NOTES AND COMMENTS.

An exchange ssys:—Since the German emperor is to visit his royal brother of Spain, it is likely the two potentates will greet one another with a kiss, as monarchs of their rank are wont to do. Should it happen that the Spanish king turns away from the embrace and even dashes his fist into the emperor's face diplomatic intercourse between the two nations will not cease, for the Spanish king is still in long clothes.

Opinion in British Columbia is on the side of no compromise with the commercial union movement, and is well voiced by the BRITISH COLUMBIAN: "The eager and misdirected zeal of the Wimanites and Shermanites to tie us up into an inextricable knot with the United States, will, we believe meet with a well-deserved rebuke from every true Canadian. Miss Canada is perfectly willing to be a 'sister' to Uncle Sam, but his spouse, never!"—*Toronto Empire.*

Albert Newell, of San Francisco, Cal., says an exchange, has recently returned from Honolulu. He says that King Kalakaua is in very poor health. Kalakaua has been devoting himself to literary work of late during the daytime, and has played poker a good deal at night. Lack of sleep and worry over the unsatisfactory condition of government affairs have made him thin and nervous. He smokes constantly, and the Hawaiian minister of statistics has never been able to count the number of cigarettes he destroyes in twenty-four hours.

The following rather amusing incident was pubished recently in the St. John *Globe*: The atmosphere has got to be very frigid when Collingwood Schrieber gets left. A few days ago—during his late tour of inspection—Mr. Schrieber had occasion to go over one of the branch lines of the Intercolonial in Nova Scotia. Everything appeared to be moving along swimmingly. The section men were working like beavers, the perspiration rolling from every pore, and everybody appeared to be earning his salary. Mr. Schreiber smiled patronizingly, professed to be greatly pleased, and moved along. Three miles from where the section gang were laboring so hard, he ordered his train to be stopped, and then be backed down two miles. This was done, and then Mr. S. got out and walked the remainder of the distance. When he reached the spot where the men had been perspiring a few minutes before there was not the slightest sign of life to be seen—everything was as still as the grave. The section foreman was sent for and his time book examined, when it was found that full time had been given all the men for the day. Not being able to give satisfactory answers, the track-master was summoned. His explanations were also so unsatisfactory that Mr. Schrieber ordered the dismissal of the whole batch of men.

Blakely Hall, in the New York *Sun*, says of Canadians and Sir John Macdonald: "It (Canadian manner) strikes me as being a combination of French sauvity and English hospitality. At all events the manner of the Canadians of the higher class is admirable and amiable. Sir John Macdonald I found to be as soft and affectionate-spoken a man as I ever met. He looks like the late Lord Beaconsfield, talks like Dion Boucicault in the Shaugkran, sits like Mansfield's impersonation of Mr. Hyde, wags a long and impressive forefinger in the fashion that should raise the ghost of Inspector Bucket. What seemed to impress him most was the sad and incomprehensible depravity of American politicians in using the fishery and other questions for political purposes. He spoke so eloquently and pathetically on these points that for a time I was seriously affected. Then it slowly came back to my memory that Sir John is perhaps the most crafty, gawky, merciless, accomplished, strategic and masterful schemer known to the political world of this or any other country to-day, and I ceased to be sad like a shot. He has had a grasp of the reins of power in Canada that nothing has been able to shake for 47 years, and, if all signs are not erroneous, he is likely to keep on steering the Dominion for 47 years more. After that, it is currently reported that he will go to Europe and accept a peerage, the premiership or some such interesting chunk of greatness, and settle down to enjoy life. At present I do not think Canada could do without him, for his name here, like Gladstone's in England, is in the mouth of everyone you meet."

Another Break in the Cornwall Canal.—Serious Railway Accident on the Northern Pacific.—Canadian Pacific's Profits for 9 Months.

LAST NIGHT'S DESPATCHES.

LORD SACKVILLE'S LETTER.

