Daily British Columbian

Monday Evening, July 4, 1887.

The three principal cities of the province, Westminster, Victoria and Vancouver, have all the opportunities of growth and advancement if they will but take advantage of them. No one of them can hope to monopolise all the trade of the country, and any effort to do that will only react prejudicially on the city attempting it. In the past, and before the railway was built, Victoria had necessarily, from her location and population, almost all the wholesale and shipping business. But this is now changed, and the mainland and up-country trade will naturally fall into the hands of Vancouver and Westminster merchants. Thus each place has plenty of opportunities for expansion. Whether our city will advance more rapidly in proportion than the others, will depend chiefly upon the enterprise and vim of its people.—*Vancouver News.*

Valuable Testimony.

Governor Larrabee, of Iowa, replying to many enquiries respecting the enforcement and effects of the prohibitory law in that state, makes the following important statement: Our prohibitory law is being enforced in eighty-five of the ninety-nine counties of the State, as well as the laws against other crimes, all malicious reports to the contrary notwithstanding. In the fourteen remaining counties, situated principally along the Mississippi river, and containing large towns abounding in foreign population, the law is but partially enforced, and in a few instances is defiantly violated. These places are, however, gradually yielding to a public sentiment in favor of general enforcement, which is rapidly growing, even in the eastern part of the state. Prohibition has certainly not injured any business interest, except that of the saloonkeeper, nor has it driven any good citizens from our borders. It is true we have lost, since the adoption of the prohibitory law, several thousand incurable vendors of liquor, and perhaps a few hundred incurable topers, but we have every reason to congratulate ourselves upon such a loss. The Hon. G. W. Ruddick, judge of the twelfth judicial district, and one of the oldest and best of the state, in an official report dated June 11, 1887, makes the following statement: "The jails in this district are now idle, and in eight terms of court held by me since Jan. 1 there has been but one indictment presented, and I think the grand juries have been reasonably dilligent. Much of the criminal element has certainly emigrated." The Hon. John W. Harvey, judge of the third judicial district of this state, also makes an interesting statement concerning the influence of prohibition on crime. He has been judge four years and a half. In 1883 he sentenced 31 persons to the penitentiary; in 1884, 23; in 1885, 20; in 1886, 14, and during the first six months of 1887, 3. Judge Harvey says: "I am frequently asked what is the cause of this decrease in crime during the last four years. My answer is the enforcement of the prohibitory law. And it seems to me that the above figures prove this beyond a doubt. The first year I was on the bench the saloons were running; the second and third years they were run in some localities; but the fourth year I do not believe there was a saloon in the district. I am satisfied that there was not an open saloon. Red Oak, in Montgomery County, and Creston, in Union County, were the last places in the district to give up the saloons, and the record from these two counties show the result. The result from these counties is not because they have a larger population than the other counties of the district. Page has a much larger population than either of these counties. In the counties where the law has been best enforced there has been the least crime. During the last year it has not been an uncommon thing—as in this county (Decatur) at the last term—for the grand jury to adjourn without finding an indictment. At first, under the present pharmacy law, some of the druggists were disposed to take advantage and abuse the trust imposed in them, but a number of convictions and fines and the revocation of a number of pharmacy permits by the pharmacy board has had a wholesome effect, and I believe that a great majority of the druggists in this district are now disposed to obey the law." It is true that both shooting and murder have occurred under the prohibitory law. A minister at Sioux City and a constable at Des Moines were killed in the attempt to enforce the law, but these crimes were in both instances committed by those who had always defied the law. It would be useless to undertake the task of contradicting all the false reports put in circulation by unscrupulous men. Officers may in a few instances have shown a lack of discretion in the performance of their official duties, but this in the minds of candid men will not effect the merit of the law. The law is steadily gaining in public favor, and prohibition is beyond doubt the settled policy of Iowa. Could the prohibitory law at present be submitted to our people for their ratification I am confident that it would be endorsed by a majority of from sixty to eighty thousand votes.

A STEAMSHIP LINE TO TACOMA.

SAN FRANCISCO, July 2.—In railroad circles here it is stated that the Northern Pacific people are in correspondence with Gov. Perkins is reticent in imparting information on the subject, but several large overland shippers of Californian staple goods stated that such was the case.

A DASH FOR LIBERTY.

