Daily British Columbian

Wednesday Evening, Feb. 22, 1888.

Strange Doctrine.

Mr. Elliott, a member of the Westminster city council, is reported by the COLUMBIAN to have said in the council chamber: "The only trouble was that the town was too quiet. It was all very well to be moral, but when the town got too moral the effect was bad on business, as business men could vouch for. If this sort of moral business went on some of the best men of the town would be driven out of it." This is an extraordinary statement and the Westminster councillor is probably the first man in a civilized community, who has had the effrontery to embody the idea it conveys in words. * * * Westminster will have the questionable honor of proclaiming to the world through her city council that immorality is not an objectionable feature of the class of settlers which are welcomed there. It probably stands alone in this respect, not only on this continent but in the civilized world. Seriously, however, does this Westminster councillor voice the sentiments of the people of that city, or any great number of them? * * * A man has no right to use a public position in this manner, unless he knows that he is giving expression to the opinions of his constituents. The moral sentiment of the community should give this man to understand that he grossly libels it, and that he should step down and out of a position in which he misrepresents the public. This they owe to themselves, and the good name of the city in which they live, and unless they show in a manner not to be understood that they have no sympathy with, and no community of interest in, the ungodly gains which this man proclaims as a necessity to its existence, they need not be surprised if they find the people who believe that morality is a necessity to the well being of any community, give it the go-by. There is after all not a great many people who care to come in contact with immorality of any kind. It is undoubted evidence of decadence and downfall whether manifested in the individual or the community.—*Vancouver Herald.*

Chilliwhack Council.

Council met on the 6th inst. Present, the Reeve and Councillors Armstrong, Wilder, Kennedy, Wells and Chadsey. Communications were received from W. S. Gore and Hon. John Robson. Petition from Luke Gibson and 17 others asking for a road. Referred to board of works. Bills were received from W.N. Bole and W. B. Hall. On motion it was ordered that all municipal, or government funds, coming into the municipality for public improvement, be equally divided amongst the wards. The Reeve appointed Couns. Chadsey Kennedy and Armstrong a board of works. On motion the councillor for the ward in which work is being carried on, was added to the board of works, during the performance of such works. On motion Geo. Good was elected assessor and collector for 1888, at a salary of $125, and S. A. Cawley clerk at a salary of $100. On motion the collector was instructed to collect the unpaid taxes forthwith after 10th Feb. On motion W. Chadsey's tender for McGillvray slough bridge was accepted. The board of works were instructed to examine road asked for by W. Greyell and others, and report at next meeting. Coun. Wells gave notice that at next meeting he would bring in a motion to correct by-law No. 19, which established a road on the line between lots 345 and 348, instead of on the south side of the line between said lots. On motion the board of works were instructed to examine road applied for by McGuire, and report at next meeting; also road applied for by Castleman. Municipal officers by-law passed through its first, second and third reading, to be reconsidered at next meeting. The following bills were ordered paid: A. C. Thompson, $3, part payment on bridge contract; J. F. Ryder, $10, repairing Hope slough bridge; W. B. Hall, $3.75, work on roads; W. J. Thompson, $25 for returning officer and acting as clerk for three sittings. A resolution was passed asking the government to have the municipalities act of 1888, so amended that it will not be compulsory for municipalities to publish their by-laws in the government gazette. On motion the clerk was instructed to send the proceedings of this council to the COLUMBIAN for publication. Council adjourned to meet the first Monday in March at 10 a. m.

Jas. Shannon, Leaskdale, writes: "For many years my wife was troubled with chilblains, and could get no relief until about two years ago; she was then not able to walk, and the pain was then so excruciating that she could not sleep at night. Your agent was then on his regular trip, and she asked him if he could cure her. He told her Dr. Thomas' Eclectric Oil was a sure cure. She tried it, and judge of her astonishment when in a few days the pain was all allayed and the foot restored to its natural condition. It is also the best remedy for burns and bruises I ever used."

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found as low as at any other office in the province.—*Adv.*

BY TELEGRAPH.

The Crown Prince's Condition Growing Alarming---American Yachts Debarred From English Races.

The Fisheries Treaty---American Comments on the Fisheries Treaty---Compulsory Starvation---Dynamiter Arrested.

THIS MORNING'S DESPATCHES.

THE CROWN PRINCE.

NEW YORK, Feb. 22.—A London cablegram says a French dispatch this morning declared that death was only a question of a few hours in the case of the Crown Prince. This, however, is not credited, but Sir Morrell Mackenzie's protracted stay at San Remo disquiets people. It is known there is a disagreement between him and his German colleagues respecting the treatment of the wound and this gives rise to concern, and superstitious people say the arrival of the Prince of Wales is ominous. Medical bulletins are as reserved as usual, and at Berlin, where his condition is known, the anxiety is great.

THE TRIBUNE DISPLEASED.

NEW YORK, Feb. 22.—In an editorial on the fisheries treaty the *Tribune* says: "The state department's diplomatic triumph is a feeble and incoherent promise. From his own standpoint Bayard has succeeded fairly well in adjusting the technical questions, but even if he has done this he has failed to vindicate the honor of the nation by defending the rights of her citizens engaged in a lawful calling." After reciting the outrages committed in the last two years by the Canadian authorities the *Tribune* says: "The most valid objection to the treaty is that patent fact that nearly all these outrages and indignities can be repeated under it with the same impunity as before. The Canadian government with their customs regulations deliberately harassed and persecuted American fishermen to force the United States to take off the duty on fish. That was their objective point, and it will be again treaty or no treaty."

COMPULSORY STARVATION.

READING, Pa., Feb. 22.—Jacob Hollenberger, aged 20 years, died here yesterday, having literally starved to death. Over four months ago a piece of molten iron flew into his throat while he was working, closing the passage way to his stomach. He has never eaten anything since and was kept alive by liquid injections. His weight was reduced from 165 to forty pounds.

WAR ON BUCKET SHOPS.

CHICAGO, Feb. 22.—Bucket shop proprietors hrve been indicted by the grand jury under the "Gambling Act." The Standard Stock Co., which did the largest bucket business in this city, has gone out of business.

