THE BRITISH COLUMBIAN.

VOLUME 30 — NEW WESTMINSTER, B. C., SATURDAY, JULY 3, 1886. — NUMBER 1

The British Columbian.

Saturday Morning, July 3, 1886.

Current Events and Opinions.

British Columbia has come to the front since the practical completion of the Canadian Pacific Railway fully as rapidly as her well wishers had confidently predicted. Enough is known already respecting the province to arouse keen interest in it amongst intending emigrants, and to foster the belief that its attractions are such as to draw to it a fair proportion of the surplus capital and labor of the old world. But further information of a more detailed character is being daily sought, and efforts are being promptly made to supply it. Messrs. Allsop & Mason, of London and Victoria (British Columbia), have issued a pamphlet by which useful work in this direction will doubtless be done. The writers aim at calling attention to the immense undeveloped wealth of the province, and its great importance to the commerce of the world. Hence they briefly, but clearly indicate the variety and commercial value of its fish, timber, and mineral resources; its scenic attractions; and the advantages it offers as a place of resort for health or recreation. They specially emphasize the opportunities which are now afforded of advantageously investing in the province the capital which, to quote the pamphlet, "always appears in England in excess of demand." Writing upon the strength of a business experience in British Columbia, which extends over a period of twenty-three years, Messrs. Allsop & Mason point out the modes of investment which can be specially recommended, and the information they are able to furnish will doubtless be sought for both by capitalists and emigrants interested in a province, than which Lord Lorne declared "there was no fairer land in the world." —*Canadian Gazette.*

The clear, lucid and exhaustive explanation given by Mr. R. Dunsmuir in his able speeches in this city and at Wellington, must have convinced every reasonable thinking man that his connection with the procuring and carrying out of the contract for the construction of the Island railway was meritorious, and should not have brought down on him the condemnation of his fellow residents in the city of Nanaimo. Even that arch-agitator—O'Brian—who was the principal central figure of that agitation, admitted publicly at the meetings held in this city and Wellington that Mr. Dunsmuir had acted in a straightforward, conscientious, and commendable manner in obtaining this railway charter and thus protecting his own interests and the interests of the people of this district. The two speeches recently delivered by Mr. Dunsmuir is the first explanation that the people of this province have received from him of his connection with the railway negotiations, and it is safe to say that the explanation is deemed most satisfactory by almost the entire people. Even the most bitter opponents of the settlement act, after hearing the lucid explanation say that it places Mr. Dunsmuir in a much more favorable light, and are willing to give him due praise for his energy, enterprise and shrewdness in carrying out such an undertaking. Now that more light has been thrown on the subject the people see the risk they ran from strangers getting control of those lands, who would of necessity have been compelled to open up mines at a distance from Nanaimo and thus depreciate the value of property and lessen the chances for work in this city and adjacent districts. True it is that in doing this Mr. Dunsmuir protected his own interests, but that protection extended to the Vancouver Coal Company and every owner of property in Nanaimo city and district. We publish an outline of his speech in this issue and our readers can therefore see the explanation given and form their own conclusions.—*Nanaimo Free Press.*

For some time past the Fair Traders and other advocates of protection have bade the British farmer compare his own bad fortune with that of the agriculturists of the United States, whose products are admitted duty free, and who prosper under protection. Free traders have all along replied—first, that the farmers of the United States were seconded by extraordinary natural advantages which the English farmer lacked; and next, that, even with these, the day must come when the American farmer, saddled with the heavy duties levied on imported goods in the interest of the manufacturer, must give way in the race, and find himself being gradually edged out of the European markets. This is now coming to pass, and a good deal sooner than most people expected. An interesting consular report, by Sir Sackville West, states that the imports and exports of the United States for 1885 show a decrease of twenty millions sterling upon the shipping trade of the previous year. This falling off is due, not so much to the drop in agricultural prices as to the diversion of the trade in breadstuffs into new channels. India is as surely superseding America as the granary of the world as America supplanted Russia. At the same time, Egypt is gradually depriving the Southern planter of his monopoly in cotton. Five or six million acres in Egppt are under cotton tillage, and India is also a contributor to this market as well as that for corn. Free from the trammels of a protective tariff which unnaturally increases the price of machinery and forces up wages, the Indian ryots and Egyptian fellahs are beating the Americans in their own market, and before our transatlantic kinsmen have fully woke up to the advantages of free trade, we may see such a diversion of trade from the west to the east as will astonish superficial observers, but which cannot fail to benefit the whole world, and first and chiefly the countries which were wise enough early to perceive the folly of protection, and had courage enough to disregard the prophets of evil who sought to make them retrace their steps.—*London Times and Echo.*

Against Secret Societies.

OTTAWA, June 19.—Decrees of the council of the Roman Catholic church, recently held at Quebec, having been cabled to Rome and met with the approval of the Pope, Cardinal Taschereau has issued a pastoral letter containing them, which will shortly be read in the churches of the diocese. The following quotation is from this letter:—

"The cosmopolitan character of secret societies, and that of the Knights of Labor in particular, necessarily exposes many of their members to execute the orders of a council residing in a foreign country, which council at a given time may not only have interests at variance with those of the government to which its members owe allegiance, and may even be at war with God. For these and other reasons the church could not consistently tolerate the organization or approve of the means resorted to in order to attain the desired end.

"The council also deemed it prudent, in the interest of the church and Christianity, to consider the secret aims of the promoters of Freemasonry, and to warn the adherents of the Catholic church against joining such organizations, and especially the Knights of Labor, on the pain of excommunication."

In another section of the pastoral letter is contained a quotation from Leo Foxill, of France, who was a prominent member of the Masons of old France till last summer. He thinks Masonry is a grotesque imitation of Catholicism, and has its rites, but its promoters desire to have their own ceremonies apart from the teachings of the priests of God, and desire to extinguish and put out of existence the teachings of the Catholic faith.

British Politics.

LONDON, June 26.—Lord Randolph Churchill opened his campaign at Paddington to-night in a two hours' speech. The hall was crowded with an enthusiastic audience. Lord Randolph defended his election address, which has been so much criticized. Every word of it, he said, was gospel truth. He sat down to write with a resolution to tell the truth and shame the devil. Mr. Gladstone's scheme, he continued, placed the government in the hands of the Catholic Celtic peasantry, under the control of American adventurers and an unscrupulous fanatical priesthood. He had nothing to say to the American dynamite and dagger faction, but they offer old England a challenge. Our prisons are large and rope is cheap, and we have plenty of amateur hangmen, he declared, and for the first victim of dynamite or the dagger we have scores of avengers. When the first Englishman falls the lives and persons of dynamiters, and their allies, will be placed in the mercy of an angry and outraged people. Parnell spoke to-night at Plymouth. He said the present struggle was a struggle of the British and Irish democracies against the class of landlords. It had not been and could not be denied, he continued, that Lord Carnarvon agreed with him as to the main line on which autonomy should be granted to Ireland; but all that was the matter with Lord Carnarvon was that he could not agree to the adoption of Mr. Gladstone's bill, which nobody denied. Parnell did not desire to make any further disclosures, but he thought it very probable that Lord Carnarvon's scheme included the retention of the Irish members in the house of commons. Lord Carnarvon for six months had urged the adoption of his views and the cabinet had not opposed them seriously.

MANCHESTER, June 26.—Gladstone this morning appeared to be much exhausted as a result of yesterday's strain upon his powers. His voice was hoarse, but his spirits seemed as strong as ever. He received a delegation of Liberals from Irwill and spoke in response to their address. He said among other things—there is to-day but one discontented province in the whole British empire, and that province is Ireland. It is time for Englishman to end this disgrace. After this Gladstone paid a visit to the mayor of Manchester and subsequently took the train for Liverpool.

"The Cruise of Her Majesty's Ship Bacchante, 1879-1882," compiled from the private journal, letters and notebooks of Prince Albert Victor and Prince George, of Wales, was issued in London by the Macmillans Wednesday. The sons of the Prince of Wales have served their apprenticeship as midshipmen, and in this book give their experiences in a cruise around the world.

Port Hammond Nursery!
NOW IS THE TIME TO SEND IN your orders, if you want some of those nice fruit or ornamental trees, shrubs, etc., from Ontario. As I return about the middle of June to settle up my affairs there and come out this fall with the stock for my nursery here, and will select and bring your orders right along with me for this fall and next spring's planting, I will satisfy all both as to quality of trees and fruit, and I will be settled here in the business so you will know where to find me. All communications after the middle of June may be addressed to me at Bowmanville, Ont., or to Carleton & Harris, Port Hammond.
G. W. HENRY,

The British Columbian.

Saturday Morning, July 3, 1886.

In its last issue our local cotemporary repeats the silly statement that the provincial secretary is now a Victorian, and adds that he has been selling his lots in New Westminster city and district as rapidly as he can. We are authorized by the provincial secretary to say that it is absolutely untrue that he has been disposing of his property here. Since he entered the government he has sold no property, and now owns a considerable amount both in the city and district. This is another campaign fib for the organ.

