DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., FRIDAY EVENING, SEPTEMBER 17, 1886. — NUMBER 42

Daily British Columbian

Friday Evening, Sept. 17, 1886.

The Tacoma Mill Company has at last succumbed to the outside pressure and shut down. Ever since the Chinamen were driven out of Tacoma that town has been in the hands of a mob, so to speak. Manufacturers, ship owners and ship captains had no protection. Factories have been burned, crews have been forcibly taken out of vessels, ships have been tied up to the wharves, the longshoremen refusing to load them or allow anybody else to put lumber into them. One strike followed another in rapid succession, and finally the climax was capped a few days since when, in response to a telegram from the Coast Seamen's Union of San Francisco, all the work of loading vessels at Tacoma was suspended.—*Seattle Post.*

The Maharajah Duhleep Sing is reported to be exciting the rajahs of the Punjaub against England and in favor of Russia. Somebody is always doing something of this kind, and it might as well be Sing as anybody else. Sing has a very handsome house, and a lot of about 17,000 acres surrounding it, in one of the best hunting and shooting districts of England, and he is also the lucky recipient of a pension of $150,000 a year from the British treasury, so that he is hardly likely to conspire dangerously against the author of his remarkably well-buttered bread. England always keeps the lean and hungry Cassios of eastern India beyond the need or desire of conspiracy. Or, at least, she always tries to fatten them. Moreover, Russia doesn't want India; she wants the control of the Mediterranean Sea. Give her that, she had as lief that England ruled India as its native princes.—*Chicago Inter-Ocean.*

It is hardly credible that the German Emperor should have advised Prince Alexander to make his humble submission to the Czar, without first making sure that the submission would be effectual. It looks more like a desperate attempt of the Prince's own to placate his implacable enemy; an invertebrate step which only invited the brutal answer returned. Whosoever is responsible, the submission exhibited a fatal degree of weakness; and no wonder the Czar seized a welcome opportunity as well to insult the hated Prince as to slap the face of Europe. Whether the smart of this rebuff will prove unbearable by Europe is now the question. The situation is perilous on all sides. Germany's attitude on the subject is still an enigma; but Austria can hardly submit tamely to such a blunt and overbearing assertion of Russian predominance in the Balkans; Turkey cannot see with equanimity a Russian province set up at the very door of Constantinople; Roumania, Servia, and the other States of the Balkans, ought to have something to say about the vanishing prospect of Balkan unity; and Greece will certainly seise the slightest excuse to invade Thessaly and Albania. She missed her opportunity by hesitancy and trust in the Powers the last time the pot boiled over; but this is a mistake she will not repeat: she will have if she can a *fait accompli*, instead of a claim, to present to the next conference on Balkan affairs. And England? England's action must depend altogether on that of Bismark, who, however, is playing his own hand. England has a definite policy; but she is not bound alone to carry the whole of eastern Europe on her shoulders: the Danube is a German river, and the Danube it is that is threatened by Russian aggression in the Balkans; therefore let the German powers see to it. England can protect her own peculiar interests as far as they may be affected by any threatened change in the ownership of Constantinople; and to this end mainly, if the German powers step out of Russia's path through European Turkey to the Bosphorus her diplomacy should be directed. To prevent Russia from making Asia Minor a vantage-ground to seise Constantinople should be England's object; not, however, for the sake of Constantinople, but because, if Russian influence should prevail in Asia Minor, that would in itself be a serious menace to England's interests in the far East. —*The Week.*

Mr. T. C. Wells, Chemist and Druggist, Port Colborne, Ont., writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure sells well, and gives the best of satisfaction for all diseases of the blood." It never fails to root out all diseases of the system, cures Dyspepsia, Liver Complaint, etc., purifies the blood, and will make you look the picture of health and happiness.

Public Notice
New Westminster Public Library.
THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:
Yours Respectfully,

NEW ADVERTISEMENTS THIS DAY.

To Road Contractors.....C. Warwick

Daily British Columbian

Friday Evening, Sept. 17, 1886.

A Cheeky Proposal.

