DAILY BRITISH COLUMBIAN.

VOLUME 2 — NEW WESTMINSTER, B. C., WEDNESDAY EVENING, FEBRUARY 9, 1887. — NUMBER 33

Daily British Columbian

Wednesday Evening, February 9, 1887.

It is simply a piece of history, that for years past the railways of the country have abused certain conditional privileges with which they are endowed, and turned them to their own benefit, and the advantage of a favored few, to the injury of the community at large; and it is high time that an enquiry such as is now being instituted, were made, in the interest of the many. No more effectual means can be employed to bring about a right understanding regarding the best methods of dealing with railway companies in their relation to the public, than through the agency of a royal commission. In the United States the establishment of royal commissions have worked incalculable good, and have been the cause of remedying many of the abuses which previously existed, besides reconciling conflicting opinions regarding the duties of railways to the public.—*Montreal Trade Bulletin.*

A daring member of the United States congress has brought before that great body a bill rendering it illegal for any railway company to heat passenger cars by a fire in a car, or light them with any device requiring a reservoir of inflammable material in the car. The railway lobby will, of course, suppress this man, and laugh his measure out of the house by declaring that the present furnace is the only practical method of heating a passenger car. As the elevated railway cars in New York are heated with steam from the engine; and the system has been so perfected that the cars are heated mainly by the steam which would otherwise escape during stoppages, this is about as true as the statement that there is no such thing as an effective automatic coupling. The railway companies have been allowed to go on killing their brakemen in the regular course of business, because it would be a very expensive operation to provide all the freight cars on this continent with new automatic brakes and couplings. Will the people allow them to go on and burn up a proportion of their passengers yearly, because to do away with the danger of passenger cars burning up would entail a moderate expenditure of money? Is this not one of the things for which we want a railway commission?—*Montreal Witness.*

Now comes Brigham Young raised from the dead to revisit his people and confirm them in the faith. At present he is said to be lying in close retirement, in the flesh, near Lincoln, Neb., receiving delegations of Mormon leaders and making arrangements for his second advent. Soon he is expected to show himself among the saints with instructions and commands from the further side of the grave. Brigham "was dead to begin with. There was no doubt whatever about that." The grain of truth in the report seems to be that the Mormon leaders have found an old gentleman, with a physical resemblance to the defunct prophet, and are coaching him for his part. What they expect to accomplish by his resurrection remains to be shown. Very likely the fraud will be widely accepted by the Mormon masses, and the message of the pretender will result in some additions to the "Book of Doctrines and Covenants," which will command the implicit obedience of the saints. Just now the members of the hierarchy are in a bad fix. The hand of the law is pressing heavily upon them for their sins against decency and morality. Something must be done to preserve their prestige. If they disobey the law they are sent to the "pen." If they obey they confess judgment. In either case they are discredited with their followers. If they can go before the people with a resurrected prophet and a new revelation, commanding a course of action which will keep them bound to the teachings of the priesthood, without antagonizing the laws of the land, the leaders will save their credit. Likely enough the new gospel, should it come, will take this form. If it results in commanding obedience to the law on the part of the Mormons, the deception may be pardoned. If otherwise, it might be a good idea to arrest the resurrected prophet as a polygamist, and judicially decide whether Brigham Young's numerous relicts are wives or widows. If the former, the prophet goes to jail; if the latter, he is no resurrected prophet. — *S. F. Bulletin.*

Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for perusal and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, to advance, or papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of one cigar for seven days permitting to see news from all over the world, and elegant books which may be changed every 24 hours. There is no end to talk about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate the institution. Ladies and strangers are, so doubtless all the parties who believe in Blue Ribbon will come forward of course and join this attractive effort, both in their own credit and that of Old Tom. Come, come all, and you will be amused to by one who can scap all classes, viz.:

Yours Respectfully,

Daily British Columbian

Wednesday Evening, February 9, 1887.

The *Canadian Gazette* states that the total emigration from Great Britain and Ireland during the year 1886 was 66,503 in excess of the previous year. In December the emigration was over 13,000, and showed an increase of about 3,000 over the same month last year. The total exodus for the year was 233,119 persons of British origin, 94,229 foreigners, and 2,540 whose nationality was not distinguished, making a total of 330,888, as against 264,385 during 1885.