At the provincial secretary's meeting at Vancouver, on Wednesday last, Mr. Powers, a disappointed land speculator, asserted that the land scrip issued in payment for the Eagle Pass wagon road could be applied on the choicest land in any part of the province. The provincial secretary denied this, and stated that the application of the scrip was restricted to certain districts; but Mr. Powers reiterated his statement. By reference to the Act, it will be found that the provincial secretary was quite correct, and that the scrip can only be applied on lands in Yale and Kootenay districts. It is to be regretted that the opposition people so often fly in the face of truth. The task of correcting their misrepresentations seems to grow as the campaign progresses.

The Sumas Dyke.

One of the points in the famous opposition poster for this district is the Sumas dyking scheme, and this is the only point we missed in Wednesday's issue. The bald charge is laid against the present government that "They passed the Sumas dyking act." In the first place this is false, just as every other paragraph in the poster is false. The Sumas dyking act was passed in 1878, under the Elliott administration, and the present government is no more responsible for it than the men who issued the poster—and not so much. Mr. McGillivray's name appears on the opposition poster, and he, therefore, becomes responsible for it. Besides, we are told that he has been endeavoring at his meetings to make capital against the government on the ground of the Sumas dyking arrangement. Of all men Mr. McGillivray ought to let sleeping dogs alone. It was his influence and recommendation that enabled Mr. Derby to undertake the work and carry it through! Mr. McGillivray does not deal with this question honestly—indeed, there is not a single indictment on the opposition manifesto that is either honest or true.

Peace River Lands.

"They gave away 3½ millions of acres in Peace River which is lopped off this province forever, and over which we have no more control than we have over the land of Ontario." This is from the last issue of the *Guardian*, and is a fair sample of the stock-in-trade of the opposition. We have already pointed out that the Peace River lands were given in lieu of lands that were bad or had been alienated in the railway belt, and the justice of this arrangement was admitted by the government of Mr. Beaven. But it is utterly childish to say that these lands are "lopped off" this province or pass beyond our control. The boundaries of the province are not being changed. The lands will remain a part of British Columbia; our laws will prevail the same as ever; and these lands must pay taxes into the provincial treasury the same as any other provincial lands. The only change that takes place is that the federal government takes the proceeds of the sale of these lands; but these proceeds will probably not pay the cost of the necessary surveys! British Columbia by this arrangement avoids the expense of surveying and selling the lands, but controls and taxes them just the same.

The Provincial Capital.

Among many untruthful assertions made by the opposition organ in this city on Wednesday was one to the effect that if the present government is sustained one of the first acts of the new house will be to sanction a large expenditure on new parliament buildings at Victoria so that the capital will remain permanently there. We need hardly say that this statement has no foundation in fact. If the seat of government were permanently fixed at Victoria the present buildings are sufficient to meet the requirements of the country for many years to come, and such an expenditure now would be entirely premature. But no one believes that the capital will remain at Victoria, and in view of that fact there could be no possible justification for spending any large sum on the parliament buildings. Mr. Robson holds, and has always held, that the capital should be on the mainland, and that it will eventually come hither; and he has never hesitated, and will not hesitate, to express and stand by his opinions when the time for action has arrived. When the question of fixing the seat of government permanently comes to be disposed of it will be fortunate for the mainland, and for this district in particular, if so staunch and able an advocate of our interests occupies a place in the house and in the cabinet.

To the City Electors.

On Wednesday next it will be decided who shall represent this city in the next parliament, and the decision rests entirely with the city electors. It may be to many a matter of comparative indifference which of the two candidates goes to the house, but no person ought to vote or abstain from voting without having first carefully considered the questions involved in this contest. If we regard the men with indifference, we ought not to regard lightly the principles involved or the consequences that may result from foolishly following a line of action which our judgment could not approve. It has been shown very clearly that every cry put forward by the candidates now running in opposition to the government is a misrepresentation of fact. But these subterfuges have been spread over the country so long and so persistently that some persons to whom the facts were unknown may have been deceived. After the discussion and exposures already made, we ask any voter to point out one of the thirteen articles of the opposition campaign poster that has not been fairly met. If it be true, then, that there is really no substantial ground upon which to base a serious charge against the government, the opposition programme collapses; for that programme does not offer a policy that may be accepted in lieu of the policy now prevailing, but rests the hope of the party upon the chances of successfully poisoning the minds of the electors against the administration. Those who are now clamoring for office have nothing positive or substantial to offer us, while the administration they seek to defeat has a record which we think every unprejudiced person will say compares most favorably with that of any of its predecessors. It has certainly removed some of the most serious grievances under which the country was laboring. It has disposed of the dry-dock on terms most favorable to the province; it has arranged for the disposal of the railway lands at the same prices as are charged for provincial lands, the rights of bona fide occupants having been protected. In this contest we have refrained entirely from touching upon the personal characters of the candidates, and have endeavored fairly and honestly to discuss public questions. On the side of the opposition a very different course has been pursued. Public questions have scarcely been discussed at all, and the bitterness of personal hate has been conspicuous. The candidates for this city are both well known to the electors, who are able to judge which of them may most safely be trusted with the representation of the city's interests. But the contest ought not to be decided from a consideration of the personal character of the candidates. There are other considerations which we cannot pass without losing sight of our public duty. If the government's general policy has been in the interest of the country, and if its conduct has been such as to inspire confidence, it ought on these grounds to receive support from this city. But if we consider local interests, pure and simple, we shall find still further reasons for supporting the government and its candidates. In our last issue we pointed out that there had been expended on public works in this city during the past 3½ years $73,217, while the previous government spent only $7,051 during the last 3½ years of its existence. We appeal to the mayor and the gentlemen who have been members of the city council during the past 3½ years to say whether the city has not received most generous treatment at the hands of the government. The corporation has made no reasonable request that has not been freely granted. Everybody acquainted with the transactions that have taken place between the city and the government will admit that the government has done a great deal more for New Westminster than any previous government ever did. There are still pending certain matters of great interest, namely, the disposal of the old gaol site, the erection of a new hospital, the erection of a new court house, and the payment of the $37,500 of railway bonus. In view of the past transactions and the questions still unsettled, would it be wise for this city to elect a man who has pledged himself to oppose the government which has treated us so generously and which will have power hereafter to treat us generously or otherwise? Mr. Bole has pledged himself to the opposition, and if he is elected in the face of what has been done, this city need look for no favors from the provincial secretary or the government. Not long ago it foolishly and without cause burned the provincial secretary in effigy; if to that insult it adds the folly of selecting an opponent as its representative, we are afraid the prov. sec. will no longer interest himself in our welfare. The district is almost certain to elect the full government ticket, and all reports lead to the belief that throughout the province the government will have a large majority. Let the people of this city consider well the step they are about to take. We are entering upon a critical period of our existence. Commerce is beginning to flow through new channels, and now more than ever this city needs the friendly assistance of those who may help it to secure a fair share of the prosperity that will be sure to come to this province. It is not safe to swap horses while crossing a stream. This city with a representative in opposition would stand a poor chance against three government members from the district and Vancouver: with four goverment members from the district and city, working in harmony, we should expect a great deal. Let the electors consider well these facts.

CITY ELECTION.

MR. W. D. FERRIS INVITES THE Electors of New Westminster City to meet him at the SKATING RINK on **Monday night** at 8 o'clock to discuss public questions. jly3t1

HALL'S Vegetable Sicilian HAIR RENEWER.

The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used HALL'S HAIR RENEWER know that it does all that is claimed.

It causes new growth of hair on bald heads—provided the hair follicles are not dead, which is seldom the case; restores natural color to gray or faded hair; preserves the scalp healthy and clear of dandruff; prevents the hair falling off or changing color; keeps it soft, pliant, lustrous, and causes it to grow long and thick.

HALL'S HAIR RENEWER produces its effects by the healthful influence of its vegetable ingredients, which invigorate and rejuvenate. It is not a dye, and is a delightful article for toilet use. Containing no alcohol, it does not evaporate quickly and dry up the natural oil, leaving the hair harsh and brittle, as do other preparations.

Buckingham's Dye FOR THE WHISKERS

Colors them brown or black, as desired, and is the best dye, because it is harmless; produces a permanent natural color; and, being a single preparation, is more convenient of application than any other.

PREPARED BY

R. P. HALL & CO., Nashua, N. H.

Sold by all Dealers in Medicines.

To the Electors of the City of New Westminster:

GENTLEMEN.—

In obedience to a largely signed requisition, addressed to me by my fellow-citizens, I have allowed myself to be nominated a candidate to represent our city in the legislative assembly of British Columbia.

As I have already publicly stated I am in opposition to the present government, in as much as I consider they have not satisfactorily discharged the trust reposed in them by the people of this province.

I am opposed to monopoly of all kinds, especially in land.

Being in entire sympathy with the wants and requirements of the workingman, as I regard those who sustain themselves by manual labor as the basis on which all civilized society is built, every measure calculated to advance the condition and protect the interests of the toiling masses shall have my hearty support.

I am in favor of the restriction of Chinese immigration.

I am opposed to reckless and lavish expenditure of the public revenue, as such a course must heavily increase the burden of taxation on the taxpayer.

I think the time has come when we should expect to find good roads in other parts of the province as well as around Victoria; and the people of this city and district have a right to expect a great improvement in this direction.

