DAILY BRITISH COL

VOLUME 1 — NEW WESTMINSTER, B. C., WEDNESDAY EVENING, NOVEMBER 24, 1886.

Daily British Columbian

WEDNESDAY, NOV. 24, 1886.

As was predicted some weeks ago, the illumination of the Bartholdi statue by electricity is a failure. The difficulty is the same as that experienced with the electric light at Hell Gate. Its glare was so intense that it almost blinded the pilots taking vessels through that entrance to the port. Complaint was made to the light house board, and electric illumination was discontinued. The same course will doubtless be followed with the statue light. The huge goddess will not, therefore, fill the line of duty originally prescribed for her, but will simply illuminate herself—a gloomy end of a beautiful poetic dream.—*Winnipeg Sun.*

Why Hungary Hates Russia.

The bold declaration of Premier Tisza of Hungary that the government of Austria-Hungary would never consent to see any single great power hold undisputed sway in the Balkan region, was aimed, of course, at Russia alone. The beginning of the hatred which Hungary feels toward Russia dates back more than a generation. This feeling has always been the disturbing element in the triple alliance. When the kidnapping of Alexander revealed the hand of Russia the Austrian government for a day or two apparently acquiesced in the arrangement almost as freely as Germany did. Subsequently, however, opposition to Russian aggrandizement was heard in Austrian official newspapers, feeble and guarded at first, but at length becoming more open and pronounced. This was the reflex and expression of the aversion to the Muscovite, which has become part of the political creed of the Hungarian division of the Austrian empire. When the tyranny and duplicity of the Austrian government culminated in the attempt in 1848 to excite civil strife in Hungary in order that Austria might have a pretext to interfere and subvert the Hungarian constitution just sanctioned by the Emperor Ferdinand, the Hungarians rose in revolt in defense of their liberties. The Hungarian national assembly declared the house of Hapsburg deposed, chose Kossuth as governor-general of the country, and strove to shake off the Austrian yoke by force of arms. Ferdinand abdicated, and his nephew, Francis Joseph, the present monarch, became emperor. In the war which followed the Hungarians displayed a patriotism, courage, and military and administrative skill which gained imperishable renown for Kossuth, Gorgei, Bem, Dembinski, and others. Hungarian arms were everywhere successful. An enemy, however, which the Hungarians had not taken into account, and against which they could offer no effectual resistance, was about to appear upon the scene. Russia, fearful that the example of the Magyars might incite the Poles to insurrection, came to Austria's aid. Three powerful Muscovite armies invaded Hungary, one from the north, one from the west, and another from the east, and the Magyar insurrection was crushed out. Russia thus, by one of the blackest crimes which has stained its annals in the century, repaid Austria for its aid in suppressing an uprising in Poland fifty-four years earlier, and left a legacy of hatred in Hungary which was destined to become one of the most potent elements in the resistance of Russia's schemes of aggrandizement in southeastern Europe. In 1867 Hungary virtually came into possession, by the consent of the Austrian government, of most of the rights and privileges, except separation and independence, for which it fought so gallantly in 1848, but its enmity to Russia was not in the slightest degree abated by that act. Hungary possesses about 16,000,000 of the 37,000,000 inhabitants comprising the Austro-Hungarian empire, and its influence is a potent factor in molding the foreign policy of the imperial government. It is especially powerful in this exigency, when it is arrayed on the side of the national aspiration to retain the Austrian prestige and influence unimpaired in the Balkan peninsula. These are some of the reasons why premier Tisza's utterance created such a sensation in all the European courts from the Neva to the Thames.—*St. Louis Globe-Democrat.*

We take pleasure in recommending Hall's Hair Renewer to our readers. It restores gray hair to its youthful color, prevents baldness, makes the hair soft and glossy, does not stain the skin, and is altogether the best known remedy for all hair and scalp diseases.

COMMONS ELECTION.—We are authorized to state that Mr. Donald Chisholm is in the field as a candidate for the seat in the House of Commons rendered vacant by the death of our late lamented representative, Mr. Homer. dwoc25to

THE WEEKLY.—THE WEEKLY COLUMBIAN was issued this morning, and may be had at the book stores. Besides a large quantity of interesting reading matter relating to this province, this week's edition gives a report of the first excursion on the Pacific section of the C.P.P.

