Confederation Life

ASSOCIATION.

Guarantee Capital $1,000,000

Full Gov'm't Deposit

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

J. K. MacDONALD,
Managing Director.

T. R. PEARSON

Agent, New Westminster.

Daily British Columbian

Tuesday Evening, July 10, 1888.

Scientific Miscellany.

In the eighty years 1808-88 no less than 417 earthquake shocks have been recorded at San Francisco,

It is estimated that 100 tons can now be carried thirteen miles an hour by steamship at a mile cost, including fuel, insurence, etc., of one-eighth of a penny.

A human subject without collarbones has been met with in a St. Louis dissecting-room. This structure is that of most of the vertebrates, such as lions, bears, etc.

A London company is reported to have secured patents for the chemical production of aluminium, sodium and potassium; and to be able to manufacture aluminium at considerably less than one shilling per pound.

The remarkable operation of transplanting the nerve of a rabbit to a human subject has been successfully performed by Dr. Gersung, of Vienna, and the graft promises to perform its ordinary functions satisfactorily.

A patented material said to have all the properties of good lignum vitæ is prepared in Leipsic, by M. Stockhardt, from ordinary soft wood. The wood is first impregnated with oil, then subjected to great preasure, causing a considerable increase in density.

Last year Algeria was ravaged by swarms of grasshoppers, which have been succeeded this season by a kind of cricket, not identical with either grasshoppers or locusts. The crickets form clouds hiding the sun, and are reported to have stopped railway trains.

Quite a number of cases of "smokers' vertigo" have been investigated by Dr. Decaisne. Of sxty-three patients, forty-nine were between fifty and sixty-six years of age. More than half of them suffered also from digestive troubles, sleeplessness, palpitations, etc. In most cases the symptoms disappeared on removal or abatement of the cause, while in thirty-three out of thirty-seven cases in persons who habitually smoked on an empty stomach, it was only necessary to refrain from smoking before eating.

A Terrible Day in New York.

Up to 10 o'clock this morning the record of fatal prostration is unprecedented for any June day in the history of the Coroner's office. At noon the death list reached twenty, all more or less directly caused by the torrid atmosphere. Many victims expired without the slightest premonition of their fate. Some in the prime of life, who yesterday were in the best of spirits and apparently the best of health, were corpses in their beds this morning. Children in the crowded, reeking tenement districts are dying off like flowers that wilt in the sun. Aged persons in many quarters, attempting to move about in ordinary pursuits, sit down only to gasp their last. Several persons died at the breakfast-table. The thermometer at 2:30 P. M. was 91° in the shade. —*Am. paper.*

An Embarrassment of Riches.

Texas is troubled with a plethora of cash. Its bonded indebtedness is only $4,500,000, which the holders will not exchange for the money, preferring to draw the interest; and there is in the State Treasury a surplus of more than $2,000,000. The school fund has a surplus of $16,000,000, for nearly half of which no safe investment can be found. The farmers, to whom the State has been selling its lands on forty years' time, with only 5 per cent interest, in the hope that they would be very dilatory about paying the principal, are piling in the money on the overburdened State Treasurer. The counties are doing the same. To add to its misery the State has 30,000,000 acres of land yet to sell, which are bringing every year higher and higher prices.—*Boston Journal.*

Professor—Mr. Eaubrian, you may demonstrate to the class that smoking cigarettes is not injurious. Mr. Eaubrian—Smoking cigarettes kills; those who smoke them are of no earthly use and ought to be killed; and the good or bad anything does must be judged from the effect it has on the greatest number; therefore, since cigarettes rid the community at large of those who are useless to it, smoking them is not only not injurious but beneficial.—*Judge.*

Is there anything more annoying than having your corns stepped upon? Is there anything more delightful than getting rid of them? Holloway's Corn Cure will do it. Try it and be convinced.

Children Cry for Pitcher's Castoria

BY TELEGRAPH.

Parnell Wants a Parliamentary Committee to Investigate the Charges Laid against Him.

Southern Feuds Revived with Fatal Results.—Another Strike Commenced on the Burlington Ry.

LAST NIGHT'S DESPATCHES.

IMPERIAL PARLIAMENT.

