Daily British Columbian

Saturday Evening, Nov. 12, 1887.

The Chicago *Mail* has learned that an enterprising man in Chicago proposes to procure tin boxes just large enough to hold an ordinary sandwich, piece of pie, a flask of coffee and a Chinese napkin. He will fill a light wagon with them and at a certain hour—the lunch hour—will deliver to his patrons a box and contents for the sum of 15 cents. He says his scheme is working well, that he has secured over 300 subscribers on State and Dearborn streets. As repidly as his business increases he will put on more wagons.

The Ceylon pearl fishery promises to be unusually successful this season. So does also the mother-of-pearl harvest in the Red Sea. These latter fisheries extend the whole length of the Red Sea, but are most productive near Suakim and Massowah. Some 300 boats are employed, mainly belonging to Zobeid Bedouins, with black slave crews, and the men live on board nearly the whole year, rarely heing at home more than a month. They fish off reefs in the calm weather, and can see the shells at a depth of from seven to fifteen fathoms, using a primitive telescope formed from an empty petroleum tin, with the bottom knocked out and glass let in. Fatal accidents are unknown. The shells are sold by auction at Jeddah, Suakim and Massowah, and the bulk go to Trieste, a few coming to Havre and London. The finest specimens are sent to Bethlehem, where they are engraved and sold to the pilgrims.—*Ex.*

Between Cashmere and Ceylon, according to an authentic and most recent official statement, which I hold in my hand, there are twenty-one millions of widows, and half of these were never wives. Even under the rule of a christian empress. Paganism makes the condition of India yet so desolate that it is a common remark among the Hindus that the old form of immolation by fire was preferable as a fate for a young woman, or even if an old one, than widowhood, Distressing beyond our conception must be the life to which Suttee is a blessing; and yet suicides are occuring in India almost every week, prompted only by the terrible sufferings incident to enforced widowhood. Who can remedy these terrible mischiefs endured by women in Asia except female medical missionaries? They are wanted all through India. They are wanted in large numbers. They are wanted for Zenana work, for teaching, for all kinds of instruction in mission schools and secular establishments of various kinds. An angel from heaven itself, as has of ten been said, would not be welcomed in Hindu Zenanas more cordially than a well-instructed fomale physician. * *

* As I coasted along Ceylon and the Malay Peninsula and vast China, day after day, I seemed to hear across the roar of the waves the turbulent sound of the billows of humanity breaking with a wail on the stern coasts of our yet barbaric days - 300,000,000 billows in China, half of them women; 250,000,000 such billows break on the shores of India; multitudes coming out of the unseen, and storming across the ocean of time to break on the shores of eternity. And the sound of that sea was a wave from servile labour, the dwarfing of the loftiest capabilities of the soul through ignorance and false faiths; infanticide and polygamy, concubinage, enforced widowhood, and many a nameless condition preventing the development of woman into that angelic thing she is by nature, even without education. I heard the wail of these hosts until I found myself resolved, whatever else I might do or might not do, to echo the sound of that ocean in the ears of Christendom until, if God should permit, some adequate enthusiasm for the reform of woman's condition in Asia is awakened in the Occident. I wish every city of 20,000 inhabitants, in America and Europe would send one female missionary into pagan lands. * * * We have power to send medical missionaries to these populations; we have power to send both secular and sacred education to women throughout Asia; and he who knoweth to do good and doeth it not, to him it is sin. Let this wail sound in the ears of sensitive women. Let it sound in the ears of strong men. Let it fill the whole atmosphere of Occidental Christendom until we aroused to make God's opinion our own as to what should be done for women in Asia, Africa and all the isles of the sea.—*Joseph Cook.*

LAST NIGHT'S DESPATCHES.

THE CROWN PRINCE'S CONDITION.

LONDON, Nov. 11.- The despatches from San Remo concerning the condition of Crown Prince are extemely confusing, but all agree that the physicians attending the royal patient hesitate to perform an operation upon parts of his throat, obviously because of the likelihood of a fatal result. The latest adices make it quite clear that no surgical operation will take place until the doctors have finally agreed upon the question of a direct or internal attack on the seat of the trouble. If the former operation, it will be performed by Dr. McKenzie, but if an operation involving the laying open of the throat, be decided upon, it will be undertaken by Professor Bergmann, or some other German specialist. The Crown Prince has been absolutely unable to articulate for the last four days. The entire Royal and Imperial family of Germany is agitated by the the condition of the heir to the throne, and his ceased to entertain hopes of his recovery or even of his experiencing a temporary season of relief.

AN ATTACK OF APOPLEXY.

PARIS, Nov. 11.—The *Matin* says that the Empress of Germany has had an attack of apoplexy, which has partly paralyzed her.

THE IRISH SITUATION.

LONDON, Nov. 11.—The *Daily News* Commissioner in Ireland describes the situation there as one of social war. Rent has disappeared and resistance to the landlords is almost universal. The reductions made by the Land Commission averaged about the same as the the amounts insisted on by the organizers of the Plan of Campaign, thus showing the rule of justice of the Irish methods. The peasantry have plenty of potatoes to live on, but no money. Taken as a whole county was never more impoverished. The government will not go in for land purchase, which they know to be unpopular, but will push their local government bill next session, so that without any attempt to remedy the Irish grievance, the situation will get from bad to worse. The great Tory danger is in the urban population, which is gradually growing anticoercionist. Already the constituency of the seceding Tory member, Mr. W. T. Evelyn, has started an anti-coercion association.

DISCUSSING THE SITUATION.

LONDON, Nov. 11.—The cabinet at its meeting to-day, discussed the situation in Ireland, the question of relieving the garrison at Wady Halfa, together with other matters affecting British interests in Egypt.

