DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., TUESDAY EVENING, AUGUST 17, 1886. — NUMBER 15

Daily British Columbian

Tuesday Evening, August 17, 1886.

The New York *Times* says that the str. Yosemite, lately purchased in the United States to be used as a fishing cruiser, orginally cost $140,000. She is sound, and swift, and splendidly fitted up, but she is very expensive to run. The government is considered very fortunate in securing her for the very modest sum of $50,000, but the *Times* conjectures that it may be found a somewhat costly possession after all.

Dr. McEachran, managing director of the Walrond Cattle Ranche Company, says that the Canadian Northwest ranches are prospering splendidly, while those in Montana, Texas, and other parts of the United States are suffering from drought. This shows how bad was the example and advice of Mr. Ives, the unpatriotic Tory member for Richmond and Wolfe, who invested his money in a Texas cattle ranche, and issued circulars advising all the other members of the house of commons to do likewise.—*Ottawa Free Press.*

People in England never fully appreciate the sentiment of the colonies towards the Queen. Not only is she obeyed and respected for her own surpassing inherent qualities of heart and mind, but she is the recognized tie which unites us to the mother country. We view with comparative indifference the struggle of parties, we care little for the house of commons; but to the Queen we look as embodying our connection with the empire. Under her command the armies and navies of Britain go to battle; in her name all treaties with foreign powers are concluded; from her hands we seek distinction and reward for meritorious service to our country. She is the fountain of justice and mercy, and at the foot of the throne we confidently repose our petitions for redress of grievance or wrong. Make England a republic to-morrow, and the main binding tie of the empire would be severed, and every colonial legislature would consider itself the equal of the congress that might assemble at Westminster.—*Sir A. T. Galt.*

For ages the relative values of gold and silver remained almost unchanged. The great discoveries of gold in California and Australia did not seem to affect the relation much. Mexican dollars and British shillings and the silver coins of other nations remained of the same weight and fineness as before, and were everywhere received as worth their face value. But for some years past the production of gold has diminished and the production of silver has increased. The demonetization of silver in some countries has lessened the demand for that metal. The price of silver, which some time ago was 60¾ pence sterling per ounce, has continued to fall until it has come down to 42 pence. The owners of silver mines in the United States, appealing to the protectionist principles of congress, succeeded in getting an act passed making the silver dollar of old weight and fineness, a legal tender, and requiring the United States government to coin a certain amount of silver every month, whether the coin went into circulation or not. The market value of the silver in one of the dollars is now scarcely 80 cents. The public did not care to accept such coins in payment when it could be avoided. Sales and contracts on a large scale are made on such terms as require payment in gold, and about 250 million dollars of this coinage has accumulated in the United States treasury, against which, however, there are some 80 millions of silver certificates in circulation. It has been proposed at conferences held in Europe, to substitute a bi-metallic for a gold standard, but the difficulties in the way seemed insuperable. A large party in the United States contend that the depression in business is due entirely to the appreciation of gold, and insist that as a means of putting an end to it and getting rid of many difficulties silver should be made the standard, and all obligations, public and private, should be made payable in silver dollars of the present weight and fineness. This, some argue, would be repudiation. At present a great part of the customs and excise duties are paid in silver. The amount of coin in the treasury increases so fast that some solution of the difficulty must soon be found. One reason why the price of wheat has been so low for some time is that silver coin is still received in India as if it were fully worth its nominal price.—*Toronto Globe.*

New Life Applications, $2,008,071.48; Increase, $707,229.30.
Life Policies in force, $7,930,878.77; Increase, $1,086,474.73.
ACCIDENT DEPARTMENT.
By introducing its popular Unconditional Life Policy the Sun showed itself one of the most liberal institutions of its kind in the world. It maintains this reputation by following the same course in its Accident Department. It offers to the public incomparably
The Most Liberal, Straightforward, Untechnical Accident Policy in Existence.
The following are a few of the points of superiority:
FIFTEEN DAYS OF GRACE are allowed. (See condition 1). No other Company in America allows one hour.
BONUS—Should no claim be made for five years, the sixth year's assurance will be allowed free of charge, if the age is under 65. (See condition 2). Very few other Companies give this privilege.
POLICIES NOT VOIDED by engaging in a more hazardous occupation than that assured against. For particulars see Policy. This advantage can be obtained hardly anywhere else.
RESIDENCE—More liberal conditions than given by any other Company in America.

Daily British Columbian

Tuesday Evening, August 17, 1886.

The False Creek Bridge.