In our issue of yesterday we called attention to some of the unfair and misleading statements made by the Victoria *Colonist* in reference to Fraser River and the city of New Westminster. In the *Colonist* of Wednesday we find an article on "Our Maritime Interests" in which more misleading statements are made and a conclusion arrived at against which we must offer a most emphatical protest. The article begins with a reference to the proposed establishment of a telegraph station on the south-west corner of Vancouver Island so that Victoria tugs might be informed of the arrival of ships in Royal Roads. It then proceeds to point out the disadvantages under which British Columbia tugs labor, and illustrates by quoting the tea ship Flora P. Stafford. This ship, it says, entered Port Augeles and telegraphed to Victoria for a tug. The Alexander responded, but an American tug reached the ship first and whisked her off to Port Moody. "The tug passed the Burrard Inlet custom house with supreme unconcern," says our cotemporary, "and getting a friendly New Westminster customs officer to clear her at Port Moody, she left again." After stating that a British tug would not be allowed to do such a thing in American waters, our cotemporary concludes as follows: "In British Columbia, however, the case is different. Victoria, New Westminster, Burrard Inlet and Nanaimo are all ports of entry; and the only way, so far as we see, to obviate what is a decided hardship would be to create Victoria (with the exception of that on the Stickeen River and that of Port Simpson) the sole port of entry for British Columbia, it being in the interest of trade and commerce that it should be done." Now, there can be no objection to the extension of the telegraph system to the south-west coast of Vancouver Island for the purpose indicated, and we cordially approve of this being done. If anything else within reason can be done to give our tugs every possible chance to secure the towing trade, it will also meet with our hearty support. But when our Victoria cotemporary proposes to abolish the ports of entry everywhere throughout the province except at Victoria, in the interest of the Victoria tugs, he makes a proposal that will be resisted by all who wish to preserve the commercial facilities now in existence, or who care for the prosperity and development of our maritime affairs. It is not true that the abolition of the other ports of entry would be "in the interest of trade and commerce." It might be in the interest of Victoria to compel all goods and vessels to be entered there, but Victoria's interests and those of the rest of the province are not always identical. The proposal is one of the most extraordinary we ever heard from a public journalist, and furnishes additional proof, if proof were needed, of the fact that the *Colonist* is "intensely sectional" in its views, and would not hesitate to sacrifice the rest of the province to its local ambition. According to our customs regulations the American tug had a perfect right to take the Stafford to Port Moody, and the "friendly" officer at this port had a perfect right to give her a clearance there. The "port of Burrard Inlet" comprises the whole inlet, and foreign vessels may be cleared from any part of it. For a long time a certain clique in Victoria, aided by the *Colonist*, endeavored to bring about a consolidation of the various provincial pilotage authorities into one board to be located at Victoria. But the proposal, being purely sectional and selfish, was vigorously opposed by New Westminster, Burrard Inlet and Nanaimo, and it failed. This new scheme of centralization will fail also. The customs authorities we are sure would not listen for a moment to anything so ridiculous. In the early days, when the gold excitement began on Fraser River, a gun boat was stationed at the river mouth to prevent people coming into the colony without payment of $5 per head. This seems to be just the sort of arrangement that would suit our cotemporary of the *Colonist*. If he could have a gun boat stationed in the Straits of Juan de Fuca and prevent all vessels and all traffic from reaching any other part of the province without first entering and paying tribute at Victoria, he would be happy. But the days are past when anything of this sort will be tolerated in British Columbia, and our "intensely sectional" friend may as well save his breath for some useful and hopeful scheme.

THE ROCK ON WHICH MANY a constitution goes to pieces is Dyspepsia. The loss of vigor which this disease involves, the maladies which accompany it, or which are aggravated by it, the mental despondency which it entails, are terribly exhaustive of vital stamina. Its true specific is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which likewise overcomes bilious maladies, female ailments, and those coupled with impurity of the blood.

AYER'S Hair Vigor cures baldness. Hair Vigor restores youthful freshness and color to faded and gray hair. It attains these results by the stimulation of the hair roots and color glands. It rejuvenates the HAIR and cleanses it. It restores to the HAIR that, either by reason of age or diseases of the scalp, has become dry, harsh and brittle, a pliancy and glossy silken softness of extreme beauty. There is no dye in Ayer's Hair VIGOR and the good it does is by the VIGOR it imparts to the follicles, and the cleanliness and healthfulness of the condition in which it maintains the scalp.