EARTHQUAKES IN ALGERIA.

ALGIERS, Africa, Feb. 22.—At 2 a. m. a slight earthquake, with oscillatory waves from east to west was felt throughout Algeria.

A FOOLISH BOY.

SAN FRANCISCO, Feb. 22.—Louis Bogart, aged 18, quarrelled with his sister yesterday and took strychnine, dying in a few hours.

AMERICAN YACHTS DEBARRED.

LONDON, Feb. 22.—It has been decided by the yacht-racing association that if the Volunteer or Mayflower comes here this summer, neither can enter any regatta of the association. The association refuses to rescind the rule against centerboards until the proposition has been submitted to all individual clubs in the association.

THIS AFTERNOON'S DESPATCHES.

A DYNAMITER ARRESTED.

DUBLIN, Feb. 22.—A man was arrested in Coloraine, County Antrim, last night with dynamite in his possession. He was a stranger and has the appearance and accent of an Irish American. The police regard his arrest as of the most importance.

CYCLONE AND TIDAL WAVE.

SAN FRANCISCO, Feb. 22. — The steamer Australia which arrived from Honolulu this morning brings the news that a cyclone and tidal wave struck the Island of Hawaii on Monday Feb. 6th. At Malukona the wharves and warehouses were swept away and many thousand bags of sugar destroyed. At Spreckelsville the devastation was extremely marked. The building which has been used as a sugar mill was shattered into kindling wood and seven houses occupied by employees were carried some distance away. Fortunately no lives were lost.

THE PRINCE IMPROVING.

SAN REMO, Feb. 22.—The physicians state this morning that the prince has improved and the symptoms are encouraging.

M. A. St. Mars, St. Boniface, Manitoba, writes: "Dr. Thomas' Eclectric Oil is a public benefit. It has done wonders here, and has cured myself of a bad cold in one day. Can be relied upon to remove pain, heal sores of various kinds, and benefit any inflamed portion of the body to which it is applied.

Gold Discovery.

It is reported that rich deposits of gold have been recently discovered in a black sand bank, which is situated on the coast near Copper river, about 700 miles above Juneau. One of the discoverers was offered $25,000 a few days ago for his claim. From three pounds weight of the sand taken from the bank $1.40 in gold dust was obtained. A number of miners left Seattle by the Ancon on her last trip for the new diggings.—*Times.*

FAGGED OUT.—None but those who have become fagged out know what a depressed, miserable feeling it is. All strength is gone, and despondency has taken hold of the sufferers. They feel as though there is nothing to live for. There, however, is a cure—one box of Parmelee's Vegetable Pills will do wonders in restoring health and strength. Mandrake and Dandelion are two of the articles entering into the composition of Parmelee's Pills.

The Provincial Legislature.

In the house yesterday Mr. Humphreys renewed his attack upon members of the government. Among other things he stated that Hon. Mr. Dunsmuir had once told him that Hon. Mr. Robson was dead broke when he entered the ministry, and he insinuated that the hon. gentleman had grown rich at the public expense. Hon. Mr. Dunsmuir emphatically denied ever having made such a statement, but the denial did not prevent Mr. Humphreys repeating it. Mr. Beaven gave notice that he would ask for the removal of Hon. Mr. Turner from the cabinet on account of having some years ago encouraged the removal of the Metlakahtla Indians to Alaska.

Personal.

E. A. Wadhams, of Ladners, is in the city.

G. E. Corbould has returned from Victoria.

J. H. Todd, of Victoria, is stopping at the Colonial.

L. A. Wilson, of Montreal, is stopping at the Colonial.

A. J. McPherson, of Vancouver, was in the city to-day.

Wm. Downie, asst. supt. C. P. R., was in the city this morning.

J. W. Sexsmith, of Richmond, has gone on a visit to Napanee, Ont.

W. L. Cusack, of S. J. Pitts & Co., Victoria, is in the city on a business trip.

Rev. J. Hector and Mrs. Toombs left Victoria this morning on the steamer Yosemite.

J. S. Clute, jun., returned from Victoria last night, where he successfully passed his entrance examination as a law student.

Frederick Townsend, inspector Bank of British Columbia, is in the city and the guest of Mr. Fisher, manager of the Bank of B. C.

Rev. Geo. B. Allen, pastor of the First Congregational Church, Lodi, Cal., has been invited by a full and unanimous vote of the members of the church and congregation to continue in the pastorate.

Mr. R. A. Harrison, Chemist and Druggist, Dunnville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation—such cases having come under my personal observation."

Latest Canadian News.

COBURG, Feb. 15.—A cablegram from Monte Carlo announces the death of Mrs. Rosamond, wife of W. Rosamond, president of the Coburg Woollen Manufacturing company. The lady is the daughter of Col. Skill, a retired British Army officer. The couple were on their wedding tour.

MONTREAL, Feb. 17.—It is stated on excellent authority that Sir Hector Langevin will shortly lead to the altar the fair widow of an ex-government employee at Ottawa.

OTTAWA, Feb. 18.—Van Horne has given the Montreal board of trade a reply to the representations of the Winnipeg board relative to the grain blockade. He says the statements are either gross exaggerations or downright falsehoods.

TORONTO, Feb. 18.—It is said that work on the Ontario, Manitoba & Western railroad will shortly be commenced. The road will run from Port Arthur to Winnipeg and have two branches, one of which will run to Turtle Mountain.

Society circles are agitated over the reported elopement of a young barrister with a pretty girl who operated a type writer in his office. He was married about two years ago to a society belle and is possessed of considerable wealth. His friends claim that he has left the city for a few days on business and will turn up at the proper time.

QUEBEC, Feb. 18.—Just prior to his leaving for Ottawa a number of friends assembled in one of the parlors of the Garrison Club for the purpose of presenting a magnificent horseshoe diamond and sapphire scarf pin to Sir John Macdonald. Mr. Charlebois presented to pin on behalf of his friends and himself.

