DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., WEDNESDAY EVENING, AUGUST 11, 1886. — NUMBER 10

Daily British Columbian

Wednesday Evening, August 11, 1886.

The Winnipeg *Free Press* says that Philip Garneau, who was sentenced to 7 years' imprisonment for complicity in the rebellion of 1885, was released a few days ago, and will shortly leave for the province of Quebec. He purposes writing a history of the rebellion from the stand point of the rebel. As he acted as secretary for Louis Riel after the break-up of Jackson's mind until the wind up of the rebellion at Batoche, he will be able to present the other side of the story better than any other person. Since his release he has been purchasing the published accounts of the rebellion, including Mrs. Delaney and Mrs. Gowanlock's accounts of their capture.

Mrs. Livingstone, of New York city, recovered $25,000 in the courts about a year ago from a rich man who had done her a wrong. Now she naturally complains because her lawyers have taken $23,000 of this sum for their services. Three Milwaukee lawyers once put in a bill of $25,000 for services in settling an estate worth $32,000. Judge Drummond at once administered to these cormorants the following stern rebuke: "Gentlemen, you consider yourselves good lawyers. How much more are your services worth to your clients than mine to the people? You have charged $25,000 for sixty days' service. Could you not be content, each of you, to take my pro rata for the same time? These charges are infamous. They are such as men who are scoundrels and thieves at heart would make. This charge of $12,000 is cut down to $1,200; those of $5,000 each to $500. Repeat such a piece of rapine in this court, and I will disbar every one of you." If every judge was as bold and upright as Judge Drummond the people would not have their scalps taken as frequently by shysters as at present. A bold, upright judge has a vast power in his hands to repulse these legal pirates who deem a client only a pigeon to be plucked. In New York city it is notorious that rich estates have been reduced to penury by the robbery of the lawyers who have played the same part to the rich estate that a starfish does to the succulent oyster; he never lets go until he has eaten the oyster and left the heirs the shells. We are sorry to say that Drummond, who dropped like a pile-driver on the skulls of those Wisconsin shysters, who proposed to suck the oyster out of an estate and turn over the empty shells to their clients, has retired to private practice.—*Oregonian.*

The movement which is on foot to present the Prince of Wales with a testimonial is one that must command very general approval and co-operation. In no part of the exhibition is it more generally recognized than in the Canadian section that the success of the whole display is very largely due to the unwearied interest which His Royal Highness has manifested in the movement from the very beginning. The resolution adopted at the meeting of the Royal Commission at the residence of Earl Granville on Wednesday last week, on the proposition of Lord Iddesleigh, seconded by Sir Charles Tupper, read as follows: "That the eminent services of His Royal Highness the Prince of Wales, in the promotion of the Colonial and Indian Exhibition, ought to be marked in some fitting manner; that the members of the Royal and of the Colonial Commissions believe that the gentlemen who have been connected with the work, both in the colonies and in India, would desire to share in the public appreciation of His Royal Highness's services; and it is accordingly considered that a piece of plate, commemorative of the exhibition and of the great interest which His Royal Highness has practically evinced in its success, should be obtained for presentation to him." As an outcome of this resolution a subscription list has been opened both here and in the colonies and India for the purpose of the presentation. It is properly desired that the participation in this public tribute to his Royal Highness should be as widespread as possible, and in order that every opportunity may be given to all to share in it, the highest amount that any one person may subscribe is limited to two guineas, though any smaller sums will be gladly received. The matter is one that needs no commendation to all those directly or indirectly interested in the Canadian section of the exhibition. It will be strange indeed if Canada, who is deriving and will derive so much permanent benefit from the exhibition, does not figure to her credit in the subscription list. —*Canadian Gazette.*

A Strange Development.

Major-General Strange, who commanded the Alberta Mounted Rifles in the Northwest expedition last year, writes to the press complaining of the manner in which the services of his force are referred to in the militia report. No credit at all is given to the very gallant exploits of Strange's command, who were among the first to march to the relief of Edmonton, and whose conduct throughout the campaign was such as to entitle them to much gratitude. Gen. Strange thinks the facts relating to his company were purposely suppressed because of personal animosity on the part of the minister of militia, and he points out that a part of his own official report has been altogether omitted from the minister's general report to parliament. We can scarcely believe that a minister of militia would so far forget his obligations and duties as to suffer personal animosities to influence his official acts, but the complaint of Gen. Strange is serious enough to deserve notice. It will be very unfortunate if public distrust creeps into the administration of the militia department.