AYER'S Hair Vigor renews the hair. Hair Vigor is the best cure known for Dreadful Hair, Scald Head, Itching Humors, Tetter Sores, Torpid Follicles, and all other diseases of the scalp that cause the falling of the HAIR and its fading. Nothing cleanses HAIR of the nuisance of dandruff so perfectly, and so effectually prevents its return, as AYER'S HAIR VIGOR. In addition to the curative and restorative virtues peculiar to Ayer's Hair VIGOR it is a toilet luxury. The Hair VIGOR is by far the cleanliest hair-dressing made. It causes the hair to grow thick and long, and keeps it always soft and glossy.

Ayer's Hair Vigor

Contains no deleterious ingredients. Its use prevents all scalp disease, secures against the hair growing thin or gray, and surely cures all baldness that is not organic.

"I take only one English weekly paper, *The Spectator*, and one Canadian, *The Week*, and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:

A Canadian Journal of Politics, Society and Literature.

PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of *policy holders are not lessened to give* larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

VICTOR PERPETUAL

Hay Bailing Press!

REID & CURRIE

—OF THE—

PACIFIC CARRIAGE WORKS

HAVE PURCHASED THE SOLE right to manufacture these celebrated Hay Bailing Presses in the Province of British Columbia, and are now manufacturing them at their manufactory, Columbia St., New Westminster. Farmers and others interested are advised to call and see these presses before purchasing elsewhere. They have no equal for economy, simplicity and efficiency.

With this Press there is no climbing up and tramping in the hay and climbing down again and pulling out the bale, as with the old-style presses. Everything is done on the level ground. You don't stop the team to tie the bale. The bale is discharged automatically, and moves itself on to a platform scale to be weighed and tagged.

It is the cheapest Press, besides being the best; so every farmer can afford to *have one of his own, and it will save him* its worth in one season by reducing the high rates of freight to a minimum, and by avoiding loss of time and vexation when you want to be bailing hay.

Not long ago Mr. Horatio Webb, of Chilliwhack, inserted an advertisement in this paper, offering a lot of stock for sale. Yesterday we received the following note from Mr. Webb: "As I have disposed of my cattle, you need not advertise them any more. I received correspondence from different parts two days after the advertisement appeared—one from Clinton—and have made a good sale. So much for advertising." Mr. Webb should have said—so much for advertising in a newspaper that has a large circulation.

THE THIRD TEA-SHIP.—The third cargo of tea for the C.P.R. arrived at Port Moody at 6 o'clock last night on the ship Zoroya. The cargo consisted of 8267 pkgs. tea and curios from Yokohama direct, which port the ship left 47 days ago. She encountered much calm weather and fog. The Zoroya is a small ship of 385 tons, built of wood, and is owned in New South Wales. She sailed right up into English Bay, and there got a tug which took her to Port Moody. The captain declares that he would have sailed clear up to Port Moody if the wind had not been against him. The ship began discharging this morning. Mr. Peter Grant, of the customs department at this city, met the ship on her arrival at the wharf.

RAILWAY MATTERS.—The C. P. R. is making haste slowly with the ballasting of the branch line. It was reported that a steam shovel was to be at work last Monday, but Mr. Green, C. E., who was out over the road yesterday, informs our reporter that it is not in operation yet. About one-third of the road is now ballasted. As there is yet some probability of the steam shovel being used, work on the remaining two-thirds may be pushed forward more expeditiously. The character of the ballasting so far is said to be first class. The wharf to be built in this city, it is supposed, will shortly be commenced, and the passenger and freight stations, round house, turn table, side tracks and repair shops are all as yet things of the future.