CALGARY, Feb. 18.—A Gleichen dispatch says the Indians at the north camp of Crowfoot's reserve killed a valuable cow belonging to "Dutch Patrick." The mounted police made three arrests, committing Wolf Tail to stand his trial. The others were acquitted. Some young bucks from the Bloods have been visiting Gleichen to induce the Blackfeet to make trouble in the spring.

Holloway's Corn Cure destroys all kinds of corns and warts, root and branch. Who then would endure them with such a cheap and effectual remedy within reach?

Daily British Columbian

Wednesday Evening, Feb. 22, 1888.

Mrs. Langtry, the actress, some time ago purchased an estate at Carson, Nebraska. An artesian well was ordered to be sunk on the estate, and it is reported that in the process of sinking it a vein of silver was struck which assays over $500 to the ton. The strike has caused intense excitement, and the locality is in a fair way to become as famous as the mistress of the estate. This circumstance ought to afford encouragement to those who have interested themselves in the project of sinking an artesian well in this city. If a silver bonanza rewarded the well diggers of Nebraska, what is to hinder the people of Westminster from meeting with similar good fortune?

Now that the city council has decided to pay for the 2000 copies of the British Columbia edition of the San Francisco *Journal of Commerce*, we hope these beautiful and artistic sheets will not be permitted to lie moulding in the vaults of the city. If it was possible to cut out the illustrations, and hide the glare of the poster-like advertisements, the number would not be a bad one for distribution abroad. It contains many valuable statistics and articles showing the resources of the country; but in spite of Dr. Gray's persuasive disquisitions on art, we say the illustrations are simply abominable, and materially detract from the value of the work. But let it not lie and rot on our hands.

The Toronto *Mail* thinks the salaries of Canadian judges should be increased. While the judges of Great Britain are growing fat on salaries varying from $50,000 to $25,000 a year, Canadian judges are striving to make both ends meet on five or six thousand; and who shall dare to say that a Canadian judge is not worth just as much as any Englishman? The difference in salaries is certainly very striking, but although it must be confessed that, as a rule, our judges are not paid enough, it may possibly be that the English judges are paid just a little too much. A great many eminent Englishmen give their services to their country for nothing; but when they do work for a salary, there's nothing mean about them.

The *Guardian* of this morning informs us that Mr. Elliott's remarks about the city becoming too moral were simply "jocular," and then proceeds to explain that he "never intended to say that true morality could be superabundant: what he desired to draw attention to was the presence of mock morality." We are afraid our cotemporary has not helped the matter at all. If Mr. Elliott intended to refer to "mock morality," or hypocrisy, where did the joke come in? No person could possibly quarrel with the statement that mock morality is not good for a city, for there is no person going to defend that sort of thing. But the trouble is Mr. Elliott did not say that, and until he explains what he did mean to say we must assume that he meant just what he said. If it was meant for a joke, as suggested by our cotemporary, it certainly was one of the poorest of the season; and hereafter we would advise Mr. Elliott to have all such jokes plainly and properly labeled, or people will be mistaking them for poison.

The impeachment resolutions introduced into the house by Mr. Humphreys seem to have created a lively stir in the assembly, and the refusal of the government to grant a royal commission is construed by the opposition into proof positive that the executive is afraid of the truth. Perhaps that is true, and perhaps it is not. Nobody has much confidence in anything put forward by Mr. Humphreys, and although his charge against Mr. Dunsmuir may be founded on fact, it is just as likely to be founded on fiction. It is manifestly improper for a member of the government to sit and vote in the house during a whole session while there is a resolution of impeachment hanging over his head. If the case went to a royal commission, it is quite improbable that a conclusion would be reached until after the house had adjourned, and the president of the council would either be forced to occupy his place with this charge upon him, or to absent himself from the house during the whole session. We presume the house intended, by its resolution of Monday, to ascertain first whether Mr. Humphreys had any backing for his statement before incurring the expense and embarrassments involved in a commission, and we are not sure that its action can be justly censured under the circumstances. But it was intimated that none of the opposition members would act on the committee, and very likely Mr. Humphreys will refuse to appear before it to follow up his case. If so, his action will be regarded as a sign of weakness. If it be taken for granted that the committee has beforehand determined to whitewash Mr. Dunsmuir, nevertheless it cannot suppress the evidence by which Mr. Humphreys may seek to substantiate his charge, and the publication of the evidence is of infinitely more importance than the report of a partisan committee. With the evidence before it the public will very speedily find a verdict for or against the impeached minister, and its verdict will very likely be in accordance with the facts.

Scrofula

Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cured by the use of Ayer's Sarsaparilla.

I inherited a scrofulous condition of the blood, which caused a derangement of my whole system. After taking less than four bottles of Ayer's Sarsaparilla I am

Entirely Cured

and, for the past year, have not found it necessary to use any medicine whatever. I am now in better health, and stronger, than ever before.—O. A. Willard, 218 Tremont st., Boston, Mass.

I was troubled with Scrofulous Sores for five years; but, after using a few bottles of Ayer's Sarsaparilla, the sores healed, and I have now good health.—Elizabeth Warnock, 54 Appleton street, Lowell, Mass.

Some months ago I was troubled with Scrofulous Sores on my leg. The limb was badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy failed until I used Ayer's Sarsaparilla. By taking three bottles of this medicine the sores have been healed, and my health is restored. I am grateful for the good it has done me.—Mrs. Ann O'Brian, 158 Sullivan st., New York. ††

BRITISH HUMOR.

When may a man be said to belong to the vegetable kingdom?—When experience has made him sage.

"Listen to your wife," says a medical advertisement.

"As though one did not have to listen to her!" is the comment of a henpecked one.

Scene—A draper's in Piccadilly.—Customer: "I do not like those colored cravats. They are not 'good form'"

Shopman: "You surprise me, sir. Why, I never wear any other!"

A Western man sent in to the editor of a local paper an item to the effect that his fortieth wedding anniversary would be observed on a certain day. To his disgust, when the announcement appeared, it was found that the printer had left out the word "anniversary."

