Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can scap all classes, viz.:

Yours Respectfully,

HENRY W. HUGHES.

NEW ADVERTISEMENTS THIS DAY.

To the Electors.....D. McGillivray
Tenders.....H. Abbott

Daily British Columbian

Saturday Evening, November 6, 1886.

A Delightful Climate.

Persons who have arrived here from the east during the past few weeks are greatly delighted with our climate. In some of the eastern provinces they have had sleighing since the middle of October, and even Ontario has long ago experienced the chilling effects of the early snowstorms. East of the Rocky Mountains winter is presenting its icy hand, and people are preparing for the long and gloomy period when the face of nature will be white and frigid. In British Columbia, or in this part of it at least, there has been no winter yet. The fields are green, the flowers and plants in the gardens still bloom and grow, and the weather is mild and delightful. There is no climate in Canada that can be compared with the climate of British Columbia.

Wrong as Usual.

Referring to the late convention the *Guardian*, which is very appropriately the organ of Mr. Chisholm, states that it represented only a small majority of the electors. It says: "The number of polling districts is 14, of which 7 only were represented. Those represented by the 32 delegates have 842 voters; the 7 districts not represented at all have 691 voters." This is altogether incorrect. As a matter of fact there were 9 polling districts represented at the convention, and 5 unrepresented. The voting power of the represented districts is 1,151, and of the unrepresented 466. According to the figures given by our cotemporary there are only 1,533 Dominion voters in the district, whereas as a matter of fact there are 1,617. It should be remarked also that with one exception (the result of an oversight) every polling division was asked to send delegates, and if some failed to do so the fault does not lie with the convention or those who called it.

Sunday Observance.

Councillor Elliot gave notice at last meeting of the city council that he would introduce a by-law next Monday to provide for the observance of the Sabbath. This is a matter that desires the careful attention not only of the council and citizens of New Westminster, but of every British Columbian. Large numbers of people are arriving from the east, and many of them are seeking permanent homes among us. In eastern Canada the Sabbath is generally observed by the closing of all business places and the avoidance of unnecessary work. In this country it is nothing unusual to see shops open, bars open, and men engaged in their regular business employments. These flagrant breaches of the laws of the land, as well as the higher law, give all new comers of the better class a very unfavorable impression. People who have been accustomed to communities where Sunday is observed as a day of rest, especially those who have young families whose best interest they hold to be of more importance than temporary success, view with considerable misgiving the results of making their homes among those who seem to regard no principle that lies in the way of present gains. And yet these are the very classes of people that are most desirable as permanent citizens. They are safe, substantial, and not apt to become in any sense a burden upon the country, but a source of material strength and permanent revenue. It has been demonstrated by experiment, too, that a man who carries on his ordinary business on Sunday the same as on other days, cannot accomplish as much labor, either physical or mental, as the man who takes a seventh part of his time for rest. A candle burning at both ends may give more light than one that burns in the ordinary way, but its life will not be half as long. Whether the physical, material or moral interests of men are considered, it is a mistake to allow the claims of the Sabbath to be disregarded. We are not in favor of making the Sunday laws unnecessarily stringent. It is perfectly true that men cannot be made good by act of parliament, and the liberty of personal action ought always to be preserved as far as it possibly can without endangering the good of the commonwealth. But the difference between liberty and license must not be forgotten, or the principle that individual liberty cannot be allowed to interfere with the general public good. A majority of the people are probably agreed that the observance of the Sabbath would be in the interest of the state, and if individuals attempt, for selfish purposes, to destroy that principle, the liberties of such individuals must be curtailed in the public interest. We hope Mr. Elliott may make his by-law such an instrument as will fairly meet the case, guarding the interests of the city without unduly interfering with personal liberty, and that the measure may receive the cordial support of the civil authorities and the people.

TO THE ELECTORS OF
New Westminster District.

AS NOMINEE OF THE DISTRICT Convention, I have consented to offer myself as a candidate to fill the vacancy in the House of Commons caused by the death of Mr. Homer.

PYÆMIA

Is the most virulent form of blood-poisoning. Less speedily fatal, but not less certainly so, is the vitiation of the blood of which the first symptoms are **Pimples, Sties, Boils,** and **Cutaneous Eruptions.** When the taint of **Scrofula** gives warning of its presence by such indications, no time should be lost in using AYER'S SARSAPARILLA, the only perfect and reliable medicine for the purification of the blood.

