ELECTION CARD.

To the Electors of New Westminster City and District.

GENTLEMEN:—At the urgent request of a large number of the Electors of the above Districts, I have consented to become a Candidate, and request your support and patronage.

My political banner is uplifted, and on it will be seen, printed in gold letters, "Straw Hats—good coverings for massive craniums; Men's Fancy Flannel Shirts; Balbriggan Underclothing; Summer Coats and Vests; Linen Dusters; Pique and Fancy Vests; White and Black Plug Hats;" all of which are very suitable wear for the present political campaign, which is liable to be very warm and close. (An endless variety of Men's and Boys' Suits, Felt Hats, etc.)

Electors, rally around this standard, and down with monopolists and—high prices.

I am perfectly sure I can give you better value for your money than any other candidate in the field.

Yours respectfully,

J. E. PHILLIPS,
Columbia St., New Westminster.

STOLE THE FUNDS.

The Treasurer of the Ancient Order of Hibernians Pockets the Funds and Skips.

The Female Civic Legislators of Kansas are Deposed Wholesale at Yesterday's Elections.

A San Francisco Chinaman Applies to be Admitted as a Practicing Lawyer.

A Patriot Embezzler.

NEW YORK, N. Y., May 20.—The *Times* Philadelphia special says: Patrick Hynes, of Greenport, N.Y., treasurer of the Ancient Order of Hibernians, has disappeared after confessing to an embezzlement of $2,800 of money belonging to the order. The annual convention of the Hibernians met at Hartford last week. The proceedings were secret, and the story of the treasurer's guilt has therefore not leaked out until now. When the convention was called to order on Thursday, the treasurer was missing. His absence was accounted for when the president caused to be read a letter he had that morning received from him, in which he acknowledged appropriating to his own use the amount of money entrusted to him as given above, and further stated when the letter was read he would be beyond the reach of those he had wronged. The reading of the letter caused profound amazement. Hynes had the fullest confidence of the order and had been treasurer 4 years. His accounts had always been found correct, and so far as his associates knew his character for integrity was beyond question. All moneys of the Order collected by assessments from many branches in the United States and Canada passed through his hands, and there is no definite knowledge that his peculations do not aggregate a much larger amount than he has confessed to. It is now well understood that Hynes fled in order to escape the immediate consequences of the discovery of his crime, a discovery that would have inevitably resulted upon the presentation of his report to the convention if he had made one. It is not known whether the treasurer's bondsmen will make good the amount confessed to have been stolen, the bond being said to be missing. It is not yet known whether the convention intends to prosecute the defaulting officer. The general belief is that Hynes has fled the country.

Nature Resumes Her Sway.

EDGERTON, Kans., May 20.—At the election held yesterday to fill the vacancies caused by the resignation of the lady city officials, men only were elected. Very little interest was taken in the matter and only one ticket was in the field, the ladies being completely ignored. It was the tamest affair of an election nature that has occurred here for years. The men elected are mostly the husbands of the retiring officials, thus keeping the places in the family.

A Complete Suicide.

BIRMINGHAM, Ala., May 20.—Bob Crawford, a white convict, serving a ten years' sentence at Pratts Mills for burglary, blew himself to atoms with a keg of dynamite yesterday. He had become despondent and went into the powder house, sat on a keg and gave it a vigorous kick. The explosion was terrific. Blood and pieces of flesh were scattered all over the room.

Slavin's Challenge.

NEW YORK, May 20.—The following was received at the *Police Gazette* office yesterday: Frank P. Slavin, disgusted at Corbett's refusal to fight in the Pelican Club for a purse of £1,000, has decided to make no exception, and he challenges Sullivan, Kilrain, McAuliffe, or any man in America to fight for £1,000 in the Pelican Club, or he will arrange a match with Sullivan for £1,000 a side, the *Police Gazette* championship belt and the championship of the world, to fight in six months on the continent, and will allow the American champion his expenses.

A Revered Memory.

CLEVELAND, O., May 20.—The remains of the late President James G. A. Garfield were quietly removed from the public vault in Lakeview Cemetery yesterday to the crypt in the Garfield memorial, which will be dedicated to the memory of the late President on May 30th.

Mr. Potter of Texas.

BUFFALO, N. Y., May 20.—Archibald C. Gunter's comedy-drama, "Mr. Potter of Texas," was produced last night for the first time at the Academy of Music. Dispite the rain there was a large audience, and the play made a decided hit.

Passenger List.

SAN FRANCISCO, May 20.—The steamer Umatilla sailed this morning with the following passengers for Victoria: T. D. Carlyle, W. W. H. Donaldson, Captain Clark and wife, J. Dunnicliff, D. Todd, W. A. Stewart, B. D. Dove, D. D. Dove, W. Blair, W. E. Holt, Miss C. J. Elton, W. A. S. Cowan, Miss J. Davidson, Rev. C. A. Capwell.

Nothing Ominous.

SAN ANTONIA, May 20.—The Mexican consul contradicts the statement sent here last week of a threatened revolution in Coahuila. He declares that Mexico is in a thoroughly pacific mood at present. The recent movement of troops was simply an ordinary change of stations.

A Country on Fire.

DELANO, Cala., May 20.—The country is on fire 7 miles north of this place. A north wind is driving the blaze in this direction, and men are starting with teams to keep it out of the town.

One of the Coming Powers.

YOKOHAMA, May 20.—The new cabinet has been formed as follows: Count Tsuku Michi, Minister of Home Affairs; General Akimasa, Minister of Education; Admiral Sukemore, Minister of Husbandry; General Ogama, Minister of War: Count Masayoshi, Minister of Finance and Count Ohojiro, Minister of Communications.

The Disappearing Craze.

MONTREAL, May 20.—Still another young Englishman, Fred Roote, hailing from Surrey, England, has mysteriously disappeared. He had been employed as store keeper with Mr. Swift, and some time ago went to seek another situation and since then he has not been seen. He left all his clothing and effects.

The Cooked Despatch.

MONTREAL, May 20.—Great Britain's action was strongly denounced at a big meeting of the Montreal Board of Trade to-day in the Newfoundland fisheries question. The Newfoundlanders demanded the repeal of the *modus vivendi* entered into between Great Britain and France without their consent, and some time ago they appointed a delegation to go to Canada and secure the support of the Dominion. The delegation has been warmly received in all the English provinces, but great hostility has been aroused by their mission in the French Province of Quebec, and the Quebec Board of Trade passed a resolution denouncing any attempts to interfere with French rights in America. Great Britain was strongly denounced by the English members of the Board of Trade, and the French members upheld the French course. Mr. T. X. Perrault said France would not cede one iota of her rights in America, and there would be war and the French Canadians would side with France in any trouble. Strong resolutions were passed protesting against the treatment of Newfoundland by Great Britain, and calling upon the Imperial Government to effect some arrangement whereby, for an equivalent, the fishing privileges would be voluntarily surrendered by the French Government.

Ottawa Notes.

OTTAWA, May 19.—General Sir Frederick Middleton returned from the West this morning. He declines to make any statement with regard to his future, or to the report of the committee on Bremner's fur case. An unconfirmed rumor is afloat to-night that he has resigned.

The Canada Wheelmen's Association will hold its annual meeting on the Queen's Birthday.

Ottawa clergymen representing all denominations have condemned Sunday church parades as conducive to disrespect of the Sabbath.

H. C. Tupper, the minister of marine, resumed his duties to-day. He may revisit Washington shortly.

The writ for the New Westminster election, owing to unforseen delay, was only forwarded last night. Mr. John W. Armstrong is the returning officer.

Premier Greenway, of Manitoba, is here. He says that the adoption of the separate schools in Manitoba is endorsed by the whole Province, and questions whether the Dominion Government dares to *veto* special legislation passed by the Manitoba Legislature.

The construction of a fog bell and harbor light at Brockton Point, Vancouver harbor, will be commenced shortly.

An Energetic Company.

CHICAGO, May 19.—The Chicago B. & Q. R'y Co. are to build a road through the joint properties of the companies for some twenty miles. This road is to be running to the Hill City headquarters of the companies by Jan. 1, 1891. Negotiations are also pending for the building of thirty miles of additional tracks and switches to various tin mines and other property now under development. The contracts for the road are not only closed, but the graders are now at work along the line.

A Chinese Lawyer.

SAN FRANCISCO, May 16.—This morning Attorney Chickering made a motion in the Supreme court that Hong Yuen Chang be admitted to practice. The matter was taken under advisement. Hong Yuen Chang is a Christianized Chinaman who came to this country several years ago. He entered Harvard college and afterward attended lectures at the Albany, N. Y., law school, from which he graduated with honor. He was naturalized by a New York court some time before his graduation, and was duly authorized by the New York Supreme court to practice in all the courts of that state. The justices are in a quandary over the situation. The point involved is whether Chang's citizenship papers are legal, even if they were issued before the law forbidding naturalization of Chinese was passed. The laws of the state distinctly provide that no one not a citizen can practice in the courts.