The C. P. R. company have commenced work on a Howe truss bridge 80 feet span without a draw which they propose to construct across False Creek, Burrard Inlet. This stream is a navigable sheet of water, and situated on it above the site of the proposed bridge are two large sawmills owned by the Royal City Planing Mills Company and Messrs. Leamy & Co. of this city. It is claimed by these and other property holders there that the company, in building a bridge without a draw, are impeding navigation, and, consequently, interfering with trade and commerce, which under British law they can have no authority for doing. Mr. Abbott, it is said, on being interviewed in regard to the matter, replied that the company could not entertain the idea of constructing a draw bridge between its work shops and passenger station. A resolution affecting this matter, it will be remembered, was passed by the local legislature last session. The resolution asked the government to withhold its sanction from any measure which would have the effect of interfering with navigation on this stream. Subsequently, however, a bill was passed through the commons granting to the railway company the privilege of building the bridge, but whether on the condition that they should build a draw or not we are not in a position to state. Very probably no such condition was incorporated into the measure. It is not known what course will be adopted by those who are opposed to the work, and they are many, but there seems to be a prospect of trouble unless the company's plans are changed. We believe Messrs. Leamy & Co. are contractors for the bridge work.

The Men of Gotham.

It may be doubted if ever a city government exceeded that of New York in corruption. The ghosts of Tweed and Sweeny, whose gigantic frauds were exposed in 1871, and who, fortunately, were made to suffer for their villainy, seem still to haunt the official sanctums of the city. It was hoped that the breaking up of the Tweed ring would release New York from further ring rule, but this hope was futile. Tammany Hall held too firm a grip to be shaken off, and its wealth and profits were too large to be abandoned without a struggle. Although the power of the ring was weakened, and men became alive to the danger of permitting this machine government to continue and absorb the life of the city, it has frequently asserted itself and reached out for the old sway under which the spoils of office were its own. Under the present Democratic administration there are signs of life among the Tammany crowd. Although President Cleveland has an honorable record, and is personally and officially opposed to the spoils systems, he has not the sympathy of his party, and the work of reform hangs fire. New York corruptionists have been throwing off some of the disguises made necessary by the growth of a healthy public sentiment, and there is danger that their boldness may paralyze, by its show of authority, those who would otherwise feel themselves strong enough to resist it. A few days ago a new piece of villainy was unearthed which caused a profound sensation. On the death of H. O. Thompson, who was a Democratic leader, a letter which he held in possession came to light through the press. This letter was addressed to Maurice B. Flynn by R. M. Squire, who was at the head of the public works department in the city. Squire writes: "In consideration of your securing not less than four county Democracy aldermen who shall vote for my confirmation as commissioner of public works, I hereby agree to place my resignation as commissioner, in case of confirmation, in your hands whenever you may demand the same, and to make no appointments to said office without your approval, and to make such removals therein as you suggest, and to transact the business of said office as you may direct." One could hardly imagine a more striking case than this of a man selling himself body and sleeves to the devil. In his official position Squire controlled a considerable amount of patronage; and for the sake of maintaining that position and the emoluments belonging to it, he deliberately sells himself and his office to an unscrupulous political scoundrel! It is gratifying to know that on the appearance of this shameful letter the grand jury indicted both the person who wrote it and him to whom it was addressed.

To lessen mortality and stop the inroads of disease, use Northrop & Lyman's Vegetable Discovery & Dyspeptic Cure. For all diseases arising from Impure Blood, such as Pimples, Blotches, Biliousness, Indigestion, etc., etc., it has no equal. Mrs. Thomas Smith, Elm, writes: "I am using this medicine for Dyspepsia. I have tried many remedies, but this is the only one that has done me any good."

AYER'S Hair Vigor cures baldness. Hair Vigor restores youthful freshness and color to faded and gray hair. It attains these results by the stimulation of the hair roots and color glands. It rejuvenates the HAIR and cleanses it. It restores to the HAIR that, either by reason of age or diseases of the scalp, has become dry, harsh and brittle, a pliancy and glossy silken softness of extreme beauty. There is no dye in Ayer's Hair VIGOR and the good it does is by the it imparts to the follicles, and the cleanliness and healthfulness of the condition in which it maintains the scalp.

AYER'S Hair Vigor renews the hair. Hair Vigor is the best cure known for Brashy Hair, Scald Head, Itching Humors, Tetter Sores, Torpid Follicles, and all other diseases of the scalp that cause the falling of the HAIR and its fading. Nothing cleanses of the nuisance of dandruff so perfectly, and so effectually prevents its return, as AYER'S HAIR VIGOR. In addition to the curative and restorative virtues peculiar to Ayer's Hair VIGOR it is a toilet luxury. The Hair is by far the cleanliest hair-dressing made. It causes the hair to grow thick and long, and keeps it always soft and glossy.