SCROFULA

Is a foul corruption in the blood that rots out all the machinery of life. Nothing will eradicate it from the system and prevent its transmission to offspring but AYER'S SARSAPARILLA. This preparation is also the only one that will cleanse the blood of Mercurial poison and the taint of Contagious Diseases. Impoverished blood is productive of

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

As a purifier, Ayer's Sarsaparilla acts directly and promptly. A single bottle will prove its merits. Many thousands of people have yearly escaped from dangerous fevers by the exercise of a little timely care in properly cleansing the system by the use of this remedy.

Mr. GEORGE Carter, of Langley, brought to this office to-day a golden russet apple, that measured 12 inches and weighs 13 ounces. Mr. Carter says he had a gloria mundi which weighed 32 ounces and another weighing 28. An apple grown in the garden of the Bishop of New Westminster at this city weighed 30½ ounces. The record still goes up.

It appears that the hanging of Ah Suet at New Westminster was done in a very crude manner, the victim being strangled.—*Vic. Times.*—We suppose the *Times* obtained its information from the *Guardian*, which published a very [illegible] truthful report of the execution. Ah Suet was not strangled, but his neck was broken. For this statement we have the authority of the governor of the jail and the acting police magistrate, both of whom were present.

C. R. Eddy, Greenville, Ill., says: "I have sold at retail 156 bottles of Dr. Thomas' Eclectric Oil, guaranteeing every bottle. I must say I never sold a medicine in my life that gave such universal satisfaction. In my own case, with a badly ulcerated throat, after a physician had pinching it for several days to no effect, the Eclectric Oil cured it thoroughly in twenty-four hours, and in threatened croup in my children this winter, it never failed to relieve almost immediately."

COMMONS ELECTION.—We are authorized to state that Mr. Donald Chisholm is in the field as a candidate for the seat in the House of Commons rendered vacant by the death of our late lamented representative, Mr. Homer. dwoc25tc

ON PLEASURE BENT.—Several young gentlemen of the city met last evening and decided to organize a quadrille club. A committee was appointed to draw up rules and regulations and these will be submitted for approval at a meeting to be held next Monday evening. Shortly after it is intimated that we may expect to hear of preparations for a grand ball as the club intends to start in that way.

THE CARIBOO RAILWAY.—Mr. McEvoy who recently arrived from the interior, came out from Cariboo through the Bonaparte Valley, the proposed route of the projected Cariboo railway. He reports the valley as offering an easy, practicable route, quite different from any other section of country where railway construction has taken place in the province. He says no difficulty as to the route will stand in the way of a railroad so soon as the Cariboo quartz mines are ready to give it plenty to do.

SELF OR SUICIDE.—A bottle was picked up by Mr. J. A. Paine off Saturna island containing a paper on which was written, in pencil, the following words: "Port Moody Sept. 1st, 1886.—To whom it may concern: I, James Istot, native of England, am tired of life, and drown myself this day. May God pardon me for this rash act, and comfort my dear old mother in her old age. Goodbye to earth and all. JAMES ISTOT."

MAYOR FELL'S MISSION.—A despatch from Ottawa dated the 27th October says: Mayor Fell, of Victoria, B.C., arrived here this morning. He interviewed Mr. Thompson, minister of justice, yesterday, in regard to the hanging of Sproule. Mr. Fell told Mr. Thompson that if he did order the prisoner's hanging, he would have to take the responsibility. "That I will do," said Mr. Thompson. This morning the minister received from Victoria a petition signed by over 100 people praying that Sproule be reprieved.

SUITING THE WORD TO THE ACTION.—A New York Sunday school teacher told her pupils that when they put their pennies into the contribution box she wanted each one to repeat a bible verse suitable for the occasion. The first boy dropped in his cent, saying: "The Lord loveth a cheerful giver." The next boy dropped his penny into the box, saying: "He that giveth to the poor lendeth to the Lord." The third and youngest dropped in his penny, saying: "A fool and his money are soon parted."