FOR THE COLONIAL EXHIBITION.—In addition to the list already published, exhibits for the Colonial and Indian exhibition have been received from the following parties at Ladner's: Geo. Miller, apples and pears; W. H. Ladner, apples and pears; W. T. Arthur, apples; John Kirkland, apples (12 varieties) and pears; T. McNeeley, apples, pears, walnuts and chestnuts; C. F. Green, apples; Wm. Jasker, apples and pears; H. Hecks, apples. Vegetables: Frank Kirkland, onions (three varieties); T. McNeeley, cucumbers, tomatoes, table turnips, field carrots, beets, parsnips, early rose potatoes, table corn, sugar beets, winter cabbage; H. J. Kirkland, Swede turnips; Jno. Kirkland, field and table carrots and mangolds; H. Hodge, pumpkins; H. Hicks, field corn, pop corn and squash; C. F. Green, hops.

FROM METLAKAHTLA.—Mr. J. C. Hughes returned yesterday from Metlakahtla, where he went some weeks ago as Indian agent. He will remain here about two weeks. The Indians on the northwest coast are said to be in a very unsettled and discontented condition. They have for some years claimed that all the land in that region belongs to them, and they will neither go on to the reserves nor permit white men to appropriate the land. For some time Mr. S. P. Tuck, C. E., has been endeavoring to lay out a large reserve, 5 by 20 miles, but the Indians have interposed so many hindrances in the way of this work that no progress can be made. It is not possible to tell what will be the result. Although there has been no conflict, it is quite evident that matters cannot long remain in their present condition. It is asserted that the attitude of the Indians is the result of injudicious teaching on the part of *some white men.*

Our Lumber Market.

RECIPROCAL TRADE WITH THE NORTHWEST.

Mr. John Hendry, manager of the *Royal City Planing Mills of this city,* returned a few days ago from a business trip to the east. One of the objects of Mr. Hendry's trip was to make arrangements if possible for the shipment of lumber to points east of the mountains. It has frequently been said that east of the Rocky Mountains British Columbia would find an extensive lumber market as soon as the C. P. R. was ready for business. Mr. Hendry succeeded in obtaining such rates as will enable his company to ship as far east as Calgary, but unless a better rate can be had it will not be possible to do much trade beyond that point. Very probably the rates will be so revised, however, as to permit an extension of the market. As a result of the negotiations a carload of shingles was shipped for Calgary yesterday, going by scow to Port Hammond junction, and arrangements have been made for the shipment of a considerable quantity of lumber to the same place. The first shipment will be ready as soon as the branch line is sufficiently ballasted to permit the running of trains, which will be, it is expected, early next week. While in Montreal Mr. Hendry took an order from Sir George Stephen for about 40,000 feet of British Columbia cedar to be shipped to Montreal for Sir George's own use. There is a good deal of building going on in and about Calgary, and Mr. Hendry *thinks* the demand for the better qualities of lumber and for sash, doors, and general house furnishings will be quite large. As soon as the branch is prepared to do business he expects his company to ship on an average about two car loads a day. Mr. Hendry is of opinion that a larger reciprocal trade than people generally suppose will spring up between British Columbia and the Northwest over the C. P. R. The people across the mountains will take our lumber, and fruit and fish, and in exchange they will send us farm and dairy produce. Mr. Hendry speaks very highly of the character of the C. P. R. and the excellence of its equipment and accommodation. It was quite beyond his expectations, and most creditable to the company. For some time past the R. C. P. M. Co. has been sending large quantities of lumber over the C. P. R. to Kamloops, where there has been a brisk demand. We hope these new markets will grow until our mills will be kept running constantly at their full capacity.

This Afternoon's Despatches.

Special to the Columbian.

PARIS, Sept. 17.—At the French army manœuvres a Russian general congratulated the commander of the twelth army corps upon the splendid appearance of the men saying, "With such troops you have nothing to fear from any one."

BUCHAREST, Sept. 17.—Bratinino Roumain, prime minister, was shot at last night by a would-be assassin. He perceived the man's intention in time to spring out of the path of his aim. The bullet struck Robesco, member of the chamber of deputies, and wounded him. The assassin was arrested and locked up. He confessed that for political reasons he intended to kill Bratinino. The weapon used was a pistol.

NEW YORK, Sept. 17. — Failures throughout the United States and Canada for the last seven days number 185 as compared with 178 for the previous week.