LONDON, July 9.—In the House of *Commons to-night Mr. Wm. O'Brien* announced the death of Mr. Mandeville, the President of the Mitchelstown Board of Guardians, who was a fellow prisoner with Mr. O'Brien in Tullamore jail last winter. Mr. O'Brien declared that Mr. Mandeville had been murdered by the brutal treatment at Tullamore prison and asked Mr. Balfour if the Government would make an enquiry into the case. Mr. Balfour replied that the existing system of the law was sufficient to secure an order for an enquiry if any were necessary. Mr. O'Brien was not satisfied with this assurance and announced his intention of challenging the opinion of the House on the question. Sir. Wilfred Lawson, Liberal M. P. for Cockermouth, asked whether the Government intended to grant a committee of inquiry into the charges brought by the *Times* against the Nationalists. The Right Hon. W. H. Smith, the Government leader, replied that the House was incompetent to enquire into the charges but the proper inquiry could be obtained at the proper tribunals. Mr. Parnell gave notice that he would move for the appointment of a committee to enquire into the authenticity of the letters produced in the O'Donnell libel suit against the *Times* and contained serious charges against himself and other members of the Nationalist party. He said that on Thursday he would ask the Government to fix a day for the discussion of the notice in order to give him an opportunity to repel the foul and unfounded charges made during the trial by Attorney-General Webster.

A GOOD BEGINNING.

LONDON, July, 9.—The Canadians at Wimbledon commenced competing today; there was no emportant contest. The fact that the team beat Cambridge last week by 18 points at the Queen's ranges and that good averages were secured durang the practices despite the bad weather, encourages the hopes of success at Wimbleton.

THIS MORNING'S DESPATCHES.

SALE OF YEARLINGS.

LONDON, July 10.—The sale of yearlings has just concluded at Newmarket. One yearling brought 4000 guineas, several 15,000, others from 1,100 to 2,300.

PACIFIC HALIIUT FISHERIES.

BOSTON, Mass., July 10.—Ex-Mayor Robinson, of Gloucester, and Samuel G. Roal, left the city this morning for Seattle, W.T., to look over the situation there relating to halibut. Capt. Solomon Jacobs has recently arrived home from that vicinity and gives glowing accounts of the possibilities of the Pacific fisheries. Halibut is becoming more and more scarce in Atlantic fishing grounds.

KILLED HER HUSBAND WITH A HOE.

GRAFTON, Neb., July 10.—The coroner returned from Ohiowa, in this county, to-day, where he held an inquest in a peculiar murder case. Bernard King, a farmer, and his wife were hoeing in a cornfield, when the latter remonstrated with King for paying too high a price for a pair of boots. A quarrel ensued, and they belabored each other with hoes. Mrs. King struck her husband a violent blow with her hoe blade, from the effects of which he died. She left the body lying in the corn field until the arrival of the coroner. The murderess is under arrest.

A NEW CABLE WANTED.

LONDON, July 10.—Telegraphic communication with Australia and New Zealand is entirely suspended. A special steamer will leave Java on Thursday, 12th inst, carrying telegrams for Australia and New Zealand which should be dispatched from London not later than 8 p.m. to-morrow, Wednesday. This interruption has revived interest in the cable via Vancouver to Australia, and pressure is being brought to bear on the imperial government to grant the subsidy asked for, which would guarantee the success of the enterprise.

THIS AFTERNOON'S DESPATCHES.

AFTER THE CIGAR MAKER.

KINGSTON, July 10.—Sir. John MacDonald has brought a suit against a cigar merchant named Michaels for $3,000 for using his name as an advertising dodge without his sanction.

REPUBLICANS VICTORIOUS.

WALLA WALLA, July 10.—The municipal elections has resulted in almost a complete victory for the Republicans.

SMALLPOX IN MONTANA.

HELENA, Mont., July 10.—A Deer Lodge special to the *Independent* says: Lucien Woolfolk died of small pox here yesterday. His sister had a slight attack of the disease first but recovered. Two more cases are reported this morning. Exery precaution will be taken to prevent a further spread of the disease.

GREAT FIRE.

SUISAN, Cal., July 10.—The total loss by yesterday's fire is estimated at five hundred thousand dollars and the insurance about one fourth of that sum.

