ELECTION CARD.

To the Electors of New Westminster City and District.

GENTLEMEN:—At the urgent request of a large number of the Electors of the above Districts, I have consented to become a Candidate, and request your support and patronage.

My political banner is uplifted, and on it will be seen, printed in gold letters, "Straw Hats—good coverings for massive craniums; Men's Fancy Flannel Shirts; Balbriggan Underclothing; Summer Coats and Vests; Linen Dusters; Pique and Fancy Vests; White and Black Plug Hats;" all of which are very suitable wear for the present political campaign, which is liable to be very warm and close. (An endless variety of Men's and Boys' Suits, Felt Hats, etc.)

Electors, rally around this standard, and down with monopolists and—high prices.

I am perfectly sure I can give you better value for your money than any other candidate in the field.

Yours respectfully,

J. E. PHILLIPS,

BRAVE CHILLIWACK.

The Government's Attempt to Suppress Free Speech Recoils on Its Own Head.

Hon. Mr. Robson Objects to Mr. Kitchen Speaking and Attempts to Stop Him.

Indignant Electors Proclaim Their Disgust and Show They are Not Slaves to Party.

CHILLIWHACK, June 11.—The name of Chilliwhack should be eternally inscribed on the banners of freedom and fame. Last night the honest electors rose above party, threw off the shackles that bound them to one man power, and rose in the glory of their manhood for freedom's cause, liberty of speech and fair play. The thing was done spontaneously, without premeditation, and came from the hearts of two hundred men inspired with that glorious attribute of all Britishers—the love of fair play. Westminster and Vancouver were treated in a similar way, but it remained for Chilliwhack to place on record a more determined and pointed mark of dissent than any of them.

The meeting took place in Henderson's Hall, commencing a few minutes before seven o'clock. It was understood among the Government party before it commenced that the Hon. John Robson would occupy the most of the time until 8:30 o'clock, when the Oddfellows were to have the hall to hold their regular meeting. This, of course, would shut off all reply. It was proposed to have the meeting in the agricultural building, but that would not suit their purposes, and the original plan was not carried out. At least 200 electors were present, and about a dozen ladies.

Mr. A. C. Wells was elected to the chair, and after bespeaking a patient hearing, introduced the orator of the evening.

Hon. Mr. Robson, on coming forward, was received quietly. He first returned thanks to the ladies for their attendance, and made the remarks concerning the disfranchisement of women which he has repeated at all his meetings which have been favored with the presence of the fair sex. He had come out on the requisition of a large number of the electors of Chilliwack, but he understood that a number signed the paper for the purpose of getting him out to defeat him—kick him out, in fact. If any of the men were present he would like to have them stand up and acknowledge to their guilt of such an unfair and unmanly action.

Mr. McBride rose and said he was one of them (sensation), and he was not ashamed of what he had done. Mr. Robson failed in so many of his promises that it was time he had a lesson.

Mr. Robson—You ought to be ashamed of acknowledging it. Perhaps there are some others here who have signed it; if so, let them stand up. (After a pause.) Well, I am glad there is only one black sheep in the flock.

Mr. McGee rose and said he had not seen the paper, but would have signed it also to defeat him had he the opportunity, making another "black sheep." His reason was because Mr. Robson had promised to lay aside the proceeds from the sale of 45,000 acres of Sumas lands, for reclamation purposes, but failed to keep his word.

Mr. Robson denied that he had ever given the promise, for the reason that he was not in a position to do so. No minister of the Crown could make such a promise. He had said he would endeavor to get back the land from the Dominion Government and put the proceeds to reclamation purposes. That was it. (A voice, No.) He sincerely hoped that in the near future the Government would be able to put forward a large and comprehensive scheme for reclaiming the overflowed lands—not a $45,000 scheme, but one involving a much larger sum. (Applause.) The policy of the Government would be to meet any practicable and feasible scheme to advance any reclamation project, by loaning money to municipalities at a low rate of interest. He had given orders to have the trunk road between Chilliwack and Popcum put in good condition, and to build a bridge across Vedder Creek.

An elector—Election dodges again.

Mr. Calhoun—The road round Little Mountain is a disgrace to any country.

Mr. Robson—Well, we're going to mend it. It is hard and expensive work making roads in this country. They cannot all be done at once. Continuing, Hon. Mr. Robson said he wished to refer to a paragraph in THE COLUMBIAN relating to his speech at Brownsville, which made him say that even if elected himself he would be forced to say "Good-bye" unless a "solid" Government ticket was elected with him. What he said was: That unless two colleagues, not straight Government men, were sent to assist him, he would have to say "Good-bye." (Cries of "Cariboo.") It was idle to send down two men to oppose him in his work for the District. (Applause). Mr. Robson then turned on the *News-Advertiser* and Mr. Cotton of Vancouver, and gave them a raking down for something Mr. Cotton had said. The subject was new to the audience and his remarks fell very flat. He then touched on the Redistribution measure and repeated the usual arguments to show that the Government was pledged. During the course of his remarks on this question THE COLUMBIAN came in for another onslaught. He said the question put by Mr. Maxwell at Langley a few days ago to the candidates, asking their opinion of the sincerity of the Government, was ridiculous and wanted to know who ever heard of such a question. He appealed to the audience to support the Government until it went back on their pledges, and then turn it out if it did not redeem them. He did not want slavish supporters, but Independent men who would support him. He then called attention to an article in THE COLUMBIAN entitled "Vote on the Winning Side," and ridiculed the idea of that paper having any knowledge on the subject of how the elections would go. He claimed to have better information on the subject than any one else, and said 22 Government supporters would be returned against 11 Independents and Oppositionists. He then tried to explain that no man could be an Independent, but was bound to become an out and out supporter of either of the parties. Mr. Robson went into figures to show how much more the present Government had done for the country than had the Beaven Government, and concluded by asking re-election. He was only human; he had done his best for the district, but was hampered by having two colleagues in opposition to him.

Mr. Kitchen asked Mr. Robson if one of his colleagues, Mr. Ladner, had not voted with the Government on all good measures brought before the House.

Mr. Robson admitted that Mr. Ladner had done so, but remarked that Mr. Ladner had latterly been leaning toward the Government side.

Mr. McGillivray then asked Hon. Mr. Robson a number of questions on the redistribution measure, and on the sincerity of the Government's pledge, all of which the honorable gentleman attempted to fence off, but with little satisfaction to the audience. Mr. McGillivray then pointed out that even the Government papers on the Island did not believe that there would be a redistribution measure giving the Mainland the preponderence of votes justly due to it.

Hon. Mr. Robson rose and said angrily: "I don't understand why the Government should be carped at in this manner."

Mr. Kitchen asked if Mr. Robson had anything to prove that he had ever intended keeping his promise regarding the 45,000 acres.

Mr. Robson declared this question was all nonsense, as he had never made any promise.

Mr. Kitchen then asked Mr. Robson on what conditions he had got all the land in the railway belt back from the Dominion Government.

Mr. Robson would give no answer to the question, saying it would take too long, and the Oddfellows were waiting for the hall.

Mr. Kitchen tried to force a direct answer, but Mr. Robson evaded the question and would not reply.

Mr. Kitchen then took the platform and was received with much enthusiasm. He came as an Independent, and as it seemed Mr. Robson wanted Independents he would rely on having the support of any of the eight candidates in the field in any just measure. A hearty support to any good measure he would always give, but never a slavish following to any party. (Great applause). But it looked as if Mr. Robson was afraid of opposition. (Applause). Mr. Robson had denied promising the proceeds of the 45,000 acres for reclamation purposes. If the people of Chilliwack were satisfied with that denial he would say no more on the question (cries of "No, no."). Mr. Henderson had boasted that he had information as to the Government's plans on certain road work, but the Municipal Council, the people's representatives, had been able to get no satisfaction from the Government on these matters. He considered the Vedder Creek bridge purely an election dodge (great applause). Men were going all over the District laying out plans for roads and bridges just before the election to catch votes (cries of "Election dodges," "Cariboo," etc.). Mr. Robson had endeavored to bring Mr. Cotton, of Vancouver, into ridicule before the people, but he thought the Chilliwack men wanted to hear nothing of it; it had nothing to do with the case (cries of "Hear, hear"). He had no confidence in the Government's pledge, because they had given him no cause to believe it, owing to the many promises made and broken in Chilliwack by the Government [applause]. Mr. Robson said there could be no third party, but a strong third party flourished in the British House of Commons.

An Elector—Sam Greer is the third party. (Great laughter).

At this point Mr. Robson rose and objected to Mr. Kitchen making a speech. He claimed he should only be allowed to ask questions. The hall was wanted by the Oddfellows.

Hardly had these words passed Mr. Robson's lips than the curtain on the stage was dropped, putting a sudden end to the meeting. In an instant nearly the whole audience rose to its feet, every face flushed with indignation at the barefaced attempt to forcibly prevent free speech. Cheer after cheer went up for Mr. Kitchen, and the large room echoed with cries of "Liberty," "Free Speech," "Cariboo," "Police," "Coward," "Kitchen," etc. The scene was indescribable. It was the spontaneous expression of two hundred freemen in the cause of liberty of speech and fair play. Never was such a scene witnessed in Chilliwhack, and highly do the people of that place deserve to be honored for their noble stand. Men who were opposed to Mr. Kitchen only five minutes before rushed forward and promised him their warmest support, and even old time enemies came forward and were reconciled.