The fishing, agricultural, lumber, and mineral resources of the province should be encouraged and developed—more especially as the completion of the C. P. R. must give a great impetus to trade and add largely to our population.

There are other matters not strictly within the jurisdiction of the local legislature, but in respect of which an expression of opinion by that body might do much good:

Namely—The question of mail service to this city, which should not be interfered with except to increase the present facilities, as any other change would be an outrage on the city, district, and province; as also the important and necessary step of dredging the Fraser channel, thus rendering New Westminster an ocean port.

In conclusion, I beg to say that if returned as your representative, your interests, which are mine, shall be guarded and furthered to the best of my ability.

W. NORMAN BOLE.

New Westminster, June 24, 1886.

To the Electors of New Westminster District:

As I intimated through the COLUMBIAN that unless a better class of candidates presented, I would offer you my services as representative for the district in the coming parliament—and, sad to say, that instead of better it is getting worse—I therefore offer you my services; and, to give you some idea of my position with regard to the comparative merits or demerits of the ins and the outs, I may briefly say that the present opposition, when its leader was in power, was not in my opinion worthy the confidence of any intelligent upright man, and never could have my confidence, because it set an example for extravagance and selfishness which, I regret to say, the present administration has not departed from following. In fact, it may be truly said of the present administration, as was often said of the Kings of Israel, that "they had not departed from the sins of Jereboam the son of Nebat, which made Israel to sin." But should you do yourselves and me the honor of placing me in a position of responsibility, I will endeavor to free you from the misrule of such governments and place you in a position in which you can govern yourselves. As it is essentially necessary that the representative for the city and those of the district should be a unit in the coming parliament, I intend to address the electors for the district resident in the city and vicinity, on Tuesday evening, 29th inst., at 8 o'clock, when the candidates for the city may also have an opportunity to express themselves; and should any of the settlements of the district wish me to speak to them face to face, I will be happy to meet them at their expense. JAMES KENNEDY,

Alder Dale,
Surrey-Delta.

je23

POST SCRIPT.

Since the Provincial Secretary's meetings in the District, I have had opportunities of meeting settlers from the most prominent parts of the District and am now convinced that the policy of the senior member has satisfied the majority of most of the settlements. One honest Scotchman from Langley assured me yesterday that the Provincial Secretary's arguments were irresistible. I would much have liked to meet you face to face with the other candidates; but I will now await the verdict of the electors: it will show how many have not bowed the knee to Baal.

Yours most respectfully,
JAMES KENNEDY.

20th June, 1886.

To the Electors of New Westminster District:

GENTLEMEN:—

Having had the honor of being chosen in conjunction with Messrs. McGillivray and Orr as one of the People's Candidate's to represent this District in the next Provincial Parliament, I beg to solicit your votes and influence at the next election, on the 7th of July next.

I beg to state some of my views on the local issues of the day:—

1. That I think the action of the present Government detrimental to the best interests of the Province.
2. Would use all endeavors to have the lands in the railway belt opened to settlers, and get them their titles; also, that the Dominion assist the Provincial Government to build roads and bridges through said lands.
3. Amend Sumas Dyking Act, so as to relieve those parties now suffering from its injustice.
4. A liberal allowance for Public Schools, and make High Schools self-supporting.
5. Making and repairing roads and bridges throughout the District.
6. Give wife the right of dower.
7. Oppose monopolies and retain the land for actual settlers.
8. Restrict Chinese immigration.
9. Consolidate Municipal Act, and old Council retain office till new one sworn in.

Being a resident of this Province for over 23 years, and well known to many of you, and having all my interest in this District, you may rest assured, gentlemen, should you do me the honor to elect me as your representative, I will use my best endeavors for the interest of this District and the Province at large.

It is proposed to hold meetings at the different polling stations, of which due notice will be given, when I shall be happy to meet you and explain my views more fully.

I have the honor to be, gentlemen,
Your obedient servant,
WM. H. LADNER.

LADNER'S LANDING, June 24, 1886.

Fire! Fire!

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver;

Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Richd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; Richd. F. Keefer, Contractor, C. P. R.; J. W. McFarlandd, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., Real Estate Brokers; A. W. Ross, Real Estate Broker; Graveley & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. R. C. P. Mills. je30tc

To the Electors of New Westminster District:

GENTLEMEN.—

Having the interests of the district and the province generally at heart, I submitted to a convention formed by the agents of the opposition nominees to select three candidates from our number to contest the district against the government. Their decision was unfavorable to my coming forward; I therefore beg to inform you that I have retired from the field.

Thanking you for the honor of your nomination, I am, &c.,

ADAM INNES.

New West., B.C., 23rd June, 1886. je26

To the Electors!

GENTLEMEN:

No one has any authority to state that I have withdrawn from the contest. I do not agree to the so-called nominations made by the so-called convention at Brownville. I am still a candidate, independent of any hole-in-the-corner convention, and solicit the votes of the free and independent electors of this district, whose best interests I shall, if elected, make it my greatest pleasure to advance.

Your Obedient Servant,
je23td WM. ISAAC.

To the Electors of the City of New estminster:

GENTLEMEN.—

At the request of many of the Elitors I have consented to allow myself to be nominated as a candidate to represent you in the Provincial Legislature.

As stated at the nomination I am politically independent, and am not pledged to support any party; but I will be prepared to give my vote in favor of any measure that seems to me calculated to promote the welfare of the Province generally, and New Westminster in particular, no matter from what source it may emanate.

I am in favor of a redistribution of seats and representation as far as possible according to population.

As far as possible I shall endeavor if elected to secure the equitable expenditure of the revenue throughout the Province, so that no section may be favored at the expense of the others.

Restrictive measures respecting Chinese immigration will have my support, as I am of opinion that they are not a desirable acquisition to our community.

I am in favor of a thorough revision of the liquor license laws, a reduction in the number of saloons, the total prohibition of the liquor traffic on Sunday, and the closing of bars at a reasonable hour on week nights.

I shall also endeavor to secure more effective legislation against gambling and the flagrant vices which tend so much to shock and destroy the moral sentiment of the community.

As I do not own an acre of land either at Port Moody or Vancouver, and my interests are completely identified with yours, I shall always be anxious to assist in any scheme for the advancement of our city.

Although not pledged to support any party, I am of opinion that common gratitude and a proper apprehension of the interests of the city suggest the advisability of your sending to the Legislature a representative who is friendly to the present administration and not one pledged to oppose it. The liberal treatment received by this city from this government is in striking contrast with that of its predecessor which the opposition propose to restore to power.

I shall, therefore, give the government an independent support so long as its conduct and measures commend themselves to my judgment and aim at the public interest.

I am, gentlemen,
Your obedient servant
W. D. FERRIS.

To the Electors of the District of New Westminster:

GENTLEMEN.—

At the request of a number of friends I again solicit your suffrages for re-election.

I can only refer you to the votes and proceedings of the Legislative Assembly of this Province of B. C. for the last four sessions to prove that I have always endeavored to carry out the pledges I made to the people at last election, and my vote will be found on the side where the interest of the Province and District was involved.

I have consistently opposed all grants of the public lands when the province did not derive an equivalent benefit. I gave a cordial support to the present government when the interest of this district was at stake, and opposed them when, in my judgment, their measures were calculated to injure the province or district.

If elected I should oppose the present government, composed as it is of members only interested on Vancouver Island, thus centralizing the control of provincial affairs in Victoria.

The exclusion of the Chinese from the various industries and employments in the province will, as in the past, be supported by me.

The following measures I will endeavor to bring into force, viz.:

Representation by population.

The removal of the capital to the mainland as soon as the revenue will permit.

The amendment to the school act in order to make the high school self-sustaining.

Reform in the administration of justice, which under the present system entails a heavy expenditure of revenue that otherwise might be devoted to public roads.

The amendment of the land act in order that the province may derive a revenue from our timber lands commensurate with their value.

The early settlement of the dispute between the Dominion and provincial governments respecting the ownership of the Sumas and Chilliwhack dyking lands and the minerals contained in the railway belt.

The more clearly and distinctly defining the provincial rights guaranteed under the "British North America Act."

I am of opinion that any act passed by the provincial legislature of a purely local character should not be disallowed by the Dominion government, but should be referred back to the legislature within a reasonable time for amendment.

Any other measures tending to advance the interest and prosperity of the province or district will always receive my hearty support.

I regret very much that on account of an injury I have been unable to visit all parts of the district, as many new settlers have arrived since last election to whom I am not personally known.

Your Obedient Servant,
je23 JAMES ORR.

To the Electors of New Westminster District.

GENTLEMEN:

I beg to offer myself a candidate at the coming election to represent you in the Provincial Legislature.

In reference to the public questions now before you, I have no hesitation in saying that as I am one of the pioneers and in every way personally interested in our prosperity and happiness, I shall at all times regard it of first importance to defend our rights in such a way as to advance our best interests in endeavoring to aim at the greatest amount of good for the greatest number.

I regret that the railway lands are not as yet thrown open for settlement, and those settlers that have been induced to squat, expecting they would in a short time be able to obtain titles to their holdings, have been sadly disappointed and consequently there have not been that development and prosperity which otherwise would have been if titles had been obtained; so I shall urge for a more active and decisive policy with the federal government with the object of immediately opening up these lands for settlement, or else to exchange for lands in the Peace river country and allow the railway lands to revert back to the Province.