Ayer's Hair Vigor

Contains no deleterious ingredients. Its use prevents all scalp disease, secures against the hair growing thin or gray, and surely cures all baldness that is not organic.

"I take only one English weekly paper, The Spectator, and one Canadian, The Week, and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:

A Canadian Journal of Politics, Society and Literature.

PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

Excellent brick is manufactured at Calgary. The color is a cream and the price $13 a thousand.

Mr. C, H. Webb, an auctioneer and appraiser of extensive experience, announces that he is prepared for business.

Proceedings at the police court this morning were confined to one case of assault, in which the charge was withdrawn.

Mr. C. L. Hanson, of Brandon, Manitoba, is in town, buying up all the fruit he can get for the Northwest market.

Accounts from Granite Creek are not encouraging. There is doubtless much gold in that region, but it is very difficult to find.

The Omaha *World* predicts that it will be a splendid courting season this year in Iowa because the onion crop is 100,000 bushels short.

Following the example of the New York *World*, the Ottawa *Free Press* has opened a subscription list for the proposed memorial to Mr. Gladstone.

The wires went down south of the boundary to-day, and we have no afternoon despatches. Last night's despatches will be found on the fourth page.

The Winnipeg *Sun* intimates that Goldwin Smith may become a candidate for one of the north-west constituencies. In politics he will be independent.

An investigation is being held by Capt. Lewis and Mr. D. C. Nicholles respecting the cause of the recent fatal explosion on board the steamship Queen of the Pacific.

Another defaulting cashier has recently crossed the border into Montreal. The people down there are beginning to think about having a three mile limit for these gentry.

If it turns out that olemargarine is explosive it will account for a lot of domestic explosions where it has been used as "pure creamery," and heretofore unexplained by scientists.

In addition to our new stock of spring goods we have opened an invoice of Diagonals, West of England Broadcloths and French Cassimeres. Walsh the Model Tailor. HERBERT WALSH, Manager. ap21tc

San Francisco has a population of Chinese numbering 30,000. Among these are 1,000 women. There is a general feeling in that city that they have all they desire from the Celestial Empire.

Lady Macdonal was very much pleased with the old government house grounds, &c., and thought it a great pity the stately old building had not been kept in better repair. In this opinion we entirely concur.

It will be observed from our advertising columns that another sale of city squares is to be held on the 4th of September. The property to be offered on this occasion embraces some new lots not yet put on the market.

A despatch from Owen Sound, Ont., says: "A committee has been appointed by the local Conservatives to arrange for a reception to Sir John Macdonald on his return from the Northwest. He is to take the boat at Prince Arthur.

The Rithet brought down 23 tons of eastern freight for this city from Port Hammond last evening consigned to C. M. Beecher; Royal City Planing Mills; H. Bros.; and C. Todd. She had also a small quantity on board for Victoria.

For its soothing and grateful influence on the scalp, and for the removal and prevention of dandruff, Ayer's Hair Vigor has no equal. It restores faded or gray hair to its original dark color, stimulates the growth of the hair, and gives it a beautiful, soft, glossy and silken appearance.

The Daily British Columbian of New Westminster is a new venture in the field of journalism. It is the first daily newspaper published in the town of New Westminster, in population and importance the second place in the province. It receives the evening telegraphic press report, and is a well printed, readable sheet.—*Seattle Post-Intelligencer.*

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite, and rejuvenate their whole system. No other preparation so well meets this want. It touches the exact spot. Its record of forty years is one of constant triumph over disease.

The withdrawal of Mr. Beecher's name for collector throws the office open to contest. Under the civil service rules, democrats are not supposed to make that office a political center, but the democrats will probably ignore the reform president's proclamation and follow their republican predecessors in keeping a politician there.—*Whatcom Reveille.*

The Philadelphia *Times* publishes a statement about the sale and profits of Gen. Grant's great book. There have been sold 600,000 copies, for $2,250,000. The cost of making and selling these books has been $1,350,000, leaving a balance of $900,000, of which Mrs. Grant gets $630,000. It is estimated that 100,000 more books will be sold, which will bring Mrs. Grant's whole receipts from this source up to $840,000—a very handsome legacy *from her bankrupt husband.*

Mrs. O'Hearn, River street, Toronto, uses Dr. Thomas' Eclectric Oil for her cows for Cracked and Sore Teats; she thinks there is nothing like it. She also used it when her horses had the Epizootic with the very best results. Do not be persuaded to take any other oil in place of Dr. Thomas' Eclectric Oil.