A COLONY OF ACADIANS.—It is understood that Mr. J. Hendry, manager of the Royal City Planing Mills, New Westminster, was successful during his recent trip east in inducing a colony of Frenchmen to come out to the province. A number of the industrious and frugal Acadians of Gloucester county, New Brunswick, will reach the mainland early in the spring, and will find employment in the Royal City. They will make good citizens and will be a valuable addition to our population.—*Colonist.* We have enquired at the Royal City Planing Mills, but were not able to obtain any confirmation of the above item.

SPROULE.—It seems probable that Sproule, who was executed for murder at Victoria on Friday, was innocent. Possibly they go to one extreme in the English possessions there; we certainly go to the other. That is, if they sometimes execute the laws too rigorously, unseldom do we execute them rigorously enough. This is illustrated by the difference in the case of Sproule at Victoria and that of Saunders at Albany. Sproule was hanged in spite of doubts of his guilt, and he protested his innocence to the last; while Saunders, confessedly guilty, has so far defeated all attempts to hang him.—*Oregonian.*

KAMLOOPS SCHOOL.—The following is the report of the Kamloops public school for the month of October, 1886: E. Stuart Wood, teacher. Senior 3rd—1, Jessie Wood; 2, Minnie Wood; 3, Maud Clarke. Junior 3rd—1, Lizzie Edmunds; 2, Prescott Wood; 3, Emily Roper. Second class—1, Hilda Wood; 2, Lily Wood; 3, Edith Wood. Part 2—1, Bennie Edwards; 2, Willie Wood; 3, Jennie Wood. First class—1, Artie Edwards; 2, Thos. Spellman; 3, Ernest Dodd. Average daily attendance for the month, 26.09. The following were promoted from part 2 to second class: Hilda Wood, Lily Wood, Edith Wood, Carrie Edwards and Leonard Dodd.

BIG DEAL IN HIDES.—Mr. James Hallam, the manager of the Toronto Hide and Wool Co., of Winnipeg, has just returned from a trip to British Columbia, where he purchased about 3,000 hides from the firm of Hull, Trounce & Co., of Kamloops. This will be the first shipment of hides from that province to eastern Canada. Formerly the B. C. hides were sent into the San Francisco markets. This is probably the largest single purchase of hides from any one butchering firm in Canada. Mr. Hamilton also bought several carloads of wool in and and around Calgary, and both hides and wool have been shipped to John Hallam at Toronto.—*Calgary Herald.*

A GOOD PAPER.—We are receiving from all quarters expressions of satisfaction at the WEEKLY COLUMBIAN. Subscribers are greatly pleased with it, and do not hesitate to say so. If those who take an interest in the paper wish to give a practical turn to their good wishes they may do so by recommending it to persons with whom they come in contact. To all new subscribers who pay $2 for 1886 the *Weekly* will be sent for the balance of this year *free*; $1 in advance will pay from the present time to the 31st December, 1887. Any person getting up a club of 5 new subscribers and sending $10 will be entitled to receive an extra copy free. In all cases no charge will be made for the balance of this year.

Personal.

We regret exceedingly to learn that Mr. J. C. Hughes, who has been ill for some weeks, is apparently growing worse, and his case has greatly alarmed his friends.

Mr. W. C. Van Horne, vice president and general manager of the Canadian Pacific Railway company, left Montreal a few days ago on a tour of inspection along the line to the Pacific coast.

Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator is a pleasant and sure cure If you love your child why do you let it suffer when a remedy is so near at hand?

A Constitutional Question.

Reform papers have been contending all along that an important change having been made in the adoption of the franchise act it was the duty of the government to go to the people without calling parliament together for another and the last session. In a recent speech Mr. Blake put the matter in such a concise form that we reproduce his words. He said: "The term of parliament is but five years, and under ordinary circumstances it is not expedient that the country should be plunged more frequently than at these intervals into the turmoil of a general election. But it is expedient when the parliament has condemned itself as being the product of a constituency altogether too narrow, when it has enormously increased that constituency, that, being self-condemned, it should be also speedily executed and a new parliament elected by the broader constituency which has been established as the true exponent of the views of the people."

Our Woolen Mill.

THE MACHINERY ON THE WAY TO THE CITY.