We have no fault to find with Mr. Chisholm's address to the electors of this district which we published yesterday. The address deals with some of the most important questions which have occupied the attention of the people during the past, and which are calling for present action. There are some other things, however, upon which the address is significantly silent. One is the question of temperance, a question which every year is coming into greater prominence both in British Columbia and in the east. Mr. Chisholm doubtless shows his discretion in avoiding the temperance issue. He knows well enough that the business in which he has for years been engaged is a business that has cursed this country and every country where it has been tolerated. He knows that a man whose conduct is inspired by right motives—a man who felt the responsibility of his acts and influence—could not permit himself, even for the sake of gain, to engage in such a business. The position is not capable of defence, and under the circumstances silence may be discreet. It is on this very question that we are opposed to Mr. Chisholm's election.

The Chicago correspondent of the Winnipeg *Sun* says: The broken-off match between Spies and Miss Van Zandt is now a thing of the past, and after being a wonder for a few days has dropped out of the public recollection. The little episode greatly cheered up the spirits of the jailed anarchists, however. They like notoriety, in fact they thrive on it. For some time they had dropped out of the public view altogether, and while they were very comfortable in jail, the fact that the newspapers said nothing about them preyed greatly on their minds. The result of the affair though is the creation of a good deal of public sentiment about Spies. He is an agnostic and an unbeliever in the sacred rite of marriage, and his efforts to prey on the affections of an innocent and romantic young girl and trap her into his net are generally condemned. It is understood that the match is broken off in consequence of a remark let drop by Mr. Spies to the effect that no marriage was necessary, and that he and Miss Van Zandt could live together without it. Spies is also authority for the opinion that he has more respect for the wantons on the street than for married women, for the former may follow the dictates of affection, while the latter must live with their husbands no matter how much they might detest them. Spies' contempt for the law is great, but it is not greater than the apparent contempt for the woman who did want to be his wife.

Speaking of the northwest coast Indian land question yesterday we should have mentioned that these civilized and Christianised Indians also object to the system adopted elsewhere of sending an agent to administer their affairs. Having put away paganism and accepted the Christian doctrine and civilization, and having acquired a fair education and knowledge of civilized government and usages, they believe themselves able to look after their own affairs. If they are placed under an "agent," they say, they will be forced into a species of bondage, because there is scarcely anything they can do without first obtaining the agent's consent. Regarding themselves as men and Christians, they resent such surveillance, just as a white man would resent being under the surveillance of a policeman. They wish to have their reserves allotted and to make their own local and domestic arrangements without any outside interference whatever. In favor of this contention it may be said that the Christianised Indians of the northwest coast have shown themselves to be peaceable and capable of carrying on successfully a simple scheme of municipal government, and we believe their communities are fully as orderly and well regulated as many communities of white people who would not tolerate official interference such as would obtain under an Indian agency. It may be questioned, however, whether in this generation even the educated Christian Indians should have placed in their hands the same civil authority and rights as are enjoyed by the whites. Ages of paganism and superstition have warped them to such an extent that it might not now be safe to give them what it may be difficult to take away if they should lapse into bad habits through the influences which are constantly at work tending in that direction.

Mr. J. Liest, warehouseman for Lautz Bros., Buffalo, N. Y., says he had a swelling on his foot which he attributed to chilblains. He used Dr. Thomas' Eclectric Oil, and is troubled no longer. Dr. Thomas' Eclectric Oil may be imitated in its appearance and name, but not in its virtues.

To the Electors of the Electoral District of New Westminster.

GENTLEMEN:—Shortly after the lamented death of our late Representative, Mr. Homer, I was Solicited by a number of my friends, to allow myself to be nominated as a Candidate for the Representation of the District of New Westminster in the House of Commons of Canada. The personal solicitation of friends, was shortly followed by requisitions so numerously signed, by prominent and influenial Electors of the City and District, that I felt it to be my duty to place my services at their disposal. It is not therefore, Gentlemen, as a self-nominated candidate, that I ask for your support, but I do so in response to the request of over four hundred of your number.