PARNELLS' OPINIONS.

LONDON, July 10.—In an interview Parnell says he believes the home rule movement will result in the establishment of an Imperial parliament, in which England, Scotland, Ireland, Wales and the colonies will be represented. Each country would have separate legislature to manage its local affairs. The Imperial parliament, he thought, would supplant the House of Lords. Parnell does not believe the next election will result in the return to the house of commons of a majority of less than 120 Gladstonians.

PARNELL WANTS AN INVESTIGATION

LONDON, July 10.—There have been rumors flying about for two days that Parnell was to be proceeded against for high treason. They were absolutely baseless, however, for on the contrary he proposes to take one day at least in the discussion of his right to an investigation at the hands of the Parliamentary Committee. The ministry wishes to drop the matter, so far, at least as parliament is concerned. An extension of the session is becoming almost inevitable, and if the present session is not extended a month or two over the regular time an autumn sitting will be unavoidable.

LOTTERY DRAWING.

NEW ORLEANS, July 10.—First prize 35567, second 53469, third 47843, fourth 88959, fifth 81749, sixth 60711, seventh 77443, eighth 93092, ninth 64941, tenth 68124.

ANOTHER BURLINGTON STRIKE.

KANSAS CITY, Mo. July 10.—All brakemen on Chicago Burlington & Quincy railroad struck at 11:30 o'clock this morning.

ANOTHER SOUTHERN FEUD.

KNOXVILLE, Tenn., July 10.—A feud which has been existing between the Rose and Fuston clans, culminated in a terrible tragedy on Sunday in Laurel Fork meeting house, near Jellice. Rose was seriously wounded a few weeks ago by Fuston. After that Rose shot at Fuston from ambush and clipped off an ear. Since then the feud has grown intensely and friends of both parties laid in a liberal supply of shot guns and Winchester rifles. On Sunday morning while the minister of the little church was in the act of announcing the text of worship, the people were thrown into a state of excitement by the crash of fire arms. The battle begun outside between the two who blasted away fiercely. When all was over Ewell Lawson and son John, aged 13, belonging to the Rose faction, were found dead riddled with bullets. Three of the Fuston boys and John Porter were seriously and most likely fatally wounded. A dozen others were more or less seriously wounded. This fight does not end the matter as more trouble is expected every day. Much excitement prevails in the vicinity.

Late Canadian News.

HALIFAX, July 3.—A sensation has been caused here by the publication of the fact that a girl, named Dillman, whose evidence at the trial a few months ago, formed almost the sole basis for the conviction of Wm. Preeper for the murder of Peter Doyle, has admitted that her statements were altogether false. Preeper was granted a new trial and is now in jail awaiting it.

REGINA, July 5.—The Hon. Joseph Royal was sworn in, in the council chambers at 3 o'clock yesterday. There was a guard of honor, of mounted police in command of Inspectors Norman and Draynor. The council chamber was filled with spectators including many ladies. Ex-Gov. Dewdney was present.

QUEBEC, July 6.—The Mercier government has increased the members' indemnity from $600 to $800 per session.

OTTAWA, July 6.—It is announced that Major-General Cameron, son-in-law of Sir Charles Tupper, is to succeed General Oliver as commandant of the Royal Military College at Kingston. It is hinted that Maj.-Gen. Cameron had been brought from England with the view of succeeding Gen. Middleton.

Terrible forests fires are raging on the line of the Canada Atlantic Road between Montreal and Ottawa. Eighteen miles of track and many cars were destroyed. At McCaulay's Landing, three mills and a number of houses have been destroyed.

It is said Collingwood Schreiber intends resigning his position as chief engineer and superintendent of government railways to join the Canadian Pacific at a higher salary and higher position.

TORONTO, July 6.—The chair of political science in Toronto University has been filled by the appointment of W. J. Ashley, M.A., lecturer at Lincolo and Corpus Christie College, Oxford. There were thirty-three applicants for the position.

Mr. and Mrs. Herbert Stratton, faith-cure spiritualists, were charged before a magistrate yesterday afternoon with obtaining money under false pretences, by Mrs. Thomas, who paid them for going through certain contortions and antics to produce a cure of heart palpitation and a crippled leg from which she suffered. The magistrate fined the man $75 or three months, and the female member of the firm was directed to pay $50 or go to jail for 30 days.