We are happy to be able to announce that the effort to start a woolen mill in this city is about to be crowned with success. The plant has already been ordered from Lowell, Mass., and is on the way to the city, and to-day Mr. J. N. Draper, secretary of the company, mailed a check in payment for it. The machinery is expected to arrive within a week or two, when it will be put up and prepared for operating immediately. Thus one enterprise after another gradually approaches completion, and one industry after another slowly but nevertheless surely gathers itself about the Royal city, thus demonstrating that out excellent natural position and advantages are being appreciated. Of the enterprises that have been started in New Westminster none, probably, have a greater significance than the woolen mill, which, although not a great thing in itself, will we believe prove to be the nucleus of a great industry in this city, which by nature is destined to become the chief manufacturing centre of British Columbia.

What Toronto's well-known Good Samaritan says: "I have been troubled with Dyspepsia and Liver complaint for over 20 years, and I have tried many remedies, but never found an articles that has done as much good as Northrop & Lyman's Vegetable Discovery and dyspeptic Cure." CLARA E. PORTER.

Guy Fawkes' Anniversary.

The two hundred and eighty-first anniversary of the discovery of the Gunpowder Plot was commemorated by the Orangemen of this city and their friends last evening with a ball in the Orange hall. A large number were present and a very enjoyable time was spent, the festivities being kept up till early this morning. Although it is perhaps as well to forget in these enlightened and liberal days those deeds which were prompted by intolerance and religious bigotry, it may be interesting to recall a few of the particulars connected with the event which was commemorated by so many yesterday. "Gunpowder Plot" is so called from an attempt to spring a mine under the houses of parliament and destroy the three estates of the realm, king, lords and commons, therein assembled. It was projected early in 1604, and for eighteen months the preparations went on. Although many were in the secret, no breath of it got abroad. A cellar beneath the house of lords had been hired, and 36 barrels of gunpowder were placed there. Coals and sticks were strewed over these, and the doors were then thrown boldly open, but still no detection. Only a day or two before the time appointed for the meeting of parliament an anonymous letter was sent to Lord Monteagle warning him not to attend the opening. The letter contained the following words: "Though there be no appearance of any stir, yet I say they shall receive a terrible blow this parliament, and yet they shall not see who hurts them." The communication being laid before the council, King James was the first to guess that gunpowder was meant, and the vaults under the house of lords being searched, Guy Fawkes was detected preparing the train for being fired next day. Catesby and Percy, of the family of Northumberland, were killed at Holbeach house, whither they had fled, and Guy Fawkes, Sir Everard Digby, Rookwood, Winter and others were executed the following January. Henry Garnet, a Jesuit, also suffered death, as an accomplice. As a result of this plot penal laws of the severest kind were inflicted on all Catholics, although it has never been shown that any outside of a ring of political conspirators ever acquiesced in this, the foulest of plots recorded in history. Some of these laws remained in force till a few years ago, when they were wisely struck off the British statutes.

J. H. Earl, West Shefford, P. Q., writes: "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horse in cases of cuts, wounds, &c., and I think it equally as good for horse as for man."

ELECTORS

GENTLEMEN.—As a successor to your late representative in the Commons, I will soon have to be elected, I hereby announce myself a candidate for the position.

I purpose publishing an address in which I will give my views on the most important questions affecting your interests, and will visit the different settlements and address the electors before election day.

Supreme Court.

In the case of Clarke and Matthews vs. the Chief Commissioner of Lands and Works, Mr. Justice Gray gave the following judgment the other day at Victoria:

This is an application on behalf of the plaintiffs to the court for a *mandamus* to the chief commissioner of lands and works commanding him to issue crown grants to the plaintiffs of certain lands in the district of New Westminster claimed by them under the land acts. Before going into the merits of the case a preliminrry objection is taken by Mr. Irving, deputy attorney-general, on behalf of the crown, that the plaintiffs have mistaken their remedy, that a *mandamus* will not lie in a case like the present, but the remedy must be by petition of right. There is a marked distinction between departmental acts, to be performed by the minister of the crown in discharge of the duties pertaining to his office and proceedings in which he simply acts in a representative capacity. In the first a *mandamus* will lie because the queen is simply commanding him to do his own duty as defined by law. In the latter the act he does is not his own act, but a vicarious act—the act of the sovereign. Practically, the result may be the same, but constitutionally the proceeding is entirely different. The present case illustrates the distinction under the constitution. All ungranted lands are vested in the crown, held it is true for the use of the public, but theoretically under the constitution disposed of by the crown *ex gratia*. The grant is made in the queen's name, the fee is held from the queen, and can only be divested out of the queen by her own act. A minister of the crown, be he commissioner of crown lands or filling any other office, cannot do it in his own name; what he does to divest the fee is regarded and supposed to be the personal act of the queen. By her assent constitutionally given to the land acts, it is enacted that, under certain terms and on certain conditions, grants of land from the crown may issue, and it is the duty of the commissioner of crown lands to see that those terms and conditions are complied with, and when they have been complied with, then the crown will make the grant, not the commissioner or any other minister. The fee will pass from the crown, not from the commissioner or minister. A *mandamus*, as already stated, is simply an order from the crown to a subordinate officer to do something the law states to be his duty An order therefore from the crown to the crown to do something would simply be an anomaly, and under our constitution cannot be. The local government itself, whatever may be its power, acts in the name of the queen. The lands though under the control of the local government are held by the government in the name of the queen; the fee is not vested in the local government. The distinction between the *mandamus* and the petition of right, so far as the subject is concerned, is one of form, but of constitutional form which the court cannot depart from without positive legislation permitting it. The subject who claims that he has complied with the law and therefore becomes entitled to a grant of land is not without his remedy. Under the constitution that remedy is by petition of right. He sets forth his case. The commissioner of lands or other minister whose duty it is gives his answer; the case is heard, determined by the court and the law carried out. The law and practice are both well known in this province, and the distinction between the departmental duties and vicarious duties of the minister shown in the cases determined in this province, namely: In the matter of Eli Harrison, jr., under the land ordinance, 1870, July 15th, 1870; Vowell vs. the Queen, 9th August 1875; Peck *et al* vs. the Queen, 17th March, 1884; DeCosmos vs. the Queen, 2 B. C. Reports, 26. Until overruled these cases must govern. The application for a *mandamus* must therefore be refused. The crown asks for no costs.

An Efficient Remedy

In all cases of **Bronchial and Pulmonary Affections** is AYER'S CHERRY PECTORAL. As such it is recognized and prescribed by the medical profession, and in many thousands of families, for the past forty years, it has been regarded as an invaluable household remedy. It is a preparation that only requires to be taken in very small quantities, and a few doses of it administered in the early stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

Ayer's Cherry Pectoral

Has preserved the lives of great numbers of persons, by arresting the development of **Laryngitis, Bronchitis, Pneumonia,** and **Pulmonary Consumption,** and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of **Croup,** the alleviation of **Whooping Cough,** and the cure of **Colds** and **Influenza,** ailments peculiarly incidental to childhood and youth. Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases, entail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful efficacy, while the malady is constantly gaining a deeper hold, but take at once the speediest and most certain to cure,

Ayer's Cherry Pectoral,

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being non-corrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

PESTH, Nov. 5.—The members of the ministry disavow President Smolka's speech in the Austrian delegation yesterday. It is reported that in consequence of the speech of Smolka the emperor considered it necessary to redraft his address which is to be delivered to-morrow to Count Kalnoky, Austro-Hungarian foreign minister. In answer to inquiries from Austrian delegates he stated that he disapproved of Smolka's speech.

SAN FRANCISCO, Nov. 5. — The American bark Sierra Nevada, 48 days out from Seattle for this port, has been given up for lost. It is believed she foundered during a heavy storm on Sept. 21st. She had on board 12 men including Capt. F. H. De La Roche. Her owner Leon Blum, of this city, estimates his loss at $12,000. Insurance, $6000.

NEW YORK, Nov. 5.—The Canadian Pacific officials are reported as saying that their road will be running into Boston before May, 1887. The road will use the bridge now building over the Lachine rapids and enter Boston via the Boston & Lowell road. The cars are now being built and other equipments have been provided for.

RICHMOND, Va., Nov. 5.—2 slight shocks of earthquake were felt here at 11:30 a.m. The vibrations were felt in the upper portions of houses. No damage reported.

SAN FRANCISCO, Nov. 5.—Early this morning as the two clerks of the 6th precinct, 48th district, were carrying the tally list and ballots to the registrar's office they were attacked by 2 men. In the scuffle which ensued the ballots were taken but the tally list was preserved. Later this morning officers arrested one man on suspicion and other arrests ar expected soon to follow.

INDIANAPOLIS, Ind., Nov. 5.—Complete returns from all but one of the counties in the state give Robertson, Republican candidate for lieut. governor, 3667.

WILMINGTON, Del., Nov. 5.—Delaware's official returns complete foot up for Governor Biggs, Democrat, 13,942; Hoffaker, 5663. For congress, Pennington, Democrat, 13,837; Cooper, prohibitionist, 8,386. The legislature is solid Democrat.

SAVANNAH, Ga., Nov. 5.—A severe shock of earthquake was felt here just as the clocks were striking 12 to-day. Tybal island reports it the heaviest felt there since Aug. 31st. It was preceded by loud rumbling and lasted 30 seconds. People all rushed into the streets. No damage was done beyond the cracking of glass.

AMSTERDAM, Nov. 5.—Socialists Vanstadt and Fortune are on trial for publishing seditious pamphlets. The prosecutor demanded that each be sentenced to imprisonment for 6 months. Judgment was deferred.

BERLIN, Nov. 5.—Reports in the Austrian press that Mme. Gorster had, since the birth of her daughter, lost her voice and that her husband deserted her and that she became insane elicited a telegram from her declaring the story a libellous untruth and that she is living happily with her husband.

BERLIN, Nov. 5.—The Emperor William has abandoned his proposed visit to Hanover owing to the severity of the weather.

LONDON, Nov. 5.—Lord Bradbourne, writing to the editor of Blackwood's magazine, accuses Gladstone of several mis-statements and perversions of Irish history without the courage to defend or the candor to withdraw them.

The proposed Socialist meeting in Trafalgar square on Lord Mayor's day has been prohibited.

Mme. Patti will sail from Queenston for New York on Sunday.

PARIS, Nov. 5. — *Anglophobia*, a French newspaper, commenting on the result of the Canadian elections draws the conclusion that Lower Canada is preparing to secede in order to be better able to live in accordance with its French instincts and to prove that it will no longer be dominated by Anglo-Saxon masters.

NEW YORK, Nov. 5.—French delegates to the dedication of the Bartholdi statue of liberty were banquetted by the American statue committee and prominent French residents at Hoffman house last night. DeLesseps sat at the head of the table and on either side of him were Mme. Bartholdi and Mme. Bigot.

LOUISVILLE, Ky., Nov. 5.—Father Joseph died at Gettesmore abbe, Newhope, Ky., aged 78. In the world he was E. M. Corcia collier, an opera sing, a music teacher, and a composer. He was well known in Europe and America. He was a member of the order of Trappists.

ST. PAUL, Minn., Nov. 5.—With official returns from 65 out of 80 counties and pretty complete returns from most of them the *Pioneer Press* figures McGill's majority 2874. The *Globe* still claims the election of Ames, though not giving the exact figures.

WAXAHACHIE, Tex., Nov. 5.—The information was received here to-day of the assassination of Deputy Sheriff Samuel Lindsay, in Raines county, by Jos. Stroude, formerly a resident of this county. Deputy Lindsay accompanied by Deputy Swetle went after Stroude to serve a warrant charging him with carrying mortgaged property out of the county. Stroude opened fire when the warrant was read, instantly killing Lindsay. Deputy Swetle thereupon fired, killing Stroude.

CHARLESTON, S.C., Nov. 5.—All the school was in session at the time of the shock to-day. One pupil in a colored school was crushed during a panic and several pupils in another school were injured by falling plaster.

CANDIA, Canada, Nov. 5.—Republican congressmen, and the entire republican state ticket were elected, with the exception of Edwards for supreme judge. The legislature is republican by about three-fourths on joint ballot.

MADRID, Nov. 5.—Exports from Spain during October increased nearly $5,000,000 as compared with the same month of 1885. Half of the increase was derived from wines exported to England since the new treaty with that country went into effect.

SAN FRANCISCO, Nov. 5.— The *Evening Bulletin* publishes figures giving the returns from 173 precincts in the city, with three only to hear from. They give Swift 15,173, Bartlett 17,174; plurality for Bartlett in city, 1,901. This shows a heavy gain on the noon count.

7:45 p. m.—Bartlett's plurality in the city is 1979. It is believed he is elected by about 100 plurality.