Outside the hall excited groups gathered and discussed the matter, and on all sides the attempt to put down Mr. Kitchen was decried. Mr. Bradshawe, one of the Oddfellows (on whose shoulders the effort to place the blame was made) tore off his official collar and promised never to put it on again until the stigma was removed. Even the Government's warmest supporters acknowledged that the imprudent opposition to Mr. Kitchen's speaking had done more to injure their cause than all the promises made and broken in the last four years. It was a complete Government rout, and a glorious victory for Mr. Kitchen and his cause. The people of Chilliwack proved themselves worthy of the name of Freemen. Well done Chilliwack!

VICTORIA NEWS.

A Notorious Smuggling Craft Seized by Customs Authorities --- The Contraband Business Very Brisk at the Capital.

(*From Our Own Correspondent.*)

VICTORIA, June 11.—The notorious smuggling craft, "North Star," was seized by Inspector Young upon several charges of infringements of the customs laws. Among the charges are, carrying passengers without license, returning to port without going to port she cleared for and bringing contraband goods into Canada. It is said she has been doing a big business carrying Chinese and opium to the American side and then bringing return cargoes of goods to this port. Smuggling is very active at present and her seizure will be a bad blow to the contrabandists. She is owned by Frederick Jones and Angel Koffee, her registered tonnage is 5½ tons gross, 8 tons net. Her length is 40 feet, beam 8 feet; depth of hold, 3 feet, 9 inches. She is a fast sailer and well adapted for her business. Another sailing sloop left for the American side last night, loaded down with Chinese and opium.

A logger named A. Morrison, working at Helgesen's logging camp, in the northern part of the Province, was gored by an ox the other day. His abdomen was ripped open by the angry animal, and he is not expected to recover.

The ss. Parthia, from China, passed up at 3 o'clock this morning for Vancouver.

A large and complete map of the city is being made, and will cover fifteen square miles.

The Tacoma and Portland League baseball teams are to play a game at the Caledonia grounds this afternoon. The weather this morning was showery and unfavorable.

OTTAWA NOTES.

OTTAWA, June 9.—The Minister of Finance to-day authorized the High Commissioner to advertise for tenders in England for a fast Atlantic service, the minimum average speed to be eighteen knots per hour from port to port.

Dubois, the Quebec murderer, will swing.

J. E. Miller, excise officer in the Victoria division, has been appointed collector of inland revenue for the Vancouver division.

Interest centres in the Quebec Provincial elections. Hon. Mr. Chapleau and Sir Adolphe Caron are giving a hand, unlike the Ontario Federal ministers during the recent election. Two members of Parliament, Langelier and Ste. Marie, have resigned to contest seats in the Quebec Legislature.

Cathedral Robbed by Burglars for Sake of the Money in the Collection Boxes.

A Whole Family in London, England, Reduced to Destitution, Commit Suicide.

A Man in Boston Leases His Wife to a Friend Aged 77 for One Hundred Dollars.

Sacrilege.

LONDON, June 10.—Canterbury cathedral was robbed by burglars last night; the collection boxes were forced open and a considerable sum of money was taken.

Unusual Candor.

VIENNA, June 10.—Emperor Francis Joseph, while conversing with the leaders of the old Greek and German parties to-day, disclosed that arrangements to reconcile the existing difference were the subject of the conference and that a satisfactory solution would certainly be affected. This significant departure of the emperor from his customary reserve on all matters appertaining to state policy is expected to exercise a decisive influence in the settlement of the question at issue.

Equal Justice to All.

LONDON, June 10.—A deputation of brewers to-day waited upon Joseph Chamberlain to solicit his support for the licensing and compensation claims of the Publicans' Bill. Chamberlain informed the delegates that in his opinion brewers should be remunerated if their business is destroyed by law. They were, he said, as much entitled to justice when their rights were involved as those engaged in any other business. The deputation left Chamberlain's presence expressing complete satisfaction with his endorsement of their position.

Rashly Importunate.

LONDON, June 10.—At Halloway, a northern suburb of London, a shocking tragedy has just come to light. A family consisting of husband, wife and a boy of 8 years of age, agreed to put an end to their existence, as they had been out of work for some time. A dose of strychnine was given to the child and he died in fearful agony. The father and mother then cut their throats, but in the wrong place to cause death. They were discovered by neighbors and will probably recover.

The Deadly Moving Train.

NEW YORK, June 10.—Ex-Alderman James Peterson, one of the boodle board of 1884, was fatally injured last night by being run over by the 6:30 p.m. express from Jersey City, on the Erie railroad. Since the spring of 1886 Peterson has been out on bail and has been living with his family at Paterson, N.J. Last night he got on the wrong train and seeing his mistake attempted to jump on a moving train for Paterson, when he fell beneath the wheels with above result.

The Aquatic Champions.

BOSTON, Mass., June 10.—On June 27th, at the Point of Pines, there is likely to be a three-cornered single scull race between Hanlan, Teemer and Gaudaur. Manager Charles A. Thayer, of the Pines, to-day announced his willingness to offer a prize of $1,000 for those three oarsmen to contest for if they so desire, to let the winner take all. The distance proposed by Thayer is three miles with three turns, and the race must be rowed on its merits.

La Bourgogne Breaks Down.

NEW YORK, June 10.—Pilot David Nicollay, who arrived here this morning on board the North German Lloyd s. s. Werra, reports that Sunday morning in latitude 40.43, long. 69, he spoke the French steamer La Bourgogne which had been lying to since Saturday midnight. The captain of the French liner, when spoken to by Captain Nicollay, said he did not need assistance and he was making the necessary repairs to his vessel and would proceed on his voyage to Havre. The tug Pulver which went out yesterday to find the steamer, returned this morning after a fruitless search for her.

Great Expectations.

WASHINGTON, June 10.—President Scott, of the Union Iron Works, of San Francisco, who is in the city, is very enthusiastic about the new steel cruiser, San Francisco, which is just being finished at the Union Iron Works. He expects her to be superior in speed to any cruiser yet built in America, and he would not be surprised if, at her trial, she should surpass the Spanish cruiser, Renia Regente, or the still faster Italian vessel, the Piemente.

The Curious Case of Cowles.

MONTREAL, June 10.—Mrs. Cowles appeared in court this morning accompanied by her daughter Florence. A letter was produced which Cowles wrote renouncing all claims to the child and an order from him to the nuns authorizing them to deliver her up. This was regarded as concluding the case, and Mrs. Cowles was given the custody of her daughter. Cowles' condition had not improved to-day and the wound may result fatally. A commission of physicians was appointed to examine Cowles to-morrow to ascertain if he is in a fit condition to come into court. If so the case of Hale will at once go to the grand jury, and if a bill be found against him he will be tried at once. None of the party will leave Canada till everything is finally settled. Judge Ingersoll is at present engaged with the Canadian counsel making out a plan of defense for Hale. It will be on the plea of self-defence. It is known Cowles had a revolver in his possession when brought to the hospital and there was some injury to his shoulder, as if the struggle had taken place in the carriage.

Mad for Money.

YOUNGSTOWN, Ohio, June 11.—Mrs. John Valentine has been defeated in her suit to recover $11,000, life insurance held by her husband, who died a year ago. The defense was that Valentine, who was a commercial traveller, committed suicide by shooting himself in the head. To prove that he died from other causes, the wife had her husband's body exhumed and the head cut off and brought into court, where it rested on her counsel's desk.

What is Society Coming To?

LOWELL, Mass., June 11.—Joseph Defoy and Narcisse Roy were so friendly that not long ago Defoy proposed to lease his wife to Roy for three years for $100. Shortly afterwards Defoy went to Canada. Roy looked upon the matter as a joke, until recently he was arrested and charged with assault on Mrs. Defoy. He offered to pay $25 to settle, but Defoy refused. Roy's son paid $100 to hush the matter up. At the trial Roy was discharged, the judge refusing to believe the evidence of the Defoys. Roy is seventy-seven years old.

CORRESPONDENCE.

POLITICAL FREAKS.

EDITOR COLUMBIAN—*Sir*, It is getting to be very evident that the Hon. John Robson is in a very tight place. His mouthpiece *Truth* is making desperate efforts to have Henderson elected, and Henderson from all that is known of him, by his own chameleon political tricks, would just be the sort of a man to suit the purposes of such a Government as B. C. has been humbugged with for some time. If all that has been said and done by the present party in power, and its fawning favorites and toadies throughout the District, were written in a book it would be very interesting.

A good story is told of one of the candidates who would no doubt support any party for the honor of the thing. He called at a farm house at Chilliwhack, and enquired of the good lady of the house where the husband was. She replied that he was attending to his crops, and enquired the visitor's business. He said he had no particular business, but was in the habit of killing two birds with one stone. She told him that such a man ought to be in the museum as a curiosity, and to be gone at once.

