Daily British Columbian

MATTS

Thursday Evening, November 4, 1886.

We regret the necessity of saying that of all the people who have profited largely by the native bounty of this country, the salmon packers of the Columbia river, as a class, are the most gross and selfish. They camp beside the river and despoil it ruthlessly of a treasure which rightfully belongs in proper share to future generations. They defy the laws made to protect the salmon, and [illegible] season, by fair methods or foul, as whim or interest serves. They are at no pains to preserve the salmon by limitation of the annual catch; nor will they even contribute to support works to correct by artificial means the effects of their own ravage. They seem to be in the business "for all there is in it," under the motto of "Make hay while the sun shines," and without thought or regard for the future. There are honorable exceptions, but as a class the packers are greedy without limit or decency.—*Oregonian.*

It is a singular fact that we are indebted to Pompeii for the great industry of canning fruit. Years ago, when the excavations were just beginning, a party of Cincinnatians found in what had been the pantry of a house many jars of preserved figs. One of these jars was opened and the fruit was found to be fresh and good. Subsequent investigations showed that the figs had been put into jars in a heated state, an aperture left for the steam to escape, and then sealed with wax. The hint was taken, and the next year fruit canning—which has since become an industry of such magnitude and importance—was introduced into the United States, the process being identical with that in vogue in Pompeii over twenty centuries ago. The old ladies in America who can tomatoes, peaches, and other "garden stuff" in this enlightened and progressive nineteenth century do not realize that they are indebted for this useful art to a people who were literally ashes but a few years after Christ.—*Ex.*

The chamber of deputies in France has again been petitioned to tax bachelors. Very proper too. Plato was in favor of the practice, Rome subjected the selfish creatures to heavy damages, and—perhaps the last remedy of all—in Sparta "the women were allowed to drag bachelors into the Temple of Hercules, and give them a sound thrashing." Something, it is evident, must be done in France before long, unless the country is to become depopulated. In Paris alone there are nearly half a million bachelors, and not more than 379,000 married men—five bachelors, that is, to every four benedicts. Then, again—apart from all questions of population, and as the petitioners in question, who are themselves men, very justly say—the bachelor escapes almost altogether from taxation. He pays in person if unlucky in the conscription, but that is all, and this liability is equally shared by the married man; but he evades all imposts and laughs at the collector, whose visits are the dread of the family man. What is to be done with the bachelors?—*London Echo.*

An interesting letter from a Hindoo in the London *Times* explains the causes of the religious riots which occurred last month in India. The Mohammedans, on their festival of Bagr-id, insist on slaughtering kine in the towns and villages, all of which have numerous Hindoo inhabitants. The Hindoos regard the cow as a sacred animal, and her killing as an abomination. They are three to one compared with the Mohammedans, but the latter are far more intolerant and turbulent [illegible] that prevails among them." Hence they accompany cow slaughter with the most offensive demonstrations, and thus the riots are brought about. The *Times* correspondent remarks that "the superior classes of the Mohammedans, and those among them who are blessed with education, carefully avoid the slaughter of the cow, so as not to hurt the feelings of the Hindoos. If the two [illegible] were sufficiently to be considerate to the feelings and susceptibilities of one another, it would not be difficult to let each enjoy his rights; but religious bigotry is the same the world over."—*Globe.*

What Toronto's well-known Good Samaritan says: "I have been troubled with Dyspepsia and Liver complaint for over 20 years, and I have tried many remedies, but never found an articles that has done as much good as Northrop & Lyman's Vegetable Discovery and dyspeptic Cure. CLARA E. PORTER.

Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, in advance, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of one cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this; but those who believe in getting in out of the rain and who can enjoy a *decent fire will doubtless appreciate this* institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:

Yours Respectfully,
HENRY W. HUGHES.

NEW ADVERTISEMENTS THIS DAY.

Bricks.....Townsend or Brice

Daily British Columbian

Thursday Evening, November 4, 1886.