Considering the situation in Ireland it was decided to take immediately advantage of the court in the matter of the appeal of Sullivan, the Lord Mayor of Dublin, and undertake at once prosecution of all newspapers publishing reports of suppressed League meetings.

AN EX M. P. ARRESTED.

LONDON, Nov. 11.—The arrest of William Sanders, ex-member of parliament, in Trafalgar Square to-day, for haranguing a crowd, will result in settling once and for all, the question of the right of British subjects to hold public meetings in Trafalgar Square and elsewhere in London, and the "Land Restorers" will make the most of the case as a test of the legality of the action of the police. It has transpired that some ancient acts of parliament place Trafalgar Square under the absolute control of the police, and give Sir Charles Warren, the Chief commissioner of the Metropolitan Police, a decided advantage in defending his action.

PRESIDENT GREVY AND HIS SON-IN-LAW.

PARIS, Nov. 11.—It is expected that President Grevy will resign when the chamber of deputies asks for the prosecution of M. Wilson.

M. Wilson has officially left the palace of the Elysee the residence of President Grevy. The Judge of Instruction examined M. Wilson to-day.

THE EXPULSION PROGRAMME COMMENCED

VIENNA, Nov. 11.—Six thousand Jews have been expelled from Tiflis by the Russian government, and the expulsion is in accordance with official programme which will shortly extend to the whole of the Caucasus.

THIS MORNING'S DESPATCHES.

IMMIGRATION ON THE INCREASE.

OTTAWA, Nov. 12.—The arrivals of immigrants so far this year are 78,000, being 26,000 more than at the same time last year.

THE ARMY CAN STAND WATER.

SHERBROOKE, Nov. 12.—The trouble between the police and the salvation army culminated last night in the former turning the hose on the army and drenching them. They didn't mind it, however, and went on praying just the same.

STEAMSHIP ON FIRE.

QUEENSTOWN, Nov. 12.—The steamship City of Newcastle is on fire at this port.

FANT GETS FREE.

WINNIPEG, Nov. 12. — Joe Fant, who shot Chief McRae last summer, was brought up for trial yesterday, and was discharged on a legal technicality. Judge Taylor, in addressing the jury, said that had Fant shot the chief dead, it would only have been manslaughter.

Archbishop Tache has been suffering from ill health for some days.

A NEW SUPERIOR-GENERAL.

MONTREAL, Nov. 12.—Intelligence has been received here that Rev. Father Hamel has been appointed to replace Father Hudson, ex-superior-general of the order in Canada.

"NO BILL" IN THE GRAHAM LIBEL SUIT.

MONTREAL, Nov. 12.—The criminal libel case of Aldermen Rainville, Profontaine, and Beausoleil against Hugh Graham was quashed, the grand jury yesterday returning "no bill." The complainants, who were greatly surprised, will bring the case before the jury again at the next term on new charges.

TRUSTEES APPOINTED.

TORONTO, Nov. 12.—John Hoskins, Q. C., and William Christie, biscuit manufacturer, have been elected trustees of Toronto university, vice Sir Matthew Cameron and Senator McMaster, deceased.

MORE OF TRAIN'S NONSENSE.

NEW YORK, Nov. 12.—Geo. Francis Train arrived from the west last night. He says the anarchists will blow up every city between New York and San Francisco. He says Lingg did not commit suicide, but that the dynamite cartridge was placed in the candle in his cell by the authorities, who feared the man would be pardoned unless violence was done by them.

THIS AFTERNOON'S DESPATCHES.

THE ANARCHIST FUNERALS.

CHICAGO, Nov. 12.—A lot has been selected in Waldheim cemetery in which to bury the five dead anarchists. The intention is to erect a monument to their memory. Spies body will lie in state at Turner Hall, he being a prominent member of the Turnverein, and the obsequies will be conducted by the society at Sunday noon. The carpenters' union will take charge of Lingg's funeral. The painters' union will bury Engel, and the German typographical union will have charge of Fischer's funeral, and Parsons' will be under the supervision of local assembly 1,307 K. of L. The whole order have been invited to participate, and it is determined to make this the greatest funeral Chicago ever saw. The home of Engel and Lingg is draped in mourning. The crowds outside block the streets, singing and pushing around the entrance.

ANARCHIST PARADE PROHIBITED.

BROOKLYN, N. Y., Nov. 12.—The police reserves in this city are ordered out to-day and are to be held in readiness at station houses from now until Monday evening. The authorities do not propose to tolerate any such thing as anarchy in their midst. "We are not going to allow any party of anarchists to parade in Brooklyn," said Police Superintendent Campbell.

THE GLOBE AND MAIL WILL COMPARE CIRCULATION.

TORONTO, Nov. 12.—The *Globe* accepts the *Mail's* challenge in the matter of circulation.

Rev. Dr. Sutherland, missionary secretary, is looked upon as the favorite for the chancellorship of Victoria university. His only opponent is Rev. Dr. Burwash.

DECREASE IN BANK EARNINGS.

MONTREAL, Nov. 12.—The statement of the bank of Montreal for the six months ending October 31, submitted to the directors yesterday, shows a decrease in the net earnings of about $100,000 as compared with the corresponding period last year.

THOSE TWIN FOES to bodily comfort, Dyspepsia and Biliousness, yield when war is waged against them with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Its use also insures the removal of Kidney and Uterine maladies, and promotes unobstructed action of the bowels. The purity of its ingredients is another point in its favor. As a blood purifier it has no equal. It is also a great favorite with the ladies.

Police Court.

Before T. C. Atkinson P. M.

