ily British Columbian

Monday Evening, Sept. 20, 1886.

There are few Protestants in On-o who cannot number among r best neighbors at least one man Catholic, and there are few man Catholics who would not nber among their best friends eral Protestants. Are neighbors g side by side in harmony and ce—doing business with each r every day—to take each other he throat at the bidding of every ical ruffian, disguised or undis-ed, who simply wants to make s for his party? We are, per , on the eve of a general elec and we say "no," most em-ically "no." And we believe people of Ontario will say "no," stamp out all such ruffianism. *anada Presbyterian.*

he candidature of Mr. Henry rge, the labor reformer, for the oralty of New York city, has me so serious as to attract the ntion of both political parties. republicans have the most to by this rupture in the old party , because Mr. George is an ved free trader and a most deter-d opponent of the protectionist f fraud. Mr. George's candida- may or may not be pushed to polling booth; but it will, never-ss, have the salutary effect of ing the other parties, too long enced by rings, set their houses rder. There is no municipality e world where radical reforms in inistration are so much needed New York city.—*Ottawa Free .*

Public Notice
New Westminster Public Library.
THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:
Yours Respectfully,

Political Forecasts.

The Maine election comes to the Republican party like an inspiration, and strikes the Democrats with the force of a wet blanket. It is the first gun in the presidential campaign, and like Haldimand in Ontario, it is supposed to give color to all the rest. But the Republicans may be mistaken in their prognostications, just as the Reformers of Canada may mistake the significance of Haldimand. Maine is a very safe state for the Republicans, and Haldimand may have been considered equally safe for the Reformers. Both were saved to their respective parties, but it remains to be seen whether these results will exercise any very marked influence on the general elections. What the Republicans ought to do if they want to be sure of carrying the country is to throw overboard such persons as Blaine and the whole gang who propose to make political power the stepping stone for personal advancement. Civil service reform and general reform is urgently needed, and the party that adopts a straight and clean ticket throughout and sticks to it will win very soon both in the United States and Canada. Neither of the existing political parties in either of the countries has had the courage to do this. They all seem to cherish the belief that the bad is stronger than the good in this world, and are willing to yield to the bad as far as they dare without utterly losing the support of the good. This is a mistake. It is always best and safest to do right, and the political party that first gets its eyes open to this fact, adopts it as its whole platform, and sticks to it consistently, will soon find itself on top to stay.

Railway Rates.

We have stated already that beyond the Rocky Mountains there is an almost unlimited market for fruit, fish and lumber. These three articles are, or will be, among the principal products of British Columbia. There is the demand, and here is the supply; and whether we shall occupy the market depends upon the people of this province and the managers of the C. P. R. Several car loads of fish, and a quantity of fruit, have already gone over, and this week we expect to record the departure of the first car load of lumber from New Westminster to the eastern slopes of the Rockies. But the trade through this channel may be effectively hindered by the C. P. R. Already many complaints come to us, and it is to be feared that unless a considerable reduction takes place in the railway rates a great deal of the promising field will have to be abandoned. Mr. Jno. Leckie, of Toronto, who is now in this province on a business tour, declares that the rates for fresh fish over the C. P. R. are much greater than over the Northern Pacific. In the one case $1,000 a car is asked, whereas in the other it is $600. If this be true, and the C. P. R. people decline to make a substantial reduction, fresh fish will not go over the C. P. R. to any extent, and the eastern market reached by that railway will be lost to us. Not long ago Mr. Hanson took a consignment of fruit from this province to Manitoba as an experiment. The fruit was well received and found a ready market at Winnipeg; but Mr. Hanson tells the press that unless the C. P. R. reduces its fruit rates, the margin of profit is so small that very few people would venture to ship fruit and take the chances of loss. From Port Moody to Winnipeg, he says, the rate on fruit is 7 cts. per lb., while the rate from Portland to St. Paul on the Northern Pacific is only 3½ cts.—just one-half. Referring to the lumber trade the other day we mentioned that the extent of our trade in that article with the east would depend on the railway rates. Calgary is about as far east as British Columbia lumber can go now, and even then the margin for the mill is small. With a lower rate the area of the eastern lumber market would be substantially increased. Now, it must be clear, if the statements above are correct, that the C. P. R. rates on the articles named are too high. Unless we have been dreadfully deceived, the C. P. R. has a shorter and better route to the east than any other transcontinental road, and could afford to carry at cheaper rates. It not only does not seem to be cheaper, but actually dearer. At a late meeting of the Winnipeg Board of Trade serious complaint was made not only on account of the highness but the inequality of the freight tariff, and it was stated that under present rates Manitoba could not trade with British Columbia. We earnestly hope this matter will receive the immediate attention of the C. P. R. authorities, and that a prompt and satisfactory adjustment will be made.