A Grand Project.

A little over a year ago there was held in the Hyack Hall an indignation meeting to protest against the draining of Burnaby Lake. The feeling against such a scheme was most intense and rousing speeches were made in denunciation of it by many of our local orators. Mr. Joseph Armstrong in particular covered himself with glory and the promoters of the scheme with ridicule besides seriously endangering the lives of his audience by sending them into paroxysms of uproarious laughter by his bright sallies and humorous comments. And only one man had the courage to stand up and defend the proposal to convert Burnaby Lake into a stretch of fine farming land and he did so with an eloquence and ability that gained him hearty applause even from the most bitter of his opponents. One of his arguments was that Burnaby Lake could never be used as a summer resort and the list of objections he drew up against its conversion to anything of the sort was certainly appalling. His opponents conceded him this point—Burnaby Lake might at some far-distant future time become a summer resort for this city, but for the present that was deemed impossible. But what a change has come o'er the spirit of their dream. That which they thought so far off will be one of this year's living questions. The proposal to open up Mary street from the city limits to the shore of Burnaby Lake is looked upon with so much favor that property holders in the line of the proposed street have already agreed to grant the land for the same through their property. It now remains with the Westminster Rowing Club to weigh well their decision whether they will have their headquarters on the Fraser river or out at the lake. The advantages which they will enjoy at the lake would be incomparably superior to those they could ever expect on the Fraser. With the opening up of Mary street and the introduction of the electric street railway, an event very close at hand. Burnaby Lake would undergo vast improvements. In all probability the tangled underbrush that grows so densely round the margin of the lake would be within the year superseded by a fine broad carriage and bicycle drive right round the lake. Much of the forest adjacent would be cleared and laid out in lawns and gardens. The club could build a handsome and comfortable boat house close to the debouchment of Mary street on the lake and near the street car terminus; they would have not only perfectly still water to practice on, but a course nearly three mile sstraight-away. The pleasure boats would have ample room to move about in, and those who delight in being "far from the madding crowd" would find on the lake many a secluded bay and inlet where they could indulge their *dolce far niente* propensities to the full. One important thing to remember is that the occupation of Burnaby Lake in this way would most probably result in the Brunette River channel being cleared from the lake to the Fraser, thus adding a hundredfold to the charms of the place. This lovely sheet of water, lying within a mile of the City limits will be worth millions to this City. Its desirability as a summer resort cannot be exaggerated and as the street cars will place it within say ten minutes of Columbia street it would perhaps be more properly spoken of as one of the City parks. Should the rowing club and the public combine in urging this matter the thing is practically done. Both will benefit vastly by it and it is one of the best strokes of business the City could do at the present time. Everyone feels the lack of just such a place for Westminster, and every one should turn out and hear the matter discussed freely at the rowing club meeting tomorrow night.

A NOBLE LORD.

Lonsdale Puts His Country Mansion at the Disposal of a Prize-fighter.

A German Explorer Discovers Another Tribe of Dwarfs in Equatorial Africa.

King Leopold's Visit to London Results in a Promise of England's Support.

The Bantam in Clover.

LONDON, May 20.—Dixon, the colored bantam champion of America, who is to fight Wallace at the Pelican Club on June 27th, left for his training quarters at Oakham yesterday. Lord Lonsdale has placed at Dixon's disposal his beautiful mansion at that place. The betting is slightly in favor of Wallace. Up to the present moment Wallace has never been defeated with bare knuckles, but has been very unlucky in contests for points. The fight at the Pelican Club for a purse of £500, will be thirty rounds for points, with four ounce gloves.

A Tribe of African Dwarfs.

BERLIN, May 20.—Capt. Kund has discovered that in the dense forests forming part of the German territory near the Cameroon mountains, equatorial Africa, lives a tribe of dwarfs, hitherto unknown, who lead nomadic lives, wandering all over the forests, through which they make their way with surprising rapidity and skill. They call themselves Bodgaeli, and are hunters of elephants which they kill with lances. Around them live tribes of ordinary stature. The little people live about two hundred miles north of the country of the dwarfs discovered by Du Chaillu years ago. They are a very primitive race and merit thorough study.

Bismarck Interviewed.

PARIS, May 19.—*Le Matin* contains the report of an interview of the French journalist, Dessoux, with Prince Bismarck at Friederichsruhe. The Prince referred to his resignation as a "first-class funeral," but added that he was still quite alive. He was too young to remain idle doing nothing. Having been so long accustomed to politics, he now felt the lack of much activity. His resignation was absolutely final. Germany would never attack France, nor provoke an attack by France- Germany understood that Russia would interfere in that case, as Germany would interfere in case Russia attacked Austria.

Liberally Assisted.

BERLIN, May 19.—The Budget Committee of the Reichstag has approved of credits amounting to 4,500,000 marks on account of German operations in East Africa. Of this amount the sum of 350,000 marks will be devoted to paying a subsidy to the East Africa Steamship Company, the vessels of whose line will ply between Hamburg or Bremen and various ports on the east coast of Africa. During the debate on the credits, it was announced on the part of the Government that there was no truth in the reports that it had decided to abandon the steamship service to Samoa.

Gladstone's Great Blunder.

LONDON, May 19.—The *Telegraph* is not the only Liberal paper which is exasperated at Mr. Gladstone's comparison of the Irish trouble with the Russian atrocities in connection with the proposition that a formal representation should be made to Russia by the British Government on the subject of the Siberian outrages. The *Pall Mall Gazette* says: "England is the land of constitutional liberty, where, happily, the unjust shedding of the blood of a single citizen is enough to damn a government. Mr. Gladstone's reference to the Mitcheltown affair, has no weight with men like Stepniak, the noted Russian agitator, who is unable to see what more we want in free England than we already have."

The *Standard* (Conservative) says that it cannot find language to adequately express its disgust at the parallel drawn by Mr. Gladstone. "What can be thought," it asks, "of a man who is trying to persuade his countrymen that a confused street riot can be classed with a deliberate flogging of naked women and kindred barbarities. It shocks one's moral sense to find a party leader has reached a state of rancor where truth, decency and self-respect are obliterated."

The *St. James' Gazette* says that in making such a comparison Mr. Gladstone showed himself an unstripped and battered adventurer, sticking at nothing.

King Leopold's Visit.

LONDON, May 18.—The visit of the King of Belgium to London proves to have been not solely for the purpose of attending the unveiling of the Prince Consort's statue at Windsor, though that was its only ostensible object. It has developed by close inquiry in circles best informed diplomatically, that King Leopold is anxious in regard to the continued dependency and autonomy of Belgium. He believes that a war between Germany and France is imminent, and he fears that in the general alteration of the map of Europe that will follow, Belgium will be absorbed by her big neighbor on the east unless she can find strong friends to support her claims to continued independence. England's influence has more than once been thrown on Belgium's side when questions of Germany's pretensions in that direction have been at issue, and King Leopold's reason for visiting London at this time is that he desired a personal assurance from Lord Salisbury that England would guarantee Belgium's neutral position in case of a Franco-German war. An interview was had accordingly and the desired assurance was given. There is no doubt that England would go to any length required in order to prevent such an increase of German territory and power as would be involved in the acquisition of either Belgium or Holland, toward both of which countries German statesmen are suspected of constantly casting a greedy eye.

VICTORIA NEWS.

The Steam Collier, Costa Rica, Mistaken for the Abyssinia---Dunsmuir's Miners Out on Strike a Thousand Strong This Morning

Special to THE COLUMBIAN.]

VICTORIA, B.C., May 20.—The steamer Collier, from Costa Rica, passed up for Nanaimo this morning. She was mistaken for the Abyssinia from the Orient, and a false report circulated through the city that that steamer had arrived.

The miners working for R. Dunsmuir & Sons, at Wellington, are all out on strike this morning. The cause is unknown and about a thousand men are affected.

The Islander and Olympian raced from the Sound to-day, and the Islander won, getting in at 3 p. m., with the Olympian not in sight.

Children Cry for Pitcher's Castoria.

CITY COUNCIL.

The City Council met at 8, Monday night for the transaction of business. Present—Aldermen Smither, Johnston, Shiles, Hoy, and McPhaden.

His Worship Mayor Brown in the chair.

The minutes of the last meeting were read and adopted.

COMMUNICATIONS.

From C. McDonough and W. R. Austin stating willingness to be F. Booth's sureties as City scavenger. Sureties accepted.

From J. A. Calbick, asking permission to lay building material on Ellice street near Royal Avenue. Granted.

From J. S. Fraser, asking permission to lay building material on Douglas street. Granted.