Thomas Walsh, charged with being drunk. Walsh promised not to get drunk again if he were dismissed.

His Honor said he would take his promise this time, but warned him not to appear again on the same charge or it would go hard with him.

Sadie Clark, charged with selling liquor without a license. Pleaded not guilty.

Mr. Leamy entered an objection to the information which did not disclose an offense as it does not appear that the defendant carried on a liquor business. He also objected to the jurisdiction of the court on the ground that Mr. Atkinson is city solicitor. Objections noted and overruled.

Chas. Stanley was called and testified to procuring liquor in the defendant's house. He admitted he was drunk at the time and it might have been beer or water.

James Fraser also testified to drinking liquor in the house, but was so drunk he could not well tell what was the kind of drink.

Case adjourned until Monday.

To lessen mortality and stop the inroads of disease, use Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. For all diseases arising from Impure Blood, such as Pimples, Blotches, Biliousness, Indigestion, etc., etc., it has no equal. Mrs. Thomas Smith, Elm, writes: "I am using this medicine for Dyspepsia; I have tried many remedies, but this is the only one that has done me any good."

Daily British Columbian

Saturday Evening, Nov. 12, 1887.

Once more the question of indemnifying grand jurors while on duty has been brought to public notice; and it must be said that there is much ground for the position taken by many in favor of the movement. It seems to be assumed that the honor of being a grand juror ought to be a sufficient offset for the trouble and expense involved in filling the duties of that position. Then, too, grand jurors are not required to be in constant attendance at court, or to sit for hours, and sometimes through days and nights, listening to all the dry details of a case. They come and go almost as they please, and when the business before them has been completed they are free to leave the city even if the work of the petit jurors is not half done. Nevertheless, it is often a serious hardship to be a grand juror. Persons are sometimes forced to travel considerable distances at their own expense, and to bear the cost of large hotel bills while in the city, and the only compensation is the empty honor of the position, supplemented by the formal thanks of the presiding justice. We think the time will come when either grand jurors will be allowed a small indemnity, or only such persons as reside in the cities where courts are held will be placed on those jury lists.

The disaster that has occurred to the Norwegian colony at Squamish River is most unfortunate. These people were the advance guard of many others whom we hoped to secure as a valuable addition to our population. There is a vast extent of territory along the coast where, under ordinary circumstances, one could not expect settlers to remain. These regions are mostly without any resources except timber and fish. It was hoped the Norwegian fishermen, who are a hardy race unaccustomed to fertile soil or mildness of climate, would find the conditions here very much more agreeable than in their own land. These hopes, too, seemed about to be realized. The pioneers of the new colony were much pleased with their location and prospects on Squamish River, and everything would probably have gone on finely if the river had not suddenly become angry and swept over its banks. It is commonly supposed that the waters both of the straits and the ocean which wash the north-west coast of the mainland are rich in fish fit for food, and the Norwegians are just the sort of persons who might be expected to develop this unknown source of wealth. Their success would certainly bring many more of their countrymen to our shores, and all along the coast we should presently see settlements of thrifty fishermen with their families, pleased that they had found in the new world comparative comfort and a prospect infinitely brighter than anything they could expect in their own land. We hope their discouragement will be only temporary, and that they may speedily find a location that will fully meet their wants and expectations.

Not long ago we referred to the case of Felix Somers, a newspaper correspondent who in 1872 feigned madness and got himself committed to an insane asylum in New York for the purpose of exposing its abuses. This stratagem has just been repeated by a reporter on the New York *World*. This time it was a young lady, and there seems to have been no difficulty in the way of carrying out the programme. The *Mail* gives an account of the transaction, from which it appears that this young lady, having arrayed herself in old clothes, and assumed the "far-off look" which is supposed to be one of the necessary symptoms, wandered into the neighborhood of a policeman, was arrested and taken to the police station, and there declared that she was not insane. Although she had been neither charged with nor even suspected of insanity this declaration was sufficient to convince the officials that she was insane, and her calmness was accepted as additional proof of the fact. She was then examined by a board of medical experts, to whom she repeated that she was not insane. Three of the gentlemen came to the conclusion that she was *not only a dangerous but an incurable* lunatic; the fourth thought her mind was only temporarily clouded and that home treatment would be sufficient to cure her. Eventually, however, he signed the commitment to the asylum. The young woman spent ten days in the institution, her release being then secured by her friends according to previous arrangement. Her account of her experience reveals a horrible system of treatment in the institution in question, and makes it clear that even patients who are not insane at the time of their admission are likely to become so after a short time. The publication has caused a sensation in New York.

A single bottle of Ayer's Sarsaparilla will establish the merits of this medicine as a blood purifier. Many thousands of people are yearly cured of chronic diseases by the faithful use of this remedy. It is unequaled for the cure of scrofula.

Strong Words for Temperance.

In the *Journal of United Labor*, over his own name, Master Workman T. V. Powderly, in speaking of the liquor traffic, says:

"Among the letters that came to me to-day I find one which takes me to task for my words on the temperance question, spoken some ten or twelve days ago in Boston and Lynn. My friend makes the candid admission in starting out that in the main I am right, that even the rumseller will not deny the justice of my position. Having said as much he should have stopped. Even then he told me nothing new. I know that I am right. I know that in refusing to even touch a drop of strong drink I was and am right. In refusing to treat another to that which I do not believe to be good for myself to drink I know I am right. In refusing to associate with men who get drunk I know I am right. In not allowing rumsellers to gain admittance into the Order of the Knights of Labor I know I am right. In advising our assemblies not to hire halls or meeting-rooms over drinking places I know I am right. I have done this from the day my voice was first heard in the council halls of our order. My position on the question of temperance is right. I am determined to maintain it, and will not alter it one jot or tittle. If 'in the main' I am right, why should I alter my course?