To many of you, Gentlemen, who have known me for a long time, it is unnecessary for me to say, that I am perfectly familiar with the great and varied resources of this Province. My knowledge of its Mining, Fishing, Agricultural and Commercial advantages has been derived from actual experience, and will (if elected) enable me to place prominently before Parliament, the great resources of this Province, and the means necessary to be employed to aid in their further development.

It is impossible, Gentlemen, in an address such as this to do more than allude to some of the questions of interest and importance to you, which as your representative, I would consider it to be my duty to bring to the notice of Parliament. I will, however, enumerate a few matters of great importance to us all, in regard to which it will be my earnest endeavour to obtain beneficial legislation.

I will endeavour to have removed from the mouth of our noble River, every impediment to its free navigation, and have necessary lighthouses erected.

I will endeavor to secure to settlers and squatters an immediate title to their lands. This I consider to be a matter not only of justice, but also of expediency. Heretofore great injustice has been done to a valuable and deserving class of our population, to whom, had justice been done and facilities afforded for acquiring homesteads, the results of their industry would, ere this, have done much to develop the agricultural capabilities of this fine district.

I am aware, Gentlemen, that the number of representatives to which each province of the Dominion is entitled is based upon population, yet I believe that, owing to exceptional circumstances, such as the fact that this province contributes to the revenue of the Dominion a much larger percentage, according to population, than *any of the other provinces; and also to* the fact that large centres of population are rapidly being formed in this district—that it is entitled to a larger representation in the parliament of the Dominion, and which as a matter of justice I will endeavor to obtain.

I will also endeavour to obtain for the residents of this District better postal facilities, to which they are justly entitled.

I will use my best efforts to secure equitable rates on all railway and telegraph lines, and to have the same fixed by law.

The interests of British Columbia demand that every impediment in the way of constructing railways to our Southern boundary and other portions of this district be removed to aid in the development of our resources. I will endeavor to have this accomplished, and also to obtain aid for the construction of canals and the improvement of navigable streams.

I will also consider it my duty to render all possible aid to any legislation which seeks to simplify and render less costly the administration of justice, especially as between individuals and corporations.

My political platform is, in the first place, the interest of British Columbia, which I believe can be best served by my giving an independent support to the present government, which has not in the past been unmindful of the interests of British Columbia, and to whom we are indebted for the early completion of the railway, which has brought us into communication with the Eastern Provinces and Europe, and through the agency of which, we will in the near future, be placed in direct communication with Australia, China, Japan, and the Great Eastern Empire, which must prove to be of incalcuable value to this province, and to this district in particular.

In conclusion, gentlemen, I have only to say, that I am prompted by a sincere desire to benefit this district and to aid in promoting its varied interests, and I ask your support only upon these grounds. It is my intention to see as many of you previous to the election as time and circumstances will admit of in the meantime.

I remain, Gentlemen,
Yours very truly,
dwfe8td DONALD CHISHOLM.

"I take only one English weekly paper, *The Spectator*, and one Canadian, *The Week*, and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:

A Canadian Journal of Politics, Society and Literature.

PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

Wednesday Evening, February 9, 1887.

Vancouver wants a new post office.

The str. Louise did not reach Vancouver till 4 o'clock to-day.

The train from the east was two hours and a half late to-day.

General Butler is a persistent chewer of slippery-elm bark. He once chewed tobacco.

Two carloads of freight arrived from Victoria this morning by way of Port Moody.

George C. Needham, the Irish evangelist, began a revival in Cleveland Sunday night.

The Baptist social and bazaar will take place in the basement of Olivet church this evening.

We are informed that Mayor McLean, of Vancouver, will be a candidate for the commons.

The name of Mr. Goldwin Smith is mentioned in connection with the candidacy for Montreal Centre.

Some philanthropists have undertaken to instruct and convert the Chinese laundrymen of Winnipeg.

Patrick Burns, an extensive coal dealer in Toronto, failed yesterday morning. Liabilities $400,000.

John Morris, a prominent boodle alderman of New York, has been sentenced to Sing Sing. Cleady will be the next tried.

Mrs. Mackay is expected to become one of the highest bidders for some of the French crown jewels at the coming sale in May.

Ten locomotives on the C.P.R. at Port Moody, crossed Australian coal, which was brought over as ballast in a lumber ship.