THE INJUNCTIONS.—A telegram from Victoria this afternoon states that no judgment was given to-day in the C. P. R. injunction cases, but it is expected judgment will be given tomorrow.

BRANCH RAILWAY.—Track-laying on the branch railway is for some reason or other being carried forward very slowly, but it is thought the iron even at the present rate will reach Brunette bridge by Saturday evening.

TEMPERANCE WORK.—Mrs. Youmans has been indisposed for the past few days, but we are glad to learn that she is now well enough to resume work. She left this afternoon for Vancouver where she will deliver one or more lectures. It has been arranged that she will speak at the Drill Shed in this city next Sunday night.

AFTER THE ORGAN.—At the council last night Councillors Lord and Elliott denounced in very strong language the libelous attacks which have lately been made upon them and other councillors by the *Guardian* in connection with corporation work. Any one who has read the organ's attacks need not wonder at the vigorous language in which these gentlemen repelled the libels.

WEDDING BELLS.—Mr. T. J. Trapp, one of our city merchants, went over to the majority to-day. The affair took place at Port Moody this forenoon, and the lady was Miss Nellie K. Dockrill, of that place. The happy pair left on the east-bound train at 13 o'clock for Ottawa and other eastern cities, where the honeymoon will be spent. The COLUMBIAN offers congratulations.

SIR JOHN AT THE PENITENTIARY.—On Saturday morning, on the invitation of the warden, Mr. A. H. McBride, Sir John and Lady Macdonald, accompanied by Mayor Dickinson and Mr. W. Norman Bole, M. P. P., paid a visit to the penitentiary. The party went through the building and drove over the grounds, and expressed very great pleasure at the perfect order and neatness everywhere.

HARRISON HOT SPRINGS.—The following is a list of passengers by str. Gladys, Capt. A. Insley, for Harrison Hot Springs on the 14th inst.: Gibson, D. Vane, Greyell, Ryder, McAskill, W. Gooderham, T. Coyle, D. Millar, G. Inch, Schuberh, Maguire, Lithaw, McTavish, Jno. Dunlap, Monk, Brown, Logan, Phillips, T. Armstrong, Webster, Darcey, Jno. Fitch, Sinclair, J. Armstrong and wife, Miss Rodgers, Mrs. Boultie, P. H. Candill, and several others. A number of the above remained at the Springs to recruit their health.

SAPPERTON'S DECORATIONS.—In noticing the decorations in honor of Sir John and Lady Macdonald, we should have mentioned that a beautiful arch was erected over the entrance to the government house grounds, and also over the main entrance to the penitentiary grounds. The telephone poles from the penitentiary gate to the building were also decorated with flags. The mottoes on the penitentiary arch were "Hail to the Chief," and "A Thousand Welcomes!" The arches were illuminated on Friday night, but as in the case of the Columbia st. arch, the lights had nearly exhausted themselves before Sir John and Lady Macdonald arrived.

CHILLIWHACK GOOD TEMPLARS.—The following officers were installed in Peerless Lodge No. 11, I. O. G. T., on Monday evening, Aug. 9th: W.C.T., Bro. M. McSweene; W.V.T., Sis. S. McConnel; W.C., Bro. C. Bryant, W.S., Bro. J. Patterson; W.A.S., Bro. E. A. Wells; W.F.S., Bro. C. Stevens; W.T., Bro. J. A. Campbell; W.R.H.S., Sis. J. Campbell; W.L.H.S., Sis. J. Hooper; W.O.G., Bro. J. Chase; W.I.G., Bro. Cruishanks; W.M., Bro. H. Ashwell; W.D.M., Sis. M. McKeever; P.W.C.T., Bro. J. Hooper. The installation was open to the public, and during the evening Mrs. Youmans favored the audience with a very pleasing address. The above lodge has only been two months in operation, and the membership numbers about seventy.

Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator is a pleasant and safe cure. If you love your child why do you let it suffer when a remedy is so near at hand?

A new map of British Columbia just issued by the government, for sale at T. R. Pearson & Co's. The best map ever issued; $2.25.—*Adv.*

"GRIP'S" GREAT SUPPLEMENT.—With its Midsummer Number, our facetious contemporary, *Grip*, has issued a magnificent supplement, in the form of a lithograph plate, 18x24 inches, a group of Conservative leaders in Canada. The picture is as fine as a photograph, and is well worth framing. It is one of the best things of this kind ever attempted in Canada; and not only all Conservatives, but those on the other side, will doubtless like to secure it. The price, together with *Midsummer Grip*, is only 25 cents, and it will be forwarded to anyone enclosing that amount to the Company at Toronto. In this connection we may state that the success of the enlargement of *Grip* (now 16 pages) has led the Company to reduce the price of Canada's Comic Weekly to $2. New subscribers sending $1 (together with 5 cents for tube and postage of plate), will get the paper for the last six months of this year, to Dec. 31, and have the Midsummer Number and its fine Supplement Plate thrown in.