AYER'S Hair Vigor cures baldness. Hair Vigor restores youthful freshness and color to faded and gray hair. It attains these results by the stimulation of the hair roots and color glands. It rejuvenates the **HAIR** and cleanses it. It restores to the **HAIR** that, either by reason of age or diseases of the scalp, has become dry, harsh and brittle, a pliancy and glossy silken softness of extreme beauty. There is no dye in Ayer's Hair **VIGOR** and the good it does is by the it imparts to the follicles, and the cleanliness and healthfulness of the condition in which it maintains the scalp.

AYER'S *Hair Vigor renews the hair.* Hair Vigor is the best cure known for Brashy Hair, Scald Head, Itching Humors, Tetter Sores, Torpid Follicles, and all other diseases of the scalp that cause *the falling of the* **HAIR** *and its fading.* Nothing cleanses **HAIR** of the nuisance of dandruff so perfectly, and so effectually prevents its return, as AYER'S HAIR VIGOR. In addition to the curative and restorative virtues peculiar to Ayer's Hair **VIGOR** it is a toilet luxury. The Hair **VIGOR** is by far the cleanliest hair-dressing made. It causes the hair to grow thick and long, and keeps it always soft and glossy.

Ayer's Hair Vigor

Contains no deleterious ingredients. Its use prevents all scalp disease, secures against the hair growing thin or gray, and surely cures all baldness that is not organic.

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

Hay Bailing Press!

REID & CURRIE

—OF THE—

PACIFIC CARRIAGE WORKS

HAVE PURCHASED THE SOLE right to manufacture these celebrated Hay Bailing Presses in the Province of British Columbia, and are now manufacturing them at their manufactory, Columbia St., New Westminster. Farmers and others interested are advised to call and see these presses before purchasing elsewhere. They have no equal for economy, simplicity and efficiency.

With this Press there is no climbing up and tramping in the hay and climbing down again and pulling out the bale, as with the old-style presses. Everything is done on the level ground. You don't stop the team to tie the bale. The bale is discharged automatically, and moves itself on to a platform scale to be weighed and tagged.

It is the cheapest Press, besides being the best; so every farmer can afford to have one of his own, and it will save him its worth in one season by reducing the high rates of freight to a minimum, and by avoiding loss of time and vexation when you want to be bailing hay.

Our attention has been called to the fact that boats were taking fish as early as half-past 5 yesterday evening, contrary to the fishery regulations. It is said that this is not the only occasion when a breach of the regulations has been committed within the past few weeks.

During this season Mr. McNeeley, of Ladner's, reports having sold 25,000 grain sacks, and estimates that about 5,000 more will be required. Probably 15,000 or 20,000 old sacks were used in the settlement. From these facts one may form a guess at the quantity of grain raised there.

Mr. E. G. and Mrs. Wheeler addressed large audiences in the city yesterday, and opened the Sunday school Institution this afternoon. A session will be held this evening, in the Methodist church, at 7:30, to which all are invited. Sessions will also be held to-morrow and Wednesday afternoons and evenings.

We regret exceedingly to learn that Mr. Homer is very much worse, and there is no expectation of his recovery. Dr. McSwain was telegraphed for and came up from Victoria yesterday, but the case was pronounced hopeless. At the time of going to press it was not expected that Mr. Homer would survive until morning.

NOT FAR ENOUGH BACK.—At the Methodist conference now sitting at Toronto, Mr. Shakspeare, of Victoria, is entered on a committee as W. Shakspeare. Naturally enough they suppose if a man is called Shakspeare at all it must be William. But no, gentlemen; you must go a very long way further back than that.

AH MEE!—In the police court today Ah Mee was convicted of keeping a house of ill-fame and sentenced to three months imprisonment with hard labor and to pay a fine of $100, or in default of payment to suffer an additional six months imprisonment with hard labor. In the evidence for the prosecution it was stated that one of the prostitutes had been obtained in Victoria at a cost of $700 to the accused. It was also shown that the house was disorderly, and a source of trouble to the police.