Don't forget that Jas. Ellard & Co. are agents for McColl's New York Bazar Paper Patterns. A full line always on hand. d-ja3tc

It is said that there are even now eleven American girls engaged to give up their hands and fortunes for foreign titles in marriage.

Minneapolis is growing fast, according to her own showing. Last year over 4,000 buildings were erected, at a cost of $11,000,000.

Thirteen sacks of mail matter for this city were received here last night from the C.P.R., and 4 sacks to-day. The delayed mails are all in now.

D. W. Kearn's large organ factory at Woodstock, Ont., and Geo. Week's furniture factory were burned on the 2nd inst. Loss $30,000, partly covered by insurance.

The new French explosive, melenite, which is said to be more powerful than dynamite or nitro-glycerine, in touch and appearance resembles yellow clay.

In addition to our new stock of spring goods we have opened an invoice of Diagonals, West of England Broadcloths and French Cassimeres. — WALSH'S TAILORING EMPORIUM. dno30tc

More patents for inventions are issued in the United States than in any two European countries. England stands second in order, France third and Germany fourth.

Mr. Shaughnessy, assistant general-manager of the C.P.R., announced recently that the company was rapidly extending their Algoma branch. Upwards of six hundred men are employed on the work.

Not long ago orders were given to release Eugene Herbert, confined in the St. Vincent de Paul penitentiary at Montreal. By mistake another Herbert was discharged, and both the men are at liberty.

It will be seen from our advertising columns to-day that another auction sale of city squares is to take place on the 26th inst. This will be an excellent opportunity for persons desirous of securing building lots.

D. W. Port & Co. are making "hay" while the sun shines. They have now 300 tons of ice in their ice house, and are putting it in at the rate of 100 tons per day. The ice is of excellent quality, and is now about 6 inches thick.

Dr. Dawson, in a lecture before the Ottawa Literary and Scientific Society, on Vancouver Island, predicted that its great natural and material advantages would in future earn for it the title of the Little Britain of the North Pacific.

The statement of traffic earnings of the Canadian Pacific for December shows the net profits for the month, an increase of $39,212 over the profits for December. For the months ending December 31st, the net profits were $3,703,486, an increase of $478,269, compared with the previous year.

COSTUMES.—To those desiring to be photographed in costume worn at the Yorick ball, we offer special reduced prices.—THOMPSON & BOVILL. d1f

COMMONS ELECTION. We are authorized to state that Mr. Donald Chisholm is in the field as a candidate for the seat in the House of Commons rendered vacant by the death of our late lamented representative, Mr. Homer. dwoc25tc

COLLISION.—Pat Collins was proceeding down Columbia street with his dray this morning when he came in collision with a young lad named De Coursey, driving a delivery wagon for Groceryman McDonald. The young lad was thrown from his seat in the wagon and badly shaken up.

HALF A YEAR.—Six months ago the Public Library and Mechanics Institute was reopened by the old librarian, Mr. H. W. Hughes. Now that the city is connected with Ontario by direct railway communication we are sure of plenty of strangers in the future, and this is the only place outside of the hotel for a newcomer to enter and pass away an hour or two in the afternoon or evening. It costs nothing for those just arrived, and for old residents but 50 cents per month, or one bit for seven days, this being just what is paid for one cigar. One hundred and eighty-five names have been written down as members already, and if these paid at the 1st of each month all would be success. However, some forget, some have moved away, and a few have retired, the charge doubtless being so large. Thanks to the mayor and council and a number who never have time to enter the place, strangers and those who have no home have an agreeable place to enter all the year round.

Why go limping and whining about your corns, when a 25 cent bottle of Holloway's Corn Cure will remove them? Give it a trial, and you will not regret it.

Charged With Murder.

Four Indians Arrested--Result of the Inquest.

Four Indians were arrested yesterday by Constable Armstrong, at Port Moody, charged with murdering Indian Bill, whose body was found two days ago on the Port Moody Road. They were brought into this city last evening on the train along with the dead body, and lodged in the jail over night. This morning they were brought before Capt. Pittendrigh, J. P., and remanded eight days. A postmortem examination and inquest was held this afternoon on the dead body and a verdict of death from foul play and subsequent exposure to the weather was returned. The jurors on the inquest emplained very much of the fact that they could receive no remuneration for their services.

Delayed Trains.

Particulars of the Storm--Cattle Dying for Want of Fodder.

The long looked for express and mail train from the east arrived last evening about 6:30 o'clock. Over a week had elapsed since the last through train had arrived. The cause of the delay was the severe blizzards which have been raging on the prairie for the last week. The snow had in many places drifted across the track, effectually blocking traffic, and the railways hands had refused to clear it, owing to the intense cold that prevailed with the blizzard. Some of the passengers left Toronto and Montreal two weeks ago and only arrived here last evening. They were obliged to stop five days at Calgary, as each train as it arrived there from the east was cancelled and proceeded east again. Passengers report the cold as very severe on the prairies, in some instances the thermometer falling to 30 below zero. Many of the cattle around Calgary are dying, the ranchers being unable to obtain hay for them. They complain that this has been the severest winter for a long time.

Personal.

W. Hood, of Montreal, is in the city.

Col. Hamilton came in from Port Moody to-day.

Miss Loring, of Port Haney, came down last evening.

W. E. Esen, of Port Moody, came in on the noon train.

A. C. Perry, of Vancouver, was in the city last evening.

Miss McDougall, of Vancouver, was in the city last night.

J. P. Mowatt, of Campbellton, N. B., is at the Colonial.

E. W. Beckett and wife, of Port Haney, are in the city.

C. W. Rhodes and J. C. Cox, of Port Moody, attended the Yorick Ball las evening.

Dr. J. M. McLean returned from Victoria yesterday, having successfully passed the examination prescribed by the provincial association.

H. Mathers, J.P., and his daughter Maggie were among the passengers who came in on the C.P.R. last night. Mr. Mathers has been on a short visit to Ontario.

At the Colonial: W. E. Esen, Port Moody; G. Robinson; G. McKenney; J. P. Mowatt, Campbellton, N B.; W. Hood, J. G. Blake, Montreal; Mrs. Sinclair, Miss Loring, Mr. Beckett and wife, Port Haney.

We are glad to learn that J. A. Bowes, of Hope, who went east some time ago for the benefit of his health, is gradually improving under medical treatment at Milwaukee. His many friends in this province will be glad to hear of his recovery.

ELECTORS
—OF—
New Westminster District.

GENTLEMEN,—As a successor to your late representative in the Commons will soon have to be elected, I hereby announce myself a candidate for the position.

I purpose publishing an address in which I will give my views on the most important questions affecting your interests, and will visit the different settlements and address the electors before election day.

In Politics, *I am and will be* THOROUGHLY INDEPENDENT.

Yours respectfully,
dwoc25tc T. J. TRAPP.

The Yorick Ball.

The fancy dress ball of the Yorick Club held last evening in the Drill Shed was a great success. Large numbers were present from Vancouver and neighboring places. The Drill Shed was tastefully decorated for the occasion. Music was furnished by the "Happy Hottentots." Dancing was continued up till an early hour this morning. The costumes were varied and numerous, some of them being remarkably pretty. Below are the names of the ladies and gentlemen present and the characters they represented: A. G. Progress of the Carnival at Montreal--Election Estimates--Regiments Refused Permission to Visit England--Action for Libel.

MONTREAL, Feb. 9.—The rainy weather to-day somewhat dampened the spirits of those attending the carnival. The indoor sports were largely patronized. An address was presented his excellency the governor-general and a happy reply was made. A dispatch was sent to the Queen, congratulating her on the 50th year of her reign.

QUEBEC, Feb. 9.—*Lelecteur* estimates the results of the elections as a majority of 40 for Blake, while the government organs claim from 30 to 35 for government. The Conservatives have nominated L. F. Burrough in Quebec Centre and Kennedy in Dotbiniere.

TORONTO, Feb. 9.—The government have decidedly refused to grant permission to any Canadian regiments to visit England next summer. The refusal has caused consternation among the members of these corps who were preparing to go.

ST. CATHARINES, Feb. 9.—J. C. Rykert, Conservative candidate for Lincoln, has entered an action against the reform candidate Patterson, for ten thousand dollars damages for libel.

The Telephone in France--A Dynamite Steel Cruiser---Storms in Montana.

