Delta Railway Co.

Mr. Orr has placed before the provincial legislature a bill to incorporate the Delta Railway Company. The persons named as incorporators are T. E. Ladner and Thos. Mc Neely, of Ladners; R. Lipsett, J. Heywood, T. W. Patterson, and G. Riley, Victoria; Adam Innes, Langley Prairie; D. McRae, J. C. Henderson and S. Cawley, Chilliwhack; M. W. Miller and W. C. Campbell, Sumas. The capital stock is to be $1,000,000, in shares of $100 each. The object of this company is to construct and operate a railway from Ladners to Popcum, on the south side of the Fraser, a distance of about 80 miles. The route will lie through one of the finest agricultural districts in the province, and as the country is comparatively level the cost of construction will be small. Since the construction of the C. P. R. on the north side of the Fraser, those settlers on the south of the river have felt themselves placed at a disadvantage, especially during the season when river steamers do not run. Roads in this district are scarcely ever good in winter, and the means of communication are very uncertain. This railway would bring every settlement of any importance on the south side of the river into direct communication with New Westminster, and through it with all places where connection would be desirable. It would likewise greatly aid in the development of that region where the agricultural advantages are very great and the chief disadvantage is the lack of roads. The company asks the government to exempt the road from provincial and municipal taxation for five years after it has been completed—a request so modest that it will hardly be refused. The increased value of property along the line would produce more taxes than would be lost through this exemption. We hope the bill will pass, and that the road will be sucessfully floated. The head offices of the company are to be at Westminster.

A Railway Centre.

It is the opinion of the Portland *Oregonian* that one of the results of the enforcement of the inter-state bill lately adopted by the United States congress will be to divert much through business from American transcontinental lines to the Canadian Pacific Railway. This opinion is expressed on the authority of high railway officials. In view of this, the prospective railway connection between the C. P. R. and the American railway system on the sound becomes invested with new importance. The sound country can receive the full benefit of the C. P. R. service only by having connection by rail with the C. P. R., and the place where that connection can be best effected seems to be this city. There is very little doubt but the C. P. R. branch to this city will before long be extended to Vancouver. It has been found that the cost of operating the branch is very much larger than had been expected. Whenever the through train happens to be a little late, the special train on the branch has to make two trips, and as the number of passengers is comparatively small, the cost of the service has heretofore been greater than the revenue. But the service cannot be abandoned for two reasons: First, the company is bound by its agreement to operate the branch line forever, and, secondly, if the service were to be abandoned the people of this city would transfer most of their business to the Northern Pacific. It is plain, therefore, that the company's interest is to give up the operation of the Burrard Inlet extension, carry the New Westminster branch down to English Bay, and take all its traffic over this road. There is nothing at Port Moody to pay for the running of one train a week, and that part of the road could be closed without perceptible loss of business. But as a service to New Westminster is necessary, and must be kept up, it is plain that if this were made the main line almost the whole cost of operating the branch would be saved to the company without at all interfering with the efficiency of the road. A bill is now before the provincial legislature, asking a charter to build a railway from Ladners to Popcum. This road would come to the river opposite the city, and would bring Ladners, Langley, Chilliwhack, and Sumas into direct railway communication with New Westminster and with the C. P. R. at this point. Now, if the road connecting the railway systems of Puget Sound and British Columbia is likewise built, as we have every reason to believe it will, soon be, it will also connect with the C. P. R. at this city. There is no point better situated geographically for a railway centre, and with a railway from this city to Vancouver, to Ladners, to the sound, to Chilliwhack, and passing along the north side of the river to Popcum, there will be very little left for us to hope for in the way of railway communication. This would not only become the great railway centre of the province, but there would certainly spring up extensive workshops and manufactories which would give employment to hundreds of men and increase vastly our population and trade. These are no idle dreams; they are nothing more than what is very likely to take place before many more summers have been added to the historical record.

1873. **GRIP!** 1887.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1887.

THE AIM OF "GRIP" is to set forth, in in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1887. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $3 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

Delta Council.

The council met at the Delta town hall on Saturday, the 5th March. Present, a full board. A number of petitions were read and laid over. Mr. J. B. Burr was granted the use of the road limits adjoining the site of the saw-mill until required by council. A number of accounts were passed and ordered paid. Highway by-law passed its first and second reading. The clerk was instructed to communicate with Messrs. Pemberton and Swait and see if they had any objections to having a road gazetted along the inside of front ditch along Canoe Pass to the Gulf of Georgia. By-law to amend the clerk, assessor and collector by-law, 1880, passed its third reading. Revenue by-law, 1887, passed its third reading. By law for the return of the Delta municipal assessment roll, 1887, passed its third reading. Court of appeal by-law, 1887, passed its third reading. Councillor Sutherby was added to the committee to wait upon the government. Councillor Kittson was authorised to have the hill in ward 5 repaired. On motion Friday, the 25th inst., was appointed for the road committee to meet and see what roads were necessary to have repaired. Council then adjourned.

Quesnelle Quartz.

QUESNELLE, Mar. 8.—At a general meeting of the Quesnelle Quartz Mining Co., held last evening, 65 shareholders, representing 250,360 of the 335,262 live shares, were present. President Reid made a very favorable report, and exhibited several specimens of quartz taken from the bottom of the shaft, which were pronounced to be very rich. The secretary's report was also very satisfactory. The manager's report was a detailed statement showing that the mine was in a prosperous condition. The shareholders unanimously accepted the reports. Jas. Reed, R. J. Skinner, Jas. Mason, J. F. Hawks, W. A. Johnson, Geo. G. Gilmore and Wm. Morrison were elected directors.

Russia's Designs.

NEW YORK, Feb. 28.—The *Star's* London cablegram says: The Russian ambassador in London has of late abstained from visiting Lord Salisbury, and the diplomatic relations of the two countries are daily becoming more embarrassed. That the government is looking for Russian irruptions into Afghanistan is shown by the fact that Lord Dufferin is hurrying British troops to the frontier to help the ameer. It is understood that the government has resolved to adhere to the Austrian alliance and to support that country at sea in case of war with Russia. At the war office and admiralty the opinion grows hourly that Russia means operations against Bulgaria and Afghanistan, and that Austria and England will meet her on those fields.

A Prayer for Reporters.

CHICAGO, Feb. 28.—The *Times'* St. Paul special of Feb. 27th says: In the senate yesterday the chaplain startled that august body by closing his prayer with a word for the newspaper men. He said: "And now, dear lord, bless the reporters, whose nimble pens catch our every word almost before it is uttered. Like thyself, they are omnipresent and almost omnipotent. If we take the wings of the morning and fly to the uttermost parts of the earth, they are there. They meet us in the jungles of America, they waylay us in the solitary canyons of Colorado, and when, at length, we find the latitude of the magnetic pole, behold they are there! May their light and goodness be equal to their power, and when the general assembly convenes, let not the reporters be excluded. Amen."

South Africa.

An English exchange says: Since there are many investors in this country interested in the gold fields of South Africa, a further note upon the gold prospects may be of value. It is reported that the Republic mine of Barberton has crushed 153 tons which yielded 187 ounces retorted gold. The Golden Quarry Deep Level reports good finds, shares selling at $8. The Sheba Deep Level has been selling at £3 10s. After all that has been said there are more hopeful reports of the Knysna fields. The *Cape Times* hears that on the Bendigo claims an extensive reef with visible gold has been struck 15 feet down, also that another rich reef has been found by Capt. Hoffman about a mile away from the other. The high price (£1,000) paid for the Millwood estate suggests that the purchasers are satisfied of the existence of paying gold in that area. A lump of retorted gold weighing 61 ounces, from Witwatersrand, was on view in Cape Town. The gold exported from Natal during 1886 was valued at £112,583. Private letters received in Maritzburg dispel the idea of their being payable gold fields in central Zululand. The Temperance reef of the Swellendam company was showing well. Samples with visible gold have been found, and in every pan of loose quartz washed one or two grains of gold have been found. The shares were in great demand.

The nose of a dog is so acute that it can follow its master's trail almost anywhere, yet experiments show that sheets of tissue paper placed on the ground to be walked over and afterward removed effectually prevent any trace of the scent from lying, though strong perfumes sprinkled along the track will not baffle the dog.

One trial of Mother Greaves' Worm Exterminator will convince you that it has no equal as a worm medicine. Buy a bottle, and see if it does not please you.

The West Shore

FREE

For the balance of 1886, including the mammoth holiday number, to all who subscribe now for 1887.

With the January issue THE WEST SHORE will begin its twelfth year. Every number contains original illustrations of scenery, towns and industries in the Pacific Northwest, equaling in excellence the best productions of Eastern magazines. The contributed articles, general literature and stories are entertaining and carefully edited, making the magazine a chaste family visitor. The comments on events of interest to this region and the large amount of information concerning our various resources and the progress of development given in every number render it extremely valuable. No family can afford to do without it, and every one financially interested in the Pacific Northwest or desirous of learning its resources will find it invaluable.

If the subscription price ($2 per year) is sent in now you will be entered for 1887, and the remainder of 1886 will be sent as a premium.

The Week:

A Canadian Journal of Politics, Society and Literature.

PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practically impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs continuously and directly, as required to insure in return their healthy action and original vigour. *It is comfortable to the patient and pleasant in its effects, and cures when nothing else can.* The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver:

Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

THE BRITISH COLUMBIAN Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is consistent with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

An old farm house with meadows wide,
And sweet with clover on each side;
A bright-eyed boy who looks from out
The door with woodbine wreathed about,
And wishes his one thought all day:
"Oh, if I could but fly away
From this dull spot, the world to see,
How happy, happy, happy,
How happy I should be."

Amid the city's contstant din,
A man who round the world has been,
Who, mid the tumult and the throng,
Is thinking, thinking all day long:
"Oh, could I only tread once more
The field path to the farm-house door,
The old green meadow could I see,
How happy, happy, happy,
How happy I should be."

There is a certain gentleman snowbound in the mountains who is very anxious to reach the coast. He is ready to propose to a young lady in Victoria next week. The chances are he won't.

For the past two days the temperature has been quite springlike, and everything is growing. Snowdrops are quite plentiful in the gardens, and the leaves of the spiræa vernalis will be out in a few days.

The recent heavy rains on the Island caused many washouts on the E. & N. R.R. on Monday morning the Goldstream was completely washed away and provisions were sent from Nanaimo to Duncans for the passengers during the delay.

At a meeting of the Vancouver council the other night it was stated that the special policemen from Victoria would probably be withdrawn in a day or two. The council expressed itself willing to provide additional city police if necessary to keep the peace.

Applications were made on Tuesday by Mr. Drake, Q. C., and Mr. Corbould, on behalf of the C. P. R. Co., for immediate possession of the land for the purpose of proceeding with the construction of the Coal Harbor branch, and an order was made in fifteen cases upon that company depositing a sum in each case in the Bank of B. C. in accordance with the act. Mr. Pooley represented most of the opposing parties.

SPECIAL CHARTER.—Coun. Higgins, of Victoria, at the last meeting of the city council, moved that the city be placed under a special charter instead of under the municipal act.

AWARD OF MERIT.—Mr. Colin McDonald, of Nanaimo, who sent a rifle of his own manufacture to the Indian and Colonial exhibition, received a few days ago a handsomely lithographed diploma of merit.

CHINESE GOURMANDS.—Some days ago a dead cow was found near Capt. Insley's fence, lying on the street. The police instituted a search for the owner without avail, and yesterday a number of Chinese gathered around the carcass and cut it up into small pieces and carried it off.

A PECULIAR DOG.—Deputy Sheriff Langley, of Victoria, is the possessor of a dog which has a peculiar fondness for nuts, especially almonds. He takes the nuts in his mouth, cracks the shell and extracts the kernels as clean as a monkey, and has become so expert at the practice that he breaks the soft shell of a peanut without in the least damaging the nut inside.

SPINKS v. C. P. N. Co.—On Tuesday Justice McCreight disposed of this case in Vancouver by allowing judgment for the defendant, with costs, but gave the plaintiff tne right to appeal to the supreme court. The plaintiff brought suit for damages to goods shipped from Victoria to Vancouver. The question now raised is whether the company, as common carriers, had the right to contract themselves out of their liability for damages to goods when they made an agreement to ship the same.

MARRIED TO A CHINAMAN.—A white woman, aged about 25, is now a resident of a Chinese house on Fisguard street, in Victoria. Her husband is a Chinaman, and the couple were legally married at Vancouver, where the almond-eyed bridegroom was in business as a laundryman. The hostile feeling against the Chinese at that city, however, caused him to give up his business at the terminal city, and the couple removed to Victoria, where they now reside. The bride is said to have adopted all the national customs of her husband.

THE PLANETS IN MARCH.—Mercury is evening star until the 21st, and after that becomes morning star. On the 5th he was under the most favorable conditions that will occur for being seen with the naked eye. He must be looked for in the west, about three-quarters of an hour after sunset, about 9 degrees northeast from Venus. Uranus is morning star until the last day of the month. Venus is evening star throughout the month. Jupiter is morning star, and is in a fine position for observation. He rose on the 1st a few minutes after 10 in the evening. Neptune and Mars are evening stars. Vesta, the largest of the asteroids, is now visible to the naked eye. She may be found shining as a star of the sixth magnitude about 10 degrees north of Jupiter.

THE POSTAL TELEGRAPH LINE.—The Postal Telegraph service of Messrs. Mackay, Bennett and others, in connection with the Canadian Pacific line and that of the Baltimore and Ohio, is now complete from ocean to ocean in America and in Europe. Between Portland and all points east the service has been in force for some time. To San Francisco regular business is not yet solicited. By the 15th inst. it is expected the company will be in a position to transact business from that city. The *Times* learns that the New Westminster office is likely to become one of the most important in the west outside of Chicago. The staff will embrace a force of 12 or 15 men, well up in their work, rapid transmitters and receivers. The office will be open night and day without interruption. The day and night forces will be put on in different relays. To Portland and San Francisco there are two direct wires; a single one to Seattle; one duplex instrument to Winnipeg, and one single line; one direct wire to Kamloops and one also to Victoria. The instruments and all apparatus used are of the latest and most approved style. The whole service in British possessions west of Donald is under the management of Supt. James Wilson, whose headquarters will be New Westminster, as in the past. There will be a keen tussle for business between the W. U. line and the postal service. Rates already, to competing points, are greatly reduced—a matter of advantage to the public requiring to use the wires.—*Victoria Times.*

The Bishop's Baton.

Many of our readers know that the Choral Union, which has frequently delighted the people of this city with its musical entertainments, was organized by the Rt. Rev. Bishop Sillitoe, who was its conductor. Before the bishop left for England last fall, the lady members of the union gave Mrs. Sillitoe a sum of money with which they asked her to purchase a baton and present it to the bishop on their behalf. The commission has been executed, and a few days ago Miss Woods, of this city, received from the bishop the following letter, dated at London, Feb. 1st:

DEAR MISS WOODS: Will you accept my most hearty acknowledgment of the kind thoughtfulness of the Choral Union ladies. The baton is a most beautful one, as I am sure you will all think. I have made many inquiries among musical people for the best choral music, and I will bring out with me a good collection for next season's work. Please thank the members for me, and tell them that I hope to be wielding tha baton before them by October next at the latest. *With many kindest regards, believe me* most sincerely yours,

A. W. NEW WESTMINSTER.

The baton is of ivory, with silver mountings. At the top is the bishop's mitre and coat of arms, and on the side a plate is let in with the following inscription: "Presented to the Bishop of New Westminster by the ladies of the Choral Union." It was a most appropriate gift, and we are sure all members of the union will be glad to know that it is highly appreciated by the bishop.

The Cattle of British Columbia

THE REPORTS OF THEIR LOSSES EXAGGERATED.

A prominent cattle-man from the interior to-day informed us that the reports that were circulated from time, to time, concerning the loss of cattle in the ranching country, were greatly exaggerated. As far as he was aware the loss throughout the whole country had not exceeded 10 per cent. and unless March and the first portion of April proved an unexceptionally severe season, and he had no reason to believe it would, the loss was already at an end. The heaviest losses have occurred in the Nicola district, where some of the ranchers will probably lose about a quarter of their whole herd. One rancher in particular in this district, named Morris, exhausted his stock of fodder and accordingly lost almost the half of his herd. This man would probably be one of the heaviest losers in the province. The Douglas Cattle Co., of this district, who have at present 15,000 cattle and are the most extensive herders in the province, have lost 1500, being 10 per cent. of their stock. The reason of these losses is not the intense cold as has been reported, but the fact that during last summer a great drought prevailed and the grass being burnt up the ranchers were obliged to feed their cattle during the whole winter season, whereas in former years they were accustomed to let them run on the ranges. Naturally the cattle-men were unprepared for this change and were not able to obtain hay for their stock. In the Similkameen district very few, if any, cattle have perished. The cattle-men here are generally farmers as well, and have been obliged to feed their cattle every year. In the

OKANAGAN DISTRICT

the losses would not exceed 8 per cent. The Chilcotin district would suffer very heavily but not as much so as Nicola. The weather here has been the coldest known in seven years when about one-third of the whole number of cattle perished. Estimating the number of cattle in this region at 20,000, not more than 3000 have perished. T. A. Harper, who herds about 6000 in this district has lost 600 or about 10 per cent. In Nicola and Chilcotin the greatest numbers have perished. The snow has now left the ground in these districts and the ranchers are able to turn their stock out once more. It is thought that the unusual amount of snow that has fallen during the winter will be the means of developing a good growth of grass during the summer.

IN THE THOMPSON RIVER RUNS

the loss would not exceed 5 per cent. The principal ranchers here are John Wilson, R. W. J. Roper, Victor Gillaume, L. Campbell, and Ducks. Each of these men probably herds from 2,000 to 4,000 cattle, but none of them suffered any loss to speak of, each of them having been well prepared for the winter with hay. Only the less extensive ranchers will suffer. A few horses perished in this region, on the high table lands. No horses died in Nicola or Chilcotin. Summing up, he said this had been a very severe winter for the ranchers, especially for those who carry the business on on a small scale. Many of the Indians in the hills had had their bands of horses frozen to death. He did not anticipate any further danger of cold or famine, and the chances were that the coming summer would be so favorable for stockmen as to more than repay them for their winter privations.

THE BEST WAY TO REPAIR STRENGTH and increase the bodily substance is to invigorate the stomach and improve the circulation with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Simultaneously with the disappearance of indigestion it relieves that morbid despondency, and the nervousness which are as much the product of dyspepsia as the weakness of the stomach and loss of vigor and flesh which proceed from it; as a blood purifier it has no equal.

"O, of course; why, that's easy."

"—A parachute, you know."

"A parachute?"

"Why, yes; what did you suppose he had?"

The Bell Telephone Co. has filed notice of an important motion in the United States' Circuit Court at Boston regarding the government's suits to break its patents. It represents that voluminous records of its litigation are now before the Supreme Court on appeal, and that it would be indecorous and contrary to the usages of courts of entry to retry any questions pending before the Supreme Court.

Jaqesh Snow, Gunning Cove, N. S., writes: "I was completely prostrated with the ashma, but hearing of Dr. Thomas' Eclectric Oil, I procured a bottle, and it done so much good that I got another, and before it was used, I was well. My son was cured of a bad cold by the use of half a bottle. It goes like wild-fire, and makes cures wherever it is used.

Some newspaper man, who has been there, says: "Newspaper editing is a very funny amusement If you give a man a puff he never sees it; but let one line against him appear and he sees it before the paper is off the press and while he would not have time to stop on the street and say 'thank you' he has time to run all over town and denounce the editor who seeks to print the news."

Mr. R. A. Harrison, Chemist and druggist, Dunnville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation— such cases having come under my personal observation."
