Saturday Evening, Oct. 22, 1887.

Important to Parents.

Mr. W. M. F. Round, secretary of the Prison Association of New York, contributes to the *Independant* an able article on "Crime Beginning and Crime Prevention," from which we extract the following: "Day by day I see criminals, hundreds of them—thousands of them in the course of the year. I see scores of broken-hearted parents, wishing rather that their sons had never been born, than they had lived to bear such burdens of shame and disgrace. I hear the wailing of disappointed mothers, and see humiliated fathers crying like children, because of the sins of their children. I see mothers growing gray between the successive visits in which they come to inquire about the boy in prison. And seeing these dreadful things till my heart aches, I say to those mothers and fathers whose boys have not yet gone astary, to those mothers and fathers whose little families are the care of their lives, teach our children *obedience*. I want it written large. I wish I could make is blaze here in letters of fire. I wish I could write it in imperishable, glowing letters on the wall of every home—*obedience, obedience, obedience!* Obedience to law—to household law; to parental authority; unquestioning, intant, exact obedience. Obedience in the family; obedience in the school. Wherever, from beginning, from the first glimmering of intelligence in the child, there is expression of law, let there be taught respect for it and obedience to it. It is the royal road to virtue, to good citizenship; it is the only road. Teach also the clear distinction between mine and thine. Let the line be unwaveing. Let there be no quibbling with terms, and the distinction can not be taught in the family where it is not observed. Where debts are contracted carelessly and paid reluctanty, honesty can not be the dominating principle. In such a moral atmosphere there is contamination. There is poison that will come out in things counted more shameful than debts. Educate a boy in such a way that he shall think it of no consequence whether the milk bill is paid from one year's end to another, and you educate him to take his employer's money, with the vague intention of replacing it some time. Educate the boy to think better of himself in a fine coat, whether the tailor's bill be paid or not, and you so weaken his moral sense that he can not resist the temptation, when the opportunity comes for gratifying his vanity by stealing. Make a boy think that a high social position is the first thing to be thought of in the world, and he will sacrifice his moral principles for the position. It is frequently said, in my hearing: "How strange it is that so many children of respectable parents go astray!" To which I always answer: "It is strange that so few of them go astray." But it is not respectability that sends them astray, it is sham respectability. It is a false, sentimental idea of the love due to children that makes them disobedient; the easy going, tender-hearted, doting parent that can't bear the sight of a child's pain, and spares itself the sight at the peril of the child's future. It is the *mother's and father's* cruel selfishness that spares the child. It is the sickening yearning after "gentility," the willingness to buy a sham social position at any expense, that ruins many a boy and many a girl. The parents would rather hear how well their children stand socially, than to hear how good and upright they are. The children soon catch this tone, and think gentility is better than goodness; and make a sacrifice of gooodness to getility, whenever they think their social standing will be served by it. This is of course not true of all so-called respectable families whose children go astray, but it is so often true that I always expect to find it so when such cases come before me; and alas! I am not often disappointed."

New Zealand has never enjoyed the fame of the Australian continent for its gold produce, but nevertheless since 1857 the gold fields of New Zealand have produced in round numbers £45,000,000. The gold exported reached its highest point in 1866, when 735,376 ounces, valued at $2,845,517, were exported. The present production is valued at nearly £1,000,000. A total area of 21,000 square miles of gold and silver bearing lands is already known and proved, both metals having been found over that area at numerous localities.—*Pall Mall Gazette.*

Bravery Rewarded.--Eviction at Woodford.--Judge Angers Absolutely Governor of Quebec.--No More Raffles.

LAST NIGHT'S DESPATCHES.

GLADSTONE'S CHIPS.

LONDON, Oct. 20.—As a result of the circular recently issued stating that blocks of wood from trees felled by Mr. Gladstone at Hawarden might be had at fixed prices, the ex-premier has been overwhelmed with written requests for souvenirs of his wood-chopping operations. Consequently Mr. William Gladstone, his son, writes to say that he is solely responsible for the circular, and that all applications must be made to him, his father having no interest in the matter.

THE HANLAN-BEACH RACE POSTPONED.

LONDON, Oct. 20.—The *Sportsman's* correspondent telegraphs that Hanlan is suffering from a carbuncle on his wrist, rendering it impossible for him to row for at least ten days. His race with Beach will consequently be postponed till the last of November or first part of December, provided that the Australian sculler is willing.

EVICTION ACCOMPLISHED.

DUBLIN, Oct. 21.—The police surprised and evicted a tenant named Kenny at Woodford to-day. A strong resistance was expected, but the angry crowds that gathered were too late to offer any opposition, as the eviction had already been accomplished when they arrived.