LONDON, Oct. 27.—Lord Salisbury still remains at Hatfield, whither several cablegrams from Lord Sackville have been forwarded admitting and regretting his having written the obnoxious letter. Telegrams have also been forwarded to the premier from Secretary Bayard urging, in view of the approaching presidential election the imperative necessity for a change in the person of the British representative at Washington in order to calm popular excitement. Minister Phelps and his wife proceeded to Hatfield House this afternoon where they will remain until Monday. Mr. Phelps and Lord Salisbury had a long conference in the library immediately after the former arrived. Mr. Phelps enlarged upon the necessity of prompt action in order to repair the disaster, and made a special point that by treating Murchison as a British subject entitled to his advice, despite the fact that he had stated he was a naturalized citizen of the United States, Lord Sackville had disregarded and violated the understanding of 1871, when Secretary Fish obtained England's recognition of the American doctrine of naturalization. Lord Salisbury admitted this was a most serious point of view of Lord Sackville's conduct. The matter is made still more annoying to Lord Salisbury inasmuch as Lord Sackville's appointment was originally attributed to the influence of his sister, the second wife of the late Marquis of Salisbury, since married to the present Earl of Derby.

TO-DAY'S DESPATCHES.

ANOTHER BREAK.

MONTREAL, Oct. 29.—A new break has occurred in the bank of the Cornwall canal. This additional break means a practical stoppage of navigation on the St. Lawrence route, as it will be impossible to repair it in time, the season of navigation closing in about three months. The loss to merchants and forwarders in Montreal by these breaks will be over a million dollars.

STOPPED BY ROBBERS.

MEMPHIS, Oct. 29.—Near Newport, Ark., yesterday afternoon the eastbound passenger train on the Iron Mountain road was stopped by robbers who secured two thousand dollars from the passengers.

AGAIN ON STRIKE.

MONTREAL, Oct. 29.—The Italians working on the Hereford Railway have gone out on strike and have taken possession of the company's camp and stores at Sawyerville. The strike is the result of the company's refusal to pay the men for declining to sign a contract to continue in their employ until the railway is completed, and also submit to reduced pay.

AN INTERVIEW.

LONDON, Oct. 29.—Lord Salisbury had a private conference with Minister Phelps at Hatfield House, yesterday, in regard to the Sackville affaair. The result of the conference is yet unknown.

THE SNEAK FOUND.

LOUISVILLE, Oct. 29.—The *Courier Journal's* Omaha correspondent declares that Patrick Egan, ex-president of the Irish National league, is the author of the now noted Murchison letter to Minister Sackville West. The correspondent claims to have received his information from a republican editor in Memphis.

NO CAUSE FOR SHAME.

LONDON, Oct. 29.—Commenting on Minister Sackville-West's letter the *Daily News* says: "Lord Sackville has done nothing of which an honest man need be ashamed, but there are blunders which are worse than crimes."

ANOTHER OPINION.

LONDON, Oct. 29.—The *Daily Telegraph* says: "Nothing can excuse the incontinence of Lord Sackville's pen except his transparent good faith and candor.

ANOTHER ATTEMPT ON THE CZAR.

ST. PETERSBURG, Oct 29.—A telegram to the minister of the interior says that five minutes before the Czar's train arrived at Kutais yesterday, en route from Tiflis to the Black Sea, a Kouban Cossack, disguised as an officer, was arrested at the station for having on his person several hand explosives and some poison in gelatine capsules. When arrested the man attempted to poison himself. He was one of the founders of the South Russian revolutionary society.

CARS DEMOLISHED.

GILROY, Cala., Oct. 29.—The breaking of the brake beam and coupling on one of the cars caused the wreck of a freight train of 50 cars near here yesterday, 26 cars were demolished.

ADVANCE CONCEDED.

LONDON, Oct. 29.—Thirty thousand men, employed in the Derbyshire collieries, have been conceded an advance of ten per cent. in wages.

THE MANITOBA TROUBLES.