In the east opinions are still much divided on the Dominion elections. The *Globe* of last Friday publishes a double leaded article in which it declares its conviction that the elections would be brought on in a few weeks. Newspapers all over the country continue to debate the question, and one party seems to be as much in the dark as the other with respect to the facts. All that may be safely said now is that the public does not know, and *it is best to prepare for any contingency.*

Mr. Olds, general superintendent of the C. P. R., told the Winnipeg Board of Trade that existing freight rates from that city to the Pacific coast would be modified. With respect to flour he said Canadians must have the British Columbia market, and the rates had already been made low enough to enable shippers to reach this coast. When Winnipeg gets through with Mr. Olds he had better come over here and learn what British Columbians think of the tariff on such products as they propose to ship eastward. There are quite a number of things needing adjustment. If Canada is to have the British Columbia market, it may be said with quite as much force that British Columbia ought to have the Canadian market.

The Candidate.

According to announcement a convention was held in this city last night to select a candidate to contest the riding in opposition to Mr. Chisholm. The convention was largely attended by delegates appointed to represent the various settlements in the district, there being over 30 present. After organizing and adopting rules by which the proceedings were to be governed, there were four candidates nominated, viz: Messrs. T. J. Trapp, Jno. Kirkland, Thos. Cunningham, and D. McGillivray. Mr. Cunningham afterwards declined to stand, and Mr. Trapp declined to bind himself to abide by the decision of the convention until he had consulted with his friends—which was then impossible. There were, therefore, only two candidates before the convention, Messrs. Kirkland and McGillivray. The balloting resulted in the selection of Mr. McGillivray, whose nomination *the whole convention* bound itself to support. Mr. McGillivray, therefore, stands as the nominee of a convention which was undoubtedly one of the most influential and representative gatherings ever brought together in this city, and with such support his chances of election ought to be excellent. The purpose of this convention was not, as has been stated, to bring out a prohibition candidate. It was to select a candidate who might reasonably be expected to vote for reform not only in the liquor laws but on all other questions affecting the moral as well as the material welfare of the country. It was felt by a large number of the best men in the district that Mr. Chisholm was conspicuously not such a man, and that he ought not, therefore, to be permitted to become our representative in the house of commons. In the opinion of the convention Mr. McGillivray may be trusted to vote right on these vital questions, and deserves the hearty support of all who have at heart the best and highest interests of the district. It may be said that the delegates seemed to be animated only with the purpose of securing the nomination of a candidate who would possess the confidence and obtain the support of a majority of the electors. There were, apparently, no personal ends to serve. It was proposed that a permanent organization be formed with a permanent chairman and secretary in this city through whom the sub committees in the settlements could be advised of such events as were considered worthy of action by the association. This is an excellent suggestion and ought not to be lost sight of. The want of organization has proved fatal to many a worthy scheme. Such an association would likewise tend to produce sympathy and more hearty co operation between the people of the cities and the settlements. It would make them realize more fully that all the interests of this district (which includes the two cities of New Westminster and Vancouver) may be and ought to be made entirely identical. If they are not so made, we shall quickly drift apart into small communities every one of which will be against the others; and diverse interests and divided counsels cannot prevail. It is a pity that steps for the establishment of a permanent organization were not taken at the convention, and we hope even now that measures will be taken without delay to carry out that plan.

In addition to our new stock of spring goods we have opened an invoice of Diagonals, West of England Broadcloths and French Cassimeres. Walsh the Model Tailor. HERMANN WALSH, Manager. ap21to

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

The Cowichan Indian agricultural show which took place last week was a great success. The exhibits, over 300 in number, are said to have surprised all who saw them.

After nearly a month of weather in which rain has been the prevailing characteristic, we are now enjoying true British Columbia weather—mild, bright and charming.

This proves that honesty is the best policy in medicine as well as in other things. Ayer's Sarsaparilla is a genuine preparation, an unequalled blood purifier, decidedly superior to all others.

Tid-bits tells the story of a conductor on a slow railroad who told one passenger that he had been on the road for nine years. "Then said the passenger, "this must be your second trip."

A train was delayed for an hour in Troy, N.Y., recently, and a drummer remarked to the conductor: "This is a sort of twelve ounces to the pound affair; ain't it?" "Show me!" "Troy wait, you know."