BRAVERY REWARDED.

SAN FRANCISCO, Oct. 21.—Wells, Fargo & Co. to-day sent a check for $2,000 to messenger Smith at Houston, Texas. Smith killed two train robbers who attempted to rob a train on the 14th instant.

THE REMAINS OF ARCHBISHOP SEGHERS.

SAN FRANCISCO, Oct 21.—When the revenue cutter Bear left St. Michael's in September, Captain Healy was not able to bring the body of the murdered Archbishop Seghers to this port for burial, owing to the fact that permission had not been obtained from the treasury department. That obstacle has now been removed by an order from Secretary Fairchild directed to Captain Healy. The secretary authorizes the conveyance of the remains to any spot which may be designated for burial. Prior to the departure of His Eminence Cardinal Gibbons, the matter will be laid before him, and his views ascertained as to whether the body will be interred at Victoria or elsewhere. At present the remains are encased in a coffin covered with sheet iron, and deposited in an old Russian church at St. Michael's. Captain Healy thinks that either the Bear or the Thetis will bring the body from the north next fall.

THIS MORNING'S DESPATCHES.

TERRIBLE STORM.

GUAYMAS, Mex., Oct. 22.—The str. Newbern, from Mazatlan, has brought full details of the storm along the Sinaloa coast. Over forty lives were lost and the damage to property is beyond estimation. The cupola of the Mazatlan observatory was blown to pieces and all the scientific instruments ruined.

THE MYSTERY SOLVED.

LOS ANGELOS, Cal., Oct. 22.—Hattie Woolsteen made a full confession last night concerning the murder of Dr. Harlan, which has been wrapped in mystery. On the 5th inst. she was out riding with the doctor. They came to a deserted orchard on the outskirts of the city. He threatened to leave her and go to Colorado. She thereupon shot him dead. She then drove on to the barn, removed the body to the inside, and then set fire to the place and watched the building burn to the ground.

ANOTHER OUTRAGE ON VICTORIA.

OTTAWA, Ont., Oct. 22.—The Dominion government has completed arrangements for the transportation of mails on the new route between Great Britain and Japan, via the Canadian Pacific Railway. Vancouver will be made the postal centre under the new arrangement, and all foreign mails coming east and destined for points in the United States and Canada will be distributed from there. The sorting of foreign mails in course of transshipment will be done at Montreal, which will be the other postal terminus on the route.

STEAMER REPORTED LOST.

HARBOR SPRINGS, Mich., Oct. 22.—It is reported that a steamer of some description went down near Sault Ste. Marie last night and that only 11 of 75 persons were saved. Nothing definite yet.

LYNCHED HIM.

INDIANAPOLIS, Ind., Oct. 22.—At a late hour last night a mob met and forced its way into the jail at Delphi and took away Amos Green in a wagon for the purpose of lynching him. Green is the supposed murderer of Miss Luella Mabbitt. Nothing definite can be learned regarding the lynching.

SHOT BY A STAGE ROBBER.

REDDING, Cal., Oct. 22.—Geo. Henderson, who was shot while seated beside the driver on the Redding stage last night, died this morning. A man ordered the driver to stop, at the same time shooting and frightening the team, which started to run, and the robber, firing again, shot Henderson through the hand and bowels. Officers are making diligent search for the robber, but thus far there is no clue.

FEARS AN OUTBREAK.

CHICAGO, Oct. 22.—The fear is widespread that there will be an outbreak on the day the 7 condemned anarchists ascend the gallows, and the scenes which will follow will make the Haymarket massacre insignificant. The whole district near the jail has been depopulated owing to the fear that dynamite will be used on November 11th, the day of the execution. Most extensive preparations have already been made by the sheriff and chief of police to provide against any such calamity, but the apprehensions of the public are not allayed.

THIS AFTERNOON'S DESPATCHES.

A NEW SENATOR.

MONTREAL, Oct. 22.—It is stated that J. B. Rolland, paper manufacturer, has been appointed to fill the vacancy in the senate caused by Senecal's death. The selection of Judge Angers as lieut.-governor is regarded here as another victory for Sir Hector Langevin, and the feeling of disappointment amongst Hon. Henry Starne's friends at the result is open and strong, and it may take some time to heal the political sores that will ensue.

A NEW DEPARTURE.

MONTREAL, Oct. 22.—A new departure has been made in the flour export trade of this city. The bark Jane Kilgour, now loading, is the first vessel that has ever taken a cargo of flour from here. She will carry 6,000 sacks of Manitoba strong bakers' flour to Dundee, Scotland.