SACRAMENTO, July 2.—A special from Folsom contains proof of a bold but futile and fatal attempt of the prisoners of the State prison to escape this afternoon. Without a sign of warning Convict Smith made a dash for the river, and at the same time another dash was made. Smith was at once fired upon, and the officer in charge was on the scene in an instant. Instead of submitting they ran and it was found necessary to fire upon them. The guards deliberately poured a volley of buckshot and rifle balls into the fleeing men, the only perceptible effect being to cause them to run more fiercely. Seeing that more desperate means would have to be used to prevent the prisoners from forcing their way out the gating guns were turned urned upon them and in a few seconds the ill-advised victims were cowed and begged for mercy They were then led away to their respective cells. When the smoke cleared away and order was restored it was found that one convict, whose name could not be learned had been killed. Another, named Smith, had received three gatling gun balls and five buckshot in his body. There is no hope of his recovery.

PRESS COMMENT ON THE CRIMES' BILL.

LONDON, July 4.—The *Post*, Lord Randolph Churchill's organ, says: The result of the Spalding election seems to show that the government had not met the demands of public opinion with reference to the crimes' bill. The government has dawdled over four months when the bill might have been passed in as many weeks. The sooner a strong government is formed, the better. Great changes are necessary with a view to strengthening the ministry's hold upon the country.

The *Standard* says: If the Spalding election proves an isolated case it might be dismissed without thought, but if followed by others of the same sort the outlook will be very serious.

Arrival of the Parthia.

List of Passengers and Cargo—The C.P.R. Line Grows in Favor among Shippers.

By Telegraph.

VANCOUVER, July 4.—The Parthia, Capt. Brough, arrived here all well at 1 o'clock this morning. She was detained yesterday at Esquimalt for two hours whilst changing pilots. She experienced light head winds and misty weather nearly all the voyage. Upon entering the straits yesterday morning she encountered a gale in which the pilot cutter lost its boat. She left Yokohama on the 28th June at 1 p.m. The following is her list of passengers: The Marquis and Marchioness of Huntley and 2 European servants, E. J. Brook, Mr. & Mrs. J. K. Cunningham, 6 children, and 2 native servants, Dr. & Mrs. E. Campbell, Wm. M. Cooper, A. H. Dawbarn, W. C. Dawn, Capt. Wm. Deane, Geo. D. Mackay, E. J. Beaumont Nesbit, B. Roth, C. Watney, V. J. Watney and European servant, H. S. Wilkinson, Rev. & Mrs. E. R. Woodman and children, and native servant, C. Parnell, P. Walton, 10 Japanese (3rd class), 91 Chinese (3rd class), 9 Chinese (2nd class). Her cargo consisted of 42,108 packages, measuring 297 tons, composed as follows: 21 pkgs. silk, 35,472 pkgs. tea, 7,615 pkgs. rice and curios, and 12 sacks mail; also, 121 pkgs. of tea samples per express. It was rumored in Hong Kong that the S. S. Batavia would not be ready to sail on the day stated and that the S. S. Port Augusta had had been chartered to take her place for this trip. It is expected she will bring a larger cargo than the Parthia. The merchants and exporters in China and Japan are all in favor of the C. P. R. S. S. Co., and are shipping by it whenever possible. They think the route superior to that by San Francisco and indications are that the new line will carry most of the freight. The Parthia brings no news of any importance since that received by the last mail. Before leaving the vessel the passengers presented Captain Brough with an address expressing their satisfaction with the vessel and the manner in which the company had provided for their accommodation.

Mr. R. A. Harrison, Chemist and Druggist, Dunnville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation—such cases having come under my personal observation."

Seasonable Advice.

EDITOR COLUMBIAN.—I would strongly advise the young blood that the next time he buys reserved seats for the "demi monde" he had better locate them among his own friends and relations and not crowd them upon other people.

CUM-TUX.

Worse Than Cow Bells.

MR. EDITOR,—Cow bells are bad enough, but from all noisy nuisances the steamer "William Irving" takes the cake. A locomotive can haul out her twenty or thirty cars and disturb no one, but when the "William Irving" wants to make a trip up the Fraser on Monday mornings, all Westminster has to be awakened at half-past three o'clock. In many places no steamer is allowed to whistle before six in the morning. Surely here is an opportunity for municipal legislation to interfere, and pass a by-law that shall insure to our citizens an opportunity to get a fair share of

TIRED NATURE'S SWEET RESTORER.

The Loan Vote.