The Tacoma *News* says a $14,000 shipment of various kinds of fruit passed through that city last week, bound for New Westminster. They were from Lake City Minn., and came over the N. P. R.

In the supreme court, Victoria, on Monday last, the C.P.R. Co. was granted a new writ of possession for the land claimed by Samuel Greer on English Bay. The effect of this decision is that the court does not recognize Greer's right to the property in dispute.

Mr. Gisborne, general superintendent of Dominion telegraphs, has, through District Superintendent Wilson, telegraphed all operators on the old government line his "farewell, best wishes," and states "that he shall always feel a deep interest in their welfare."

This is the latest witicism with which W. S. Gilbert is credited: "It is easy enough for bishops to be good on a salary of £5,000 a year," said the satirical dramatist, looking round on a select circle of literary friends, "but we have to be good for nothing"—a pause—"and some of us are."

Sheriff John H. McGraw, of Seattle, has been defeated in his run for re-election for sheriff of King county. The enemy made good use of Sheriff McGraw's unfortunate carelessness at Victoria, when two prisoners that he was bringing up on the San Francisco steamer were taken from him.

Concerning Washington Territory the *Post-Intelligencer* of Tuesday says: The returns from the Territory are too meagre to form a definite idea of the result. Voorhees is running ahead in the Sound counties, and Bradshaw seems to have held the republican strength east of the mountains. Republicans are confident of Bradshaw's election, and the central committee claims for him 1,000 majority in the Territory. The democrats, on the contrary, are confident of the election of Voorhees.

Commons Election.—We are authorized to state that Mr. Donald Chisholm is in the field as a candidate for the seat in the House of Commons rendered vacant by the death of our late lamented representative, Mr. Homer. dwoc25tc

Quite True.—According to a special to the *Times*, the citizens of New Westminster are gratified with the substantial progress their city is making. Houses are in great demand. Every dwelling in the city is occupied, and those being erected are rented long before being completed. The progress of the royal city is substantial and void of any booming or inflated notions.—*Times.*

Still Fresh.—Mr. Smithers brought to this office to-day several bunches of beautiful ripe raspberries and blackberries gathered this morning in his garden. A gentleman from Sumas informed us yesterday that he had large quantities of these berries fully matured in his garden. Flowers and house plants, such as geraniums, *fuchsias, etc., still grow and bloom in* the gardens without shelter, and the weather is very charming.

Reduced Rents.—The tenants on the Kerry estates of the marquis of Lansdowne, governor general of Canada, have been notified that their rents may be paid on the basis of an abatement of 20 per cent. on the November rents fixed by the court. Lord Lansdowne also decided, in view of the prevailing low prices of live stock and agricultural implements, to accept an abatement of from 30 to 35 per cent. on the ordinary agricultural rents not touched by the court.

A Compliment.—One of the pictures of Mr. Robert Harris, of P. E. Island, on exhibition at the Colonial and Indian Exhibition, is used to illustrate an article on "Art in Canada" published in the London *Magazine of Art*. The writer of the article pays a high compliment to Canadian artists, and adds that "while walking among the Canadian pictures one can imagine himself in a good European gallery much more easily than he can if he is in the fine art section of any other colony."

Rand's New Map.—Messrs. Rand Bros. have issued a new map of the district of New Westminster which is undoubtedly the best work of the kind that has yet been given to the public. It contains many features that were wanting in the other map. The boundaries of each municipality are clearly defined by colored lines, and the New Westminster branch of the C. P. R. is shown. This map is on sale in this city at the store of the British Columbia Stationery & Printing Co. (late T. R. Pearson & Co.'s) at the low price of $1.25.