WINNIPEG, July 7.—A man named Haskin, who has been in delirium tremens, fell or jumped out of the third story of the Leland House this morning and was instantly killed. He was attired only in his night shirt.

SILK RIBBONS!

Those of our readers who would like to have an elegant, large package of extra fine, Assorted Ribbons (by mail), in different widths and all the latest fashionable shades; adapted for Bonnet Strings, Neckwear, Scarfs, Trimming for Hats and Dresses, Bows, Fancy Work, &c., can get an astonishing big bargain, owing to the recent failure of a large wholesale Ribbon Manufacturing Co., by sending only 25 cents (stamps), to the address we give below.

NEW ADVERTISEMENTS THIS DAY.

Removed.....Major & Pearson

Daily British Columbian

Tuesday Evening, July 10, 1888.

The salmon run last night was not as good as usual.

A train containing 160 head of cattle arrived from the interior this afternoon

Don't forget to attend Mr. Webb's lecture to-night on "None of Your Business."

The str. Gladys left for up river ports this morning with 20 passengers and a full load of freight.

Dusty streets are again the order of the day, and yet there is no set off in the shape of a watering cart.

The str. Rainbow cleared for Victoria this morning with 12 tons of farm produce and a number of passengers.

The championship baseball match, Vancouver vs. Westminster, for the right and title to the silver cup will be played sometime next week.

An adjourned business meeting of the Y. M. C. A. will be held in the rooms to-morrow night. All members will please attend.

The board of management of the Y. M. C. A. respectfully ask that the members will please make prompt payment of their subscriptions now due.

The steamer Dunsmuir arrived from Nanaimo this morning with a cargo of coal for the Richmond cannery. She leaves on the return trip to-morrow morning.

Another contract has been let for the completion of the Capilano water works into Vancouver. Water is expected to be in the street mains by the end of September.

The residents on the south side of False Creek, Vancouver, are going to name that portion of the city Mount Pleasant. Mosquito Reserve would be more appropriate.

The str. Irving returned from Chilliwhack this afternoon with a number of live stock, a quantity of farm produce and 20 passengers. She goes up to Hope to-morrow morning.

To most children, the bare suggestion of a dose of castor oil is nauseating. When physic is necessary for the little ones, use Ayer's Cathartic Pills. They are safe and pleasant to take. Try them.

One day should not make much difference in real estate, but it is nevertheless a fact that property to-day has taken another bound upwards. Big things in real estate are now confidently looked for in the very near future.

Our correspondent, "Temperance," in another column, is honest and outspoken to a fault, but he gives British Columbians a harder name than they deserve. The lecture in question, we believe, was both funny and interesting.

Fortify the system, by the use of Ayer's Sarsaparilla, against the diseases peculiar to hot weather. This medicine induces a healthy action of the stomach, liver, and kidneys, causing them to prevent the accumulation of the poisons which produce disease.

Last evening at Sapperton, Mr. Fred Devoy launched his sailing boat "Brunette" before a crowd of spectators. The boat is a very pretty little craft, and made entirely by Mr. Devoy, who certainly deserves the highest praise for the skill and ingenuity displayed.

Mr. T. C. Wells, Chemist and Druggist, Port Colborne, Ont., writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure sells well, and gives the best of satisfaction for all diseases of the blood." It never fails to root out all diseases from the system, cures Dyspepsia, Liver Complaint, etc., purifies the blood, and will make you look the picture of health and happiness.

Ald. A. M. Herring, chairman of the finance committee of the New Westminster city council, was in the city yesterday. He met Mr. Van Horne by appointment at 1 o'clock and had a long consultation with that gentlemen. Mr. Herring, accompanied by his family, left on the Premier for Seattle in the afternoon.—*News-Advertiser.*

The Westminster and Southern Railway scheme and bonus by-law were all the talk on the streets to-day. With the exception of one or two who are supposed to have "other fish to fry," everybody seems favorable to the project and to the granting of the bonus. The general opinion is that Westminster has at last obtained a chance which will put her on an even footing with her most enterprising rivals.

Children Cry for Pitcher's Castoria

A Catastrophe!