THE COLD WAVE.—Mr. I. Van Volkenburg, who has just returned from east of the Cascades, reports that part of the country is frozen up and that cattle are crossing the river on the ice above Lytton. He says the recent cold wave has proved as severe as any weather during last winter.

OUR BEEF SUPPLY.—Reports from the interior lead to the belief that this will be a very hard winter for stock. Last summer was unusually dry, and the grass everywhere was dried up, leaving scarcely any feed for stock. If the winter should prove to be long and severe it is thought there will be a great loss of cattle in the upper country.

A GOOD PROPOSITION.—A movement has been started at Winnipeg to present the Prince of Wales with a testimonial in recognition of his services in connection with the Colonial exhibition. The proposition is a decidedly good one and should be acted upon by every province of the Dominion. So steadfast and useful a friend to the colonies as the prince is well worthy of such recognition by them.

POLITICAL NEWS.—Despatches from the east state that politicians are now busily at work all over the province of Ontario, but their operations are hampered by deep snow. Mr. Mowat's coup appears to have excited great enthusiasm in the Grit ranks. The Tories have been caught napping, with their organization in very bad condition, and the cold weather will retard their progress in getting it into shape before polling day. It is now believed that the Dominion elections will be delayed till the result is known in Ontario. The statement is made that Sir John and Mr. Meredith have quarreled.

RAILWAY CONNECTION.—The following is a translation from the Portland *Staats Zeitung:* "Victoria flatters herself with the idea that the N. P. R. R., when completed, will make her the actual terminus, leaving Portland in the shade. For that purpose, they say, the N. P. will not only have steamers of their own plying between Tacoma and Victoria, but the road itself is to be conveyed to Hidalgo Island, Villard's original plan, so as to be within a short distance of her by water. That a continuation beyond Fidalgo Island to connect with New Westminster will be established is unquestionably true."

QUITE CORRECT.—Some enthusiastic Canadians in New York, whose minds have been disturbed by the success of Bartholdi's project, are ambitious of securing the construction of some memorial of the good feeling existing between the two great English speaking nations of the earth. One speaker thought a structure 100 feet higher than Bartholdi's could be reared for such a memorial, and his associates applauded his remarks. We hope Canadians will have more sense than to try their hand at Babel building. True friendship requires no such empty acknowledgment. A more practical evidence would be the prompt settlement of the extradition and fisheries disputes.—*Winnipeg Sun.*

A WELL-FOUNDED GRIEVANCE.—The condition of the old and the new roads from this city to New Westminster is very bad for traffic. The complaints of the stage owners, teamsters and drivers of conveyances are loud and numerous. They allege that through the deep ruts with which the thoroughfare is covered, their vehicles are so jolted and shaken that repairs are needed constantly. The horses, too, suffer considerably from the heavy strain put upon them through the deep mud. Just now the mud is frozen hard and the teams are mounting and descending hillocks all the time, shaking up the vehicles and injuring the horses. A small outlay is really necessary to put the thoroughfare in order and we trust that by calling attention to the grievance the needed repairs may be attended to.—*Vancouver News.* We are afraid the grievance is beyond remedy for this season at least. The road wants a thorough repairing which can be done only during the summer season. The great mistake was in not having this work done last summer so as to make the road available for traffic this winter. Persons coming from Victoria and Vancouver are coming by way of Port Moody so as to escape the seas of mud.

The Grand Jury.

EDITOR COLUMBIAN.—I do not think any intelligent person can read an article copied from the Toronto *News* which appeared in last evening's COLUMBIAN without taking exception to the statement that "the grand jury has outlived its usefulness." The *News* says that "quite loopholes enough exist and that the weighty reasons which called for the adoption of the system no longer exist. The grand jury was originally designed as a protection against the power of the crown, or the personal vindictiveness of prosecuting officials. With the publicity given to legal proceeding by the press, all danger on that score has passed away." Your contemporary evidently has forgotten that one of the very best features of the grand jury system is to preserve the accused from the degradation of a trial unless in the opinion of twelve of the most intelligent of his fellow men there is sufficient prima facie evidence against him to warrant a trial. It may be said that the intelligence of our magistrates should decide this point, but experience has shown that many worthy and innocent persons have been committed for trial by the magistrates who afterwards were saved from a humiliation which would have followed them all their lives, by the wisdom of a grand jury. It is not to be supposed that the judgment of one man is equal to that of twelve. The rule works in general with equal advantage to the state and the public, as it does to the accused and the individual, inasmuch as useless and needless expense is avoided by only proper cases coming before *the court. Much more could be said* in favor of the grand jury, but for the present I shall only add that it is considered as useful and regarded with as much favor and respect by the people generally as ever it was. Yours, etc.,

Press Telegrams.