DUBLIN, Sept. 17.—The *Freeman's Journal* urges the citizens of Dublin to refrain from all manifestations of welcome to the Marquis of Londonderry when he arrives in Dublin to-morrow to assume the office of lord-lieutenant. "He bears Castlereagle's hated name," says the *Journal* and it adds, "Let troops parade! that represents eviction and coercion. A cheer from a single citizen would be a great humiliation."

PARIS, Sept. 17.—Duc D Cases, whose serious illness was reported yesterday, is dead.

BUCHAREST, Sept. 17.—The attempt to assassinate Bratinino has produced great excitement among the people. Crowds surrounded the building occupied by the newspaper here which has been opposing the minister and blamed it for inflaming hostile feeling against him. They smashed all the furniture and fittings belonging to the concern and savagely attacked and wounded two members of the staff and were proceeding to the edifice when the police became masters of the situation and dispersed the mob. Afterwards the crowd attempted to lynch the prisoner but were foiled by the police.

LONDON, Sept. 17.—The marquis of Londonderry will leave London to-night for Ireland. He will take the Irish mail train at Easton square station and reach Dublin to-morrow morning. The cabinet met to-day and discussed Parnell's land bill.

MADRID, Sept. 17.—Three officers belonging to the Spanish army at Barcelona have been arrested and imprisoned for leading a band of soldiers to join the Carlists.

SAN FRANCISCO, Sept. 17.—Following are the passengers on the Queen of the Pacific for Victoria: E. O. Carson, Mrs. L. German, J. Muirhead, J. H. Rassehers, Miss Martha Johnston, Mrs. W. B. Hunter, W. Morrow, Mrs. Casper, Mrs. Davison, Geo. Henderson, B. Searles, W. Floyd, Senator Leonard, Thomas Harman, Miss L. Howard, F. Mackley and 30 others.

ST. LOUIS, Sept. 17.—Three hundred and eighty-five Chirechua Indians—63 men, 175 squaws and 147 children—arrived in the city this morning on twelve special cars, over the Atchison, Topeka and Santa Fe railway, in charge of Col. J. F. Wade, Tenth U. S. cavalry, commanding a company of 85 guards. These Indians, though not actively engaged in Geronimo's campaign, were nevertheless suspected of furnishing the hostiles with provisions and ammunition, and the government thought it best to remove them from their reservation. They will proceed from here direct to Fort Marion, near Jacksonville, Fla. They will be given a reservation somewhere in that state. Crowds of people gathered at the railway station to see real live Indians, and they were rewarded by seeing them breakfast at a modern restaurant.

OTTAWA, Sept. 17.—Inquiry at the customs department shows that the fishing schooner Pearl Nelson was seized at Princeton for having landed twelve men during the night. The master of the vessel reported next day, but not before the customs officers were on board and had everything seized. It is understood $2500 was deposited as a forfeiture, but as yet the customs department has taken no action in the matter.

WASHINGTON, Sept. 17.—Col. Charles J. Stewart, of the engineers, yesterday afternoon, at his own request, was placed on the retired list. He was senior officer of the engineer corps when Gen. Newton was retired, but his ill health took him out of the lead of eligible officers for the position of chief engineer. Col. Charles E. Blunt, who is now ranking officer of the corps in anticipation of his retirement for age next January, has worked for and has been granted leave of absence until that time. This leaves Col. Jas. C. Duane as ranking officer of the corps.

NEW YORK, Sept. 17.—The Atlanta leaves New York to-day for Narragansett bay to have her compasses adjusted. She will probably sail thence for a five days' trip next Monday and Sunday and Tuesday. The purpose of the trip is to test her speed and find out if she can attain the rate called for in the contract. Chief Engineer Loring and probably some members of the advisory board will accompany her.

CHARLESTON, Sept. 17.—Last night was quiet. Work is going on actively, but brick-layers and plasterers are badly needed. The subsistence committee is now issuing rations to nearly seven thousand persons a large majority of whom are colored. No cases of distress fail to receive prompt attention.

STRASBOURG, Sept. 17.—Emperor William will leave here Sunday for Baden.

PARIS, Sept. 19.—Baron Edmond Caryon Latour is dead. He died in his seventy-sixth year.