Boycotting a Railway.

In the United States courts boycotting has been declared an indictable offense, and some of the people who have made use of this dangerous weapon are now suffering the penalty of an illegal act. But what the common people are prohibited from doing, some Washington politicians purpose that the United States government shall do. The proposal is that an order shall be passed preventing the Grand Trunk railway from carrying bonded cars through the United States, as it is now doing. The Grand Trunk, as every one knows, is a Canadian railway, built and maintained by Canadian and British capital, but with its termini at Boston or Portland in the east and Chicago in the west. This railway carries an immense quantity of American freight, and has long been among the most successful through routes between Chicago and the Atlantic. The freight goes through without transfer. At Sarnia it crosses the river on an immense steam ferry, and at Montreal it recrosses on Victoria bridge. If the road was forced to unload its cars upon crossing the boundary line, it could not compete with other through lines, and would be forced out of the through business—and this is evidently the object of the proposal. This is a new form of retaliation. Because Canadians refuse to surrender the fishery privileges secured to them by treaty, the Americans propose practically to exclude Canadians from carrying American produce. It may be very annoying to the Americans to find themselves shut out from our fisheries, but they seem to forget that the treaty under authority of which the exclusion has taken place is a positive document that has stood on the international law books for 68 years, and that it is no new regulation. During the existence of the Washington Treaty, in as far as it related to the fisheries, Americans were permitted to enjoy certain special privileges in Canadian waters; but these clauses of the Washington Treaty have become inoperative at the instance of the United States government, and the special privileges no longer exist. But the people have manifested a disposition to retain the privileges which they voluntarily surrendered. They occupy the position of a man who has rented an estate and proposes to retain possession of it after giving notice that the lease has expired. But the project of boycotting the Grand Trunk will not be a success. The Americans cannot very well dispense with the services of a road which carries such large quantities of their produce both east and west, and the Chicago *Inter-Ocean* very aptly compares the proposed boycotting with the action of the man who cut off his own nose to spite his face. It points out, moreover, that not only Chicago but the entire west is "under very especial obligation to the Grand Trunk for its part in furnishing cheap transportation for western grain, live stock, and dressed meat." But if the United States proposes to boycott Canadian railways, Canadians may retaliate and boycott American lines operating through the Dominion. It's a poor game at which two cannot play, and in this contest we shall not be surprised if Americans get the worst in the long run.

Mr. Wm. Boyd Hill, Cobourg, writes: "Having used Dr. *Thomas'* Eclectric Oil for some years, I have much pleasure in testifying to its efficacy in relieving pains in the back and shoulders. I have also used it in cases of croup in children, and have found it to be all that you claim it to be."

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1886.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $3 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:
Humor without Vulgarity;
Patriotism without Partizanship;
Truth without Temper.

Only $3 a Year, Postage Free.

The str. Teaser met with an accident to her machinery on Saturday, and did not reach this city until Tuesday night. In consequence of this delay, the Gladys makes only one trip to Yale this week, and will make a trip to Harrison hot springs Saturday evening. See adv.

Several persons who observed streaks of peculiar color on the river during the past few days, fancied that they were produced by sawdust thrown in from some of the mills. An investigation, however, showed the coloring substance to be pollen from trees and grasses along the river which had been blown into the water.

FINISHED.—It is stated that Sir John and Lady Macdonald will go to Nanaimo on Friday by the island railway, which has now been so far finished as to permit trains to run from Esquimault to Nanaimo.

HARD ON VICTORIA.—By mail today we received a letter from a lady in Burlington, Iowa, as follows: "I enclose 10 cts. for which I wish a Victoria paper. If there is not a Victoria paper published yet, please send a New Westminster paper."

