DAILY BRITISH COLUMBIAN.

VOLUME 1 NEW WESTMINSTER, B. C., SATURDAY EVENING, NOVEMBER 27, 1886. NUMBER 102

Daily British Columbian

Saturday Evening, November 27, 1886.

The facts contained in the interview published in to day's paper with Mr. Mills, one of the returned Hudson's Bay Straits observers, will be read with considerable pleasure. From excellent facilities for observation, he supports the contention that with properly-equipped steamers there is navigation of the straits all the year round. This fact established, there is no doubt that the season of navigation via the Hudson's Straits is quite as long as by the St. Lawrence, and that ice obstruction will not interfere with the success of the project which Manitobans so devoutly cherish.—*Winnipeg Sun.*

It is understood that orders have gone forward to Sitka to release any prisoners held under sentences for illegal seal catching, and to remit any fines imposed. The order probably came too late to help the imprisoned captains, most of whom had served out their sentences at the time it arrived; but it will put a stop to further seizures and prosecutions. The exclusive right of the Alaska Commercial Company to the fisheries on the islands of St. George and St. Paul, and in the territorial waters surrounding those islands, is indisputable under the lease; but it is not likely that any future administration will regard it as entitling the company to the ownership of all the waters of Behring Sea. Whether this will not practically extinguish the monopoly, the future will show. The lesson will be a dear one in any event for the company, but has come none too soon: One result will be the increased number of sealing vessels in the northern seas next season, and Victoria will, it is believed, send out a comparatively large fleet. Having no fear of the Corwin before their eyes, it may be anticipated that they will give a good account of themselves. It would seem as if some compensation should be made the captains who have unjustly been made to suffer, and we presume they will make such a demand in due time. The position taken was palpably absurd, as we pointed out at the time, and was nothing short of a gross outrage. If one consequence of the decision is to break up the monopoly it will be a fortunate thing that they took the steps they did. Good will come out of evil.—*Colonist.*

Recent events have made it so thoroughly manifest that the British investor has a liking for gold mines that it is much to be regretted that energy is lacking in the development of the gold-bearing districts of British Columbia. Here is a vast and sparsely populated region, rich in mineral resources: who will take it in hand? Mr. Koch, from whose report to the gold commissioner of the Cariboo district we recently quoted, points out that as yet there has been nothing like an adequate examination of the gold-quartz in that part of her majesty's dominions. He makes special reference to Hixon creek, where he superintended operations in the hope of finding a pay-chute of quartz. "A shaft was sunk, and at a depth of 60 feet a drift was started, and the vein was found at the exact spot where it was estimated to be, and no vein in California has truer or better defined walls." Mr. Koch proceeds to admit that it is quite possible a greater depth must be reached before paying quartz in large quantities will be obtained, but he expresses himself satisfied with the results of recent prospecting, and declares his opinion that the gold quartz deposits of the district are not merely local, but that a regular and unbroken formation exists; that this continues for many miles, and that true fissure, and even contact, veins of gold and silver can be found by intelligent prospectors. If this belief be well founded most people will be of opinion that intelligent prospectors had better set to work at once—unless, indeed, they are afraid that the authorities of British Columbia, following the example of the Dogberries of Queensland, are only waiting until English capital has been invested in their mines to give the whole business a gratuitous but official black eye.—*London (Eng.) Financial News.*

Public Notice
New Westminster Public Library.
THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, in advance, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of one cigar for seven days; permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:
Yours Respectfully,
HENRY W. HUGHES.

Daily British Columbian

Saturday Evening, November 27, 1886.

The Eastern Situation.

There is no mistaking the purpose of the German press in assuming such a decidedly hostile attitude lately towards Russia. For some time during the progress of the Bulgarian trouble Germany kept well in the background, and there is every reason for believing that she gave a passive assent to the deposition of Prince Alexander. She would not move a foot to arrest the course of events which seemed certain to end in the establishment of Russian power in Bulgaria. But since Austria and Great Britain and Italy have begun to show a disposition to resent Russian aggression in the Balkans, Germany's attitude has undergone a very decided change, and during the past week the German press has been showing a wonderful interest in a question in which not long ago it said Germany had no concern. One would suppose from recent events that Germany has made up her mind that the other European powers interested in eastern affairs shall not take all the credit for the final settlement. Besides the Russian bear seems to be retreating to a place of safety, and if the powers undertake now to make a final adjustment of the difficulty, Germany wants to be on hand so as to have a voice in the matter. If this attitude is maintained on the part of Germany, there is no question of the result. Russia must give up her schemes for the present at least, for she dare not face the rest of Europe even with the aid of the French.