NOTTINGHAM, Sept. 17. — The lace manufacturers of Nottingham have combined in a proposition to reduce the wages of the lace makers. Employees, it is believed, will resist the reduction and a dead-lock is considered imminent.

HARTFORD, Sept. 17.—A memorial arch erected by the town of Hartford, in honor of the soldiers and sailors of the war, was dedicated to-day. A general holiday has been declared and banks and manufactories are closed and the streets are crowded with citizens and visitors.

THE NIAGARA WHIRLPOOL. — The whirlpool, well called "the angriest bit of water in the world," is three miles below the great Falls of Niagara. At this point the river, bending toward the Canada side, is contracted to a width of about two hundred and twenty feet. The waters rush violently into a deep depression in the steep cliff that rises on the Canada side, then they emerge, turning back almost at a right angle, to the American side. The spot seems to be a part of the bed of an ancient channel. Here the angry waters boil and churn with a fierceness almost incredible. The waves are never at rest. They toss and whirl and toy with the heaviest timber. It makes one dizzy to look at the fierce tumult of the waves. The great maelstrom covers a space about one-quarter of a mile square. Its depths are enormous and unknown. One thousand feet of cord was found too short to reach the bottom. The whirlpool is in the form of a large circle. The average force of the water moving through the canyon above is 185,000 feet square. This compact mass of water moves with incredible swiftness, entering the whirlpool on one side, spinning round like a top and then passing madly on. —*Philadelphia North American.*

Gilbert Laird, St. Margaret's Hope, Orkney, Scotland, writes: "I am requested by several friends to order another parcel of Dr. Thomas' Eclectric Oil. The last lot I got from you having been tested in several cases of rheumatism, has given relief when doctor's medicines have failed to have any effect. The excellent qualities of this medicine should be made known, that the millions of sufferers throughout the world may benefit by its providential discovery."

Mother Graves' Worm Exterminator is pleasant to take; sure and effectual in destroying worms. Many have tried it with best results.

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being non-corrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

1873. **GRIP!** 1886.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1886.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. *Its Cartoons speak* more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $3 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the **Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions** with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into **Scrofula.** This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of **Hereditary Scrofula.**

The medical profession indorse AYER'S SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the eomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. Friday Evening, Sept. 17, 1886.

Latest by Telegraph

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

ROME, Sept. 16.—Cardinal Carmine Geromir is dead. He was born at Subiaco, Feb. 15, 1810, and was made cardinal Nov. 10, 1884.

Cardinal Jacobini, pontificial secretary of state, is seriously ill.

LONDON, Sept. 16.—Justin McCarthy sailed for New York to-day.

LONDON, Sept. 16.—The Doncaster race for the Portland plate for 3-year-olds and upwards was won by the duke of Portland's filly Modwera; H. Hungerford's colt Brighton second, and H. Chaplin's colt Harmallan *third*.

BUFFALO, N. Y., Sept. 16.—The list of killed in the Nickel-Plate railway collision, which was further swelled to 19 by the finding of three additional bodies mangled beyond recognition, is now supposed to be complete.

AUGUSTA, Ga., Sept. 16.— Hy Barnes, colored, was lynched to-day at Milton for outraging a white lady. Masked men took him from a train and riddled him with bullets.

LONDON, Sept. 16.— Sporting circles are greatly excited over the sweepstakes of £1,000 each to be run for the last day of the Loughton meeting, at Newmarket, Oct. 29, between the duke of Westminster's 3-year-old colt Ormonde, Lord Hastings' 4-year-old colt Milton, P. T. Barclay's aged horse Bendigo, and R. Peck's 3-year-old colt The Bard. Distance, 1½ miles. It is expected the race will create the greatest sensation on record. Or*monde is considered the best horse* produced this century, while the other three also have splendid records. Betting will probably be enormous. The public will make Ormonde the favorite, as he possesses an unbeaten record.

SOFIA, Sept. 16.—In the *sobrange to-day it was resolved, after much op*position, to send a telegram to the czar saying that the Bulgarians would pray to Almighty God to grant him a long and happy life, and laying at the czar's feet the devotion and fidelity of the Bulgarian people. The hope is also expressed that friendly relations between Bulgaria and Russia will be resumed, and that the czar will defend Bulgarians in their aspirations for union and independence. After a heated discussion, the expression "defend Bulgarians" was substituted for "protect Bulgarians," as originally drafted.

DETROIT, Sept. 16.—A terrible windstorm passed over southeastern Michigan, of which meagre reports have been received as yet. It extended over a large extent of territory. Howell reports a hurricane six miles wide and coming from the east which laid low many buildings. In the eastern part of that city John Smith's house was blown down and his son Frederick, aged 20, was crushed to to death by falling timbers. In several instances barns were totally wrecked or blown away while cattle were left uninjured on the sites of buildings. Many trees were blown down. The storm is the severest ever suffered at Howell. Flat Rock reports the storm as having divided, going north and south, and but little damage done in that town. From Adrian come similar reports. Heavy damage is reported from the country, but the wires are down and working badly, and no definite report can be given.

ROCKAWAY BEACH, L. I., Sept. 16.—Jimmy Carroll of New York and Dick Colyer of Philadelphia fought with small gloves to a finish, Queensberry rules, this afternoon. Carroll won by knocking Colyer out in the 22nd round.

CITY OF MEXICO, Sept. 16.—In his annual message to congress, read on the assembling of that body to-day, President Diaz said Mexico's relations with foreign governments had continued, generally, on terms of friendship and good understanding. There had, however, recently occurred an incident which threatened to destroy the harmony and cordiality existing between this republic and its northern neighbor. A case of small importance in itself, it excited in an unexpected manner, and owing to a conjunction of circumstances, passions on either side of the Rio Grande. "I refer," continues the message, "to the matter of the *American journalist, which has* already come to your knowledge by publication made in the *Diario Official*. We must congratulate ourselves that in such emergency the dignity of the government and good name of the country could be saved without arousing a conflict, thanks to the prudent and strictly legal conduct of the court authorities of the state of Chihuahua, as well as to the good sense of our own people and the government of the United States, which when better informed did not insist on a demand which gave rise to the transient difficulty. Texas papers have alluded to other cases of alleged outrage on citizens of that country by officials of our own. In their eagerness to accumulate charges against Mexico they have referred mistakenly to an individual named Francisco Rasures, the author of various crimes committed on our territory. It will suffice to observe that Rasures was of Mexican nationality, and was voluntarily delivered by Texan authorities to a force of the state of Cohahuta, without any previous demand for his extradition, so that in his case it will be seen that as regards the supposed citizenship of the United States, there is no occasion for controversy between the two governments."

LONDON, Sept. 16.—The will of the Abbe Liszt makes Caroline Wiltgenstein his sole heiress.

The authorities of the city of London contemplate presenting the freedom of the city to Prince Alexander.

SAN FRANCISCO, Sept. 16.—A meeting of the freight agents of transcontinental roads was held to-day, when it was decided to continue the present rates.

The Dead Man's Money.

"Tell you a story, me boy?" mused a Clark street gambler to a reporter; "well, I don't mind if I do. I've been carrying one around in my head this twenty years, and I guess it won't harm anybody if I tell it to you. It was away back in the early 60's, when me and Cy Merritt were dealing faro in Baltimore. It was in the fall of *the year, too, by the way, for* I remember we had just rigged up a stove by the roulette wheel. One night, when the play was light and there was nobody in the house but me and Cy, a man opened the door, sat down at the faro table and bought five stacks of chips. He was a young fellow, this man was. He had a light mustache, blue eyes, and a face as white as a case sheet. Cy did the dealing and I went up into the lookout chair. The deal came our way all through, and the fellow lost his chips in no time. But he was a dandy, though. He was betting all over the layout, and if he had ever called the turn he'd knocked us silly. I saw that the game was going to be a heavy one, so I just locked the door, put on an old straw hat and watched the bets. The fellow never said a word more'n to call for chips. He never took his eyes off the table, either. Along about midnight me and Cy got hungry, and we asked the fellow if he'd stop long enough to get something to eat. He said he wouldn't and so the play went on. Nearly every bet he made Cy picked up. The fellow seemed strangely unlucky, but he never beefed. Never a word came out of his head. He just set there and bet and lost till I got sick. About daylight the fellow got down to his last hundred. He blew it all in for chips. He slapped $10 on the queen to lose and another sawbuck on the ace to win. He whipsawed us, and then Cy said he was hungry and we'd better go and get something to eat. The fellow said that he wouldn't have *anything of the kind.* Me and Cy were about ready to fall out of our chairs from hunger, but the player seemed to be as fresh as a lark. Every once in a while he'd take a drink of whiskey, but that's all.