If the good people of this District would only elect Henderson and this other candidate who kills "two birds with one stone" the Government would be obliged to add another wing to the museum at James Bay for their safe keeping, and when their votes were needed the sergeant-at-arms could lead them out for that purpose.

Hon. John Robson has told the electors of this District that all he wants is Voting Machines, he can pull the wires and the puppets can dance. He has intimated that if the people give him such obedient tools he will help to build the Bridge, so he will, and so he will.

ANOTHER VOTER.

THE DISTRICT ELECTION.

EDITOR COLUMBIAN—*Sir*—The electors of this district must bear in mind that the present Government—or Mr. Robson—has been in power for the last eight years, and so far as this district is concerned has not conferred a single benefit upon it that would not have been received under any other Government. That, on the contrary, he (Mr. Robson) has made many promises to concede assistance that we had every right to demand, and that such promises have been broken. It is now our bounden duty, to ourselves and our neighbors, to vote for new men who are in no wise bound to Mr. Robson, and who will, while acting for the good of the Province generally, maintain the interests of this district in particular.

These men, by a happy coincidence, we have found in Mr. Punch, from Surrey, Mr. Sword, from Matsqui, and Mr. Kitchen, from Chilliwack, three good, honest and reliable men, unambitious for office and above the possibility of being bribed.

Any voter in the district who cannot vote for two, if not the whole of three men, must be influenced by corruption, favoritism, or paltry self interest. It cannot be pretended that in voting against them, he is only exercising his inalienable right of a free citizen; because, without prejudice, he could not find better representatives than the three candidates above named, and to vote against them will be to inflict a real injury upon the district and delay improvements indefinitely.

But the injury will extend still further, inasmuch as the return of Independent members, sufficient to control the Government, will relieve the whole Province from a terrible nightmare that has weighed upon its energy for the last eight years. It has caused this Province to be given over to monopolies, its lands, mines and timber to capitalists, its railway privileges to speculators, and its best interests overlooked from negligence or design.

It is the duty, therefore, of every elector in this district to record his vote for Messrs. Punch, Sword and Kitchen, in order to protect his own interest and that of every citizen of this Province.

Large Brained Women.

LONDON, June 9.—A young woman has carried off the highest honors at the June examination of the Cambridge university. The winner of the distinction is Miss Phillip Fawcett, who is bracketed as the superior of the male senior wrangler in the mathematical tripod. She is a daughter of the late Prof. Fawcett. Two other young women, Miss Field and Miss Leaure, were also among the wranglers.

WEDNESDAY EVENING, JUNE 11, 1890.

INDIRECT BUT ESSENTIAL BRIBERY.

THE infamous enginery of promises and threats is being worked for all it is worth in the Provincial elections in this City and District, at least, by the Government, as represented by the Premier, and by the Government hirelings and hangers-on. In this City the most strenuous efforts are being used to defeat the People's candidate. The air is fairly reeking with promises and pledges, of a private as well as a public nature, and just behind this tissue of emergency falsehoods rumbles ever and anon the stage thunder of the Governmental interdict, as a warning to those who will not receive the promises to beware of the vengeance.

Elect the man, or the men, as the case may be, says the Premier (who has been amongst us for the last week or so) to the electors, whom I wish you to, and all will be well; you shall be favored individually and collectively; the fattest things that I can get for you, you shall have; those things which you should have had long ago shall be yours very shortly; you shall have your rights, and more too.

But (and the mock thunders belch and rattle behind the gauze), refuse to hear and heed me; fail to elect the man or men whom I point out—whom I can *work* with; return an Independent man, or Independent men—be they ever so superior in ability and integrity to my particular creatures—and expect nothing from me, individually or collectively, but political excommunication; your representatives shall be put in a draughty corner of the House; they shall not be admitted into the sacred (?) caucus; your appropriations shall be cut of; your public works shall languish; you shall by no means get your rights, but these shall be taken from you and heaped upon the "faithful."

The above is no exaggeration of the tactics that are being used in a desperate but vain endeavor to elect the "straight" Government candidate in this city, and in the District the same unblushing methods are pursued, but perhaps more glaringly, as one instance will suffice to show. It is well known that for the last few weeks Government road inspectors have been scouring the District, ascertaining the wants and desires of the different settlements with respect to roads, bridges, etc., with a view to having these met right away, so as to put the electors in good humor with the Administration on the eve of the elections. Of course, all this fluffing of the maternal feathers will quiet down after polling day, and the cheated chicks will pipe in vain out in the cold and rain, but the preliminary clucking, it is doubtless expected, will have had the desired effect. In the Matsqui settlement, we are informed on undoubted authority, the Government "cappers" have, within the last day or two, put a large number of settlers to work, by day labor, on public roads in that vicinity. Matsqui is understood to be a very "shaky" section for the Government, and so this shameless method of enslaving the voters is resorted to just before election day.

Such infamous tactics are a direct insult to the electorate as well as a terrible commentary on the state of the public morality of the country. We trust that, for the credit of the electorate and of the Province, the people will rise in their might as one man and register at the polls their most withering contempt for such unworthy and unblushing attempts to force the electors to enslave themselves.

Let the electors of Westminster District, as those of this City and of Vancouver intend doing, cast their votes on Friday next, the 13th inst., without fear favor or affection, for their rights—for fair play and equal justice to all parts of the Province—for good legislation and purity of administration—and against petty tyranny, corruption, and maladministration, and all that is base and unworthy in the politics of both the present political parties. In other words—

MAPLE RIDGE COUNCIL.

The sixth regular meeting of the Maple Ridge Council was held on the 7th day of June. Present—Reeve and all the councillors.

Minutes of previous regular meetings read and approved.

Communications received from T. F. Sinclair and others, asking appropriations on roads leading to their respective places.

Committee of Hammond ward reported work on McKenny road complete and recommended payment.

On motion J. M. Webster was paid $2.50, bounty for killing bear.

Clerk was instructed to notify Alex Stevenson to complete his contract on ditch within ten days, otherwise it would be cancelled; also to post up notice warning persons not to take timber from limits of public highways, except for road purposes.

The Rebate By-law, and Thistle By-law, passed their first and second readings.

John Blaney was appointed pathmaster in place of Andrew Anderson, resigned.

Motions were passed to call for tenders for the following public works: Bushing and gravelling of Ontario street, Port Haney; bridges on correction line, township 15; to cut and log out 25 feet wide the Webster road, the Smedly road, and the section line between sections 21, 22, township 12.

Road Committees were authorized to repair river road near Kanaka Creek, and Laity road near G. Apunat's house.

The following bills were passed and vouchers issued for same: T. J. Trapp & Co., $20.50; F. V. Harris, $11.15; Lazenby Bros., $1.63; James Irving, $17.00.

Council then adjourned.

Children Cry for Pitcher's Castoria.

An Interesting Point.

In the case of Bryce, commercial traveller, in the appeal from the police magistrate's ruling, before the chief justice yesterday, the charge was dismissed, his lordship holding that the tax on commercial travellers was *ultra vires* of the provincial legislature. This raises an interesting point of law, as it will be remembered Bryce was charged with evading the payment of $10 imposed on all commercial travellers before they are entitled to do business in this city.—*Colonist.*

Deep Sea Fishing.

It has always been calculated that in time the deep-sea fisheries of British Columbia would become an important factor in the commerce and growth of the Province, and in particular, of her chief railway and commercial centre, Vancouver. This calculation, we are pleased to note, is beginning to be realized. Recently a strong company was formed here, composed of some of the leading business men, and capitalists in Toronto and Montreal. The company is incorporated, with a capital stock of $50,000, and arrangements have been made to push the trade all along the line of the C. P. R. as far east as Montreal, and also taking in the cities of St. Paul and Chicago. The leading spirit in organizing the enterprise in Vancouver has been Mr. Johnston, of Johnston, Kerfoot & Co., who was assisted by Mr. Foley, a practical fisherman from New Brunswick, and Mr. York, a local fish dealer. The company intend to deal largely in fresh halibut, and are greatly encouraged with the result of a trip to the proposed fishing grounds which has just been made by Mr. Foley in the steam tug Clyde, which arrived in port this morning from 300 miles north with a cargo of five tons ot this choice fish.—*World, June 9.*

RAMBLING IN THE WOODS.

A City Man's Return to the Scenes of His Childhood.

It was a hot, cloudless day in August. A gentle breeze was stirring, and, sitting on the little back porch of the old farm-house and looking across a vista of yellow stubble-fields to the dark line of woods, nearly half a mile away, I could see the tops of the tallest trees swaying gently, and could almost, I fancied, hear the faint rustling of their leaves, of the music of which I have ever, since a child, been over-fond, writes Ed R. Pritchard, in the Arkansaw Traveler.

It had been three years since I had visited the old farm, three long years of toil at the desk, amid the noise and busy strife of a great metropolis, and this was my first day of a short week's vacation at the old home, among the friends of my boyhood days and the scenes of the happiest years of my life.

I had reached the farm about ten o'clock in the morning, and, after a bounteous dinner at noon, was sitting on the porch, the coolest place, as I well *know, about the house, feasting my eyes* on the dear old landscape that I had known so long, and which, during all the years that I had been away from it, was always a charming picture that, though paradoxical it may sound, I had only to shut my eyes to see at will.