From Geo. Costello, agent for McMahon's circus stating that his show charged only 50 cts. per head admission and that the City ordinance evidently referred to shows charging $1.00, in making the license $100 per day. He said the circus people had chartered a special train to come and a special steamer to go away from the City, thinking the rate would not be nearly so high. He asked a refund of $75. Moved by Ald. Hoy, seconded by Ald. Smither, that $50 be refunded. Carried.

From H. O. Jones, stating that a well belonging to him had been ruined by the sewerage on a neigboring lot contaminating the water, and asking immediate abatement of the nuisance. Referred to the Board of Works with power to act.

From Harvey Norton and others, a petition calling attention to a nuisance existing on lot 16, block 90, sub-division 301 A. The culvert of the said lot has been dammed up and the water gathering there has become stagnant and smells evilly. The petitioners prayed for the cessation of this nuisance. Referred to the Board of health with power to act and report.

From James Anderson, applying for the position of weigh-scales curator. Referred to the Fire and Light Committee.

Ald Johnson said there had been several applications for this position, but all the applicants wanted $75 or $80. Mr. Robinson, the originator of the scale, offered to take the scales for the rest of the year for what it might earn, and if the receipts were greater than he thought they would be, he would willingly share the profits with the corporation.

From Street and Thompson asking permission to lay building material on a street through Alice Gardens. Granted.

From Stewart and Fraser, stating that they had decided to sever partnership on the North Arm Road contracts, Mr. Fraser to continue the work. Referred to the Board of Works with power to act.

From S. H. Webb, *re* conveyance of some land to the City. Referred to the Board of Works to report,

REPORTS.

Ald. Shiles and Johnson reported for the Police Committee stating, with respect to Sprott's cow, that on receiving an express assurance from Mr. Sprott that the cow had escaped by accident and had not been turned out, they had intended to recommend that the refund applied for be granted. But as their present information is that the animal had been turned out and was therefore liable to be impounded, they must decline "on principle" to grant the request for refund. The committee hold that an animal on a vacant lot does not prevent said animal from being impounded unless there is someone in charge. Report adopted.

The Board of Works reported recommending that the claim of Hugh Graham for $45 for work on the McCleland-Long contract, Pelham street, be not considered. The committee asked further time on G. W. Grant's question *re* iron in buildings; also *re* the petition of T. J. Trapp and others. Report adopted.

SPECIAL COMMITTEE.

The special committee consisting of Ald. Shiles, Johnson and Smither appointed to enquire into the matter of privilege respecting Mr. E. Burns' charge that the chairman of the Board of Works had screened the Chief of Police, reported as follows: That a mistake in the published report had led Mr. Burns to believe that Ald. Hoy had taken the initiative in inviting the Chief of Police to explain, and Mr. Burns thought he desired to keep the matter from going to the Police Committee, whereas it was the chairman of that committee who moved in the matter in calling on the Chief of Police to explain. That Mr. Burns' statement "it was intimated to me by a councillor that the thing would be hushed up in the exact way that it was," only referred to the fact that an alderman who had a grievance against the chief had told him he did not complain because he could not get redress, and that nothing had been said to him in that particular case respecting the Board of Works. Report adopted.

ACCOUNTS.

Armstrong & Eckstein, $52.76; Davie & Bodwell, $179.10; *Truth* Printing Co., $56.05; T. J. Trapp, $1.25; sending Mrs. Ginnard and family to Blaine, $11.

UNFINISHED BUSINESS.

The Corporate Leases By-Law was read a second time.

The Market By-Law was read a first and second time and committed, Ald. Shiles, chairman.

Moved by Ald. Johnson, seconded by Ald. Smither, that Mr. Robinson, commission merchant Front street, be appointed city weighmaster and be placed in charge of the city weigh scales, he to retain all income from said scales as payment in full for his services. His engagement to terminate on December 31, next, or with the appointment of his successor. Carried.

Moved by Ald. Hoy, seconded by Shiles, that the clerk be and is hereby authorized to ask for proposals for grant on Lulu Island to comply with the Government bond as given to the city. Carried.

Ald. Shiles gave notice that at next meeting he would ask leave to introduce a by-law to provide for the sprinkling or watering of the streets.

Council adjourned at 9.15.

Canada's Pictorial.

The *Dominion Illustrated* for May 10 is well off in portraiture and scenery, and has, besides, attractions of especial interest to all Canadians. Lieut.-Col. Chamberlain, C.M.G., has the place of honor, which none of his old confreres of the press are at all likely to grudge him. Dr. Burgess, the medical superintendent of the new Protestant hospital for the insane, Montreal, also appears in this number. The Rev. Mr. Sandwell, of Zion church, Toronto, and Chief Crowfoot complete the portrait gallery. The Bubastis stone, recently donated by Mr. H. R. Ives to the Redpath museum, is depicted as *in situ* there, and is described by Sir William Dawson. Not the least interesting feature of the number is the series of engravings of work in carpentering, stair-building, wood-carving, modeling, etc., done by pupils of the schools of the council of arts and manufactures. They are accompanied by descriptive letter-press and a general account of a most important and too little known movement. Two timely rafting scenes and a picture of the launch of the Minnedosa at Kingston, complete a really excellent number of this fine pictorial paper. Address: The *Dominion Illustrated*, 75 St. James street, Montreal.

REDISTRIBUTION AS AN ISSUE.

THE electors have a very important duty to perform on the 30th of the present month as well as on the 18th of next. Viewed in the proper light, the selection by the people of their representatives to the deliberative and administrative body that is *supposed*, at least, to administer the affairs of the country *for* the people, is always an important matter. Where there is a clearly defined issue, as in the present case, upon which momentous results, both as to principle and practice, hinge, the elective function of the people takes on a largely increased importance. The issue, then, is this: A great injustice has been wrought in the state. A subversive principle, hitherto latent but fermenting, has been brought to the surface, formulated, enunciated, and embodied in an outrageous measure which, despite the strongest and most righteous protests, has become law. This action by the constituted authorities calls for the unmistakably expressed condemnation of the people at the polls.

But this not all! Nor by any means most important! The measure that has become law, radically and practically unjust and unequal as it is, is admitted by all to be a "temporary" as well as a "compromise" measure. *But some time during the next Partiament, probably immediately after the census next year, a new redistribution measure, permanent in its nature, that is,* DESIGNED TO FIX THE REPRESENTATION OF THE PROVINCE FOR THE FOLLOWING TEN YEARS, *will be brought before the Legislature.* AND THE GOVERNMENT AS A WHOLE AND THE POWER BEHIND THE GOVERNMENT, WHICH FORCED THE OUTRAGEOUSLY UNJUST "TEMPORARY" MEASURE THROUGH THE HOUSE AND UPON THE COUNTRY, ARE PRACTICALLY COMMITTED TO PUTTING THROUGH A PERMANENT MEASURE BASED UPON THE SAME PRINCIPLE!

This is the real point. This is what the electors must keep in view. It is not what *has been* done—bad and all as that is, and demanding the strongest condemnation and punishment—that is to be considered; but what *will be* done, on an infinitely more important occasion, and with far more lasting and serious consequences. A momentous crisis is upon the country, and if the electors of the Lower Mainland and of the Interior do not throw off all party trammels at this time, and, by electing good, true and independent men, place themselves in a position in the next Parliament to demand their rights, instead of having to plead for them, they will keenly regret their mistake in the very near future, and the Province as a whole will receive a well-nigh irreparable injury for all time. There is not, in truth, a really patriotic elector on Mainland or Island who can afford to overlook or condone the foul blow that has been struck at the eternal principles of justice, fairness and equal rights in this Province. If the wrong is not speedily wiped out, and full reparation made, by an equitable and just measure being placed on the statute books—nay, but if, instead, by the all-potent voice of the electors at the polls (with whom the whole question now rests), the cankering evil should be confirmed and perpetuated—bitter indeed will be the fruit which, not one, but all sections of the Province will reap some time in the future. The question of equality and justice in the distribution of the representation may be "a question of sentiment," as an honorable apologist for the base measure passed has sneeringly insinuated, but questions of sentiment, be it remembered, rule the world, and dominate the hearts, lives and actions of men, and nations; in fact, even the so-called sordid things of life cannot be realized or possessed except through the medium of sentiment. Enough, therefore, on that point.