We come out with only one side to-night, not as a matter of choice, but our other side met with a reverse this afternoon while going to press that completely annihilated it. In the language of the printer "one of our forms was 'pi'd.' We don't want any one to say, however, that THE COLUMBIAN is one-sided. We shall appear again in our usual form as soon as possible.

In their New Offices.

Messrs. Major & Pearson, real estate, insurance and financial agents, have just taken possession of their new offices in the Bank of B. C. building, opposite the postoffice. These offices are on the ground floor, easy of access, and are among the finest and most commodious offices in the city. See adv. in another column.

Lively Cricket.

From an English paper just to hand we clip the following which shows how they "do it" in the old country:—"For really lively cricket this season one must go to Alveston, in Gloucestershire, and choose a day when Dr. E. M. Grace is playing for the Thornbury Club. On Monday Thornbury got out Wooton-under-Edge for 51, and than went in and made 654 for six wickets. The first wicket fell at 357, and "E.M." made 145, C. J. Robinson 199, T. Robinson 128, and A. H. Grace 104. Next day the British Medicals retired for 85, and then fielded out while Thornbury knocked up 396 for five wickets. "E.M." having 202 for his share."

"Nails in His Coffin."

Last night in the Odd Fellows' Hall Rev. J. W. Webb, of Salem, delivered a lecture on temperance entitled "Nails in his Coffin." The lecture was given under the auspices of Dominion Lodge, I. O. G. T. Rev. Mr. Hemlaw occupied the chair. The lecture was very enjoyable from beginning to end and was one of the most interesting delivered in Westminster for a long time. The rev. gentleman has an extensive fund of humorous anecdotes which he tells in a very amusing and witty style, and he has a happy way of keeping the audience interested by not dwelling on the one subject too long. To-night Mr. Webb lectures on "None of your business," which, if it is half as interesting as that delivered last night, will be well worth attending.

City Council.

The council met last night at 8 o'clock for the transaction of business. Present, His Worship Mayor Dickinson and Aldermen Elliott, Shiles, Hoy, Calbick and DeBeck.

COMMUNICATIONS.

From Mrs. Emma Gold asking the council to clear the street opposite her house on Royal Avenue, and asking permission to use the stones on the park grounds for making a stone fence. Referred to the board of works.

From Andrew Leamy, for the sisters of St. Mary's Hospital, asking for a remission of taxes for this year. Laid over for consideration.

From the Burland Litho. Co., Montreal, stating 7,500 folders had been forwarded. Received and filed.

From H. V. Edmonds, calling attention to the drainage on the street in front of his house. Referred to board of health.

From M. Sinclair, asking permission to place lumber on Carnarvon street for building purposes. Leave granted.

ACCOUNTS.

A. G. Smith, $12.25; N. W. Gas Co., $206.95; *British Columbian*, $31.15; T. J. Trapp, $1.25; D. McBrown, $19; F. Forest, $75.75; G. W. Gilley, $1,150.

REPORTS.

The clerk read the financial report for June.

Moved by Ald. Shiles, seconded by Ald. Hoy, that a cheque for $50 be drawn in favor of Mr. Whiteside as caretaker of the police court. Carried.

Moved by Ald. Hoy, seconded by Ald. DeBeck, that the clerk be instructed to write Mr. Bole, Q.C., and request him to convey to the city, forthwith, all monies collected by him for the corporation. Carried.

Ald. Shiles gave notice that he would introduce an amendment to the revenue by-law at the next meeting of the council.

Ald. DeBeck said complaints had been made to him that the impounded dogs make such a terrible howling at night that the rest of people in the vicinity of the lock-up is disturbed.

His worship said he would have the nuisance abated.

Council then adjourned for one week

Langley Gleanings.

Last week Mr. R— —, of Langley, employed a number of the gunners of Langley to hoe his potatoes. Dan and David started to work, and at the eleventh hour Johnny appeared and commenced work, but not hoeing potatoes. Being the 4th of July, the game was the battle of Bull's Run, which was commenced with hoes and finished with deadly yells, until some one coming, the belligerents hid among the potatoes. At a martial inquest held next day the verdict was, "No one hurt."

The mayor of Murrayville has gone on a visit to New Westminster for a few days.