CHINESE STABBING CASE.—Mr. C. McMillan, an old hand upon the C. P. R., has recently been in charge of a China gang near Shuswap Lake. Lately a dispute came up between the China bookman and Mr. McMillan, respecting the time kept, the latter refusing to allow the time claimed to go to dinner, the camp being distant and the boss wanting the men to bring their dinner. The bookman, taking the side of the Chinamen, grew angry with Mr. McMillan. Some of the men were willing to do as requested, but others refused. Some time after the bookman followed Mr. McMillan to the store of Chase & Co. and wanted to fight. Mr. McMillan gave the bookman, as we learn, a shove and ordered him away. At this the bookman used a knife he had and stabbed McMillan three times in the right thigh. Mr. McMillan is in town, and recovering. Officer Smith was sent for and arrested the bookman, and he was brought before Messrs. Edwards and Jones, J. P.'s, to-day and committed for trial at next criminal court. Mr. McM. has returned to Shuswap.—*Kamloops Sentinel.*

A STRANGE PROCEEDING.—On the 9th inst. we copied from the *News* a statement of the proceedings taken in the Vancouver police court in connection with the case which caused so much confliction of authority between the two cities. It will be remembered that a man named Hay was taken into custody by a constable sent from this city with a warrant issued by Capt. Pittendrigh. He applied for bail, and Mayor MacLean, of Vancouver, admitted him to bail and appointed a day to hear the case. Capt. Pittendrigh received no intimation of bail having been accepted or of a time having been appointed for the hearing. On the day appointed, the report says, "the court remained sitting until 12 o'clock in order to give Capt. Pittendrigh an opportunity to appear in his official capacity." But as no one appeared the prisoner was discharged. Now, this is a rather singular action, and certainly not very fair or courteous to our magistrate. Capt. Pittendrigh, as we have said already, knew nothing about the proceedings, and first heard that bail had been taken and the man discharged from reading the item in this paper.

SURVIVAL OF THE FITTEST.—For some time past the question of purity in baking powders has formed quite a feature of newspaper discussions, and eminent doctors of philosophy have given opinions as to the ingredients which compose many of the articles sold under that name. The investigations have narrowed down to the limit which awards the Royal Baking Powder the palm of purity, and several of the most distinguished scientists have testified to their conviction that no extraneous or deleterious matter enters into its composition. The Royal Baking Powder Company have achieved a world-wide reputation for the success which has marked their preparation of cream of tartar for baking purposes. It is indisputably shown that they have eliminated all elements of tartrate of lime, alum or other impurities, and present to the public a healthful and chemically pure article. Such widely known chemists as Henry Morton, E. G. Love, H. A. Mott, Wm. McMurtrie and others have verified its superiority over other manufactures, and testified, through practical experience, to its excellence. It is well for families to observe the fact that it costs more to manufacture the Royal Baking Powder than any other, but it is, as shown by chemical analysis, the one "absolutely pure" baking powder made. *

Personal.

Mr. Joseph Goldstone has gone away for a visit to his friends.

Mr. Jno. Petch, M. A., left for Victoria to-day, via Vancouver.

Alderman Moore, of Toronto, who accompanied Dr. Sutherland to the province last year, arrived in town to-day.

J. J. Withroy, Esq., president of the Toronto Agricultural Association, and W. Matthews, Esq., a prominent grain merchant, are in the city.

Registered at the Colonial to-day, Jno. Withrow, Toronto; W. D. Matthews, Toronto; Capt. R. E. Green, Victoria; M. Jaynes, Victoria; F. J. Hunter, Regina.

City Council.

The regular meeting of the city council was held last evening, his worship mayor Dickinson in the chair. Present, Coms. Bonson, Lord, Douglas, Shiles, and Elliott.

COMMUNICATIONS

were read as follows:

From Joe, an Indian, applying for refund of a fine of $3.50 inflicted in the police court. Laid over.

From Mrs. Wise, applying for removal of a stump on Royal Avenue which interfered with opening of a gate. Referred to board of works.

From W. R. Thompson, submitting prices, for gas lamp pillars weighing 300 lbs., $15; lanterns, glass, &c., $8.50 Mr. Thompson to be instructed that contract for above is made.

Bills amounting to $11.50 were disposed of in the usual manner.