A Good Paper.—We are receiving from all quarters expressions of satisfaction at the Weekly Columbian. Subscribers are greatly pleased with it, and do not hesitate to say so. If those who take an interest in the paper wish to give a practical turn to their good wishes they may do so by recommending it to persons with whom they come in contact. To all new subscribers who pay $2 for 1886 the *Weekly* will be sent for the balance of this year free; i. e., $2 will pay from the present time to the 31st December, 1887. Any person getting up a club of 5 new subscribers and sending $10 will be entitled to receive an extra copy free. In all cases no charge will be made for the balance of this year. tc

The Grand Trunk.—A London despatch says that at the half-yearly meeting of the stockholders of the Grand Trunk railway, held in London on the 29th ult., President Tyler, in moving the adoption of his report, stated that the period it covered had been the most unfortunate in the company's experience. Losses had been suffered from various causes, the most important of which were the excessive competition in rates and fares, the small-pox in Montreal, depression in trade, and the low prices of breadstuffs. But better times were now appearing. Trade was improving in the United States, emigration reviving, and it was not likely the road would meet with any further insensate competition from American railroads.

A full line of Canadian Hymnals just received at T. R. Pearson & Co.'s oc17tc

Cost of Contempt.—In a few days Mr. Theo. Davie, in the supreme court, will move that an order be granted for the release of the three *Chinese imprisoned two years ago for* contempt of court. It will be remembered that at the assizes of 1884, during the trial of a Chinese abduction case, Ah Pow, the interpreter in the case, complained to Judge Crease that he had been threatened with death by three highbinders on James Bay bridge while on his way to court. These were Wong Sam Yum, Shin Quon and Wong Ying. They were arrested and brought before the judge, who sentenced them each to six months' imprisonment, one to a fine of $1,000, and the other two to a fine of $500 each, and to continue in prison until the fines were paid. The Hip Sing Tong society of highbinders, then recently formed, were a section of the Chinese element that promised considerable trouble. However, Mr. Justice Crease's action had a very salutary effect, and dampened the ardor of the remaining highbinders so much that very little has since been heard from them. This was two years ago the coming 29th of November, and the highbinders being unable to furnish the amount of the fine imposed, still languish in durance vile. An effort is now being made on the part of their friends to obtain their release. —*Colonist.*

Faces as yellow as that of the "Heathen Chinese," in consequence of bile in the blood, grow fair and wholesome-looking again when Northrop & Lyman's Vegetable Discovery and great blood purifier is used to relax constiped bowels and expel the billious poison from the circulation. Rhematic and blood impurities are also driven out by it, digestion restored, and the system benefied in every way its use.

Personal.

Col. Walpole of London, England, arrived here yesterday and is the guest of Mr. L. L. Doane.

Mr. A. F. Cotton who is engaged in surveying the Dominion lands came down from Nicomen to-day. He has stopped work for the present.

Mr. Sam Adler of Victoria arrived from Granite Creek to-day. He reports things quiet at the mines and says he has come down for snowshoes.

Mr. C. D. Rand has left for a month's business trip to Montreal, St. Paul, Toronto, New York, and Nova Scotia. The object of his visit is to solicit eastern capital for the development of this province.

Registered at the Colonial to-day: G. F. Kyle, T. L. Higginson, T. L. Kempster, Victoria; D. T. Munson, Vancouver; C. R. Mason, Vancouver; John Kirkland, Delta; T. F. Sinclair, Port Haney; D. R. McLaine, C.P.R.; A. Bunning, Vancouver.

J. H. Earl, West Shefford, P. Q., writes: "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horse in cases of cuts, wounds, &c., and I think it equally as good for horse as for man."

London Cablegram.

London, Oct. 30.—The board of admiralty have been greatly stirred up by Lord Charles Beresford's alarming revelations of the true condition of the British navy. There has been some talk among the old fogy disciplinarian relics of past days to pass a resolution denouncing Lord Charles as an enemy to his country for exposing the weakness of the navy to the whole world. The malcontents are deterred only by the knowledge that Beresford would make the whole thing public and report with more detailed proofs the frightful insufficiency of the chief branches of the department, and the utter incompetency of the whole admiralty system in these days of naval changes. The admiralty are afraid to stir the matter any more than they are compelled to, as they know that if Beresford is provoked into another attack he will expose or others will do so for him. Astounding are the results of comparative tests of English and French shells fired from various descriptions of British naval guns at steel plates, with backing exceeding anything ever known before in shell practice with guns of the calibre as those used at said tests. Among the few who are cognizant of the facts it is well known that the result of experiments was to demonstrate that the strongest British man-of-war afloat could be blown out of the water by such shells, and almost before she could bring her superior guns and shells into action. The admiralty, however, are a compact body of men of high intelligence and marked ability, and these have vigorously taken up Lord Charles' memoranda and overcoming all opposition are resolved to make it the basis of real naval reform root and branch.