Teacher: "How many zones are there?"

Boy: "Six."

T.: "No, there are only five."

B.: "Yes, there are six."

T.: "Name them."

B.: "The torrid zone, the northern and southern temperate and frigid——"

T.: "That's five; what is the other zone?"

B.: "O-zone!"

An old gentleman, on taking up his paper, found that he had mislaid his spectacles. "What a nuisance!" he exclaimed. "I have lost my glasses somewhere, and I can't read the paper." Whereupon his little three-and-a-half-year-old grandchild, desiring to assist him, suggested, "Gran'pa, you go outside and look froo ze window, and I'll hold ze paper up so you can read it."

A stout red-nosed man in an hotel offered to wager a sovereign that he could close his eyes and, simply by taste, name any kind of liquor in the place. The bet was taken.

"This is genuine port," said the fat man, tasting from a wine glass; and this is whiskey;" and so on.

A wag then poured a few drops of water into a glass, and handed it to the taster.

"This is—ah—ah—this is——"—tasting it several times. "By Jupiter, gentlemen, I have lost the bet! I never tasted this liquor before."

Bee Notes Worth Knowing.

Bees are most easily as well as more profitably managed in a good movable frame hive than in the old gum log or box hives of 50 years ago.

Those who have bees which have failed to swarm, should make them increase by the mode of artificial swarming, which is a much easier and safer mode than to allow them to swarm in the old-fashioned way.

Always make your purchases of queens which have been raised on strong, full stocks, as well as from reliable breeders who do not rear their queens in nucleus hives as these are short-lived and give poor satisfaction.

To insure good results from a given number of bees one must keep them strong in number; and this is only accomplished in seeing well to their having a good prolific queen. Herein lies one of the secrets of successful bee-keeping.

The Italian queens are more prolific than the common native queens, as well as more amiable and easier found among the many thousand of bees in a good stock. The Italian and Cyprian bees are by far the best and most industrious workers, often working on the blooms of the red clover and many other honey producing plants, which our native bees do not.

It is a fact that a good prolific queen will lay 500,000 eggs in 180 days. Each egg to produce a worker bee, must be properly nursed and matured in the cells of the smaller size, and those producing drones are reared in the larger cells called drone brood, they being the male bees. All eggs which produce worker bees are female in sex, and can be converted into royal queens at any time before they are seven days old, provided always the stock have lost their mother queen. This special labor is allotted to the young worker bees, not over fourteen days old, which are properly called the "nurse bees," and really perform quite all the labor inside of the hive, after which they take the place of the older bees which are hourly and daily passing away. What a world of thought as well as of science, there is to be found in the proper management of the ever busy little bees.

Why People Commit Suicide.

An English physician, Dr. Westcott by name, has written a rather entertaining little book on the subject of suicide. According to him hanging is the most prominent means of suicide. Drowning comes next. Women are especially fond of watery graves, for some reason or other. People have also killed themselves by voluntary starvation, eating horse hair and swallowing pennies. The impression is general that the gloomy months of the year are those in which the majority of suicides occur. Statistics, however, completely reverse this opinion and show that it is in the two brightest and most beautiful months, May and June, that the greatest number of self-destructions occur. In the large class of suicides proceeding from disappointment and misery, the very contrast between the beauty of nature and the state of mind of the sufferer must, in many cases, be unbearable and precipitate the fatal act. Here are some figures, obtained a short time ago from Coroner Ashbridge, in regard to deaths from suicide in New York on one year:

Business troubles,	15
Chargrin at parental discipline,	4
Destitution,	3
Dissipation,	10
Political disapointment,	2
Family trouble,	31
Insanity,	18
Love trouble,	5
Sickness,	5

Let it be said that a man who cultivates the full force and energy of his moral character need never fear that he will fall a victim to the suicidal tendency of civilization. For it is a sad fact that self-destruction follows the triumphs of education, cultivation and civilization.

Hints for the Parlor.

There is no rule for hanging pictures, but they look best if hung on a line level with the eye.

Rugs and hard floors have taken the place of carpets, but there are persons who think a room cold and uninviting unless carpeted.

The gaudy colors and startling patterns that were once fashionable have been superceded by a line of neutral tints that has revolutionized the style of household decorations.

Parlor tables are numerous, but of a light style, artistic and pretty. The tops covered with a scarf or cover of India silk, or some soft silk fabric and of colors to match the walls.

Small designs are much to be preferred to large ones for carpets, and are more economical both in wear and fitting over, but if a large pattern is to be used by all meanns put it in the largest room.

A fancy for wall hanging is after the old English style of tapestry for which chintz, soft India silk or cretonne may be used, fluted or plain, and caught at the top and bottom with a gilt molding.

This is an area of ribbons, and everything may be tied up with fancy ribbons of the same or different shades. It is, however, desirable to select such colors as will contrast or harmonize with the furnishing of walls, carpets, rugs or pictures. Too many colors cheapen the effect of a room.

A bachelor discovering his clothes full of holes, exclaimed, "Mend I can't."

GARNISHING.

There is much being written and said in these days concerning the decoration of food. Happily, the old idea that nice appearance was immaterial if the dish pleased the palate, has almost entirely passed away. The plainest and most homely viands may be rendered tempting and appetizing by careful garnishing, while many of the richer foods may be made artistic in their way. The elaborate garnishings of caterers are too difficult to be attempted at home, even if desirable. There are, however, many simple things, easily done, which add much to the appearance of a table. Aspic jelly, which is but little trouble to make, is effective for cold meats, and olives for salads of some kinds. Garnish your next fish generously with nasturtium leaves and flowers, instead of the usual parsley and sliced lemon, and you will be surprised at the touch it will add to the table. A dish of currants is much prettier if sprigs of fresh currant leaves are placed about it. As the fall fruits come, their own leaves serve to bring out their beautiful coloring. The fresh fall growths of the grape vines, with their delicate leaves and tendrils, should be arranged with the grapes, and with peaches too, their own leaves. Later the autumn-tinted pear leaves bring out the gold in the pears. At this season of the year there is always something fresh and pretty to be found for the searching, which amply repays the trouble.