"From the moment he whipsawed us he began to win just as fast as he had lost during the night. He was just making Cy and the money box sweat when I exchanged places with my partner and began to fix the cards in the cardine box for the next deal. The stranger had his bets all made when I tapped the box for luck. But that was all the good it did me. The fellow called the turn from start to finish, and hauled in enough chips to make him even. Me and Cy were getting a little uneasy and faint, but the stranger was as fresh as a daisy. We kept on playing until away in the afternoon, with luck dead agin the bank. It had been over twenty-four hours since we'd eaten a mouthful of anything, but the fellow still insisted on playing. At 6 o'clock he was $2500 winner, and showed no signs of quitting.

"Finally I got so tired that I could not watch the bets any longer. I got up and walked around the room, while Cy began to deal. From that minute the fellow began to lose, and at midnight he was down to his last hundred. I remember just how he looked then, though its twenty years ago. His face looked like marble, his great blue eyes glittering with a strange light. He had all of his chips in his left hand, while with his right he stroked his long, silk-like mustache. I was looking over his shoulder when he made his last bet. He played the same old cards again—the queen to lose and the ace to win. Then he leaned forward and watched Cy pull the cards. I could almost hear the stranger's heart thump when Cy began to uncover the ace of diamonds; and when he unveiled the queen of hearts I saw the player's fingers twitch nervously. A strange cry escaped from his lips, and then he fell backward upon the floor—dead.

"I will not tell you all that happened from that time until the close of the coroner's inquest, for it's rather unpleasant to me. But this much I will tell you: when they searched the fellow's clothes they found nothing but this letter, which bore no date:

"'MY DARLING HENRY.—Hold onto the money you have been entrusted with. You know your weakness, and just think what would become of the children and I, should anything happen you. LUCY.'

"Ever since that day I have been trying to find out who Henry was. Cy has been looking for Lucy, but neither of us has been successful. Do you know it has always been my opinion that Henry was sent to Baltimore to buy goods, and that when he realized he had lost his employer's money the shock was too much for him. Lucy was his wife, me boy, and I often wonder if she has learned of his strange death."

It Might be Done.

Head of the house—Jane, a man came in to-day and made me buy a box of "Rough on Rats."

Wife—Mercy, John, we haven't got a rat in the house.

Head of the house—Well, can't we get some?—*Life.*

ALPINE GLACIERS.—According to Prof. Heim of Zurich, the total number of glaciers in the Alps is 1,155, of which 249 have a length of more than 7,500 meters. Of this number the French Alps contain 144, those of Italy 78, of Switzerland 471, and of Austria 462. The total superficial area of these glaciers is between 3,000 and 4,000 square kilometers, those of Switzerland amounting to 1,830 kilometers. The greatest length is reached by the Aletsch glacier, which is twenty-four kilometers long. As to thickness, Agassiz, when measuring a crevasse in the Aar glacier, did not reach the bottom at 260 meters, and he calculated the depth of the bed of ice at a certain point of this glacier at 460 meters.

C. C. Jacobs, Buffalo, N. Y., says: "Dr. Thomas' Eclectric Oil cured him of a bad case of piles of 8 years' standing, *having tried almost every known remedy,* 'besides two Buffalo physicians,' without relief; but the Oil cured him; he thinks it cannot be recommended too highly." There being imitations of Dr. Thomas' Eclectric Oil on the market, customers will see that they get the genuine.

Vancouver;

Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; H. F. Keefer, Contractor, C. P. R.; J. W. McFarlane, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., *Real Estate Brokers*; A. W. Ross, Real Estate Broker; Gravely & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. R. C. P. Mills. je30tc