NEW YORK, Feb. 5th.—Business on the river front this morning is paralyzed. Judging from the indications to-night 50,000 longshoremen and coal-handlers will be on strike to-mormorrow. Delegates are actively engaged in organizing every branch of labor about the piers.

WASHINGTON, Feb. 3. — Although the secretary of state has not yet announced that the British schooners captured by the revenue steamer Corwin in Alaskan waters were unlawfully seized and held, it is learned on very good authority that that will be the outcome of the whole matter, and that proper damages will be paid by the government for losses by detention.

The New York *World* is informed that the navy department will complete early this week the drawing of a contract with the Pneumatic Dynamite Gun Company of New York for the construction of a dynamite steel cruiser, to be completed June 1. If this vessel is all that is claimed for it, then the harbor of New York will be safe from any foreign fleet. Work on the vessel will be hastened on account of possible complications between this country and Great Britain. Congress authorized the construction of this vessel last year, but very little has been said about it, and that the department has completed arrangements for the building is not generally known. The vessel is to carry three dynamite guns, each capable of throwing with accuracy 200 pounds of dynamite a distance of one mile. If the guns are made of that capacity they will be capable of throwing 400 pounds of dynamite, which would be sufficient to blow up the largest vessel known to a modern navy.

BERLIN, Feb. 6.—It is semi-officially stated that a complete state of entente has been reached by Prussia and the vatican on questions of church and state. All the newspapers except the *North German Gazette* are discussing the Berlin *Post's* recent article on the situation in France. *Vassische Zeitung* condemns the article as offering wanton provocation to France. The *Tagblatt* reminds the public that the sensational article in the *Post* in 1875, headed "War in Sight," was disavowed by Bismarck in the reichstag. The *Freisinninge* declares the article especially designed to play upon the fears of the German electors. The *National* reproduces it without criticism beyond affirming that Germany continues the solid rampart for European peace, and that in rightly judging the situation it is necessary to recall the words of Bismarck, that Germany would not take the responsibility of attacking France.

BRUSSELS, Feb. 3 —Two heads of state conversed to-day by telephone. King Leopold went to the Stock Exchange to experiment with the Brussels-Paris telephone, and asked for communication with President Grevy. The president of the French republic said through the telephone, "Who is there? Who is there?" The reply came from King Leopold, "It is the king of the Belgians." M. Grevy inquired after King Leopold's health and expressed pleasure at such a perfection of intercourse having been obtained with a friendly country. King Leopold replied in a similar strain, adding that the telephone was a marvelous invention and that it would help to develop French-Belgian relations.

Mr. George Tolen, Druggist, Graven hurst, Ont., writes: "My customers, who have used Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, say that it has done them more good than anything they have ever used." It has indeed a wonderful influence in purifying the blood and curing diseases of the Digestive Organs; the Liver, Kidneys, and all disorders of the system.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims--which in a company of the age of the Confederation Life is something to be proud of. The ass ts and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,300. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. Late Despatches.

CLIPPED AND COMPILED FROM LATE EXCHANGES

OTTAWA, Jan. 29.—There is a prospect of a lively lawsuit between the Canadian Pacific and the Grand Trunk. The projected line of the latter company, starting from Kirkfield or Lindsay and Colbrooke branch and running as direct as possible to the Sault, a distance of 380 miles, has stirred up the Canadian Pacific to extend its Algoma branch to the same point. The Grand Trunk has located its line and bought most of the right of way, but while construction was under contemplation, the Canadian Pacific has already commenced it. The Grand Trunk people claim that their great rival is following the identical route as laid out by the Grand Trunk engineers, and have consequently applied for an injunction to compel them to desist. Bailey, C. E., of Toronto, was here yesterday and interviewed the railway department on the matter.

TORONTO, Feb. 1.—The famous coal conspiracy case against Patrick Burns, coal dealer, Thomas Johnson, his confidential clerk, and John Venable, mechanical superintendent of the city waterworks, collapsed yesterday afternoon, the judge deciding that there was nothing to go to a jury.

DETROIT, Feb. 1.—In Windsor, Ont., more than half of the telephone subscribers have notified the company that unless they have connection without extra charge with Detroit the telephone must be removed. This is said to be but the start of a general movement throughout Canada looking toward a lowering of the telephone rate.

OTTAWA, Feb. 2.—The directorate of the Pontiac and Pacific railway have under consideration a scheme to change the route of the line which will necessitate its extension to Sault Ste. Marie, there forming a connection with the Northern Pacific. A cable to the *Mail* says that much regret is manifested among Canadians in England over the resignation of Sir Charles Tupper and confidence is expressed in the rumored appointment of Sir Alexander Campbell. Eight Canadians who received their military training at Kingston will join their regiments in India next month, having put in one year of special instruction, which is a high compliment to the Canadian system, cadets being required to take two years special instructions.

OTTAWA, Feb. 2.—The imperial government has issued an order stating that when officers of the imperial forces are serving the colonies they must look to the latter for all pay. The emoluments of officers now employed in colonial service will be cancelled. This, it is claimed, will have the effect of discouraging English officers from entering the service of the colonies, for the reason that they can secure better remuneration at home. A company with a capital of $5,000,000 has been organized to undertake the construction of a submarine tunnel between Paince Edward Island and New Brunswick, provided the government will guarantee 4 per cent. interest on the expenditure.

QUEBEC, Feb. 2.—After the adjournment of the legislature this afternoon the premier and such of his colleagues as have to go back for re-election will leave for their constituencies. Nominations are now fixed for the 12th and elections for the 19th inst.

SIMCOE, Feb. 2.—The Simcoe woolen mills were burned yesterday. Two operators were badly burned before they could escape. It is feared that a young man was lost in the building, as he is missing. Loss about $30,000; pretty well insured.

CAIRO, Feb. 2.—Henry M. Stanley will leave here on Thursday next with a force of 1,200, including eighty negroes, on his expedition for the rescue of Emin Bey. Stanley does not expect to meet with any formidable opposition on his march, but on the contrary believes he will receive valuable assistance from many of the negro tribes, enabling him to successfully carry out his scheme of relief. The government intends raising the blockade of the Soudan and reopening the petroleum wells of Egypt.

ROME, Feb. 2.—Premier De Pretis informs the Italian chamber of deputies to-day that there has recently been severe fighting in that part of the Soudan whose occupation was being attempted by Italy in an understanding with England. He said this fighting had resulted in almost complete disaster to the Italian forces engaged in conjunction with the Abyssinnian troops in the work of attempting to release Kassala, which has been besieged by hostile Arabs ever since the beginning of the Soudanese war by the late El Mahdi. Going into details, the premier said that Rasolua, the general commanding the Abyssinnian troops, accompanied by a small number of Italian soldiers, attacked Soatie on the 20th of January. A hotly fought battle ensued It lasted three hours and the army of Rasolua was repulsed. The Italian loss was trifling and that of the Abyssinians was unknown. Next day three companies of Italian troops left Monkullo to carry provisions to Soatie. The Abyssinians again made an attack and a desperate battle was waged. The Abyssinians were defeated and the Italian troops were simply annihilated, but ninety reaching Massowah. This statement made a profound sensation in the chamber. Premier Depretis added that the Italian commander recalled the troops for the advance and concentrated them at Massowah. The Radicals laughed ironically at this. The government now preposed a bill for an appropriation of $1,000,000 with which to send Italian reinforcements to Massowah. The chamber at once approved the bill by an almost unanimous vote.

LONDON, Jan. 28.—Lady Macdonald's article, "By Car and by Cowcatcher," appeared to-day in Murray's Magazine. It is a description of her ladyship's journey over the Canadian Pacific railway. She speaks in very glowing terms of the exquisite beauty of the scenery, the comfort of the carriages and the importance of the line. She also enters briefly into the political history of the undertaking, showing how politicians quarreled over it, how speculators shook their heads, how engineers doubted the feasibility of the scheme, and how the railway authorities opposed the enterprise. It broke one government, embarrassed another, set everybody by the ears, and bade fair to become a chronic quarrel between the rival parties, when happily the difficulty was faced and the line was brought to a a successful finish. The journey of the authoress reads like a novel. It is written with admirable taste and in a gossipy style that is exceedingly interesting. Lady Macdonald refers to her husband as a chief who is always engaged in adding to his store of knowledge about the country and its necessities and the requirements of the people. The meeting with the Blackfeet is like a page from a romance. The welcome that Sir John Macdonald received was most gratifying, showing the loyalty of the Dominion's dusky and distant subjects. The authoress gives many interesting incidents of her journey, especially of that part where she proceeded from Laggan for 600 miles on the cow-catcher of the engine. At this point the story ends for the present, but sufficient has been published to awaken interest here in the great and successful enterprise.