Lettuce makes a very cool summer garnishing, especially if the light-green, crisp middle of a large head can be used. They stand up so fresh and bright, about a chicken, for example, as to make one forget, for a moment, the heat.

MONTROSE PUDDING.

Put one pint of good cream on to boil in a double boiler. Beat the yolks of six eggs and one cup (half pound) of granulated sugar together until light; then stir them into the boiling cream; cook and stir until it thickens (about one minute). Be careful that it does not curdle. Take from the fire, add another pint of cream, and stand aside to cool. When cold, add one tablespoonful of vanilla; turn into the freezer and freeze. When frozen, remove the dasher, pack the pudding nicely in the bottom of the can, and make a "well" in the centre. Fill this "well" with strawberry water-ice or orange-ice, colored with cranberry juice. Cover with some of the pudding you have taken out. Repack with salt and ice, and let stand until wanted, not less than two hours. Serve with the following sauce in a boat:

Sauce. Cover one tablespoonful of gelatine with a little cold water and soak a half hour. Put one pint of cream on to boil in a double boiler. Beat the yolks of three eggs and a quarter cup of sugar together until light; add them to the boiling cream; stir until it thickens, about one minute; add the gelatine; stir until dissolved; take from the fire, add one teaspoonful of vanilla, and stand away to cool. When cold, if you use wine, add two table-spoonfuls of brandy and four of sherry. Serve ice cold.

Strawberry Water-Ice. Add a half pound of sugar and the juice of one lemon to one pint of berries; then mash them, and stand aside one hour; then strain through a fine sieve, add one pint of cold water, and freeze. This quantity is just sufficient for the pudding.

A GOOD SUGGESTION.

"Madge" writes in *London Truth* of a dinner arranged for three, cleverly expanded into sufficient for six, upon the unexpected arrival of three guests a half hour before dinner. Some tired housekeeper, upon whom a sudden strain of like kind is made, may find from this some suggestions. In America flounders are frequently used instead of sole. Now for the dinner: A pair of sole, all ready to fry, were made to go much further by filleting them, laying them in a narrow dish with alternate layers of oysters and sole, and covering them with bread-crumbs, cooking the whole in the oyster liquor. To make the soup sufficient, a pint and a half of dessicated soup were added. The spinach had been arranged to go in with the fowls, but, instead, a separate entree was made of it with poached eggs. For the sweet course, in ten minutes, the most delicious of "tipsy" cakes was turned out, made of the remains of a rather stale Madeira cake (any cake would answer), a few spoonfuls of jam, a liberal dose of sherry, a boiled custard and some delicious cream.

SHRIMP BAKED IN BELL PEPPERS.

Use for this dish one dozen green bell peppers, one quart of picked shrimp, one teacupful of grated bread-crumbs, two tablespoonfuls of butter, one teaspoonful of mixed mustard, one-fourth of a teaspoonful of pepper, one-eighth of a teaspoonful of celery seed, a slight grating of nutmeg, one egg and some salt, unless the fish themselves be salty. Cut the stem ends from the peppers and then cut out the seeds and veins—the "hot" parts. Soak the cleaned peppers in cold water for half an hour. Beat the butter to a cream, and then beat it into the seasoning and the egg. Next add the crumbs. Mix these ingredients well, and add them to the shrimp. Drain the peppers at the end of the half-hour, and stuff them with the prepared shrimp. Arrange them in a pan with the open side up. Cook in a hot oven for twenty minutes. This dish be served as an entree or as a fish course in a dinner or luncheon. Crabs may be prepared in the same manner as shrimp.

THE TRUFFLE PLANT.

The truffle is a cryptogramic plant, having no visible means of fructification, and is found at all sorts of depths beneath the soil, from two inches to two feet. It possesses neither root, stem, nor leaf, and varies in color from light brown to black. It is somewhat globular in form, ranges in size from that of a filbert to a large duck's egg, and weighs anywhere from two ounces to four pounds or more. Its surface is knotty or warty, and is covered with a skin which forms a sort of network of serpentine veins. Little is known of its early development as a vegetable production. In its native state it is found free from attachment to any other body.

FRANGIPANI.

Add two or three beaten eggs to a pint of milk, beat in a spoonful of cornstarch, strain into a pitcher, set the pitcher into boiling water, stir it until it is as thick as custard, remove from the fire, add some powdered white sugar, flavor to taste and beat into the whole some crushed macaroons or viennas. This mixture is used to fill patty-pans lined with puff-paste or tarts. Some cooks put a layer of jam, marmalade or preserves in the patty-pan on tart paste, then cover it with frangipani. It can also be put over fruit, preserves, jam, etc., and baked as a pudding. Frangipani over orange marmalade or orange preserve is considered very fine.

Can't Always Judge by Appearances.

Miss Breezy (of Chicago)—Oh, yes, young Mr. Wabash is immensely wealthy, by inheritance. He was born with a silver spoon in his mouth, you know.

Miss Shawsgarden (of St. Louis)—Was he, indeed? I should imagine from the way he eats that he was born with a knife in his mouth.

"It Saved My Life"

Is a common expression, often heard from those who have realized, by personal use, the curative powers of Ayer's Cherry Pectoral. "I cannot say enough in praise of Ayer's Cherry Pectoral, believing as I do that, but for its use, I should long since have died from lung troubles.—E. Bragdon, Palestine, Tex.

About six months ago I had a severe Hemorrhage of the Lungs, brought on by a distressing Cough, which deprived me of sleep and rest. I had used various cough balsams and expectorants, without obtaining relief. A friend advised me to try

Ayer's Cherry Pectoral.

I did so, and am happy to say that it helped me at once. By continued use this medicine cured my cough, and, I am satisfied, saved my life.—Mrs. E. Coburn, 18 Second st., Lowell, Mass.

I have used Ayer's Cherry Pectoral for over a year, and sincerely believe I should have been in my grave, had it not been for this medicine. It has cured me of a dangerous affection of the lungs, for which I had almost despaired of ever finding a remedy.—D. A. McMullen, Windsor, Province of Ontario.