From a consideration of the duty of the electorate of the Province at large, let us inquire into the particular course which the electors of the three Lower Mainland constituencies should pursue. The general remarks above will apply fully to them; but it is here that the grand stand must be made, the initiative taken, the heaviest blows struck. Here, if anywhere—because this is the section of the Province most discriminated against, *at the present time*—should a united and unbroken protest be recorded at the polls against the wrong that has been done, and which will undoubtedly be perpetuated unless the action which is here advised is taken. To speak more particularly and emphatically: Westminster City, Vancouver City, and Westminster District should unite in sending a "solid" six to the new Provincial Parliament, independent of both existing parties, while prepared to support good measures from either, and pledged to secure, at the earliest possible date, justice for the Lower Mainland and equal rights for every section of the Province in the matter of representation, upon some equitable basis to be agreed upon—and irrespective of the fate of governments altogether. It must be obvious, we think, that none but independent and non-partisan candidates could take or fulfil such a pledge, and it must be equally apparent to all who have watched the course of events and appreciate the true situation and the forces at work, that by such united and uncompromising action only can we have any hope of securing our rights.

There are very few who will dispute this proposition on the whole, but some say, An exception should be made in the case of the Premier, the Hon. John Robson, who has signified his intention to seek re-election in his old constituency, New Westminster District. This is a statement that demands careful inquiry and consideration, and no personal or political predilections or antipathies should have weight in the decision. Let us see what would be the reasons urged for making this exception. It may be urged then, that, although every other member of the Government is opposed to a fair redistribution and is bound to perpetuate injustice and unfairness in a new measure, the Premier is all right on principle on the question. Admitted; but the Premier succumbed in the last Parliament, against his true convictions, to the pressure brought to bear upon him, and confessed his utter inability to help us secure our rights. What more can he do for us when the question comes up again? Will he be prepared to sacrifice himself then, if need be, any more than he was in the past? And this question suggests just what we conceive to be the strongest argument against returning the Premier (or anyone but a thoroughly independent man, politically) from this district. The Premier would have his position to look after—his Government to preserve—and if the rights of the Lower Mainland, and justice and fairness for the whole Province in redistribution matters, were set off against these, why the latter would be obliged to take second place; if redistribution should come to a question of sacrifice again, as it is very likely to do, the Premier, we fear, would prefer place to principle. We do not desire to do the Premier an injustice, but we are merely judging him by his own actions and his own words of the past few weeks. Let the electors think on these things.

But, as a final clincher, it is urged, if we refuse to elect the Premier in this District, he will turn against us and be our enemy. We do not think so hardly of the Premier. We believe that he will be able to rise above mere "district lines," and to see that, while sacrificing him temporarily, and without any ill-will or resentment, we are giving him an additional member to help him stand by his convictions and his principles in the House; for, if the Hon. John Robson does not run in this District, it may be taken as an assured fact that the "solid" redistribution ticket will be returned. By contesting the District, the Premier may prevent this, but he will only succeed in lessening by one the members in the new Parliament who would assist him in securing what he has professed himself to be individually anxious to secure, namely, justice for the Lower Mainland and an equitable redistribution for the entire Province.

If he is sincere, and as he has practically cofessed his inability to help us to our rights, as things are, the Premier would be doing a patriotic action to allow us to help ourselves most effectually, by standing himself for some other District. Let the Premier think over this matter.

TO THE ELECTORS OF

New Westminster City.

GENTLEMEN:—In response to a requisition, numerously signed, which has been presented to me, I beg to offer myself as representative of this City in the Provincial Legislature.

I frankly confess that, aside from the great question of the just distribution of legislative power, I would scarcely care to be a candidate. If you do me the honor to elect me I shall make that question my first consideration at all times, and in order to do this it is essential that I keep quite free from any entangling alliances with either Government or Opposition. But to the people and the advocacy of the rights of the people, in this matter and in all others, I can fully and freely pledge myself; and with those, be they on what side of the House they may, who are animated by a similar spirit, I will work cordially.

The present crisis demands special treatment. We of the Lower Mainland are denied our just share of legislative power, and so long as that is the case our true policy, in my opinion—nay, the policy which our own self-respect compels us to adopt—is to return no man to the Legislature who will not make the righting of that wrong his first business. It may safely be assumed that those who shall be found willing to do right in this matter, will be the most likely to do right in others also.

Notwithstanding the utmost devotion to this first question, your representative will have to deal with many other matters, and perhaps it will be sufficient now to say on this point that I believe there is room for a good deal of work before the administration of public affairs can claim to be what it should be—government by the people *for* the people. I should earnestly endeavor to do my share of that work.

I believe I may safely assume that you need no assurance of my deep and abiding interest in everything that makes for the prosperity of New Westminster City.

I am, Gentlemen,
Very truly yours,
J. C. BROWN.

FRACTIONAL CURRENCY.

Millions of Dollars That Have Never Been Redeemed.

"Say, are these any good?" inquired a timid-looking young man of Doorkeeper Braly at the sub-treasury the other day as he exposed to view a half dozen pieces of ragged, dirty paper. A close inspection, says the New York Commercial Advertiser, revealed that they were fractional paper currency or "shin-plasters," such as played so important a part as a circulating medium before the resumption of specie payment. The young man was directed to the small change room, where R. C. Haff took the soiled and crumpled bits in his hands, smoothed them out with the hasty touch of an expert, singled out one of the pieces and turned around to a bit of wood, that looked like a small butcher's block, and struck on it the selected piece of paper a whack with a steel instrument. Then turning to the young man he replied:

"These five are good, but that one is counterfeit."

As he spoke he handed back the spurious note-paper and across the face was the word "counterfeit" cut clean and clear. The steel instrument with which he had struck the paper was a sharp stencil die that cut the tell-tale word so clearly that it could never be effaced and the veriest fool could see that it was worthless.

"Do you want these redeemed?" continued Mr. Haff, as he pointed to the five grimy slips on the marble counter.

"Yes, sir, if you please," stammered the youth, as he eyed with surprise and fear the mutilated piece returned to him. Mr. Haff put two bright silver dollars and a silver quarter on the counter, which the boy picked up in a hurry as though he was afraid they would be taken back again.

"Do you get much of that old fractional currency now?" was asked of Mr. Haff as the boy went out.

"No," he replied, "we get very little now, not more than $2,500 a year. The amount coming in for redemption is growing less and less every year. It used to come in here by the bushel basketful. But for many years now it has only come in in driblets. We seldom get as much at a time as that young man just brought in."

"Then it has most all been redeemed, has it?"

"No, indeed, and what is more, a very large amount will never be redeemed. There is now outstanding of the old fractional paper currency something like $15,000,000. And of this it is estimated that not more than $3,000,000 to $5,000,000 will ever come in now."

"But where is the rest and why will it not come in for redemption?"

"A great deal of it has been worn out by the wear and tear of twenty odd years of usage. Any quantity of it has been burned up in the many fires that have occurred since the time it was issued, and in numerous other ways it has been lost and destroyed. Then there are some other people who hold all they can get to use in sending small amounts by mail, finding it very handy for that purpose. Then, too, the old currency is now so scarce that people keep the occasional pieces that come to hand as curiosities or pocket pieces. A great many coin collectors have crisp, unworn specimens of it in their collections. One wealthy gentleman in the city I know carries in his pocket-book, wrapped up with the greatest care, four clear, bright specimens, a 50, a 25, a 10 and a 5-cent piece. He says it was the first money he ever earned. It was paid to him in these identical pieces, brand new from the press, and he has preserved them ever since for luck. I do not believe you could buy them from him for $1,000 each. He calls them his reserve capital, and if he ever loses the million or more he is now reputed to be worth he will have his 90 cents reserve to fall back on."

A good deal of the fractional currency that comes into the sub-treasury for redemption turns out to be counterfeit, and the moment it comes into the hands of the money changers in that institution, no matter who hands it in, it is hurried to the block and branded with the stencil-cutting die. They ask no permission, but just go and do it. The same rule is followed, too, in the rotunda where the bills of larger denomination come in. Sometimes men get very angry when their bad bills are handed back to them mutilated in such a manner that they can not be used.

A few days ago the South Ferry Company sent into the sub-treasury a bundle of the fractional currency representing about $100. It had been discovered back of a partition in the old ferry-house, where it had either been stowed away or misplaced and was found when the old building was torn down to make room for the new structure. Mr. Haff shuffled through the pile, and not only pronounced it all counterfeit, but discovered that some of it had been brought to the sub-treasury at least twenty years ago, as the marks of the old stamps used as long ago as that to mark counterfeit paper money was still plainly visible on them. Each piece was subject to the cutting process, and will probably not be presented again for redemption.

All the fractional paper currency that is redeemed at the sub-treasury is sent to the treasury in Washington, where it is placed in the crematory and burned up, and all that is left is a sediment of slag, a single pound of which may represent $100,000; the balance floats off as smoke and gas.

Plot for a Sensational Novel from the Georgia Court Records.

A few years ago among the moonshiners in the Fulton County prison was Walter Blackman, says the Atlanta Journal. On the night of December 12 Blackman and Miss Lulu Hicks were to be married. The guests had all arrived, among whom was a young man named George Blakesley, who had been a suitor for Miss Hicks' hand. Blakesley was a mountaineer himself, or had been, but had lately traveled about considerably. The justice was preparing his papers and the bride and groom made their appearance from an adjoining room.