An Undeserved Reflection.

In the interests of justice and fairness we cannot permit to pass unnoticed an article which appears in the *Guardian* this morning on the international railway scheme. Of that part of the article relating to the importance of the scheme, and the action taken with respect to it by the Board of Trade, we have nothing to say; but when our cotemporary goes out of his way and states what is not true for the purpose of casting an undeserved reflection upon the mayor and members of the city council, we shall have to correct him. Some time ago the Board of Trade instructed its secretary to communicate with the minister of railways at Ottawa and ascertain whether the Dominion government would offer any opposition to a bill granting permission for the construction of a railway from this city to the international boundary line south of us. The secretary, Mr. Wm. McColl, did so, and received an official reply from Mr. Bradley, secretary of the department of railways, as follows: "I am authorised by the minister of railways and canals to say that in his opinion the Dominion government must, under existing circumstances, consider itself bound by the contract entered into with the Canadian Pacific Railway Co. not to permit, at present, without the sanction of that company, roads to be constructed south of the Canadian Pacific Railway leading to the United States." This letter came before a subsequent meeting of the Board of Trade, and in our issue of Wednesday we stated that the board had decided to make application for a charter in the belief that it would be able to overcome any objections that might exist among members of the government or the syndicate with respect to the construction of this road. But the *Guardian*, while praising the action of the board, makes use of the occasion to throw dirt at the city council It says: "Mr. Bradley wrote to the mayor and council, and forthwith they got scared and dropped the matter in a fright; but the Board of Trade, like men who are determined to have their rights, say No; we will not be frightened by either the under secretary or the C. P. R." The organ then proceeds to remark that "it must be remembered that our mayor and council have always shown a predilection for the C. P. R. Co., as we have every reason to know." Our readers will know how utterly ground less and uncalled-for are these reflections when we say that neither the mayor nor the council ever addressed a letter to the minister of railways or received one from him or his secretary on the subject of the proposed international road. As a member of the Board of Trade the mayor took a lively interest in the scheme, and has done whatever he could to carry it forward. There are also other members of the council who are members of the board, and not one of them has ever manifested a disposition to run away from the under secretary. When our city council has been guilty of wrong doing we shall not shield it from hostile criticism, but the insult cast upon it by our cotemporary is not only groundless but wicked, for it is a false inference from a misrepresentation of fact.

NOTICE IS HEREBY GIVEN THAT 30 days after date we intend applying to the Chief Commissioner of Lands and Works for a license to cut timber on the following described lands, namely, lots numbers 332, 333, 336, 337, in Group One, New Westminster District.

PYÆMIA

Is the most virulent form of blood-poisoning. Less speedily fatal, but not less certainly so, is the vitiation of the blood of which the first symptoms are Pimples, Sties, Boils, and Cutaneous Eruptions. When the taint of Scrofula gives warning of its presence by such indications, no time should be lost in using AYER'S SARSAPARILLA, the only perfect and reliable medicine for the purification of the blood.

SCROFULA

Is a foul corruption in the blood that rots out all the machinery of life. Nothing will eradicate it from the system and prevent its transmission to offspring but AYER'S SARSAPARILLA. This preparation is also the only one that will cleanse the blood of Mercurial poison and the taint of Contagious Diseases. Impoverished blood is productive of

ANÆMIA,

A wretched condition indicated by Pallid Skin, Flaccid Muscles, Shattered Nerves, and Melancholy. Its first symptoms are Weakness, Languor, Loss of Nerve Force, and Mental Dejection. Its course, unchecked, leads inevitably to insanity or death. Women frequently suffer from it. The only medicine that, while purifying the blood, enriches it with new vitality, and invigorates the whole system, is

The Victoria steamer did not connect with the train at Port Moody yesterday, in consequence of which 12 of the passengers had to ride over to this city on the stages. From remarks they made about it one would conclude that it was about as much as a man's life is worth to attempt to travel by stage in the present condition of the roads.