I must get to those woods, and that at once. No matter that the afternoon August sun was sending down his fiercest rays, no matter that I must walk half a mile across stubble-fields, which, from where I sat, I could see were almost *quivering with heat, I know what sweet,* familiar sounds I shall hear, what a refreshing coolness and quiet I shall find when I have reached their green and shady depths. Even while I am thinking of these things, a solitary crow with a loud "caw! caw!" flies swiftly over the stubble-fields, high in air, and lighting on the top of a huge oak sends forth a series of exultant "caws!" to his mates whom he has left in the orchard back of the barn. To me he seems to say to them: "There are no hens' nests in that old straw-stack. Why stay over there in that hot, broiling sun? Come over here into these grand old woods. Hard by is the creek, and I know a dark and shady pool where we can bathe, and below it a shining, singing ripple, where we can wade and play to our hearts' content."

Evidently, they understood the meaning of his cries, for a moment later a bevy of the black and saucy rascals go scurrying across the fields and join him, where they all set up a perfect chorus of "caws!" which I take to be expressions of approval of their companion's suggestion.

Hastily divesting myself of coat and vest, for in the country it is no breach of etiquette "to go in your shirt sleeves," I step into the hall and take from the rack a wide-brimmed straw hat, and after a brief stop at the old spring-house at the foot of the hill, I am off, as the crows fly, across fields for the woods.

On reaching them I find I am sweating profusely. What? You say sweating is vulgar, I should say perspiring? Well, no matter; I know I am heated and flushed, but I never felt better. The air is pure and sweet, the birds are singing in the woods on the borders of the little stream, and now as I pause to mop my dripping face I hear a woodpecker beating his lively tattoo on an old beech stub and chirp, chirp comes from a saucy little ground squirrel as he streaks it like a flash of russet light *along the rails of the old fence near* which I am standing. I shy a rock at him, out of pure wantonness, and am murderous enough to wish I had a gun with which to take a crack at that wily old wood-pecker, who has, on catching sight of me, slyly slipped around to the other side of the old beech stub, where I can still hear him pecking away as busy as a nailer.

I hastily scramble over the fence, and five minutes later I stand under the thick shade of the wide-spreading branches of a grand old beech tree and on the edge of a steep bluff, at whose base runs the turbulent but romantic Little Wild-Cat creek. I throw myself down on the grass, which is here so luxuriant that it is softer than the heaviest carpet, and there I lie for half an hour idly listening to the soft and indescribable music of the waters below. Then, having cooled off, I go down to the water's edge and deliberately disrobe and—"go in swimmin'." Mind, I don't say bathing, for I had no bathing suit. I just did as we boys used to do years ago—"just stripped off and went in swimmin'." You see, there was nobody there to look except the birds and the squirrels and an old black-water snake which I caught sunning himself out on a rock at the water's edge, and which I ruthlessly killed with a club.

How I did enjoy that swim, that frolic all by myself in the water! Tired of that, I continued my stroll until a coolness of the air and rapidly-deepening shadows warned me that it was time to turn my face homeward.

When I reached the house I made a discovery, and that was that while in swimming I had done just as I had often done before when a boy—had sunburned both shoulders into blisters, one on each the size of my hand. Then, too, as in days long agone, a liberal application of sweet cream was given and I went to bed with the chickens, was up with the birds and the next day was able to go squirrel-hunting and had a glorious time. But of all my brief vacation days I shall not soon forget that afternoon's ramble in the woods.

A TOUGH CUSTOMER.

Experience of a Collector With a San Francisco Artist.

"I struck the hardest game of my life to-day," said the agent of a very successful collecting firm to the San Francisco Examiner. "I tackled my man for twenty dollars that he owes a restaurant. He's an artist—paints landscapes and portraits—and you see his name all covered with taffy in the newspaper week in and week out.

"'I'm sorry,' says he, stopping work on his picture, and pushing his velvet smoking-cap onto the back of his head while he looked lazily at the bill, 'but I can't pay this for a few months yet.'

"'Why not?' says I.

"'Because,' says he, 'I have a more pressing liability.'

"'More pressing than a board bill?' says I, sarcastically.

"'Yes, a good deal,' says he. 'I'm buying a pair of shoes on the install-ment plan, and the second shoe is to be delivered to-day if I can make a partial payment. The coin's here,' says he, tapping his vest pocket.

"'All right,' says I, 'but you just give that coin to me on account or I'll sell you up.'

"'Sell what up?' says he.

"'Why, these here pictures,' says I, sweeping my arm in a comprehensive way around the studio.

"'These pictures?' says he. 'All right, my boy, go ahead. If you can sell them I'll be much obliged to you. It's more'n I can do.'

"With that he lighted up his pipe and went on painting as tranquil as a summer day. I admired him and asked him out to have a drop of something.

"'Excuse me,' says he, standing back and regarding his picture with one eye closed, but not even glancing at me; 'I never have any social relations with my trades-people.'

"I was faint when I got down to the street."

THE COURTEOUS SWEDES.

Points Which Attract the Attention of *Travelers in Oscar's Kingdom.*

The beautiful politeness and courtesy of the Swedes is a thing that is very striking to visitors, writes a contributor to Temple Bar. They have a large assortment of bows, bobs, courtesies and hat-liftings, according to age and sex, but the lifting of the hat to mere acquaintances reaches, I fancy, much lower down in the social scale than elsewhere in Europe; it looks odd to see the butcher-boy in a blouse elaborately taking off his hat to the baker's assistant. I suspect, on examination, Swedish hats would be found to contain a little extra stiffening, in order to enable them to stand the wear and tear of these greetings in the market-places.

On one occasion, when going by steamboat to Upsala, I noticed a very quaint example of this National trait. The steamboat, as it nears Upsala, passes through many shallow reaches of the Malar lake, where the depth of water is insufficient to allow of the passengers being landed in the ordinary manner directly on to landing stages, and so have to be taken on shore in small boats. The ferryman on shipping his complement of passengers would first take a dozen strokes or so in order to clear the screw of the steamer, and then would carefully lay aside his oars, rise from his seat, and take off his hat with a solemn bow to the people sitting in the stern whom he had just taken off the deck of the steamer. He would then row on again and put them ashore. This did not occur as an isolated instance, but regularly every time the passengers had to be landed by shore-boats.

The women of the middle and lower classes are little if at all behind their husbands and brothers in this matter. Their good temper and pretty behavior are worthy of all praise. The servant girls in Dalecarlian peasant dress, the *café-mamselles* and the young persons employed in shops all make the prettiest of all possible little bob courtesies, and so, oddly enough, do the young ladies of good family up to the day of their confirmation, which ceremony takes place rather later than with us, generally about the age of sixteen. From that day forth they put their hair up and take to bowing.

The Upsala students amuse one a good deal by the elaboration and ceremoniousness of their manners. Any day during the vacation a few of them may be seen gathered around a table in the garden cafes of Hasselbacken or Tivoli, drinking their punch. They are mostly lads under twenty, but they bow to each other, and make little civil speeches, and pledge each other with solemn salutation, all according to the strictest Swedish etiquette, as if they were middle-aged gentlemen of high dignity and position but slightly acquainted with one another. They certainly take themselves very seriously.

The custom of pledging or health-drinking is a survival from very ancient times. The glass is raised, a slight bow made, the word *skal* (literally bow) pronounced, followed by another slight bow, when the glass is replaced on the table, generally empty; it is not *de rigueur*, however, that it should be so, but in Denmark, where a similar custom obtains, the glass must always be drained to the last drop. To English eyes it appears quaint to see this complicated ceremonial observed toward each other by college companions not yet out of their teens.

Another point which soon attracts the attention of visitors is the punctilious honesty and truthfulness of the Swedes; this is best seen in the many little incidents of daily life. When asking for places at the theater, for instance, the ticket clerk never fails to inform you if, owing to the crowded state of the house, a better position would be secured with a cheaper ticket than the one asked for. Again, when parcels are taken out by steamers from Stockholm to country places in the neighborhood they are just thrown out on to the quay, where they frequently remain half the day without being claimed. It never seems to occur to any one that they could possibly be taken by any one but their rightful owners. On a trip of any length, as for instance to Gothenburg by canal, a little book lies in the saloon of the steamer in which each passenger keeps his own account of the number of meals, cafes, cognacs, etc., he may take during the journey. But, indeed, it is impossible to talk to a Swede for any length of time and not see how incapable of any meanness or dishonesty he must be. There is nearly always a simplicity and straightforwardness of manner the very antipodes of affectation, which is certainly a very pleasing attribute, and which can scarcely fail to convince the least observant person that he has before him a man who thoroughly respects himself, and who walks very steadfastly on the straight line. The Swedes, you feel, are a nation of gentlemen down to the coal-heavers and the wharf-men.

THE DOCTOR'S WIFE.

At the Mercy of the Gratitude of Her Husband's Patients.

