FORTY-FIRST YEAR—NO. 32 | CUMBERLAND, BRITISH COLUMBIA, SATURDAY, AUGUST 12th, 1922 | SUBSCRIPTION PRICE: TWO DOLLARS PER ANNUM.

Results of Grand Raffle at Miners' Annual Picnic

Number.	Name of Winner.	Prize. Donated by
307	Morton Graham	Westinghouse E. stove, Can. Westinghouse Co., Vancouver.
663	Kim Bee	$5.00 Bill, Alcock, Downing & Wright.
1851	E. Mugford	Miner's Cap, Hardsocg Mfg. Co., Iowa
104	G. A. Brown	Universal Wrench, Gordon & Belyea, Vancouver.
956	Ed. Appleby	2 lb. Great West Tea, Munford & Walton, Cumberland.
1501	A. R. Nunns	Miner's Cap, Hardsocg Mfg. Co., Iowa
1900	Mah Yen	$5.00 Bill, Canada Metal Co., Vancouver.
301	Chas. McIntosh	Fishing rod, McLennan, McFeely, Vancouver.
1709	H. Sherburn	Miner's Cap, Hardsocg Mfg. Co., Iowa
603	D. Aaraki	Box of Stationery, Cumberland Islander.
633	Tadashi Doi	Pair of Gloves, Storey & Campbell, Vancouver.
2250	Cheng Wah	Miner's Cap, Hardsocg Mfg. Co., Iowa
700	Kashni (?)	$5.00 Bill, Canadian Explosives.
1960	James A. Quinn	Set of Mossberg Wrenches, Alcock, Downing & Wright.
2468	T. Malpass	Glass Shelf, Crane Ltd., Vancouver.
735	Chin Mee	Miner's Cap, Hardsocg Mfg. Co., Iowa
159	D. Kitamura	Sack Pastry Flour, Van. Milling & Grain Co., Vancouver.
1798	Chin Bow	2 lb. Great West Tea, Mumford & Walton, Cumberland.
158	J. Yano	Miner's Cap, Hardsocg Mfg. Co., Iowa
2193	Woh Yuen	$5.00 Bill, Can. Explosives, Victoria.
1794	Chin Bow	Twinplex Strop, Walter S. Fraser, Victoria.
1817	Mrs. Garey	50 ft. Garden Hose, Gutta Perca & Rubber Co., Vancouver.
2448	Unclaimed to date	Miner's Cap, Hardsocg Mfg. Co., Iowa
286	W. Marshall	Sunbeam Spot Lamp, Jeffree & Johnson, Vancouver.
1885	Mrs. Chas. O'Brien	Tumblers and Water Jug, Marshall-Wells, Vancouver.
210	A. R. Nunns	Fishing Rod, McLennan, McFeely Co., Vancouver.
2081	A. Ronold, for Chinaman	Miner's Cap, Hardsocg Mfg. Co., Iowa
1464	Mrs. Harriet Sharples	Sack Pastry Flour, Van. Milling & Grain Co., Vancouver.
1512	W. Woods	$5.00 Bill, McColl Bros., Vancouver.
2079	Unclaimed to date	Cocoa Urn, A. McKinnon, Cumberland
2045	G. Matsumato	Miner's Cap, Hardsocg Mfg. Co., Iowa
559	Douglas Bunbury	2 lb. Great West Tea, Mumford & Walton.
1550	Mrs. A. Aitken	Silver Bread Tray, Mitchell & Duncan, Victoria.
1003	Chow Long	Miner's Cap, Hardsocg Mfg. Co., Iowa
799	Mike Bolettino	Sack Pastry Flour, Van. Milling & Grain Co., Vancouver.
809	Chow Long	Gillette Razor, C. H. Tarbell, Cumberland.
1332	Cheno Toi	$5.00 Bill, McColl Bros., Vancouver.
1097	Wong Wah	Miner's Cap, Hardsocg Mfg. Co., Iowa
1544	Yew Yuen	$5.00 Bill, Pacific Coast Pipe Co., Vancouver.
338	Unclaimed to date	Miner's Cap, Hardsocg Mfg. Co., Iowa
1076	Victor Frelone	$10.00 worth of Goods, E. G. Prior, Victoria.
1776	Unclaimed to date	Miner's Cap, Hardsocg Mfg. Co., Iowa
1980	Chen Lun	$5.00 Bill, Pacific Coast Pipe Co., Vancouver.
535	George Cooper	Miner's Cap, Hardsocg Mfg. Co., Iowa
1848	J. Crawford	$5.00 Bill, Staneland Co., Victoria.
1823	J. Walter	Military Compass, Electric Blue Print Co., Victoria.
876	William Graham	Miner's Cap, Hardsocg Mfg. Co., Iowa
197	Chas. Stockand	$5.00 Bill, Staneland Co., Victoria.
1539	John Bond	Curling Iron, Cumberland Water Co.
73	A. Ronold	Miner's Cap, Hardsocg Mfg. Co., Iowa
551	W. Westwood	Pocket Compass, Instruments, Ltd., Vancouver.
628	Mrs. T. S. Wilson	$5.00 Bill, J. N. Bell, Vancouver.
179	T. Tapella	Miner's Cap, Hardsocg Mfg. Co., Iowa
190	Jno. Webber	Sack Poultry Feed, Vernon & Buckerfield, Vancouver.
1958	Mah Yow	$5.00 Bill, Frank Lawford, Vancouver.
984	W. J. Keenan	Miner's Cap, Hardsocg Mfg. Co., Iowa
2494	H. Millar	Electric Heater, Cumberland Electric Light Co.
80	Mrs. J. D. Davis	$5.00 Bill, Frank Lawford, Vancouver.
1001	Loo Tyk	Miner's Cap, Hardsocg Mfg. Co., Iowa
1814	Unclaimed to date	Miner's Cap, Hardsocg Mfg. Co., Iowa

Cumberland Orchestral Society.

Our readers will be pleased to learn that the organization of the Cumberland Orchestral Society is now an accomplished fact, and we may look forward with pleasureable anticipation to a series of orchestral concerts which will do much to brighten the social life of our city during the coming winter season.

The present membership is 17 including a number of ladies, and the instrumentation already includes ten violins, two clarinets, first and second cornets, 'cello, bass and piano.

The first reheasal was held on Friday last at the residence of Mrs. Oliver, R.A.M., and the conductor, Mr. A. J. Merry, expressed his pleasure at the excellent showing made by the members. It is considered necessary to acquire the use of a suitable hall in a central position for the convenience of members attending rehearsals. In a community such as this, there is no doubt a considerable amount of latent talent lying dormant, and ladies and gentlemen possessing orchestral instruments and wishing to become members of the society, are urged to communicate with Dr. R. P. Christie, who is acting as secretary pro tem, or with the conductor, Mr. Merry, at the earliest possible moment, as it is intended to arrange an orchestral concert as soon as possible for the purpose of raising funds for the purchase of certain instruments and music.

We understand the following instruments are urgently required to complete the ensemble and proper balance of the orchestra, viz.: Violins, viola, 'cello, string bass, oboe, French horn, flute (D), basson.

As several young players who are not yet efficient on their instruments have expressed a desire to join the orchestra as soon as possible, the conductor, Mr. Merry, will arrange to have an elementary class should a sufficient number of such players be forthcoming.

FINED $10 AND COSTS.

Wong Hen and Ah Sum were charged before Magistrate Baird with being inmates of an opium joint and were found guilty. Fined $10 and costs.

City Council

The regular meeting of the City Council took place on Monday evening in the Council Chamber, with Mayor D. R. Macdonald in the chair. Aldermen W. Beveridge, T. Bannerman, C. J. Parnham and F. D. Pickard were present.

The minutes of the previous meeting were adopted as read.

The city clerk read a communication from the Public Works engineer inclosing copy of an agreement relative to the Classification of Highways, asking for a copy of the by-law to be forwarded when completed. After some explanations were made by the Mayor as to the geography of the boundaries described, the new by-law was read at length and discussed, and passed its third reading, and laid on the table for the next meeting of the Council for confirmation.

CLASSIFICATION OF HIGHWAYS By-Law, A.D. 1922.

WHEREAS, in accordance with Section 38 of the Highway Act, being Chapter 99 of the Revised Statutes of British Columbia, 1911, enacted by Section 4 of the Highway Act Amendment Act, 1920,

An Agreement has been made and entered into on the 21st day of July, A.D. 1922, between

THE MUNICIPALITY OF THE CITY OF CUMBERLAND, B. C.
party of the one part,
(hereinafter referred to as "The Municipality") and

His Majesty the King in the right of the Province of British Columbia, represented by the Honorable the Minister of Public Works ,of the said Province
party of the second part
(hereinafter referred to as "The Province')

classifying 0.36 miles more or less, of Dunsmuir Avenue, situate in the said City of Cumberland, and

0.21 miles more or less of 4th Street —from Dunsmuir Avenue to the North Boundary of the said City of Cumberland,

as Secondary Highways, and

Whereas such classification has been duly and correctly denoted on the official map of the said City, and a copy thereof attached to the said Agreement

Be it Therefor Enacted by the Municipal Council of the Corporation of the City of Cumberland such agreement between The Municipality of the one part, and The Province, party of the second part, be, and hereby is, duly and fully ratified by this By-law.

This By-law shall come into force on the ..... day of August, 1922, and may be cited as "The City of Cumberland Classification of Highways By-law, 1922."

Be it therefore enacted by the Muni-
First Reading on August 7, 1922.

Read in open Council and passed its Second Reading on August 7, 1922.

Read in open Council and passed its Third Reading on August 7, 1922.