DETROIT, Nov. 24.—Frances Palms, one of the oldest and wealthiest citizens of this city, died this morning. He leaves an estate worth from fifteen to eighteen millions.

PITTSBURG, Nov. 24.—The Knights of Labor have begun an important movement among skilled iron workers by organizing an assembly of skilled workmen at the Elba iron and bolt works. The assembly is composed of heaters and rollers, but it is the intention to admit puddlers in a few days. All the men enrolled are members of the amalgamated association, and intend to remain so. This is the beginning of a general movement for enrollment of skilled iron and steel workers as Knights of Labor, all still retaining their membership in the amalgamated association. The object is to have a dual organization and thus to increase their power by being backed not only by amalgamated association but also by the whole order of Knights of Labor.

CLEVELAND, Ohio, Nov. 24.—Wheeler, the miser, bound over to the common pleas court yesterday without bail for murdering his wife, was released on $20,000 bail by Judge McKinley.

NEW YORK, Nov. 24.—The jury on the McQuade case in connection with the boodle alderman disagreed and has been discharged.

WASHINGTON, Nov. 24.—In his annual report to the secretary of war, Gen. Macfeelys, commissary general of subsistence says $3,175,00 was expended during the last fiscal year, leaving a balance on hand of $609,000. Supplies amounting in value to $410,000 were transferred to the interior department during the year for the maintenance of Indians.

BOSTON, Nov. 24.—A despatch from Barrington, N. S., says the British steamer Salina, Capt. Potters, from Antwerp, Nov. 4th, for Boston, for Boston, is ashore at Cape Sable. No particulars received.

Miss Mary Campbell, Elm, writes: "After taking four bottles of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I feel as if I were a new person. I had been troubled with Dyspepsia for a number of years, and tried many remedies, but of no avail, until I used this celebrated Dyspeptic cure." WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the **Pimples, Stiles, Sore Eyes, Boils, and Cutaneous Eruptions** with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into **Scrofula.** This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of **Hereditary Scrofula.**

The medical profession indorse AYER'S SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the encomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. 1873. **GRIP!** 1886.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1886.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old covers to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $3 a year, *which is lower* than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

MORNING DISPATCHES.

SAN FRANCISCO, Nov. 23.—Freight agents at this city have agreed to restore rates to, and maintain them at, fifty per cent of the old tariff.

A rumor prevails in railroad circles that a party of surveyors have been sent out to survey a line for a railroad along the Columbia river from the Canadian Pacific into Portland. If a practical route is discovered work will be commenced at an early date. It is stated that Mackay is behind this enterprise.

Charles R. Bronson, at whose house in Alameda the smuggled opium was found yesterday, was arrested to-day and was placed in the hands of the U. S. deputy marshall. During the afternoon he gave bail in $1000.

It is believed that Baldwin Gardiner, the absconding stock broker, sailed for Tahiti on Saturday on the str. Raiitea.

Arrived, str. Queen of the Pacific from Victoria; str. Columbia, from Portland.

Samuel S. Roberts, who presided at a meeting in Metropolitan hall 2 weeks ago called to avenge the murder of little Mamie Kelly, has been arrested on a warrant charging him with riot. Roberts was released from custody on filing a bond of $500.

A special despatch from London received by the *Call* states that one of the worst elements in the European situation is the terribly uncertain temper of the Czar, who in his present state of irritation and excitement is liable any time to throw off all restraints of prudence and plunge the whole of Europe into war. There is a general impression that the supposed combination between England, Austria and Italy is an accomplished fact, with Germany in the background to divert the attention of France, and that the combination is determined not to advance an inch, but to leave Russia to decide whether she prefers war or peace. It is thought that Bismarck is now ready and anxious to precipitate the crisis.