"Most persons suffer occasionally from the kindness of their friends," said a physician's wife to the New York Evening Sun's Woman About Town, "but the person who really needs to pray to be saved from it is a doctor's wife. She is so at the mercy of the gratitude of her husband's patients, and that gratitude does take such grotesque ways of demonstrating itself. My earliest and hardest experience as a victim in this way occurred when we were first married. We were settled in a small town and had just fitted up the dearest little cottage home you ever saw, into every detail of which—in coloring, draping and furnishing—I had put my whole soul and whatever artistic instinct I had been endowed with.

"*One of the first persons to call on us* in our new home was a patient of my husband, a rich and disagreeable and hideously ugly old woman, who imagined herself to be the victim of every disease she could hear of, and who was, in consequence, the source of a good round income to us.

"When she rose to leave she said, looking about my little parlors: 'My dear, your rooms are charming, but I see one thing they need, and I shall have that made for you at once.' We were in a state of delighted anticipation from that time on, an anticipation stimulated from time to time by hints of our benefactor. 'It will cost a great deal of money,' she would say, 'but it will be worth it, I am sure.'

"One day it came, a great flat package, which we opened as quickly as we could. There, set in a huge gilt frame, done in the brightest possible oils, was a life-size portrait of the old woman, that was, if possible, an exaggeration in ugliness of what nature had done for her. It was the work of a local artist, and was just the most unspeakably hideous product of paint and inability that I ever saw.

"In five minutes after the arrival of the portrait came the wheezing original to superintend its hanging, and nowhere in the room could it go but in the conspicuous place where my most cherished etching hung. There was no help for it. We couldn't afford to alienate the affections of a thousand a year, and up it went. It staid there five years to spoil my pretty parlor and bias my temper, and the first thing I did after the old soul died and was decently interred was to cut the canvas to little bits and use the frame for kindling."

☞ Electors of Westminster District, depend on yourselves, and not on promises. Promises are all very well until they are broken, but put yourselves in a position to be independent of them by returning the Independent resident ticket, who will put the interests of your constituency first, and resign sooner than betray you.

☞ Mr. Robson has tried hard to convey the impression on the Mainland that he and his Government are pledged to a fair redistribution after the census, but, according to his own address, from which we quoted yesterday, he makes that pledge depend upon such an IF as, "should the census taking show such a preponderance of population on the Mainland as *I* feel confident it will," etc. Very cleverly put. Mr. Robson will judge, after the census, whether a redistribution is justified or not. And if *he* don't think best—and his Government will settle *that*—the Lower Mainland can whistle for its rights for another four year, UNLESS IT PUTS ITSELF IN A POSITION TO DEMAND THEM, BY RETURNING THE SOLID INDEPENDENT TICKET IN EVERY CONSTITUENCY!

Children Cry for Pitcher's Castoria.

Good progress is being made by Messrs. Wilson & Wise in the removal of the old Government buildings up Lorne Street, and when in place on the lot on which they are being taken will make excellent tenement houses, for which purpose they are intended.

A telegraph line is to be built from Revelstoke, on the line of the C. P. R., to Nelson, which is at present in a prosperous condition. Thus these two C. P. R. towns will be shortly connected, and the interior of Kootenay put in daily communication with the outer world.

Messrs. Losee & Co. have got a number of loggers at work getting out a few booms for their new sawmill at Shawnigan, Vancouver Island. About 600 yards of skids have been built, and one large boom is ready for the saws, which will commence buzzing in about a month and a half.

The northern canneries are all ready to start on the 15th inst., when the season opens. A few salmon are running at present. The Indians working at McLellan's cannery are out on strike, their wages having been reduced from 40 and 45 cents, the amounts received last year, to 35 and 40 cents. A number of them came down by the Boscowitz disgusted.

The officers and men of the two militia companies are animated by the true soldier spirit, and think enough of the service to let their annual pay to go into a general fund for the benefit of the corps. The handsome sum of $280 was thus subscribed and will probably be used to fit up a reading room, gymnasium and other adjuncts to the drill-shed next winter.

William Ridgeway left Vancouver about ten days ago in a small boat for his ranch at Squamish. He has not yet arrived there, and no word has been received of his whereabouts. A gentleman who was up in that vicinity a day or two ago reports the finding of a canoe near Anvil Island, Howe Sound, and the description given of it tallies exactly with the one used by Ridgeway.

There will be a social entertainment in the basement of the Methodist church this evening, which will take the form of a farewell to the late pastor, the Rev. J. H. White, who leaves for his new field of labor over in Victoria to-morrow morning. During the evening songs, choruses, readings and addresses will be rendered by the choir and different members of the church, while the good ladies will not forget to serve refreshments to those who desire them at intervals during the evening.

Aldermanic Nominations.

The nominations for aldermen for St. Patrick's ward took place to-day and resulted as follows:

Mr. J. A. Calbick, proposed by Mr. Thos. Mowat and Mr. Thos. Thornton.

Mr. Thomas Gifford, proposed by Mr. W. R. Greig and Mr. James Lord.

The polling takes place next Wednesday, June 18th.

Deserting Their Colors.

The pitiable plight to which the Government party is reduced in Vancouver City and this District is very forcibly illustrated by the fact that the Government organs in this city and in Vancouver have given up all hope of having Government men returned, and, to break their fall, have attached themselves to some of the Independent candidates. The "organs" are not manly enough to meet certain defeat fairly, and so wheel into line behind the victorious host.

Correction.

In the Police Court on Monday afternoon, Ed. Chapman, the eleven-year-old bad boy from Vancouver, who was caught in the act of stealing from one of the rooms of the Occidental hotel, was arraigned, and after considerable questioning admitted his guilt. After giving him a severe lecture, the magistrate said it was difficult to know what to do with the boy, but ordered the father of the lad, who was in court, to give him a severe flogging, which was done then and there, while the cries of the young rascal who was being corrected for his erring ways could be heard some distance off. In an item furnished us by the chief of police a few days since, we failed to mention that to Policeman Sawyer belongs the honor and glory of having arrested the boy Chapman, who was captured out on the Brunette bridge.

Assize Court.

The jury in the case of Alexander Houston, murder, retired at 5.30 p.m. last evening and returned at 8 o'clock with a verdict of manslaughter and a recommendation to mercy. This finding was received with some astonishment by the audience. The prisoner had nothing to say why sentence should not be imposed. His Lordship said he could see perfectly well how they had come to this decision, and that there could be no doubt whatever that the poor old woman had come to her death by the attempt of the prisoner to gratify his savage, brutal lust upon her. He did not know, but he felt quite certain that the prisoner had gratified that lust, and he felt quite certain that the prisoner was the man who had caused the death of the harmless old creature at Langley; and he would now impose the heaviest sentence he had ever passed in his life for manslaughter, fourteen years penal servitude. The prisoner preserved the same stolid indifference at the sentence as had marked his conduct throughout the trial, and was promptly removed to jail. Court then adjourned until 11 this morning.

The court met at 11 o'clock this morning when the prisoners found guilty of the crimes with which they were charged were brought up before Mr. Justice McCreight for sentence.

Wilson, for larceny, from the person, at Vancouver, was given 9 months in the provincial jail.

Lakinitze, against whom the jury found a verdict of guilty of manslaughter for killing an Indian of the same tribe named Anmut, near Cape Mudge, was given 4 years in the penitentiary.

The court then adjourned.

CORRESPONDENCE.

A LETTER TO THE ELECTORS.

GENTLEMEN:—He who asks me to vote for a supporter of the present Government insults me, for I think that any one in this city who supports the party that perpetrated the late outrage in the matter of our parliamentary representation, is not fit to be enfranchised; he has the soul of a crouching slave, not the spirit of a freeman. In this nineteenth century, only madmen and tyrants speak lightly of or trifle with this matter. I am, therefore, not at all astonished at the furious indignation that was excited in Vancouver when the man that dared to bring forth such a measure showed his face in that city. Many of its inhabitants came from parts of the world where the people are so jealous of their rights that a similar legislative enactment would produce scenes of riot and bloodshed. This nefarious Redistribution Act involves the principle of taxation without proper representation—a principle which caused that cruel, unnatural and sanguinary war, that raged for eight years on the shores of the New World, and sowed the seeds of strife that have germinated, and now, after a hundred years of growth, are ripening to another harvest of blood on the iron-bound coasts of Alaska. Talk not to me of pledges wrung from those who would trample on the dearest rights of freemen. Trust not to the promises of petty tyrants.

The Government is pledged to redress this wrong, say those who advocate the re-election of our late representative. Well, if there is a pledge, and if it be of any value, who extorted it from our reluctant legislators? Not our representative, for when he asked for a guarantee that a just distribution bill would be brought in, on condition of our "bearing patiently" the injustice done us by the present one, he was grossly insulted, and his constituents through him, by the man on whom he now fawns. "You speak like a child" was the insolent and brutal reply of the Premier to his obsequious friend and admirer. On account of the way he dealt with this retort, I charge Thomas Cunningham, Esq., with cowardice; it was the most important crisis in his political history. He should have given up his whining, sniveling cant about his thirty years' friendship for the Premier, and forgetting self, his words should have assumed the tone of authority, as in the name of the eternal principle of right, he demanded justice. At this theme no man ever had a better opportunity of rising in the esteem of his fellows, but he was not equal to the occasion. He had been paving the way for his downfall by fulsome eulogies on a corrupt Government; and he fell, never to rise again; and ever since his fall he has been gradually losing the little respect his fellow-citizens may still have for him, by offering apologies for the conduct of those who grossly insulted him, and disregarded the most sacred rights of the people he represented.