The city clerk next read a communication from the secretary of the Unemployed Conference, Vancouver, which after brief discussion was ordered received and filed.

The following cummunication from the Deputy Minister of Finance was received, relative to the city's share of liquor profits:

City of Cumberland Corporation.

Sirs,—At the direction of the Honorable, the Minister of Finance, I herewith beg to enclose cheque for $1,398.30, being the balance due on the distribution of the profits derived from the sale of liquor for nine months ending March 31st, 1922, as provided by Section 108, sub-sections (b) and (2) of the Government Liquor Act.

Payment on account for the sum of $705.89 was forwarded December, 1921, which together with the enclosed cheque makes a total contribution to your municipality of $2,104.19, covering above period. The per capita distribution of these monies has been made as far as possible according to the census figures for 1921, supplied by the Dominion Government and in other instances upon the estimates of population supplied by yourselves.

E. D. Johnson,
Deputy Minister of Finance.

As there seemed to be a divergence of opinion as to the amount paid per capita, which several aldermen understood to be in the neighborhood of $1.50 per capita on a basis of popu-

(Continued on page 5).

There will be a weekly orchestra practice at 7.15 p.m., this evening. All members of Cumberland's new orchestra are requested to be on hand and on time at the residence of Mrs. Oliver, Camp.

G.W.V.A. Notes

Information is desired concerning the present address of the following Comrades: P. Young, formerly of the 187th Batt., C. E. F.; ex-Pte. William Wells, No. 183059, C. E. F., and ex-Pte. Joseph Vincent Morris, No. 670178, C. E. F.

THE LABOUR-VETERAN QUERY

(Addressed to the individual members of the House of Commons).

"Considerable uneasiness exists among the organizations; represented by the undersigned, as to the intention of Parliament with regard to the question of unemployment. Present indications compel the conclusion that serious unemployment will be inevitable during next winter. The general opinion prevails that steps should now be taken to institute effective measures, apart from provision for doles.

"Organized labour, together with organized ex-service men, and other interests, have offered many constructive suggestions, with regard to this question. At the request of The Honourable the Minister of Labour, the Employment Service Council of Canada, representative of all nationally organized interests, prepared a series of recommendations on the subject. Moreover, the House of Commons, during the present session, adopted a resolution declaring unemployment a Federal responsibility.

"Because of the effects experienced by the organizations represented hereunder from this situation, your response to the following question is solicited:

"Do you consider that the House of Commons should deal with the question of unemployment during the present session?"

"Through the courtesy of The Ottawa Citizen, The Canadian Congress Journal (the official organ of The Trades and Labour Congress of Canada), and THE VETERAN, arrangements have been made for publication of your reply. It is confidently anticipated that your frank statement in the matter will do much to make clear what consideration is to be given the needs of the unemployed by members of the House of Commons.

"Yours faithfully,

(Sgd.) "TOM MOORE, President,
"Trades and Labour Congress of Canada.

(Sgd.) "C. G. MACNEIL, Chairman,
"Legislative Committee, Dominion Veterans' Alliance."

An Island Pioneer.

THE LATE BRUNO MELLADO.

Mr. Bronno Mellado, one of the last Victoria pioneers, passed away on Saturday, Aug. 5th, while on a visit to his daughter, Mrs. Bentley, in Yakima, Wash.

Mr. Bronno Mellado was born in Santaigo, Chile, on October 6, 1843, and eight years later arrived in California, where he spent seven years before coming to Esquimalt.

Arriving at Nanaimo, he took a position as draftsman and architect with Messrs, Dunsmuir & Sons, and later on with the Canadian Collieries (Dunsmuir, Ltd.), Cumberland, where he had charge of the outside work of the Colliery Co., residing here for about 20 years.

On August 14, 1871, Mr. Mellado secured the first marriage license that was issued by the newly-established Provincial Government, and signed by the first Lieutenant-Governor of British Columbia, the late Sir Joseph Trutch.

Mr. Mellado wedded Miss Mary Ann Thompson, eldest daughter of the late John Thompson, who was a resident of Nanaimo until his death, and also a Hudson's Bay pioneer.

Mr. Mellado leaves a wife and five daughters and one son, Mr. R. Mellado, with whom he made his home at 532 Dunedin Street, Victoria; Mrs. R. H. Robertson, Cumberland; Mrs. H. Creech, Victoria; Mrs. Bentley and Mrs, Cline, of Yakima, Wash., and Mrs. Jacobs.

Special Meeting

Secretary.

Successful Convention Of Associated Boards Of Trade Terminated Saturday Last

RESOLUTION ON AN ADDITIONAL IMPORT DUTY ON FUEL OIL, UNANIMOUSLY ADOPTED.

The Associated Boards of Trade of Vancouver Island opened their Convention in the Great War Veterans' Hall on Friday evening, with George J. Warren, of Victoria, in the chair. Delegates from the following Boards of Trade were present: Victoria, Sidney, Cumberland, Alberni, Duncan, Gulf Islands, Chemainus, Ladysmith, Courtenay, Nanaimo and Esquimalt.

Credentials Committee were: Thos. H. Carey, chairman, Cumberland; W. Menzies, Gulf Islands; T. H. Cook, Chemainus; W. H. Dawes, Sidney, and E. J. Lowe, Ladysmith.

Committee on Resolutions were: J. W. Coburn, chairman, Nanaimo; J. M. McIntyre, Courtenay; Dr. D. E. Kerr, Duncan; J. W. Spencer, Victoria; C. M. Whyte, Alberni; John Stewart, Ladysmith, and George W. Clinton, Cumberland.

The following were present at the opening: George J. Warren, President of the Associated Boards; J. W. Spencer, J. D. Cummings, of Victoria; W. H. Dawes, Secretary Associated Boards, Sidney; George W. Clinton, Vice-president Associated Boards; Thomas Graham, S. Davis, Jas. Dick, Colin Campbell, Alex. McKinnon, W. P. Symons, Alex. Walker, Mathew Brown, T. H. Carey, T. C. Bannerman, Edward W. Bickle, Cumberland; E. M. Whyte, A. W. Neill, M.P., Alberni; Dr. D. E. Kerr, H. F. Prevost, Duncan; A. H. Menzies, Pender Island; E. M. Cook, C. T. MacInnes, Chemainus; J. E. Lowe, John Stewart, Ladysmith; W. Denmer, Comox; John W. Coburn, F. S. Cunliffe, R. R. Hindmarsh, Nanaimo; H. Everett, J. W. McLeod, P. Leo Anderton and J. H. McIntyre, Courtenay.

President Warren's Opening Address:

Speaking before the Associated Boards of Trade of Vancouver Island, President George I. Warren, of Victoria, told how important results had been accomplished during the past year in devoloping industry and trade and the promotion of tourist traffic. There were seventy delegates present.

At the opening session Friday night the following committees were appointed:

Credentials—T. H. Corey, W. Menzies, T. H. Cooke, W. H. Dawes and B. I. Rowe.

Resolutions—T. W. Cockburn, G. M. McIntyre, Dr. Pell, J .W. Spencer, D. M. White, John Stuart and George W. Clinton.

Mr. Warren said: As president of the Associated Boards of Trade of Vancouver Island, I desire to express to the members of this organization with whom I have been associated, my deepest appreciation of the co-operation and support which has been accorded me during my term of office.

Since our last convention I am pleased to advise that several recommendations adopted at that time have been acted upon and results accomplished.

The Dominion Government has acceded to our request by improving the Sidney mail service, and the Sidney Board of Trade is to be congratulated on its perseverance in that matter.

The two minutes' silence on Armistice Day was generally observed last year.

After considerable effort the much delayed report of Mr. Justice Eberts on the fishery investigation was published.

Through the efforts of the Associated Boards of Trade of British Columbia and the Provincial Government, a Freight Rate Bureau has been formed and a freight rate expert will soon be placed in charge. This, no doubt, will be keenly appreciated by every shipper in our province, and a resolution of this association at the the idea was first suggested through last convention.

Mail Service Better.

The Dominion Government has improved the mail service between Alberni and the West Coast.

A resolution was adopted requesting more adequate facilities for ferrying between Vancouver and Nanaimo, and between Victoria and Port Angeles. This matter was given due consideration by our executive, and through the efforts of the Victoria and Island Publicity Bureau a new connection between Vancouver Island and the Mainland was established. An automobile ferry is now being operated between Anacortes and Sidney.

The directors of the Victoria and Island Publicity Bureau have now proven that the lack of adequate transportation facilities for automobile owners has been a serious handicap to the organizations which have been endeavoring to attract tourists.

Two boats are now being operated each day on this new run. During the month of July one of these two boats alone carried 730 automobiles, 7 motorcycles and 3,252 passengers, proving the popularity of the run. Since the operation this one connection has brought over 1,000 automobiles to the Island, and almost every section of the Island is securing beneficial results. The Canadian Pacific Coast Steamship Company has increased its Nanaimo service by operating the Charmer between Vancouver and Nanaimo on Saturdays and Mondays. This boat carries a large number of cars and is so constructed that limousines and closed cars can be accommodated.

Extend Highway.

There are several other important matters in regard to which no action has yet been taken, as follows:

(1) Extension of the Island Highway into the Sayward District and the construction of a road of the Canadian Highway to Long Beach on the West Coast. I understand that a part of the work on this Long Beach connection is now being carried out. The settlers of the Sayward District have been quite active in this matter and the Victoria organization has co-operated with them by appearing before the Provincial Government.

(2) The importance of construction of a road to Campbell River Falls.

(3) The establishment of facilities for assembling cargo on the Outer Wharves at Victoria. Quite recently the Canadian National Railway has opened one of these docks and it appears to be theirintention to develop business and make use of these wharves immediaely.