A special to the *Bulletin* from Ottawa, Ont., says: At a special meeting of the cabinet held this morning to consider the dissolution of the Dominion parliament it was decided to postpone an appeal to the country till the result of the provincial elections is known. Sir John denies that dissolution was discussed but from reliable sources it is learned that the meeting was convened for that purpose. The fishery troubles with the U.S. were considered and representations will at once be made to the British government concerning the outline of an agreement in which Canada's interests would be protected in the event of Canadian waters being thrown open to American fishermen. The governor-general was present at the cabinet meeting.

The canvass of the full official vote of San Francisco was completed to-day. The vote on governor is: Bartlett, 17,449; Swift, 15,675; Bartlett's plurality in San Francisco, 1774; Swift's plurality outside of San Francisco, 1149; Bartlett's net plurality in the whole state, 625.

BERLIN, Nov. 23.—In spite of the closest watch kept on the barracks at Berlin, Spandan, and Pottsdam, thousands of copies of Socialistic pamphlets have been found among the troops. The matter seized consists mostly of newly issued appeals to the soldiers to join the Socialists in hastening a social revolution. The source of the pamphlets have been traced to men frequenting beer houses. A number of men have been arrested.

Herr Schwarzeback has returned from St. Petersburg, having unsuccessful negotiation for a proposed Russian loan of 120,000,000 marks. It is reported since his interview with Prince Bismarck that Herr Bleichroder has demanded heavier terms for the proposed loan, which Russia has declined to concede.

WASHINGTON, D.C., Nov. 23.—The marine hospital bureau is officially advised of the prevalence of cholera in Buenos Ayres.

BRUSSELS, Nov. 23.—The senate and chamber of representatives today agreed to consider a bill making it compulsory of every citizen to enter military service at the age of 20 years.

TIENTSIN, Nov. 23.—Li Hung Chang was present at the formal opening of the experimental line of the Decanville Railway. The occasion was attended with great ceremony, and the line was operated successfully.

NASHVILLE, Nov. 23.—The lawyers of this city have offered a lawyers' stake of $15,000 to be run for at the spring meeting of the Nashville, Tenn., blood horse association. The race is for 3 year olds and the distance a mile and one-sixteenth.

PARIS, Nov. 23.—A man and his wife named Thomas have been sentenced to death and the wife's two brothers named LeBon to imprisonment for life for the murder of Mme. LeBon their mother whom they burned to death in order to inherit her money.

The chamber of deputies to-day voted for a reduction of 625,000 francs in the expenditures of the central administration, and a reduction of 150,000 francs in payment to the finance ministry. The chamber referred the question of other reductions to the minister of finance. After several divisions it agreed to discuss amendments reaching other credits demanded by the government. The attitude of the chamber towards the government has created a sensation. Reports are current that several members of the cabinet are about to resign, and that four under-secretaries have already tendered their resignations.

ROME, Nov. 23.—Archbishop Smith of St. Andrews is visiting Rome on business relating to the affairs of the Scotch dioceses. He had a long conference to-day with the Pope respecting diplomatic relations to using about a renewal of diplomatic relations between England and the Vatican. It is reported that a special apostolic delegate will be sent to England with this object in view.

In a green book just issued by the government it is shown that Count de Robitart, minister of foreign affairs, has sent a circular letter to each of the powers assuring them that Italy is desirous of European concert to maintain the peace on a basis of the Berlin treaty and independence of the Balkan states. The green book states that in a recent conversation with the British ambassador to Italy Count de Robitart argued that it was immoral for the great powers to morally support a small power unless prepared to furnish material support when the small power needed it.

BOMBAY, Nov. 23.—A party of merchants who have arrived here from Ghuzeni report that the Ghilzais have beaten the ameer of Afghanistan's troops. They also report that the rebellion is still rapidly spreading, under the influence of religious fanatics who lead the insurrents. Many of the ameer's troops are also joining the rebels, owing to the honorable reception given the members of the British Afghan boundary commission by the ameer, which gave rise to a suspicion that he intended to yield to British occupancy.