Fellow-citizens, and I might add, electors of New Westminster District, if you think there is a pledge given that justice will be shortly done in the matter of our representation, REMEMBER WHEN YOU ARE ABOUT TO CAST YOUR BALLOT, THAT IT WAS THE MEN OF THE INDEPENDENT PARTY WHO FORCED THE GOVERNMENT TO GIVE THAT PLEDGE. These are they who deserve our support, and through them alone we may reasonably hope for redress of wrongs. In the hour of our extreme need, when the battle for our rights was maintained against fearful odds, where was the renegade officer who now desires to lead the Royal city division of the Mainland hosts? He was not in the thickest of the fight, he was not even in the field to bear away the torn and dust-soiled banner from the scene of conflict, so that he might be able to write to the dwellers by the Fraser that "*All was lost save honor.*" No! he was esconced in the corner of a hotel probably within the hearing of chattering women or garrulous children.

It is, therefore, not to the Government supporter we are indebted for any concessions or promises of redress. It is to the Independents. At their head stands a man of unimpeachable character—a gentleman who has a superior education, and who is the most eloquent and polished speaker of all those seeking election in our Province, as well as one of the most talented men in the Dominion. It was *his* keen logic that first brought the members of the Government to their senses and covered them with shame and confusion of face. Before his clear and incisive syllogisms and winged words, the fine-spun fallacies of the Premier seemed as weak as the cords that bound the Philistine man-slayer. He it was that rallied the flying squadrons of the Mainland hosts and infused new courage into their disordered ranks. The tyrant now trembles in his citadel, for the Independent army is now within two day's march of the enemy's fort, which they will easily take by storm, and then a universal shout of victory shall go up from the Royal City, and the banks of the old Fraser shall re-echo the honored name of Brown!

I sincerely believe that the hope of the country lies in the Independent. The most advanced thinkers see no other way of reforming corrupt governments than by electing men to support measures, not parties. Indeed, I believe that the only chance of redeeming the electorate of this Province from hopeless corruption is through a new party whose watchword shall be "justice to all—to friend and foe." It is enough to make all honest men grow sick at heart and despair of political purity, when they hear the Premier of this Province unblushingly say that the whole business of the country is carried on in a secret conclave of his friends, and that the representation of the people in Parliament assembled, are powerless to change the decisions and arrangements of a corrupt (I was about to say *damnable*) caucus.

But apart from these considerations; I cannot see how any honest man can support the Government candidates, for I *believe that the man who is influenced by the motives they use to induce him to vote for them*, is a thief *at heart*. He who sincerely promises me, that if I support the Government, my fellow-citizens and I shall receive the "lion's share of the appropriations," or more than our just share, is a thief at least, for he intends to take the money that justly belongs to people in another part of the Province and give it to us. We also are parties to a theft, if we knowingly and willingly receipt it. He also who threatens not to give my fellow-citizens and me our just share of the appropriations, if we vote against the Government, is also a thief at heart; for he likewise intends to take the money that belongs to us and give it to his friends.

And these are the detestable motives used by men calling themselves by the name of Christian to induce the electors to support a Government that has been guilty of the most flagrant act of injustice to this section of the country.

Fellow electors, if one drop of true manliness still flows within you, or if you have faith in the final triumph of righteous rule upon the earth, reject with scorn the man who tells you he is "in the confidence of the Government," and by means of other promises or threats approaches you as if you were a thief or a villanous pick-pocket, who wanted more than your just share of the public revenue. Vote for the men who are pledged to people, not policy and whose political platform is justice, liberty, equality and justice to all.—COM.

Shannon's Lost Heir.

SAN FRANCISCO, June 9.—Hon. Henry Boyle, second and youngest son of the Earl of Shannon, who has been in this city for some time hunting for his lost brother, who is heir to the earldom, has returned to New York. Boyle has given up the search and will have to abide by the English law of succession.

Children Cry for Pitcher's Castoria.

Unfortunate California.

MARYSVILLE, Cal., June 9.—Reports from the reclaimed district in Sutter County, on the Sacramento River, are to the effect that not an acre of wheat or barley will be raised this season. This district, which is one of the most fertile in the state, has been flooded since December last and not only was the grain ruined, but also fruit trees of all discriptions, excepting pear trees, which still flourish. The farmers of the district propose to rebuild and strengthen the levee this season, which will involve an outlay of at least $70,000. There are about nine miles of levee to reconstruct, and the remainder of the levee standing will have to be raised.

TO THE ELECTORS OF

Westminster District.

GENTLEMEN:—At the earnest request of a large number of the Electors of New Westminster District, I have consented to become a candidate to represent you in the Provincial Parliament.

I will endeavor to briefly present to you some of the principal points in my platform.

1st. I am in favor of representation by population and will consider it my first duty to secure a fair and just representation for the Mainland.

2nd. I am in favor of dividing the District into Ridings.

3rd. I will endeavor to increase the grant to municipalities from $1,000 to $5,000 per annum.

4th. I would also be in favor of raising the tax on wild lands to such an extent as would prohibit speculators from holding large tracts of land, to the detriment of actual settlers.

5th. I am in favor of the Government adopting a public works policy and borrowing a million dollars, and expending the same on roads and bridges throughout the District and also on a scheme for the reclamation of overflowed lands.

6th. I would strongly urge upon the Provincial and Dominion Governments the necessity of adding the City of Westminster in the immediate construction of a Traffic Bridge across the Fraser River.

7th. I would also use my best endeavors to have a railroad constructed from Popeum to the Delta.

8th. To repeal clause 9 of the Public Schools Act.

9th. The cutting of a Canal from Mud Bay to the Fraser, thereby draining a large portion of the Delta, and avoiding the dangers of Point Roberts.

10th. The erection of a Traffic Bridge at Pitt River and the extension of the Westminster road through to Agassiz.

I shall also endeavor, if elected, to visit all portions of the District prior to the meeting of Parliament to learn your wants, so as to be in a position to discuss the same intelligently during the session.

In conclusion, gentlemen, I would ask you for your votes, confidence and support at the forthcoming election.

I remain,
Yours faithfully,
dwmy21td ARTHUR M. HERRING.

TO THE ELECTORS OF

New Westminster District

GENTLEMEN:—I beg to announce myself as an independent candidate for the Legislative Assembly at the coming election.

As most of you are aware, I am an old resident of the District, and largely interested in its growth and prosperity.

I am in favor of the division of the District into ridings, and shall insist upon our having our fair share of representation, according to our population and resources, in the Legislature.

As this District contributes very largely to the revenue, it is clearly entitled to large appropriations for public works, and substantial grants to the various municipalities.

I am a strong advocate of a free traffic bridge across the Fraser at Brownsville, and should urge that the Government subsidise that work, and I should also press for the construction of a bridge across the Pitt River.

I am utterly opposed to the immigration of Chinese, and their employment on public works of any character.

I am strongly in favor of borrowing the money necessary to develop the agricultural country by opening up roads along the section lines.

I should advocate any reasonable assistance to a railway from Hope down the south side of the Fraser, as such a line would give a vast impetus to the development of our District.

If you do me the honor to elect me I shall do my best to advance our interests in these and other matters.

I am, Gentlemen,
Yours sincerely,
JAMES PUNCH.
Brownsville, Surrey, May 31, 1890. jn2dwtd

TO THE ELECTORS OF

New Westminster District

GENTLEMEN:—I offer myself as a candidate to represent you in the Provincial Legislature, on the platform suggested by the Mainland Association, free from any pledge to either party.

I hold myself at liberty to give an independent support to any Government that may be chosen by the people. As an elector, I think the District would make a mistake should the electors condone last session's Redistribution Bill, by returning either the Hon. Mr. Robson, or candidates hampered by pledges to support his Government, as representatives of this constituency.

Mr. Robson is standing for Cariboo as well as for Westminster District, so there is no need to fear that the Province will be deprived of his services should the majority of the electors agree with me on this point.

I am in favor of dividing Westminster District into ridings.

Any measures that appear to me to be for the benefit of the Province would have my support, and I think that some safe scheme might be devised by which the credit of the Province might be lent for local improvements.

The contract system ought to be more strictly carried out.

I should also like to see some modification of the municipal system, by which localities outside of municipalities might have more direct control of the expenditures in their neighborhoods, so as to secure the most economical and efficient disposal of such funds and relieve the central Government from the onerous task of deciding between different claims.

Speculation in wild lands, whether lumber, agricultural, or mineral, should be discouraged.

Should you elect me I will do my duty to the best of my ability, and trust you will give me credit for honesty of purpose, even should you dissent from my judgment.

Your Obedient Servant,
C. B. SWORD.
Matsqui, May 30, 1890. djn2td-wtd

TO THE ELECTORS OF

New Westminster City.

GENTLEMEN:—In response to a requisition, numerously signed, which has been presented to me, I beg to offer myself as representative of this City in the Provincial Legislature.