NORTH ARM CHANNEL.—The Dominion government str. Sir James Douglas arrived here last night. The object of her visit is to make arrangements for driving piles to mark the entrance of the North Arm of the river, to take the place of the buoys which have hitherto been in use. Mr. Gilley's pile-driver will be employed for the purpose.

THE FISH PACK.—Mr. Frank Lord, of the B. C. Pkg. Co., gives the following figures as representing the quantity of salmon already packed on the Fraser this season: Richmond cannery, 10,000 cases; Phœnix, 6,000; British American Pkg. Co., 6,000; Wellington, 6,000; British Union, 800; Wadham's, 6,500; Delta, 6,000; Brodie's, 4,000; British Columbia Pkg. Co., 5,000; Ewen's, 7,000; Laidlaw's, 3,500; Bon Accord, 3,500; total, 64,800.

C. P. R. RATES.—The *Colonist* of this morning says: "It is understood that satisfactory arrangements have been made by Victoria merchants and shippers with the Canadian Pacific railway by which freight from and for Victoria will be placed, so to speak, "on an even keel" with that of points east of the mountains. The company have met the merchants in a liberal spirit, and there is every reason to believe that all, or nearly all of the carrying trade of the province, will be done by the Canadian line."

THE LINE GOING THROUGH.—General Superintendent Abbott is in town. In an interview with a *News* reporter last night he said, even if the injunctions were decided against the company, that the line from Port Moody to Vancouver would be completed just the same. The directors were now formulating a plan for the extension of the road, which would be carried into effect should the court decide that the company could not not secure legal possession of the territory in dispute. —*Vancouver News, Aug. 11.*

The most deadly foe to all malarial disease is Ayer's Ague Cure, a combination of vegetable ingredients only, of which the most valuable is used in no other known preparation. This remedy is an absolute and certain specific, and succeeds when all other medicines fail. A cure is warranted.

Sir John's Reception.

A meeting of the committees appointed to arrange for a suitable reception to Sir John Macdonald upon his arrival in this city was held last evening in the council chamber, Mayor Dickinson in the chair. His worship read a telegram from Mr. Pope, Sir John's private secretary, intimating the intention of the premier to arrive at 9 p. m. on Friday and to leave again on Saturday afternoon. The news, which had previously been circulated through the medium of the DAILY COLUMBIAN, was not less unfavorably commented upon at the meeting than outside of it, and many were in favor of no demonstration of honor to the premier. Others, among whom was Mr. Jas. Cunningham, suggested that the reception take a quiet form by the committee simply presenting the civic address and receiving the reply at some suitable time and place on Saturday, and without further display or attention to the chieftain, while Mr. Homer contended that the programme as originally decided upon should be carried out. Mr. J. C. Armstrong regarded such a visit as a slight little short of an insult to the chief city of the mainland and the birthplace of confederation in British Columbia. Mr. Kennedy regarded the time set for his arrival as good as a declaration from Sir John that he did not want any public reception. A motion was made by Mr. Lord, seconded by Mr. Kennedy, that work on the arches be discontinued, which was lost. An amendment, moved by Mr. J. W. Harvey, desiring his worship to telegraph the premier requesting him to extend his visit over Saturday in order that the reception which the people desired to give him might take the form originally decided upon, was carried. The meeting adjourned at 9:30 to 11 this forenoon to await a reply before taking any further action.

The adjourned meeting of the reception committees was held at 11 today. The mayor informed the meeting that Sir John's private secretary had telegraphed stating that he did not think the arrangement could be changed. On motion it was resolved to carry out the original programme, and to invite adjoining municipalities to take part in the reception. The programme, which will include a torchlight procession on the river at the time of the arrival of the steamer, will be published hereafter.

Miss Mary Campbell, Elm, writes: "After taking four bottles of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I feel as if I were a new person. I had been troubled with Dyspepsia for a number of years, and tried many remedies, but of no avail, until I used this celebrated Dyspeptic Cure." For all impurities of the Blood, Sick Headache, Liver and Kidney Complaints, Costiveness, etc., it is the best medicine known.

Alarm Among Silver Miners.