LONDON, Nov. 23.—Advices from Durbar, Nov. 34, state that a general and apparently successful revolt is in progress among natives against the Portuguese authorities in southeast Africa. An American missionary, Rev. Mr. Wilcox, arrived in Durbar from the Portuguese settlement on the east coast, above Transvaal. He reports as follows: The natives at Inhambane, a Portuguese port town 200 miles above Delagoa bay, rose up against Portuguese taxation and murdered the collector on Oct. 23rd. A battle was fought between 8,000 Portuguese and friendly natives on one side and 30,000 hostile natives on the other. The Portuguese were defeated and routed, and the loss in killed on both sides is estimated to be 9,000 men. Mr. Wilcox says the governor of Mozambique has gone into the country to endeavor to suppress the revolt and save the port of Inhambane from falling into the hands of the insurgents. The town was barricaded when the missionary last heard from it, and women and children had been removed to ships lying in the roadstead. The entire country round about the town had already been abandoned by the Portuguese, and arrangements had been made to remove the population of Inhambane out to sea if the hostile natives attacked the town in force.

A despatch from Berlin to the *Post* says that Count Herbert Bismarck had a long interview to-day with Count Schouveloff, the Russian ambassador at Berlin, in the course of which the latter complained bitterly of the tone adopted by the official German press towards Gen. Kaulbars. It is reported that the count replied warmly to this charge, saying that Gen. Kaulbars' proceedings in Bulgaria were unworthy of the agent of a great power.

Kompert, the novelist, is dead.

The postmaster general, replying to the Trades and Labor League, Dublin, said that a new mail system had been adopted because the acceptance of the tenders of the Cunard and White Star lines would have given those lines a monopoly of the American service, precluding the postoffice from sending mails by other lines. The postmaster general will invite offers for the mail service after the expiration of three months.

A great scene was caused through the West End this afternoon by the firing of cannon in St. James park to celebrate the birth of the queen's new grandchild. A dense fog prevailing at the time, for a while the detonations were believed to be those of some dynamite attack.

NEW YORK, Nov. 23.—M. Murkacsy, a Hungarian artist, was banqueted to-night at Delmonico's by a number of his fellow countrymen. Addresses in praise of the artist were made by the Hon. Jos. Pulitzer, Hon. A. S. Hewitt, and others. M. Murkacsy replied in Hungarian expressing his thanks. He complimented American ladies for their beauty, saying they were the handsomest women in the world.

The will of the late ex-president, which was made in March last, will probably be filed for probate to-morrow. It is believed to direct the disposal of about $250,000 of real and personal property. It is said that the bequests, except in one or two instances in which charitable institutions are benefited, are of a private nature. Nearly all of the prominent persons who came here to attend the funeral have departed from the city. The family remained in seclusion to-day, receiving only a few intimate friends.

Lace goods of much value have been smuggled into New York through various channels for some time, and Miss Josephine Schouvieus, a young and lovely Belgian living in this city, was arrested to-day. The young lady says she has relations in Belgium whom she frequently visits, and they send lace by her to sell in this country. The last time she returned by the steamship Switzerland, landing in Philadelphia. It is alleged that she brought it here and peddled it through the city. In her apartments was found lace valued at nearly $3,800. The young woman made no secret of the way in which it came into her possession. She seemed to be unaware that she had committed a crime in smuggling it into the city.

BOSTON, Nov. 23.—Later facts show that the total amount embezzled by Reed is $104,000, of which $34,500 is over-issue of stock. Reed has confessed to the police and turned over all his property to the directors of the company.

DENVER, Col., Nov. 23.—While S K. Stevens and his son, 20 years of age, were filling a drill hole in the Plutish mine, near Idaho Springs, with giant powder last night, the charge exploded, killing the son instantly. The father was so badly torn by pieces of rock that he died this afternoon.

Mr. Sheehan, of Oscoda, Mich., writes: "I have used Dr. Thomas Electric Oil on horses for different disease, and found it to be just as you recommended. It has done justice to me every time, and it is the best Oil for horses I ever used." Observe that the name "Dr. Thomas Electric Oil" is on front of the wrapper, as there are imitations of it.

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a definite valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs "Curatives," but in cases of Kidney Diseases and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when *nothing else can.* The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria.
