II.vi

49 Queen Ann St
April 28th

Dear Mr Darwin,

I received your letter this morning. I have read & noted the contents of the enclosure which I return to you.

I shall write to Lyon Playfair asking him to see me after he has read the Paper, which you will have sent him.

I think the Ceremony of places objectionable, but

too unpractical to be likely
to be adopted by Parliament.
Places cannot be made re-
sponsible. So that licensing them
would not prevent abuses,
supposing such to be likely to occur.

I have not yet received Dr
Acklands signature. Other
were ~~I have~~ we have them all.
I cannot (after careful consi-
deration) see that it would

be advisable to suppress his petition.

I have sent some notes to Mr. Setchfield on the IIIrd section – particularly (4) i.e. the last paragraph

It is rather disagreeable to think that these miserable people will be going on agitating till next year.

I had a choice anonymous letter the day before yesterday

telling forth in her usual style, her peculiar views of her other world unknown for me

Sincerely yours

J. B. Sanderson