A GOOD MOVE.

KINGSTON, Ont., Oct. 22.—At yesterday's Session of the synod of Ontario, a resolution was adopted requesting the bishop to issued a pastoral condemning the practice of raising church funds by raffles, lotteries bazaars and other questionable methods.

Thomas Myers, Bracebride, writes:—"Dr. Thomas' Eclectric Oil is the best medicine I sell. It always gives satisfaction, and in cases of coughs, colds, sore throat, &c., immediate relief has been received by those who use it."

Can it be Possible!

3 White Girls Said to be Held Captive Among the Indians!

The Victoria *Standard* of yesterday publishes the following, for the correctness of which it vouches. It says: "There are 3 young white girls prisoners among the Indians. Who has not read of the horrors that female white prisoners undergo at the hands of the red devils, death in many cases being preferable but not even the door of death is left open for them to escape by. If there are any men and women of Victoria, who call themselves Christians and wish to do a Christian act, *they can do so by freeing these poor* girls, whose story is here partly only related, from the worse than captivity and slavery among the Indians, to which they are at present subjected. Facts are stubborn things has been said and the following are *facts* which we can verify to those who wish to take this matter in hand. There lived in Victoria some years ago a man with his family, consisting of his wife and three or four children. He was a heavy drinker and a dissolute fellow, and what little money he had went for whiskey, often leaving his family without the necessaries of life. By threats and coaxing he induced them to move to San Juan on the West Coast—among the Indians. Since then but little has been heard of them until recently. The wife at the time of their departure was

NEARLY CRAZED

with fear and sorrow. She was a finely educated white woman and from a good family. As we are informed one of the daughters is married to or living with a Chinaman, presumably sold to him by her father as the Chinaman is quite wealthy, another daughter is living with the Indians on Barclay Sound, having been bartered by her father for blankets, commodities and other things for his own use. A few weeks ago while a schooner was down to Barclay Sound, a white girl came running on board, followed by some Indians, begging and entreating the captain in the most piteous manner to bring her to Victoria. The Indians demanded her as their property, but the captain promptly refused to give her up. They left but returned in a short time with many others, and and the captain fearing trouble and not knowing what sort of a scrape he might get into, allowed the Indians to depart with their captive. A still younger girl of the same family, about

SIX YEARS OF AGE

was seen in a canoe filled with Indians near Race Rocks light house not long since, but hearing of some remarks made about the white girl being in their possession, hastily departed and nothing has been heard of her since. It is believed that the mother of this unfortunate family is dead. The father is still among the Indians, preferring to live with them rather than the white people, for as he was once heard to say, "The Indians are gentlemen and I prefer to live among them." The above story reads much like a dime novel, is true, but "truth is stranger than fiction." There are many minor facts besides those recorded and they will be furnished to anyone designing to help these unfortunate children from their captivity, and it is to be hoped that some Christian family will intercede on behalf of these unfortunates and steps taken to relieve them from their captivity."

Mrs. O'Hearn, River street, Toronto, uses Dr. Thomas' Eclectric Oil for her cows for Cracked and Sore Teats; she thinks there is nothing like it. She also used it when her horses had the Epizootic with the very best results. Do not be persuaded to take any other Oil in place of Dr. Thomas' Eclectric Oil.

Daily British Columbian

Saturday Evening, Oct. 22, 1887.

The death of Ayoub Khan, the enemy of British influence in Afghanistan, is said to be a fact, and the fact gives much relief both to the Afghan and the British government. At the same time the ameer is showing greater vigor and meeting with more success in his efforts to suppress the rebellious spirits who have risen up against his authority. The present authorities are, of course, favorable to British influence and opposed to Russia, but the Afghan ameers and people are a fickle and faithless race, and cannot be depended on. As a rule their loyalty is measured by the subsidy it brings. If Russia is able to pay a big enough price, she will probably buy the right to do as she pleases in Afghanistan. In the meantime Great Britain is having her innings, and is paying well for the game. If Ayoub is really dead, and not merely foxing, it will certainly make things easer, but if he should manage to come to life again, as those eastern fellows have sometimes an awkward habit of doing, he might make the situation very inconvenient and interesting.