(4) The installation of a ferry service between Mill Bay, Salt Spring Island and Saanich Peninsula. This work is now well under way and it is quite likely that an important announcement will be made before the end of the year that services will be commenced.

(5) Amendment to the immigration laws, further restricting the admission of Orientals into British Columbia.

(6) Assurance of permanent preservation of the Cameron Lake timber area, a scenic attraction.

At this time I would like to briefly mention some of the developments and a few statistics of Vancouver Is-

(Continued on Page Two)

COMMUNICATION.

To the Editor of The Islander:

Sir,—As a resident of Cumberland for twenty years, I have read with a good deal of interest the reminiscences which you have published of this city, dating back to its earliest history, and it would not perhaps be out of place to draw a comparison of the conditions that existed at that time compared with the present. Long ago the residents immediately adjacent to Cumberland were not only disposed, but anxious, to become citizens and readily purchased a city lot and put up a residence and made their home with us; they were willing and did pay more for a lot than they are offering at to-day; in fact, it seems to me that vacant lots are going begging. Houses have been and are still going up like mushrooms, in every direction, immediately outside the City boundary. Only quite recently we have seen an up-to-date business concern erected and completed right up against our City boundary. There must be something "rotten in the State of Denmark," to use a slang expression, when conditions like this prevail. I have come to the conclusion that there must be some good and sufficient reason why this City is deprived of so many would-be citizens and boosters for this otherwise propressive city. I intend, with your kind permission, in the next issue of your valuable paper ,to give what I think is partly, if not wholly, the cause of this unfortunate state of affairs.

Yours truly,

A Taxpayer.

As Welcome as The Harvest

With the glory of the harvest spread over the West, ripened for the sickle, nothing is more natural than a desire to invest some of the proceeds in equipment for farm, home and self; and no medium offers so tempting and profitable a field for the customer as **EATON'S** Catalogue.

The new Fall issue is now ready. If a copy does not reach your house shortly, notify us.

To Get The Biggest Saving

and the best service, order early and in sufficient quantity to secure the lowest freight rates. It is good policy to have our Grocery Catalogue handy—the values are good, and will help to make up an order that will save on transportation charges

Successful Convention Of Associated Boards Of Trade

(Continued from page 1.)

land during the past year.

I am unable to quote the approximate value of the fishing production on Vancouver Island alone, although the Dominion Government statistics show that in 1921 the output of our fisheries in the whole province was over 8,000,000 less than in 1920.

Value of Fisheries.

Salmon and halibut contributed 87 per cent. The amount of capital invested in vessels, boats and traps and piers for catching and landing fish in the whole province was $7,500,000, while the number of employees was 10,623. In the fish canning and curing business the capital invested in the province was $12,450,000, while the number of employees was 4,471.

These are the Provincial statistics and it is not possible to state what proportion belongs to Vancouver Island.

The Dominion Government is operating three fish hatcheries on Vancouver Island, which had an output during the current season of over 14,000,000. Of this number 4,490,000 were distributed as eggs, 8,953,000 as fry in the free swimming stage, and the balance of 647,000 are being fed in retaining ponds and will be liberated after they have attained a length of from 3 to 3½ inches.

The fact that fishing, being one of our chief industries, is on the decrease would possibly indicate that more efforts be made to protect the industry. Possibly by having a closed season or adopting other legislation before the fish are exterminated.

During the year the Provincial Government has expended $64,885 on roads in the Alberni district, which takes care of 586 miles and 305 miles of trails. They have also expended $93,595 on 425 miles of roads and 3 3-4 miles of trails in the Cowichan district, $115,727 on 176 miles of roads and 60 miles of trails in the Esquimalt district, $73,377 on 289 miles of roads and 19 miles of trails in the Islands, $114,625 on the 57 miles of roads in the Nanaimo district, $24,547 on the 235 miles of roads in the Newcastle district, and $8,144 on the seven miles of roads in the Saanich district. Totalling this up, you will see that on Vancouver Island during the past year the Provincial Government expended on roads, trails, bridges and wharves the sum of $537,233, taking care of 1,980 miles of roads and 467 miles of trails.

Damage by Trucks.

In referring to roads I would call attention to the fact that Government engineers report extraordinary traffic and state that heavy logging trucks have caused a large outlay in repairs on roads and side roads. Legislation limiting such traffic during wet months would be welcomed.

On March 7 of last year Canadian engineers at London, Ontario, issued a warning that no vehicle capable of carrying over one ton, shall, during the months of March and April, carry a load greater than half of its normal capacity. The law is a new one and the penalty for infraction is a fine of $100.

In Norway, owing to the enormous expenses in rebuilding roads which were built for lighter traffic, the authorities have found it necessary to regulate traffic to suit the roads, instead of rebuilding the roads to carry the traffic.

It would appear, further, that some sort of legislation of this kind to protect our Island roads could be enacted by the Provincial Government.

The operation of the proposed new Mill Bay ferry would save the famous Malahat Drive, and restriction could then be made limiting the traffic over the road.

Minerals.

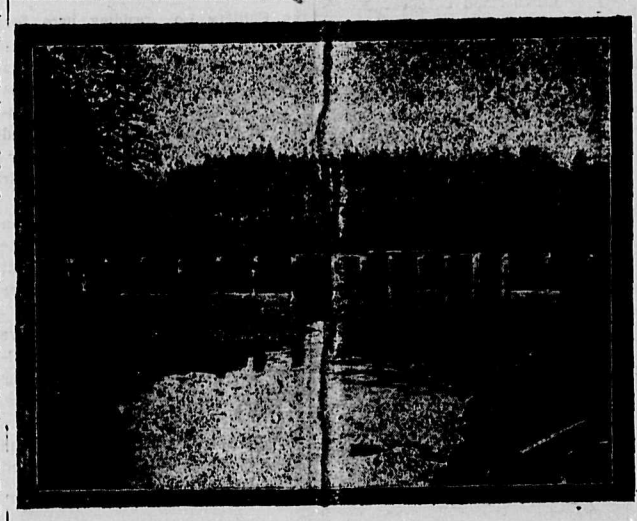
The Vancouver Island mineral production for 1921 was $9,139,000.

Building materials amounted to $1,000,605, as follows: Pottery and clay, $759; brick, $70,690; sand and gravel, $35,424; lime and limestone, $273,326; cement, $620,406. Coal, 1,625,931 tons, $8,129,655. Of this amount 320,110 tons were exported to the United States.

The yield, acreage under cultivation and value of agricultural products of Vancouver Island for 1921 have not yet been ascertained. The segregation of these figures from British Columbia's total is proceeding at the present time.

Schools.

During the year five new schools were established, located at Menzies Bay, near Seymour Narrows; Beaver Cove, near Alert Bay; Oyster Bay, near Campbell River; Upper Sayward, north of Seymour Narrows, and East Sooke.



Main Dam, Canadian Collieries (Dunsmuir) Limited, Hydro-Electric Plant, Puntledge River, Visited by the Delegates to the Associated Boards of Trade Convention on Saturday last.

Exports and Imports.

Statistics show that during 1921 the Customs officials of the Dominion Government collected in revenue at Nanaimo $242,812.70, and at Victoria $1,202,808.17, making a total revenue of $1,245,620.87 collected on Vancouver Island. The imports amounted to $10,052,434, while the exports amounted to $15,381,645.

Vancouver Island is included in the Vancouver Forestry district, and returns cover the whole district, making it impossible to quote the Island's quota of this resource. During 1921, 284,056,003 feet were scaled on Vancouver Island. This, however, represents a small proportion of cut, a larger proportion having been towed to Vancouver and scaled there.

I wish particularly to call your attention to the necessity of very strict measures being taken to prevent forest fires. During the present year over a million dollars has already been lost in the province through forest fires, and I am informed over 1,500 forest fires have occurred up to date, 586 of which were in the Vancouver district, which includes our Island.

Forest Fire Prevention.

The Provincial Government last year has given considerable publicity to the necessity of preventing fires in the woods. In addition to carrying advertising matter in the various papers, calendars were issued bearing publicity matter relative to slash burning, twenty-two thousand posters bearing excerpts from the fire law issued, in addition to these, were issued and advertised thirty thousand envelopes bearing pictorial warnings to fishermen to be distributed to the trade as wrappers for the fishing tackle. Last year forty-five prosecutions were issued for burning without a permit, fourteen for leaving camp fires burning, five for refusing to fight fire, and seventeen for miscellaneous causes.

It is to be regretted that such a large percentage of fires are caused by persons carelessly leaving camp fires or dropping lighted cigarette stubs, and legislature, as well as educational work, should be carried on.

Last year timber to the amount of 68,000,000 feet was killed by fire. The Government is endeavouring as far as possible to protect standing timber, and is now maintaining three land wireless telephone stations located at Vancouver, Myrtle Point and Thurston Bay, where last season 2,000 messages were received and relayed between May and September.

The forest protection equipment now in possession of the Government consists of 41 launches, 53 cars, 75 pumps, 88,800 feet of hose, with the shovels and general equipment for 2,642 men, representing a capital expenditure of $147,000.

Last year 1,200 miles of trail were cleared and constructed during the fire season. These figures cover the province and are given merely to call your attention to what has already been done.

Rural Development.

During the past year the E. & N. Railway has graded the Great Central Lake branch from Port Alberni to Great Central Lake. The rails are laid to Stamp River, where a steel span is now in the course of erection.

Completion of the rail to Stamp River is now furnishing facilities for carload shipments from two small mills in operation in that section.