BUTTE, Mont., Aug. 4.—Grave alarm exists throughout the mining districts of Montana over the rapid decline of silver. It is estimated that 50,000 people in the territory are dependent on the mining industry and cognate enterprises. The second depreciation of ten cents per ounce in silver represents the profits of the mining companies, which will have to close down unless a reaction occurs. The lead and copper mines in which silver is an important bi-product, are also seriously affected. The Glendale works, employing 1,000 men, will shut down on the 15th inst. The Alice Moulton, Lexington, and Wickes works and many other great enterprises which for years have paid heavy dividends and employ thousands of men, cannot run if the present depression in the silver market continues, and general paralysis of business will follow.

Logging Operations.

EAU CLAIRE, Wis., Aug. 2.—Several of the heavier lumber corporations in the Chippewa district have already awarded large contracts for putting in logs for next season on the same terms and stipulations that were paid contractors last year. Owing to the millions of feet of logs that are considered hopelessly hung up until started by the spring freshets of 1887, the cut for the coming winter will be largely curtailed from the amount put in last season. The estimate cut on the Chippewa river and principal feeders is placed in round numbers at 650,000,000 feet, which will be a shortage of about 200,000,000 feet of the log crop of last winter. Of this amount 325,000,000 feet will be put in by the Chippewa Logging Company, or log pool, and the remainder by outside lumber companies and individual loggers. Exclusive of this, 60,000,000 feet will be cut on the Eau Claire by the Eau Claire and Northwestern Companies, and over 100,000,000 feet on the Red Cedar River by Knapp, Stout & Co., who have the exclusive control of logging operations on that river and tributaries.

N. McRae, Wyebridge, writes: "I have sold large quantities of Dr. Thomas' Eclectric Oil; it is used for colds, sore throat, croup, &c., and in fact for any affection of the throat it works like magic. It is a sure cure for burns, wounds, and bruises."

Richmond Council

Council met on Saturday, Aug. 7. The reeve and all the members present.

Communication from the surveyor general, respecting the gazetting of a road on Sea Island 33 feet wide, off the south side of section 9, was read and placed on file.

A communication was also read from Mayor MacLean, Vancouver, thanking the council for their liberality in behalf of the suffering poor on account of the late fire.

A petition was read from Thos. Thirkell, W. Beckman and others, requesting the council to locate a road leading from the south end of road near Mr. Woodward's westward about one mile, with a view of having the same gazetted as a public highway. On motion the reeve and Councillors Tiffin and Condon were appointed a committee to locate the road.

Messrs. M. Steves and Thos. Paine made personal application to the council to have roadway No. 9 continued westward one mile, and also to have one mile of roadway constructed on road No. 1, offering to construct a 10 ft ditch and 16 ft roadway for $1.25 per rod.

On motion, one mile on No. 9 was ordered to be constructed at above price.

The reeve reported that the body of a white man had been found floating in the slough near Mr. Woodward's; that he appointed two special constables to examine the body, that they found no marks of violence on the body and reported the cause of death drowning; further that he had ordered the body, now considerably decomposed, to be buried on the spot. Report adopted.

Coun. Quigley reported A. Salby's contract completed and recommended payment of balance due on same. Report adopted.

The tenders for ditch and roadway from Green's slough eastward having been opened the contract was awarded to E. Lander, at $2.50 per rod.

On the petition of Geo. Black and others it was ordered that tenders be called for the construction of 1½ miles of ditch and roadway between the premises of Mr. Mr. Milligan and Mr. Vermilyea.

The following bills were ordered paid: A. Salby, $184.35; D. Woodward, $14.50.

The council adjourned to meet on the first Saturday in September.

THE THIN CANNOT GAIN IN WEIGHT if they are troubled with dyspepsia, because the food is not converted into the due proportion of nourishing blood which alone can furnish the elements of flesh. But there is no reason, when this wearing, attenuating disease is conquered by Northrop & Lyman's Vegetable Discovery, why there should not be a appreciable gain in weight, which indeed is usually the case. It is a peerless remedy also for Constipation, Liver Complaint, Kidney troubles, and roots out all impurities from the blood.

The great cigar-shaped raft built in Cumberland, N. S., to be towed to New York, is 420 feet long, 55 wide, and 30 deep, weight 8,000 tons, and contains two and a half million superficial feet of piling and other timber. It is valued at $30,000. The attempt to launch it on the 1st inst. was not successful.

This Afternoon's Despatches.

Special to the Columbian.

LONDON, Aug. 11.—A sensation was caused by statements made in court today in connection with the affairs of the Briton medical and general assurance association. Hearing of petition on winding up of the business of the association was in progress, and during the course of the proceedings the judge stated that the failure of the concern was due to defalcations which would exceed $500,000. He declared every effort would be made to unearth and punish the miscreants who had caused the ruin of the association.

BELFAST, Aug. 11.—The city is quiet. The wounded are improving. A petition which has received numerous signatures has been presented to the mayor demanding the appointment of a royal commission to investigate and report upon the causes of the disorders which have occurred here since June.

BIRMINGHAM, Aug. 11.—Matthews, home secretary, was re-elected to the commons for East Birmingham without opposition.

SAN FRANCISCO, Aug. 11.—The *Call's* New York special says the steam yacht Yosemite, next in size to Jay Gould's swift Atlantic, is now owned by the Canadian government. She is to be used to drive off adventurous American fishermen who may be found within the three-mile limit off the Canadian coast. The formal transfer of the boat to the Canadian government took place yesterday. The Yosemite will sail to-day for Halifax.

SAN FRANCISCO, Aug. 11.—The officers of the third Irish regiment, at a special meeting last night, decided to offer their services to President Cleveland in the event of complications with Mexico.

SAN FRANCISCO, Aug. 11.—Much ill feeling is manifested at an order of the treasury to stamp the word "Light" on every gold coin presented at the subtreasury found to be one-half of one per cent below standard weight. Coins so stamped have to be sold as bullion, thus entailing serious loss on the holders. Coins even slightly worn will thus no longer pass current. The regulation is viewed as particularly vexatious to the people of this coast, gold being the chief circulating medium, paper money not being used.

Much distress and sickness in children is caused by worms. Mother Graves' Worm Exterminator gives relief by removing the cause. Give it a trial and be convinced.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being non-corrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

LAST NIGHT'S DESPATCHES

Special to the Columbian.

BELFAST, Aug. 10. — Temporary quiet has been restored, thanks to the tactical distribution of military forces. Persons wounded in the riot are making fine progress toward recovery, except Inspector Bull, of the Royal Irish Constabulary, who is dying. Inquests are being held on the bodies of those killed, and the funerals of some of the victims will be held to-day. Several persons were wounded in the riot at Springfield this morning.

SAN FRANCISCO, Aug. 10.—General Jno. A. Logan and party will leave here on the 20th inst. for Victoria, Seattle and Tacoma. After a short visit to the latter places they will proceed to Portland and return east by the N. P.

Twenty pounds of opium, valued at $325, was seized on the str. Mexico soon after her arrival from Victoria and Puget Sound to-day. The drug was found in a package sent through Wells Fargo & Co.'s express to How Kee & Co., 616 Dupont st. It is claimed that the opium came from Port Townsend, and hence was not liable to duty, but as it was unstamped it was taken under a provision that authorizes the seizure of all opium not bearing the necessary stamps.

SAN FRANCISCO, Aug. 10.—Arrived, ship Two Brothers, Tacoma; str. Mexico, Victoria. Cleared, str. Empire, Nanaimo; sailed, ship Ericcson, Puget Sound.