Ayer's Cherry Pectoral saved my life. Two years ago I took a very severe Cold which settled on my lungs. I consulted physicians, and took the remedies they prescribed, but failed to obtain relief until I began using Ayer's Cherry Pectoral. Two bottles of this medicine completely restored my health.—Lizzie M. Allen, West Lancaster, Ohio. ††

Ayer's Cherry Pectoral,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5.

Business Directory.

The following Business Directory relates only to persons whose advertisements appear in the British Columbian. It has been found true, as a rule, that persons who advertise liberally are liberal in their dealings, and many persons make it a rule to give preference in their dealings to those establishments which advertise freely. The following list is arranged alphabetically:

ASSOCIATION.

Guarantee Capital.....$1,000,000

Full Gov'm't Deposit

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

NEW ADVERTISEMENTS THIS DAY.

Hook & Ladder Co. ..... Corbett
Time Table ..... Mathers

Daily British Columbian

Wednesday Evening, Feb. 22, 1888.

Five carloads of cattle arrived from the interior last night.

The steamer Rainbow arrived from Victoria at 3:30 o'clock.

The steamer Dunsmuir left for Nanaimo this morning with freight and passengers.

The coal famine in San Francisco continues and $20 a ton is now asked for Willington coal.

A party of surveyors has gone to Comox to lay out the line for the extension of the island railway.

For Sale—Lot 14, block VI, suburbs; frontage on Fraser River; a bargain. Apply to Woods, Turner & Gamble. *

The market is better supplied with fish than for many months past. Large shipments are being made to the Northwest.

The str. Yosemite left for Victoria this morning with 60 tons of freight, 3 carloads of cattle and a number of passengers.

The machinery for D. W. Port & Co.'s new steamer arrived yesterday. The steamer will be ready for work within a few weeks.

The Gælic society of Ontario has passed a resolution condemning the utterances of Mr. Chisholm at Ottawa on Crofter immigration.

Both rifles and artillery are picking in drill under the care of Sergt. D'Amour. The men take a deep interest in the drill and turn out in full force every night.

Our readers are reminded of the Y. M. C. A. concert in the opera house to-night. The programme is an excellent one and contains the names of some of Westminster's favorite musicians.

The steamer Adelaide went down to Ladners yesterday afternoon and this morning proceeded to Vancouver with with a load of farm produce. She will leave for up-river ports on Friday morning.

It is a good rule to accept only such medicines as are known to be worthy of confidence. It has been the experience of thousands that Ayer's Cherry Pectoral is the best medicine ever used for throat and lung diseases.

W. H. Vianen will shortly commence building a new wharf and warehouse on the water front opposite his store on Front street. His business is enlarging so rapidly that these improvements have become necessary.

The annual meeting of the Westminster branch of the Upper Canada Bible Society will be held in the Methodist Church to-morrow (Thursday) night. Appropriate addresses will be given by ministers of the various churches.

Messrs. Walker & Shadwell, of the Bon Marche, have received a magnificent assortment of spring prints the aggregate length of which exceeds four miles. Prices range from 12 cts. to 20 cts. per yard, or $300 per mile. *

Members of the board of trade should remember the annual general meeting which takes place at the Hyack Hall this evening at 7:30. It is expected that important business will come up for consideration, and there ought to be a full attendance.

W. H. Vianen has four fishing boats at work on the river, and they are meeting with very fair success. Yesterday a large number of sturgeon and several salmon were caught. One of the sturgeon is a monster, being 13 feet in length and weighs 700 pounds. Salmon are beginning to find their way into the river and they are expected to be running fairly well within a couple of weeks.

In another column will be found the new time table of the str. Rainbow, from which it will be seen that for the present she intends making two trips a week between this city and Victoria. We are requested to say that there is no truth in the statement recently make by a Victoria newspaper that the Rainbow would take the place of the Amelia on the Nanaimo route.

We regret to learn Mr. L. L. Doane is about to be removed from his position in the Bank of British Columbia, in this city, to the Portland branch, but we are glad the removal means promotion for it is richly deserved. Mr. Doane has been extremely popular both in business and social circles, and his departure will be very generally regretted. The friends of Mr. Doane give him a parting tribute, in the shape of a dinner, on Friday night.

The Coquitlam Water Works.

Mr. A. E. Hill, C.E., has been for some time engaged in locating a line for the mains by which it is proposed to bring water from Coquitlam Lake to this city. The levels have all been taken, and it is found that the waters of the lake are 435 feet above sea level. Coquitlam Lake is a large body of as fine water as can be found on the continent. The distance from this city is 13 miles. It will be some weeks yet before the work of location has been completed.

Invaded a Laundry

An individual slightly under the sprightly influence of the intoxicating spirit took possession of Tom Chue's laundry this afternoon and proceeded to make himself thoroughly at home. Having a bottle of the ardent in his pocket he pulled it out and ordered Tom to bring forth glasses so that they might together revel through the mazy paths created by the rosy wine. Tom is a strict temperance young man and not only most properly refused to be tempted to any such course, but requested the invader, in the most polite language imaginable, to leave the laundry. The invader refused to leave until time and circumstances suited, so the police were called in and took him in charge.

Everybody needs a spring medicine. By using Ayer's Sarsaparilla, the blood is thoroughly cleansed and invigorated, the appetite stimulated, and the system prepared to resist the diseases peculiar to the summer months. Ask for Ayer's Sarsaparilla. Take no other.

THE FISHERY DISPUTE.

What the Commissioners Agreed on.

WASHINGTON, Feb. 21.—The following is the substance of the fishery treaty, made public in the senate today:

Article 1. The high contracting parties agree to appoint a mixed commission to delimit in the manner provided in this treaty, the British waters, bays, creeks and harbors of the coasts of Canada and Newfoundland, as to which the United States, by article 1 of the convention of October 20th, 1818, renounced forever any liberty to take, dry or cure fish.