WINNIPEG, Oct. 29.—The government has not yet resigned owing to the urgent representations of its friends that such action would precipitate a grave state of affairs and leave the province in a hopeless condition. The constitutional course would be to resign immediately, but the government feels that the people are a unit with them in their course, and that to resign would be to play into the hands of the Canadian Pacific railroad. The province continues terribly excited.

SERIOUS RAILWAY ACCIDENT.

BRAINERD, Minn., Oct. 29.—An accident of a somewhat serious character occurred about 12:20 on Saturday night at Wheelock, some 20 miles from here. The Northern Pacific westbound express, to which was attached, among the Pullmans, the Winnipeg sleeper, left the track in consequence of a switch having been carelessly left open by the fireman of a freight locomotive that had been side-tracked. The locomotive and three following cars—mail, express and baggage—left the track and plunged down an embankment, but the remaining cars held the track. The express car caught fire, but the flames were promptly subdued. The fireman, Brown, was killed. The engineer received injuries that will probably result fatal. A young clerk from this town, who was stealing a ride, was buried for five hours in the debris, and, with the engineer and two mail clerks, who were also injured, was removed to the hospital here. The engineer and the drug clerk are believed to have sustained fatal injuries. None of the passengers were hurt. The locomotive and the derailed cars were completely wrecked, and, considering the locality of the accident, it is marvellous that the entire train did not share a like fate. A wrecking train was sent from here and the track cleared after a delay of 12 or 14 hours. The fireman, whose carelessness caused the accident, will be prosecuted.

A SUIT FOR RAILWAY DAMAGES.

NEW YORK, Oct. 29.—Frederic Gebhardt and five of his men and Matthew Storms brought suits against the New York, Lake Erie & Western railway to day, aggregating $190,000, damages claimed for horses and other property destroyed last summer on the New York, Lake Erie & Western in the Shohola, Pa., accident.

RUN DOWN.

DUBUQUE, Io., Oct. 29.—Yesterday a hand car, on which Herman Brade, section man, was conveying to this city his wife, three children and a friend, were run down on a sharp curve on the Burlington road by a special train speeding rapidly from St. Paul to Chicago. The hand car was derailed, and Mrs. Brade and two boys, aged 7 and 12, instantly killed. The baby, thrown by the mother down to the foot embankment, was saved; Mr. Brade and friend escaped.

ARRESTS TO BE MADE.

NEW YORK, Oct. 29.—Capt. McCullough, of the 6th precinct of police, to-day applied for 25 warrants to be used in arresting some alleged colonizers. Arrests will be issued this afternoon, but not used until election day.

Mrs. Jas. G. Blaine is considerably better this morning.

C. P. R. PROFITS.

MONTREAL, Oct. 29.—The gross earnings of the C. P. R. for the first 9 months of the year amounted to $9,371,436, and the working expenses to $7,079,551, leaving the net profits at $2,292,879.

BLAINE'S HEALTH.

NEW YORK, Oct. 29.—Blaine is suffering from a severe cold in the chest, contracted in Newark on Saturday. He says he feels otherwise well. He will keep his engagements in Albany.

AN EMINENT JUSTICE DEAD.

CHICAGO, Oct. 29.—Judge Wm. K. McAllister, of the appellate court, one of the most noted men on the bench of Illinois, died very suddenly at home in Ravenswood this morning, at 70 years of age.

TO A HIGHER TRIBUNAL.

MONTREAL, Oct. 29.—Judge Monk died at 8.20 this morning.

ONTARIO CABINET CHANGE.

TORONTO, Oct. 29.—It is rumored that Hon. J. H. Blake is shortly to enter the Ontario cabinet as attorney-general.

FIGHTING AND BLOODSHED FEARED.

MONTREAL, Oct. 29.—News of a serious and alarming nature has been received from Cookshhire, the scene of the recent riots among the Italian laborers at work on the Hereford railway. The trouble has broken out afresh, and is far more serious than at the time of the first outbreak. The striking Italians are in possession of the company's camp and stores and troops have been again called out. News of a serious fight and bloodshed is looked for every moment.