I believe that in the interest of law and order and the preservation of the morals, happiness and prosperity of the inhabitants of this fair province, the liquor license laws require a thorough overhauling, and also that the legislature should enact a local option law for the majority of the electors in any electoral district to decide whether licenses for the sale of liquors shall be granted or not. The principle has been established and maintained in the other provinces, the United States and recently in the adjoining territory by its legislature without a dissenting voice.

I am in favor of revising the voters lists and of the redistribution of seats; also subdividing some districts so as to give more equitable representation to the various interests.

I shall urge the government and legislature to use their influence with the federal government in appropriating a sufficient sum of money annually to employ the dredger in deepening, straightening and removing snags or any other obstructions in the Fraser river from its mouth as far up as Cheam, which I claim would lessen the overflow of land and also improve the channel for commercial purposes.

Our various industries will receive my jealous and careful attention and I will favor the development of our quartz ledges by some material encouragement.

I will not bind myself to give any slavish support to any men or party; an enlightened, free and liberal policy will always have my support, from whatever source it may emanate.

In conclusion, if you do me the honor of electing me as one of your representatives, I will try as far as possible, to work in harmony with the other members you shall elect.

If possible, I purpose visiting every polling division to discuss with you the various questions that are likely to engage the attention of the electors, as it is not possible to enter into general details within the compass of an ordinary address.

I would cordially ask every elector to vote for me if you can consistently do so.

I am, Gentlemen,
Yours Respectfully,
D. McGILLIVRAY.

To Builders.

SEALED TENDERS will be received by the undersigned up till noon on Saturday, July 3rd, for the erection of a dwelling on Royal Avenue.

Plans and Specifications may be seen at the store of T. R. Pearson & Co.

Rev. Mr. Somerville, from Scotland, who is on a visit to this province just now, has arranged to take the services in the Presbyterian church at Langley and at places in the neighborhood on the 11th inst.

The Canadian Pacific has awarded the contract for getting out timber for use in the construction of snow sheds in the Selkirk range. They will be some twelve miles in length, and will contain 14,000,000 feet of timber.

Mr. Jno. Murray, of Spence's Bridge, and for many years a merchant in this city, arrived yesterday. Mr. Murray leaves for home on Tuesday, and will shortly made a trip to Scotland where he will spend a month or two.

The Seattle Knights of Labor deny that any socialist doctrine has ever been taught among them, and a resolution was passed expressing entire lack of sympathy with the doctrine exposed by the grand jury in its report.

A minister has been lecturing recently on "Suicide; Its Causes and Cure." We believe he is right, but still it is a pretty impossible task to cure a man of suicide. Nearly all the cases thus far reported have proved fatal.—*Burdette.*

It is said that smallpox has broken out among the C. P. R. laborers in the Rocky mountains, and that two deaths have already occurred. Some of the men came from Quebec, and it is believed they brought the disease with them.

In another column Mr. Agassiz, one of the opposition candidates, freely expresses his opinion of the Beaven administration. Every day brings new proof of the demoralization of the party now seeking to supersede the present government.

Mr. Agassiz writes to say that he "has challenged Mr. McGillivray to meet him at a public meeting at Chilliwhack on the evening of the 5th inst. Some of the other candidate will be there." The opposition family is extremely united!

We tried yesterday to ascertain by telegraph the whereabouts of the first regular C.P.R. train, but nothing was known of it at Port Moody, Yale or Kamloops. The presumption is that the train will arrive at Port Moody to-morrow as first arranged.

In no other medicinal preparation have the results of the most intelligent study and scientific inquiry been so steadily and progressively utilized as in Ayer's Sarsaparilla. It leads the list as a truly scientific preparation for all blood diseases.

The British and Foreign Bible Society was organized in March, 1804. From that time to March 31, 1885, it has issued 32,779,623 Bibles, 49,306,165 New Testaments, and of portions of the Scriptures, 22,111,119—making nearly 105,000,000 copies of the Word of God.

Mr. Kennedy arranged for a meeting at Albert Crescent on Tuesday night, but very few people attended and the proceedings lacked interest. Mr. Kennedy spoke and impartially condemned both government and opposition. Dr. Kent made a brief but excellent speech, and Mr. Ferris said he would reserve his remarks for Monday night.

No injurious effects can follow the use of Ayer's Ague Cure in the treatment of malarial diseases. It contains, besides a specific and unfailing antidote for miasmatic poison, other remedial agents which unite to expel the poisonous humors, purify the system, and leave it in a healthy and reinvigorated condition.

Mr. Chas. J. Robson has opened a new shop on Columbia st., opposite the Colonial Hotel, where he displays a very excellent assortment of fruit, confectionery, fancy biscuits, &c. The place has been newly papered and painted, and looks well. Mr. Robson, who has been about two years in Mr. Major's store, is well known as a conscientious and careful business man.

THE ISLAND RAILWAY.—This great work is approaching completion, only some fourteen miles of track remaining to be laid. It is expected that by August 1st trains will run through from Victoria to Nanaimo, and that Sir John and Lady Macdonald will be among the invited guests. The steamer Wellington, with ten passengers and two combination cars for this railway, is due to-day. The cars will be put together at Esquimalt.—*Colonist.*

OPENING OF THE C. P. R.

Coming of the First Train!

WINNIPEG, July 1.—The first through train arrived at the depot on time. It left Montreal on Monday night. Along the route it received a series of ovations. At 9 o'clock, the hour of its arrival at the station here, there was an immense multitude gathered, the crowd extending from the Louise bridge to the workshops of the Company, a distance of close upon two miles. It pulled into the station yard at a slow pace. The engine was gaily decorated. The military and other bands, the bells of the city churches, and all the locomotives joined in a chorus such as is not often heard. All the military organizations in the city, the St. Andrew's Society, the mayor and city council, were in attendance. An address of welcome was read by mayor Wesbrook to which general supt. Egan responded from the front of the locomotive. The military then fired a feu de joie and the artillery a salute. At 10:30, amidst the wildest enthusiasm, the train left for Port Moody where it will arrive on Sunday morning. Ovations await the train at all points along the line to its destination. There were a considerable number of passengers on board destined for western points.

VICTORIA MAILS.—A telegram was received from Ottawa late last night stating that no change would be made for the present in the mail service between this city and Victoria.

THE BALLOTT.—Every elector in New Westminster District is entitled to vote for 3 candidates. There are 10 names on the ballot papers, and persons wishing to vote for the government candidates should make a cross (x) in the space after the names of Kirkland, Robson and Wells.

IN RE SPROULE.—A writ of habeas corpus issued by the supreme court of Canada for the delivery of the body of R. E. Sproule at Ottawa is now on its way to Victoria. In accordance with the writ the sheriff is required to produce the prisoner there without delay, showing the day and cause of his detention.—*Colonist.*

ENDORSED.—At a meeting held at Alder Grove on the 26th June it was proposed by Mr. Goldsmith, seconded by Mr. Lawrence and carried unanimously, that "those present would use their utmost endeavors to secure the return of the Hon. John Robson, and Messrs. Kirkland and Wells to support him, and that a copy of this resolution be sent to the *Columbian* and *Guardian.*"

SIR JOHN'S VISIT.—On Wednesday afternoon a meeting of citizens was held to consider what steps should be taken to receive Sir John Macdonald on the occasion of his visit. The mayor was requested to telegraph Sir John and ascertain the date of his arrival. A reply to this telegram was received yesterday as follows: "Cannot yet say when I shall arrive. JOHN A. MACDONALD."

WHO BURNED VANCOUVER?—In a late issue the *Guardian* capped the climax by accusing the provincial secretary of being the cause of the Vancouver fire! It turns out as a matter of fact that the Vancouver fire was caused by Mr. Orr's celebrated 5 acres, which were covered with fallen timber, and furnished material for the conflagration—and Orr is one of the *Guardian's* condidates!

HALL'S PRAIRIE SCHOOL.—The half-yearly examination of the Hall's Prairie public school took place on Thursday the 24th inst. Although threatened with rain in the morning it soon cleared off and all the adults of the settlement were early in attendance. Even the most confirmed old bachelors came out to see the performances. The examination was a decided success, the ones who examined the classes, Mr. Reid of Clover Valley, and Mrs. Johnson, being delighted with the accuracy and amount of knowledge which the children have acquired since the school was started, and the genial and popular teacher, Mr. J. C. McLennan, was much complimented by those present. The thorough training in those fundamental branches, spelling, arithmetic and geography, was especially marked. The rolls of honor were taken by Ellen Hart, proficiency; David W. Brown, regularity and punctuality; Ida Hart, deportment. The people of the settlement are to be much praised for the great interest taken by them in the school, a practical proof of which was the subscription of fifteen dollars to assist the teacher in buying prizes for the pupils, and oh! the merry smiles which played hide-and-go-seek over their little faces as the bright-hued books were handed out. After some well-timed advice to the children and thanks to the visitors that had come to see the school the examination closed.—COM.

CLOVER VALLEY SCHOOL.—The usual half-yearly examination was held in Clover Valley school on Friday the 28th inst. The day though warm was pleasant, and from the large turnout of visitors it could easily be seen that the people of Clover Valley take an ever increasing interest in the welfare of the school. The children were thoroughly examined in the various branches taught and acquitted themselves in a manner reflecting great credit on themselves and their teacher. A noticeable fact is that while the children in this school are drilled in the school work, they are also conversant with the current events and literature of the day to an extent which would do honor to older heads. Another thing in regard to the examination worthy of imitation in other schools was the interchange of visits between the teachers on this occasion. Mr. J. C. McLennan, teacher, and Mrs. Johnson, of Hall's Prairie, materially increased the interest by their examination of the classes. At the close of the examination Mr. Reid presented the rolls of honor to the deserving pupils, who were: Frank McKenzie, proficiency; George Shannon, regularity and punctuality; and Josiah Boothroyd, deportment. Speeches were made by Messrs. T. Shannon, D. McKenzie, E. Parr, G. Boothroyd, J. C. McLennan, and others, commending the efficiency and progress of the school. Before closing Mr. Reid thanked those who had helped in examining the classes and the people who took such an interest in the school.—COM.

The Victoria Mails.

Mr. J. A. R. Homer, M.P., received the following telegram last night from the deputy-postmaster-general at Ottawa: "No order has ever been sent for discontinuance of direct steam mail service between Victoria and New Westminster." We are quite at a loss to reconcile this with the events that have lately transpired.

Our National Day!

THE CELEBRATION AT THE ROYAL CITY.

Thursday morning promised well for a holiday, but about the middle of the afternoon rain began falling, and the evening was wet and disagreeable. About 5 o'clock the str. Yosemite arrived from Victoria with over 200 excursionists. The Louise brought a number from Nanaimo, and other steamers from various points swelled the concourse. The number of visitors was very large, going up among the thousands. At 6 o'clock the Seymour artillery fired a salute from their big gun, the men appearing for the first time in their new busbies. The programme began with horse-racing on Columbia st. The other sports were conducted by the Caledonian and St. Andrew's society on the agricultural grounds, and the foot races were on Front st. The following is a list of the events:

HORSE RACES:

For the big race ($250 and entrance) there were 4 entries, viz.: Parker's Billy, Black's Bobby Burns, McAbee's Henry, Rudge's Dave. The race was for best 2 in 3. First heat won by Bobby Burns, with Dave 2nd; 2nd heat Dave 1st, Henry 2nd. In the 1st heat Billy was distanced and in the 2nd Bobby Burns throw his rider, and the race ended in a muddle, both parties protesting.

In the trotting race for $75, entrance added, there were 3 entries, Dickson's Fanny Irving, Butler's Sleepy George, and Rudge's Simcoe. Best in 5. In first heat the horses came in as follows: George, Fanny, Simcoe; 2nd heat, Fanny, George, Simcoe; 3rd heat, Fanny, George (Simcoe distanced); 4th and 5th heats, George, Fanny; race won by George.

In the 3rd race, for $50 and entrance, there were 6 entries: Rudge's Dave, Robertson's Gray Prince, Black's Granville, Fraser's Blair Ethel, Gannon's Foshill, and Butler's Dick. The race was taken by Granville, with Gray Prince second.

The fourth race was for $15 and entrance. There were 6 entries: Sinclair's Billy, McAbee's Mossback, Skinner's Cyrus, Robertson's Gray Prince, and Jessie. Won by Gray Prince, Jessie 2nd.

ATHLETIC SPORTS.

Putting heavy stone, J. A. Murray, 34 ft. 9 ins.; D. J. Munn, 32:4½. Light stone, J. J. Cameron, 39:2¾; J. A. Murray, 39. Heavy hammer, R. G. McKenzie, 88; J. A. Murray, 87:3. Light hammer, R. G. McKenzie, 113:6; J. J. Cameron, 108:4. Tug-of-war, New Westminster vs. Vancouver, won by New Westminster. Hop step and leap, A. Shore, 40:1; J. Miller, 38:11. Running high jump, R. White and A Shore equal, 4:9. Standing long jump, A. Shore, 9:7½; E. McAbee, 9. Standing high jump, A. Shore, 3:11½; R. White, 3:11; M. Cassell, 3:10. Vaulting, R. White, 8; B. Eickhoff, 7:11; A. McLean, 7:9. Highland fling, W. Carmichael, J. A. Murray. Gillie Callum, J. A. Murray, W. Carmichael. Highland reel, Mrs. Bamford, Mrs. D. McLennan.

FOOT RACES.

100 yards, H. Stephens, R. Peck. 400 yds., Alex. Morrison, — Kane. Boys' race, L. Springer.

BOAT RACES.

4-oared gig race, 4 entries, namely, Elizabeth, Maria and Lottie from Burrard Inlet, and Lily from Langley. Elizabeth took first money ($40) and Lily 2nd. For the canoe race there were 5 entries, and the race was won by Seashell, with Chilliwhack George as a good second. There were 2 entries for the skiff race, Alaska Joe coming in first and No. 29 second. The sailing race was postponed for lack of wind, but will probably come off the first favorable day.

In the evening there was a ball at the Drill Shed, which was largely attended. During the day Capt. Irving was presented with a handsome badge by the Caledonian and St. Andrew's Society, in acknowledgment of which the captain made a suitable speech. The chiefs appeared in full costume.

The Vancouver Meeting.

(Condensed from the News.)

The Hon. John Robson addressed a public meeting in this city on Wednesday evening. There being no building of sufficient capacity available the meeting was held in the open air, a platform having been erected in front of the site of the Sunnyside hotel. The attendance was very large, variously estimated at from 1000 to 1500. His worship Mayor McLean was unanimously elected to the chair, and Dr. McGuigan was appointed to act as secretary. The chairman introduced the provincial secretary with a few complimentary remarks, referring to the services he rendered in the legislature towards securing incorporation for the city and the alacrity and liberality displayed in succoring Vancouver in her great distress.

The Hon. Mr. Robson explained the circumstances which prevented an earlier visit to his constituents, and then proceeded to review the past and indicate the future policy of the government. He referred to the encouraging circumstance of the voting power of the district having doubled since the last general election, and the general prosperity observable throughout the province, claiming that to the liberal and progressive policy of the government it was partly due. He then went on to expose the various cries raised by the opposition, which he did most effectually, showing very clearly that the so-called "give aways" upon which the opposition have been ringing the changes, were all moonshine. Concluding an eloquent and argumentative speech, Mr. Robson admonished the electors to poll a full vote, and send a united delegation to strengthen the hands of a liberal and progressive government, and warned them against committing the obvious folly of sending a divided delegation.

At the conclusion of the address, which evoked repeated and hearty applause, Mr. Powers, of Moodyville, undertook to criticise Mr. Robson upon several matters, the outcome of which was added triumph for Mr. Robson and discomfiture to the blustering Moodyville inn-keeper. Finding himself worsted Mr. Powers exclaimed, "Mr. Robson is a big man now; but I remember him years ago when he was a poor working man, cutting wood for a living."

Turning triumphantly to the audience, Mr. Robson said, amid ringing cheers, that he was proud to look back to the early days of his pioneer experience in this Province, when he had earned an honest living by hard labour; and everyone appeared to feel that the Statesman had scored one against the Innkeeper.

His worship the Mayor called upon L. A. Hamilton, Esq., to address the assemblage.

This popular gentleman, having ascended the platform, delivered a brief but telling address, in the course of which he complimented the Provincial Secretary, and substantiated his statements respecting the policy of extension of the railway to Coal Harbor, showing that the Provincial Government had given less than one acre for 10 given by the Dominion Government, to say nothing of the large cash subsidies. The following resolutions were then passed unanimously:

Moved by L. A. Hamilton, seconded by Joseph Mannion, That after listening to the straightforward explanations of his public acts given by the Hon. John Robson, it is the opinion of this meeting that the policy pursued by him as a minister of the crown has been in furtherance of the best interests of the province of British Columbia at large and particularly advantageous to the district which he represents, and meets with our hearty approval.

Moved by R. H. Alexander, seconded by W. H. Soule, That this meeting returns its hearty thanks to the Hon. Jno. Robson for the unflagging interest he has always shown in the progress of this section of the district and for his continual and ready support of every measure towards our advancement, notably in the passage of our act of incorporation and also for the prompt and valuable response to the appeal on behalf of our unfortunate fellow citizens who were left destitute by the late conflagration.

Moved by Dr. McGuigan, seconded by Edward McKendry, That this meeting pledges itself to support the Hon. John Robson as one of their candidates for this district and will do all in its power to secure his return at the head of the poll on the 7th of July next; that it also pledges itself to support Messrs. Kirkland and Wells, the two other candidates in sympathy with Hon. Mr. Robson in this district, as we consider them honest and capable men and are earnest in their desire to promote the public interest.

Moved by C. A. Coldwell, seconded by R. Balfour, That an election committee be appointed to further the interests of the candidates endorsed by this meeting, to be composed of the following gentlemen: Mayor MacLean, R. H. Alexander, Ed. McKendry, L. A. Hamilton, Thos. Dunn, E. P. Hamilton, Jos. Humphries, Dr. McGuigan, Jos. Mannion, Ald. Balfour, Northcott, Ald. Hemlow, Louis Gold, Reginald Nuttall, Joseph West, Wm. McGregor, F. C. Innes, Walter Gravely, J. M. Spinks, Arthur Sullivan, A. C. Muir, D. Oppenheimer, W. H. Chase, J. L. Quackenbush, Jonathan Miller, Chas. Coldwell, P. Cordiner, S. O. Richards, H. Arkell, John M. Stewart, J. Hayden, C. Ralston, Jas. McArthur, Wm. Brown, A. E. McCartney, A. C. Fraser, J. C. Douglas, S. Pedgrift, S. Brighouse, Geo. Black, John Boultbee, John Rankin, F. McLennan, J. J. White, F. Kent, J. Soule, Jas. Gillespie, S. Fraser, D. McPherson, P. Carey, J. Abray, T. Condell.

Messrs. Mitchell & Platt, druggists, London, Ont., write Dec., 1881: We have sold Dr. Thomas' Eclectric Oil since its first introduction, and we can safely say, no medicine on our shelves has had a larger sale, or gives better satisfaction. We always feel safe in recommending it to our customers.

Meeting at Richmond.

(Reported for the Columbian.)

The Hon. John Robson addressed a meeting of the electors of Richmond and the North Arm, in the town hall, on Wednesday last, at one p. m., but owing to the shortness of the notice given—only a day—and the haying season being on, the meeting was not so large as it otherwise would have been, only about 45 persons being present.

Alexander Kilgour having been appointed chairman and J. Sprott secretary, after a few remarks from the chairman, the hon. gentleman was called upon to address the meeting.

Mr. Robson came forward and delivered an able and exhaustive address on the action and policy of the government, and a refutation of the charges brought against it by the so-called opposition, which was listened to by the audience with the most marked interest and attention. At the conclusion of his address he said he would with their permission sit down and in a friendly way discuss road matters with them.

A question was put by Hugh Boyd: In the event of Mr. Robson being returned, will he pledge his influence in obtaining this settlement bridges from Lulu and Sea Islands to connect us with the mainland?

Mr. Robson, in reply, stated he had those bridges fully in view and he was fully alive to the great importance of having them constructed so as to enable the people to have direct communication with the mainland, and he would use all his influence and all the power he possessed to procure all the money he possibly could for the construction of those bridges, and as soon as he returned to Victoria he would have the necessary instructions given to the surveyor-general to come up and make a thorough survey of the most suitable locations, with an estimate of the probable cost.

Mr. Kidd thought the bridges would be in plenty of time if built two or three years hence and thought it more important to devote the money to the construction of roads, and the bridges would follow, remarks which did not seem to call forth any response from the rest of the audience.

Mr. Kilgour said he considered it of much greater importance to the settlement to obtain the bridges first, and he felt confident, having secured them, that the people would find ways and means of obtaining roads to connect. Mr. Kilgour's remarks seemed to meet with general approval by those present. Mr. Robson said he thought it would be best after the surveys and estimate of cost was made to hold a meeting in the town hall, when he would make a point of being present, and a vote could then be taken as to whether they should have the roads or bridges first, which was unanimously agreed to.

The hon. gentleman then stated that if any gentleman had any questions to ask him he would be happy to reply. None being put, he said as he had to be at Vancouver by 7 o'clock that evening to address a meeting there, and the afternoon being far advanced he hoped they would excuse him. A vote of thanks having been passed to the chairman and the hon. gentleman, the meeting was brought to a close.

Use the safe, pleasant, and effectual worm killer, Mother Graves' Worm Exterminator, nothing equals it. Procure a bottle and take it home.

St. Louis College.

The annual examination of the pupils of this institution closed yesterday, when the following prizes were awarded:

Masters William I. Briggs and James R. Suter, respectively, received the 1st and 2nd special prizes for application and merit.

COMMERCIAL COURSE.—Sixth Class—1st prize, Thomas Harn, for Christian doctrine, Latin, mathematics, book-keeping, and rhetoric. Fifth Class—1st prizes, Jos. Johnson, for Christian doctrine, book-keeping, history, and music; Michael Carey, for composition and French; Jos. Meyers, for arithmetic, grammar, and penmanship; Matthew DeCourcy, for dictation and spelling.

INTERMEDIATE COURSE. — Fourth Class- 1st prizes, William I. Briggs, for grammar; Chas. Beckingham, for French; James R. Suter, for arithmetic; Chas. Ceamey, for composition; Jos. Madden, for reading, writing, and drawing; Henry Walther, for music; Douglas Loat, for geography; William Elliott, for spelling; John Dunne, for catechism and dictation. 2nd prizes, Chas. Beckingham, for music; Henry Walther, for geography and dictation; John Wise, for spelling. Third Class—1st prizes, Thos. Hoy, for spelling and writing; Louis McQuade, for catechism, reading, and geography; Eddie Madden, for general improvement; Harry Briggs, for punctual attendance and good conduct; Reuben Ellard, for arithmetic and composition. 2nd prize, Hugh Gibson, for catechism and arithmetic.

PRIMARY COURSE.—Second Class—1st prizes, Fritz Meyers, for arithmetic and writing; Mike Dunne, for reading; Eddie Digby, for spelling. First Class—1st prize, Albert Leamey, for reading and spelling.

St. Louis College, N. W., June 30.

Rev. J. McLaurin, Canadian Baptist missionary to India, writes: During our stay in Canada, we have used Dr. Thomas' Eclectric Oil with very great satisfaction. We are now returning to India, and would like very much to take some with us, for our own use and to give to the diseased heathen.

SPECIAL DESPATCHES.

The British Election Returns.

RECEPTION OF THE FIRST C. P. R. TRAIN.

LONDON, July 2.—Gladstone has been re-elected for Midlothian. Up to 1 o'clock this p.m. 22 Tories, 9 Unionists, 12 Liberals, and 3 Parnellites have been elected. (6:30 p.m.) Parnell and Maurice Healy, Parnellites, have been re-elected to represent Cork city in the commons.

WINNIPEG, July 2.—The first day of Winnipeg's great celebration festival has been an unqualified success. The city is crowded with strangers, thousands upon thousands being in town from all parts of the north-west, Minnesota and Dakota. The main features of the first day's festivities were the races in Pracey Park; the St. Andrew's society & Caledonian sports and games, the military parade and reception, the arrival of the first through train, and the first heat in the professional scull race in which Gandour defeated Hamm.

Mr. George Tolen, Druggist, Gravenhurst, Ont., writes: "My customers who have used Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure say that it has done them more good than anything they have ever used." It has indeed a wonderful influence in purifying the blood and curing diseases of the Digestive Organs, the Liver, Kidneys, and all disorders of the system.

Communications.

Not a Beaven Man!

EDITOR COLUMBIAN.—It has been said that I am in favor of a resurrection of the Beaven government. This is not the case, as I consider the remains of that party not only sick but dead. They never did the mainland any good although they had Mr. McGillivray to help them. Yours very truly,

L. A. AGASSIZ.

Langley, 29th June.

Syndicate Operations.

EDITOR COLUMBIAN.—The large salaries and wages granted by Onderdonk—and which were out of all character for the services rendered—were met in a measure by the enormous charges for fares and freights, consequently the general public and store-keepers in the interior were made the victims. It would now appear that the syndicate have determined upon the adoption of an honest policy of reducing salaries and wages, and the fares and freights to a reasonable tariff.

It would also be a further stroke of good policy if the syndicate were to run three sound and swift steamers between Victoria and the head of navigation on the Fraser River, not only to cut down the fares and freights, but to ensure safe, reliable, and permanent traffic. Yours obediently, STOREKEEPER.

Yale, 30th June.

Temperance and the Elections.

EDITOR COLUMBIAN.—The British Columbia Branch of the Dominion Temperance Alliance at the last annual meeting instructed its executive to draft a bill for the better regulation of the liquor traffic, to be laid before the legislature at its next session.

The need of legislation in this direction must be apparent to every thoughtful and disinterested person. The drink bill of this province amounts to $1,500,000 per annum; two and a half times the provincial revenue, fifteen times the amount spent in public education. It would pay the deficit ten times over, and leave a nice little sum to the good. No wonder that the resources of the province are lying undeveloped, when such an immense amount is annually diverted from the channels of legitimate industry, and devoted to an unnatural, mean and ruinous self-indulgence.

This traffic is killing off our people by the score. Scarcely a week passes without our hearing of some one dropping suddenly and prematurely into the grave through the use of stimulants, and from present appearances many others will soon follow. To the liquor traffic the province is indebted chiefly for the disgraceful prevalence of prostitution and gambling, and the rapid extermination of the Indians.

It is very much to be regretted that our public men fight shy of this vital question, and spend time on the platform in personalities and in the discussion of comparatively trivial issues.

We respectfully and earnestly call the attention of all candidates for parliament and of the electors generally to the necessity of grappling with this matter at once. We think that all lovers of their country and their kind should judge of candidates for office very largely by their attitude on this question. We submit that a person who will not work heartily for the curtailment of the liquor traffic is unworthy of public confidence, and is lacking in that particular which is essential in a legislator.

The measures proposed by the Alliance are very moderate, so that they ought to commend themselves to every right minded person. The following are some of the leading points:

1. Limitation in the number of licenses.

2. The closing of saloons, bars, etc., during the whole of Sunday and during certain hours of the night—say from 10 or 12 p. m. to 6 or 7 a. m.

3. Impartially constituted licensing boards with efficient inspection.

4. Proper machinery for the enforcement of the law, and for the suppression of unlicensed selling.

This is the outline of a very moderate measure. We cannot be satisfied with less, and we ask those who think with us to tolerate no quibbling from candidates on the subject.

On behalf of the executive,

WALTER BARSS, Sec.

Victoria, June 29, 1886.

THE PROPER CHANNEL for the escape from the system of impurities which would, if they remained, poison the blood, is through the bowels. When this outlet is obstructed it may be disencumbered with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, a remedy which regulates the system, invigorates digestion, and is pure and safe as well as effective. It cures all diseases arising from Impure Blood.

LATEST BY TELEGRAPH

NEWS FROM ALL PARTS OF THE WORLD.

WINNIPEG, June 21.—Lady Macdonald arrived in this city on Saturday night and left this morning, accompanied by Lieut.-Governor and Mrs. Dewdney, for Regina in a private car. A number of citizens were introduced at the depot to Lady Macdonald, and she was a guest at Government house while here. Sir John will remain a week here during his visit.

SEATTLE, W. T., June 28.—The total vote was 2,610. Against prohibition, 1,820; for, 790. Majority, 1,030 against.

TORONTO, June 28.—The *Mail's* Ottawa correspondent denies upon high authority the statements recently published that the Dominion government, at the instance of the imperial authorities, have relaxed their measures for the protection of Canadian fisheries. On the contrary, there has been no interference of any kind on the part of the home government, and the Dominion government is determined in future, as in the past, to strictly enforce the law against United Sates fishing vessels found violating the treaty.

RANGOON, June 29.—A force of British troops, with two batteries, has had a severe fight with 1,500 Burmese. They were entrenched near Tummer. The fight lasted five hours. The British failing to dislodge the rebels retired. Several officers were killed and wounded.

LONDON, June 29. — Henry Ward Beecher and Mrs. Beecher arrived in London to-day. They were met at the depot by Dr. Parker, pastor of the City Temple, and his wife, and given a most affectionate greeting. Dr. Parker led Mrs. Beecher to his carriage and Beecher followed with Mrs. Parker. The party was at once driven to Dr. Parker's house in St. John's ward. Beecher is in good health, but says he intends to rest before returning or preaching. He is full to-day of the great treat enjoyed by him at Liverpool yesterday, of listening to Gladstone's marvellous oration, and watching the enthusiasm of the vast audience.

Gladstone, in the course of his speech delivered yesterday at Liverpool, said: It was here that I first drew breath. I have drawn it now 76 years, and the time is not distant when I shall pay my debt to nature, and these possibly are the last words I shall speak in Liverpool. Gladstone quoted from the ballad of "Chevy Chase"—"the child unborn shall rue the hunting of that day"—and exclaimed, "if idle and shallow pretexts bewilder the minds of the people, or if power, wealth and rank overbear the national sense, the child unborn shall rue the voting of that day. I entreat you to resolve that the civilized world shall no longer assert that Ireland is England's Poland, and to determine that England shall no longer have a Poland. She has had it long enough. Listen to prudence, courage and honor; ring out the old—ring in the new—ring out the notes of misery and discord, ring in the blessed reign of a time of peace."

Have you tried Holloway's Corn Cure? It has no equal for removing these troublesome excrescenses, as many have testified who have tried it.

Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the **Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions** with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into **Scrofula.** This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of **Hereditary Scrofula.**

The medical profession indorse AYER'S SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

Bursting of a Great Gun.

The accidental bursting of a 43-ton gun on board H.M.S. Collingwood, which had gone out to sea from Spithead for artillery experiments, took place on Tuesday, May 18th. The gun was one of a pair mounted on barbette aft of the ship, and the experiment was intended to try the effect of the gun mounting invented by Mr. Vavasseur. Admiral Hopkins, superintendent of naval ordinance; Mr. Butler, inspector of gun mountings; Admiral Herbert, superintendent of Portsmouth dock yard; Mr. Alton, chief inspector of machinery; Admiral Sir George Willes and other naval officers and admiralty officials, with Mr. Vavasseur, were on board. The guns were to fire two rounds with reduced charge of 221¼ pounds of cocoa powder, with a shell filled with water and weighing 714 pounds, after which they were to fire four rounds with full charges of 295 pounds of powder. The right-hand gun fired one round with the reduced charge; the left hand gun was then tried with the same, and burst, whirling large fragments into the air. Fortunately no person was hurt. The ship was lying between the Warner and the Nab Lightships. Eight feet of the gun's barrel was torn off, the weld of the coil rent open, and some of the pieces, beside damaging and plowing up the deck of the ship injured, in a greater or less degree, the glacis plates, the hinges of a door through the armored bulkhead, the grating of a scuttle, the electric light platform, and the Gardner and Nordenfeldt machine guns which were near. The Collingwood returned to Spithead, and an official inquiry was ordered. It is believed that the fault was not in the handling, but in the making of the gun at Woolwich arsenal.

The Terror of a City.

Between the woman who wanders about the streets shoving a baby carriage before her and the woman who drives a horse and buggy there is a choice. The baby carriage can sometimes be dodged, jumped over or got around. You can sometimes evade it by climbing a telegraph pole or rushing into a basement. If you are armed with a club and can look ferocious the woman will sometimes turn aside and cripple some one else. But for the woman who drives a horse and buggy —look out!

I saw her start out the other day. When the horse left the post the woman was looking back to wave her hand at somebody, and the lines were on the dashboard. There was an ice wagon coming up the street, but wave she must and did. She was almost ready to turn her attention to the horse when he stopped. He had to. He had run plump into the ice wagon, and he couldn't climb over it.

The woman picked up the lines, pulled on the "gee" and then on the "haw," ran the horse over the curbstone and twisted around a tree, and as she got into the street again she upset a swill cart with the off wheels and went her way with serene countenance.

When she reached the avenue she was fussing with the lap robe, and the horse took a long turn. There was a street car passing, and if the driver hadn't put on the brake and turned his horses across the track she must have been run down. It is doubtful if she noticed the fact. She pulled on one rein with both hands, told Dobbin to "git up," and finally got away on a straight line, on the wrong side of the street, of course. A brick team crowded her into the curbstone, but the smile never left her face. A milk wagon rubbed the fore wheel, and the milkman yelled at her, but she looked straight ahead. The horse finally crossed over to the other side on his own account, and the street car missed the hind wheel by such a close shave that half the passengers cried out in alarm.

All of a sudden the woman pulled hard on both lines and cried "Whoa!" She had been struck at sight of a new hat on a passing woman, and she wanted to see more of it. A grocer's delivery wagon was following close behind, and the sudden stop brought about a crash. Horse, woman and phaeton were slewed around and almost upset, but the only one at all disturbed was the horse. He didn't seem to believe in sudden changes. He was hawed and geed and pulled into shape, and as he jogged along again the lines were dropped while the driver fussed with her hat. Her buggy struck the nose of a horse backed up to a grocer's door —brushed against an express wagon—skinned along the side of a street car, and finally locked wheels with a beer wagon. Nothing was broken—nobody disturbed in mind or body. A harness-maker backed her horse out and headed him down street, and the serene journey was again resumed, to be interrupted on the next block by the animal bringing up against the back end of a farmer's wagon.

"What in blazes—!" roared the farmer. But he stopped there. She had dropped the lines to tuck in the lap robe.

Down at the next street three men stood talking. The phaeton crossed over and made a bee line for them and drove them off, and then crossed back and skinned along a pile of brick and drove four or five stone cutters to jump for their lives. It was just half a block further that the horse was "hawed" to cross to a photograph gallery. Vehicles were crossing in a mob. A private carriage was stopped dead still, a fishman's cart backed into a sand team, and a plumber's horse given a set-back to last him for a month. But retribution was at hand. A two-horse dray caught a hind wheel of the phaeton and wrenched it off, and drove splinters into the pavement. Some one held the horse, and some one else helped the woman out, and when she surveyed the wreck she mildly observed:

"I wonder how on earth that could possibly have happened, when I am such a good driver!"

I give you fair warning. I saw her at the wagon shop yesterday bargaining for a new wheel. She intends to drive out again. No arrangements can be made with the signal service man to hoist the danger signal when she starts out, nor will the police ride on ahead and clear the streets. The public must look out for itself until the legislature again convenes and some law can be made to cover the case.—*Detroit Free Press.*

The President has now set the best example of his life to the honored old bachelors of the land. There are half a million of them that have been wearing out the hinges of front gates and wasting gas and coal in the parlors who should at once arise to an appreciation of their lost opportunities and begin life by obeying the implied injunction to the race at the beginning, when it was declared that "it was not good for man to be alone."—*Chicago Inter-Ocean.*

NURSERYMAN & DEALER IN

Fruit and Ornamental Trees,

LADNER'S LANDING, B. C.