HEMLOW ESCAPES.—Deputy Sheriff Armstrong returned from Victoria today without Hemlow, the Vancouver hotel keeper whose arrest he had gone to secure. The sheriff there was telegraphed to arrest Hemlow on the arrival of the steamer from here and hold him till the deputy sheriff should arrive by the Vancouver steamer, with a capias which had been issued in this city. The Victoria sheriff, it appears, however, refused to act on the telegram, and consequently Hemlow was allowed to land in peace, and escaped the capias either by concealing himself in the city, or, more probably, by taking a boat for San Juan.

ATTEMPTED BRIBERY.—Capt. Pittendrigh stated this morning in the police court, when the charge against Ah Mee of keeping a house of ill-fame was being heard, that two attempts had been made by the accused to settle the case by bribery. Constable McBroom had been offered $50 not to prosecute the case, and he (the magistrate) had been called upon last evening by the accused and his friends when similar proposals were made. As Ah Mee has in consequence received the full penalty which the law allows for his offence, he will not care to try again such a dangerous experiment as tampering with officials.

MRS. YORK'S FUNERAL.—A correspondent says: "The long illness of Mrs. York (Upper Sumas) terminated on the 14th, when she passed quietly away. Not only will she be much missed by her bereaved partner and children, but also by the surrounding community. Her funeral took place on the 16th, when not only the entire neighborhood but also the adjoining settlements of Washington Territory were represented. The service was conducted by Rev. C. Bryant, who in his address said, what many have reason to corroborate, that the deceased lady had proved a friend to many, and as a pioneer had lent a helping hand to those who needed it. Mrs. York made a profession of faith in Christ before she died."

BODY FOUND.—The body of Patrick Murray, the engineer of the ferry boat, who has been missing since the night of the 8th inst., was discovered yesterday by a logger named McGillivray floating in the water near Scott's old wharf, or about 150 yards from where the ferry boat was lying on the night the accident is believed to have taken place. An inquest was held on the body this afternoon before Coroner Ferris. Several witnesses were called, including Dr. Garrow, who had examined the body and found no marks of violence on it. The evidence went to show that deceased had only $2.50 in his possession about 11 o'clock on the night on which he was last seen. One dollar and a half in silver was found on the body when pulled out of the river. The jury returned a verdict of death from accidental drowning.

THE RECENT SEIZURES.—A Washington special says: "It is reported at the treasury department that the three British schooners seized by our revenue cutter for trespassing in Alaskan waters will be released on their arrival at San Francisco. A vessel seized on similar grounds eighteen months ago was promptly released. That, however, will not prevent their owners from asking damages through diplomatic channels, and when the question is presented the only defense our government can make is that the purchase of Alaska from Russia included its claim to jurisdiction over a certain area of water known as the "waters thereof" and "waters adjacent thereto." This has been the uniform ruling of the treasury department ever since the contract was made in 1870 with the Alaska Fur Seal company, the object being to protect fur seals in their habits and to prevent disturbances which would, it is claimed, compel them to seek other breeding grounds. The contract with the present lessees expires in April, 1890."

Dangerous Ærial Voyage.

CHICAGO, Sept. 16.—The *Times'* Crawfordville, Indiana, special says: Miss Lulu Bates, of Cincinnati, made an ascent in a gas balloon from the fair grounds, and came near losing her life. When five miles north and a half mile from the earth she attempted to descend. The grappling hook caught but the anchorage was broken by a strong wind, which carried her among some trees, where the balloon was torn. The hooks gave way again and she shot up 300 feet, when the balloon suddenly burst, and the basket descended like lightning. She had the presence of mind to brace herself firmly against the top of the basket and this saved her life.

This Afternoon's Despatches.

Special to the Columbian.

CLOVERDALE, Cal., Sept. 19.—A severe shock of earthquake was felt at this place at 10:30 last night, from south to north, which lasted several seconds. No apparent damage was done.

PITTSBURG, Sept. 19.—The Sullivan-Hearld fight of last night was the principal topic of conversation in sporting circles to-day. It was the general opinion that Sullivan had the "wonder" whipped before a blow had been struck. No matter how confident Hearld had been before the fight, he lost heart as soon as he faced the champion, and was virtually defeated. Hearld intended to round his man, but Sullivan had made up his mind to knock him out before the police could interfere, and he nearly succeeded in doing so. Another round would have settled Hearld beyond a shadow of doubt. The champion left for the east this morning to complete arrangements for his trip to the Pacific slope. Hearld will remain here till after his battle with Bradburn, of Chicago, at Geneva Park next Saturday.