I frankly confess that, aside from the great question of the just distribution of legislative power, I would scarcely care to be a candidate. If you do me the honor to elect me I shall make that question my first consideration at all times, and in order to do this it is essential that I keep quite free from any entangling alliances with either Government or Opposition. But to the people and the advocacy of the rights of the people, in this matter and in all others, I can fully and freely pledge myself; and with those, be they on what side of the House they may, who are animated by a similar spirit, I will work cordially.

The present crisis demands special treatment. We of the Lower Mainland are denied our just share of legislative power, and so long as that is the case our true policy, in my opinion—nay, the policy which our own self-respect compels us to adopt—is to return no man to the Legislature who will not make the righting of that wrong his first business. It may safely be assumed that those who shall be found willing to do right in this matter, will be the most likely to do right in others also.

Notwithstanding the utmost devotion to this first question, your representative will strive to deal with many other matters, and perhaps it will be sufficient now to say on this point that I believe there is room for a good deal of work before the administration of public affairs can claim to be what it should be—government by the people *for* the people. I should earnestly endeavor to do my share of that work.

I believe I may safely assume that you need no assurance of my deep and abiding interest in everything that makes for the prosperity of New Westminster City.

I am, Gentlemen,
Very truly yours,
dmy16tc J. C. BROWN.

TO THE ELECTORS
— OF THE —

Westminster Electoral District.

GENTLEMEN:—As it is difficult to arrange to see each individual elector before election day, I wish to put before you the platform on which I stand whilst seeking your support.

Up to the introduction of the Constitution Amendment Act, I should have supported the present Government, but I now stand independent of all parties on that measure, pledged to obtain a fair and just Redistribution Act *immediately* after the publication of the census returns; such act to be based as nearly as possible upon population, the abolition of the balance of power and the division of districts into one member constituencies. Outside this pledge I claim the privilege of being allowed to support any legislation of a just and beneficial nature which may be introduced by the Government. I will endeavor to impress upon the Government the necessity of the utmost liberality in the expenditure for the opening up of all agricultural districts and even, if necessary, to borrow money for this purpose.

The conservation of all public lands for actual settlement, and the abolition of all sales of land in large areas, will be one of the chief objects I shall hold in view, and to also assist in the greatest amount of land being brought into cultivation. I would advocate the Wild Land Tax being raised to 25 cents per acre.

It will also be my endeavor to impress upon the Government the absolute necessity of taking steps to assist in the reclamation of the large area of land subject to overflow by the Fraser, so as to render it all fit for cultivation, feeling sure that any money spent in that direction will be a good investment, as the lands will be greatly enhanced in value for assessment.

From the above you will see that I am a supporter of the Government, except on one measure, and feel sure that you will see that as I am a resident farmer in the district our interests are identical, and I hope to be able to materially advance the interests of the district should you honor me as your representative.

I am, Gentlemen,
Yours Obediently,
LIVINGSTON THOMPSON.

NOTICE IS HEREBY GIVEN THAT A special general meeting of the shareholders of the Company will be held at the office of the Company, in the City of Victoria, in the Province of British Columbia, on SATURDAY, THE 21ST DAY OF MAY, 1890, for the purpose of considering a resolution to be submitted to the shareholders, and, if approved of by them, of passing such resolution for the issue of bonds of the Company for a sum not exceeding $25,000 per mile, in pursuance of the provisions of the Act of the Parliament of Canada incorporating the said Company, and for securing the bonds to be so issued by a mortgage deed with such powers, provisions, and stipulations as may be described in the said deed, and may be approved of by the shareholders; and also, for the purpose of considering such other business as may be brought before such meeting of shareholders.

Dated Victoria the 28th May, 1890. dmy30td

TO THE ELECTORS OF

New Westminster District.

GENTLEMEN:—I come before you as an independent candidate on the platform of the Mainland Association to represent this District in Provincial Legislature.

As it is impossible to see every elector before the polling day, I take this mode of placing before you some of my views. I will pledge myself to no party, but will support measures, and not party. I will support all just and beneficial legislation.

I will do my utmost to obtain a Redistribution Bill that will be fair to the Mainland upon the basis of population, area and resources, without regard to the balance of power theory, as soon as possible after the census.

I hold that the Agricultural lands of this Province should be held for actual settlers, and not be sold to speculators in large blocks, and that such unimproved land held in large blocks should be heavily taxed, so as to compel the owners to improve them or sell them to those that will.

I believe it would be to the interests of the country that money should be borrowed on the credit of the Province, and loaned at the same rate of interest for the purposes of reclamation on the security of the land reclaimed.

That there should be a liberal expenditure of money on roads, bridges, &c., and, if necessary, that money should be borrowed for the purpose, provided that the Mainland could get its proper proportion of it;

That the building of railroads should be encouraged, in order to open up what are at present inaccessible regions;

That all Government money spent within municipalities should be placed at the disposal of Municipal Councils.

I am, Gentlemen,
Yours respectfully,
THOS. E. KITCHEN.
May 30th, 1890 my31-d3t-w2t

TO THE ELECTORS OF

New Westminster District

GENTLEMEN:—At the request of many friends from all sections of the district I beg to offer myself as a candidate for a seat in the legislature at the approaching provincial elections.

I shall if elected be a supporter of the present Government, in so far as in my judgment their measures are just to all portions of the province.

The conventional allotment of representation agreed upon at the time of confederation I conceive to have been based upon what was deemed an equitable adjustment at that period of our history, subject to such subsequent revision as our altered circumstances might from time to time necessitate. Any delineation of political lines of demarcation between Vancouver Island and the Mainland to be observed in perpetuity would have been antagonistic to the principles of free government and would be a fatal barrier to the future harmony, prosperity, and well-being of the province. Holding these views I shall, if elected, strenuously oppose any measure for the further redistribution of the representation which does not aim at the complete obliteration of all existing sectional boundaries.

I shall advocate a more conservative policy in the disposal of our timber lands, and support any judicious measure to prevent the destruction of timber by forest fires.

I will support a liberal expenditure in the opening up for settlement our agricultural lands and the development of our mineral resources.

Upwards of eighteen years of active pioneer life in the District have made me familiar with the wants and difficulties incident to the common lot of every settler, and should I be returned as one of your representatives, I will endeavor to do my part to give each portion of the District due recognition.

I shall endeavor to meet as many of the electors as possible during the canvass, and shall be glad to explain further my views on public questions.

I have the honor to be,
Gentlemen,
Your Obedient Servant,
my22d2tw3t JOHN KIRKLAND.

By Private Sale.---Bargains.

I HAVE RECEIVED INSTRUCTIONS FROM Mrs. A. M. JOHNSTONE, of Mud Bay, to dispose of her Homestead, which consists of 272 acres of Land, good Dwelling House, excellent Barn and Stabling for 40 head of stock, good Dairy and an abundance of Spring Water.

The property is situated on the sunny side of Mud Bay, the land is second to none anywhere, and parties wanting an investment for their capital cannot do better than take a look at this before investing elsewhere.

Stock and implements can go with Ranch if desired.

TERMS—One-third cash; balance to suit purchaser, at 8 per cent. per annum.

ALSO FOR SALE—THE FOLLOWING:

The West Fractional Half of Section 29, Mud Bay, bounded by the Nicomekl River and the Sea—108 acres.

184 acres, adjoining Sections 16 and 25, Township 4, very near N. W. City.

The North West corner of Section 68, adjoining the Hastings Townsite—54 acres.

The North-West ¼ of Section XI., Township 2, 160 acres, all first-class land, 10 acres improved and sown to timothy pasture. Log house. Good creek runs along line of property, also the Johnstone Road. This is an excellent ranch.

Lot 261, Group I., Pitt Meadows; 80 acres prairie; 70 acres high brush land. Half of the prairie can be ploughed, and is all hard land. 2 miles from Railway Station.

Stave River Stock and Dairy Ranch. This Ranch consists of 387 acres of land, being Sections 433 and 437, Townships 14 and 15.

This property is situated on the Stave River with a frontage on the Fraser River, at which point the C. P. R. Road passes through property. There is one large 2-storey Frame Dwelling House, hard finished, nearly new, worth $1,500. This is elegantly situated on rising ground and commands a view of the C. P. R., the Fraser River and the surrounding neighborhood. The greater part of the land is Prairie, subject to overflow, a good deal of the high land has been improved and fenced, and there are a large number of young Fruit Trees and the usual Out Buildings in the way of Barns, &c. There is excellent Trout Fishing and Hunting on premises and any party or Company seeking a Stock Farm or Dairy Ranch could not be better situated. Coal croppings of unusual promise have been discovered on the Property. This is to be secured at a bargain, and further particulars can be had of the undersigned or of Mr. Clement Stickney at Wharncliffe Station, who will show any intending purchaser over the same.

For further particulars apply to

COLUMBIAN SUPPLEMENT.

VOLUME VIII. NEW WESTMINSTER, B. C., JUNE 11, 1890. NUMBER 110.

TO THE ELECTORS

—OF—

New Westminster District.

GENTLEMEN:—In view of the near approach of the election to fill the vacancy caused by the death of our late representative (the much-respected D. Chisholm) and as I have stated in my card to you that I am a candidate for that honor, I will now lay before you some of my views on the leading questions which I consider will arise in the near future for consideration.

I have been asked what I mean when I announce myself as a Liberal-Conservative; I reply, "That by nature and education I am a Conservative, but a residence of over 30 years in this Province and much intercourse with our American cousins has had the effect of changing many of my views, and given me liberal ideas, therefore I claim I am a Liberal-Conservative." Owing to the fact that party lines are not defined in British Columbia as they are in the older provinces, I consider that our representatives are not in duty bound to give a *through-thick-and-thin* support to any party, but they should go to Ottawa prepared to give a generous support to all good measures which may be brought before them, and to consider the prosperity of the Dominion as a whole, but our own Province in particular, and should a measure come before them which they consider in any way detrimental to the interests of this Province they should take their stand like true men and vote against it.

I am opposed to a certain extent, to the Tariff, or National Policy as applied to British Columbia. We are a long way from the centres of manufacture in the East, and many articles of every-day use to our Farmers and others, and which we cannot produce at home can be obtained more readily and at shorter notice from our near neighbors over the line, and in many cases the articles are better adapted to our needs than those brought from the Eastern Provinces; in fact, much of our Farming and Mining Machinery, Wooden Ware and other articles are brought from the States, although the duties are so heavy. Again regarding our food supply; we do not raise enough to supply our wants, and are obliged to cross the border for it, and are met with such heavy duties that heads of families in this Province pay more than ten to one compared to their compeers in Eastern Provinces. We have had example to the point during the last three months. If we had not received a good supply from California there would have been a meat famine; as it is we are now and have been paying 25 cents per pound for mutton, which is more than ordinary mortals like to pay, and the same state of affairs is likely to obtain again after any long and severe winter, for in spite of "Protection" for the last eleven years our stock raisers are little better prepared to meet hard winters than they were before, and to my mind the only ones who have reaped the benefit of the N. P. are the manufacturers. As a true Britisher I should like to see "Free Trade," but as that seems out of the question, I would advocate "Reciprocity" in many articles which are at present in the Tariff lists, as I think it would be beneficial to both countries, and the working man would not have to go down so deep into his pockets to buy what he needs to eat and wear. I am aware the Government must have a revenue to carry on the affairs of the country, but I would have "luxuries" pay more and get at the pockets of the richer classes who can better afford to pay taxes.

Owing to the long continued sickness of the late Mr. Chisholm, he was unable to be in his place this session, and very little during the previous one, so we of this District have been practically unrepresented, and our local wants have not been brought before the notice of the House. Had he (Mr. Chisholm) been in his seat, I do not think the Postmaster-General would have been left so much in the dark concerning the necessity of regular mail facilities on the Lower Fraser as he seems to have been when he proposed to cut off the mail subsidy from that important route, and there are other places in the District which need better postal facilities, which I consider should receive that gentleman's earliest attention.

I hope that in the near future our District will reach that point that we may look for it to be divided and receive another representative. At present I think it is the largest constituency in the Dominion, extending over 1500 miles of territory, and when the census returns are in I think the necessary number of population will be found to demand such additional representation.

The protection of the river banks at Chilliwack, Sumas, Burton's Prairie and other places should receive my earnest attention, also the works for improving the channel at the Sandheads, in view of the expected increase in our shipping interests.

I consider the Province should have control over all railway charters and privileges within our borders.

Our Fishing interests, being of such great importance to this District in particular, I feel should receive more than ordinary attention.

I would urge the cutting of a canal through the Delta lands from the mouth of the Serpentine to Fraser River, also to enquire into the question of cutting one from the Fraser River to Port Moody, which has often been suggested to me.

Immigration, I consider, should be fostered, and encouraged judiciously. Just at present it is coming here fast enough; I would not like to see a large influx pour in at once, as many would be disappointed and go away disgusted and probably give our glorious Province a bad name.

There are many other matters I should like to touch upon, but it would make this address too long. I hope to see as many as possible before the election, when I shall be prepared to lay my views more fully before them and answer any questions. As soon as possible after the arrival of the writ I will arrange for a personal canvass and will send due notice of time and place of meetings.

During my long residence in the Province I have travelled through much of it, from Victoria to Cariboo, and have noted its growth and requirements, therefore, I feel fully competent to bring such matters before the notice of the House in a practical, business-like manner.

Should I have the honor to be elected I assure you I shall watch over the interests of this District faithfully and to the best of my ability, not forgetting that I also go as a true British Columbian and to do my duty as such.

Yours faithfully,

WM. B. TOWNSEND.

Parliamentary Election, 1890

To the Electors of New Westminster District:

GENTLEMEN:—Having been requested by a large number of electors of this District to offer myself as a candidate to represent you in the House of Commons, to which request I have much pleasure in complying, I beg to state that should you do me the honor to elect me as your representative whilst giving the present Government my free and independent support, I would do my utmost to favor the following amongst the many measures that I consider would be beneficial to the interests of this Province and the Dominion at large.

To urge the further improvements of the navigation of the Fraser and other rivers, the protection of their banks, the improvement of any harbors in this District, and the construction of canals where necessary for the purpose of allowing farmers and others every facility to reach market.

To encourage agriculture by protecting all such articles as can be produced in this Province, and to lower duties on all that cannot, and which are absolutely the necessaries of life, and increase the tariff on luxuries so that the consumer would be even taxed less than at present.

To increase the representation in proportion to the wealth and importance of this District.

To increase and have adequate mail service to all portions of the Province and free letter delivery in cities.

No diminution in the Chinese Restriction Act.

To have the Fishing Regulations amended to meet the requirements of this Province.

To have a Dry-Dock constructed at some suitable point on the Mainland to meet the growing demands of this District.

To urge the exchange of Lands in Peace River for the Lands in the Railway Belt;

And that Mining Machinery be admitted free of duty until such is manufactured in the Dominion.

To appoint efficient Immigration agents in all important localities.

To urge the Dominion Government to contribute to make Roads and Bridges through Dominion lands.

To urge immediate aid in any measure to prevent the overflowing of Dominion lands in this Province and to reclaim those subject to inundation.

Having been a resident of this District for over twenty years and knowing its requirements, I should be in a position to advocate your interests, and also my having had the honor to be your representative for the last four years in the Provincial Legislature would place me in a position of knowing something of Legislative routine.

I hope to visit each polling station during the canvass and more fully explain my views on the various topics of the day, which would be impossible to do in a short address.

I have the honor to be,

Gentlemen,

Your obedient servant,

dwmy13tc WM. H. LADNER.

TO THE ELECTORS

—OF—

New Westminster District.

GENTLEMEN:—As I have already announced, I beg to offer myself as a candidate for the seat in the Commons made vacant by the death of our late member, and I come before you as a supporter of the Government of Sir John Macdonald, reserving to myself, of course, the right to act independently should the action of the Government in any matter seem prejudical to our interests.

I would strongly urge immediate attention to the improvement of the River where required, for the protection of the rich agricultural lands of the District, and if elected, I shall at once proceed to Ottawa and leave no stone unturned to secure the immediate appointment of a competent engineer with a view to the prompt undertaking of this most important work.

As you are aware, the duty on certain kinds of mining machinery has been remitted in this Province as a special concession to British Columbia on account of the special conditions obtaining here. I would strongly urge the further application of this principle of special tariff arrangements, so as to relieve consumers of goods which must be imported, while preserving the protection of our agricultural and other interests.

The land laws of the Dominion, having been framed without close consideration of our requirements, are in many points unsuitable, for example in the conditions as to clearing. I would endeavor to secure immediate reform in this important matter.

Subsidies having been granted to railways in the various Provinces of the Dominion, I should urgently present the claims to similar assistance of railways within our own Province.

Should the City of New Westminster decide to build a bridge across the Fraser, I should use my best endeavors to obtain a substantial subsidy for the work, urging that an undertaking of this character should rank with canals and railways as one entitled to national aid.

The next census will undoubtedly show such an increase in the wealth and population of this District as will constitute an undeniable claim to increased representation in the Commons. That claim, if elected, I shall support to the utmost of my ability.

Although, with the growth of the District, the mail service has been improved and extended, it still lags far behind our requirements. I should give special attention to this part of your representative's work, feeling that it is one which is of vital importance.

I should urge the enactment of such fishery regulations, especially in the issuing of licences, as would, without any injustice to the canneries, the importance of which to the prosperity of the District all must recognize, fully protect the free fishermen, and encourage the settlement amongst us of the greatest possible number of that industrious and hardy class of men.

All enactments and regulations for the protection of white labor would receive my hearty support.

Continued work towards the improvement of the harbors of New Westminster and Vancouver, and the efficient lighting and buoying of the same, is a matter which would have my closest attention at all times.

In a word, I should constantly urge upon the Government the wisdom of a liberal policy in public works in this District, the vast resources of which make it certain that such a policy would be amply justified by results.

Trusting to have the opportunity of seeing every elector before polling day,

I am, Gentlemen,

Very sincerely yours,

dwmy14tc GORDON E. CORBOULD.