"Ten years ago I was hissed because I advised men to let strong drink alone. They threatened to rotten egg me. I have continued to advise men to be temperate, and though I have had no experience that would qualify me to render and opinion on the efficacy of a rotten egg as an alley to the rumseller, yet I would prefer to have my exterior decorated from summit to base with the rankest kind of rotten eggs rather than allow one drop of liquid villainy to pass my lips or have the end of my nose illuminated by the blossom that follows a planting of the seeds of hatred, envy, malice and damnation, all of which are represented in a solitary glass of gin."

The Risk.

Every intoxicant has in it this characteristic—it never satisfies the drinker, but awakens a constant demand for more. A small glass whets the appetite for a larger glass; one drink creates a craving for a second. This is not the case with any wholesome beverage or food. Beef and bread do not breed excess. I began to drink milk as soon as I got my eyes open, and I still put my eyes to sleep every night by a good bowl of bread and milk; but I do not find that one bowl creates a raging appetite for two or three more bowls. A healthful beverage satisfies a healthful appetite; a hurtful beverage like wine or ale or brandy kindles a morbid appetite which tends toward an uncontrollable frenzy. The more alcohol there is in the drink the more fierce is the frenzy. This quality of alcoholic drinks is no respecter of persons. It will make a fool or a brute of a Christian (if he tampers with it) just as soon as of a reprobate. One of the most eloquent ministers of New Jersey delivered some of his most eloquent discourses under the stimulation of wine. He imagined that he could "preach better" for the stimulant. But before he was aware he staggered in his pulpit and was cited before a church court for drunkenness! In agony of soul he confessed to his brother ministers that nobody was so astonished at the discovery that he had become an inebriate as he was himself. He had been playing with a serpent; he began to do it with a good motive; but the serpent stung him just as soon as if he had been the most graceless blackguard. I venture to assert that there is not a human being on the face of God's earth who can habitually use intoxicating drinks and yet be perfectly safe. There is not a specific promise of God's protection of any Christian who tampers with alcohol—whether in a wine glass or a whiskey bottle. We do not affirm that every wine drinker becomes a sot; but we do affirm that every wine drinker runs a risk of becoming one.—*Dr. Theo. Cuyler.*

Pleasant for Beer Drinkers.

Dr. E. H. Bartley, chemist to the Brooklyn health department, has recently made some discoveries which it will not be pleasant for beer drinkers to contemplate. His examinations of different kinds of bottled beer, including some of the western beers, show that they contain salicylic acid. The *Medical Record* states that the amount of this acid required to preserve beer is about twelve or fifteen grains per gallon, and it adds that "salicylic acid, if taken continuously, tends to injure digestion and irritate the kidneys." The employment of this drug in the preservation of different articles of food and drink has increased so much in Paris that the French government has already twice taken action in the matter.

It is a strong and unexpected proof of the great advances made by anti-saloon sentiment in Missouri, that the Grand Master Mason in that state calls on all the lodges in the state to expel all who are in the liquor dealing business, basing this call on a resolution of the grand lodge of Missouri, which says "that the business of saloon keeping is hereby declared a Masonic *offence, and those engaged in it are* liable to be dealt with for un-Masonic conduct."

Valuable Property at Spence's Bridge,

BELONGING TO THE UNDERSIGNED, consisting of two Lots.

LOT 1

Contains Sixty-four acres of land, forty of which is under cultivation. There is a large Store, 25x80; a two-story Hotel, 60x40; a large Stable and stalls for 20 horses; three Dwelling Houses, with cellars, and a number of other buildings. Two Gardens, one of them about one acre and a half, and one of the best in British Columbia, in which is growing to perfection Apples, Pears, Cherries, Plums, Grapes, Gooseberries, Strawberries, Currants, Raspberries, &c., &c. There is also a Green House, heated by hot water pipes, and containing a splendid collection of choice Plants. There is also a Water Ditch with this lot that carries over 100 inches of water.

LOT 2

Contains about 250 acres of land, one-third of which is fit for cultivation. On this lot there are about 150 Fruit Trees, 300 Grape Vines, 400 Gooseberry and Currant Bushes, and one of the best Water Ditches in the country, which cost two seasons ago $3000.

For any one wishing to go into the Seed and Fruit business, this is a splendid chance. The climate is unsurpassed and the situation is the best in British Columbia for a market along the line of the C.P. Railway. There is already an established business for seeds, plants, fruits, &c., amounting to over $1500 a year, and to one who could manage and look after it himself a fortune.

IMPORTANT AND PEREMPTORY

Auction Sale

—OF—

FARMING LANDS.

We will sell by Auction at our Sales-Rooms,

Cordova St., Vancouver, B. C.,

—ON—

WEDNESDAY, NOV. 16TH,

AT 7 P. M.,

By order of HENRY MATHERS, Esq., of New Westminster, nearly

6000 ACRES

CHOICE FARMING LANDS

In Township 14, on the South of the Fraser River, District of New Westminster.

The Property consists of 640 acres in Section 8, 640 acres in Section 9, 640 acres in Sec. 16, 640 acres in Sec. 17, 309 acres in Sec. 18, 620 acres in Sec. 19, 500 acres in Sec. 20, 640 acres in Sec. 21, 285 acres in Sec. 27, 640 acres in Sec. 28, and 240 acres in Sec. 29.