The diplomatic view of the Bulgarian question is this: The fresh shuffle of diplomatic cards since Salisbury returned from the continent relieves Russia apparently from serious opposition on the part of Great Britain. Salisbury's policy now is rather to encourage than restrain Russia getting into difficulties. In any way England loses nothing, and has both hands free to prepare for events beyond the Balkans. Consequently the opinion grows that Russia will be allowed to do what she pleases, *so far as the great powers* are concerned.

C. R. Hall, Grayville, Ill., says: "I have sold at retail, 156 bottles of Dr. Thomas' Eclectric Oil, guaranteeing every bottle. I must say I never sold a medicine in my life that gave such universal satisfaction. In my own case, with a badly ulcerated throat, after a physician pencilling it for several days to no effect, the Eclectric Oil cured it thoroughly in twenty-four hours, and in threatened croup in my children this winter, it never failed to relieve almost immediately."

ELECTORS
—OF—
New Westminster District.

GENTLEMEN,—As a successor to your late representative in the Commons will soon have to be elected, I hereby announce myself a candidate for the position.

I purpose publishing an address in which I will give my views on the most important questions affecting your interests, and will visit the different settlements and address the electors before election day.

In Politics, *I am and will be* THOROUGHLY INDEPENDENT.

Yours respectfully,
dwoc25tc T. J. TRAPP.

From Surrey.

(Correspondence of the Columbian.)

"The melancholy days have come, the saddest of the year," sings the poet; and our hearts chime in with him at this time. Our fine summer and lovely autumn have passed, and the dreary rains of winter are upon us. Now and again the fresh sunshine flows down upon us as if to taunt us and make the dull weather more gloomy by comparison. The gorgeous golden and russet tints have nearly faded from the forests, and little remains but brown and green.—The election is causing a little ripple of talk to come over the generally smooth surface of our settlement. A little canvassing has been done. Mr. John Kirkland, who intends to run on the "farmer's ticket," has been around feeling the pulse of the people. A meeting of the new "reform" party was held last Friday night in Mud Bay school house, and Mr. Jno. Armstrong was elected delegate to the convention in New Westminster. Mr. Chisholm's friends have been working the requisition a little.—The Royal City Mills have withdrawn the Gipsy from the Nicomekl River, and in her stead a new boat, the Stella, has been placed to take the booms, &c., from their camp. The Stella is a new screw steamer and looks very pretty gliding between the wooded shores of the Nicomekl.—The Boyce Bros. of Langley are engaged in threshing the grain of Clover Valley. All seem well satisfied with their produce both in respect to quantity and quality.—Messrs. H. H. Mackenzie, D. Rowan, and A. N. Anderson, who have been employed in the canneries on the Fraser River for the summer, have returned home.

This Afternoon's Despatches

Special to the Columbian.

London, Nov. 4.—One of the Bulgarian ministers has written to the London *Times'* correspondent at Vienna appealing to Gladstone through the correspondent to again raise his voice on behalf of the independence of Bulgaria. The *Pall Mall Gazette* speaking of the mayoralty contest in New York says: "The vote for Henry George is by far the most important political event of the day. It is a message of hope from the new world to the old, an unexpected light bursting forth in a dark place. Henry George is visionary, an idealist, and utterly impracticable. But were he as mad as a March hare all the same the votes for him mean a protest against the rule of mammon, and will give an impetus to a discussion of the question of the condition of the people throughout the world." The *St. James' Gazette* says of the vote for George: "It is a significant and unpleasant fact that in the great American city of New York such a large proportion of workingmen are prepared to vote for the gospel of confiscation. The election should cause all respectable Americans to forget the trumpery of party fights and political indifferentism and face the new danger that is threatening the common wealth."