There was a sound of horses' feet upon the frozen ground outside. More guests arriving? In a few moments a dozen revenue officers armed to the teeth entered the room and placed Blackman under arrest. The bridegroom was taken to Atlanta, and there was no wedding.

At the trial Blakesley was the principal witness, and he testified as to how he had pointed out the spot where Blackman's still was located and then told the officers of the wedding.

Blackman was sentenced to twelve months' imprisonment. As soon as the trial was over Blakesley hastened back to the home of Miss Hicks and told her that her lover had been sent to prison for life. For three months afterward Blakesley pressed his suit, and Miss Hicks finally married him.

It may have been Blakesley's intention to wait until the twelve months had nearly expired and to then move to some other place with his wife. At the end of six months Blackman was pardoned, and the story of the interrupted wedding had something to do with the executive clemency.

Blackman went to his home and was told of Miss Hicks' marriage. He placed a Winchester on his shoulder rode over to where Blakesley was living, and calling him to the door, shot him through the heart. Riding hastily away he disappeared in the woods and has never since been seen.

SHOE-LEATHER OILS.

How Grease Affects the Wearing Quality of Foot-Gear.

Animal oils and greases incorporate themselves with the fiber; they do not evaporate. Their action, says the Boots and Shoes Weekly, is like that of compounding various metals—instead of forming a composition, in the one case, all the elements are so compounded that their individuality is lost, and separation is almost impossible; in the other, the elements are mixed, but can be separated almost without loss in bulk. Moisture will drive the grease to the surface, and gradually the interior will be robbed of its life, but there is no evaporation. Consequently the leather retains its flexibility much longer than when the grease is also drawn out by heat and the action of the air.

Animal oil does not penetrate the leather so quickly as oils that are more volatile, but this very quality is what makes them more valuable, as they are taken up by the fiber, not simply sucked in and filling around it, and they are equally difficult to draw out. Rancid oils, oils that have undergone a chemical change that marks the first step toward vitiation, have lost their most valuable properties, and the process of decay which has begun introduces gases, creating the volatile element which so quickly robs the leather of its nourishment. At the same time the fiber is injured by the decaying grease.

Vegetable oils rank next to animal in their preservative qualities, but the oils extracted from flax seed and cotton seed, unless purified, are of such gummy nature and so easily affected by heat that they are unfit for use by the curier. Cotton-seed oil, purified as it is when sold for sweet oil, is an excellent but an expensive oil for leather. Pure olive and castor oil possess the qualities requisite for preserving leather and keeping it soft, but their cost precludes their general use. Castor oil is the best.

Fish oil is used more than any other and to its use may be attributed much of the poor wearing qualities of the leather now in the market. By an improved process of manufacture fish oils are deodorized so thoroughly that their presence can not be detected. They penetrate more readily than either animal or vegetable oils, but they do not incorporate themselves with the fiber. They simply fill up the interstices, and being of a light nature they are easily drawn out by heat or moisture. They impart a soft condition to the leather when it is new, as much so if not more than do the animal oils, and because of that they are not condemned. If used freely in connection with hard grease they become rancid, and impart an odor which is retained as long as there is any grease in the leather.

Mineral oils are being introduced quite freely, and as they are thoroughly deodorized they find ready purchasers. These oils are the worst possible that can be put into leather. They have wonderful penetrating properties, but they are heating, and their volatile properties deprive them of the permanency so necessary for the preservation of the leather. They do not take kindly to other oils or greases, and are easily cut by water. While the natural heat from the feet will cause evaporation, particularly if the leather is moist, they do not become rancid, but they are more injurious to the fiber than even the most rancid animal oil.

The shoe manufacturer should condemn all leather treated with mineral oils. A little care on his part will enable him to determine the oil used, whether animal, vegetable or mineral. Good grain and clear fleshed stock invite the eye, and if properly treated with oils the leather will prove acceptable, but grease is the life of the leather, and just in proportion as the grease is pure and incorporates itself with the fiber is the leather durable or otherwise.

PATIENT DRESS-MAKERS.

In the Course of Their Business They Meet Queer Cranks.

"Yes, we meet many cranks," remarked a dress-maker to a Detroit Tribune reporter. "The first grade are those ladies who have dresses altered. I had some experience with one of this class not long ago. She sent for me. 'Miss X——,' she said, 'I want this dress made over. The material is very expensive and cost me four dollars a yard. I am almost afraid to let you undertake it.' 'Very well, then,' I said, rising. 'However, I think I will trust you,' she continued.

"So after the usual preliminaries of measuring and fitting I sat down to take the dress to pieces. I applied the scissors and cut the goods on the bias. With that she groaned aloud. I worked for about half an hour while she continued to get more and more nervous. At last she arose. 'I can't stand it any longer,' she said. 'I am too nervous. You must go. I can't have you work any more to-day.' So I left.

"The next day I received a note to call. 'I suppose you might as well finish what you have begun,' she said when I entered, 'but work as quickly as you can.'

"Well, I was never before so harassed. She groaned whenever I touched the scissors. The dress turned out a perfect success and fitted her splendidly. As a result the lady has taken a great fancy to me and I like her, although social gayetics have made her a partial victim to nervous prostration.

"I recall another case," continued the dress-maker. "I made a dress for a lady out of decidedly cheap material. When she tried it on she said: 'It is too long.' I took it up an inch. The next day she said: 'It is too short.' I let it down the inch. She said: 'Oh, dear, you have made it too long once more.' I took it up half an inch. Then it was too short once more. Seven times I let up and took out that half inch. At last she said: 'That is right.' It was right, because it was just as I had it at first. Yes, a dress maker needs patience."

A HORSE'S MEMORY.

He Remembered the Trick He Had Played Two Years Before.

"Say, friend, you are on my horse," said one gentleman to another as he reined his horse before the door.

"Your horse! Oh, no! Why, I bought this horse two years ago."

"You did?" answered the other. "Well, I lost my horse. It was stolen just two years ago."

The conversation took place under the far-spreading oaks of an old-time plantation home, says the St. Louis Globe-Democrat. A planter was surprised to see his horse return home after two years, and ridden by a gentleman who evidently had bought the horse in good faith. After some conversation the old owner of the horse, with much earnestness, said: "Well, sir, if you will dismount, unsaddle the horse, and he doesn't go to the fence, take the bars down, walk to the well, and if he doesn't find water in the bucket let it down the well, and then walk off to his old stable, I will give up, and that horse isn't mine." "At your word; the horse is yours if he does all that," cried the visitor, and leaping from the horse, unsaddled it. What was his astonishment when the horse went straight to the fence, let down the bars, crossed over, went to the well, and finding no water, let the bucket down, and then, as though he had left home but yesterday, walked to the old stable. The animal remembered the trick and the owner recovered his horse. There are those living who can attest to the truth of this story, though it happened years ago.

NOTICE OF SALE BY SHERIFF

Pursuant to Execution Against Lands Act, 1874.

In the Supreme Court of British Columbia

ARTEMAS DAVISON, Plaintiff;
WILLIAM CALKINS and A. ENNIS, Defendants.

IN OBEDIENCE TO A WRIT OF *FI. FA.* ISsued out of the Supreme Court of British Columbia at New Westminster, on the 2nd May, 1890, and to me directed in the above named suit, for the sum of $615.88, debt and costs, together with interest on same at the rate of six per centum per annum from the 20th November, 1889, besides Sheriff's fees and poundage, &c., I have seized, and will sell by Auction, at the Court House, New Westminster, on

Tuesday, the 3rd Day of June, 1890.

At 1 o'clock p.m., all the right, title and interest of the said A. Ennis, in the lands as described in this advertisement, or sufficient thereof to satisfy the judgment, debt and costs in this action, subject to a mortgage for $1000.00 and interest thereon at 9 per centum per annum from the 21st February, 1888.

District.	No. of Lot.	Concise Description of Property.	Estate or Interest.
New Westminster.	North-East ¼ of Sec. 23, Township 26.	Farming Lands partly improved, with buildings thereon.	Estate in fee.

The judgment was registered in the Land Registry Office, New Westminster, against said land on the 20th November, 1889.

To the Electors of the District of New Westminster.

GENTLEMEN:—

It having been reported that I have retired from the contest for the representation of your District in the House of Commons, I beg to give such statement the most unqualified contradiction.

I am in the field to stay, and shall remain there until the day of polling, when by your votes, I confidently expect to be returned as the member for New Westminster District.

Till then, I solicit your support, and remain, Gentlemen, your obedient servant,
W. H. LADNER.

EDUCATION BRANCH OF THE PROVINCIAL SECRETARY'S DEPARTMENT,
Victoria, May 8th, 1890.

NOTICE IS HEREBY GIVEN THAT THE Annual Examination of Candidates for Certificates of Qualification to teach in the Public Schools of the Province will be held as follows, commencing on Friday, July 4th, at 9 a. m.:

In Victoria—High School Building.
In Kamloops—Public School Building.

Each applicant must forward a notice, thirty days before the examination, stating the class and grade of certificate for which he will be a candidate, the optional subjects selected, and at which of the above-named places he will attend.

Every notice of intention to be examined must be accompanied with a testimonial certifying to the moral character of the candidate.
S. D. POPE,
dmy10m1 Superintendent of Education.

ELECTION CARD.

To the Electors of New Westminster District:

GENTLEMEN:—At the earnest request of a large number of the Electors of the DISTRICT OF NEW WESTMINSTER, I have consented to become a candidate for representative of the DISTRICT in the Provincial Parliament.

I shall take an early opportunity of addressing you all at the various polling places, of which you will receive due notice. My political banner is unfurled and on it you see emblazoned in letters of gold, REPRESENTATION BY POPULATION, OR SEPARATION.

Up fellow Electors, and rally around this standard! Let us shake off the political shackles that have bound down the Mainland for years and retarded its progress. Let us arise in full strength and independence and secure our just rights at the polls.

I now ask you, gentlemen, one and all for your votes, confidence and support at the forthcoming election.

I remain
Yours faithfully,
dwmy14tc ARTHUR M. HERRING.

By Private Sale.---Bargains.

I HAVE RECEIVED INSTRUCTIONS FROM Mrs. A. M. JOHNSTONE, of Mud Bay, to dispose of her Homestead, which consists of 272 acres of Land, good Dwelling House, excellent Barn and Stabling for 40 head of stock, good Dairy and an abundance of Spring Water.

The property is situated on the sunny side of Mud Bay, the land is second to none anywhere, and parties wanting an investment for their capital cannot do better than take a look at this before investing elsewhere.

Stock and implements can go with Ranch if desired.

TERMS:—One-third cash; balance to suit purchaser, at 8 per cent. per annum.

ALSO FOR SALE—THE FOLLOWING:

The West Fractional Half of Section 29, Mud Bay, bounded by the Nicomekl River and the Sea—108 acres.

184 acres, adjoining Sections 16 and 25, Township 4, very near N. W. City.

The North-West corner of Section 68, adjoining the Hastings Townsite—54 acres.

The North-West ¼ of Section XI., Township 2, 160 acres, all first-class land, 10 acres improved and sown to timothy pasture. Log house. Good creek runs along line of property, also the Johnstone Road. This is an excellent ranch.

Lot 261, Group I., Pitt Meadows; 80 acres prairie; 70 acres high brush land. Half of the prairie can be ploughed, and is all hard land. 2 miles from Railway Station.

Stave River Stock and Dairy Ranch. This Ranch consists of 387 acres of land, being Sections 483 and 437, Townships 14 and 15.

This property is situated on the Stave River with a frontage on the Fraser River, at which point the C. P. R. Road passes through property. There is one large 2-storey Frame Dwelling House, hard finished, nearly new, worth $1,500. This is elegantly situated on rising ground and commands a view of the C. P. R., the Fraser River and the surrounding neighborhood. The greater part of the land is Prairie, subject to overflow, a good deal of the high land has been improved and fenced, and there are a large number of young Fruit Trees and the usual Out Buildings in the way of Barns, &c. There is excellent Trout Fishing and Hunting on premises and any party or Company seeking a Stock Farm or Dairy Ranch could not be better situated. Coal croppings of unusual promise have been discovered on the Property. This is to be secured at a bargain, and further particulars can be had of the undersigned or of Mr. Clement Stickney at Wharnock Station, who will show any intending purchaser over the same.

For further particulars apply to
T. J. TRAPP,
New West.

☞Several other Farms at Langley and other parts of the District at private bargain.

The steamer Gladys arrived to-day from Chilliwack with freight and passengers.

Hon. John Robson will address a public meeting to-morrow night at the Oddfellow's Hall.

Last night's Council meeting was one of the briefest this year. There was just a quorum present.

Captain Terhune will launch his fine steamer now on the stocks at Sapperton to-morrow evening at 5 o'clock.

Messrs. Mowat & Sloan have a change of advertisement to-day in another column, which will be read with interest by everyone.

The Chinaman who was injured by falling down an elevator yesterday, is reported to be much better and almost certain to recover.

Messrs. McPhee Bros., shipbuilders, have a card in another column. They are prepared to give estimates on all classes of shipbuilding.

Persons wishing to obtain a last look at Mother Goose and her illustrious family should not fail to be at the Opera House to-morrow night.

The Lacrosse Club holds a general meeting this evening at 8 p. m., at Mowat & Sloan's office. Every member is requested to attend.

The water in the river was 10 feet 1 inch above low water level this morning. This shows no change in the condition of the stream during the past few days.

One drunk was fined the usual $2.50 and costs this morning in the Police Court; another, who had deposited $5 to appear, forfeited the bail by non-appearance.

The salmon catch last night was very good, both sockeyes and spring salmon being netted in fair numbers. Shipments to the east both by D. W. Port & Co., and W. H. Vianen were large.

Lucifer matches, when first invented in 1827, were sold 50 for 25 cents. Now whole forests are made into matches and the price of a gross package, like a pair of Grant's boots, is next to nominal. *

For Sale— A carload of Percheron and Clydesdale Horses and Brood Mares; just arrived from the East and can be seen at Transfer Stables for two days. All horses guaranteed.—K. McSwain. *tc

The item about a steamship accident in yesterday's issue requires correction. The trouble was not with the K de K's engines at all, but a temporary misadventure to the steering gear of the noble craft.

Crops throughout the district are looking remarkably well, a bountiful harvest is confidently looked forward to. The hay crop is certain to be fully up to the average. Fruit promises well at present.

Messrs. Riddell & Johnston have opened a shipsmith's establishment one door west of the Merchant's Hotel, Columbia street, and are prepared to execute all orders in their line which they may be favored with. Advertisement will appear to-morrow.

On the C. P. N. wharf is a large pile of scrap iron, principally steamboat fittings; the iron has been sold to a dealer in Victoria who purchases such wares in large quantities. There are several tons of it on the dock and it will be shipped to Victoria by the next steamer.

Messrs. Sulley & Bryson have a change of advertisement in this issue which will be read with the greatest interest by all who are in want of a wagon, express, road cart or buggy. The advertisers have recently imported a large number of these vehicles, and another car load is now on the way and is expected to arrive within the week.

The question of street-sprinkling will be definitely settled in a very short time. Ald. Smither brings in a by-law next Monday evening to deal with this very important matter, and Columbia and Front streets will not be the only thoroughfares dealt with, but probably all the principal streets in the city will be provided for in the by-law.

It is intended that the new tug Lorne, in charge of Capt. Urquhart and Capt. Christensen, with His Honor, the Lieut.-Governor aboard, will meet the Abyssinia on her arrival at Victoria Wednesday and convey T. R. H.'s the Duke and Duchess of Connaught and party to this city. Mayor Grant and the reception committee will welcome the distinguished visitors at the landing.

In another column will be found the advertisement of Messrs. Cunningham Bros., successors to E. S. Scoullar & Co. and H. M. Cunningham & Co., dealers in hardware, stoves, tinware, etc. Cunningham Bros. have on hand a very complete stock in all their lines, and a full line of stoves and tinware will be carried at both stores. The plumbing and roofing will be carefully managed, and none but efficient workmen employed.

The str. Delaware arrived this afternoon from up river. She had over 50 tons of hay and 63 passengers. Her consignees are as follows: Royal City Planing Mills Co., T. W. Clarke, J. D. Rae, A. Gandien, G. R. Small, W. & G. Wolfenden, Messrs. Stevens, Edwards, Smith, Spence., Hamilton, Dickinson, Holden and Malcolm. After unloading 242 bales of hay at the Royal City Planing Mills the Delaware went down to Duncan & Batchelor's new cannery with 1200 cases of tin and 3,000 bricks. She will return to-night.

And now that the huge pictorials descriptive of the many wonders to be seen adorn the bulletin boards and deadwalls, and the small bills scattered everywhere around and about announcing its appearance, quite an interest is being manifested from the fact that it is generally understood that among the many interesting features of this new show will be found the largest animal in the world, Queen Jumbo, an elephant, the consort and constant companion of the late lamented Jumbo, at the Zoological Gardens, London, for a number of years and now weighing many tons more than Jumbo ever weighed, and a much taller elephant. The new arenic features will no doubt attract the multitude where there is so much to be seen, and that so unusual and interesting cannot fail to create intense interest. *

Glories in its Shame.

We observe that the local morning paper, driven from one untenable position after another, hunted out of its "last ditch" and stricken to death in the open, has at last recognized that it has not a leg to stand upon, and has relapsed into idiotic drivel. There is no point worth noticing in its gibberings this morning except the regrettable fact that our cotemporary glories in its shame of having prostituted itself for hire.

Children Cry for Pitcher's Castoria.

The North Arm Bridges.

Mr. Catt, manager for the San Francisco Bridge Co. paid a visit to the ruins of the North Arm bridge on Sunday, and thoroughly inspected the wreck. Before leaving he instructed the foreman to get to work immediately and rebuild the broken span, and the structure is now in course of erection.

The Richmond Council has notified the Government that the bridge is down, and has asked that the structure be not accepted from the company until it has been properly tested, and its strength proved. This is a very moderate request, and the council hopes it will not be overlooked.

The Oddfellows Picnic.

The grand picnic to old Derby on Queen's birthday under the auspices of the Independent Order of Oddfellows, is looked forward to with much interest by the several hundred people who intend taking advantage of the pleasant outing. The steamer Delaware has been chartered for the occasion, and will leave Mathers & Milligan's wharf at 8 a. m. sharp. A band of music will be in attendance, and a refreshment stand will be in full swing all day on the boat, at which those who do not take baskets along will be able to store the inner man. The committee has made all arrangements whereby the success of the occasion is assured.

Excellent Practice.

The lacrosse practise last night was fairly well attended, but several of the best players were unavoidably absent. It is very noticeable that both home and defence are being greatly strengthened by practice, and it is hard to decide which does the best work. The home work beautifully together and seem to have thoroughly grasped each other's play, while the defence is always on hand wherever the rubber is, and the resistance is fully as determined as the attack. The seniors are to be commended on the regular manner in which they attend all practices, and it is to be hoped they will stick together with the same constancy during the whole season.

Obituary.

Intelligence was received in Victoria on Saturday of the death of Mr. John E. Venables Vernon, of Clontarf Castle, in the county of Dublin, Ireland, which occurred on the 29th of April. The deceased gentleman, who was in his 77th year, was a deputy lieutenant of his county, and in early life had a distinguished university career. He visited this province in the year 1874, and accompanied his sons, Hon. F. G. and Mr. Charles Vernon both now residing in Victoria, to their ranch near Okanagon Lake, where he spent some time before returning to the old country. Colonel Edward Vernon, commanding the 5th Battalion, Royal Dublin Fusileers, and who is the eldest son of the late Mr. Vernon, succeeds to the entailed estates.

Sons of England Benevolent Society.

It is contemplated to organize a lodge of the above society in this city. The society has been in existence only 15 years and in the Dominion alone has now a membership of 8,000. The objects are to bring Englishmen together for their mutual benefit and also to enable travelling Englishmen to meet with their own countrymen. The society has a separate sick benefit and doctors' department, and a beneficiary department in which members can insure for $1,000 at a very low rate. The objects and aims of this society are worthy the consideration and support of every man of English descent, and all such are cordially invited to attend a meeting which will be held in a few days, of which due notice will be given. Dr. Walker and Mr. Robert Allen are taking steps to organize the society here.

The Fisheries Launch.

The steam launch which was decided upon some time ago by the Dominion Government, for use on the Fraser by the Inspector of Fisheries, is to be built after all, though it seemed for a time as if the intention was never going to be fulfilled. Messrs. McPhee Bros., the shipbuilders in whose hands the plans have been for some time, received instructions a few days ago to commence work on the launch, and they have already got the frame under way. The little craft will be 30 feet in length, 6 ft. beam, 2½ ft. deep and furnished with a 6 h. p. engine. The launch will be built of native cedar, with white oak frame, and finished in handsome style. It is expected the hull will be ready for the machinery in about a month, and the steamer complete will probably be at Mr. Mowat's service by July 15th.

A Fair Offer.

It is pleasing to note such a willingness to take chances, whether it pays or not, as that dispalyed by Mr. Robinson in his offer to take charge of the City weighing machine until the end of the present year, for whatever the machine can earn, and in case the receipts exceed what he thinks would be a fair renumeration for his services he will deposit the excess in the corporation exchequer. A bad man would smile sardonically at such a proposition and probably mutter like the little shoeblack with the apple, "there ain't goin' to be no core," "there ain't goin' to be no excess;" but the offer is a *bona fide* one and has met with the approval of the City fathers' who are not bad men. Mr. Robinson will enter upon his duties at an early date. Needless to say, the weigh scales will be a great benefit to every merchant in the City and especially to those engaged in the coal, wood and grain business.

Political Notes.

Mr. Wm. Isaacs, of Maple Ridge, is the latest candidate in the field for political honors. He has not issued an address to the electors as yet, but promises to do so at an early date. Mr. Isaacs proposes to make a thorough canvass of this district, commencing at an early date.

Although Mr. Thomas Shannon is in the field, he proposes to withdraw should he not be selected in the Mainland Rights' team to contest the district, and he will use his whole influence to secure the election of the candidates regularly nominated. This is a patriotic course to pursue, and one that should be adopted by all candidates who are earnest in their endeavors to have our wrongs righted.

It is understood the Hon. John Robson has been specially invited to be present at the public meeting to be held at Vancouver on Thursday evening after the session of the Mainland Association. It is quite probable the honorable gentleman will attend.

Mr. James McGeer has decided to stand for Vancouver City. So has Mr. James Orr, Samuel Greer and several other gentlemen.

It is unlikely a regular canvass of the district will be inaugurated until after nominations. Then a lively tour may be expected. The candidates in the field after the 30th inst. will be there to stay, and each man may be depended on to put forth his best efforts to secure election.

At Vancouver, to-night, the Hon. John Robson will open the ball. A meeting has been called by the supporters of the Government, at which the Premier will be the principal speaker.

The central executive of the Mainland Association is called to meet at Vancouver on Thursday afternoon at 4 o'clock. It is expected delegates will be present from all parts of the district. At 7 o'clock in the evening a general public meeting will be held, which is certain to be an enthusiastic affair.

Money advanced on Real Estate, at low rates, by J. B. Cherry. *ap26m1

PERSONAL.

Mr. A. Milton, of Mission, came down to-day.

Mr. R. H. Tineman, of Vancouver, is in the city.

Mr. T. A. Sharp, of Vancouver, is over on business.

Mr. C. H. Prout, of Langley, is a guest at the Queen's.

Mr. M. Calhoun, of Ladner's, is stopping at the Colonial.

Mr. C. P. Lowe, of Victoria, is in the city on a business trip.

Mr. L. A. Agassiz arrived in the city to-day from the upper country.

Mr. J. McKillop, of Victoria, is over on business, and is a guest at the Douglas.

Mr. Richard Jones, Inspector of Weights and Measures, Victoria, is in the city on an official visit.

Mr. Thos. Shannon, who was in the city yesterday on election business, returned from Vancouver this morning.

Mr. Peter Grant is slowly improving in health, and his friends are hopeful that he will soon be home again as well and hearty as ever.

Mr. A. C. Wells, of Chilliwack, arrived in the city to-day. He will remain over for the meeting of the Mainland Association on Thursday.

Mr. O. D. Sweet came up from the North Arm this morning and went over to Vancouver this afternoon to be present at the political meeting to-night.

COLUMBIAN SUPPLEMENT.

VOLUME VIII. NEW WESTMINSTER, B. C., MAY 20, 1890. NUMBER 92.

TO THE ELECTORS

—OF—

New Westminster District.

GENTLEMEN:—In view of the near approach of the election to fill the vacancy caused by the death of our late representative (the much-respected D. Chisholm) and as I have stated in my card to you that I am a candidate for that honor, I will now lay before you some of my views on the leading questions which I consider will arise in the near future for consideration.

I have been asked what I mean when I announce myself as a Liberal-Conservative; I reply, "That by nature and education I am a Conservative, but a residence of over 30 years in this Province and much intercourse with our American cousins has had the effect of changing many of my views, and given me liberal ideas, therefore I claim I am a Liberal-Conservative." Owing to the fact that party lines are not defined in British Columbia as they are in the older provinces, I consider that our representatives are not in duty bound to give a *through-thick-and-thin* support to any party, but they should go to Ottawa prepared to give a generous support to all GOOD measures which may be brought before them, and to consider the prosperity of the Dominion as a whole, but our own Province in particular, and should a measure come before them which they consider in any way detrimental to the interests of this Province they should take their stand like true men and vote against it.

I am opposed to a certain extent, to the Tariff, or National Policy as applied to British Columbia. We are a long way from the centres of manufacture in the East, and many articles of every-day use to our Farmers and others, and which we cannot produce at home can be obtained more readily and at shorter notice from our near neighbors over the line, and in many cases the articles are better adapted to our needs than those brought from the Eastern Provinces; in fact, much of our Farming and Mining Machinery, Wooden Ware and other articles are brought from the States, although the duties are so heavy. Again regarding our food supply; we do not raise enough to supply our wants, and are obliged to cross the border for it, and are met with such heavy duties that heads of families in this Province pay more than ten to one compared to their compeers in Eastern Provinces. We have had example to the point during the last three months. If we had not received a good supply from California there would have been a meat famine; as it is we are now and have been paying 25 cents per pound for mutton, which is more than ordinary mortals like to pay, and the same state of affairs is likely to obtain again after any long and severe winter, for in spite of "Protection" for the last eleven years our stock raisers are little better prepared to meet hard winters than they were before, and to my mind the only ones who have reaped the benefit of the N. P. are the manufacturers. As a true Britisher I should like to see "Free Trade," but as that seems out of the question, I would advocate "Reciprocity" in many articles which are at present in the Tariff lists, as I think it would be beneficial to both countries, and the working man would not have to go down so deep into his pockets to buy what he needs to eat and wear. I am aware the Government must have a revenue to carry on the affairs of the country, but I would have "luxuries" pay more and get at the pockets of the richer classes who can better afford to pay taxes.

Owing to the long continued sickness of the late Mr. Chisholm, he was unable to be in his place this session, and very little during the previous one, so we of this District have been practically unrepresented, and our local wants have not been brought before the notice of the House. Had he (Mr. Chisholm) been in his seat, I do not think the Postmaster-General would have been left so much in the dark concerning the necessity of regular mail facilities on the Lower Fraser as he seems to have been when he proposed to cut off the mail subsidy from that important route, and there are other places in the District which need better postal facilities, which I consider should receive that gentleman's earliest attention.

I hope that in the near future our District will reach that point that we may look for it to be divided and receive another representative. At present I think it is the largest constituency in the Dominion, extending over 1500 miles of territory, and when the census returns are in I think the necessary number of population will be found to demand such additional representation.

The protection of the river banks at Chilliwack, Sumas, Burton's Prairie and other places should receive my earnest attention, also the works for improving the channel at the Sandheads, in view of the expected increase in our shipping interests.

I consider the Province should have control over all railway charters and privileges within our borders.

Our Fishing interests, being of such great importance to this District in particular, I feel should receive more than ordinary attention.

I would urge the cutting of a canal through the Delta lands from the mouth of the Serpentine to Fraser River, also to enquire into the question of cutting one from the Fraser River to Port Moody, which has often been suggested to me.

Immigration, I consider, should be fostered, and encouraged judiciously. Just at present it is coming here fast enough; I would not like to see a large influx pour in at once, as many would be disappointed and go away disgusted and probably give our glorious Province a bad name.

There are many other matters I should like to touch upon, but it would make this address too long. I hope to see as many as possible before the election, when I shall be prepared to lay my views more fully before them and answer any questions. As soon as possible after the arrival of the writ I will arrange for a personal canvass and will send due notice of time and place of meetings.

During my long residence in the Province I have travelled through much of it, from Victoria to Cariboo, and have noted its growth and requirements, therefore, I feel fully competent to bring such matters before the notice of the House in a practical, business-like manner.

Should I have the honor to be elected I assure you I shall watch over the interests of this District faithfully and to the best of my ability, not forgetting that I also go as a true British Columbian and to do my duty as such.

Yours faithfully,

WM. B. TOWNSEND.

Parliamentary Election, 1890

To the Electors of New Westminster District:

GENTLEMEN:—Having been requested by a large number of electors of this District to offer myself as a candidate to represent you in the House of Commons, to which request I have much pleasure in complying, I beg to state that should you do me the honor to elect me as your representative whilst giving the present Government my free and independent support, I would do my utmost to favor the following amongst the many measures that I consider would be beneficial to the interests of this Province and the Dominion at large.

To urge the further improvements of the navigation of the Fraser and other rivers, the protection of their banks, the improvement of any harbors in this District, and the construction of canals where necessary for the purpose of allowing farmers and others every facility to reach market.

To encourage agriculture by protecting all such articles as can be produced in this Province, and to lower duties on all that cannot, and which are absolutely the necessaries of life, and increase the tariff on luxuries so that the consumer would be even taxed less than at present.

To increase the representation in proportion to the wealth and importance of this District.

To increase and have adequate mail service to all portions of the Province and free letter delivery in cities.

No diminution in the Chinese Restriction Act.

To have the Fishing Regulations amended to meet the requirements of this Province.

To have a Dry-Dock constructed at some suitable point on the Mainland to meet the growing demands of this District.

To urge the exchange of Lands in Peace River for the Lands in the Railway Belt;

And that Mining Machinery be admitted free of duty until such is manufactured in the Dominion.

To appoint efficient Immigration agents in all important localities.

To urge the Dominion Government to contribute to make Roads and Bridges through Dominion lands.

To urge immediate aid in any measure to prevent the overflowing of Dominion lands in this Province and to reclaim those subject to inundation.

Having been a resident of this District for over twenty years and knowing its requirements, I should be in a position to advocate your interests, and also my having had the honor to be your representative for the last four years in the Provincial Legislature would place me in a position of knowing something of Legislative routine.

I hope to visit each polling station during the canvass and more fully explain my views on the various topics of the day, which would be impossible to do in a short address.

I have the honor to be,

Gentlemen,

Your obedient servant,

dwmy13tc WM. H. LADNER.

TO THE ELECTORS

—OF—

New Westminster District.

GENTLEMEN:—As I have already announced, I beg to offer myself as a candidate for the seat in the Commons made vacant by the death of our late member, and I come before you as a supporter of the Government of Sir John Macdonald, reserving to myself, of course, the right to act independently should the action of the Government in any matter seem prejudical to our interests.

I would strongly urge immediate attention to the improvement of the River where required, for the protection of the rich agricultural lands of the District, and if elected, I shall at once proceed to Ottawa and leave no stone unturned to secure the immediate appointment of a competent engineer with a view to the prompt undertaking of this most important work.

As you are aware, the duty on certain kinds of mining machinery has been remitted in this Province as a special concession to British Columbia on account of the special conditions obtaining here. I would strongly urge the further application of this principle of special tariff arrangements, so as to relieve consumers of goods which must be imported, while preserving the protection of our agricultural and other interests.

The land laws of the Dominion, having been framed without close consideration of our requirements, are in many points unsuitable, for example in the conditions as to clearing. I would endeavor to secure immediate reform in this important matter.

Subsidies having been granted to railways in the various Provinces of the Dominion, I should urgently present the claims to similar assistance of railways within our own Province.

Should the City of New Westminster decide to build a bridge across the Fraser, I should use my best endeavors to obtain a substantial subsidy for the work, urging that an undertaking of this character should rank with canals and railways as one entitled to national aid.

The next census will undoubtedly show such an increase in the wealth and population of this District as will constitute an undeniable claim to increased representation in the Commons. That claim, if elected, I shall support to the utmost of my ability.

Although, with the growth of the District, the mail service has been improved and extended, it still lags far behind our requirements. I should give special attention to this part of your representative's work, feeling that it is one which is of vital importance.

I should urge the enactment of such fishery regulations, especially in the issuing of licences, as would, without any injustice to the canneries, the importance of which to the prosperity of the District all must recognize, fully protect the free fishermen, and encourage the settlement amongst us of the greatest possible number of that industrious and hardy class of men.

All enactments and regulations for the protection of white labor would receive my hearty support.

Continued work towards the improvement of the harbors of New Westminster and Vancouver, and the efficient lighting and buoying of the same, is a matter which would have my closest attention at all times.

In a word, I should constantly urge upon the Government the wisdom of a liberal policy in public works in this District, the vast resources of which make it certain that such a policy would be amply justified by results.

Trusting to have the opportunity of seeing every elector before polling day,

I am, Gentlemen,

Very sincerely yours,

dwmy14tc GORDON E. CORBOULD.

The Shuswap and Okanagon Railway Co.

NOTICE IS HEREBY GIVEN THAT A special general meeting of the shareholders of the Company will be held at the office of the Company, in the City of Victoria, in the Province of British Columbia, on SATURDAY, THE 31ST DAY OF MAY, 1890, for the purpose of considering a resolution to be submitted to the shareholders, and, if approved of by them, of passing such resolution for the issue of bonds of the Company for a sum not exceeding $25,000 per mile, in pursuance of the provisions of the Act of the Parliament of Canada incorporating the said Company, and for securing the bonds to be so issued by a mortgage deed with such powers, provisions, and stipulations as may be described in the said deed, and may be approved of by the shareholders; and also for the purpose of considering such other business as may be brought before such meeting of shareholders.

Dated at Victoria this 17th day of April, A. D 1890.

P. LARKIN,
President.