Owing to a combination of circumstances the property has to be realized upon this season, and this is a rare opportunity to obtain valuable land either to settle upon or for speculation. Township 14 is situated between Langley and Matsqui, two of the most flourishing settlements in the Province, and the soil is the richest of prairie and alder bottom, than which there is no better farming land on the continent. Some of the land is situated on the banks of the river and at the present time a road is being built through the property from the river to the Yale wagon road. It will be sold in block or sub-divisions to suit purchasers. The terms are extremely liberal, viz.: one-fourth cash, the balance in five yearly instalments with interest at 7 per cent. Title is the Crown Grants.

In view of the steadily increasing value of land in this part of the Province, we would respectfully call the attention of farmers and speculators to this sale.

A SHYLOCK FINED $1,000.

A Cincinnati Usurer Meets a Deserved Punishment.

Judge Caldwell of Cincinnati inflicted a severe punishment on O. M. Johnson, a usurer. Under the pretense of desiring to help the poor he has advanced them small sums of money and executed bills of sale on their household effects. He then charged them a premium for the money and put on a rate of interest that for usuriousness was simply astounding. In one instance he charged 1200 per cent on about $33. His business was really pawnbroking, but he claimed that his system of taking bills of sale exempted him from paying the pawnbroker's license. Several times during the last few months he has had several poor men arrested for disposing of a few bits of the rickety furniture on which his claims were founded. It became a nuisance in the eyes of the authorities, and his affairs were investigated with the result of having him arrested on a charge of conducting a pawnbroker's business without license. The case was heard recently and taken by Judge Caldwell for examination. He announced his decision and found the defendant guilty. Then by imposing a heavy fine he destroyed the usurer's profits and turned into the coffers of the state a sum equal to four times the cost of a license. The sentence staggered the prisoner, and he trembled visibly as the words "$1,000 and costs," were pronounced. In addition Judge Caldwell gave him a scathing rebuke for his hard-heartedness and his evasion of the law.

The Chinese Syndicate.

The *American*, of Philadelphia, Mr. Wharton Barker's paper, contains the following statement of the concessions and grants of power made by the Chinese Empire of the Chinese syndicate:

"Count de Mitkiewiecz, during his recent visit to Tien-Tsin, obtained for the Chinese-American Telephone Company the exclusive right to erect telephones, operate telephone lines and manufacture telephonic apparatus and appliances in all the treaty ports now open or to be hereafter opened for a period of fifty years. In addition to this he returns to this country with the basis of a charter for a Chinese-American bank, to be under joint American and Chinese control, and the capital of which is to be contributed jointly by Americans and Chinese. The functions of this institution, in addition to the transacting of a general banking business, will include placing of all government loans for such public purposes as the construction of railways, the working of mines and the contracting for supplies needed for such undertakings. It is also to have authority to issue bank bills and to provide a uniform currency in gold and silver, such bank bills and coin to be a legal tender for their face value throughout the empire.

"As an evidence of the importance attaching to this enterprise it is only necessary to mention that Viceroy Li Hung Chang, Premier of the Chinese Empire, and Pei-Yung, Superintendent of the Board of Trade, has consented to accept the supervisorship of the bank, and that he has sent as his envoy to this country so eminent a diplomat as Ma Kie Chung, who, in conjunction with the Minister of the Chinese Imperial Government at Washington, is to confer with Mr. Wharton Barker as to the minor details in the plan of the intended bank. It is probable that this conference, being one of importance and deliberately conducted, will occupy some weeks."

This, upon its face, looks like a very important movement in reference to the commercial and financial future of China. If it shall prove a success, it will largely contribute to modernize the Chinese Empire, and bring it more into accordance with the industrial and commercial operations of the Western nations of Europe, and of the United States. This will be an advantage to China, and the whole trading world.

Good and Bad Beer.

A genuine beer should be made from grains, hops, yeast, and water, and any addition to, or substitutions for, these four ingredients may justly be branded as adulterations. This fact is patent; yet, while no other country in the world has made such comparatively rapid progress as our own in the production of fermented liquors, nowhere else is there so much disregard for its purity and healthfulness, and nowhere else do such serious consequences result from its extensive consumption. When malt is made from barley, the starch contained in the grain is transformed into grape sugar or glucose, which is subsequently changed by fermentation into alcohol. this knowledge of the inward process led to the supposition that all edible grains containing starch could, under similar conditions, serve the same purposes as barley, and upon the same theory we have now been asked to believe that the tedious processes of our forefathers were all unnecessary, and that, since beer is nothing more than a fermented saccharine liquid, the readily available glucose should be the largest item in its total composition. These are matters which have been fully discussed, with which we are all familiar, and with which we may possibly deal more exhaustively at a later period; but meantime whatever the chemestry or the art of the subject may be, the truth is that our brewers have gone a long way in the wrong direction, that they have adopted what must prove in the end to be a very short-sighted policy, and that our markets are being flooded with badly brewed and sophisticated beers, loaded with germs of a secondary fermentation, and charged with abnormal quantities of bicarbonate of soda, salicylic acid and sulphites of lime sodium and potassium.

Watermelons.

The watermelon fleet is a great institution on Chesapeake bay. It comprises about 250 vessels of various descriptions and sizes. The season opens about the first week in August, and for nearly two months this most beautiful bay is filled with these boats loaded down with melons. The departures and arrivals are mostly at dawn or twilight, so that the day-time view of the fleet is about the same all the time. The boats carry from 2,000 to 3,000 melons each, and give employment to several hundred men who feel most comfortable when dressed in a cotton shirt, patched trousers, one suspender, and a well-colored pipe. Long lines of these men toss and catch the melons from the outer boats until they are landed in the wagons along the wharf. The scene is always lively, and a large part of the excitement is due to the commission agents who sell the melons along the wharf and who exact 7 per centum of all sales for their services. From Baltimore melons are shipped as far northwards Canada and as far west as Chicago. The bulk of the shipments go to New York and Boston.