The esteemed Highland piper, D. S. Murray, has left Murrayville to take charge of a cannery at the North Arm.

Wm. Murray, proprietor of the Travellers' Home, has commenced to move that vicinity of Murrayville into the town on rollers, and is ready to move any party to other parts of the province.

As your correspondent was travelling to Yale the other day he met with four hunters who started out to kill a calf for veal. Each one of them shot at the calf, which took to the bush, and after a long search it was found lying down chewing its cud. One of the party grabbed him by the hind leg and held him till the rest came up with a dirk and cut his throat from ear to ear. The calf died about an hour later.

SETTLED AT LAST.

The Westminster, Bellingham Bay and Seattle Railway Scheme---The Proposition to the Council.

For many months the Southern Railway scheme has been a mystery to the general public outside of the chosen few into whose hands the charter of the proposed road was delivered by the board of trade. The gentlemen who have had the negotiations in hand to bring about a connection with a railway south of the line have taken many trips to Seattle, Whatcom and other places, errands which were not understood and the result of which could not be ascertained by the most prying. Naturally the people were begining to grow a little impatient when so many months went by without an arrangement being reached, but, as preliminaries are settled now and there is no further use for concealment the COLUMBIAN takes much pleasure in laying before its readers as complete a statement of the actual standing at present as space will allow. A railroad is not like a chicken coop, it can't be built in a day. And if the negotiations seemed longer in reaching a head than was necessary it must be remembered that there were many obstacles to be overcome, many matters to be looked into and thoroughly investigated, and the necessary arrangements made for securing ways and means for construction, all of which naturally occupied much time.

Last night, after the regular meeting of the council adjourned, Ex-Senator Canfield, president of the road, and Mr. S. Baxter, one of the executive directors, met the mayor and aldermen and made a proposition to them which substantially means that the city gives a bonus of $150,000 to the railroad, $100,000 to the bridge and provides the necessary grounds for the erection of the station house, freight sheds, car repairing and machine shops, also right of way through city. The company also asks exemption from taxation for 25 years. In consideration of this the company agrees to build their car and machine shops in Westminster, and all repairs for the entire rolling stock of the road will be made in their shops in the city. The workshops will employ at least 200 men and when the carshops are ready for operations this number will be largely increased. The company will also inaugurate a tri-weekly steamboat service between this city and Whatcom and another steamer will connect to Seattle. When the line is built to Whactom, the time to Seattle by rail and water will be 8 hours shorter than from Vancouver to Seattle.

CONDITIONS.

The bonus voted by the people will not be required *en bloc*. When the first 10 miles is completed the city will pay the company $50,000, at the completion of 20 miles, $50,000 more and when the line is finished to the boundary, and trains running, the balance of the bonus is to be paid.

The company will draw up plans of a railway and traffic bridge which the city will lay before the government for approval, and when the right to build on these plans is granted the company will commence work forthwith on the bridge and finish its construction as rapidly as possible. Until the bridge is ready for traffic no portion of the bonus will be granted to the company. In the interval between the commencement of the road and the completion of the bridge the company will main a railroad ferry, capable of carrying a train, on which all trains to and from Westminster will be conveyed. Work is to be commenced on the road between Westminster and the boundary within 30 days from the time the bonus bylaw is passed by the people, and the road is to be completed and trains running to Whatcom by the 1st of July, 1889.

The council considered these propositions and conditions satisfactory and have instructed the city solicitor to draw ap a bonus bylaw which will be laid before the people to vote on at the earliest possible day.

THE ROAD.