Coun. Bonson reported in the matter of Capt. Peele's bill of $56 for books supplied library that the amount was due by the old library board. Report received.

His worship reported that in the opinion of the city barristers it was desirable to put Merchants' Square on the list of lots for next sale in order to facilitate a settlement of right of way with Messrs. Blackie and Edmonds. Coun. Bonson moved, seconded by Coun. Douglas, that all reserves be offered for sale. An amendment, moved by Coun. Elliott and seconded by Coun. Shiles, to the effect that all unsold lots except Merchant and Lytton Squares be offered for sale. Amendment carried.

Coun. Lord, to a question of privilege, deprecated certain comments made in the *Guardian* respecting members of the council.

Formal resolutions respecting the sale of lots in blocks A, B, P, E, F, H, K were carried; also that notice of the sales of same be published in the COLUMBIAN and *Times*, sale to take place Sept. 4th.

THE TRUE PHILOSOPHY OF MEDICATION is not to dose for symptoms but to root out disease. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, the Great Blood Purifier, has proved itself equal to the task. It is a most searching without being a violent remedy for Constipation, Biliousness, and Indigestion. It is as well adapted to the needs and physical temperaments of delicate females as to the more robust sex, and is a preventive of disease as well as a remedy for it.

Annual Rifle Meeting.

The thirteenth annual rifle prize meeting of the B. C. Rifle association opened at the Brownsville range, opposite this, at 9 o'clock this morning. Over twenty competitors from Victoria and ten or twelve from this city took part in the shooting, which may be called fair. Wind was good but the light was at times deceiving. All arrangements were good and to the satisfaction of the competitors.

OPENING MATCH.

Open to members of the association. Range, 200 yards; seven rounds; snider rifle, government issue. Entrance 50 cents.

Third match in progress at time of going to press.

From Pole to Pole

AYER'S SARSAPARILLA has demonstrated its power of cure for all diseases of the blood.

The Harpooner's Story.

New Bedford, June 1, 1883.

DR. J. C. AYER & CO.—Twenty years ago I was a harpooner in the North Pacific, when five others of the crew and myself were laid up with scurvy. Our bodies were bloated, gums swollen and bleeding, teeth loose, purple blotches all over us, and our breath seemed rotten. Take it by and large we were pretty badly off. All our lime-juice was accidentally destroyed, but the captain had a couple dozen bottles of AYER'S SARSAPARILLA and gave us that. We recovered on it quicker than I have ever seen men brought about by any other treatment for Scurvy, and I've seen a good deal of it. Seeing no mention in your Almanac of your Sarsaparilla being good for scurvy, I thought you ought to know of this, and so send you the facts.

Respectfully yours, RALPH Y. WINGATE.

The Trooper's Experience.

Masven, Basutoland (S. Africa,) March 7, 1883.

DR. J. C. AYER & CO.—Gentlemen: I have much pleasure to testify to the great value of your Sarsaparilla. We have been stationed here for over two years, during which time we had to live in tents. Being under canvas for such a time brought on what is called in this country "veldt-sores." I had those sores for some time. I was advised to take your Sarsaparilla, two bottles of which made my sores disappear rapidly, and I am now quite well.

Yours truly, T. K. BODEN,
Trooper, Cape Mounted Riflemen.

Ayer's Sarsaparilla

Is the only thoroughly effective blood-purifier, the only medicine that eradicates the poisons of Scrofula, Mercury, and Contagious Disease from the system.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists: Price $1; Six bottles for $5.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

A full line of Canadian Hymnals just received at T. R. Pearson & Co.'s oc17tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being non-corrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

There are a number of varieties of corns. Holloway's Corn Cure will remove any of them. Call on your druggist and get a bottle at once.

(*Mainland Guardian copy.*)

1873. **GRIP!** 1886.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1886.

THE AIM OF "GRIP" is to set forth, in in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so aristically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $3 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

Humor without Vulgarity;
Patriotism without Partizanship;
Truth without Temper.

Only $3 a Year, Postage Free.

Address the Grip Printing and Publishing Company, 20 and 28 Front Street, West, Toronto; or leave your order with your bookseller or other local agent. fe14

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

NEW YORK, Aug. 16.—The striking cigar makers returned to work to-day; the strippers, of whom there are nearly 500, also returned to their shops to-day; the butchers will go back to-morrow, and the rollers on Wednesday.

LONDON, Aug. 16.—The successor of the Marquis Tsing, Chinese ambassador, will be M. Lionifier, who will also be accredited to the Vatican.

DUBLIN, Aug. 16.—At Dungannon to-day bands of nationalists paraded the Protestant quarter of the town, shouting for home rule and cursing the queen. A riot broke out, and several persons were injured. The police had to force their way between Protestants and Catholics, thus preventing desperate fighting. One nationalist was arrested with a knife in his hand.

HAVANA, Aug. 16.— Sixty-eight cigar factories, working Partide tobacco, have been closed, and 6,000 workmen have struck for higher wages. The strike threatens to extend to Vuelto Abajo. The factories have united to resist the demands of the workingmen.

CHICAGO, Aug. 16.—All eastern wires on the Cincinnati and Pittsburg route are demoralized by storms. The Pittsburg telegraph office has been burned out by lightning. Communication with the east is entirely lost. A very heavy storm is now raging in Cincinnati.

DENVER, Aug. 16.—An Aspen, Col., special to the *News* says: A double assassination was committed near this place yesterday evening, of the most cold-blooded character. From what can be learned it appears that Dan Fenton had jumped the ranch of Harry Burrows 13 miles from here, and employed Michael Ryan to work for him. Yesterday morning they began cutting hay. Burrows warned the men not to cu tthe hay, as he would not permit them to finish the work. Fenton laughed at Burrows, who turned and went away. In about half an hour Fenton and Ryan, who had continued work, were shot in the back, the former through the spine and abdomen. The shooting was done from ambush, with Winchester rifles. The men lived six hours, and before dying made an ante-mortem statement claiming that Burrows and Doc White did the killing. White was arrested. At last accounts Burrows was at large, with vigilantes in pursuit who will probably lynch him if they succeed in effecting his capture.

BELFAST, Aug. 16.—Occasional shots were fired throughout the day and evening. The men from Queen's Island while marching home sang "No Home Rule for Ireland," a parody on "God Save Ireland." This maddened the Catholics. The military in charging the mob last evening bayonetted Magistrate Burke, who was assisting the wounded rioters. Burke was in plain clothes, and consequently was taken to the hospital.

LONDON, Aug. 16.—The report of the marriage of Mme. Nilsson is denied.

A fire in the theatre at Viena, Russia, caused a panic in which many persons were injured.

LONDON, Aug. 16.—Gen. Booth, of the Salvation Army, leaves for America in October.

LONDON, Aug. 16.—The cabinet has decided to recall the Afghan frontier commission at the earliest date possible, whether the deliberation be finished or not. The *Standard*, referring to this decision, says it "will cause unqualified satisfaction in both England and India. The truth is we are weary of attempts to arrive at a clear understanding of the boundary by negotiating with Russia.

SAN FRANCISCO, Aug. 16.—The project to run a fast transcontinental passenger train to cover the distance between San Francisco and Chicago in four days has been abandoned owing to the refusal of the Chicago, Milwaukee and St. Paul road to enter into this arrangement. The latter road is part of the Iowa pool, and could not get the consent of its associated roads to enter this new combination.

Bayard on the Fisheries.

BALTIMORE, Aug. 9,—In his speech last night, Secretary Bayard, after referring to the Cutting case, adverted to the position taken by the government on the fisheries question. He said that as a matter of fact the State Department occupied more advanced ground in this matter than that taken by Webster, Abbott, Lawrence, and Edward Everell, all of Massachusetts, over thirty years ago, in bringing about the Treaty of 1854. Under that treaty Canadians and New Englanders enjoyed reciprocity in fishing. But New Englanders, becoming tired of Canadian competition, shut the Canadians out of their markets, and then thought it very odd that Canadians would not permit them to fish within the three-mile limit. The State department is now endeavoring to obtain the privileges asked for by the New Englanders, notwithstanding the latter will make no concessions, and Secretary Bayard thinks a fair construction of the treaty of 1848 will give them the right to purchase bait, which is one of the chief points in the controversy. Notwithstanding the obstacles put in way by Congress, the Department is working vigorously to secure this concession, and with a fair prospect of success, although the British Foreign Office is greatly hampered by the right of Canada to impose such restrictions upon American fishermen as she may see fit. In both fisheries and Mexican affairs the State Department has acted with great promptness and vigor.

Thomas Myers, Bracebridge, writes: "Dr. Thomas' Eclectric Oil is the best medicine I sell. It always gives satisfaction, and in cases of coughs, colds, sore throat, etc., immediate relief has been received by those who use it."

The Keely Motor Again.

Philadelphia Sunday Times.

John Worrell Keely, the motor man, gave an exhibition yesterday afternoon in his workshop, at 1422 North Twentieth street, of his big engine, which has just been completed after a year of experiments. Inventor Keely has been giving mysterious entertainments to capitalists, scientists and others for the past dozen or fifteen years, but none of the former exhibitions were so mysterious or so wonderful as the scientific reception of yesterday. Mr. Keely used all the terms known to science and a little scientific vocabulary of his own in explaining to his audience of thirty, how the thing was done. The audience, like former audiences, nodded their heads in approval and looked wise and as usual knew just as much about Keely's secret when the show was over as they did before it began. Mr. Keely told those present that it was the first trial of his new and biggest engine, and that he was just experimenting and didn't know whether the engine would run or not. As he wiped the trickling perspiration from his face he added that his brain was all confused, but he guessed everything would go all right, as he had a chord of a mass and had secured introductory impulse.

The scientists and capitalists looked at each other helplessly and then smiled at Mr. Keely, and a number said in chorus: "Oh, yes, certainly."

Inventor Keely has heretofore given his exhibitions with small machines, and the funny-looking copper globe forty-eight inches in diameter filled with "resonators," which he used yesterday, is about three times larger than any machine he has ever used. He said that he could produce 250 horse power with what looked more like a washing machine than anything else. A hum of wonderment ran through the little workshop and then Mr. Keely put rosin on his fiddle bow, tuned the forks on the drum of his "liberator," connected a copper tube six feet long and one-eighth of an inch in diameter with a seven-pint cylinder and then connected a copper tube a thirty-second of an inch in diameter and ten feet in length with the engine from the seven-pint cylinder. The sound liberated from the drum of the "liberator," passed through the first tube into the cylinder and then into the smaller tube and into the copper globe of the new machine. The bottled chords of the mass which Mr. Keely had chosen for his power yesterday would run the machine, he said. Something did run it. The big copper globe forty-eight inches in diameter, made seven revolutions every second, and an independent belt wheel at one end of the copper globe, which Mr. Keely said ran from the sympathy of sound, made three hundred revolutions a minute, and it velocity frightened everybody in the room, including Keely, who danced around the shop and told everybody to keep out of the way.

The belt-wheel and the copper globe went around so fast that they made a noise like the spinning of a huge top. The noise sounded, too, like the rushing, howling of a furious wind as the copper globe cut the atmosphere and turned it into dripping water on the floor beneath. The hot little workshop was chilled in two minutes, and then as Keely, greatly excited, turned the cock of the vibrating tube and made the copper globe calm down to almost a standstill the capitalists and scientists clapped their hands and took off their hats.

"Ain't that fine, gentlemen?" asked Keely, smiling.

"Greatest on earth," answered Albert R. Eddy, the president of the Keely Motor Company.

"Wonderful," came from a dozen mouths, and then Mr. Keely started the copper globe off again with all its fury. It shook the little workshop from cellar to ceiling and rattled the window panes.

"I can make the screw of a steamer make 6,000 revolutions a minute with this machine," shouted Keely through the howling of the globe and the belt-wheel.

"Then we'll be able to go to Europe in one or two days before long," remarked a man in the audience.

Mr. Keely stopped the engine again and then made the globe revolve in either direction, just as he pleased. The bottled sound in the "liberator" was just as strong when he quit as when he began, and he said the machine would run on all day without changing the "liberator" again with a sound from drawing the fiddle-bow over the tuning fork.

Several tests were made with the lever, which have been described frequently. When the exhibition was concluded L. H. Taylor, jr., the broker, moved that a vote of thanks be tendered Mr. Keely. Everybody shouted "aye," and ringing applause followed. Mr. Keely will go away tomorrow for ten days' rest; then he will return and study out some vibratory sounds, so that he will have the machine more thoroughly under his control. He doesn't know now long it will take him or what the next step will be, but he said the public would hear from him very soon.

WATER SPOUTS.—A water spout is a small whirlwind occurring on the surface of a sea or lake. In the center of this whirlwind a slender column of water or dense vapor appears, which is the water spout proper. This column when fully formed reaches from the sky to the surface of the water, whirling rapidly on its axis, and borne forward by the wind that may happen to be then blowing. The water at the base of the whirling vortex is thrown into violent commotion, and literally "boils like a pot." There is a common belief that the water of the sea is sucked up in a solid mass by water spouts, but in fact the spray from the broken waves alone is thus drawn up. What are called "water spouts on land" are only heavy falls of rain accompanied by whirling winds.

Mrs. Mackay's recent triumph in securing the Prince of Wales for her dinner, loses a little of its gilt-edged quality when it transpires that the Princess was not there. It is the recognition of the royal ladies that is of course most ardently sought after by the American bonanza queens, and they usually find it provokingly hard to obtain.