Article 2. The commission shall consist of two commissioners, to be named by her Britannic majesty, and of two commissioners, to be named by the president of the U. S. without delay after the exchange of the ratifications of this treaty. The commission shall meet and complete the delimitation as soon as possible thereafter.

Article 3. The delimitation shall be marked upon the British admiralty charts by a series of lines regularly numbered and duly described. The charts so marked shall, on the termination of the work of the commission, be sighed by the commissioners in quadruplicate, one copy whereof shall be delivered to the secretary of state of the U. S., and three copies to her majesty's government. The delimitation shall be made in the following manner, and shall be accepted by both the high contracting parties as applicable for all purposes under article 1 of the convention of October 20th, 1818. The three marine miles mentioned in article 1 of the convention of October 20th, 1818, shall be measured seaward from low water mark, but at every bay, creek or harbor not otherwise specially provided for in this treaty, such three marine miles shall be measured seaward from a straight line drawn across the bay, creek or harbor in the part nearest the entrance at the first point where the width does not exceed ten marine miles.

Article 4. At or near the following bays the limit of exclusion under article 1 of the convention of October 20th, 1818, at points more than three marine miles from low water mark shall be established by the following lines, namely: Baie Des Chaleurs, the line from the light at Birch Point on Mission Island to Macquereau Point light. At the Bay of Miramichi the line from the light at Point Escuminac to Acom, Fortune Bay. In Newfoundland the line from Connaigre Head to the light on the southeasterly end of Brunet Island, thence to Fortune Head at Sir Charles Hamilton Sound. The line from the southeast point of Cape Fogo to White Island, thence to the north end of Peckford Island, and from the south end of Peckford Island to the East Headland of Ragged Harbor. At or near the following bays the limit of exclusion shall be three marine miles seaward from the following land: At or near Barrington Bay in N. S, the line from the light on Steward Island to the light on the south point of Cape Sable, thence to the light at Baccaro point. Chedabucto and St. Peter's bays the line from Cranberry Island light to Green Island light, thence to Point Rogue. At Mira Bay the line from the light on the east point of Scatario Island to the northeasterly point of Cape Morien, and at Placentia Bay in Newfoundland the line from Latine Point on the eastern mainland shoal to the most southerly point of Red Island, thence by most southerly point of Merashneen Island to the mainland. Long Island and Briar Island in N. S., shall for the purpose of delimitation be taken as the coast of such bays.

Article 5. Nothing in this treaty shall be construed to include within the common waters any such interior portions of any bays, creeks or harbors, as cannot be reached from the sea without passing within three marine miles mentioned in article 1 of the convention of October 20th, 1818.

Article 6. The commissioners shall from time to time report to each of the high contracting parties such lines as they may have agreed upon, numbered, described and marked as herein provided with quadruplicate charts thereof, which lines as reported shall forthwith, from time time, be simultaneously proclaimed from the high contracting parties and be binding after two months from such proclamation.

Artice 7. Any disagreement of the commissioners shall forthwith be referred to any umpire selected by the secretary of state of the U. S. and the British minister at Washington, and his decision shall be final.

Article 9. Nothing in this treaty shall interrupt or affect the free navigation of the Strait of Canso by U. S. fishing vessels.

Article 10. U. S. fishing vessels entering the bays or harbors referred to in Article 1 of this treaty shall conform to the harbor regulations common to them and to fishing vessels of Canada or Newfoundland. They need not report, enter or clear when putting into such bays or harbors for shelter or repairs, nor when putting into the same outside of the limits of the established ports of entry for the purpose of purchasing wood or of obtaining water, except that any such vessels remaining more than 24 hours, exclusive of Sundays and legal holidays, within any such port, or communicating with the shore therein, may be required to report, enter or clear, and no vessel shall be excused from giving due information to the boarding officers. They shall not be liable in any such bays or harbors for compulsory pilotage; nor when therein for the purpose of shelter, of repairing damages, of purchasing wood, or of obtaining water, shall they be liable for harbor dues, tonnage dues, buoy dues, light dues, or other similar dues; but this enumeration shall not permit other charges inconsistent with the enjoyment of the liberties reserved or secured by the convention of October 20, 1818.

Article 11. U. S. fishing vessels entering the ports, bays and harbors of the eastern and northwestern coasts of Canada, or the coasts of Newfoundland, under stress of weather and other casualty, may unload, reload, tranship or sell, subject to the customs laws and regulations, all fish on board, when such unloading, transhipment or sales are made necessary as incidental to repairs, and may replenish their outfit, provisions and supplies damaged or lost by disaster, and in case of death or sickness shall be allowed all needful facilities, including the shipping of crews. Licenses to purchase in the established ports of entry of the aforesaid coasts of Canada and Newfoundland for the homeward voyage, such provisions and supplies as are ordinarily sold to trading vessels, shall be granted to the U. S. fishing vessels in such ports promptly upon application and without charge, and such vessels having obtained licenses in the manner aforesaid shall also be accorded on all occasions such facilities for the purchase of casual or needful provisions and supplies as are ordinarily granted to trading vessels, but such provisions or supplies shall not be obtained by barter nor purchased for resale or traffic.

Article 12. Fishing vessels of Canada and Newfoundland shall have on the Atlantic coast of the U. S. all the privileges reserved and secured by this treaty to U. S. fishing vessels in the aforesaid waters of Canada and Newfoundland.

Article 13. The secretary of the U. S. treasury shall make arrangements for the conspicuous exhibition by every U. S. fishing vessel of its official number on the bow, and any such vessel required by the law to have an official number and failing to comply with such regulations, shall not be entitled to the licenses provided for in this treaty. Such regulations shall be communicated to the British government previous to their taking effect.