The entire length of the New Westminster, Bellingham Bay and Seattle Railroad will be 146 miles. The line from this city to Whatcom runs through a country with comparately few engineering difficulties to overcome, but from Whatcom to Seattle the country is rugged and some portions of it will be expensive construction. The main line will not touch at either Blaine or Semiahmoo, but the company intend running a branch line to these towns if the inducements offered are satisfactory. The road is to be perfectly independent of any transcontinental railway, but all companies will have running powers over it on equal terms. Overtures have been made to the holders of the charter to sell or give exclusive rights over the road, but all have been refused, as the company consider the line of too much importance to be at the mercy of one of the great trans continental railways. Yesterday morning a party of engineers commenced work at Seattle locating the line northward, and Mr. Arthur Hill, C.E., of this city, who has been appointed assistant chief engineer of the road, will commence the location of the line, from Westminster to Whatcom, in a few days. If the bonus bylaw is carried, contracts for the construction of the road will be let without delay and as much work as possible done before the rainy season commences. Ample capital has been secured to build the American portion of the road and no hitch is likely to occur in the monetary arrangements, and if Westminster passes the bonus by-law and carries out her portion of the agreement the railroad is assured within the time specified. A wise liberality on the part of Westminster can only result favorably for her. The company gives the city first-class security that the agreement will be carried out to the letter. The present officials of the Bellingham Bay and Seattle Railway are ex-Senator Canfield, president; S. Baxter and J. H. McGraw, executive directors; C. M. Sheafe, general manager; W. A. Jones, chief engineer; Arthur Hill, C.E., J. T. Sheets, C.E., and J. C. Scurry, C.E., assistant chief engineers. The names of the officials of the Westminster Southern were published a few weeks ago.

PROSPECTS AND PROPERTY.

The proposed road will run through much valuable agricultural land from which considerable traffic is expected. It will also give communication to a large tract of country which at present is inaccessible, owing to lack of transportation facilities. Railroads create traffic, and this one is not expected to prove an exception to the rule. It is estimated the country through which the railroad will run contains within the 2½ mile belt, on each side of the line, 12,000,000,000 feet of marketable lumber. This only includes timber that cannot be taken out by water, and is bound to furnish an immense yearly revenue to the company as the lumbering interests are developed. The company have acquired a certain tract of land on which are the richest coal beds yet discovered on the Pacific coast. This land has been partially prospected by Major Jones, of the United States corps of engineers, who reports the discovery of a number of seams the largest of which are 3 ft. 6 in., 3 ft. 6 in. and 4 ft. Between the two latter seams only a foot of shale intervenes. On the same property are beds of iron ore which are practically inexhaustable. The iron assays 56 per cent. and the bed is 125 feet wide by 13,000 feet deep, which means thousands of millions of tons of iron. The coal assay gives 81 per cent. pure carbon, the richest yet discovered on the Pacific coast, and it is almost free from sulphur. The coal beds are highly tilted and can be economically worked. The engineer estimates the coal in sight at 15,000,000 tons, and being immediately contiguous to the line of the proposed railway it will be easily mined and marketed. The iron is of low grade but inexhaustible, and, in consideration of cheap coal, coke and charcoal, all of which are convenient, the iron can be turned into pig at a very low cost. This taken into consideration with the fine shipping facilities makes the combination of coal and iron an exceeding valuable property. These iron and coal mines will be opened and worked as soon as the line is built, and when the coal is placed on the Westminster market it is not expected to cost the consumer more than $5 per ton. Capt. E. S. Scoullar and Mr. Drysdale, in company with a mining export visited these properties and examined for themselves the coal seams and beds of iron ore. They found them to be exactly what the company had stated. On these properties, which are valued at $15,000,000, the company will raise the necessary funds for constructing the road and developing the mines. The presence of coal and iron in such vast quantities places the building and final success of the road beyond doubt. Engineers, in the employ of Mr. Canfield and his colleagues, have been prospecting the country for two years, and the prospects and proposed line would have been made public sooner but for the important discoveries made by them, which had to be acquired by the company to ensure its success. The business like manner in which Messrs. Douglas, Hendry, Scoullar and Drysdale have conducted the negotiations up to the present should be heartily commended by the people of Westminster, and if the bonus by-law meets with the success it deserves when voted on, the results of the indefatigable labors of these gentlemen will soon be felt and appreciated by everyone who has the interests of Westminster at heart.

Worms cause feverishness, moaning and restlessnes during sleep. Mother Graves' Worm Exterminator is pleasant, sure, and effectual. If your druggist has none in stock, get him to procure it for you.

From Mount Lehman.

(Correspondence of the Columbian.)