LATER—9 p. m.—A corrected count up to this hour gives Swift a plurality of 1778 votes in the country. It is claimed that the official count gives Bartlett a plurality in the city of 1975.

VERY LATEST—12 p. m.—No further changes of any importance in regard to the election for governor have come in since 9 o'clock. The principal change that will take place will be in Humboldt, where complete returns will cut down Swift's reported plurality, as the remaining precincts to be heard from have always given democrat majorities. Complete returns from this city give Swift 15,555, Bartlett 17,629, Wigginton 3,042, Russell 313, O'Donnell 8,916.

LONDON, Nov. 5.—A remarkable storm cloud has burst over the lake district in England, and is the heaviest ever known in that locality. The damage to property is very large. Many cattle were lost.

CONSTANTINOPLE, Nov.—It is reported that Mr. Heap, now consul general, will be appointed to succeed Cox, U. S. minister.

Chamberlain, in an interview with the sultan, advised him to open Turkey to enterprises for foreign capital, in the way of railroads and other works to develop the immense resources of the empire. The sultan expressed his readiness to encourage such enterprise. He regretted that European capitalists had not already proposed schemes of public utility. He admitted Turkey was much behind other countries, but said he would devote all his efforts to improving the country's condition, and hoped for a continuance of the present good relations between Turkey and England.

TRNOVA, Nov. 5.—Russian Captain Nabokoff, leader of the coup d'etat in May last, at midnight on Wednesday led a band of Montenegrins which attacked the prefecture at Burgazzis, when the prefect and other officers proclaimed Russian rule. The government has sent troops to quell the revolt. An officer who escaped from Bourgaz says the population are awaiting the coming of troops to assist them in an attack upon the Russians. Nobakoff's band started from the Russian consulate. Five Zankoffites were among the revolutionists. A Russian war ship is at Bourgaz.

A ukase has been issued granting amnesty to the regiments that assisted in the deposition of Prince Alexander. This is considered a censure of Gen. Kaulbars, who demanded the release of officers only, without mentioning privates. Several deputies have telegraphed to Gladstone asking him to use his influence with Russia in behalf of Bulgaria.

ST. PAUL, Minn., Nov. 5.—Three entire days have passed since the polls were closed, and it is not yet certainly known who is to be the next governor of Minnesota. Both parties still claim the election of their respective candidates, and charges of fraud and prospects of contests and possible litigation are looming up unpleasantly. Latest returns put Ames (dem.) in the lead by 1560.

SANTA ROSA, Cal., Nov. 5.—J. T. Noon, a well-known lawyer, was shot and killed in his office here this morning. John Bailiff, a farmer, and Al Reed, his brother-in-law, were found in the room with him, with three pistols partly emptied, several shots having been fired. The cause is not made public, but rumor points to matters of a rival nature.

CHARLESTON, W. Va., Nov. 5.—From most reliable information received here, the next legislature will be democratic on joint ballot by nine votes. This will elect a successor to Senator Camden, democrat.

A Good Scheme.

Brown—Did you go for a vacation this summer, Smith?

Smith—Oh, yes.

Brown—How did you manage your business affairs?

Smith—I took my advertisment out of the papers until I returned, so there wasn't any business to manage. Great scheme, eh?—*Harper's Bazar.*

When a horse rubs the tail against the stall or fence it indicates irritation from worms. These are removed by giving injections of warm soapy water beaten into an emulsion, with one-fourth part of crude petroleum, or mixed with an equal part of infusion of quassia chips. A drachm each of sulphate of iron and powdered gentian root given daily in a bran mash will be useful. A habit of throwing down fences by rubbing the rump against the corners may be a trick easily learned by horses and no sign of worms, but when a horse is continually rubbing himself in the stall and wears off the hair from the tail, worms are indicated. The parts of the tail and around it should be washed with warm soapy water, a pint of it, and one-half ounce of carbolic acid.

The Great French Remedy, Dr. Le-Duc's Periodical Pills. These Pills are compounded from the purest drugs, and from those only which are known to act upon the *Generative Organs* in Females. They are first enclosed in an air-tight capsule, and by this means made to retain their full strength for years in any climate. Ask us for private circular. A. M. HERRING & D. S. TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver:
Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practically impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicine taken.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required, to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria.