The Gold Frontier in Africa.

At Barberton, in the so-called De Kaap gold-fields, in the South African Republic, things are booming. The South African fields are now the gold frontier of the world. The scenes familiar to so many of our readers from personal experience on our own Pacific Coast or in Australia, and familiar to everybody from the literature of the Californian and Australian epochs, are now being re-enacted in South Africa. Thither the adventurous spirits of every nationality are flocking, as they went to the Golden Gate in '49 and to the Bathurst district in New South Wales a couple of years later. The same struggle of enterprise, pluck, physical endurance and mental astuteness to gain and possess the yellow prize is going on in the new gold-fields away beyond Kimberley and Pretoria—almost in the region of Mr. Haggard's fabled Mines of King Soloman.

It is especially interesting to compare the conditions of the gold battle in South Africa with those which already seem to belong to the ancient history. While every race and every nationality is represented in the affairs of De Kaap Gold-field, the prevailing influences are Dutch and English. The local government consists of a Delvers' Comite, or Diggers' Committee, subordinate to the Volksraad, or Congress of the Republic. The local office-holders are known by Dutch titles, and the government notices are published both in Dutch and in English. But while the legislative and administrative framework is Dutch, the English seem to be in a majority. In an election for members of the Diggers' Committee held on the 27th of last October, returns from Barberton, Moodie's, Victoria Reef, Fair View, Eureka City, Figtree Creek and Sheepskin, precincts which in our West would be called mining camps, show the election of about three Englishmen to one Dutchman.—*N. Y. Sun.*

The Growth of London.

It has been truly said that London, England, is "first among the marvels of modern civilization in the nineteenth century," and that "no other city can rival or even approach it in wealth, size and population." So vast has it become that the British parliament has found it most difficult to legislate for its proper government, and has for years been struggling in vain to accomplish that object. Lord Rosebery, too, has on several occasions called attention to the great social dangers which lurk in such an overwhelming concentration of the great mass of the people. London, indeed, resembles the Loadstone Mountain in the Oriental tale, attracting all to it, and so has vastly overgrown. For successive generations, but more especially in the last fifty years, it has been exercising an ever-increasing power of attraction on the entire population of the islands. We need hardly say that the construction of the railways gave the centripetal movement an immense impulse; nor need we add that the natural and inevitable results have been largely to modify the national character. In 1836 the population was something like one million nine hundred thousand; in 1886 the population, so far as any census can now be taken, must exceed four millions. As for the expansion of acreage, it is difficult to estimate it, and for similar and very sufficient reasons. No man can possibly say where London begins or where it ends. Cities spring up without the city, as in the case of West Ham, which has been shooting with the vigor of a fungus growth among the sugar bakeries in the Essex marshes. Sudden growths of the kind are as much a matter of course as the accidental annexation of a kingdom like Burmah, or the casual appropriation of some unsurveyed wilderness in South Africa.

The Mobile saloon-keepers have petitioned the legislature to pass a $1,000 license law, to ward off the enactment of a prohibitory law.

Three years ago there were only three toboggan slides in the United States. Now it is difficult to find a town or village without one.

There is a strip of land on Broadwap, New York, eight inches wide by 100 feet deep, for which the owner asks $6,000 an inch front.

QUICK TRANSIT from a state of feebleness, bodily langour, and nervous irritability—induced by dyspepsia—to a condition of vigor and physical comfort, follows the used of the standard regulating tonic and stomachic, Northrop & Lyman's Negatable Discocery and Dyspepsia Cure, which speedily conquers Indigestion, Constipation, Bilious, Complaints, and Female Complaints, purifies the blood, and reinforces the vital energy.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. MR. G. ROBERTSON,
Vancouver:

Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

THE BRITISH COLUMBIAN

Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is consistent with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.