BELFAST, Aug. 10.—5000 troops and 2500 constables occupy the disturbed districts. The presence of the police tends to increase instead of suppressing disorder. *Protestants declare that* Catholics were the aggressors by wrecking Protestant houses, while Catholics are equally certain that Protestants were the aggressors. Of one thing there is no doubt, never did two mobs of different religions display more blood-thirsty desire to kill or maim each other. During the fighting on Sunday and Monday, when even powder ran short, viragoes on both sides with flat irons and implements ground grains of large blasting powder into a size suitable for small arms, while boys under age melted lead into bullets and slugs. While the rioters were firing, youth and women stood behind them busily loading spare guns in order to prevent waste of time. The fusilade lasted until 9 o'clock yesterday evening, when ammunition gave out and a tacit truce ensued, both sides removing dead and wounded to their homes. Both sides are doing their utmost to hide their losses. On Monday the Protestants received a welcome donation of 25 rifles and much ammunition from Bally Maccaret sympathizers, while the Bally Nabet nationalists sent the Catholics a supply of ammunition and many revolvers of the type called "sweethearts." A plentitude of weapons will constitute gravest danger in future. A visitor who has been studying the cause of the riots writes: "It is useless mincing matters; the police have fired upon and slain the people from panic or from vindictiveness. When people have friends dead or dying its worse than useless to say they want to attack only the police. The latter now represent the people's deadly death-dealing enemies. The friends of the killed and wounded all regard the police as foes. Their bare presence is a terror to be repulsed and excludes the idea of wantonness." This is now the great supreme difficulty. Numerous complaints have been made of the behavior of the police. One citizen says: "While going home through a quiet street I was stopped by several constables who rudely searched me and ordered me to give an account of myself and then imperatively commanded me to go home at once." Another writes that five constables who drifted into a respectable tobacconist's shop upon seeing a pouch engraved with the likeness of Chamberlain flung it down cursing Chamberlain for "going against them." One of them addressing the lady behind the counter said: "Your'e afraid of the Tipperrary boys. I put six bullets into an Orangeman last night, and I'll give them double to-night. If I had my own way I would not leave one!"

Maurice Healy, M.P. for Cork City, has been instructed on behalf of the widow of Constable Gardner, who was killed during the Orange riots here, to claim from the city an indemnity of £10,000 for his death.

NEW YORK, Aug. 10.—The executive committee of the Irish parliament fund association decided this evening to place the $53,000 that had been collected by the association in the bank of New York at 1½ per cent interest until it should be needed by Parnell.

LONDON, Aug. 10.—T. D. Sullivan, member of parliament for Dublin, at a meeting of the National League held here to-day, made a speech in which he maintained that until tenants in Ireland had sufficient food for themselves and their families their landlords could have no just claim to rent. Sullivan counseled the Irish people to act according to the law of self-preservation, which he reminded them was the first law of nature. The Belfast rioting, he argued, was based upon the prejudice and feeling that had grown up under the encouraging influence of "foreign misrule," and was of a nature utterly at variance with the real Irish people.

The queen's speech on the reassembling of parliament will be of remarkable brevity. Beyond a reference to foreign relations, probably no subject of importance will be touched on, and the speech will be confined to the business of the session.

BELFAST, Aug. 10 —About 5 o'clock this afternoon two men were shot by disorderly persons in different parts of the city. One of the men was shot while in the Catholic cemetery attending the funeral of a victim of the recent riots. Special constables are being enrolled. A fund is being opened for the relief of the families of the killed.

GASTIEN, Aug. 10.—The Emperor William took his departure to-day for Ems. The Emperor Francis Joseph accompanied him to the station, and the two monarchs, amid cheers from the crowd which had assembled, bade each other farewell with much affectionate demonstration. They embraced and kissed each other several times.

LONDON, Aug. 10.—Friday's returns from the cholera infected districts in Italy are: Barletta, 119 new cases, 51 deaths; Bologna, 11 new cases, 9 deaths; Ravenna, 34 new cases, 10 deaths; Hescartini, 19 new cases, 5 deaths; Berdola, 13 new cases, 3 deaths; and elsewhere, 59 new cases, 18 deaths. The Austro-Hungarian *reports are: Trieste, 8 new cases,* 2 deaths; Fiume, 2 new cases, no deaths.

DUBLIN, Aug. 10.—The *Gazette* announces that Belfast and Londonderry have again been proclaimed. There has been no more rioting in Belfast up to midnight to-night. Mr. Biggar, in a speech before the Catholic commission, said that the justices and Protestant clergy of Belfast encouraged the rioting and acted unjustly. The mayor of Belfast, he said, ought to be put in the dock as a criminal.