EDITOR COLUMBIAN,—I hope you will not consider it unnecessary when I ask an opportunity to express publicly my opinion as one of the disfranchised property holders in the late election for and against the loan by-law. I don't profess to know much about the statutes of B.C., by which we are governed, or rather misgoverned, but when I went to the place of voting on the loan by-law and was told that by the advice of Messrs. Corbould & McColl I had been, with many others, struck off the voters' list, I could not help thinking that either the lawyers were a little beside themselves, or that our law-makers had been sleeping where there were no cow bells to wake them up in time to say no to such a stupid amendment to the already stupid enough municipal act. And now, if our present council will be foolish enough to force a loan under the present circumstances, I, for one, will consider them fit subjects for the mad-house. The proposed loan of $75,000 is too little to pay present liabilities and accomplish any good. Better wait to see what about the Southern Railway, and at the next election choose men to carry out the well understood wishes of the whole people.

Daily British Columbian

Monday Evening, July 4, 1887.

According to the London Economist the colonies of Australia and Canada carry an enormous sum of money borrowed from British capitalists. The total amounts to over $2,000,000,000, on which interest to the amount of $173,000,000 is annually paid. Of this sum $675,000,000 has been borrowed by Canada, and $1,400,000,000 by Australia. And besides this, it must not be forgotten that there are vast sums of British money invested in Canada in the shape of stock companies and other enterprises yielding more or less dividends. It's no wonder John Bull gets rich upon such revenues as these. It is believed the total colonial indebtedness to Great Britain will not fall much short of five billions of dollars!

Some Things We Want.

Slowly, but steadily the manufacturing establishments of Westminster are increasing and developing. Within the past two or three years the capacity of our sawmills and wood manufacturing concerns (which are our chief industries) have quite doubled. In a few weeks we hope to hear the hum of the busy spindles of the woollen mill mingled with other welcome proofs of enterprise and industry. The wagon making establishments, whose premises are now large and commodious, have as much business as they can well handle. The foundry and machine shop flourishes, and the furniture makers have increased and seem prosperous. Other smaller industries have come into existence, with the promise of more to follow; but after all there remains to be done a great deal in the way of establishing and developing manufactories in this city. We have more than once referred to the favorable circumstances existing here for the establishment of manufactures. Our facilities for reaching the markets everywhere and drawing supplies are unsurpassed anywhere in the province; we are surrounded on almost all sides by fine agricultural and timber lands; and the Fraser and other streams furnish fresh water in abundance. It cannot be too strongly impressed upon our minds always that these important advantages should be valued, and that every reasonable encouragement should be given to those who feel disposed to take advantage of them. In particular we want established at this city a first-class flouring mill of sufficient capacity to manufacture for export. Such an establishment properly carried on by an individual or company with about $50,000 capital would not only be of great benefit to this city and district, but would pay a handsome interest on the investment. At present the quantity of wheat grown in this district is limited, because there is very little demand for it. While we have land all about us abundantly capable of producing large wheat crops, as proved by actual experience, we are producing no flour worth speaking of, but are bringing tons and tons of it from Manitoba and from Oregon. So long as the facilities for making flour are wanting in this part of the country, so long will this unsatisfactory condition of affairs continue. It seems a pity, too, that we should be every year importing such large quantities of agricultural machinery from the east. Not only are the farmers of the province sending considerable sums of money out of the province in payment for this machinery, but they are likewise paying a great bonus in the shape of railway freights. The farming industry in this province is expanding with such strides as to leave no doubt that the demand for agricultural machinery will grow still larger. We believe a factory for the construction of these implements ought to be established in the country, and we know of no place where it could be located to more advantage than here. In connection with this there should be a foundry and machine shop of sufficient capacity for making and repairing heavy mill and steamboat machinery, and the economical manufacture of stoves. Then there is a wide field for the manufacture of woodenware, large quantities of which are being brought from the east. There ought to be established here also extensive tanneries and shoe factories. If some of our capitalists were to invest a portion of their wealth in reproductive works of this kind, they would not only reap a large percentage on the outlay, but at the same time confer a great and lasting benefit upon the city and district. We have said that for the class of manufactories in which the farmers are specially interested there is no place so favorably situated as Westminster. We have the railway and the river right at our doors. At present a majority of the farmers of this district are located on the south side of the river, and to reach this city they have only to cross the stream, without having to handle and reship their goods on this side. We are are lacking in nothing requisite to the building up of large manufacturing interests, and we hope to see the force of these facts brought out by a practical test very shortly. It is likewise important that wholesale mercantile establishments should be opened here, and a public market for farm and dairy produce. Anything that will bring about these desirable results is worthy of the earnest attention of our citizens.

Joseph Rusan, Percy, writes: "I was induced to try Dr. Thomas' Eclectric Oil for a lameness which troubled me for three or four years, and found it the best article I ever tried. It has been a great blessing to me." Beware of similarly named articles; they are imitations of Dr. Thomas' Eclectric Oil.

The West Shore

FREE

For the balance of 1886, including the mammoth holiday number, to all who subscribe now for 1887.

With the January issue THE WEST SHORE will begin its twelfth year. Every number contains original illustrations of scenery, towns and industries in the Pacific Northwest, equaling in excellence the best productions of Eastern magazines. The contributed articles, general literature and stories are entertaining and carefully edited, making the magazine a chaste family visitor. The comments on events of interest to this region and the large amount of information concerning our various resources and the progress of development given in every number render it extremely valuable. No family can afford to do without it, and every one financially interested in the Pacific Northwest or desirous of learning its resources will find it invaluable.

If the subscription price ($2 per year) is sent in now you will be entered for 1887, and the remainder of 1886 will be sent as a premium.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, *successful* treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for *diseases, disorders and ailments of the* Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., *producing urinary disorders, such as too* frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, *etc., denoting the presence in the system* of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, *diabetes, dropsy, piles, nervous debility,* etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. Specimen "Smart" Boy.

The other day a Chicago boy of six years, who had been "pestering" one of his little brothers, was sentenced by his mother to sit for an hour in a high chair in one corner of the sitting-room as a punishment. During the hour a friend of the family came in. The culprit had a Bible in his hands, and pretended to be reading very intently. The friend of the family, having been informed of the "punishment," went up to the lad and asked, "Are you reading about the little boy who troubles his brother?"

"No," promptly replied Young America. "I'm reading about God, who knows enough to mind his own business."—[Chicago Journal.

A Happy Father.

Mose Schaumburg, junior, has gone into business for himself, not far from the clothing emporium of his father.

A few days ago Col. Yerger was urged by Mose Schaumburg, senior, to purchase a winter overcoat. He declined, saying:

"Your son, Mr. Schaumburg, offers me the same sort of a coat for a dollar less. Besides, he says your goods are not reliable."

"Ish dot so?" said Mose, clasping his hands with delight, as a gratified smile passed over his features.

"Yes, that's true."

"Vell! vell! vell! I believe mine son vas a tam fool, but now I see he has a fine head for pizness. Vot a proud fodder I vas."—[Texas Siftings.

Social Agonies.

"By the way, are you dining with the Montmorency Browns to-night?"

"Oh, heavens! Now I remember, they did ask me to dine there to-night!"

"What—and you forgot to answer?"

"Oh, I answered fast enough, but I've clean forgotten whether I accepted or declined!"

The Facetious Boarder.

Dumley (to landlady): "Do you know, Mrs. Hendricks, why your table reminds me of Mrs. Micawber's undying devotion to her husband?"

Mrs. Hendricks: "No, Mr. Dumley. Why?"

Dumley: "Because you will never desert us."—[New York Times.

The Retort Courteous.

Among the wits, legal and lay, of New York John Van Buren holds no second place.

One day as he was lunching at the Astor house an enemy named Wadman came up to him.

"Mr. Van Buren," said Wadman, is there any case so unjust, mean and dirty that you would not take it?"

"Well, I don't know," said Van Buren, picking up an oyster on his fork. "What have you been doing now, Wadman?"—[Hatchet.

New Use For a Divorce.

One Way of Pacifying the "Ole 'Ooman."

"Good morning, Marse William," said Green Coleman, an elderly colored individual, as he entered the chancery clerk's office in a certain town in Central Mississippi.

"Good morning, Uncle Green. What can I do for you this morning?" responded the clerk.

"I jes' drapped in, Marse William, to ax yer wot yer ax fer er deforcement."

"A what, Uncle Green?"

"Er deforcement, Marse William—one er dem papers wid a yaller plaster on ter it, same like Josh Bilbro got when der jedge hitched him an' his ole 'ooman last court."

"Oh! you mean a divorce."

"Yas, dat's what I want."

"Well, you'll have to file your bill of complaint, and when court meets in December it will come up for hearing, and if your grounds for a divorce are good and supported by evidence, the court, I have no doubt, will grant your prayer."

"Marse William, I done 'turn dat file back long sence, and dat rheumatiz complaint in't 'fected me sence I bin rubbin' wid dem herbs. And 'bout dem groun's, Marse William, you'se knowed me 'long in reb. times, and ober sence freedom come, and fore God, you know dis nigger got no groun'; got 'nuff to bury hese'f in."

"Uncle Green, the best thing for you to do is to employ a lawyer. He'll tell you what to do."

"He will?"

"Yes."

"Well, Marse William, I sees you'se mitey busy—but jes' tell me, what are dat goin' ter cos' me?"

"Let me see; one of these young lawyers will take the case for $10, and the court costs will amount to another $10—$25, at the outside, is about all it will cost you."

"Twenty-five dollars, Marse William! Fore God, dat's pow'ful heap er money ter be a spendin' on a 'ooman I ain't seed in nor'n twenty year."

"What do you want with a divorce from our wife whom you haven't seen for more than twenty years?"

"I jes' want it fer ter pacify der 'ooman 'se got fer er wife now. You see, der 'ooman I was married ter on ole massa's plantation in slave times, she run'd off time herman's raid, and den I tuk up wid dis 'ooman I got now, and she's feered my fus' wife might come back and level on me as er property."

"Oh! Uncle Green, that's all settled—it's arred by the statute of limitations. Just go home and tell your wife not to bother erself—that it is all right."

"Won't yer gib me er writin' to dat conclusion? Sumfin' wot don't cos' more'n er dollar, and put one er dem yaller plasters on it."

Seeing that nothing else would satisfy the old man, the clerk gave him a certificate and tuck a gold seal on it, and refused to accept his dollar, which he told him to invest in a calico dress for the old woman.

As the old man left the office he raised his hat and said, "Thank you, Marse William; and ef yer eber git in such a pesterment wid er 'ooman, and it's in my possession to justify yer, I'll 'turn der complermint."

APPETIZERS.

What Discouraged the Funny Man.

He had a straightforward go-ahead air about him as he walked into the funny man's sanctum, that immediately commanded attention.

"I thought I'd call on you," he said. "I know you'll be glad to see me when you know who I am."

"Who are you?" inquired the sad-eyed f. m. as he wearily laid down his pencil, leaving the word mother-in-law half finished.

"I am a man who wouldn't have my wife's mother live anywhere but in my own house."

"Indeed," said the pale paragraphist with surprise.

"No, sir. I respect and admire the old lady.

"Another thing: I never spoke of how my mother used to cook to my wife.

"Whenever my wife wants a new bonnet, she goes and gets it and has the bill sent to me, and whenever I am out late at night she goes to bed at the regular hour, and never says a word about what time I get in."

His auditor was turning pale, and beads of perspiration stood out on his face.

"I am the father of an infant sixteen months old," the visitor went on, "and I have never as yet stepped on a tack when hunting the paregoric.

"I have built all the fires ever since I got married.

"I once wrote a poem on Spring, which was accepted by an editor and for which I received pay.

"I have always——"

But the funny man had fled.

The next day he threw up his situation, and he is now driving a street car. —[Merchant Traveler.

Pat's Way.

Pat—"Soy, how soon will a train be here going East?"

Station Agent at Albion—"The through freight passes in thirty minutes, but won't stop."

Pat—"Will it go slow so I can jump on?"

Albion Station Agent—"I don't know, but it will slack down there at the crossing so you can get on."

Pat—"What crossing?"

Albion Station Agent—"Oh, the one about half a mile west of here."

Pat (relieved)—"Wall, if I don't get on here I will go down and meet it and get on at the bridge."

A Model Verdict.

An Alabama man, charged with stealing a calf, made the following statement: "I was always teached to be honest, an' most always have been, but when I seed that calf I caved. I never wanted a calf so bad in all my life, an' you all know that when a man wants a calf he wants him." The jury returned the following verdict:

"We, this jury, air satisfied that Steve stold the calf, but as the feller that owned the animal is considerable of a slouch, we agree to clear Steve an' make the slouch pay the cost."

A Permanent Cure.

"Ah, doctor, you have made a permanent cure."

"Yes, I always cure every one I take hold of; never lost a case in my life."

"Yes, doctor, your patient is very well cured indeed; she's dead."

"Ah, humph! Well, you know we can only assist nature."

Give Me a Rest.

"Have a hair cut and shampoo, sir?"

"No."

"Bay rum or tonic?"

"No."

"Isn't there anything I can give you?"

"Yes."

"What is it, sir?"

"A rest."—[Philadelphia Call.

They All Forgot.

"Gents," shouted a small boy, as he poked od his head into a Fourth avenue street car, "did you mail that letter your wife gave you this morning?"

And six men simultaneously pulled the bell rope and hurriedly left the car.—[Harper's Bazar.