Several large timber structures which required renewal had been filled and replaced with steel spans, making a permanent way. During the past year light steel has been replaced with twelve miles of standard 80-pound rails.

Daily passenger train service was inaugurated between Victoria and Courtenay during May, with improved freight service, which it is hoped will help increase trade between different centres of Vancouver Island.

No construction work has been done on the Canadian National lines in the Island during the past year.

Tourist Development.

I have above mentioned the increased facilities for ferrying and automobiling to the Island, and am confident that the development of this trade will be rapid during the next year or two.

The City of Victoria alone this year is expending $25,000 for publicity purposes, and the Nanaimo Rotary Club, with the co-operation of the Board of Trade and the City Council at that place, have printed some literature which is assisting the development of tourist trade.

The many resorts and hotels on the Island should be encouraged in every way, and these establishments are becoming well known throughout the country.

Many of these tourists who come to the Island on pleasure will no doubt return to their homes with a new knowledge of the possibilities offered here, as well as information regarding our wonderful natural resources.

Last year mention was made as to the lack of use of the public libraries in the communities on the Island, and I would again call your attention to the need of libraries to keep the Island abreast with the thought of the world. Libraries are not merely a form of recreation, but essential part of the educational system of any country.

Ten o'clock Saturday morning found the Association members in full session at the G. W. V. A. Hall, when the Credentials Committee reports were passed. Mr. Coburn, chairman of the Resolution Committee, presented the following resolutions to the meeting, presided over by the president, Mr. George I. Warren:

1.—That the Associated Boards of Trade of Vancouver Island affiliate with the Associated Boards of Trade of B. C., thus enlarging the scope of work to be accomplished for the advancement of trade and better business conditions throughout the province.

2.—That the proposal to urge upon the Provincial Government the immediate completion of the Island Highway to and through the Sayward Valley and district, be postponed until such time when funds are available; one member suggesting roads in the valley rather than roads into and out of as a preliminary measure.

3.—The "deadly and destructive use of salmon eggs" as a means of destroying the sportive trout once so great a feature of our most attractive and world-known rivers, was the raison d' etre for a strongly-worded resolution to the Government asking for an Act to make the use and sale of salmon eggs illegal. Mr. Prevost, of Duncan, spoke most feelingly on the depletion of this asset to all sport-loving British Columbians — river trout—and referred to the "cars of fish hogs" who swarm along our now dusty roads to the best fishing grounds, using salmon eggs as bait to haul in hundreds of pounds of delectable fish which they wasted or threw away.

4.—A resolution to request the Government to restore the discount on payment of taxes as obtained previously in British Columbia, met with the general approval of the members of the Associated Boards as affording better facilities to the tax-payer by granting an extension of time for payment or a rebate to those who are able to take advantage of the discount hitherto allowed.

5.—The recent holocaust brought forth an appeal to the Government in the form of a resolution for greater protection from forest fires and the careful seeding down of burnt areas before obnoxious weeds were allowed to establish themselves. Reforestration being strongly urged by able speakers. In a most exhilirating speech Mr. A. W. Neill, M.P., drew forth admiration and applause for his explanation of his proposed "Act" to deal with our provincial bugbear, the Oriental question. This in reply to the reading of no less than three strongly worded resolutions dealing with the matter. He quoted from the "New Zealand Emigration Act," which he stated must surely be adopted sooner or later in part or in toto by all the self-governing colonies of the Empire. In eloquent measures he explained how the national pride of the people of the Far East precluded legislation that could be described as discriminative; that registration of Orientals was an imperative measure to be adopted; that naturalization of the Oriental should cease, and that as Japan allows aliens to acquire no vested rights in property, we too should make the acquisition of property impossible for the Oriental. The Oriental in large numbers in our midst does not enhance the value of our citizenship, but rather lowers the average standard of civilization, being largely responsible for our present surplus of unemployed. In seconding this resolution, Mr. Thomas Graham suggested a most valuable solution for the restriction of Oriental influx by making the sanitary and healthy conditions of living of the white population a standard that all residents of B. C. would be compelled to live up to; Orietals included.

8.—A resolution calling for the protection of our scenic highways and by-ways from the debasing smirches of hideous signboards, brought forth an almost unanimous disapproval of the desecration of such spots as Plumpers Pass and the most picturesque points in our Island highway. The question arose, however, of the right of the individual owner to show his bad taste by erecting advertising signs and billboards where tourists and nature lovers foregather to admire the beauty of our woods and views of our islands and the sea.

9. That the Associated Boards of Trade of Vancouver Island have the interests of the smaller industries at heart was shown by a resolution to appeal to the Government for an assembly point, at the Ogden Point wharves in Victoria, for lumber for overseas ports for those smaller and inland mills who have no assembly seaside point to ship from; such as Genoa Bay, Chemainus harbor and Nanoose Bay afford to the mills adjacent. It was, however, pointed out

Successful Convention Of Associated Boards Of Trade

(Continued from Page Two)

how inadequate were the facilities for traffic transfer between the railway terminus at Victoria and the outer harbor wharves themselves.

10. A friendly tilt took place on the reading of a resolution for the fostering and furtherance of farming in the Comox-Courtenay district, and the proposal for an experimental farm in this section of the Island. The delegates from Comox-Courtenay and Sydney-Saanich districts holding diverse views of the relative importance of their habitat, this district really giving a better idea of the possibility of our basic industry and its success on the Island than the smaller and more southern and olive-growing(?) section to the south.

Utility versus sentimentality in regard to uor standing timber adjacent to the Island highway, and the beautiful falls at Campbell River called forth much discussion, and a resolution urging the Provincial Government to prevent the timber devastation, was read by Mr. Coburn. Comparisons between our useful and ornamental water-power and the vastly greater Niagara Falls failed to elicit the sentimental preservation of the purely scenic value of the famous falls. Development of our resources spelling employment, whereas preservation spells unlimited extension of our already vast public park area, with only benefit to the tourist and intermittent sport-seeker in the interior. It was urged that development of our water power would in no wise spoil the beauties of the Campbell River district, and that nature would, with man's scientific assistance, reforrest those sections depleted of useful and merchantable timber, and thus afford more immediate industry without unduly robbing the Island of all its scenic attractions.

A resolution requesting the residence of the recently appointed junior Judge in the district where his jurisdiction extends, brought out a divergence of opinion as to where the Judge does reside and whether the northerly or southerly portion of this Nanaimo county is most in need of a resident Justice. It was shewn that the number of Court cases requiring the presence of a Judge were almost evenly divided between the district north of Nanaimo and that to the south. This resolution was referred back to the Courtenay Board of Trade for further information.

The proposal for a duty on fuel oil to stimulate the coal industry, was perhaps from a local point of view, the most important matter discussed at the convention. Mr. Thos. Graham explained the reasons for the resolution asking the Government to impose this duty. He stated that millions of dollars left British Columbia yearly for the purchase of fuel oil that if spent for coal would double the output of this valuable industry in the province, and of course double the payrolls and give steady employment to twice the number of men now at work. At present but 10,000 to 15,000 are employed in the coal mines in B. C. A duty on fuel oil would mean an increase of 100 per cent in the general business of the province, and every other industry besides that of coal production would feel the benefit. The whole meeting endorsed this resolution, which was as follows:

Resolution on Fuel Oil.

Whereas despite the increase of population and industrial development of the Province of British Columbia during the past twelve years, the production of coal in the province during that period has retrograded, being approximately 500,000 tons per year less for the years 1920 and 1921 than it was in 1910, and whereas coal is a basic industry and essential to the industrial development of the province, it is highly essential that the coal industry should not only step, but keep ahead of the industrial progress of the province, and whereas we are yearly importing 4,320,000 barrels of crude fuel oil into the Province of British Columbia, and this oil is displacing coal equal to the present annual commercial production of coal on Vancouver Island, and whereas this fuel oil is taking $1,000,000 per month out of the province of British Columbia, whilst the coal mines of Vancouver Island are working only one-half their present capacity, and whereas this amount of money spent in British Columbia would furnish not only steady employment to the men now employed in the coal industry, but would give employment to many more thousands of men, and whereas no nation can hope to be industrially great that is dependent upon another nation for its fuel supply;

Therefore be it resolved that this meeting of the Associated Boards of Trade of Vancouver Island, approach the Dominion Government with a view to increasing the present duty on the imports of crude fuel oil used for steam-raising purposes, as an assistance to fostering and upbuilding the British Columbia, an industry which coal industry of the Province of is evidently unable to live in face of the competition of fuel oil and is retrograding rather than keeping progress with the industrial development of this province.

A resolution calling for a small holdings policy to stimulate settlement, was referred back to the Sydney Board of Trade for further information.

Considerable comment was expressed re the meagre passenger steamer service to the Island, it being stated that it was considerably superior 30 years ago.

In view of the dangerous condition of the Malahat route to Victoria in bad winter weather, it was resolved to appeal to the Government to improve and complete the alternate route from Shawnigan to the Capital, which has but half the elevation of the beautiful scenic Malahat driveway, and which can be used during the wet months with less danger to cars and their occupants.

A resolution requiring local Boards of Trade to give 30 days' notice of resolutions to be brought before the Associated Boards of Trade, was moved by the Alberni Board of Trade and adopted. Appreciating the excellent work of the Publicity Bureau in Victoria, which is under the wing of the Victoria Chamber of Commerce, the Associated Boards of Trade members resolved to co-operate with the Publicity Board in the issuance of a special pamphlet enlarging on the opportunities and attractions of Vancouver Island. This is an important resolution, and will no doubt meet with a great success, as Mr. George Warren, president of the Associated Boards is already largely responsible for the advertising done so effectively by the Vancouver Island Development League and the Chamber of Commerce of which he is also president. A committee consisting of one member of each of the Island Boards of Trade will form a special committee for the purpose.

Mr. A. W. Neill, M.P., read an extract from official correspondence, explaining that owing to the protest made to the Government against unfair competition in the matter of Japanese coal being brought to B. C. as ballast, on one known occasion, it was now possible for steamers of B. C. marine service to use B. C. coal only.

After the minutes of last year's convention had been adopted, the secretary-treasurer's report was passed, and an honorarium voted to the secretary, Mr. Dawes, for his valuable services during the past year.

A vote of thanks to the Cumberland Board of Trade for their kind hospitality and support, to which the greater success of the Convention owes so much, was voted by acclamation. In reply, Mr. Sutherland, the local president, expressed most gratifying views of what Victoria, its Board of Trade and publicity campaigns had done for the up-island points, and avowed the determination of the members of Cumberland Board of Trade to "back up Victoria every time." A vote of thanks and appreciation to "Our Member," Mr. A. W. Niell, M.P., for his interest in his district, the Island, the Province and the Dominion, met with instant recognition.

Election of Officers.

Mr. Geo. L. Warren was unanimously re-elected president for the third time. This is no surprise to those who know his remarkable services to the Island, both as a member of the Victoria Chamber of Commerce and the Publicity Board and Vancouver Island Development League, but also as an ardent booster for everything for the welfare of business and sports in the province, and especially on Vancouver Island.

The re-election of Mr. Clinton, as vice-president, was equally popular and equally deserved.

On the invitation of Mr. Coburn, of Nanaimo, it was unanimously decided that next year's convention be held in that beautiful and central seaport—Nanaimo.

Before the convention adjourned, Mr. Thomas Graham graciously extended an invitation to the delegates of the Associated Boards of Trade to visit the Cumberland plant of the Canadian Collieries, Ltd., and he explained that this plant is entirely run by the most complete hydro-electric plant in Canada, where 10,000 h.p. is developed and no steam plant is required or in use.

A short meeting of the Executive Committee completed the work of the convention. The entire delegation leaving in several cars placed at their convenience by Cumberland members for a trip of inspection of Cumberland's one great industry. Long may it flourish.

It is Mentioned

That the convention banquet was an unqualified success.

That all the speeches were most able and heartily appreciated.

That Mrs. de Coeur, of the Cumberland Hotel, deserves great credit for the excellent table and decorations.

That Mr. Coburn, of Nanaimo, gave a most interesting and graphic story of the historic advance of commercial and industrial progress on the Island since 1885.

That the stentorian voice of the President of the Associated Boards of Trade carried to every part of the L.W.V.A. hall, and carried weight, too.

That the "Vicar of Bray" was never more appreciatel than when Mr. Hindmarch, the Herald of good news, from Nanaimo, rendered the old favorite.

That Mr. Owen surpassed himself as accompanist from first to last.

That much goodfellowship ensued, and the delegates to the convention were delighted with Cumberland's hospitality.

Published every Saturday morning at Cumberland, B. C.

EDWARD W. BICKLE

SATURDAY, AUGUST 12th, 1922

Question of Place of Residence of Junior Judge of Nanaimo County.

For some years past the residents of the northern part of the county of Nanaimo pressed the Government to appoint a second or junior judge for that county, basing their request, inter alia, upon the fact that the county of Nanaimo, which includes the whole of Vancouver Island lying to the north of an imaginary line drawn from a point on the west shore of Saanich Inlet to the west coast of Vancouver Island, was too extensive for one judge to handle. Eventually Mr. J. C. McIntosh, of Victoria, was appointed second or junior judge to the Nanaimo county, but instead of his residing in the northern part of the county in question, he persists in residing at Oak Bay, which is in Victoria county and not in the Nanaimo county as some seem to think; Oak Bay is, by the way, some 140 miles from Cumberland.

As matters stand at present the southern part of the Nanaimo county has a resident judge at Nanaimo City —70 miles from here,—and is also served by Judge McIntosh, giving that part of the county which has a double train service, good roads, and the distances between villages and towns nothing to speak of compared to conditions here, two judges; and leaving the northern part of the county, which for a considerable part of the year has but three trains per week, without a resident judge.

That Judge McIntosh is bound by law to reside in the county for which he was appointed, is clearly indicated by Section 62 of the "County Courts Act" of British Columbia, which provides that "EACH COUNTY COURT JUDGE SHALL RESIDE WITHIN HIS COUNTY," and by Section 28 of the "Judges' Act" of the Dominion of Canada, which provides that a county judge shall hold office during good behavior AND HIS RESIDENCE within the county or union of counties for which the court is established, and both of the Acts in question also provide that the word "Judge" shall include "Junior Judge."

The matter in question was brought up on the 5th of this month before the annual meeting of the Associated Boards of Trade of Vancouver Island, at which meeting delegates representing nine different Boards of Trade of the Island were present, and after careful consideration a resolution was passed asking the Government to see that Judge McIntosh obeyed the law by way of residing within his county, and further asked that the Act be amended to force him to live in this part of the county, or else to divide the county into two separate counties by way of making a new county running from near Alberni to the north end of the Island.

County Courts Act of British Columbia

Section 2.—"Judge" or "County Judge" means a Judge or Junior Judge of any of the County Courts in this province, etc.

Section 62.—Every County Court Judge shall attend and hold a County Court at each place in his County where the Lieutenant-Governor in Council from time to time shall order that the County Court shall be holden, and at such times as the Lieutenant-Governor in Council shall appoint for that purpose, and the Lieutenant-Governor in Council may from time to time make orders in that behalf, AND EACH COUNTY COURT JUDGE SHALL RESIDE WITHIN HIS COUNTY.

Judges' Act, Dominion of Canada.

Section 2.—"Judge" as applied to County Courts, includes a Junior Judge.

Section 28.—Every Judge of a County Court in any of the Provinces of Canada, shall, subject to the provisions of this Act, hold office during good behavior AND HIS RESIDENCE within the County or union of Counties for which the Court is established.

Extract from British North America Act.

Section 92.—In each Province the Legislature may exclusively make laws in relation to matters coming within the classes of subjects next hereinbefore enumerated, that is to say:—

Sub-section 14.—The administration of justice in the Province, including constitution, maintenance and organization of Provincial Courts, both civil and of criminal jurisdiction, and including the procedure in civil matters in those Courts.

Section 96.—The Governor-General shall appoint the Judges of the Superior, District and County Courts in each Province, except those of the Courts of Probate in Nova Scotia and New Brunswick.

OUR BOYS.

No more important social work exists to-day than the splendid movement taking place almost all over the whole of the Dominion known as "A better time for our boys," which churches of every denomination, lodges and good-fellowship and brotherhood organizations are uniting and co-operating to forward in so exemplary a manner. In this good work the Y. M. C. A., the Rotary Clubs and other bodies in every large city are endeavouring to uplift, instruct and amuse the young generation that is so rapidly growing up to manhood, preparing our boys to fit themselves physically, mentally and spiritually for their life work; instilling ambition, love of work, sportmanship in play and a new vigor in all healthy, clean, out-of-door life, and getting behind for a better time for the 'teen-age boy; to help the boy who needs it, drawing no line between rich and poor, doing something worth while for the coming-on race that will in a few years be taking our places in the world.

Cumberland is not unlike other smaller communities in that it has its full quota of fulsome, healthy young lads, with but meagre means of recreation and health-giving facilities for camping and using the spare hours of school term and the long days of holiday time to the very best advantage. Also Cumberland has a *great number of men—fathers* and brothers of our boys who are greatly interested in this very question, but who have not yet grasped the great idea of getting together on this most important work and organizing to get behind for a better time for our boys. Let's get busy right now, while the 'water's fine—come on in." The proprietor of this paper has this subject very much at heart, and he means to back it up; himself and The Islander will do all in their power to consolidate the efforts of every one interested in this movement.

Kamloops, B. C., has a very lively up-to-date Rotary Club, and also boasts of a Junior Brotherhood, and these two organizations are combining to form the personnel of a new executive committee with the one and only object of providing a programme the various churches and every other public body in the city. Recently of boys' work, with the assittance of they had a very enthusiastic meeting and are hot on the trail of a constructive policy for an instructive and pleasant year's program of work and play for their boys. Can't we here in Cumberland do the same? We can, and we will.

It is a tradegy in the life of a boy who is not going to camp when his companions are going. It is a great thing for all boys in one community to have an opportunity to get together for play as well as for school work, and the summer camp is a great maker for lifelong friendships, common love of the great out-of-doors and acquaintance with nature in all her moods and whims.

A "Father and Son Banquet" would, indeed, be a good way of starting to work for "a better time for our boys," and should be an annual affair and a red-letter day for both fathers and sons. Let's try it.

Of course, these things cannot be done without co-operation and cost, We should like to hear what the fathers and older brothers think of *this. We know how the boys of a* former generation would have appreciated such an effort, so now is the time to do for the youngsters all we can to give them a better and more interesting time.

Campbell's

British Columbia logging camps will operate for a longer period this year *than has been the case for many* years, according to Mr. G. G. Johnson, president of the B. C. Loggers' Association. This is due to the fact that so many camps have lost time this summer through danger of fires. The news will be welcomed by many hundreds of woodsmen who have been out of work this year during the season when they usually made their year's stake. "Many camps now shut preparing to resume operations at an early date," said Mr. Johnson.

The hanging of O'Sullivan and Dunn for the assassination of Field Marshall Wilson, which is announced to take place to-day, in London, is an evidence of the swift and sure punishment of hienous crime in the British Empire.

Cookies and Small Cakes

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

(All measurements for all materials are level.)

COOKIES

¾ cup shortening
2 cups sugar
¼ cup milk
2 eggs
⅛ teaspoon grated nutmeg
1 teaspoon vanilla extract or grated rind of 1 lemon
4 cups flour
3 teaspoons Dr. Price's Baking Powder

Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 2 cups flour sifted with baking powder; add enough additional flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

DR. PRICE'S CREAM Baking Powder

Made from Cream of Tartar, derived from grapes. Produces foods that are finer in texture, richer in flavor and thoroughly wholesome.

MADE IN CANADA

COCOA DROP CAKES

4 tablespoons shortening
1 cup sugar
1 egg
½ cup milk
1¾ cups flour
3 teaspoon's Dr. Price's Baking Powder
½ cup cocoa
¼ teaspoon salt
1 teaspoon vanilla extract

Cream shortening; add sugar and beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth, add vanilla. Half fill greased muffin tins with batter and bake in moderate oven about 20 minutes. Cover with boiled icing.

ORANGE CAKES

4 tablespoons shortening
1 cup sugar
⅔ cup milk
1 egg
2 cups flour
3 teaspoons Dr. Price's Baking Powder
⅛ teaspoon salt
1 teaspoon orange extract grated rind of 1 orange

Cream shortening; add sugar slowly, beating well; add milk a little at a time; then add beaten egg; sift flour, baking powder and salt together and add to mixture; add flavoring and orange rind; mix well. Bake in greased shallow tin, or individual cake tins, in hot oven 15 to 20 minutes. When cool cover with orange icing.

Government Agent Endorses

Cascade BEER

THE BEER WITHOUT A PEER

Vancouver-made Product is put to acid test on most difficult foreign markets in the world, and comes off with flying colors.

Cascade Beer has made good in India. This is the most trying climate in the world, and yet Cascade Beer kept there for more than a year had the same pleasant tang and was just as fresh and pleasing to the taste as when it left the Vancouver Breweries.

There is no less an authority for this than H. A. Chisholm, trade commissioner for the Dominion Government. Writing to the Commercial Intelligence Journal, published by the Canadian Government, under date of May 13, this year, Mr. Chisholm says in part:

"The last consignment reaching Calcutta is said to have been a shipment of 'Cascade' from Vancouver, landed in March, 1921.

"It speaks well of this brand of Canadian Beer that, although it has been in store for over a year in one of the most trying climates in the world, its quality has not deteriorated and none of it has gone bad. Its 'crown caps' seem to have protected the contents better than corks have the German lagers. The writer was informed that this brand of Canadian Beer, although not as heavy as English Ale, produced a pleasant stimulating effect on the stomach that German lagers could not produce. According to many informants, this particular quality in Canadian Beer is just what is demanded in the tropics."

Can there be a better endorsement than this for a hot-weather drink? Here is Cascade—a Vancouver-made product—that can be shipped to India, held for more than a year, and when opened prove to be more palatable and better adapted for a tropical beverage than beer manufactured right in India or imported from other famous breweries of the world. Stick to "Cascade" this hot weather.

Cascade Beer

THE BEER WITHOUT A PEER

For more than Thirty Years Cascade has been the Favorite Beer of Western Canada.

FOR SALE BY ALL GOVERNMENT VENDORS.

The following was received and read by the city clerk from the Union of B. C. Municipalities, New Westminster, B. C.

City Clerk, Cumberland, B. C.

Sir,—The annual convention of the Union of B. C. Municipalities will be held this year at Vancouver, B. C., commencing at 10 a.m., Oct. 4th, 1922. It is necessary that you send me the names of your delegates as soon as possible, as the president will name several committees who will meet prior to the opening of the convention

Further information will be furnished you later as to complete programme. If your Council desires to present any resolutions, I will be pleased to receive same before September 15th. Enclosed please find copy of draft constitution.

Yours truly,
A. W. GRAY,
Secretary.

It was moved by Alderman Beveridge, and seconded by Alderman Parnham, and the city clerk instructed to forward a copy of the same to the Union of B. C. Municipalities, at New Westminster, begging for the consideration and support of the convention of the following resolution:

"That the Provincial Government should be urged to remove the restrictions now placed upon the application of monies received from both the poll tax receipts and liquor profits which now confine them only to school and hospital purposes, and that such monies should be applicable to all purposes at the discretion of the City Council."

Bills and accounts as follows were referred to the Finance Committee, and if found correct, to be paid:

Evans, Coleman & Evans	$118.14
Land Registry Office	.98
Cumb. Motor Works	34.95
Cumb. Islander	14.75
T. Mordy	.97
C. H. Tarbell	2.76
Royston Lumber Co.	35.84
Workmen's Compensation Bd.	51.73
Electric Light Co.	21.70
Waterworks	17.75
B. C. Telephone	5.10
Can. Coll. (D. Ltd.)	51.01

In regard to the matter of refund of Church taxes, it was shewn that Mr. P. P. Harrison, the city solicitor, was doubtful if taxes could be collected back to 1911. He was also of the opinion that the Anglican Church hall was not a part of the church and therefore not exempt. The city clerk was instructed to look into the matter of settlements re Church tax refund in other cities, Ladysmith, Duncan, Nanaimo, etc.

Alderman Pickard for the Board of Works committee, reported that the sewer work was completed and streets cleared of thistles, and that only a small amount of filling remained to be done on 2nd and 3rd Streets, and that now there was no longer a shortage of water the sewer on Front Street could be flushed.

The Fire Warden's committee reported a leak in the city water tank rear staves, and this was ordered to be fixed.

Also that the bell tower was still in a dangerous condition, but that the Council expect to have this renovated in another week.

Alderman Bannerman reported on the condition of the hydrant on Derwent ave.; it was ready for the new valve; it had been difficult to obtain a valve and repair the hydraant. Believed it would be cheaper to buy a new hydrant, and that there was a new one that could be secured here and installed at once, while the old one was overhauled. This was ordered to be done if satisfactory arrangements could be made.

The city clerk made a most valuable suggestion as to the opening of special bank accounts for monies received, earmarked for specific purposes, as he stated how misleading it was for general information of committees when these amounts were included in the citys general balance. The Council advised the banking of the 50 per cent of liquor profits cheque under the head of "Hospital," to prevent misconception of deposits.

A resolution moved by Alderman Beveridge and seconded by Alderman Bannerman, to reconstruct a new brick chimney, from the ground up, to replace the present one which is in a dangerous condition at the Isolation Hospital, and to make any other repairs necessary. The Mayor suggested that the Council visit the Isolation Hospital in the near future to ascertain what can be done to enhance the general efficiency and comfort.

The meeting adjourned.

Bill Muir, B. C. high-diving champion, met with a terrible accident last Saturday at Victoria while giving a diving exhibition from the 100-foot tower at the Gorge, breaking his back. He is a member of the V. I. A. A. and holds many records for his superbly courageous and dangerous diving acts. The performance was witnessed by 2,000 awestricken spectators.

Baron Byng of Vimy, Governor General of Canada, will arrive in Victoria on August 23. A reception for veterans of the Great War will be held at Government House. This reception will be for all war veterans, whether members of war veterans associations or not.

Money may go further now—but it rarely reaches pay day.

There is no Grain Known that will

produce as many whites as yolks of eggs

Therefore, any grain mixture is not a balanced ration, and it is necessary to feed a mash high in animal and vegetable protein.

The mash ration, high in protein, goes to make up the white, while the grain ration, which is high in carbohydrates and fats, makes the yolks of eggs.

Therefore, if a hen is fed a grain ration only, there will be a large surplus of yolks, which will be absorbed by the body to make fat, instead of forming with a white to produce an egg.

NOTICE

EFFECTIVE IMMEDIATELY ALL WASTE OF WATER MUST STOP.

Owing to the prolonged dry weather we find that it is necessary to restrict the use of water, as if we allow the present enormous consumption to continue the town may, in the event of no rainfall for the next two months, be faced with a water famine.

In YOUR interests and for the protection of YOUR property in the event of a fire, we find it necessary to bring into effect immediately the following regulations:—

(1). Water must not be used for sprinkling or irrigating purposes except—FOR ONE HOUR ONLY—from 7 a.m. to 8 a.m.

(2). The practice of using water for the purpose of watering sidewalks, streets, etc., must cease. Persons using water for these purposes are liable to have their services disconnected until such time as we can install a meter on their supply.

(3). Leaking taps, toilets, pipes, fittings, etc., must immediately be brought into good repair as any premises on which water is found wasting from these causes will be disconnected without further notice.

There is absolutely no desire on the part of this Company to curtail the use of water when same is used in a proper manner for domestic purposes, but in a large number of cases we find this privilege being abused and should the abuse continue we shall be forced to consider the installation of water meters, which would make the cost of water much heavier for the same consumption.

We once more draw to your attention the fact that this is being done in YOUR interests as every leaking tap or pipe or sprinkler used unnecessarily lowers the water pressure and consumes water that may be needed in a few weeks more for household purposes or may be needed TODAY to extinguish a fire on YOUR property.

Thanking you in anticipation of your co-operation in this matter, we are,

Yours truly,
CUMBERLAND AND UNION WATERWORKS COMPANY LIMITED.

Sports To Be Held Here Labor Day

LABOR DAY SPORTS AT CUMBERLAND, ON MONDAY, SEPT. 4th.

The Cumberland Junior Football Club will hold a day of field sports on Labor Day, Sept. 4th, on the Recreation Grounds. A large committee is being organized to manage the sports, and everything is favorable for a great success. The prospective program will include junior five aside football competition, eleven aside football competition for school boys, relay races, bicycle races, novelty races, and additional events for school children of all ages. When the program is completed it will be very extensive, with many new sporting and athletic events included. All events will be open to all school children of Cumberland and district, including Courtenay, Comox, Bevan, Union Bay, Royston, Minto, etc. It is the intention of the sports committee to have included in the program a mixed relay race, team of four, two boys and two girls to a team; each team to represent a school in the district. Any school may have more than one team. It is to be hoped that the girls and boys of the different schools will take great interest in this event, as good pribzes will be offered. In all likelihood this event will be for boys and girls 15 years and under. The Finance Committee appointed to secure funds for the prize list is meeting with great success. All the business men approached have responded generously, and any person desiring to contribute to the prize list may send name to Nat Bevis, secretary, Box 547, Cumberland, which will be greatly appreciated.

The committee of the Junior Football Club and those gentlemen that have consented to assist on the sports committee, are requested to meet at the Cumberland Literary and Athletic Club Hall on Sunday, Aug. 13th, at 7 p.m., to make further arrangements for the sports.

A list of the subscribers to the prize list will be acknowledged in next week's Islander.

A dance will be held in the Ilo Ilo Hall on the evening of the sports.

Union Bay baseball exponents visited Cumberland last Sunday and outbaseballed the Juniors to the tune of 4 to 0.

FOOTBALL

The Upper Island District Football Association held a convention on Sunday at the Globe Hotel, Nanaimo, to organize for the 1922-23 season. Nat Bevis, of Cumberland, was elected chairman; A. E. Thorneycroft, Nanaimo, vice-chairman, and William Macdonald, sec.-treasurer.

The executive committee is as follows: William Hart, Nanaimo; R. Morgan, Ladysmith; Will Burnip, Nanaimo; Will Brown, South Wellington, and J. Quinn, Cumberland.

R. Strachan, of Cumberland United, was also a delegate to the convention.

The executive are now busy drawing up a constitution to govern football conditions in this local district, which will be placed before a general meeting of the clubs to be held in the early part of September. The football season opens on Sept. 1st, and all League executives are advised to get organized and schedules drawn up at an early date. It must be noted that the rules for Junior football have been very much changed this season. There is no age limit for juniors, as was the case last season; also juvenile players shall mean all boys under the age of 17 years preceeding the 16th of Sept.

Baseball Leagues and How They Stand.

Cumberland Protest.

In the Senior League standing above it will be noted that if Cumberland wins their protest, they have entered in connection with the recent Ladysmith-Cumberland game, both Nanaimo and Cumberland will be tied for first. The protest is on account of Ladysmith playing McMurty and Landerbaugh, two recent Granby men who had not been registered with the Ladysmith team two weeks, as is required in the Island League.

We learn Ladysmith is also in hot water over another protest. Nanaimo officials are pressing the latter. In the last game between Ladysmith and Chemainus, the Ladysmith folks played one Kerr by name, who was not registered the required period.

If these protests are held valid, it will leave the argument for the silverware between Cumberland and Nanaimo.

In the Comox District Intermediate League, the swily Nipponese are showing their heels to everybody. The local boys have excellent chances of grabbing the pennant, and it is not liekly that they will let it slip out of their fingers without an awful argument. This week-end Union Bay and Bevan exchange greetings on the former's sand lot. The other game is between the Japanese and Cumberland, and to date these two teams have drawn the biggest crowds, and this game will no doubt prove no exception to the rule.

Costly Errors Lose What Should Have Been Tight Game.

On Sunday last the Cumberland baseballers chucked a costly game away to the Union Bay boys in the Intermediate League. It was a pity for Dave Hunden to lose a game by 4 runs when he should not have one tally recorded had he been given anything like decent support. Anderson was on the mound for the Clamdiggers and pitched a great game, allowing but four safe hits. It was a costly game for the local lads to lose, as they are now one game behind the pennant leaders—the slugging Japanese. A win for the locals ties the league leadership once more.

The superb pitching of both Andy Anderson, for Union Bay, and Dave Hunden, for the home team, was the feature of the game. The pitchers divided the honors of the day. Each struck out 12 men and both moundsmen issued a free pass to the premier sack. Hunden was taxed for seven base hits, and the local swatters only managed to connect with four safeties from Anderson.

On the day's play the visitors fully deserved their win. Their defensive work was excellent, the team giving Anderson air-tight support, bungling but two chances. Renwick played a great game in the field for the visitors, and his team-mate, J. McKay, excelled with the willow, touching up Hunden for about half the team's hits, three in all. The Bay boys made a nice double play in the last inning which was materially assisted by poor base running.

For the local team, Messrs. Hunden, Richards and Miller the shining lights on the team. Their nifty work contrasting greatly with the remainder of the team's bungling display. "Cotton" Miller played well in the field, although he booted one chance; he took delight in hammering Anderson's offerings around the lot, as also did Dave Richards. The latter's excellent base running was a pleasure; he stole no less than four bases, and was called out the first time he attempted to steal third—when he appeared as safe as a church.

Although the locals did not fall in love with some of the umpire's decisions, it was easily their own errors that lost the game. The local boys must realize they are only human; everyone has their "off" days.

THE FRIVOLITIES.

A recent visitor to Nanaimo from this town paid a call one evening on the director of the rehearsals for the coming 4-day festival of music, art dancing and other frivolities under the auspices of the Nanaimo "Gyros." He witnessed several hundred terpsichoreans and vocalists practicing entrancing steps and joining in exhilerating choruses, and can prophesy a large attendance this coming week and a larger sum of good money handed over to the local hospital than even the most enthusiastic local worker realizes. Its worth going to.

Weather bureau plans to forecast six months ahead. That's easy. January: Much cooler.

A sure thing is when your wife says she is going anyhow.

COMBINATION CREAM

Jonteel

It Melts Into Your Skin

So smooth, so daintily creamy, is Combination Cream Jonteel, that the skin absorbs it eagerly.

Not a suspicion of grease after use; nothing to clog the pores.

And fragrant with the rare Odor Jonteel—the blended perfumes of 26 selected flowers.

To nourish the tissues—to keep the skin soft, clear, and pliable—and particularly, as a perfect foundation for powder—you will find in Combination Cream Jonteel every requirement you have long sought in a face cream.

Today is none too soon to give your skin the benefit of Combination Cream Jonteel. Take home a jar.

Steel Industry for B.C.

That an agreement has been formulated between the Coast Range Steel Company and the Provincial Government which will facilitate the establishment of a steel industry in the province is the latest announcement of Premier John Oliver, who has stated that this will come into effect in the next few months.

Associated with this new and important enterprise are: Mr. H. J. Landahl, ex-Mayor Gale of Vancouver, J. A. Campbell, a Vancouver lawyer, and Mr. C. P. Hill, the wellknown mine owner and engineer, of Vancouver, who advised the interested parties.

The Government of B. C. has agreed to bring in an Act at the next session of the Legislature to repeal the present bounty on the production of iron and steel, and in lieu of that bounty, to guarantee the bonds of the Coast Range Steel Company up to $4,000,000, or one-third of the total investment required. A similar amount has been guaranteed by the Imperial Government, and the Dominion Government has been approached for financial aid.

The location of the proposed site for the plant of the Coast Range Steel Company has not yet been divulged, but it will undoubtedly be on tidewater and in the vicinity of iron and coal mines. Union Bay has been mentioned as a probable site for the new steel industry that will employ many men and result in the expenditure of considerable outlay in construction and the large payroll that will eventuate. This Island is the logical location for this important departure, with its vast iron properties and huge coal producing areas.

Coal Seam Found

An analysis made by T. Scott Anderson, Sheffield, England, shows that the coal found near Seaton station, on the Grand Trunk Pacific Railway, which is part of the Canadian National Railways, in Central British Columbia, gives a coke yield of 74 per cent. This is said to be a greater return than that of any other coking coal in the West. Being located in the centre of one of the greatest mineral regions in the world, this coal will be an important factor in future mining operations there. There are several seams, running from eleven inches to six feet in width on the exposed surfaces. The following interesting details are taken from the analysis:

	Per cent.
Moisture	1.5
Volatile matter	23.1
Mixed carbon	61.1
Ash	13.5
Sulphur	.8

The chemist, T. Scott Anderson, writes: "The total quantity of crude oil obtained equalled 34 gals. per ton, which on distillation gave the following:

About 6 gals. of light oils up to 150C
" 4 gals. of medium oils up to 200C
" 6 gals. of medium oils up to 250C
" 6 gals. of medium oils up to 300C
" 12 gals. of medium oils over 300C

These latter 12 gals. can be fractionated further and another 10 gals. of good heavy oil obtained, plus 60 lbs. of pitch. The quality of these oils is exceedingly high, and I have no hesitation in saying that in England the bulk could be sold at 4½d per gal. Of course, the oils require the fullest fractionation possible to bring to light the real value of the product. With every coal it is essential that the ultimate values should be known, and it is possible that the 4½d per gal. I have named may be brought to 6d.

74 Per Cent. Coke.

"The coke yield is about 74 per cent. This is a very firm coke, free from sulphur, and as metallurgical coke would be worth in this city 30s. (approximately $7.50) per ton. What it is worth in British Columbia I am not aware, but if a steel plant were running there it would be valuable.

"Sulphate of ammonia—produced 15 lbs. This is low simply because of our low temperature. Much more could be obtained by treating the coke further and producing power gas. The amount of gas produced was small, and after washing would be used for firing the retorts. The cost of complete treatment would not exceed 4s. ($1) per ton of coal."

A Regina inventor has developed a process of briquetting Saskatchewan lignite coal, which, according to claims made, will render this coal more suitable for domestic purposes than it is in its natural state. Tests have been made before Government officials at Regina, who will make a report on the result.

Emergency sessions of the Saskatchewan and Alberta Legislatures have been called to deal with proposed legislation, necessary under the Federal Act, to create a public wheat marketing board. Manitoba has not taken action on account of the elections which took place last month, and the new administration not yet being organized. As the new crop will soon be on the market, some of the farmer leaders have urged that no action should be taken this season, contending that it would be better to wait a year than to undertake the proposed marketing system under hasty organization.

"The best time to have a fight with your wife is on pay day," says Li'l Gee Gee, the Office Vamp.

We saw a man in white and tan shoes discussing women's vanity.

Welcome Rain

After months of intense heat and smoke, the result of the recent forest fires, Sunday last brought a respite from anxiety to the residents of Cumberland and the district. An early shower and a morning's rain did much to dampen the ardour of the encroaching and widespread forces of devastation, and cleared the countryside of columns and clouds of smoke. That welcome rainfall was indeed something to be grateful for and no one was put out except the fuming fires themselves. With miles of valuable timber converted into smoke-filled space, with homes and property and lives destroyed or in danger, the first rainfall for some long weeks was we hope thankfully received by everyone who has a home to lose or a hearth to protect, and should help to keep us from grumbling at the rain that kept many from their devotions.

The Cowichan Conservative Association and the National Liberal-Conservative party, held a mass meeting at Duncan on Saturday last to elect delegates to the convention to be held at Vancouver on August 21, 22 and 23. The delegates were given a free hand in voting for a new party leader. The motion re the substitution of contract for day labor on the making and repairing of roads in unorganized districts, was declared lost. A resolution urging upon the Dominion Government for a responsible branch of the Marine and Fisheries Department to be established on the Pacific coast, was carried.

SLAT'S DIARY

Friday—Ant Emmy is kind of ole fashioned witch is visiting at are home wile she is ma's gest. She ast me what book was I reading this evning and when I informed her it was named When Nighthood was in Flour she curls up her nose and claimed she had no use for all these new fangled names of the present day and Age. She sed when she was a little girl of your yrs. they called them Night Caps and letter go at that. She says Hoods was only wore in cold Climets like Greenland and Canady.

Saturday—Blisters got the gang to gather today and sugested that insted of playing base ball we shud ought to form a yung boys wirking club and ern money cleaning up the town, but he changed his mind because he seen his idea was about as Popular as a republican in Alabama

Sunday—Mr. Gillem was out of luck today. They got up before daylite to take a trip and he told pa he made a misstake and pored milk in his Crank case and when he got a few miles ou tin the county he discovered that it had churned up into butter. Ma said he was a lion.

Monday—Past bills all the after noon for the store and got paid ten cts. I gess this store is what you wood call a Close Corporation. Only it isnt any jokeing matter with me.

Tuesday—Ant Emmy hassent saw are new house yet witch we are bilding. She ast pa what it was going to look like and he told her it wood probly look like a peace of difficult music. She ast why and he sed Because it wood have so many notes on it.

Wednesday—Ma is trying to get me to play with Edwin Smith on acct. he uses good English but i druther lissen to sum 1 I can understand what he is tawking of.

Thursday—Ma tuk sum pears over to ole man Hix and he sed he wont never eat pears because his grampa died of pearitonitis.

JOB PRINTING

We are in a position to handle job work in a satisfactory manner, and will appreciate any orders received. The Islander plant is well equipped in every way, being the largest and most up-to-date of any found in a town the size of Cumberland. We have added considerable equipment to the Islander Plant during the past year or so in order to be in a position to successfully handle anything that may be placed in our hands in the commercial job printing line. The Islander has had splendid support in this direction, and this fact is very much appreciated. If at any time our customers are not satisfied we hope they will tell us so, and we will endeavor to make it right. We go on the principle that only the very best work is wanted by our many customers, and we endeavor to give them what they want. To those who have printing to be done, we ask them to give us a chance to do it. We feel sure that our prices will be found reasonable, consistent with good workmanship.

THE ISLANDER

Doggone the luck. We never seem to get a chance to wait on the pretty girls that drop into the office. Some fellows have all the luck.

Girls who wear knickers say they don't show any more of their legs than when they wear skirts. Then why wear knickers?

EVADING LICENSES.

Before Stipendary Magistrate Baird on Wednesday afternoon, at the Court House, Cumberland, Owen McDade, of Royston, was charged by the Chief of Police with being within the precincts of Cumberland municipality, on July 29th, last, and driving a motor-car for the purpose of plying for hire, without a municipal license.

The defendant pleaded not guilty. It was shewn by Chief Merry that McDade brought a lady passenger from Royston to Cumberland, that he drove slowly up and down Dunsmuir Ave. with a "For Hire" card attached to his automobile, and that he was advised by the Chief of Police to take out the customary $5.00 municipal license, which he refused to do. Although urged by the Chief to do the same as other motor drivers do, McDade positively rejected the Chief's insistance that he secure a license to ply for hire in the city of Cumberland. The magistrate imposed a $5.00 fine, which together with the license and costs, made a total of $14.80 to be paid in two days.

McDade stated that upon the advice of his solicitor he would appeal.

Only one witness was called, who made several statements not having any hearing on the case.

ROYSTON BEACH.

The camping season is now in full swing. The beach has its maximum quota of summer visitors.

Mr. and Mrs. Chas. Graham and family are occupying their summer residence again this year.

Mr. and Mrs. A. McKinnon and family are also numbered among the summer visitors.

The spacious residence of Mr. Jas. Potter is rapidly nearing completion, and will be no mean addition to the many summer homes at Royston.

Mr. and Mrs. Colin Campbell and family are again at the beach this year.

Mr. F. J. Dalby has made a considerable addition to his home at Royston, which will be his permanent home in henceforth.

Mr. Earl Dowdell, accompanied by his wife and child, is visiting his father, Mr. R. Dowdell.

Mr. and Mrs. John Sutherland are again staying at their summer house at the beach.

Mr. and Mrs. Thos. Mordy are spending a few weeks at their summer camp.

Mr. Dando has built a pleasant little house among the many shade trees just above the Island Highway. Mr. Dando and his family are residing there for the summer months.

Mr. Wm. Merrifield is occupying his newly-built house at the beach.

Messrs. Alex. Straith, C. MacNeil and Irvine McDiarmid, all of Victoria, were among the visitors to the beach last week.

Mr. F. Rolston, of the Rolston Motor Co., Vancouver, spent a few days camping at Royston.

COUNTY COURT CASES.

Five liquor appeals, one indecent assault, six Civil cases, and several applications in Chambers, will be dealt with at the next sitting of the County Court, to be held in this city on the Second Wednesday of September, when His Honor C. H. Barker is expected to arrive on his usual monthly visit.

The committee in charge of the Ladysmith Band contest have awarded the Cumberland Band a special marching prize of $25.00.

A huge loggers' picnic takes place at Forbes Landing to-morrow, Aug. 13.

The Cumberland Oddfellows' picnic takes place to-day, August 12th.

FAVORS UNION BAY.

The Rev. Thomas Menzies, M.P.P., for Comox, is authority for the statement that the steel plant which the Imperial, Dominion and Provincial Governments are combining to establish in British Columbia, will be located at Union Bay. The accessibility of the harbor, the almost inexhaustible coal supply of high coking quality close by, and the reasonable price of land in the vicinity, all point to the feasibility of our local member being correct in his estimate of the probable site for the great steel industry which H. J. Landahl has spent strenuous years to bring to fructification. The local hydro-electric plant can produce all the power necessary for the steel plant, and is only a few miles to the north of the proposed site. Mr. Menzies said: "The great steel works of the world are located adjacent to the coal beds, as will be the case at Union Bay, and the iron ore is brought by rail or steamer to the coal district. For the Pennsylvania steel works, ore is brought even from 'way up Lake Superior."

The concrete foundation for the new press about to be installed at the Islander office, was completed this week.

Annual Meeting Employees' Medical Fund.

The Canadian Collieries (Dunsmuir) Ltd., Employees Medical Fund, held their annual meeting on Saturday, in the lecture hall of the Cumberland Literary and Athletic Association. James L. Brown occupied the chair. Jas. Dick, secretary-treasurer, of the Fund, presented his annual financial report, which was adopted as read. Committees as follows were elected for the ensuing year: No. 4, M. McAdam, A. J. Taylor, Sidney Hunt, James Brown and J. H. Vaughan. No. 5 Mine—Harry Walker, P. McNiven, H. L. Bates and George J. Richardson. Miscellaneous—A. C. Lymn. Surface and Union Bay committee will be elected at the next meeting of the Board.

NOTICE TO CONTRACTORS

CUMBERLAND SCHOOL.

SEALED TENDERS, superscribed "Tender for Cumberland School Heating," will be received by the Hon. the Minister of Public Works, up to 12 oclock noon of Thursday, the 24th day of August, 1922, for the erection and completion of a steam-heating plant to present school-house at Cumberland, in the Comox Electoral District, B. C.

Plans, specifications, contract, and forms of tender may be seen on and after the 8th day of August, 1922, at the office of the Government Agent, Court-house, Vancouver; the Government Agent, Court-house, Nanaimo; the Government Agent, Court-house, Cumberland; and the Department of Public Works, Victoria, B. C.

Intending tenderers can obtain one copy of plans and specifications by applying to the undersigned with a deposit of ten dollars ($10), which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of three hundred and eighty-five dollars ($385), which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

P. PHILIP,
Public Works Engineer.