The examination of Mount Lehman public school, of which Mr. D. W. Sutherland is the popular teacher, took place on the 29th ult., in the presence of the following visitors: E. J. Thomson, Robt. Coughlan, A. McCallan, trustees; Mr. E. W. King, Mr. E. W. Douglas, Mr. S. J. Westcott, Mr. John Long, Mr. C. M. Nicholson, Miss P. W. Nicholson, Mrs. Robert Coghlan, Mrs. Nicholson Miss P. M. Nicholson, Mrs. A. McCallam and Mrs. R. H. Sweeney. Fourteen pupils were present and the examination of the children resulted satisfactory, the progress of the year being marked. It is a matter without doubt that Mr. Sutherland possesses excellent methods of teaching and also of keeping good order amongst his pupils and is also a general favorite with them in the school. Mr. Sutherland is but a young man, this being his first school in the province. He has been very successful and is well deserving of the many thanks tendered him by the board and parents. The rolls of honor were awarded to Kate C. Nicholson for general proficiency, Johnny McCallum, regularity and punctuality. Emma A. Nicholson for deportment. The daily average each month for the year was Aug. 14, 70; Sept. 13, 90; Oct. 13, 71; Nov. 16, 05; Dec. 15, 41; Jan. 16, 77; Feb. 17, 80; March 13, 14; April 12, 10; May 12, 18; June 12, 85. At the last annual election for school trustees Mr. Robert Cohlan was elected by acclamation. The secretary-treasurer's report was all but satisfactory. It appears that the district is heavily encumbered and that the limbs of the law are enjoying a handsome profit from it, owing to the questionable dealings of the late board in not paying those whom they were indebted to for work, which they could have done had they acted economically with the appropriations trusted to their care by the government. It should be the duty of a trustee board to act honestly with the appropriation granted for the benefit of the school district which they represent and to make the school and its surroundings the pride of the district instead of dragging it into disgrace. It is also discouraging to the government to grant extra sums when the money is not honestly used, as of course all such squanderings will in the end be shaped for the shoulders of the government. We feel confident that the result of the late election will bring about a different system and that the appropriation for the present year will be used in the year for which it was granted and that none of it will go to cover up in any way the extravagance of the past.

Haying has commenced and the crop is heavy; in fact crops of all descriptions are very heavy this season, more so than for a number of years. Mr. John Sprott, government road inspector and Mr. Geo. Turner, C.E., visited Mount Lehman on road business lately and located a new road to the landing. The folks of Mount Lehman who attended the grand picnic at Capt. Thomson's on the 27th expressed themselves on their return as highly pleased with the occasion and the hospitality shown them. In the sports Mount Lehman boys did creditably. The Royal City Mills tug "Stella" arrived here on Saturday last and towed away a raft of fir piles which were taken out here for the R. C. Mills. These piles are to be loaded by the ship "Puritan" now lying at the above named mills at Westminster. This is the first shipment of timber for foreign ports from Mt. Lehman. The Matsqui Prairies are fast losing their water colors, and the next scene they will present will be a sand finish. The steamer "Gladys" landed here a few days ago a handsome thoroughbred Durham bull for the Maple Grove Dairy Co., of Riverside. This beauty, I am told, was imported from California. The people of Riverside and Upper Sumas have greatly felt the need of a wharf at Riverside landing this summer, so much so that they have had to use Mt. Lehman landing to a great extent. The mosquitoes are quite numerous, not so much so yet as last summer, but they appear to be extra sharp, and are possessed of a ravenous appetite.

Henry Clement, Almonte, writes: "For a long time I was troubled with chronic rheumatism, at times wholly disabled; I tried anything and everything recommended, but failed to get any benefit, until a gentleman who was cured of rheumatism by Dr. Thomas' Eclectric Oil, told me about it. I began using it both internally and externally, and before two bottles were used I was radically cured. We find it a household medicine, and for croup, burns, cuts, and bruises, it has no equal."

Communications.

An Honest Opinion.

EDITOR COLUMBIAN.—At the lecture last evening a patron expected to hear a very funny and interesting lecture on temperance, but was disappointed in that it was not funny. The lecturer stated that we had a right to kill King Alcohol. Maybe we have, but it is taking away the liberty of every British Columbian in the land, who must have the intoxicant or die. TEMPERANCE.

PARMELEE'S PILLS possess the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, so great is the power of this medicine to cleanse and purify, that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P.O., Ont., writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well."

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria