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver:
Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. 1873. **GRIP!** 1887.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1887.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than who'e columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letterpress. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of Grip will hereafter be $2 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip will be 10 cents.*

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

Humor without Vulgarity;
Patriotism without Partizanship;
Truth without Temper.

Only $2 a Year, Postage Free.

THE BRITISH COLUMBIAN

Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is enconsistt with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

Monday Evening, July 4, 1887.

Eastern mail 4 hours late.

The council meet to-night.

The *Rithet* left at 5 o'clock for Victoria.

The Rithet brought up 64 tons of freight yesterday.

Two cars of freight arrived this afternoon from Montreal.

The boiler for the str. Rainbow has arrived from the east.

The Laura won 2nd prize in a sweepstake boat race in Vancouver on Saturday.

Quite a number of the blue jackets of the Triumph and Caroline were in the city yesterday.

An Indian was fined $25 this morning at the police court for having liquor in his possession.

The I.O.G.T. will hold a strawberry festival and concert in the Orange Hall on Friday evening next.

Queen Victoria celebrated the close of the fiftieth year of her reign upon the longest day of the year.

To-day our neighbors across the boundary are celebrating the anniversary of their Independence.

Manahan Bros. have burned their fourth kiln of brick and have now about 600,000 bricks on hand.

Mr. Kelly, proprietor of the Caledonia hotel, Port Moody, is building a two story frame hotel at the Junction.

Department of agriculture returns show the total arrivals of Chinese in the Dominion from 1878 to 1886 was 787.

Mr. Wm. Boyd, of Vancouver, has been awarded the contract for repairing the road between this city and Vancouver.

Messrs. Rudge & Monck of this city have been awarded the contract for supplying the cut granite corner stones for the Mason's and Oddfellows' block.

The new boiler for the str. Teaser has arrived at Victoria, and it is announced that the steamer will soon be ready to take her place on the route between this city and Victoria.

The only sovereign still living who was reigning when Victoria ascended the throne is Don Pedro of Brazil. As Don Pedro was only twelve years old at the time he was reigning only in name.

Seven cars of freight arrived early this morning from the east. Among this freight was a car load of the celebrated Bain wagons, of Woodstock, Ont., consigned to Reece & Kipp, of Chilliwhack.

Ottawa advices state that Prof. Saunders will shortly start for Manitoba and British Columbia with a view of locating experimental farms here. He will probably be accompanied by the minister of agriculture.

The Gladys went down to the North Arm this morning. As there is no regular steam service between this city and that settlement Mr. Townsend is making arrangements to have the Gladys make two trips a week to that district.

Some of the most fastidious of Vancouver ladies send to this city for their drinking water. A young legal gentleman of that city visited Westminster yesterday and took back with him 3 bottles of fresh water for his lady friends!

Several flags were flying in the city to-day in honor of the anniversary of the declaration of independence. Our American citizens observed the day quietly. At Tacoma there is an immense gathering and no end of enthusiasm.

Large crowds greeted the Lew Johnson Black Baby Boy company's entertainment at the Opera House. The artists are all first-class and their mirth-provoking comicalities excited sounds of applause.—*Fresno Cor. S. F. Examiner.*

It is probable that the Wilber Dramatic Co. will visit our city soon. It has a tent capable of seating 3,000 people, and the most perfect stage ever made in a pavilion theatre. It is meeting with great success in the east at present.

Nanaimo customs receipts for the month of June were $3,427, an increase of $1,139 over the same month of last year. For the fiscal year ending 30th June the receipts were $35,366, a decrease of $7,963 as compared with the previous year.

Lew Johnsoon's Black Baby Boy at the Drill Shed to-night.

The annual report of the Montreal city treasurer shows that the total revenue for the past year was $1,908,859, an increase over 1885 of $142,722. The total assets of the city amount to $16,161,752, against a total funded and floating debt of $12,817,264.

Travel over the C.P.R. is steadily increasing in volume. Many of those who have been wintering and visiting on the coast are returning by this line in order to familiarize themselves with the resources, climate and scenery through the country traversed by our National Highway.

In consequence of the resignation of Mr. J. S. Clute as member of the board of public school trustees, an election to fill the vacancy will take place on Thursday, the 14th inst. It is much to be regretted that we are to lose the services of such an able trustee as Mr. Clute has been.

A San Francisco dispatch of the 1st inst. says: The Canadian Pacific had a consignment of flour and leather on the str. Mexico to-day for Vancouver, to be shipped to Hong Kong by the Parthia. Agent Stern says that it is the initial shipment from this city, but he expects it to be followed by a number of others.