Memphis, Nov. 4.—A fire to-day at noon burned the Chickasaw Cooperage Co.'s works on Front street entailing a loss of $100,000.

London, Nov. 4.—Dispatches from Cabul say that the Ghilzais have surprised and annihilated a regiment of Duranis who were going to Cabul. The scene of the massacre was Mukuhar, 70 miles south of Ghuzni. The insurrection started by the Ghilzais tribe continues to spread.

San Francisco, Nov. 4.—Harry B. Standerwick, well known in journalistic circles all over the coast, died yesterday in Santa Clara from lung trouble. He was 30 years old and leaves a wife and one child.

Sofia, Nov. 4.—State of siege has been proclaimed at Phillipopolies for the purpose of suppressing bands of brigands infesting the environs of the city, and who are incited by Russian agents to deeds of violence.

New York, Nov. 3.—The trial of ex-Alderman Frances McCabe as to the question of his sanity began this afternoon in the court of general session. McCabe is one of the boodle aldermen charged with accepting a bribe in connection with the Broadway railway franchise. Dr. Hammond, insanity expert, testified that his examination of McCabe in Ludlow st jail on two occasions had resulted in the discovery of several symptoms of insanity usually considered infallible, but he thought the malady was was not liable to make the patient dangerous, indeed, he would soon become an imbecile and he thought he could be better cared for by his family than in a public institution. A number of other experts gave similar testimony. The district attorney expressed himself as satisfied that the prisoner was insane and the jury brought in a verdict to that effect. McCabe was then taken to Ludlow street jail.

New York, Nov. 4.—John Muir, general traffic manager of the Newport News and Mississippi Valley Co., announces the establishment of a new transatlantic steamship line between Newport News, Va., and Liverpool, England, commencing on Dec. 1st. Several of the steamers of the Ducal line are under engagement to make regular semi-monthly sailings.

Surface Indications

What a miner would very properly term "surface indications" of what is beneath, *are the* **Pimples, Sties, Sore Eyes, Boils,** and **Cutaneous Eruptions** with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into **Scrofula.** This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of **Hereditary Scrofula.**

The medical profession indorse Ayer's Sarsaparilla, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

White Bronze Monuments.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being non-corrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

SAN FRANCISCO, Nov. 3.—Joseph H. Ballard, an elderly married man, committed suicide in a hotel at Bela-Vista to-day by shooting himself in the head with a revolver. Cause, depression of spirits and ill health.

NEW YORK, Nov. 3.—A schooner which arrived to-day from Chargres, via Keywest, reports that on October 14th, 50 miles south of Dry Tortugas, she picked up the captain, mate and four seamen of the bark Treasuroara, from Barcelona for Havana, on a piece of the cabin house, having been five days in that condition without food or water. The captain stated that the bark broke up and sank, Oct. 10th, during a hurricane. The balance of the crew, seven men, are supposed to have gone down with her.

SAN FRANCISCO, Nov. 3.—The election count both in city and country is progressing very slowly. At noon 32,903 votes in the interior had been counted, giving Swift, republican, for governor, 15,193; Bartlett, democrat, 14,104; Russell, prohibition, 1,030; Wigginton, American, 1,804; O'Donnell, independent, 693. Swift's plurality on this count in the state, outside of San Francisco, is 979, which if maintained would give him a plurality in the state outside of San Francisco of 5,000. At noon 14,272 votes had been counted in the city, giving Swift 4,840, Bartlett 5,544, Wigginton 666, O'Donnell 298. Bartlett's plurality on this count is 644, which if maintained in the same ratio throughout the total city vote would give him a plurality of 2,000, leaving Swift a gainer on the entire vote of the state by 3,000. The legislature is still in doubt. Both republicans and democrats claim a majority on joint ballot. The count of San Francisco so far as made indicates that the democrats have elected 15 state senators and assemblymen and the republicans 13, a democrat gain of 4 in the city.

10 p. m.—256 cities and towns in the state, including San Francisco, give the counts up to 4 p. m. as follows: Swift, 30,602; Bartlett, 30,548; Russell, 1,562; Wiggington, 2,962; O'Donnell, 4,306.