NEW YORK, Sept. 19.—Many yachts have left the harbor, and many will go to-morrow. Yachtamen are disgusted with Saturday's race, and seem anxious to get home. The result of yesterday's drifting race is as yet unknown. Commodore Gerry was seen on board the Electra to-day, and asked for the yachts' time at finish. The time taken by each yacht is as it passed Brenton reef lightship, and was as follows: Stranger, 8 h. 59 m. 25 s.; Cinderella, 9 h. 47 m. 15 s.; Gitana, 9 h. 54 m. 34 s.; Thetis, 9 h. 57 m. 35 s.; Galatea, 10 h. 52 m. 30 s.; Mayflower, 10 h. 52 m. 30 s. It would seem from this that the Galatea finished before the Mayflower, but such was not the case. The commodore said the Mayflower passed the lightship one length ahead of the Galatea, and the discrepancy in time is due to a difference in the time of the watches used on the different yachts. Commodore Gerry would not say whether the race would be given to the Mayflower or the Galatea, though the fact that the former finished a length ahead of the Galatea and was handicapped besides would seem to leave no question to decide. He also could not tell whether it would be decided that Stranger won. He said that he could not decide these questions—they were for the regatta committee to pass upon, and as the committee have already gone back to New York, the race can only be decided by them there by time of finish, without regard to fouls or time allowance of handicap. The winners are the Gitana, Mayflower, Stranger and Cinderella in their respective classes. It was nearly midnight when the Mayflower and Galatea, the last boats in, dropped anchor in the harbor. All the big yachts remain, with the exception of the Puritan, which sailed to-day. The Sachem went out this afternoon for a few hours to try the wind. There will be a general departure to-morrow, when the yachts will hasten home and go out of commission with the last race of a brilliant season a decided fizzle.

BELFAST, Sept. 19.—There was desperate rioting on Davis street to-day. A policeman arrested two drunken men for fighting, when a mob immediately gathered around the police and threatened them with violence. It was with the greatest difficulty that the prisoners were secured. As soon as the barrack doors were closed behind the prisoners a fearful attack was made upon the building by the mob. The outside shutters were torn down and the windows smashed. There were only four constables within the barracks, who fired seven rounds, killing one man and wounding several others. It is stated that a woman was wounded and has since died in her own house. The mob was scattered by reinforcements of police. Later on the mob re-gathered in small groups, when a number of priests tried to persuade the people to retire to their homes. The disturbed district is patrolled by military police reinforcements.

BERLIN, Sept. 19.—The Emperor William has recovered from his recent illness. The convention of physicians and surgeons is attended by delegates from all parts of the world, including America, numbering about 500.

NEWPORT, Sept. 20.—A match race between the Mayflower and Galatea, to be sailed off Marblehead some day this week, has been arranged. The yachts will prepare at once for the race, and as soon as a day arrives on which the wind is a strong, plain sailing breeze the Mayflower and Galatea will sail over the course off Marblehead, probably the same one as was sailed by the yachts of the Eastern Club at their last regatta last July. That course was a triangle of 15 miles twice passed, making 30 miles in all. The yachts will go in racing trim and the match will come off off this week if there is wind enough.

ST. LOUIS, Sept. 20.—Two freight trains on the Missouri, Kansas & Texas division of the Northern Pacific collided south of Clayton, in Vernon county. Both engines were completely demolished, with many cars. The engineers and firemen jumped before their engines collided, and no one was injured. One train was loaded with cattle, 140 of which were killed. Loss placed at $50,000.

CONSTANTINOPLE, Sept. 20.—It is stated here that England, Austria and Germany have invited Turkey to occupy Roumelia if Russia invades Bulgaria.

BELFAST, Sept. 20.—At noon a large body of Queen's Island ship-yard workmen, all Orangemen, marched through the streets on their way to and from dinner as if to provoke a fight. At Carrick Hill they were attacked with volleys of stones and a desperate fight ensued, which is still progressing. Many men on both sides have been wounded. The police are out-numbered and powerless.

Mr. Henry Marshall, Reeve of Dunn, writes: "Some time ago I got a bottle of Northrop & Lyman's Vegetable Discovery from Mr. Harrison, and I consider it the very best medicine extant for Dyspepsia." This medicine is making marvellous cures in Liver Complaint, Dyspepsia, etc., in purifying the blood and restoring manhood to full vigor.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the **Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions** with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into **Scrofula.** This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of **Hereditary Scrofula.**

The medical profession indorse AYER'S SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

Saturday Night's Despatches.

Special to the Columbian.

HALIFAX, Sept. 18.—The hearing in the case connected with the seizure of the fishing schooner, David J. Adams, being resumed to-day before commissioner McLellan, the newspaper men, subpœnaed yesterday as witnesses, were found in their seats. Meagher, counsel for the U.S. government, demanded that any witnesses in court except the one under examination be order to withdraw. The commissioner was powerless to grant the demand, counsel Russell saying the witnesses referred to had come to stay. A dispute, lasting 20 minutes, between Meagher and Russell followed, during which the former threatened to retire unless an adjournment was granted. The newspaper men remained in their seats and Meagher finally consented to call one of the witnesses to be examined. D. Ellis, of Victoria Beach, being called, swore to having sold bait to the Capt. of the David J. Adams. At the close of his testimony the court adjourned till Monday.

GALWAY, Sept. 18.—Father Fahy, the Catholic priest undergoing 6 months' imprisonment here for alleged threats against a landlord for having evicted one of the priest's parishioners at Woodford, in an interview to-day with an associated press reporter, said: "I never mentioned dynamite to Lewis and I never threatened him. I never urged the people to groan at him and did not give bail, because such a compliance would have been a tacit admission that my defense was false and if I made a false defense I would prove myself unworthy of the priesthood."

SOFIA, Sept. 18.—When the Russian agent here was presented with the sobranje's telegram to the Czar, praying for his friendship and protection, the agent said: "Prince Alexander's departure has removed an obstacle to the good relations between Russia and Bulgaria, which was a source of great danger to the prosperity of Bulgaria, which Russia has at heart. Russia cannot admit even the idea of Prince Alexander returning to Bulgaria and this fact therefore is one guarantee to the happiness and eternal independence which your telegram mentions. Another guarantee you possess within yourselves in moderation and in cordiality remembering well that the powers have not yet formally sanctioned the present order of things in Bulgaria and that their sanction can only be acquired by prudence and moderation in the present government and in the members of the future great assembly. Russia never protected any party. Russia desires harmony among you all and she specially desires that your government should be above all party spirit. The president of the sobranje then questioned the agent regarding the identity of the new candidate for the Bulgarian throne and was told in reply that it would entirely depend on the candidates powers in his private capacity. He added that he had no information to give, saying: the jury which was elected does not know what it will have to adjudge. The assembly must elect whom it thinks best and most capable of representing the dignity of Bulgaria. The Russians in Bulgaria deny all complicity in the seizure and deposition of Prince Alexander, but have advised moderation in the treatment of those who were implicated in order to maintain quiet and prevent discontent from spreading. The Russians say they consider that now the object of the plot is removed no one can proceed against the actors in the plot. Bulgarians rejoice that the Bulgarian question has assumed a more international character, and they think that this tends to avert the danger of armed occupation. Bulgarian deputies are anxious to know what candidate for the Bulgarian throne would be acceptable to the powers before proceeding to the election of Prince Alexander's successor and they are unwilling to choose a candidate whom the powers might reject. The sobranje closed its present session to-day. A ukase will be read before the adjournment fixing the date for the election of the great assembly which is to elect the new prince.

As Others See Us.

Mr. M. Hagan, formerly editor and proprietor of the Kamloops *Sentinel*, lately visited this city and sends the following to the Kamloops paper: "The past few days have been devoted to visiting various parts of the Royal City. In every direction progress is visible, not to speak of the railway track now running along Front street to the west end of town, nor the extensive gas works now under contract, and pipe laying along Columbia street. Three fine buildings, conveniently located, are being erected for the B. C. penitentiary officers, while private enterprise displays wonderful energy. However, the most notable feature in improvements is the magnificent edifice recently erected by the R. C. congregation, which has a finish that reminds one of eastern cathedrals. The contractor, Mr. McKay, has the foundation ready for the Sisters' new hospital, which occupies a choice site, and from the work done and plan we have no doubt another attractive feature will be added to the noble institutions of the city. If funds are available the hospital will be opened in the fall. This is desirable for humanity's sake. Business generally appears to be fair, and great activity prevails in different branches; perhaps none exhibit this more than the Royal City Milling and Manufacturing Co. The demand for dressed lumber, doors, windows, etc., is large and likely to continue for some time. The cannery business has fallen short of expectations this season, which somewhat interferes with some interests. A falling off this year is likely to furnish a better market next season. Since our last visit here, two years since, the Colonial hotel has been rebuilt, and we can truly say that the hotel is a credit to the city; not only is the building commodious, but well arranged for convenience and to guard against fire. Mr. John Insley and his gentlemanly and attentive assistant, Mr. Chas. Wilson, leave nothing undone to add to the comfort of their guests, while charges are quite reasonable. Calling at the penitentiary to visit the officers, we found the worthy warden, Mr. McBride, and his able deputy warden, Mr. FitzSimmons, at home, and noticed the changes that had taken place in the building since our last call. Now there is an upper tier with a row of cells, giving increased accommodation. At present nearly 100 prisoners have to be provided for, and the land cultivated this year is looking well and will go far to make the prison self-sustaining. The shoemaking and tailoring departments are also flourishing. Altogether, the penitentiary is in good hands, and creditable as a public institution."

