34 above the minimum. Laundry workers got $14.51, while those engaged in public housekeeping received an average of $15.98 for 46.25 hours. In the manufacturing industry there were 1296 employees, receiving $16 for 43.92 hours per week. Telegraph and telephone operators averaged $17.25 a week, while the fishing idnustry paid well, $15.50.

* * *

Hon. William Sloan, minister of mines and commissioner of fisheries, in his annual report, shows that in 1922 the provincial salmon pack totalled 1,290,326 cases, as compared with 603,548 cases in 1921. The value of last year's pack is estimated at $11,247,000.

The British Columbia fisheries were one-third of the total for Canada.

* * *

British Columbia deserves great credit for the industrial strides she is making, remarked Hon. J. H. King, minister of public works in the Federal Government, this week. The doctor, who is at present visiting many points in the province inspecting public works, will be in the province until after President Harding's visit on July 26. He is highly optimistic over prospects here in general gives the Liberal Government a fair share of the credit.

* * *

Hon. J. D. MacLean, minister of education and railways and provincial secretary, has returned from a month's visit to Ottawa and other eastern cities. He attended the annual health conference in the capital and claims that health work in this province is on a par with that of any other in the Dominion. The doctor attended the Good Roads convention at Hamilton and added his voice to those urging the government to continue Federal Aid for provincial highways.

* * *

Premier Oliver is leaving no stone unturned in his fight for cheaper freight rates in British Columbia, and it is conceded by all shades of political opinion that he is getting somewhere. While the subject, through repetition, has become more or less boresome to those who have not realized the importance of the matter, still the industrial future of the province depends largely upon the equalization of freight rates and the government leader, having taken hold, will not let go his grip. He will leave for Ottawa in a few weeks to appear before the privy council in this regard.

Do You Lack PEP ?

Peptona will strengthen and build you up

Almost everybody needs a Tonic if the system is run down from any cause. This is especially so at the present season when coughs, colds and diseases of the throat are so common and so easy to catch.

You will find Peptona beneficial in the treatment of such conditions and as a means of preventing them.

Peptona is a tonic for enriching the blood, building strength and improving the health generally. It is beneficial in building resistance against the wasting effects of disease and in assisting natural recovery from unnatural conditions.

Peptona does this by aiding the absorption and assimilation of food and thereby increasing the vitality of the blood.

Patients recovering from Influenza, fevers, and other ailments which have weakened the vitality, find Peptona of great assistance.

Peptona is a palatable preparation containing peptonized iron, malt and manganese with Cod Liver Extract and nux vomica. The Cod Liver Extract has none of the nauseating tendency of the oil itself.

Observations Of A Federal Member

June 30th.—House adjourned after 5 months session. In the closing days the Senate nullified a good deal o fthe Session's work.

It killed entirely the bill to give to the Province the power asked for to regulate the liquor traffic, and also the bill to finish certain brance lines which have acted as feeders to the National Railway lines and helped, not only to make them pay but would have kept settlers on the land who are now being driven out because of lack of transportation for their wheat ond other products. We hired a first class railway man at a big salary and now the Senate prevents us following out his advice!

They also materially altered the bills passed unanimously by the Common carrying out the recommendations o fthe Ralston Commission dealing with soldiers' pensions, insurance, etc.

Further, they inserted clauses in the Chinese exclusion Act which allows a Chinaman found illegally in this country, to remain on paying the $500.00 poll instead of being deported as the Commons passed it. No penalty for illegal entry?

It would be impossible to get a bill through to abolish the Senate, if for no other reason because the Senate would kill the bill and the Commons would not pass it either because every member of the Commons dreams of being a senator one day but if the public got behind the idea, it should be possible to amend the British North American Act to provide that if the Commons passed a Bill in two successive Sessions, the Senate could not veto it on its second passage. The Senate is supposed to check hasty legislation. The provision that a bill would have to be passed twice by the Commons would prevent hasty legislation and would put an end to the present undemocratic condition, by which the Senate which is responsible to no one, can kill legislation passed unanimously by the Commons, responsible to and just elected by the people at large. Somewhat similar action was taken some years ago in Britain to curb the powers of the House of Lords.