DES MOINES, Iowa, Nov. 3.—The republican state ticket was elected, a republican gain. The entire republican county-judicial ticket is elected.

ST. PAUL, Minn., Nov. 3.—The entire state ticket has been elected in Minnesota, by majorities of from 10,000 to 13,000 on joint ballot. The republicans will probably have a safe working majority in the state legislature.

MILWAUKEE, Nov. 3.—Though returns from the rural townships will continue to straggle in for several days yet, the general result is no longer in doubt. The republicans have elected Gov. Rusk by not less than 22,000 plurality over Woodward, democrat, and it is probable that it will turn out to be 25,000.

OMAHA, Nov. 3.—Returns, though incomplete, indicate a reduced republican majority on the state ticket. The majority for the state ticket may reach 20,000.

DENVER, Nov. 3.—The returns from Colorado are scattering, but they indicate the election of the entire republican state ticket by a small majority.

NEW YORK, Nov. 3.—The Pacific Mail directors have appointed a subcommittee to confer with the Panama people on matters in dispute between them. Director Lonterback said, after voting, that they did not wish to see an opportunity of a conference with De Lesseps pass by without taking advantage of it.

RANGOON, Nov. 3.—A deputation has arrived bringing a letter of submission from a powerful khan chief and requesting British assistance to clear the route to Mandalay of Dacoits.

Commissioner of Police Gleason and 20 policemen were surprised at midnight on Kyen Dwan river by the rebels and all murdered.

BERLIN, Nov. 3.—Dr. Wm. Loeve, member of the reichstag, is dead. He died at Moran, in Austria.

LONDON, Nov. 3.—Heavy storms prevail throughout Scotland. In Edinburg a new building was overthrown and three workmen killed and five injured.

BELFAST, Nov. 3.—Sexton has been declared elected to parliament for the western division of Belfast. The petition of Mr. Barlow, the conservative candidate, to have the seat vacated on grounds of bribery, has been denied and the petitioner condemned to pay costs of the proceedings.

DES MOINES, Iowa, Nov. 3.—Additional returns indicate that the majority on the republican state ticket will reach 10,000, and probably go higher. The republicans have elected eight congressmen, a gain of one.

TOPEKA, Kan., Nov. 3.—Forty-four counties in Kansas give Gov. Martin, republican, a majority of 17,125. Estimating the remainder of the state at the same ratio, the republicans will have a majority of 37,000. The republicans elect six congressmen and the independents one.

RICHMOND, Va., Nov. 3.—All the returns received to-day serve only to emphasize the defeat suffered by the democrats in Virginia yesterday. There has been a falling-off in their vote throughout the state, and their losses in all districts have been almost phenomenal. Of ten congressional districts in the state the republicans carry six, the democrats three, and the labor party one, being a net loss of five congressmen to the democrats.

NEW YORK, Nov. 3.—Returns from New Jersey show that R. S. Green, democratic candidate for governor, has between 9,000 and 10,000 majority. Nine republican and five democrat senators are held over, making the new senate 11 republicans and 10 democrats, a net democrat gain of three.

BOSTON, Nov. 3.—Returns from all but two towns in the state give the following vote for governor: Ames, republican, 121,764; Andrews, democrat, 112,360; Lathrop, prohibition, 8,148. The republican state central committee claim the entire state ticket except auditor and secretary.

LONDON, Nov. 3.—The Lincoln autumn handicap, distance about one mile and a half, was won by the 4-year-old filley, Miss Graham. There were 9 starters.

PARIS, Nov. 3.—President Grevy and Premier DeFreycinet received a delegation of farmers who came to urge the necessity of a duty of five francs on imported corn. President Grevy expressed an earnest desire to assist French agriculture to hold its own against foreign competition. M. DeFreycinet made a similar response.

The budget committee recommends duties to be imposed on foreign goods imported into Tonquin, but that French products be admitted free.