The lovers of "the mazy waltz" appear to be providing themselves pretty well with that kind of amusement. Now, if our young men would only organize a debating club, a mock parliament, or some kind of society with mental improvement for its object, they would derive equally as great a pleasure from it, to say nothing of the lasting benefits it might bring to them. Will some one lead this movement?

RAILWAY EARNINGS.—From a statement just published we learn that the earnings of the Canadian Pacific Railway have risen from $6,823,000 for the first 10 months of 1885 to $8,082,000 for the same period this year. The Northern Pacific during the same time increased from $9,234,000 to $10,173,000, and the Oregon Railway & Navigation Co. from $3,980,000 to $4,410,000. These large increases speak well for the development of trade on this coast.

BELL TOWER ENTERTAINMENT.—From our advertising columns it will be seen that the ladies of Holy Trinity are making arrangements for a very extensive entertainment to be held in the Drill Shed on the 15th and 16th of next month. Besides the fancy fair there is to be a concert, broom drill, tableaux, recitations, refreshments, &c. The proceeds are for the bell tower fund, an object which has obtained the sympathies of our citizens generally.

A COLONIAL DINNER.—A dinner was recently given by Mr. D. Tallerman, superintendent of the colonial market at the colonial and Indian exhibition, London, to some twenty or thirty representatives of the workingmen, the food for the occasion consisting entirely of the products of the colonies. Canada, and especially Nova Scotia, appears to have figured most conspicuously and favorably at the dinner which, as a whole, is described as "a wonder to millions." The quality and variety of the food products which composed the spread was certainly surprising, and it is gratifying to note that British Columbia salmon was honored with the first place on the bill of fare under the head of "fish." There were also shad from P. E. Island, mackerel from New Brunswick, boneless cod and lobster from Nova Scotia, white fish, trout, and pickerel from Lake Huron (Ont.), rabbit, mutton, beef, and game from Australia, Canadian vegetables, fruit, pastry and jellies, pineapples from Singapore, Australian honey and wine, Indian tea and coffee, and many others of the innumerable products of the British colonies. Although Canada did very well she might have done much better, and as for British Columbia "the half was never told" concerning her fish, fruit, game, beef and vegetables.

IS IT A FRAUD?—Yesterday afternoon three eastern newspapers were brought to this office containing accounts of a Dr. Griffin, who represented himself as an agent of the royal staff of English, French and German physicians. These papers were the Halifax *Herald*, the St. John (N. B.) *Telegraph* and the Moncton (N. B.) *Transcript*. The purport of the articles may be gathered from the following extracts from Moncton correspondence in the *Telegraph*. After mentioning the announcement that the staff of physicians mentioned above would visit Moncton, the letter says: "The names of the staff were not given, but when the 10th arrived Dr. Griffin and wife appeared on the scene. He evidently has a good share of African blood in his veins, dresses well, has a pompous bearing, converses with great ease, and appears to be well informed. The wife is a white woman. Dr Griffin professes to be on his wedding tour, and stopped over at Moncton for a few days. The other members of the staff, he said, were detained from various causes. He has already been visited by a large number of people, whom he guarantees to cure for a specified sum, and has already reaped quite a harvest in cash. He pays his bills promptly and cuts quite a dash. Various stories are afloat as to his former history, which may or may not be true. The medical fraternity do not hesitate to say that he is a quack imposing on the credulity of patients." There is now in this city a person who answers remarkably to the description given above of Dr. Griffin. He has announced himself here as "the imperial staff of English, French and German physicians, surgeons, professors and specialists," and he goes by the name of Dr. Griffin! If this person, who is, singularly enough, accompanied by his wife, is the same as the one referred to by the eastern papers, it will be in order for him to explain the meaning of the extract we have published, or he will find public faith in his professional accomplishments greatly shaken. We are ready always to welcome to this province every worthy citizen, but we do not want any person to suppose that this is a safe asylum for those who have proved unworthy of public confidence elsewhere. We shall be glad to find that this is a case of mistaken identity.

O. B. Comstock, Caledonia, Minn., writes: "I was suffering from the most excruciating pains from inflammatory rheumatism. One application of Dr. Thomas' Electric Oil afforded almost instant relief, and two bottles effected a permanent cure.