Constipation

Is a universal and most troublesome disorder. It causes Headache, Mental Depression, impairs the Sight and Hearing, destroys the Appetite, and, when long continued, causes Enlargement of the Liver, Inflammation of the Bowels, and Piles. Constipation is speedily cured by Ayer's Pills.

For a number of months I was troubled with Costiveness, in consequence of which I suffered from Loss of Appetite, Dyspepsia, and a disordered liver. My eyes also troubled me. I was compelled to wear a shade over them, and, at times, was unable to bear exposure to the light. I was entirely

CURED BY USING

three boxes of Ayer's Pills. I have no hesitation in pronouncing this medicine to be the best cathartic ever made.—James Eccles, Poland, Ohio.

I suffered from Constipation, and, consequently, from Headache, Indigestion, and Piles, for years. Ayer's Pills, which I took at the suggestion of a friend, have given me effectual relief. I commenced taking this remedy two months ago, and am now free from Constipation, the removal of which has caused my other troubles to disappear, and greatly improved my general health.—W. Keeler, Amherst, Mass.

I suffered from Constipation, which assumed such an obstinate form that I feared a stoppage of the bowels. Two boxes of Ayer's Pills cured me, completely.—D. Burke, Saco, Me. ††

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. A PROCLAMATION.

P. Æ. IRVING, *Deputy-Attorney-General*, } WHEREAS it is provided by Section 3, of an Act passed by the Legislature of British Columbia, in the fiftieth year of Our reign, intituled "An Act to repeal (in part) the 'Sumas Dyking Act, 1878,'" that the said Act shall not come into force until a day to be named in a Proclamation by the Lieutenant-Governor and published in the *British Columbia Gazette*. And whereas our said Lieutenant-Governor, by and with the advice of his Executive Council, has been pleased to name the Thirty-first day of January, one thousand eight hundred and eighty-eight, as the day on which the said Act shall come into force.

NOW KNOW YE therefore that in pursuance thereof, We do hereby proclaim the said Thirty-first day of January, one thousand eight hundred and eighty-eight, as the day on which the said "Act to repeal (in part) the 'Sumas Dyking Act, 1878,'" shall come into force.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of the said Province to be hereunto affixed: WITNESS, the Honourable HUGH NELSON, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this twenty-sixth day of October, in the year of Our Lord One thousand eight hundred and eighty-seven, and in the fifty-first year of Our Reign.

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

NEW ADVERTISEMENTS THIS DAY.

Dental Notice ..... F. Welsh

Daily British Columbian

Saturday Evening, Nov. 12, 1887.

Eight carloads of freight arrived from the east to-day.

The str. Gladys left for up river this morning with passengers and freight.

C. E. C. Brown, dentist, will visit Chilliwhack on Tuesday next, Nov. 15, returning on Friday. dno12t3

Attention is called to Mr. Trapp's auction sale of household goods, etc., this evening at his auction rooms.

The Rifles went over to the ranges this afternoon for class firing. We hope to hear of some good scores.

Mr. Moresby left for Lytton this afternoon with Ah Chow, the Chinese murderer, who is to be hanged at that place on the 18th inst.

The weather was very rough on the gulf this morning and the Princess Louise was several hours late in reaching Vancouver to-day.

Mrs. Trew will resume her music pupils on Monday, the 14th inst., at the usual hours. She is anxious to receive a few more at her residence, Mary st. dno94t

The wives and children of the married men of C Battery arrived in Vancouver yesterday and proceeded to Victoria. The party was in charge of Lieut. Ogilvie.

Temperature to-day: Max. 48°; min. 45°; bar. 30.05. Capt. Peele says another storm equally severe is following the one we had last night, and it can be expected at any moment.

The committee for the ball to be given to the lieut.-governor will meet at the Bank of B. C. this evening at 8 o'clock sharp. All members of the committee are requested to be present.

If people troubled with colds, will take Ayer's Cherry Pectoral before going to church, they will avoid coughing. The Pectoral soothes and heals the irritated tissues, and controls all disposition to cough.

The steamer Irving arrived down from Chilliwhack this afternoon with 20 passengers and the following freight: 300 sacks grain, 240 sacks potatoes, 67 hogs, 8 boxes chickens, 3 calves, 67 boxes apples and a quantity of dairy produce.

The annual meeting of the St. Andrew's and Caledonian Society of Vancouver was held on Thursday night. Arrangements were made for holding a grand ball and supper, on St. Andrew's night, in the Skating Rink, which is to receive a coat of whitewash and to be otherwise decorated for the occasion.

It is rumored that Mr. Alex. R. Dempster has entered an action for $5,000 damages against Mr. James Rousseau for malicious prosecution and false imprisonment. It will be remembered that Mr. Dempster was before the assizes, charged with embezzlement, of which charge he was honorably acquitted, and this action, it is understood, is the result of the verdict.

Yesterday afternoon Capt. Bole left for the Similkameen, where he will visit for a few weeks. Mr. Bole went armed to the teeth with rifles, shotguns, revolvers, bowie knives and other deadly weapons, in fact he went fully armed and provisioned to stand a six months seige or carry on a campaign if either were necessary. He goes by rail to Kamloops, thence by stage to Okanagan mission and thence by broncho to the Similkameen.

The big blow predicted yesterday by Capt. Peele came to hand sharp on time, accompanied by thunder and lightning. The rain fell in torrents for some hours and the wind at times fairly howled. During the earlier part of the night it almost blew a hurricane and at one time it was feared serious damage would be the result. The telegraph system south of the line received such a severe shaking that the service is badly impaired to-day.

Ayer's Sarsaparilla acts directly and promptly, purifying and enriching the blood, improving the appetite, strengthening the nerves, and invigorating the system. It is, in the truest sense, an alterative medicine. Every invalid should give it a trial.

More Anthracite.

Col. Baker, M.P.P., for Kootenay is reported to have organized a strong company for the purpose of working an anthracite mine in the vicinity of Crow's Nest Pass. It is rumored that negotiations are now going on between the new company and the N. W. C. & N. Co. for the construction of a railroad from Lethbridge to the mine.—*Colonist.*

Capt. White in Luck.

The Seattle *P.-I.* says: Capt. White, of the Princess Louise, was in Seattle yesterday. A well-known steamboat man said: "Captain White has been offered the command of the Canadian Company's str. Premier, and he is considering the proposition and will most likely accept. If he does not, she will be given to Captain George Roberts, of the Olympian."

Westminster Ahead.

The result of the entrance examination for law students at Dalhousie college is published, and the result is that of 16 applicants 8 were plucked. Mr. G. W. Howay, of this city, heads the list by about 200 marks, and that against an under graduate of Dalhousie college. He has made the following remarkable score: For associated arts, he was second against all competition; at 17 years of age he stood first of the "A's" for "A" teachers' certificate, and at 18 he went up again and stood at the head of the list against an honor student of Dalhousie. Mr. Howay received his training at the high school in this city.

Another Serious Fire.

Mrs. Amos Bowman, of Sumas, who arrived in the city last evening brought the news of the burning of Mr. Bowman's house and barns on Monday night. Mrs. Bowman was visiting at the residence of her sister, on the Sound, and during her absence the fire occurred, which totally destroyed the buildings and their contents. Unfortunately there was not a dollar of insurance on the property destroyed and the loss will be keenly felt by the family. There are grave suspicions that the fire was the work of an incendiary, and developments are expected shortly which will in all probability prove such to be the case.

The Lobster Catch a Failure.

Mr. Thos. Mowat, inspector of fisheries, has received word from New Brunswick that the lobster catch for this coast has proved a failure. It appears the railway company were behind hand in getting the car ready for their transportation ready, and when it did arrive the weather was very cold. The pots and traps were set out, but on that night a fierce storm raged and when the traps were inspected only 200 lobsters were found in them, and the thermometer being below freezing point at the time, they were frozen as soon as taken from the water. The cold weather has driven the lobsters into deep water, and the scheme of colonizing crustacea in the Pacific waters will be deferred until May when another attempt will be made, which no doubt will be successful.

Relief for the Sufferers.

On the arrival of Mr. Turner, C.E., yesterday from the Squamish River with the information that the Norwegian settlers were being flooded out, Mr. Warwick, *government agent,* immediately telegraphed to Victoria for instructions how to act. Last evening the following answer was received:

C. WARWICK, *Westminster.*—Take immediate steps to provide for safety and welfare of Norwegians and report by mail. F. G. VERNON.

On the receipt of this Mr. Warwick immediately set about making arrangements and without loss of time chartered the str. Stella and a scow. A quantity of provisions were procured and other articles laid in which would be likely to add to the comfort of the suffering people. All arrangements were completed last night, and at 11 o'clock this morning the steamer left for the Squamish with Col. McGregor on board, who will have charge of the relief. The Norwegians will be brought to this city with all their goods and chattels and will be quartered in the Immigration Sheds until their future location is decided on. This prompt action of the provincial government is greatly to be commended.

The Presbyterian Church.

At a meeting of the Presbytery of Columbia held at Victoria on Wednesday, the application of the congregation of St. Andrew's church, of that city, to be received into the Presbyterian Church of Canada, was considered, and on motion of Rev. D. McRae, seconded by Rev. Thomas Scouler, the following resolution was adopted: "The Presbytery having received and considered an application from St. Andrew's church, Victoria, to be received as a congregation of the Presbyterian church in Canada, and having read the minutes of congregational meetings leading to the application, and being satisfied with the regularity of the proceedings, and having read the resolutions adopted by the congregation, and the letter of the convener of the colonial committee anent the same, and having heard commissioners, resolve to grant the application and receive it, as we hereby do, as a congregation of this church under the care of this presbytery." The congregation was then formally declared to be a congregation of the Presbyterian church of Canada. A resolution was passed expressing the presbytery's appreciation of the generosity of the Church of Scotland in maintaining this and other churches in the province for so many years. We believe there are now only two Presbyterian congregations in the province remaining in connection with the Church of Scotland. One of these is at Nanaimo and the other at Nicola, and it is almost certain both will unite with the Canadian church very shortly.

Personal.

A. O. Hastings came over from the Terminal city to-day.

G. E. Corbould, returned from Victoria to-day via Vancouver.

G. Ford, superintendent of the Dominion Express Co. Vancouver, was in the city this afternoon.

Mrs. James Cunningham, president of the provincial W. C. T. U., went over to Vancouver yesterday to address the local union.

Chas. Wilson, barrister, of Victoria, who has been conducting the prosecution for the crown at the fall assizes, went over to Vancouver this afternoon en route for home.

Guests at the Colonial: John Coughlan, Victoria; J. H, Collins, London Eng.; William Turpin, Yale; T. Haney, D. Docksteader, Port Haney; Chas. T. Hewson, Rochester N. Y.; Max Mowat. G. Ford, A. O. Hastings, Vancouver.

The people of this country have spoken. They declare by their patronage of Dr. Thomas' Eclectric Oil, that they believe it to be an article of genuine merit, adapted to the cure of rheumatism, as well as relieves the pains of fractures and dislocations, external injuries, corns, bunions, piles, and other maladies.

Fall Assizes.

Before Hon. Justice McCreight.

FRIDAY AFTERNOON.

His Lordship entered the court at 3:15 o'clock.

Queen vs. Wilson for receiving stolen money the property of John Anderson.

John Anderson, sworn, said: I was in Jessie Hart's house last Thursday evening between 7 and 8 o'clock. I had three $50 bills and other money. When we turned in I put the money under the pillow and it was there between 7 and 8 in the morning. I missed the money between 2 and 3 o'clock in the afternoon. Wilson, Antonio and the woman were in the room with me during the morning; I gave Wilson a dollar to get some drink, that is all the money I gave him. I was not sober while in the house; when I lay down on the bed the prisoner was in the room; that was after I had looked at my money.

To the prisoner—I gave you the dollar in the morning.

To the foreman—I was sober enough to know the money was there in the morning. I gave the $20 to the lawyer who defended me.

To His Lordship—It took me all summer to earn this money.

James Manson, sworn, said: I am a tailor; I know Wilson, he and Antonio came to my shop on Friday night and ordered a pair of breeches each; they wanted them for Monday as they were going away. The prisoner called himself Fuller and gave me a $50 bill to pay for both pair trowsers.

Wm. Cartwright, sworn, said: I am a barkeeper, I know the prisoner, on Saturday he came in and asked a number of people to have a drink, he paid for them and gave me two $10 bills to keep for him. I sealed them in an envelope. At 3 o'clock that afternoon he came and asked for the money and I gave it to him.

Frank Devlin, chief of police, sworn, said: I arrested the prisoner on Saturday evening last; I warned him anything he might say would be used in evidence against him; he admitted having received a $50 bill from Antonio; in answer to my question why Antonio had given him $50 he said he had lent the latter $21, and had got the bill to take his change out of.

His Lordship—Mr. Devlin you have no right to extort evidence out of prisoners. Lord Denman says: "You are not to suppress the truth, but you are not to make any endeavor of your own to extort."

Antonio Rodriquez, sworn, said: I know the prisoner; I was in Jessie Hart's house along with Anderson on Friday morning; I stayed awhile and returned about half-past eleven; I went to the woman's door, she was lying in bed with Anderson, and took his pocket book from his breast and gave me a $50 bill out of it. I gave the money to Wilson.

To the foreman — Anderson and Jessie Hart were lying across the bed. Wilson was standing in the next room. I owed Wilson $21, so I gave him the money.

His Lordship read the evidence adduced to the jury and allowed them to draw the conclusion they thought best, he only charging them to bring in a verdict according to the best of their ability. After an absence of three-quarters of an hour the jury returned with a verdict of "guilty."

Court then adjourned till 11:30 to-day.

SATURDAY MORNING.

His Lordship entered the court at 11:30 o'clock and rendered judgment in the following cases:

James Harris, found guilty of cutting and wounding, sentenced to one year's imprisonment in jail.

John Henry Smith, who pleaded guilty to common assault, was sentenced to 4 months imprisonment.

Henry Viet, who pleaded guilty to having an infernal machine in his possession was sentenced to one year in prison.

His Lordship said he did not believe the motive said to have actuated the prisoner was the truth, and he did not believe the story of sending the box to Italy to protect his father's money.

John Wilson, found guilty of larceny, sentenced to 18 months imprisonment.

Mr. Wilson moved for the discharge of Antonio Rodriquez. Discharged accordingly.

His Lordship then left the bench and the court adjourned *sine die.*

Jos. Beaudin, M. D., Hull, P. Q., writes: "Dr. Thomas' Eclectric Oil commands a large and increasing sale which it richly merits. I have always found it exceedingly helpful; I use it in all cases of rheumatism, as well as fractures and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot, and in two days I was entirely relieved of the pain."

FOR FROST BITES.—There is no better remedy for frost bites, chilblains and similar troubles, than Hagyard's Yellow Oil. It also cures rheumatism, lumbago, sore throat, deafness, and lameness and pain generally. Yellow Oil is used internally and externally.

IMPORTANT AND PEREMPTORY

Auction Sale

—OF—

FARMING LANDS.

We will sell by Auction at our Sales-Rooms,

Cordova St., Vancouver, B. C.,

—ON—

WEDNESDAY, NOV. 16TH,

AT 7 P. M.,

By order of HENRY MATHERS, Esq., of New Westminster, nearly

6000 ACRES

CHOICE FARMING LANDS

In Township 14, on the South of the Fraser River, District of New Westminster.

The Property consists of 640 acres in Section 8, 640 acres in Section 9, 640 acres in Sec. 16, 640 acres in Sec. 17, 300 acres in Sec. 18, 620 acres in Sec. 19, 500 acres in Sec. 20, 640 acres in Sec. 21, 285 acres in Sec. 27, 640 acres in Sec. 28, and 240 acres in Sec. 29.

Owing to a combination of circumstances the property has to be realized upon this season, and this is a rare opportunity to obtain valuable land either to settle upon or for speculation. Township 14 is situated between Langley and Matsqui, two of the most flourishing settlements in the Province, and the soil is the richest of prairie and alder bottom, than which there is no better farming land on the continent. Some of the land is situated on the banks of the river and at the present time a road is being built through the property from the river to the Yale wagon road. It will be sold in block or subdivisions to suit purchasers. The terms are extremely liberal, viz.: one-fourth cash, the balance in five yearly instalments with interest at 7 per cent. Title is the Crown Grants.

In view of the steadily increasing value of land in this part of the Province, we would respectfully call the attention of farmers and speculators to this sale.