When we published the extract from the provincial secretary's statement at Ottawa, as it appeared in the *Free Press*, we intimated that the interviewer had probably not made an accurate report of what was said. It seemed to us quite impossible that the provincial secretary could have made a statement so completely at variance with the facts. If he, or the government, had been willing to abandon the Southern Railway, or conceived it to be antagonistic to the public interest, why did they support the bill granting a charter to the road! The charter went through the house without opposition, and we have no reason to suppose that any change has taken place in the opinions of the members of the house on this question. The telegram received by Mayor Dickinson last night seems to confirm the opinion that the provincial secretary's statement was misrepresented in the *Free Press*. What he really did say will no doubt be made known in due time. A great deal of feeling has been aroused by the report of the *Free Press*, but it will be wisest to suspend judgment until fuller information has been received.

It is stated in a despatch from Ottawa that Secretary Bayard has expressed regret because his instructions had not been carried out to release the Canadian sealers seized in Behring's Sea; and it is said the secretary had further intimated that fresh orders had been given for their release. This is satisfactory as far as it goes, if the American government will at the same time recoup the sealers for all losses connected with these seizures. At the same time the case of the United States as set out by Mr. Delaney, U. S. counsel, has been published. This is a very comprehensive document, and steadfastly maintains that Behring's Sea is wholly within the jurisdiction of the United States, inasmuch as it must be regarded as an inland sea, lying wholly within American territory. While stoutly pressing this claim, Mr. Delaney freely admits the right of a nation to maintain jurisdiction to the extent of three miles into all adjacent waters. This admission may materially assist the fishery commission in reaching a conclusion with respect to the Canadian claim to exclusive jurisdiction over the fisheries on the eastern Canadian coast.

Our excellent friend of the *Herald* comes to hand again promptly with nearly a column of disallowance. A few days ago we denied that the COLUMBIAN had advised the Manitobans to call a special session. The *Herald* says we are inclined to split hairs, and intimates that if we did not advise, we suggested. Now, we most emphatically deny this also, and we must ask our salt water cotemporary to be good enough to lay aside his very disagreeable habit of misrepresenting. After stating the position of the disallowed railway, after the judgment delivered in the Browning case, we said: "The only way out of the difficulty seems to be to call a special session of the legislature, pass a new railway bill and rush the work through before it can be vetoed." Now, this is neither advice nor suggestion—it is a simple statement of fact. It was long ago suggested by eastern newspapers that a special session would be the best way to meet the difficulty, and if our salt water cotemporary keeps himself informed on current events he must have known this. Our cotemporary's column of theories is, therefore, utterly wasted because it is based upon a misrepresentation which originated with himself.

FURRED TONGUE AND IMPURE BREATH are two concomitants of biliousness remedied by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Heartburn, which harasses the dyspeptic after meals, and all the perplexing and changeful symptoms of established indigestion, are dispersed by this salutary corrective tonic and celebrated blood purifier.

Poisonous Beverages.

Many of the fraternal orders are seriously discussing the question whether whiskey and beer drinking shall be longer tolerated among them.

That large numbers of otherwise good and noble men shorten their lives by the daily indulgence in moderate tippling is a fact too well attested to admit of any doubt.

The individual may drink whiskey or other form of ardent spirit habitually, but in such moderation as never to disguise his features, or mask, or distort his natural character. His nearest friends may not be able to discover its influence upon him, yet the poison is steadily and surely, though slowly undermining his constitution. It enters the mass of blood, blunts organic sensibility, and deranges secretions—especially in the liver, termed by physicians cirrhossis or hobnailed liver. Yet the victim may never have been drunk in his life! The man who daily quaffs his dozen glasses of beer stands in equal danger though the percentum of alcohol in that beverage being much smaller than in ardent spirit, its pernicious influence upon health is not manifested so early. Long continued habitual beer drinking will, however, induce a disposition to obesity, fat being deposited in abnormal amount in all parts of the body where it naturally accumulates, and finally, in many instances, certain organs, as the kidneys, liver and heart become overladen with the oily product and death inevitably ensues.

So insiduous and imperceptible are the morbid changes induced in the system; so pleasant, exhilirating or cheering is the immediate effect of the social glass, that the unwary victim becomes its helpless, hopeless prey, not only ere he is aware of danger, but while he actually feels and boasts of its wholesome influence upon both mind and body!

Truly, no physical or psychical feeling and sensations are, or can be, more delightful at the moment, than are the inspiration realized daily—for a brief period—by the man who begins the habit of drink. He first experiences a sense of indescribable bodily lightness and elasticity, with an unspeakable inward tranquility. This stage is quickly followed by a remarkable exaltation of the intellectual faculties, exciting a preternatural manifestation of mental power and activity. Perception is quickened, the flow of ideas, the flash of thought and corruscations of fancy are all heightened and rendered intuitive, brilliant and creative. These pleasant and enticing effects of of alcoholic stimulation are, however, delusive and transient.

Day by day, the nervous system becomes accustomed to the unnatural excitement, the dose—as with opium and other stimulant narcotics—requires to be increased, while its exhilarating influence diminishes in direct ratio to the larger amount taken; until, finally, in pursuit of its seductive, but false allurements, the wretched toper guzzles it down in unmeasured quantities, only to be mocked and cursed by its stupifying and soporific properties alone. Persistence in the habit now speedily closes the tragedy in delirium and death.

But, our most dangerous cases, and because they are so common, are the habitual moderate drinkers of ardent spirits or beer. We must reject all such. Their further acceptance as members will be at our deadly peril. —*A. O. U. W. Guide.*

What Canadian Doctors Think.

In response to the inquiry addressed to them recently by the *Canada Citizen*, "Is total abstinence, in your opinion, compatible with the fullest degree of physical health?" eighty-two of 91 physicians of Toronto answered in the affirmative. Of the 91 there were 57 who emphatically denounced all moderate drinking as bad, 34 whose opinions on that point were very diversified, though only about 10 distinctly favored habitual drinking in quantities usually deemed moderate. Again of the 91 there were 75 who agreed in the opinion that the total abstainer had a better chance than the moderate drinker for recovery from disease or accident; and 81 of the 91 agreed that total abstinence would be a great public benefit. The moderationists were in a small minority. As a whole the answers show gratifying progress in the sphere of medical temperance opinion.

The liquor bill of the United Kingdom last year was £123,268,000, equal to the total amount spent in bread, butter and cheese; more than the rental of all houses; nearly twice the rental of all farms; and thirty millions more than the entire expenditure of the government. The consumption was at the rate of thirty gallons of liquor per head of the population. We have the local option in Canada, and consume but three gallons per head, although of course the consumption in our manufacture is much less than in England.

What a rebuke to this nation, receiving millions of dollars annually from its revenue on liquors, is conveyed by the Queen of Madagascar, when she says, in a recent proclamation: "I cannot consent, as your Queen, to take a single penny of revenue from that which destroys the souls and bodies of my subjects."

A speaker at a great temperance meeting in Reading, England, said that if each teetotaller in the United Kingdom were to secure another and the process were annually repeated, the entire population would become teetotallers in four years.

Pimples, Boils,

And Carbuncles result from a debilitated, impoverished, or impure condition of the blood. Ayer's Sarsaparilla prevents and cures these eruptions and painful tumors, by removing their cause; the only effectual way of treating them.

Ayer's Sarsaparilla has prevented the usual course of Boils, which have pained and distressed me every season for several years.—G. Scales, Plainville, Mich.

I was badly troubled with Pimples on the face; also with a discoloration of the skin, which showed itself in ugly dark patches. No external treatment did more than temporary good. Ayer's Sarsaparilla effected

I was troubled with Boils, and my health was much impaired. I began using Ayer's Sarsaparilla, and, in due time, the eruptions all disappeared, and my health was completely restored.—John R. Elkins, Editor *Stanley Observer*, Albemarle, N. C.

I was troubled, for a long time, with a humor which appeared on my face in ugly Pimples and Blotches. Ayer's Sarsaparilla cured me. I consider it the best blood purifier in the world.—Charles H. Smith, North Craftsbury, Vt.

D. ROBSON,

Manager.

The Misunderstood Hotel Clerk.

"You see," said the clerk, "one of our chief duties is to answer questions. A thing you are in the habit of doing all the time soon becomes almost automatic, and you can do it while your mind is really on other things. People ask the same questions of a hotel clerk a hundred times a day. He quickly gets the answers down to the briefest possible formula. These he rattles off in a perfunctory, uninteresting way to all inquirers, including newspaper men. The newspaper men get an idea that they have not received sufficient attention, and immediately jump to the conclusion that the clerk's abstracted manner is due to self-conceit, when it is simply a result of systematizing his work." There is a great deal in this, but the fact remains that in some unaccountable manner many hotel clerks, and especially young ones, absorb the idea that they are of vast consequence in a community, and above the necessity which other business men find of being civil to all comers. I saw one of these self-important lads beautifully taken down by an older and more experienced man at an uptown hotel a short time ago. The young man in question handles the mail of so many distinguished statesmen that he quite considers himself one of them, and feels competent to patronize any ordinary people who fall in his way. A well-known senator of dyspeptic diathesis and uncertain temper had just arrived. The young clerk beamed on him with all the kindliness of personal regard, inquired after his health, and wound up by asking, in a rather loud tone of voice, when the statesman's wife and daughter would return to town. The senator turned on him with a look that just desolated the smile on his countenance, and dryly, but loudly, answered: "Well, I'll let you know in time for you to make the fires in their rooms."

Marrying for Money.

Girls, don't marry a man for money, position, or anything but love. Don't do it if you want to live to a good old age and be happy. You may think that money can bring you all you desire, but it can't. That is where you are mistaken. It can buy a good many things, but it can never purchase contentment for your heart or happiness for your soul. It may bring temporary smiles to your face, but it will leave great shadows in your heart. Don't think that I would advise you to marry a worthless fellow, just because you imagine you love him. A refined, good intelligent woman should never marry a vulgar, ill-bred man. No, no, never unite yourself to any one who is not a man in the truest meaning of the word. Neither could I advise a woman to marry a man who had no visible means of supporting her, but for heaven's sake do not marry a millionaire or a king if you don't love him. It will not do. People have tried it time and again, only to find it is a miserable failure. It may do for a while. You may revel in gilded halls and be lost in the giddy rounds of pleasure, but a time will come when these things will be a hollow mockery to you. There will be an "aching void" the world can never fill. Sometimes mothers are to blame for the unhappiness of their daughters. They teach them that respect for their husband and lots of "boodle" are infinitely to be preferred to that foolishness called love. That would do very well if life had no waves of trouble, but it takes something more than simple respect to make two hearts cling together in the hour of adversity. A woman that turns her back on wealth and takes the man of her choice may miss some of the luxuries of life, but she will be happy. Don't marry a dude. Better get you a monkey. It is cheaper and a great deal nicer. Don't fool with that class of animals. They generally wear a $10 hat on a 10 cent brain, and the woman who takes one of these chaps will get left about as badly as the Southern Confederacy did at Appomattox.

A Sulphur Bath in the "Old White."

The sulphur bath is a local luxury, and with a clothespin on your nose is not bad. Having read the pleasing account in large print in the daily papers of a man who scratched for twenty-eight years and then unfortunately got cured and entered the advertising columns in time to spoil your appetite for breakfast, you conclude to bathe. Modern physiology is discovering so many kinds of microscopic nuisances concealed about one's anatomy that the idea of a sulphur bath is rather attractive. Having given yourself up bodily to old Burrill, a white-haired, powerful old mulatto of twenty years' experience, he leads you to a bath-room and puts you to boil. When you are somewhat soft he comes in and rubs you with a brown crash towel, the sensation being lazily and warmly pleasant. When you are quite done he takes you out and polishes you off for the table, industriously chatting meanwhile about Jerry Wall, Jay Gould, and others of his clients here and at Old Point Comfort in winter, summarizing each of his paragraphs with "Vanity, nothin' but vanity." Old Burrill says that there has been very little bathing, comparatively speaking, this summer, all those who came for rest and treatment having, as a rule, been too busy in social gayeties for sulphurous indulgences of an aqueous kind. In fact, here as elsewhere, the springs, though they are the origin of the watering places, have almost fallen into disuse as compared with seasons of some years ago. You leave the bath entirely permeated with sulphur. If you rubbed against a post you would take fire.

A Dress Made of Thread.

A young lady of Austin, who has much time to spare and who is very skillful with the needle and excels in all fancy crochet work has made a unique dress. The material is common spool thread, white, and the entire dress is hand-crocheted work, beautifully flowered and strongly made, and about 10,000 yards of thread were used in its construction. The sleeves are crocheted in the proper shape, and are fastened in by a lock-crocheted stich. It is a very beautiful dress, and the young lady tells us that it took her three months to complete it.

English General Officers.

The English army does not lack for officers. There are 7 field marshals, 20 generals, 52 lieutenant generals and 130 major generals, in all 209 general officers. The greatest war of this century was carried on by the United States, with only two officers above the grade of major general, viz., 1 general and 1 lieutenant general.

"It Saved My Life"

Is a common expression, often heard from those who have realized, by personal use, the curative powers of Ayer's Cherry Pectoral. ✱✱ I cannot say enough in praise of Ayer's Cherry Pectoral, believing as I do that, but for its use, I should long since have died from lung troubles.—E. Bragdon, Palestine, Tex.

About six months ago I had a severe Hemorrhage of the Lungs, brought on by a distressing Cough, which deprived me of sleep and rest. I had used various cough balsams and expectorants, without obtaining relief. A friend advised me to try

Ayer's Cherry Pectoral.

I did so, and am happy to say that it helped me at once. By continued use this medicine cured my cough, and, I am satisfied, saved my life.—Mrs. E. Coburn, 18 Second st., Lowell, Mass.

I have used Ayer's Cherry Pectoral for over a year, and sincerely believe I should have been in my grave, had it not been for this medicine. It has cured me of a dangerous affection of the lungs, for which I had almost despaired of ever finding a remedy.—D. A. McMullen, Windsor, Province of Ontario.

Ayer's Cherry Pectoral saved my life. Two years ago I took a very severe Cold which settled on my lungs. I consulted physicians, and took the remedies they prescribed, but failed to obtain relief until I began using Ayer's Cherry Pectoral. Two bottles of this medicine completely restored my health.—Lizzie M. Allen, West Lancaster, Ohio. ††

WHAT PHYSICIANS SAY ABOUT THE
STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medication taking.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. HEAD OFFICE, TORONTO, CANADA
A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.
It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.
Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.
Its position is ascertained annually from a detailed valuation in which every item of liability is included.
Its progress has been unexampled in the history of insurance in Canada.
Its policies are indisputable after three years, and non-forfeitable after two years' existence.
Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.
Liberal Conditions as to Residence and Travel.

A Plucky Fair.

An Indian went into Mr. James Wise's store this morning and while pretending to be examining various piles of goods, managed to slip a coat inside his jacket. Mr. Wise's son, a boy of 12 years old and another boy were in the store at the time and seeing the Indian about to depart, with an enlargement under his coat that was not there when he entered, their suspicions were aroused and they followed him. One of the boys caught hold of the Indians jacket and pulled it open, an dthe coat fell out, the Indian then made up the hill followed by the boys who were on the lookout for policeman to give him in charge. As no policeman was to be seen and as the Indian was goingto get away without punishment the boys turned on him and after giving the thievish Siwash a real good drubbing allowed him to depart.

Mr. Thos. Cunningham has purchased the Jersey bull calf imported from Oregon a few days ago by Mr. C. G. Major. We understand that Mr. Cunningham intends to go extensively into breeding blooded stock at his establishment at the Mission as well as this city. There is a large field for such enterprise in this country.

Board of Trade.

A meeting of the council of the board of trade was held this afternoon to consider the statement said to have been made respecting the Southern Railway by the provincial secretary at Ottawa. In consequence of the telegram received by Mayor Dickinson it was deemed best to take no action until the return of Mr. Chisholm, M.P., when fuller particulars would probably be obtained.

Mayors and Mayors.

The mayors of Victoria and Vancouver seem to be forever getting them selve or others into hot water. The latest break of the Vancouver mayor was to get himself fired off the steamer Premier. At the last council meeting the mayor of Victoria refused to put a motion and left the chair. This has become a habit of his. While at Nanaimo the other day he took some orders for teas and coffees to be supplied from his Victoria store. There is a by-law in Nanaimo imposing a license fee on commercial travellers, the city collector, very properly applied to Mayor Fell for that fee. The mayor, however, declined to pay, and the collector threatens him with an action.

Special Council Meeting.

The council held a special meeting last night at 8 o'clock to discuss the report of a statement said to have been made by the provincial secretary on the Southern Railway. The meeting although generally known throughout the city did not seem to rouse much enthusiasm as may be seen from the fact that only four private citizens and two gentlemen from the district attended. The mayor and all the councillors were present.

His Worship on taking the chair said: Gentlemen, this special meeting of the council is called at the request of four councillors, arising out of the report of certain utterances of the Hon. John Robson in the Ottawa *Free Press*. As it is the wish of the people of this city and district to have railway communication to the southern boundary any resolution you may bring forward to express that wish, will be in order. If you have several resolutions then we had better go into committee on the whole to discuss them.

On motion the council went into committee on the whole, Coun. Bonson in the chair.

Coun. Curtis then read a resolution and the clerk read two others, which were laid on the table.

His Worship thought that resolution No. 2 by Coun. Elliot met the case exactly.

As there seemed to be no desire on the part of the councillors to discuss the different motions it was generally agreed to that the following resolution be adopted:

Moved by Coun. Elliot, seconded by Coun. Shiles, and Resolved that we, the mayor and council of the city of New Westminster, having seen in the Ottawa *Free Press*, Victoria *Times*, and *Mainland Guardian*, a statement said to have been made by the Hon. John Robson, provincial secretary of British Columbia, as follows: "We are satisfied to forego our wish for railroad communication between New Westminster and the southern boundary, though it would be a benefit to us." We desire on behalf of the electors and residents of this city to make known to the government of the Dominion and the press that such statement is wholly untrue and that the residents of this vicinity are unanimously in favor of railroad communication with the southern boundary.

Coun. Duncan said the object of this meeting was to express their disapprobation on the statement of the Hon. John Robson. This matter affected the whole district and it was the duty of the council to notice it. The Hon. John Robson would have it that the people did not want the Southern Railway, but the people do want it. The hon. gentleman's statement may not do much harm to the road but it will do very little good and the resolution, though drawn mildly, will cover the ground and show the council's opinion on the subject. The report may not be correct, if not it won't do the provincial secretary any harm, but if he really made such a statement then he has uttered what is false. He would take much pleasure in supporting the resolution.

The motion was then put and carried unanimously.

The committee then rose and reported progress.

His worship resumed the chair and on motion the report was adopted.

Moved by Coun. Jaques, seconded by Coun. Duncan that copies of this resolution be telegraphed to Sir John Macdonald and the Ottawa *Free Press*, and also that copies of it be mailed to reeves of all municipalities in the district. Carried.

Council then adjourned.

In the Supreme Court.

Before Hon. Mr. Justice McCreight.

Dawson vs. Skewes. This matter coming up on a motion for the discharge of the prisoner, it was held after a long argument that an item of interest amounting to $4:59 would not be supported, as the promise to pay by the defendent had been made without consideration and under a mistaken idea as to his legal liability. The striking out of the amount, reducing the claim to a sum under the lowest amount for which such a writ would be issued, order was made, for the discharge. The order was made without costs His Lordship holding that the circumstanes fully warranted the detention of the defeddant apart from the difficulty as to the amount of claim.

Jenns for Corbould & McColl plaintiff. W. M. Cochrane for W. N. Bole Q. C. for defendant.

The Provincial Secretary's Statement.

Mayor Dickinson received the following despatch by telegraph late last night:

OTTAWA, Oct. 21.—Mr. Robson says report of his reference to Southern Railway in *Free Press* of 8th incorrect.—EDITOR FREE PRESS.

During the past few days a great many foolish stories have been circulated about the streets by persons unfriendly to the provincial secretary for the purpose of showing the motive he had in making the statement attributed to him by the *Free Press*. The above despatch will make it necessary now for these persons to invent some theory to explain why they have foolishly permitted their animosities to run away with their better judgment. There could be only two ways of accounting intelligently for the report of the *Free Press*: Either it was not a correct report, or the provincial secretary had gone crazy. For many reasons, but chiefly for the sake of the Southern Railway scheme, we are glad that the former supposition is likely to turn out the correct one.

Communications.

Dr. Kent's Articles.

EDITOR COLUMBIAN.—At a recent meeting of the Y.M.C.A. of this city Dr. Kent's communication published in your issue of 4th inst. was discussed, and a resolution was carried unanimously to express to you the desire of the association that the publication of Dr. Kent's articles be continued. It was the unanimous expression of the meeting that the objections of the Langley persons to the publication of the articles should have been published, in order that they might have been considered. I was appointed at the meeting to inform you of the above action; and trust that you will decide to publish the articles. Yours, etc.,

A. E. RAND.

Westminster, Oct. 22.

[We may say that the objections from Langley were sent to us in the form of a letter, but we deemed it best not to publish it.—ED.]

Mr. R. A. Harrison, Chemist and Druggist, Dunnville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation—such cases having come under my personal observation."

BIRTH.

COWPER.—In this city, on the 21st inst., the wife of Jesse M. Cowper, of a son.

The experience of years furnishes the most convincing evidence that thousands of lives are annually saved by the use of Ayer's Cherry Pectoral. It speedily cures all affections of the throat, bronchial tubes and lungs.

MARRIED.

FERRIS-FOWLER.—On the 21st inst., at the residence of W. D. Ferris, Richmond, by the Rev. T. G. Thompson, Lillie M., daughter of the late Dr. M. H. Fowler, of San Francisco, to Edward Ferris, son of W. D. Ferris, Esq., J. P., of New Westminster.—No cards.

It is useless to attempt the cure of any disorder, if the blood is allowed to remain impure. Neuralgia and rheumatism are traceable to a disordered condition of the blood, and in numberless cases have been cured by taking a few bottles of Ayer's Sarsaparilla.

Harper's Weekly.

ILLUSTRATED.

HARPER'S WEEKLY maintains its position as the leading illustrated newspaper in America; and its hold upon public esteem and confidence was never stronger than at the present time. Besides the pictures, HARPER'S WEEKLY always contains instalments of one, occasionally of two, of the best novels of the day, finely illustrated, with short stories, poems, sketches, and papers on important current topics by the most popular writers. The care that has been successfully exercised in the past to make HARPER'S WEEKLY a safe as well as a welcome visitor to every household will not be relaxed in the future.