Article 14. The penalties for unlawfully fishing in the waters, bays, creeks and harbors referred to in Article 1 may extend to the forfeiture of the boat or vessel, and its appurtenances, and also of the supplies and cargo aboard when the offence was committed, and for preparing in such waters to unlawfully fish therein penalties shall be fixed by the court not to exceed those for unlawfully fishing, and for any other violation of the laws of Great Britain, Canada or Newfoundland, relating to the right of fishing in such waters, bays or harbors, penalties shall be fixed by the court not exceeding in all $3 for everyone of the boats or vessels concerned. The boat or vessel may be held for such penalties or forfeitures. The proceedings shall be as summary and inexpensive as practicable. The trial (except on appeal) shall be at the place of detention, unless the judge shall, on request of the defence, order it to be held at some other place adjudged by him more convenient. Security for the costs shall not be required of the defence, except that when bail is offered, reasonable bail shall be accepted. There shall be proper appeals available to the defence only and the evidence at the trial may be used on appeal. Judgments of forfeiture shall be reviewed by the governor-general of Canada in council, or the governor in council of Newfoundland before the same are executed.

Article 15. Whenever the U. S. shall remove the duty from fish oil, whale oil, seal oil and fish of all kinds (except fish preserved in oil) being the produce of the fisheries carried on by the fishermen of Canada and Newfoundland, including Labrador, as well as from the usual and necessary casks barrels, kegs, cans and other usual and necessary coverings containing the products above mentioned, the like product, being the produce of fisheries carried on by the fishermen of the United States as well as the usual and necessary coverings of the same as above described, shall be admited free of duty into the Dominion of Canada and Newfoundland, and upon such removal of duties, and while the aforesaid articles are allowed to be brought into the U. S. by British subjects without duty being reimposed thereon, the privilege of entering the ports, bays and harbors of the aforesaid coasts of Canada and Newfoundland shall be accorded to the U. S. fishing vessels by annual licenses free of charge for the following purposes, viz: First, the purchase of provisions, bait, ice, seines, lines and all other supplies and outfits. Second, the transhipment of the catch for transport by any means of conveyance. Third, the shipping of crews. Supplies shall not be obtained by barter, but bait may be so obtained. The like privileges shall be continued to the fishing vessels of Canada and Newfoundland on the Atlantic coast of the U. S.

Article 16. This treaty shall be ratified by the president of the U. S., by and withathe advice and consent of the senate, and by Great Britain, having received the assent of the parliament of Canada and the legislature of Newfoundland, and the ratifications shall be exchanged at Washington as soon as possible.

Protocol—The treaty having been signed by the British plenipotentiaries, they desire to state they have been considering the position which will be created by the immediate commencement of the fishing season before the treaty can possibly be ratified by the U. S. senate, by the parliament of Canada and by the legislature of Newfoundland. In the absence of such ratifications the old conditions which have given rise to so much friction and irritation might be revived, and might interfere with the unprejudiced consideration of the treaty by the legislative bodies concerned. Under these circumstances, and with the further object of affording evidence of their anxious desire to promote good feeling and to remove all possible subjects out of the controversies, the British plenipotentiaries are ready to make the following temporary arrangements for a period not exceeding two years in order to afford a modus vivendi pending the ratification of the treaty:

First. For a period not exceeding two years from the present date the privileges of entering the bays and harbors of the Atlantic coasts of Canada and Newfoundland shall be granted to U. S. fishing vessels by annual licenses at a fee of $1.50 per ton for the following purpose: The purchase of bait, ice, seines, and all other supplies and outfits, transhipment of catch and shipping of crews.

Second. If during the continuance of this arrangement the U. S. should remove the duties on fish, fish oil, whale and seal oil and their coverings, packages, etc., the said licenses shall be issued free of charge.

Third. U. S. fishing vessels entering the bays and harbors of the Atlantic coasts of Canada or Newfoundland for any of the four purposes mentioned in Article 1 of the convention of October 20th, 1818, and not remaining there more than 24 hours, shall not be required to enter or clear at the custom house, providing that they do not communicate with the shore.

Fourth. Forfeiture to be exacted only for offences of fishing or preparing to fish in territorial waters.

Fifth. This arrangement to take effect as soon as the necessary measures can be completed by the colonial authorities.

Protocol No. 3. The American plenipotentiaries having received the communication of the British plenipotentiaries, conveying their plan for the administration to be observed by the governments of Canada and Newfoundland in respect to fisheries during the period which may be requisite for the consideration by the senate of this treaty this day signed, and the enactment of legislation by the respective governments therein proposed, desire to express their satisfaction with this manifestation of good will on the part of the British plenipotentiaries by the means referred to, and the good neighborhood of the British possessions in North America and the U. S., and they will convey the communication of the British plenipotentiaries to the president of the U. S. with a recommendation that the same be made by him known by the senate for its informatio together with the treaty when the latter is submitted to that body for ratification.

Much distress and sickness in children is caused by worms. Mother Graves' Worm Exterminator gives relief by removing the cause. Give it a trial and be convinced.

Notice of Sale by Sheriff.

PURSUANT TO EXECUTIONS AGAINST LANDS ACT, 1874.

In the County Court of New Westminster, holden at New Westminster.

W. B. TOWNSEND, PLAINTIFF.
ALFRED BUNNING, DEFENDANT.

IN OBEDIENCE TO A WRIT OF FI. FA. ISSUED OUT OF THE COUNTY Court of New Westminster on the 7th day of February, 1888, and to me directed, in the above-named suit, for the sum of $80.80, debt and costs, also interest on the same at 4 per cent. per annum from the 8th day of October, 1887, until paid, besides Sheriff's fees, poundage, &c., I have seized and will offer for sale by auction at the COURT HOUSE, New Westminster, on

Friday the 9th Day of March, 1888, AT 12 O'CLOCK, NOON,

All the right, title and interest of the said Alfred Bunning as described in this advertisement, or sufficient thereof to satisfy the judgment debts and costs, subject to a mortgage for $50.00 and interest on the same.

District.	No. of Lot.	Concise description of property.	Estate or Interest
New Westminster City, Suburban.	South East half of Lot 24, Suburban Block 7.	Slashed and partially cleared.	An undivided half interest.

The Judgment was registered in the Land Registry Office, New Westminster, against said Lands on the 8th October, 1887.

dfe21td W. J. ARMSTRONG, SHERIFF.