The night before the House prorogued, a member from Montreal, sought to have endorsed by the House the claim that Hindoos should have the vote in Canada. This was strongly opposed by several of the B. C Members who pointed out that, if that were allowed, other Orientals must also be given the franchise and that the matter was entirely one for the Province of B. C. to deal with as the franchise is entirely a Provincial right an dthe Dominion franchise is merely copied from each Province. The Premier promised consideration of B. C.'s wishes if their Members were united o nthe subject.

If the Farmers of this Province wish to check the owning or leasing of land for agricultural purposes by Orientals, they should at once urge the Local Government at its next Session to pass a test act to prohibit such. The question, as a matter of Civil rights, comes entirely under Provincial jurisdiction subject only to any rights given by treaty. There is a Treaty to which Canada assented and Section four of that Treaty gives to British and Japanese subjects equal rights to own or lease land or warehouses in the territory of the other, but this applies only to commercial purposes but Section Five is the one dealing with agricultural land and it expressly provides that this can only be done on "A Condition of Reciprocity" and as Japan refuses this right to us there can be no possible objection, with full regard to Treaty rights, to refuse them the same privilege in Canada. This matter should be pressed at once.

News Of B. C.

An amendment to the Game Act provides that a bounty of fifteen dollars will be paid on wolf cubs over seven days old, as well as on all older animals. This provision is an incentive to the hunter to snuff out the young of predatory animals wherever they may be found.

* * *

Government supporters throughout the province and particularly those within close touch o fthe cabinet, declare that the Oliver administration is in stronger position to-day than it has been before since 1916. The defeat of the farmer movement in Ontario is looked upon as a hard blow to the aspiring third party in this province and the opinion seems well founded that the few seats which the third party might win here would be from the Conservatives, owing to the marked split in the opposition ranks over the leadership. Although at the Conservative convention last fall Mr. Bowser was the choice of the delegates, still his selection was made only after a hard fight and many Tories have since thrown over their allegiance.

Rumors of an election have been running around but Premier Oliver gives the laugh to these, stating that the government has no intention of calling an election for a long time to come.

So far this year the losses from forest fires have not been heavy, states the minister of lands, Hon. T. D. Pattullo, but he has issued a fresh warning to forest rangers and the general public. The dangerous season has arrived and after the heavy rains of the spring and early summer, it is only natural to expect a dry spell, which in many districts will probably last for months. From now on, he claims, every citizen should consider himself a fire warden and join in the fight to protect the magnificent forests of British Columbia.

PILES

No one but the sufferer knows the terrible agony or the itching nature of Piles and how hopeless it seems to try for relief in ointments, injections and dilators.

Genius produces

"PAX"

Internal Pile Remedy

Pax is the prescription of a well known physician and has proved successful in hundreds of cases. Pax is internal distinct from any other treatment. Applications from the outside are futile. No ointments, injections or dilators are necessary. Pax is complete and is a vegetable remedy, contains no drugs or alcohol.

If you have not hitherto found relief do not despair, place your faith in Pax.

Except in unusually stubborn cases one box is usually sufficient.

Get "PAX" from your Druggist or if he cannot supply you send One Dollar and "PAX" will be sent you in a plain package.

"You know," said the lady, whose motor-car had knocked a man down, "you must have been walking very carelessly. I am a very careful driver. I've been driving a car for eight years."

"Lady, you've got nothing on me. I've been walking for sixty-two years."

Her mother was the bone of contention. She stayed so often with the young couple that she was the cause of many quarrels. One day she arrived at their house to find her daughter on the door-step, weeping bitterly.

"What's the matter?" she asked. "Henry left you?"

"Yes."

"Then there's a woman in the case, for certain."

"Yes, oh! yes, there is."

"Who is it?"

"You!"—sob.

"Goodness me! I'm sure I never gave him any encouragement!"