BELFAST, Aug. 10.—The magistrates dealt severely with the rioters who were tried to-day. Throughout the day and evening sullen crowds gathered on the streets with a desire to renew the rioting, but fear of the troops *prevented an outbreak. The Queen's* Island men rejected the magistrate's appeal to return to their homes in small bodies instead of compact crowds. They carried a good supply of missiles for use in the event of being attacked. Youths and girls continue to indulge in rowdyism. Clergymen of all creeds are visiting the worst districts in the city and are trying to persuade the people to preserve peace. Shops and other business places in the city remain open as usual. Notice has been served on the wholesale spirit and beer dealers warning them that a penalty of £10 will be inflicted for selling drink for consumption in the vicinity of their premises.

LONDON, Aug. 10.—Owing to the rainy weather in Russia, during the past two weeks, grain is rotting in the fields and farmers are greatly depressed.

Advices from Tientsin say that excitement prevails there over the report that the island of Lagreff, on the Pacific coast, has been occupied by Russia.

PARIS, Aug. 10.—Cholera of a virulent character has attacked the French troops in Tonquin. The chief of the medical staff has succumbed to the disease.

SAN FRANCISCO, Aug. 10.—The schr. Bonanza, which arrived this afternoon from the Arctic, brings news that the whaling bark John Carver was crushed in the ice north of St. Lawrence island June 25th. The vessel is a total loss: the crew saved. She was owned by Commodore Lewis, New Bedford.

Manitoulin Island on Fire.

NOVEL EXPERIENCE OF A CANADIAN STEAMER.

CHICAGO, July 31.—The Canadian steamer Isaac May staggered into harbor early to-day, without fuel and destitute of provisions. Capt. Muir, her master, relates a strange experience. The May left Chicago three weeks ago, towing the barges Severn, Muskit and Waubashene. After a run of five days they arrived at Manitoulin island, on the Canadian side of Lake Huron. It is the largest island in the great lakes, and is covered with cedar trees. For *weeks not a drop of rain had fallen.* Shortly after the steamer and her tow began to take on their cargo of posts and ties the woods suddenly burst into a great blaze, and no sooner had the fire started than a severe wind storm came over the island, driving flames in every direction. The people fled in terror to the beach, and sought shelter on board of vessels, which pulled out into the lake. Scores of bear, roaring with pain, ran out of the woods, with the hair singed from their hides, and plunged into the lake. The scene was grand beyond description. Flames shot into the air for hundreds of feet and turned night into day, while the heat was so intense that the boats were obliged to leave their moorings and push out into the lake. The noise was deafening, and amid all the din and confusion thousands of birds fluttered around their late homes until tired with their constant flight, when they dropped into the lake or fell into the flames. In numerous cases deer and bear rushed from the woods together and threw themselves into the cooling waters of the lake. For five days the flames held their sway, burning over acres of valuable timber, and destroyed a vast amount of stock that had been piled on the beach for shipment. Then a drenching rain storm set in, and continued until the fire was put out.

It was ten days from the time the vessels reached there before they were ready to leave, and their stock of provisions was almost exhausted in caring for the people who took refuge on them. Still Captain Muir thought he could make his provisions hold out until they reached Chicago, but he did not count on having head winds all the way. The vessels left the islands last Saturday morning, and as dense clouds of smoke from the burning timber had settled down over the water, the vessels had to pick their way through the darkness. The steamer passed through the straits Monday evening, but had hardly entered Lake Michigan when they ran into another bank of smoke that shut out everything from view. The first barge in tow could not be seen from the decks of the steamer. Capt. Muir was momentarily expecting a collision with some approaching vessel. On all sides could be heard the signals of passing steamers, but by moving slowly and sounding the whistles at frequent intervals, the steamer made her way through the smoke in safety. His progress had been so greatly impeded, however, that when about 100 miles north of Chicago the engineer reported that the coal bunkers were *empty, and that there was* nothing left to eat but salt pork. Consequently the crew were put upon short rations, and the deck load of posts were drawn on to feed the furnaces, but the cedar was so green that the boilers could hardly be kept warm, and finally the steamer had to cut her consorts adrift and came to Chicago without them. She made her way *here under sail, and tugs were sent out* to search for the barges.

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver;

Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; H. F. Keefer, Contractor, C. P. R.; J. W. McFarladd, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., Real Estate Brokers; A. W. Ross, Real Estate Broker; Gravely & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. R. C. P. Mills. je30tc