Is Beach a Coward?

It seems that Beach, who holds the world's championship, refuses to make a match with Hanlan anywhere except on the Paramatta river, Australia. Referring to this refusal Hanlan said to a reporter of the Toronto *Mail* that Beach was a coward. "He won't take big money and come," said Hanlan, "and announces that if I go to England it will be of no avail, as he will only row me on the Paramatta in Australia. I was a fool, I know, to peddle the championship from door to door until I disposed of it, or rather was robbed of it. Yes, robbed of it. The steamer Tomki robbed me of the first race, and as regards the second, the climate and worry so enervated me that I was anything but myself. Further, Beach and his friends availed themselves of every advantage. They publicly said they would give me nothing, and didn't. They named the course, date and hour. I had nothing to say. What I want now is fair field and no favor and I will show the people of Canada they are wrong when they think my energies are spent. I want to row on the Tyne, as a better and clearer course can be got there. Barges, steamboats, and small boats make the Thames as undesirable for a race as Toronto Bay. But I will row Beach on any water in England for good money. By searching for a conqueror I found one. I am searching for another, but under different circumstances and the man I seek says that having waited six months he will wait no longer. I waited seven months for him in his own country, and was beaten. I found no favor and sought none. I seek none now, but if Beach is not a coward, when I arrive in England he will hasten to row me. Anyhow I will get on some nice there, you can depend on it."

Mormon Elders Bereft.

"Three hundred Mormons arrived on the Wyoming," was the message from Castle Garden that woke up Emigration Commissioners Starr and Stephenson yesterday morning. These anti-Mormon citizens made up their minds to make things hot for the 300 Mormons, and they hastened to Castle Garden.

When the Wyoming's passengers were landed all the gates were closed, and no one was permitted to go out or to enter the rotunda. At the registration desks the commissioners asked each man or woman individually where he or she was going.

"Utah, sir," was the common answer.

"Is that your wife, and are those your children?"

"Yes, sir."

"Have you any money?"

"Then how are you going to reach Utah?"

"A gentleman named Mormon has brought us out here and will send us out."

Mr. Stephenson had this entire family stopped and sent to Ward's Island, where they will be detained unless a $500 bond for each individual is given as security that he will not be dependent on the city or county for one year. If the bonds are not furnished the entire family will be returned as paupers, unless the courts of law overrule the anti-Mormon commissioners. This family had no baggage.

A woman with two children admitted that she had been induced to leave her husband, a farmer in Denmark, by the alluring promises of the elders. When she was told what she might be subjected to she went into hysterics. She will be sent back to Denmark as a pauper.

Five modest young women from different parts of England said that Elder Mormon of Utah had promised each a happy home and good places where they could earn enough to bring out their families. The five young women were sent in care of Matron Boyle to Father Riordan's home at 7 State street. Nearly 100 men, women and children, Mormon proselytes, who admitted that they had no money, were corraled in the Ward's Island Bureau and will be sent back to Europe by the Wyoming unless the Mormon agent here can give $500 bonds for each one.

Two hundred of the Mormons who had money were distributed among the most respectable of the emigrant boarding houses, the proprietors of which will be held responsible for their safe keeping until it can be satisfactorily proved that they have been forwarded to their destination.

Superintendent Jackson and Commissioners Starr and Stephenson said they would explain their reasons to-day for the steps they had taken. They will have a full list of the detained persons, and are collecting affidavits from them. Mr. Stephenson said:

"We have been criticised in regard to admitting polygamists here. We have determined to take a step that no other commission ever dreamed of. I mean not recognizing church immigration by wholesale only, but individual immigration. I guess we won't have many Mormons landed at Castle Garden again in a hurry. We have the law on our side this time.—*N. Y. Sun.*