PANAMA, Nov. 3.—Intelligence was received yesterday by steamer of the revolutionary movement in Esmeraldas, Ecuador, headed by Eloy El Faro, who is intimately associated with the revolution in the republic. He imprisoned the government soldiers and policemen and established a government of his own, which seems to be popular.

CONCORD, N. H., Nov. 3.—Returns from all but 40 towns and wards in the state give Sawyer, Republican for governor, 33,439; Cogswell, Democrat, 33,174; Wentworth, Prohibition, 1,878. Towns to hear from will increase Cogswell's vote so that it will exceed Sawyer's. The total vote of the state will be less than 69,000, a falling off of nearly 14,000 as compared with 1884.

A Republican majority in the legislature assures the election of Sawyer for governor and a Republican United States senator.

LONDON, Nov. 3.—Morley's emphatic declaration at Leeds that there would be no surrender of the leading principles of Gladstone's Irish bill sufficed to suppress the threatened motion by a small minority in favor of the conciliation of the unionists and the conference results in widening the breach between the liberals and unionists. The policy of the Gladstonian leaders is largely influenced by their knowledge of a closer alliance between Lord Salisbury and Lord Hartington, rendering all overtures for the conciliation of the latter futile. Since the cabinet council resumed Lord Salisbury, Lord Hartington, and Sir Michael Hicks-Beach held a long interview on the Irish policy. To-day Lord Hartington called a meeting of the unionist leaders to confer with the executive committee of the liberal-unionist association. It was decided to hold a general conference at London of all branches in the province to demonstrate that true liberalism continues opposed to Gladstonian home rule. Morley said if a union of the sections of liberals could not be obtained without the surrender of the principles of an enormous majority to a small minority the only recourse was to fight the battle out. The majority he said did not wish to proscribe individuals or to excommunicate sections but the most contemptible men who launched a protest in favor of Ireland of such magnitude and moment were ready to agree that all should be forgotten. They would pursue the old course still. Gladstone and other members of the late government were ready to receive a modified policy if supported by solid reason despite the recent defeat of the speaker. He said he believed Gladstone to be on the eve of a triumph and that the liberal policy was now rooted in the minds and consciences of liberals throughout the country. This sentiment was received with enthusiastic cheers. Resolutions were adopted declaring that free public elementary schools should be established and placed under the control of the people's representatives; that reform of the registration laws was necessary and that the land laws should be amended in the direction of the creation of peasant land owners. At the evening session Morley said: This afternoon meeting has added a fresh article to the liberal programme, namely: an early settlement of the Irish question upon an enduring basis which is only securable by granting to Ireland a legislative assembly of her own. Gladstone will be leader of the party in spite of a combination against him. He (Morley) doubted very much the genuineness of most of the radical proposals which Lord Randolph Churchill dangled before the Bradford electors. That sprig of Tory reform would soon dry up. Though the government was receiving kindly help from the radical friend of Birmingham he would say nothing harsh of these dissident liberals but he thought it their duty to insist on the present government dealing with the Irish question without delay. Tory statesmen and newspapers now parade Ireland as free from crime. Why did they not hasten remedial legislation instead of as Lord Randolph Churchill announded, instead of dealing with other questions first. The real meaning of the programme was to shelve the Irish question. This was misery, and the pity of it was that Ireland would have to learn again the cruel and desperate lesson she had been taught a thousand times before, that she is to be treated with harshness in the time of outrage and agitation while nothing is to be conceded to her on the ground of justice and tranquility. (Cheers.) Sir Wm. Vernon Harcourt ascribed the attitude of Ireland not to a firm Conservative administration but to remedial action constantly applied to Ireland by Gladstone and so the reasonable expectation was that with the assistance of the liberals Ireland would be dealt with to her full satisfaction. He said there was no cause for dismay regarding the position of the liberal party. As to Churchill's boast that he was after all the only true judge on political questions, was the man who called both heads and tails likely to win? The government turned their backs on themselves not only on the questions of franchise, cloture, Ireland, and land laws, but even on the question of their foreign policy. The Berlin treaty has now politely shown the door and Churchill has entered into heavy recognizances to keep the peace.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious secretion, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria.