The Chinese at Nanaimo are emigrating to the mainland to engage in the fish business. Since the completion of railway construction the usefulness of the Chinese has departed, and with the exception of the canning trade there is no avocation open to the coolie class. About 50 have arrived in this city during the month of June.

The train going east yesterday to Montreal from Vancouver had on board about 75 men, who were employed by Mr. Jas. Leamy of this city, and were on their way to Eagle Pass to erect snowsheds. The party was in charge of Mr. D. McGillivray. Mr. Leamy has the contract for two snowsheds in the Rockies to be erected at once, one at Three Valley Lake and the other at the Summit. Each of these sheds will be about 1800 feet long.

ORANGE DEMONSTRATION.—It will be seen from a notice in another column that the Orangemen propose to hold a grand celebration on the 12th inst. in this city. A large number of the brethren are expected from various parts of the province, and the gathering promises to be by far the largest assembly of Orangemen ever known in British Columbia.

CUSTOMS RETURNS.—For the fiscal year ending 30th June last the customs collections for this port amount to $67,049.42, an increase of $9,070.04 over the previous year. The collections at Nanaimo were $35,366, a decrease of $7,963; at Victoria the collections were $805,866, an increase of $8,681. The total collections at the three ports were $908,281.

RICH SPECIMENS.—The indefatigable prospector and mining expert, Mr. W. F. Murray, formerly of Arizona and New Mexico, where he discovered the richest leads that those countries have yet produced, returned from up country on Saturday with some splendid specimens of gold, silver and galena quartz. He is sanguine that he has now struck a bonanza and intends to develop his claims as soon as he hears from his capitalistic friends and former associates in mining pursuits in San Francisco.

A DENIAL.—It will be remembered that Mr. Van Horne stated when at Victoria lately that overtures had been received from the Northern Pacific Railway proposing to withdraw from the British Columbia trade on condition that the C. P. R. people withdraw from the sound trade. Mr. Oakes, vice-president of the Northern Pacific, writes to the Victoria agent as follows: "You can assure the shippers of Victoria in the most positive terms that the Northern Pacific railroad company does not contemplate retiring from the business of British Columbia, and has made no overtures such as Mr. Van Horne claims in his interview." It will now be in order for Mr. Van Horne to speak.

EXTREMELY COMPLIMENTARY. — In an after-dinner speech at Vancouver during the celebration, Mayor Fell, of Victoria, made the following remarks: "Remember we people of Victoria are not only not jealous of Vancouver, but on the contrary recognize that her progress means the increased prosperity of Victoria and the whole of British Columbia. I know that the *Colonist* has attacked Vancouver, but let me tell you that the *Colonist* does not represent Victoria, and no one there pays any attention to what it says." The *Colonist* in noticing this says: "The hall was full, and so was he." Such insinuations respecting the mayor of the capital are not calculated to promote public confidence or respect.

James Cullen, Pool's Island, N. F., writes: I have been watching the progress of Dr. Thomas' Eclectric Oil since its introduction to this place, and with much pleasure state that my anticipations of its success have been fully realized, it having cured me of bronchitis and soreness of nose; while not a few of my "rheumatic neighbors" (one old lady in particular) pronounce it to be the best article of its kind that has ever been brought before the public. Your medicine does not require any longer a sponsor, but if you wish me to act as such, I shall be only too happy to have my name connected with your prosperous child.

In the Supreme Court.

(Before Mr. Justice McCreight.)

Joseph M. Wise, Appellant, and the City of New Westminster, Respondents.

This was an appeal from a conviction made on 1st June last by the police magistrate of the appellant for employing Chinese contrary to the provisions of a municipal by-law. For the appeal Mr. McColl, with whom was Mr. Leamy, contended that the judgment of the full court in the case of Lou Chin vs. the Chief Commissioner of L. & W., in which it was held that the government could not discriminate against Chinese miners by the imposition of larger license fees upon them than upon others, governed, inasmuch as what was attempted by the by-law in question was not merely discrimination but total exclusion. Moreover, assuming the local legislature to have power to authorize the municipality to pass such a by-law, no act had been passed giving such power.

Mr. Atkinson, for the city, after taking some preliminary objections, which were overruled, contended that the powers possessed by the corporation were sufficient to enable them to pass the by-law.

His lordship considered that the case referred to as having been decided by the full court applied and made an order quashing the conviction with costs.

Bricks and Brickmaking.

BECKETT & CO.'S BRICK YARD AT PORT HANEY.

At the invitation of Messrs. Beckett & Co. a representative of the COLUMBIAN paid a visit to the Fraser River Brick Works at Port Haney last Saturday. These works are situated in a ravine immediately adjoining the C. P. R. track and the Fraser River. The company has secured five acres of land here which has been prepared at considerably expense for operations. There has been erected a substantial engine house with an engine of about 30 horse power for driving the machinery. There is a 3-inch iron shaft 150 feet long connecting with three of Gurney's Martin's patent brick machines, having sufficient capacity to turn out over 40,000 bricks per day of 10 hours. The clay, which is a very clean, fine blue clay, is taken from the bank of the ravine, along side the machines, and the sand is brought by railway from a short distance up the river. The supply of clay is

PRACTICALLY INEXHAUSTIBLE,

and sufficient to supply the whole province with bricks for the next century at least. Water is pumped by machinery from the river and stored in a large tank placed at an elevation sufficient to reach all the works by means of pipes and hose. The clay and sand, after being properly mixed, are dumped into the brick machines at one side, and from the other side come the bricks, five at a time, pressed and moulded into uniform and perfect shape. These are placed on light barrows and conveyed to the drying sheds close by, where they are piled up in long rows to dry. There are 40 double drying sheds, each of which has a capacity of 10,000 bricks. These sheds are lightly rooted to protect the bricks from the sun and rain, both of which are injurious. After remaining in the shed until sufficiently dry, they are stacked up in the kiln and burned. Last year this yard produced about 1,500,000 bricks, all of which were disposed of. The works were

CONSIDERABLY ENLARGED

during the winter, and the whole of the yard was raised 18 inches so as to put it beyond the reach of high water. This season there have been 300,000 bricks burned, 300,000 more are ready for the kiln, and there are besides between 300,000 and 400,000 drying. The facilities for making and shipping bricks are very complete. A short switch from the C. P. R. main track enables the cars to come right into the yard, and there is also a tramway running to the river, so that shipping may be done by water or by rail with equal facility. The principle adopted by the company is to do nothing by hand that can be done by machinery, and this principle has been admirably carried out in the works. There has been invested in machinery and improvements not less than $20,000, and it is now one of the most

COMPLETE BRICKMAKING ESTABLISHMENTS

in Canada. It is expected that the machines will be kept running at their full capacity during the whole season. There are now employed over 40 men, and about 1500 cords of wood are required by the works for a season's operations. The supplying of this fuel and the other expenditures in connection with the works are items of no small importance to Port Haney. This brick yard was located by Messrs. H. R. Beckett and his son Earnest in 1885. These gentlemen came from Sherbrooke, Que., and were induced to embark in this enterprise on the advice of Sir George Stephen, president of the C.P.R., with whom Mr. H. R. Beckett has been intimately acquainted for many years. He is a practical brick-maker with 45 years experience at the business, and is also an experienced builder. He built the large factory for the Paton Woollen Mills Co., of Sherbrooke, of which Sir George was then president. Mr. Earnest Beckett has also been

BROUGHT UP TO THE BUSINESS.

Last fall Mr. Wm. Wolfenden arrived from England and purchased the interest of Mr. Earnest Beckett in the business, and the firm name was changed from Beckett & Son to Beckett & Co. The company does not confine itself to brick-making, but undertakes building contracts as well. It has now on hand the contract for the brick and mason work of the large new hotel under course of erection in this city for Mr. W. A. Duncan, where about 250,000 bricks will be used. Mr. H. R. Beckett personally takes charge of the building operations, Mr. Wolfenden is business manager of the the concern, and Mr. Earnest Beckett is foreman of the yard. Mr. Wolfenden has become a resident of this city, and has an office on McKenzie street. With the experience of these gentlemen and the facilities they have for brickmaking and building, the firm ought to do a large business. Bricks made by these improved machines are very uniform in size and perfect in shape, and the clay seems to be all that could be desired; and we see no reason to doubt that in quality they will be found fully equal to anything produced in the country. We hope this valuable addition to our manufacturing industries will realize for its promoters an abundant reward for their enterprise.

THERE IS A WIDE DIFFERENCE between medicines which affect merely the symptoms of disease and those which affect its cause. The first are useful as palliaties, the second, if of genuine efficacy, produce a radical cure. To the latter class belongs Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Thoroughness of operation is its special attribute in all cases of Biliousness, Costiveness, Indigestion, Kidney Complaints, and Female Weakness.