Mr. Sheehan, of Oscoda, Mich., writes: "I have used Dr. Thomas Electric Oil on horses for different disease, and found it to be just as you recommended. (Correspondence of the Columbian.)

The bachelors' ball at Elgin on the 19th inst. was very successful considering the inclement weather. Like most balls in rural districts of B. C., there were many more of the "lords of creation" present than of the "fair ones." The music, the ball-room and the supper were all that the most fastidious could desire. Among those present were six of the adjacent teachers, Mr. Beattie of Canoe Pass, Mr. Howay of Boundary Bay, Mr. McLennan of Hall's Prairie, Mr. Reed of Clover Valley, and Mr. Hanna of Mud Bay. The country must be improving. The proceeds, though not large, go to the Royal Columbian hospital, New West. Dancing ceased at 5 a. m., all well pleased.—Mrs. Grundy has it that two of our young ladies—and the number here now is too small—are about to leave. Would that some of our estimable and thrifty bachelors could persuade them to remain. It would be well worth the attempt.—Mr. Donald Stewart has well completed his contract on the Serpentine bridge. Messrs. Johnston Bros. will soon have finished their contracts.—Mr. B. B. Smith's sloop is busily engaged freighting the summer's production and returning with full cargoes.

WILKESBARRE, Pa., Nov. 26.—The explosion here was the most serious that has occurred in the anthracite coal region this year. It is now definitely known that 42 men are severely burned and others slightly injured. 13 of the men will die. The scene at the colliery while the injured men were being taken from the shaft was terrible. A crowd of several hundred persons had gathered at the mouth of the shaft, among them mothers, wives, and daughters of the wounded men. As the men were taken out of the pits they were brought to the engine house where the women made a desperate effort to gain an entrance. The frantic demonstrations of grief were heart-rending but they were sternly kept outside the building while the blackened, scorched, and bleeding victims of the disaster were wrapped in blankets soaked in oil. The floor of the engine house was covered with writhing human forms so disfigured as to become unrecognizable. As fast as possible they were taken to the hospitals or their homes and so rapidly was the work done that by nine o'clock every one had been taken out and carried away.

LONDON, Nov. 27.—In the Campbell divorce suit plaintiff's counsel closed her case to-day. Lady Miles was cross-examined. Had written letters to defendant but thought a woman's letters should be sacred. Lord Colin had told witness he was endeavoring to obtain all the information he could against his wife in order to sue her for a divorce and had subsequently told witness that he had failed to obtain any. Mr. Russell, plaintiff's counsel, corrected his opening statement by adding to it that Lady Campbell when she married defendant brought him a fortune of $30,000. Russell then gave notice that the plaintiff's case was closed.

Robert Baumaltyne Finlay opened the case for the defense. He said it afforded an the possible relief to Lord Colin to have the opportunity to defend himself in open court from the gross and cruel imputations which have been put upon him and from the charge of adultery which has been trumped up. The malady from which the defendant was suffering was not venereal. Lady Campbell's mother had been told the nature of defendant's ailment before the marriage, but she nevertheless urged on a union, saying her daughter was willing to act merely as a nurse to her husband, and even wrote to the Duke of Argyle to press upon him a fulfilment of the engagement.

Defence will endeavor to prove that Lady Campbell was guilty of improper intimacy with the Duke of Marlborough, General Butler, and Dr. Bird. Defence claims that she had a guilty conscience and got her solicitor Lewis to write a letter charging Lord Campbell with giving her a loathsome disease and refusing to live with him as his wife. Lord Campbell heard of such charge before and, of course, refused to agree that they should not live as man and wife.

The engineers and firemen saved themselves by jumping. None of the passengers were hurt. The accident was caused by a blunder of the telegraph operator at Greenwood, who sent forward train No. 6 instead of No. 123.

An Efficient Remedy.

In all cases of Bronchial and Pulmonary Affections is AYER'S CHERRY PECTORAL. As such it is recognized and prescribed by the medical profession, and in many thousands of families, for the past forty years, it has been regarded as an invaluable household remedy. It is a preparation that only requires to be taken in very small quantities, and a few doses of it administered in the early stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

Ayer's Cherry Pectoral

Has preserved the lives of great numbers of persons, by arresting the development of Laryngitis, Bronchitis, Pneumonia, and Pulmonary Consumption, and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of Croup, the alleviation of Whooping Cough, and the cure of Colds and Influenza, ailments peculiarly incidental to childhood and youth. Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases, entail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful efficacy, while the malady is constantly gaining a deeper hold, but take at once the speediest and most certain to cure,

Ayer's Cherry Pectoral,

IMPORTANT

To the Sick.