The Cost of the Lowest Bid

The electric equipment of a home to-day, no matter how simple that home may be, is a scientific problem and warrants a few minutes attention and study.

Electricity is constantly making life easier, more convenient and more comfortable for everybody and, as the world is grasping the place of electricity in the home, soon it will be the exception for a house not to be thoroughly equipped for every phase of electrical service.

Considering the importance of the electrical equipment of the home, nothing should be left to chance. The wiring should beright, illumination properly provided for, electrical outlets conveniently placed and the materials and appliances should be what experts have decided is necessary for a **safe, dependable** and **permanent** job. In other words, your equipment ought to be standard.

Your electrical installation requires a **specialized** knowledge just the same as your heating or plumbing installation. The heating engineer or the sanitary engineer knows better than you do what your house requires. In these cases, if you are wise, you select a man whom you know to be qualified in every respect to give you a satisfactory installation at a fair price.

There has to be a man who **knows,** and the community has to have some means to find him. The man who knows electricity, so far as it applied to the modern household, is the **qualified** electrical contractor, who is in close touch with the latest practise in electrical wiring.

For the BEST installation go to

Cumberland Electric Lighting Co., Ltd.

"DADDY" IS HERALDED AS JACKIE'S FINEST

"Daddy," which comes to the Ilo-Ilo Theatre on Friday and Saturday is a picture that is said to complete the full revelation of Jackie's extraordinary genius. His preceding offering, "Oliver Twist," disclosed Jackie's genius in its tender, pathetic and wistful aspect. "Peck's Bod Boy" revealed Jackie mainly as an impish, mischievous, adorable lad; there was grotesque humor in "Trouble," where in Jackie was a plumber's helper; but it remained for "Daddy" to bring to light Jackie's capacity for tragedy.

Jackie has been proclaimed by eminent critics as being one of the greatest actors of all time, regardless of age. "Daddy" will prove it, for in this First National picture Jackie is called upon to sound the lowest depths of tragic despair. It happens in but one scene. In the main the production is devoted to the spirit that animates its ending—happiness.

"Daddy" was produced by Sol Lesser and directed by E. Mason Hopper from the original story by Mr. and Mrs. Jack Coogan. In the cast are Bert Woodruff, Anna Townsend, William Lewis, George Kuwa, Arthur Carewe and Josie Sedgewick.

MAYO SCORES IN NEW TYPE ROLE AT RIALTO

Frank Mayo essays to conquer new fields in "The First Degree," on view Monday and Tuesday at Ilo-Ilo Theatre, his latest Universal starring vehicle which Edward Sedgwick directed.

As the hero of many thrilling melodramas of the north woods, Mayo has established himself as one of the leading outdoor types on the screen. In this new picture he creates a character in which strong emotional expression is required.

Those who have long maintained that Mayo can act as well in human interest stories as in outdoor pictures have the opportunity of seeing how well their belief is justified in this drama.

An innocent man sentenced to prison, his efforts to live down the stigma haunted by societys condemnation, then, on the threshold of a life of happiness and respectability, his suddenly coming before a Grand Jury and confessing as a self-accused murderer—these are some of the tense plot developments in "The First Degree."

GOSSARD Corsets are designed for every type of figure. Because there are many Gossard models especially designed to fit *your very own figure*, you will never have that tied-in, pinched-together look, that "corseted look" that is just as fatally ageing as its sagging uncorseted reverse.

Understanding your type is one of the most important aids to beauty you will ever find. Remember that whatever your figure may be there are Gossard Corsets with just the support *you* need at *your* age and weight to give *you* the proper proportions of the type to which you belong. Gossards are moderately priced, launder beautifully, will outwear two or even three ordinary corsets and will give you a comfort such as you never knew before.

Gossard trade marked Corsets as low in price as $2.50

DRY GOODS
& GENT'S FURNISHINGS

On Thursday while taking gravel out of the river with his team of horses, Mr. Robt. McQuillan and his son Harry received a ducking and nearly lost a valuable team when the wagon and team were caught in the river. Plenty of help was rushed to the scene of the near drowning and the horses and men saved. It was a narrow squeak, especially for the horses.

Mr. Tom Booth fractured a rib on Wednesday when a box fell on him at his grocery store on Wednesday morning.

Local Briefs

COURTENAY NEWS

BOARD OF TRADE ANNUAL PICNIC

On Wednesday afternoon a party of fifteen members of the Courtenay—Comox Board of Trade went to Kye Bay and did considerable clearing up under the trees, removing old stumps, rotten logs and otherwise preparing several groves for the use of picknickers next Wednesday, the 25th instant, when the annual picnic of the business men takes place at the popular beach resort. Since last summer a dancing and refreshment pavillion has been erected and during the afternoon, by the kind permission of the owners, the pavilion will be turned over to the Board of Trade who will run an open air dance from three o'clock. This should be a welcome innovation and attract a large crowd for the dancing, will probably be run on the jitney plan each dance costing a small fee.

An elaborate concrete fireplace was constructed, the work being superintended by Herb. Coleman who is visiting with Billy Douglas. This will eliminate a great deal of hard work and make it easier to keep a good fire going under the tea and hot water kettles. Hot water and tea will be provided free of charge and, as last year, every child who attends, will be handed an ice cream cone. Transportation will also be provided in an endeavor to make this year's picnic the biggest community affair that has ever been held in the district. A programme of sports is being arranged and should cause keen competition. There will also be an ice cream refreshment booth where soft drinks, confectionery, tobacco, etc. will be obtainable.

Mr. Frank Lalonde, operator of the Campbell River stage line has left for the United States side of the line on a tour of Washington with Messrs. Merrill and Ring, logging operators, as passengers.

On Wednesday an auction sale was held at the home of Dr. and Mrs. Millard, Courtenay. They are removing to Campbell River. The sale was conducted by Mr. Geo. J. Hardy and was well attended.

Mr. and Mrs. Jas. Donaldson,, Victoria are spending a holiday in the Valley.

Mr. T. J. W. Hick, auditor and inspector of the Liquor Control Board paid Courtenay a periodical business visit on Thursday.

Mr. E. C. Emde, of Nanaimo is in town on business.

Mrs. Geo. Richardson, of the Camp, left on Saturday last, for an extended trip to the old country.

Mr. R. Coe, Senr. and family left on Sunday last for a six weeks motor tour of California.

Miss Gallivan, former Public School Teacher here, is visiting at Royston.

Messrs. Hindmarsh, Trawford and Graham were visitors in town on Wednesday last, motoring over from Nanaimo.

The many friends of Mrs. Tom Scott will be pleased to hear that she is slowly recovering from her recent serious illness.

Mrs. I. Rickson, accompanied by her son, returned from Vancouver on Saturday last.

Mrs. Zaccarelli and Mrs. Biggs and family are spending a weeks' vacation with Mrs. Biggs' parents, Mr. and Mrs. Wm. McLellan, sen.

Mr. F. Oliver of Cassidys arrived in town on Saturday and returned on Monday.

Mr. Chas. Graham left for Vancouver on Friday and returned on Sunday.

Mr. W. A. Owen left for South Wellington on Wednesday and returned on Friday.

Mr. E. Smillie of Glasgow, Scotland, arrived in town on Thursday and is the guest of Mr. and Mrs. C. Dando.

Miss L. Waterfield of Vancouver arrived in town on Tuesday.

M. Geo.Michel arrived from Anyox last week and left on Thursday for Great Falls, Montana.

Royston Tennis Court, 2nd big Open Air Dance, Saturday, July 21st. Ball Room floor. The best Out-door floor on the Island. Special 8 piece orchestra. Since our last dance, we have built modern up-to-date supper room. Dancing from 9 p.m. prompt Tickets: Gents $1.00. Ladies 25c. Refreshment 25c.

Miss Isidore Sutton and Miss Smith have been appointed to the teaching staff of the Courtenay school. They are both local young ladies and graduate of Victoria Normal school this year. Miss Ault has been promoted