THE SUBSCRIBER WISHES TO INform the people of British Columbia that he has established a Nursery at Ladner's Landing, and is prepared to fill all orders for Fruit Trees, Ornamental Trees, Shrubbery, Vines, Small Fruits, &c. Trees imported or home grown according to the wishes of customers. The subscriber has had a thorough practical training in the business, and having a permanent stake in the country it is his interest to deal fairly with the public. He will wait upon the various towns and settlements shortly, and all orders will have his personal attention.

aul2tc E. HUTCHERSON.

To the Free and Independent Electors of the District of New Westminster:

GENTLEMEN.—

Numerous assurances of support voluntarily tendered, with the very substantial vote accorded me at the last general election, have prompted me again to offer myself as a candidate for your suffrages.

Since I last had the honor of addressing you, questions of vital import to the future welfare of the province have by mutual legislation on the part of the Dominion and Provincial governments been settled, upon conditions which have been ratified by a large majority of our late representatives. As a result of such settlement the sum of $250,000, Dry-dock refund, was solemnly promised for mainland improvements by the present government and I shall, if elected, strenuously insist upon the promise so made being faithfully carried out.

I am opposed to the liquor licensing power being vested in a magistrate's court as being incompatible with the well-known principles of responsible government. In my opinion the question of granting liquor licenses should be decided by the majority of the bona fide residents in each settlement, in accordance with Sec. 4, Chap. 105 of the Consolidated Statutes of British Columbia.

I shall advocate a just equality of taxation, whether real, personal or income; the modification of class legislation as applied to the learned professions; and a revision of the code at present employed in the collection of small debts.

I will advocate and support such legislation as shall tend to the gradual exclusion of the Chinese.

While favoring to the fullest extent free and compulsory common school education, I shall oppose the establishment of a provincial university as being a luxury we cannot as yet afford.

I am in favor of all government grants to municipalities being expended on the trunk or leading roads in each municipality, under the direction and supervision of the municipal council.

I will advocate the imposition of statute labor in all municipalities, making it optional with each municipality to adopt labor or a money commutation.

These are my views on some of the questions which occur to me as being of importance to the future prosperity of this district and province. Should you favor me with your confidence, I shall endeavor earnestly, faithfully and impartially to represent the various interests of the district in such a way as shall merit the confidence reposed in me.

I am, Gentlemen,

Your Obedient Servant,

jne19 JOHN KIRKLAND.

To the Electors of New Westminster District:

GENTLEMEN.—

Having had the honor to be nominated by a large and influential meeting of the electors of this district, as a candidate at the approaching election,

I would state that I am a farmer with large interests in this district, consequently am in a better position to know all your wants, and work for the best interests of the country, than men who have no permanent interests and who have heretofore almost invariably turned Victorians as soon as they crossed the Gulf of Georgia.

I am in favor of a removal of the capital from Victoria to the mainland, as being more central, and to that end should endeavor to have the constitution altered so that every district should have representation according to its electorate, instead of, as at present, where we find Victoria city, with barely 1,000 voters, sending four representatives, while this district, with over 1,500 voters, is allowed but three.

I am furthermore of the opinion that this district should be subdivided, and that the city of Vancouver should have its own representatives.

It is to be regretted that the land question is no nearer settlement than it was years ago, and I am of opinion that the local government is very much to blame for the present very unsatisfactory state of affairs. And so long as they continue to set up claims to lands which they cannot substantiate (as for instance in the case of the Sumas dyking reserve), so long will the Dominion government refuse to deal with the lands, as is proved by their recent notice extending the present unsatisfactory land regulations for another year. I am in favor of repealing the Dyking Act and waiving whatever claim we may have to the lands in favor of the Dominion government, on condition of their giving bona fide settlers their grants at once at not more than one dollar per acre.

It is also essential that this province should be on friendly terms with the Dominion government, so that this government would be in a position to use its influence in the matters of dredging, snag pulling, mail matters, &c.; also with regard to reducing the Indian reserves, the present size of which are detrimental to the interests of the district.

While favoring the present common school system, and believing that it should be extended, so that the rudiments of a good education would be within the reach *of all, I am opposed to the free* high school system, as well as the university which some interested parties would like to see started in Victoria, at the expense of the people, as I fail to see why farmers should be taxed to enable thriving citizens and merchants to obtain a free classical education for their sons and accomplishments for their daughters.

I am in favor of all government grants to municipalities being paid direct to the municipal councils to be expended at their discretion, and that each section shall receive an appropriation in proportion to the revenue derived therefrom, independent of its political creed.

I have found by personal experience that good roads are one of the greatest *requisites in opening up country districts,* and I should always do all in my power in this direction.

There are also a variety of other public works which need the attention of government, such as the daming of small sloughs, &c., which at present are the means of flooding large areas of country.

While measures calculated to further the best interests of the country will always receive my support, no matter from whom they may emanate, I regret that I cannot promise my support to the present government, as I consider that they have encouraged class legislation of a nature that is hurtful to the interests of this district, and that a great many of their measures are dictated rather in the interests of Victoria and individuals than in the interests of the province at large.

There are also a great many other questions which it is impossible to get into a short address of this nature, but which I hope to have the pleasure of talking over with you before the day of election.

In conclusion, gentlemen, if, after due consideration, you do me the honor of electing me as one of your representatives, I pledge myself to further your interests by every means in my power.

I have the honor to be, Gentlemen,

Your Obedient Servant,

je23 L. A. AGASSIZ.

je21-tc

To the Electors of New Westminster District:

GENTLEMEN:

Having consented to offer myself as a candidate in the coming election;

If elected, I shall endeavor to have the lands contained in the railway belt thrown open to settlers, knowing as do the discouragement and uncertainty that settlers *have had to contend with for the last ten* years.

I will assist in securing a thorough revision of the provincial laws relating to the liquor traffic, especially with a view to limiting the number of licenses to be issued: preventing the sale of liquors on Sunday and during certain hours of the night; and also providing efficient machinery for the administering and enforcing of such acts as may be passed.

I am in favor of redistribution of seats, as the voting power of this district is very much in excess of that of other districts in the province. In order that the different localities may be more fully represented, I am in favor of dividing the district into ridings.

I will sustain the present government in so far as their action shall be in accordance with these views.

So far as is possible in so short a time I shall meet the electors at the various polling stations to further explain my views.

I am, Gentlemen,

Yours Respectfully,

je26 A. C. WELLS.

To the Electors of New Westminster District:

GENTLEMEN:—

Having had the honor of being chosen *in conjunction with Messrs. McGillivray* and Orr as one of the People's Candidate's to represent this District in the next Provincial Parliament, I beg to solicit your votes and influence at the next election, on the 7th of July next.

I beg to state some of my views on the local issues of the day:—

1. That I think the action of the present Government detrimental to the best interests of the Province.
2. Would use all endeavors to have the lands in the railway belt opened to settlers, and get them their titles; also, *that the Dominion assist the Provincial* Government to build roads and bridges through said lands.
3. Amend Sumas Dyking Act, so as to relieve those parties now suffering from its injustice.
4. A liberal allowance for Public Schools, and make High Schools self-supporting.
5. Making and repairing roads and bridges throughout the District.
6. Give wife the right of dower.
7. Oppose monopolies and retain the land for actual settlers.
8. *Restrict Chinese immigration.*
6. Consolidate Municipal Act, and old Council retain office till new one sworn in.

Being a resident of this Province for over 28 years, and well known to many of you, and having all my interest in this District, you may rest assured, gentlemen, should you do me the honor to elect me as your representative, I will use my best endeavors for the interest of this District and the Province at large.

It is proposed to hold meetings at the different polling stations, of which due notice will be given, when I shall be happy to meet you and explain my views more fully.

I have the honor to be, gentlemen,

Your obedient servant,

WM. H. LADNER.

LADNER'S LANDING, June 24, 1886.

To the Electors of New Westminster District:

GENTLEMEN.—

Having received a written requisition from a number of the electors to allow myself to be placed in nomination at the coming election, and, after duly considering the matter, I have consented to comply with their request.

Should you honor me with your confidence, and elect me as your representative, I shall advocate the following measures:

The settlement of the railway land I look upon as of paramount importance, and will urge upon the Dominion government the necessity of giving to settlers such title as will stimulate confidence in the good intentions of the government and set aside that feeling of insecurity which now exists.

I will advocate a redistribution of seats and endeavor to secure, as far as possible, representation based upon population.

A bill for the removal of the capital to the mainland will receive my strongest support, and I will urge upon the government the importance of making such provisions as will secure to the province, in this particular, a speedy and proper result.

I shall favor a change in the licensing system, by the enactment of a law that will place the granting of licenses in each settlement or municipality in the hands of actual residents.

Any measure having a tendency to restrict Chinese labor and immigration will receive from me a hearty support.

I am in favor of placing all monies appropriated for municipal work unconditionally in the hands of the municipal council, as I consider it would be more in conformity with the true principles of responsible government than in the way in which grants are now made, and would lead to better results.

The erection of school houses, the construction of roads and bridges where necessary, will always receive my best attention.

I do not pledge myself to any party, but will support any measure which I consider benefits my constituents, no matter from what source it may emanate.

I have the honor to be

Your obedient servant,

HENRY DAWSON.