THE IMPERIAL STAFF OF ENGLISH, French and German Physicians, Surgeons, Professors and Specialists are now stopping at the Holbrook House, New Westminster, B. C., and remain until Sunday evening, Nov. 28th, 1886, where they will treat the Sick for this first trip free of charge. As this is the Doctors' advertising visit they will treat their patients in the most approved European manner, free, so as to establish a reputation in British Columbia as large as they have in Europe. Let every person who is in any way afflicted, embrace this opportunity of free treatment from certainly the most learned staff of surgeons ever visiting this country. Should your case be incurable they will honestly tell you so, and put you on your guard against travelling impostors who may prevail upon you to try some of their useless nostrums. We all think it better for patients to know exactly what they are suffering from; then they grow less discontented and are resigned to whatever fate awaits them. The doctors have had large experience in the hospitals of England, Ireland, Scotland, France, Germany, Austria, Russia; in the army, navy, Soudan, etc. Cases treated in important places: Toronto, 3,400; London, 1,270; Hamilton, 1,400; Ottawa, 2,800; Goderich, 640; Barrie, 700; Picton, 300; Belleville, 1,115; Kingston, 1,800; Brockville, 438; etc. Head offices, Montreal, P. Q.; 45 Harcourt st., Dublin, Ireland; 31 Gayfield Square, Edinburgh; Victoria Chambers, London, Eng.; President, F. E. Penston, M. D., M. C. H., F. R. C. S., M. P. C. S., Eng., late of Dublin; Vice Pres., Prof. Auchinleck, M. A., L. D., Academie de medicine, Paris, France

NOTE.—$500 will be given to any person who will send us a case of the following we cannot cure: Sciatica, rheumatism, dyspepsia, catarrh, nervous debility, skin diseases, or consumption in the first or second stage. Out of 23,000 patients who have called on us we have refused treatment to 12,825 because their diseases were incurable. This staff of Surgeons have established permanent offices in Victoria, B. C., and will send one or two of its members every three months to look after chronic cases in all cities and towns where they have patients. dno25t3

MORNING DESPATCHES.

Presented to Queen.

BERLIN, Nov. 26.—The *German Gazette*, in an exhaustive article on Russia's financial condition, compares it with that of France before the great revolution. The Russian debt is 5,600,000,000 roubles. The interest has risen in a decade from 1,400,000 to 261,000,000 roubles. The paper circulation is 716,000,000 rubles, of which only 165,000,000 is covered by bills convertible into currency. The *Gazette* warns Germans to avoid the new Russian loan.

Editor Prohle has been sentenced by the supreme court to nine years imprisonment for treason. It was proved *he had supplied France, through Capt* Sarawa, with a German military and naval sketch.

The government has decided to dissolve the reichstag if it rejects the military estimates.

DUBDIN, Nov. 26.—The *Irish Times* says the government has resolved to *promptly suppress all anti-rent* and other illegal combinations, to curtail the license of the press, to forcibly suppress intimidation, to enforce the laws governing the processes for collection of debts, to proclaim all meetings called for certain purposes, and to arrest certain prominent agitators of the anti-rents policy. The *Times* also says it is reported that troops have been sent to different points in the country where action against the anti-rent agitation is imminent. John Dillon has been summoned to appear in court on Monday next to show cause why criminal information should not be sworn against him for the sentiments expressed in a speech encouraging tenants to follow the example of those on the Clanricarde estates, in the county of Galway. DiRoss, in his speech, advocated a general submission to eviction rather than pay rents as the best means of bringing the landlords of Ireland to terms with the occupiers of lands in Ireland. The speech, which the government has called him to explain, was delivered at Woodford on the 18th ult.

Sir Michael Hicks-Beach, chief secretary for Ireland, has been engaged all day at Dublin Castle conferring with legal and military authorities. *The city is agitated by rumors of the* wildest character relating to the government's intentions. A great meeting of Nationalists is called to assemble in the suburbs of the Irish town on Monday. It is thought the meeting will be prohibited. Officials of the Irish National League do not appear to be disturbed. They are all pursuing their avocations in their ordinary way, and all of them say they have no idea of what the government has decided to do, if it has decided on anything.

LATER—The government has prohibited the National League meeting called to assemble at Sligo. This action, coupled with the arrest of John Dillon, is causing most intense excitement in Ireland.

Dillon had intended to speak at other meetings ,and it is expected he will continue to fill his engagements before he returns to Dublin. On his return he will probably give bail for trial, and thus compel the government to prove illegality in his action at the Munro meeting. The government has ordered all taverns in Sligo to be closed on Sunday. The National League meeting was prohibited because the magistracy believed it was intended to intimidate jurors at the coming *assizes. The military is called on to* disperse the gatherings. Nationalists are excited over this state of affairs, and say they will give a banquet to Dillon and other speakers in lieu of holding the meeting. After the meeting of Lord Dillon's to-night Messrs. Dillon and O'Brien remained till a late hour receiving deposits from tenants in consequence of Lord Dillon's granting a reduction of 25 per cent.

It is rumored that *United Ireland* has been "warned."

The Nationalists have decided to hold meetings in different parts of Sligo, Galway and Tipperary in order to evade the government's prohibition. The Dublin *Telegraph* says orders have been sent to Athlone to keep 1,000 cavalry and 200 infantry in readiness for duty. It is rumored the object is to arrest the trustees appointed under the *United Ireland* plan.

John Dillon has been summoned to appear in court on Tuesday next, the charges against him being that his language at a meeting held at Longford on the 7th inst. led to an assault upon a bailiff in resistance to the execution of decrees, that at the Munro meeting on Monday last he made a speech calculated to intimidate. The affidavits on which the summons was issued were lodged by stenographers who were present at the meetings referred to. They call upon Dillon to find sureties for his good behavior, in default of which he will be committed to jail. Messrs. Dillon and O'Brien attended a meeting of Lord Dillon's tenants to-night. They urged *tenants to firmly resist all attempts to* compel them to pay unjust rents.

PARIS, Nov. 26.—Sensational books on the war of 1870 have been brought to the notice of the public. First, "Le Calvaire," by Octave Mirabeau, has been published. It portrays in a startling manner the French troops as *a brutal body of men with besotted* and vaporing commanders. The second, entitled "Le Cabinet Noir," is about to be issued, another being "Count Herreson." It purports to be a secret history drawn from official documents hitherto unpublished.

GALVESTON, Nov. 26.—The British bark *Drumadoon*, Capt. *Thompson*, for Liverpool, lying in the outer roads awaiting the balance of her cargo, was discovered to be on fire this morning. In a few minutes the vessel was wrapped in a sheet of flames, including 1,700 bales of cotton. Tugs grappled her and towed her to Bolivar *beach*, where she now lies in 15 feet of water. The vessel will prove a total wreck. Part of her cargo can be saved in a damaged condition.

ALBUQUERQUE, Nov. 26.—A horrible tragedy occurred near Hackberry, Arizona, this afternoon. Chas. Spencer and Chas. Cohn, partners in stock raising, while going to town in a wagon began a dispute over the settlement of accounts, and fought for 2 hours. Spencer threw his whiskey bottle at Cohn, striking him in the face and knocking him down, cutting a frightful gash. The latter, frenzied at the assault, rushed upon his partner with a pocket knife and stabbed him in the body in several places, also severing the jugular vein. Cohn took the dead body of his partner to town and gave himself up to the authorities.

HALIFAX, Nov. 26.—Last night's storm along the Nova Scotia coast was one of the severest experienced in a long time. In Halifax the velocity of the wind was 80 miles an hour and on Prince Edward Island 35. The gale *was accompanied by heavy rain, thun*der and lightning. A number of vessels were totally wrecked or seriously damaged, and scores of narrow escapes are reported, but so far there is no account of any loss of life.

SAN FRANCISCO, Nov. 26.—Early this morning Cayetana Flores, a Spaniard, *was stabbed to death in a bagnio* on Sacramento st. The murderer escaped. The affair is shrouded in mystery, but the cause of the homicide is said to be jealousy. Trina Alsanchez, the woman who kept the bagnio, has been arrested with two other men. She stated that she had been living with deceased for some time. He was jealous because of her acquaintance with a man named Demetrio who arrived from Mexico. She said: "This morning I was sitting in my room with Demetrio and a man named Thomas, when Flores entered. The latter began abusing Demetrio. Flores was not satisfied with the other's explanation, but putting his hand in the breast of his coat remarked that if they were equal in size he would kill him. Demetrio went out of the room followed by Flores, who still had his hand in his breast pocket. At the beginning of the trouble Thomas left the room. She expressed ignorance of all that followed. The police began search for the murderer, but up to a late hour this afternoon he has not been captured.

Sailed. str. Geo. W. Elder, for Victoria; ship Oriental, for Tacoma.

Advices from London state that the British ship Otterburn, from Greenock for San Francisco, has been towed to *Montevideo and beached. The ship* was previously reported as having been abandoned because of fire caused by an explosion. Her decks and upper works were destroyed; also a portion of her cargo. What remained has been sold at auction for $2100. The salvers were awarded two-thirds of the price *brought.*

NEW YORK, Nov. 26.—At a general convention of the Fenian brotherhood in this city on Tuesday and Wednesday of this week all official connection of O'Donovon Rossa with the brotherhood was dissolved, and the government of the order was thoroughly reorganized. There are various rumors as to Rossa's relegation to individuality in Irish matters, but the facts are closely guarded by those who know them.

PANAMA, Nov. 26.—The loss of the bark Sarah Anderson, while on a voyage from Coquimbo for England, has *been confirmed by advices received at* Valparaiso. The captain and his wife and crew were all lost.

Great preparations are being made here for the celebration of the 65th anniversary of the independence of the isthmus. The festivities will extend over 4 days, from the 27th to the 30th of Nov. inclusive.

LINCOLN, Neb., Nov. 25.—President Jno. Fitzgerald, of the Irish national league, has to-day received the following important cablegram from Hon. Timothy Harrington, M.P., secretary of the League in Ireland: "Dublin, Nov. 26, 1886. To John Fitzgerald, Lincoln. The government in prosecuting John Dillon and proclaiming public meetings admits its inability to govern Ireland without coercion. We will not flinch.—Timothy Harrington."

SOFIA, Nov. 26.—An agitation has been started for the purpose of rescuing the nomination of Prince Emanuel Wogrides, nephew of Allka Pasha, to the Bulgarian throne. The sobranje will send a deputation of Bulgarian notables to Vienna, St. Petersburg, Berlin, London, Paris, Rome, and Constantinople, to fully express to the powers the actual condition of affairs in Bulgaria, and ask the powers to make their choice of a candidate for the Bulgarian throne with due regard to the country's needs and disposition. The deputation will start on its mission next week, and will first visit Vienna.

WASHINGTON, Nov. 26.—The English postoffice department in London having decided that American postal cards addressed by a label machine cannot be delivered in that country, the postmaster-general will request the British postal authorities to reconsider their decision. The postal treaty provides that nothing shall be attached to cards except postage stamps.

LONDON, Nov. 26.—The *Post* this morning says: England has opened negotiations for the cessation of Port Hamilton to China, the object being to nullify Russia's pretexts in connection with Port Lasaviff and thus furnish effectual protection for British interests in the east.

The first witness called by plaintiff's counsel in the Lord Campbell divorce case was Lady Miles, who testified as to the physical condition of the parties, and also that Lord Colin Campbell had improper intimacy with a house maid named Mary Watson.

At Manchester to-day the race for the Lancashire cup for 3-year-olds and upwards, distance one mile, was won by 5 lengths by J. Hopes' 4-year-old Lothair. Briscoe's 3-year-old colt St. George was 2nd, and Lord Hartington's 6-year-old golding Coruna 3rd; 12 starters.

Miss Mary Campbell, Elm, writes: "After taking four bottles of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure I feel as if I were a new person. I had been troubled with Dyspepsia for a number of years, and tried many remedies, but of no avail, until I used this celebrated Dyspeptic cure." WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to "Diseased Organs," Curatives, not only in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practically impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immensurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when *nothing else can.* The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette.*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and prostate, Bright's disease, diabetes, Dyspepsia, Rheumatism, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. MR. G. ROBERTSON,

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:
