AUCTION SALES.

Sale of Dr. Kent's Homestead on Crescent Creek Island, together with stock, crops, etc., Thursday, Aug. 11th, at 10 a.m. on the premises. Particulars in advertisement. T. J. TRAPP, auctioneer.

Daily British Columbian.

Wednesday Evening, August 10, 1887.

The average scorpion is mahogganyhued, and about two inches long, but I have seen them as long as five inches. The small, yellowish variety are considered more dangerous and their bite is most apprehended at mid-day. In Durango they are black, and so alarmingly numerous—having been allowed to breed for centuries in the deserted mines—that the Government offers a reward per head (or rather per tail) to whoever will kill them. There sting is seldom fatal, but it is more or less severe, according to the state of the system. Victims have been known to remain for days in convulsions, foaming at the mouth, with stomach swelled as in dropsy, while others do not suffer much more than from a bee sting. The common remedies are brandy, taken in sufficient quantities to stupify the patient, ammonia administered both externally and internally, boiled milk and guaiacum. It is also of use to press a large key or other tube on the wound to force out part of the poison. — *Boston Transcript.*

It was a long time before Friday came, and I began to think that he was going to disregard my summons, and was getting angry, when he suddenly put in an appearance. I explained to him what I wished to know, and without the slightest hesitation he said to the venerable arrow maker: "Tell my brother all about the poisoned arrows." "Well,' said the old man, "first we take a bloated yellow rattlesnake in August, when he is most poisonous, and tie him with a forked stick to a stake; then we tease him until he is in a great rage. This is done by passing a switch over his body from his head to his tail, When he threshes the ground with his body and his eyes grow bright and sparkle like diamonds, we kill a deer, antelope or some other small animal, and tearing out the liver throw it to the snake while it is warm and the blood is still coursing through it. The reptile will strike it again and again, and pretty soon it will turn back. When he tires the snake is teased again, and he is induced to sink his fangs into the soft flesh until all the poison has been extracted from him and the liver is leaking with it. He is then killed, and the liver lifted with a sharp pole, for so dangerous is it no one dares to touch it. The liver is let lie for about an hour, when it will be jet black and emit a sour smell. Arrows are then brought and their iron heads pushed into the liver up to the shaft. They are left sticking there for about an hour and a half, when they are withdrawn and dried in the sun. A thin glistening yellow scum adheres to the arrow, and if it so much as touches raw flesh it is certain to poison to death." I asked if Indians still used poisoned arrows. "No," he replied, "no man, Indian or white man, for years past has been shot with these arrows, anc they ard no longer made."—*Omaha Republican.*

Wire cloth is an article which has but recently been brought into general use. For a long time its high cost excluded its use for almost every purpose, but for articles with at least some claims to being ornamental. The windows and door screens of former days were usually mdae of cotton netting, dyed in fancy colors, and warranted not to last more than a season even with the utmost care. The few wire screens that were used were articles of such luxury that they generally bore a painted landscape or other pictorial representation to indicate more strikingly their aristocratic character. The housekeeper who would have inserted such screens in every window of his dwelling would have been an object of wonder to an entire community for his colossal extravagance. Closely woven wire cloth was then used for a few purposes, principally for seives and cellar-window guards, but the total quantity so used in a year in the entire country was insignificant. Now, however, the wire cloth industry, including the manufacture of large meshed netting, is a very important adjunct of the wire trade, enormous quantities of such goods being made annually in quite a considerable number of factories. The increased use of wire cloth and its gradual reduction in price have gone hand in hand, every recent year seeing more and more dwelling houses furnished with screens for wimdows and doors, not only in mosquito-ridden districts, but in localities whose greatest insect pest is the ordinary house fly. Their general introdnction has also been greatly facilitated by the efforts of ingenious and wide-awake manufacturers to provide the means of making the necessary frames at low cost, and with a minimum of mechanical skill. From all these causes, and not beeause flies and mosquitoes are greater pests than ever before, the present season has witnessed the most active demand for wire cloth ever known.—*Iron Age.*

THE NEWS.

Ex-Premier Gibson Interviewed—Anglo-French Complications—Serious Tunnel Accident—Fisheries Question.

By Associated Press.

WALTER GIBSON INTERVIEWED.

SAN FRANCISCO, Aug. 9.—Walter Murray Gibson, late premier of the Hawaiian government, is still in the city, but says he will return in a short time to Honolulu, despite the opposition of the revolutionary or constitution party to him. Some criticism having been passed upon his statement that the U. S. government would not like the course that affairs had taken in Honolulu. He was asked by an associated press reporter what the attitude of the U. S. government was or its designs were toward the Hawaiian Islands. Gibson said in reply, the American government had been compelled to take cognizance of the fact that the German and English governments have been steadily endeavoring to improve their position on the Pacific. Great Britain was in possession of the Fiji Islands and Germany had her eye upon the Samoan group. "Samoa has," said the aged ex-premier, "two contending sovereigns," Malietoo, undoubtedly the rightful sovereign and recognized as such by the United States, and Tamassesse, a pretender, who is supported by German influence and with guns supplied by German merchants and thereby able to maintain an armed opposition. The contention of these two chieftains has interferred with the business of the country to such an extent that the United States, Great Britain and Germany have so far interfered as to send commissioners to investigate, and their report has resulted in a conference at Washington to decide upon what course is best to pursue. Germany desires to take the harbor, leaving the U. S. and Great Britain each to take one. Mr. Gibson said he believed it to be the policy of the United States to preserve the autonomy of Polynessia and whenever it is possible to promote self-government in the islands. The Hawaiian government had stepped in to afford Samoa settled government. Samoa having proposed an act of confederation with Hawaiia, he believed the United States looked upon this movement with favor, but the revolution at Honolulu had interrupted this diplomatic scheme. Samoa as a consequence, might fall under the German control. Whether the U. S. would seek to prevent this he would not say. He believed the U. S. would stand out firmly against any other foreign control of the Hawaiia than her own, if it came to that, but she really desired the autonomy of all the islands of the Pacific.

COMPLICATIONS BETWEEN BRITAIN AND FRANCE.

PARIS, Aug. 9.—*LeParis* announces that the English government has requested of M. Flourens, minister of foreign affairs, that France name the date of the evacuation by France of the New Hebrides, and that M. Flourens in reply declined to do so until France shall be informed of the nature of England's policy in regard to Egypt and as to the neutralization of the Suez Canal.

LONDON, Aug. 9.—Sir J. Ferguson, parliamentary secretary of foreign affairs, stated in the commons this afternoon that England had never acquiesced to the presence of French troops in the New Hebrides. He added the English government were unwilling to believe that the French occupation of the New Hebrides would long continue and declared that the government would in no wise consent that the withdrawal of the French from the New Hebrides should be postponed until an agreement respecting neutralization of the Suez Canal had been reached.

ACCIDENT AT SISKIYOU TUNNEL.

SISKIYOU, Aug. 9.—An accident occurred at Siskiyou tunnel last night. Seven men were seriously wounded The blast had been fired but all charges did not go off, when the men returned one struck it with a pick when the explosion took place, knocking them off their feet covering them with rock and debris. H. Cole, H. Cox and R. Rammel received the worst injuries. Cole will probably lose an eye.

THE FISHERIES QUESTION.

OTTAWA, Aug. 9.—The *Free Press* to-night heard the following on enquiry at the fisheries department this afternoon. It was ascertained there are grounds for the statements telegraphed from Halifax that some British war vessels will assist in the work of protecting the Gulf and Atlantic coast fisheries from American poachers. Some confidential communications in reference to the matter have been received here from the admiralty authorities. It is understood that her majesty's war ships will not only act as patrols for the purpose of keeping the Americans outside the forbidden waters but will be prepared to make seizures whenever or wherever the opportunity offers. There are three war ships available for service. Admiral Lyons' flag ship Bellerophon, the Canada and the Pylades. These vessels are in Halifax harbor. The present intention, though changed in programme, if possible, is to start out early next week. They will proceed at once to the Gulf of St. Lawrence and reinforce the five Canadian cruisers already there.

OTTAWA, Aug. 9.—Since the vigorous enforcement of the treaty American vessels according to advices to fisheries department, are returning home empty handed, while the Canadian boats are making big catches. The mackerel catch along the American coast has proved a failure.

Condensed Despatches.

The Nickel Plate R. R. has been transferred to the N. Y. C. & St. Louis R. R. for $23,550,000.

Prof. J. S. Baldwin, of Quincy, Ill., jumped from a balloon 3000 ft. high, and landed safely on the ground by the aid of a parachute.

Sir John and Lady Macdonald arrived at St. John, N. B., by the Intercolonial train from Dalhousie last Friday morning, and shortly after left on the Intercolonial line of steamers for St. Andrews' on a visit to Lieut.-Gov. Tilley.

It is understood that the following bills passed at the last session of the Manitoba legislature have been disallowed: The Manitoba Central Railway Act, the Winnipeg and Southern Railway Act and the Emerson and Northwest Railway Act.

The Hon. McLellan, postmaster-general, left last night en route for the Pacific coast to join Sir John Blackwood, secretary of the imperial post office department, who is engaged on a report of the Candian Pacific Railway as a route for the Australian mails to England.

The West Clare railway has been boycotted, owing to the hatred of the Traffic Manager Sullivan. Placards have been posted warning people not to patronize the road until Sullivan is dismissed. Persons who travel by the line, the placards say, will be in danger of being shot.

It is not yet decided whether the Canadian Pacific Railway company's claim against the government in regard to the British Columbia section of the railway will be submitted to arbitration or not. If the matter goes to arbitration, C. C. Gregory, of Nova Scotia, will act on behalf of the government.

The Cat.

A cat is a curius animil. It har fore feat and also fore legs. Its head is at one end of its body and its tale is at the other. When it walks its hed goes before and its tale follows along behind. Its frunt feat walks before and its hine feat walks along behind. If a kan is tide to a cat's tale it will not track when it walks. It is not good for a kat to ti a bunch of firecrakers to its tale eather. It is apt to walk too fast and get heated. A cat's tale is a good handel to pike the cat up by, but it is hard on the kat.. Cats can clime treas. Dogs kant. That is lucky for cats. When a dog gets after them thay kan clime a tree wher thay kan sass back without gitin hert. You kant hit a cat. Wunct I thru a bute at one and i hit a nold ruster. The ole ruster he dide, but the cat didn't.

THE LAWS OF THE MEDES AND PERSIANS were not more immutable than those of nature. If we transgress them we suffer. Sometimes, however, we break them inadvertently. Damages frequently take the form of Dyspepsia, Constipation and Biliousness, which can be easily repaired with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, the Great Blood Purifier and renovator of the system.

At Monte Carlo it is the custom to fill the pockets of suicides with bank notes, so that they did not kill themselves on account of losses. They tried this trick on a presumably dead Irishman a short time ago; but he was not dead at all, and slipped off with the money in the most lively style.

The ancient and famous city of Damascus, which was a place of importance 1,900 years B.C., is busy with plans for laying railroad lines through the streets. Street cars in a city said to have been founded by Abraham would be a startling novelty. The place has 120,000 inhabitants.

Col. Andrews, speaking of the Panama ship railway scheme lately said: "From $50,000,000 to $60,000,000 will put our undertaking through. The great advantage of a railway over a canal is that the railway can be easily repaired. A vessel can be lifted out of the gulf and put into the Pacific in ten or twelve hours."

Herr Krupp, the great German cannon man who died lately, left 1,000,000 marks to his workmen, and his son added 500,000 for the city of Essen.

Holloway's Corn Cure is the medicine to remove all kinds of corns and warts, and only costs the small sum of twenty-five cents.

The Great French Remedy, Dr. Le-Duc's Periodical Pills. These Pills are compounded from the purest drugs, and from those only which are known to act upon the *Generative Organs* in Females. They are first enclosed in an air-tight capsule, and by this means made to retain their full strength for years in any climate. Ask us for private circular. A. M. HERRING & D. S. CURTIS & Co., New Westminster; T. McNeeley, Ladner's Landing; H. McDowell & Co., Vancouver; Pimbury & Co., Nanaimo; T. Pickard, Denman Island; A. R. Johnson & Co., Chemainus; R. B. Richardson Cowichan; W. E. McCartney & Bro., Vancouver and Kamloops; Hastings Saw Mill Co., Vancouver; The Vancouver Drug Co., Vancouver; J. B. Lovell, Yale; W. R. Megaw, Priest Valley; H. Clark & Co., Kamloops; LANGLEY & Co., wholesale agents, Victoria. dwe28y1

Daily British Columbian

Wednesday Evening, August 10, 1887.

Gathering Strength.

The Collingwood *Bulletin* tells us that "thirty farmers' institutes of Ontario have declared for unrestricted reciprocity, and only one against it," and it adds: "This result has been secured without organized attempt to boom the movement, and under the direction of no influence save the manifest interests of the agricultural population." When commercial union was first proposed, it was believed the farmers of eastern Canada would not generally endorse it, but the unanimity of their desire for it is quite remarkable. Farming in Ontario of late years has not been profitable. The cost of working farms is large, while the product is uncertain and the prices are unsteady. It is evident that farmers have come to the conclusion that unrestricted reciprocity would open up larger markets for much of their produce, and enable them to get a larger percentage of profit. As a rule, agricultural implements and many kinds of clothing and groceries would become cheaper under reciprocity, and if in addition to this the market of the United States were thrown open to the producers of Canada, it is thought the effect would be advantageous. The agricultural vote in Canada is very large, and the attitude of the farmers on the question of commercial union is something which political parties cannot afford to treat with indifference.

Bloodthirsty Frenchmen.

Gen. Boulanger's conduct in challenging M. Ferry because the latter severely censured him in a political speech may be considered the correct thing among Paris nabobs, but it does not meet with much sympathy on this continent. The days were when chivalry demanded blood in satisfaction for insult real or supposed, and it is wonderful how the customs of barbarism sometimes cling to the world's history. But surely the practice of duelling is of all customs the most foolish. It cannot heal a man's wound to inflict a wound upon another. Stripped of sentiment, and the coloring of false bravery and fictitious glory, what possible circumstances can justify two men deliberately standing up in cold blood with pistols in their hands endeavoring to take each other's lives! The Boulanger-Ferry duel seems to have hung fire so long that it will probably be abandoned. One or both of the principals will probably be branded by a great many impulsive Frenchmen with the stinging epithet "coward!" But true bravery is more often found opposed to the demands of society than sacrificing itself to fashion. A man may require a great deal of courage to stand up as a target for the bullet of an enemy, but probably it requires more to face the jeers of one's country and submit to be branded as a coward. It comes to this after all, that most men are cowards at heart, and they choose the horn of the dilemma where the demand for true bravery will be least. Gen. Boulanger finds it easier to stand before the pistol of his enemy than to brave the taunts of a deluded mob. He chooses the duel, therefore, because he was too much of a coward to face the other.

Road Work.

In some of the municipalities of this district we notice that tenders are now being asked for important pieces of road work. In some cases these tenders cannot be accepted and the work got under way before September, and then one may begin to look for broken weather and possibly a great deal of rain. We have pointed out over and over again the folly and impolicy of the practice which has so largely prevailed of putting off road work until the best part of the season has passed. The provincial government not long ago yielded so far in this matter as to carry over a portion of the sum appropriated for road work to the following season so that it could be immediately available as early as it was needed in the spring. This policy has enabled the government to take up road work much earlier than heretofore, and the result is certain to be vastly to the interest of the province. But some of the municipalities seem slow to profit by an experience that has been both long and expensive. No one knows better than members of the municipal councils how great a mistake it is to put off road work until after August. A dollar spent in June is worth two dollars spent in September. Besides, road work should be given out at a time when farmers have the best opportunities for undertaking it. If it is left until the time of harvest, the work will be more likely to go into the hands of outsiders, and it will be apt to cost more because there will be fewer tenders. We are in hopes that the evil which we have been combatting for years will soon be a thing of memory only. Common sense must come to be exercised in the arrangement of public works as well as private undertakings, and when that time comes road work will not often be left until September.

EXTENSIVE

AUCTION SALE

—OF—

Live Stock, Farming Implements, Growing Crops of Oats, Wheat, Turnips and Potatoes,

AND THE

Far Famed Homestead of Crescent Creek Island, near Ladner's Landing.

I HAVE RECEIVED INSTRUCTIONS from Dr. Kent, who, on account of the death of his only son, has determined to retire from farming, to sell by Public Auction on

Thursday, 11th August, 1887,

On the Premises, at 10 a. m., the whole of his valuable Homestead, which consists of 377 acres (more or less) of some of the very best land in British Columbia, and which will be offered in lots as follows:

1. 57 acres, with Homestead, which consists of large Barn, Farm Buildings and Dwelling House, 3 acres of Orchard, in which are many choice varieties of apple and other trees. A large portion of this land is thoroughly cleared, fenced and cropped, which, upon inspection, will be found exceptionally rich and fertile, and the crops, which are standing, will speak for themselves.
2. South ¼ Section—160 acres; all bottom land.
3. North ¼ Section—160 acres; all bottom land.

The Crops consist of Oats, Wheat, Turnips and Potatoes—all of which are good and will be sold as they stand.

In Barn—9 tons Oats and a large quantity of new Hay, unbaled.

35 head of Stock, consisting of 1 yoke of Work Oxen, 10 excellent Milch Cows, and a number of Heifers, Steers and Calves.

Also, a number of Farming Implements and 4000 Snakes.

This will be found a good opportunity for any parties who are seeking improved Farms, there being a great scarcity of really good farms in the market.

Terms of Sale—Negotiable notes at 3 months will be accepted for all sums above $50; under that amount, net cash.

T. J. TRAPP,
dwjy28td Auctioneer.

ESTABLISHED 1875.

The West Shore

FREE

For the balance of 1886, including the mammoth holiday number, to all who subscribe now for 1887.

With the January issue THE WEST SHORE will begin its twelfth year. Every number contains original illustrations of scenery, towns and industries in the Pacific Northwest, equaling in excellence the best productions of Eastern magazines. The contributed articles, general literature and stories are entertaining and carefully edited, making the magazine a chaste family visitor. The comments on events of interest to this region and the large amount of information concerning our various resources and the progress of development given in every number render it extremely valuable. No family can afford to do without it, and every one financially interested in the Pacific Northwest or desirous of learning its resources will find it invaluable.

If the subscription price ($2 per year) is sent in now you will be entered for 1887, and the remainder of 1886 will be sent as a premium.

L. SAMUEL,
(ad lib) 122 Front Street, Portland Or.

"I take only one English weekly paper, *The Spectator*, and one Canadian, *The Week*, and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:

A Canadian Journal of Politics, Society and Literature.

PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors in Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

C. BLACKETT ROBINSON,
5 Jordan St., Toronto, Ont.

Sample copies free on application.

THE WEEK is one of the most influential journals in Canada.—Truth, London, England. fc13

Fire! Fire!

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver;
Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; H. F. Keefer, Contractor, C. P. R.; J. W. McFarladd, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., Real Estate Brokers; A. W. Ross, Real Estate Broker; Gravely & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. R. C. P. Mills. je30tc

THE BRITISH COLUMBIAN

Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is enconsistt with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. Address all communications and remittances to

Harper's Weekly.

ILLUSTRATED.

HARPER'S WEEKLY maintains its position as the leading illustrated newspaper in America; and its hold upon public esteem and confidence was never stronger than at the present time. Besides the pictures, HARPER'S WEEKLY always contains instalments of one, occasionally of two, of the best novels of the day, finely illustrated, with short stories, poems, sketches, and papers on important current topics by the most popular writers. The case that has been successfully exercised in the past to make HARPER'S WEEKLY a safe as well as a welcome visitor to every household will not be relaxed in the future.

Harper's Bazar.

ILLUSTRATED.

HARPER'S BAZAR combines the choicest literature and the finest art illustrations with the latest fashions and the most useful family reading. Its stories, poems, and essays are by the best writers, and its humorous sketches are unsurpassed. Its papers on social etiquette, decorative art, house-keeping in all its branches, cookery etc. make it indispensable in every household. Its beautiful fashion-plates and pattern-sheet supplements enable ladies to save many times the cost of subscription by being their own dressmakers. Not a line is admitted to its column that could shock the most fastidious taste.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until *the introduction of the Starr Kidney* Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

NEW ADVERTISEMENTS THIS DAY.

Change of Time ..... H. Abbott
Stage Line ..... Brown Bros.
Municipal Notice ..... J. A. Robinson
Wanted Immediately ..... Reid & Currie

Daily British Columbian

Wednesday Evening, August 10, 1887.

The building society meets to-night.

Streets are being opened up and graded in all parts of the city.

The heavy storm on Sunday destroyed 40,000 moulded brick in Manahan's brick yard.

Ackerman Bros. have almost completed the new lock-up. The police committee are now furnishing it.

Mr. J. Turnbull, who has the contract for Mr. J. A. Webster's building on Front st., began to lay the brick yesterday morning.

The city police last evening arrested a drunk and lodged him in a cell. After being imprisoned for a few hours he was allowed to go free.

Our readers are reminded of the parlor social at the residence of Mr. D. S. Milligan this evening. Refreshments and a suitable programme.

Mr. Jas. Cunningham is clearing a lot on the corner of Provost and Mary sts. Mr. Cunningham intends building a house on the premises.

The atmosphere has again become very smoky. The rain of Sunday failed to quench the forest fires and they are burning as fiercely as ever.

A picked nine of the Royal City baseball club left this city at 1 o'clock to-day to play a match game with the "*Mets.*" of Vancouver on the grounds of the latter club.

From a statement presented to the Vancouver council on Monday night it seems that the expenditures of the corporation for the first six months of this year amounts to $36,240.42.

A mill-hand named Starratt, of the Brunette saw mill, had one of his fingers almost amputated by allowing it to come in collision with a small bench saw which was running at the time.

Work on the Scoullar-Armstrong building has been at a standstill all day. Manahan Bros., who have the contract for supplying the bricks, have exhausted their supply. They expect, however to open a new kiln to-day.

In another column will be found the time card of the stage between this city and Whatcom, in Washington Territory. This stage makes the round trip once a week, and will be found very convenient for persons who have business in that direction.

Consignees per str. William Irving: H. Bros., 33 sacks potatoes; G. Raymond, 20 sacks oats; C. G. Major, 1 box butter; J. R. Elley, 3 hogs; J. Cunningham, 1 box butter; H. Goater, 1 box butter; R. Dickinson, 7 pigs; C. J. Robson, 2 boxes cherries; McIntosh & Murray, 1 keg; H. Samson, 2 boxes butter.

The str. Rainbow arrived last evening about 6 o'clock from Victoria. She brought up a very heavy cargo of freight. She left Victoria at 9 o'clock yesterday, being obliged to postpone her departure from that port two hours on account of delay in transferring a large quantity of fruit from the California steamer on board the Rainbow.

In his issue of this morning the *News* man goes backwards out of the embarrassing position in which his extraordinary circulation claim had placed him. Our offer was made very distinct, and we asked our cotemporary either to accept it or point out wherein it was unfair. He refuses to do either, and thus brings the controversy to an end.

A party of excursionists from Manitobian points are on their way west to to the coast. They are taking advantage of the cheap rates offered by the C. P. R. and will visit all the cities in the province. The party is made up as follows: Judge Killam, wife and children; Mr. and Mrs. D. Sprague; Mr. and Mrs. Gravely; H. E. Sharpe; Jos. Davis; J. L. Wells; J. W. Heric; Thos. Hendry; Jos. Nott, W. P. Johnston, Winnipeg. Mr. and Mrs. Georgeson, Mr. Johnson, Portlage la Prairie. Mr. Flummerfelt, Brandon. Mr. Findlay, Medicine Hat.

PARLOR SOCIAL.— A Parlor Social under the auspices of the Methodist Ladies' Aid will be given at the residence of Mr. D. S. Milligan, Agnesst., on Wednesday evening, Aug. 10th, at 8 o'clock. Refreshments and a suitable programme. Admission, 25 cts.

NO ACTION.—The snag boat Samson still lies idle at this city, and nothing has been done towards placing the buoys in proper position at the mouth of the river. Until some serious disaster occurs we suppose the present condition of inaction will continue to prevail.

GONE HOME.—The Vancouver picnicers who visited the city yesterday, returned to their home about 7 o'clock last night. The excursionists numbered about 100, the greater number belonging that class of folks known as juveniles. They say they spent a very pleasant time in the city, and were much charmed with the pretty private residences and green gardens of the royal city.

NEEDED REPAIRS. — Some steps should be taken by the board of works to have lower Douglas st put in respectable repair. Its present state is very unsatisfactory. The high water has left a mass of rotten timber and debris, which under the scorching rays of the sun, is beginning to putrify and give forth a disagreeable odor. A railing should also be placed along Front st. at this point as there is nothing to prevent any one from falling over into the mud beneath.

THE WILBER CO.—To-morrow night for the first time the citizens of Westminster will have an opportunity of listening to the Wilber Dramatic Co. The company carries its own scenery, and pavilion theatre. The tent will be pitched on the vacant lots on the corner of Mary and Agnes st. Seating capacity for 500 people will be provided. The company numbers 30 people, many of whom are well known upon the stage. The programme for to-morrow night will be Bartley Campbell's "Galley Slave."

U. S. IMMIGRANTS.—The official reports state that during the twelve months ending June 30th, 1887, the number of emigrants who landed in the United States was 484.116. Of these 106,559 came from Germany, 74,020 from England and Wales and 68,130 from Ireland. It now alleged that very many of the emigrants must, from one cause or another, become a burden to the State, although there was probably very little difference on the whole between the emigrants of last yaer and those of any year for the last dozen or twenty years, The number of emigrants in 1886 was 328,896.

A SPORTING MAN?—We have heard some comment about the shooting of two grouse yesterday on the Port Moody road by a prominent Dominion government official, who at present resides at Moody and drives in and out daily. We are inclined to believe that the shooting was done in ignorance of the fact that the open season does not begin until September 1st—at least that is the most charitable view. But for the fact that the said official evidently did not understand the mechanism of breech loading guns, and was thirty-four minutes in ejecting a shell, he doubtless would have killed many more.

CRICKET AND BASE BALL.—In the COLUMBIAN of last night an item appeared stating that a meeting would be held at 7 o'clock to-night, in the office of Mr. J. S. Clute, to consider the formation of a cricket and base ball club on a permanent basis. We hope the meeting will be largely attended, and that the object contemplated may be accomplished. Hitherto this city has been very far behind many other places in the province with respect to such things. One of the chief reasons, we presume, has been the lack of suitable grounds upon which to play. That lack is likely now to be supplied, since it is probable that the park will be set apart by the government, as was originally intended, for the use of the city. Every encouragement ought to be given to such exercises as cricket and base ball. They are "clean" games, and afford excellent recreation to our young men. There is much good material in the city for the formation of such an organization, and it is hoped that the gathering to-night may be a representative meeting.

THE DISALLOWED RAILWAY.—Speaking of the Red Valley Railway, the Winnipeg *Sun* of 7th inst. says: "There has been no interruption in the work of construction, and no further manifestation of an intention to interfere on the part either of the Dominion government or of the Canadian Pacific Railway Company. The work, in fact, has progressed to such an extent, and the province has assumed such obligations, as would seem to indicate that the enterprise cannot now be stopped by any obstruction, and must at all hazards be brought to a practical completion, and in using the latter term we mean not only the laying of the rails and the equipment with rolling stock, but its operation free from any obstruction for the purpose for which it was built. It is not likely, that once the province has built the road, that anything will be attempted to deprive it of practical effect, but should anything of that kind be done the province can at least make things very uncomfortable for the Canadian Pacific company. This it can do by removing the exemption of its property from taxation, and involving an expenditure upon its part estimated at $500,000 per annum. It is perhaps as well to remember that the making of reprisals is a game that more than one can play at."

A new theory of the final description of the earth is that the polar ice is pentrating the interior of the globe like a wedge, and that as soon as it reaches the furnace there will be an explosion that will split the world into pieces too small for truck patches.

The William Irving arrived from Chilliwhack and way ports at 1:30 today.

GOSPEL AND OIL CANS.—Last evening a gentleman who has been for some time engaged in evangelistic work in the United States began preaching on corner of Columbia and McKenzie sts., in front of the Grotto saloon. After he had been speaking a short time an aged woman appeared on the piazza of the saloon beating an oil can with all her might. She was assisted by some boys, and for a time the din was terrible. Some one in the crowd began singing "Hold the Fort," in which a large number joined, and for a time there was a most bewildering mixture of sacred song and profane oil can. The performance on the piazza ceased after awhile, and Rev. E. Robson, of Vancouver, addressed a few words to the crowd collected, which were listened to attentively.

NEW C. P. R. TIME TABLE.—A new time table for the C. P. R. is being prepared, and will go into effect next Sunday. It will be seen from a notice in another column that the new arrangement gives a much fuller train service between this city and Vancouver. A train will leave this city at 8 o'clock, reaching Vancouver at 9:17. Returning, it leaves Vancouver at 11:46, arriving here at 1 o'clock. At 1:26 a train leaves for the junction, connecting there with the train for the east, and returns at 2:30. An afternoon train leaves for Vancouver at 4:30, arriving there at 5:40, leaving again at 6:30, and reaching this city at 7:40. This service, taken in connection with the service of the main line, gives two trains a day from this city to Vancouver, and three trains a day from Vancouver to this city. It will be noticed, too, that the running time between the two cities has been considerably reduced. The new service will give the people of Vancouver an opportunity to visit this city more frequently and get a breath of fresh air, a drink of pure water, and a taste of civilization.

A. Maybee, Merchant, Warkworth., writes: "I have sold some hundreds of bottles of Dr. Thomas' Electric Oil, and it is pronounced by the public 'one of the best medicines they have ever used'; it has done wonders in healing and relieving pain, sore throats, &c., and is worthy of the greatest confidence."

Personal.

J. D. Pemberton, of Victoria, is in the city.

M. J. Roe, agent of the New York life insurance Co., in San Francisco, is in the city.

Wm. Downie, assistant superintendent C.P.R., and D. E. Brown, freight and passenger agent, came in from Vancouver on the afternoon train.

Passengers per str. Rainbow yesterday evening from Victoria: E. B. Wells, J. A. Perkas, Miss M. Vassey, Miss Sutherland, J. Cook, G. T. Dodd, J. Sullivan, H. Brown, 2 Chinamen, and 4 Indians.

N. W. Hoyles, son of Sir Hew Hoyles, the well-known lawyer of Toronto (now residing in Newfoundland) arrived in the city to-day from San Francisco, and will go east on the C. P. R. to-morrow.

John Leckie, of Toronto, returned to the city to-day. Mr. Leckie has visited San Francisco, Portland and Astoria, and took orders for over $50,000 worth of salmon net twine. He remains in this city some days before proceeding east.

Chester Chadsey and wife, of Chilliwhack, left to-day per C. P. R. for Portage la Prairie, Manitoba. A few days ago Mrs. Chadsey received a telegram stating that her sister, who resides near the Portage, was dangerously ill—hence the trip.

W. G. Parmellee, assistant commissioner of customs, and Mrs. Parmelee, arrived in the city from Vancouver yesterday afternoon and left by the C. P. R. for the east to-day. While in the city they were the guests of J. S. Clute, collector of customs.

Mrs. E. H. Perkins, Creek Centre, Warren Co., N. Y., writes: She has been troubled with asthma for four years, had to sit up night after night with it. She has taken two bottles of Dr. Thomas' Eclectric Oil, and is perfectly cured. She strongly recommends it, and wishes to act as agent among her neighbors.

An Intelligent Mule.

Last year, during the heavy rains, when every stream was swollen to its utmost, the writer had occasion to visit one of the swamp plantations lying some miles below Augusta on the Savannah River. Upon this hangs our story. Arriving at a gentleman's place whom we knew we told him we were sorry that the high water would keep us from inspecting his fine swamp timber, having gone there for that purpose. To our supprise he told us that this need not interfere in the least, and that he had on old grey mule that new the swamps better than he or any one else, and that we could ride her, and if trouble came, whether we got lost or water-bound, we must give her the rein and she would bring us home safe; that she could walk a log as good as a dog; that he had on several occasions when these freshets came (his cattle being in the swamps and in great danger of being drowned) sent this mule after them, saying, "June, go bring the cows home." The mule, seeming to understand, would at once start for the swamp. This mule has been known to cross a log when it could not be seen, being two or three feet below the surface. Having done so, she would proceed to herd and collect all the cows. After that she would make a loud bray and start for the house. The cattle would follow in single file across this log to their master's house.—*Augusta (Ga.) Constitution.*

Mr. T. C. Berchard, public school teacher, Norland, writes: "During the fall of 1881 I was much troubled with Biliousness and Dyspepsia, and part of the time was unable to attend to the duties of my profession. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure was recommended to me, and I have much pleasure in stating that I was entirely cured by using one bottle. I have not had an attack of my old complaint since, and have gained fifteen pounds in weight."

DIED

LADNER.—At the residence of her brother-in-law, W. J. Armstrong, Esq., Sheriff, Selina Ladner, second daughter of the late Edward Ladner, Esq., of Trenant Park, Cornwall, England, aged 62 years.

The funeral will take place from the Sheriff's residence, Mary Street, on Thursday, the 11th inst., at 3 p. m.

The fee of Dr. McKenzie, the specialist, for examining the throat of the Crown Prince of Germany was 2,500 guineas, and that for the subsequent treatment he will receive as much more, making the total fees about $25,000.

There is nothing equal to Mother Graves' Worm Exterminator for destroying worms. No article of its kind has given such sotisfaction.

ST. PAUL'S CHURCH. Services every Sunday at 11 A. M. and 7 P. M. in the Church, St. John street, below Royal avenue. Seats free, all are cordially invited. Sunday School at 2.30 P. M. (fe28tc)

ESTABLISHED 1875.

The West Shore FREE

For the balance of 1888, including the mammoth holiday number, to all who *subscribe now for 1887.*

With the January issue THE WEST SHORE will begin its twelfth year. Every number contains original illustrations of scenery, towns and industries in the Pacific Northwest, equaling in excellence the best productions of Eastern magazines. The contributed articles, general literature and stories are entertaining and carefully edited, making the magazine a chaste family visitor. The comments on events of interest to this region and the large amount of information concerning our various resources and the progress of development given in every number render it extremely valuable. No family can afford to do without it, and every one financially interested in the Pacific Northwest or desirous of learning its resources will find it invaluable.

If the subscription price ($2 per year) is sent in now you will be entered for 1887, and the remainder of 1886 will be sent as a premium.

L. SAMUEL,