EARTH TREMORS.

NEW BEDFORD, Mass., Oct. 29.—Two well defined earthquake shocks were felt at 11.25 last night; no damage reported.

FIGHTING AND MURDER.

ZANZIBAR, Oct. 29.—It is reported here that Italians and Sowalis are fighting at Kismayu. Three German messengers were murdered on the coast while enroute to the Upwapwa Settlement. A naval garrison has been established at Bagomyo by the German admiral.

Mr. Henry Harding, of Toronto, writes: "My little daughter, 7 years of age, has been a terrible sufferer this winter from rheumatism, being for weeks confined to her bed, with limbs drawn up, which could not be straightened, and suffering great pain in every joint of limbs, arms and shoulders. The best of physicians could not help her, and we were advised to try Dr. Thomas' Eclectric Oil, which we did, and the benefit was at once apparent; after using two bottles the pain left, her limbs assumed their natural shape, and in two weeks she was as well as ever. It has not returned.

Daily British Columbian

Monday Evening, Oct. 29, 1888.

We are pleased to observe a disposition on the part of the citizens of the royal city to interest themselves in advance in the constitution and policy of our next city council. This is evidenced by the two communications, headed respectively "The First Note" and "Progression Wanted," which appeared in our columns last week, and may be taken as an indication—most gratifying in itself—that the people are going to wake up and take a real live interest in the approaching civic election, with the result that the new council will be composed of the best men that can be selected, and will be pledged to a progressive and energetic policy throughout. As our correspondent "Z" says, "although two months have to elapse before the coming civic election, yet it is none too early to be alive and moving in the matter." This is the right sort of spirit, and one that has not ruled to any extent in the past. With regard to our present civic board, we are more inclined to agree with the opinions expressed by our correspondent of Saturday, to the effect that the council are quite excusable, under all the circumstances, for not undertaking, late in the year, any additional schemes for extensive improvements or new enterprises, involving the issuing of more debentures. The council desire, very properly, we think, that the city should start the year under its new charter with a clean sheet and unencumbered books. We trust that with the new charter the city may take a fresh start and turn over a new leaf all round, and the indications are favorable for such a course.

Without disparaging the present council in any way—they are, of course, not perfect—we would call the attention of the ratepayers to the fact that it is their privilege and their duty to ascertain whether it is possible, for the ensuing year, to obtain, in whole or in part, a better civic board. We believe that it is; and, if so, an injustice will be done to the city if the very best material available is not utilized for the important positions referred to. Next year will be an eventful period in the history of Westminster—a period that must leave its impression very plainly upon the future of the city, and go far toward directing its destiny. This province has just begun to receive the attention which it deserves from the outside world, with which it has comparatively recently been brought into easy communication. A larger movement than ever may be expected next year toward this "gem of the west," of tourists, capitalists, would-be settlers, and employment seekers. That centre of population and activity that for the time being presents the most advantages for all classes will score many marks over less favored localities. It behooves us, then, to look alive and see to it that Westminster is not behind as regards attractiveness and general desirability to the classes that would most benefit us as a city. Important questions, some of which have been time and again thrust in the background, regarding city improvements and other matters, must be grappled with during the coming year; new schemes, necessitating additional loans, undertaken, and a general advance made all along the line. The desirability will thus be apparent of having the most progressive, clear-headed and business-like men obtainable at the head of the city's affairs for 1889.

Under the head of city improvements a great deal requires to be done that can not and must not be longer delayed. Sidewalks and streets must be repaired and kept in order. Some of these are disgraceful now, and have earned for the royal city the unenviable distinction of being the untidiest city in the province. New streets must be opened up and additional sidewalks laid, as the city has already extended beyond these very necessary facilities. A thorough system of sewerage is imperative, as also good city water works, without which neither sewerage nor adequate fire protection can be attained. Some attention must be paid to the æsthetic as well as to the practical, and in persuance of this end some, at least, of our public gardens, parks, terraces and crescents must be redeemed from their native wildness and converted into things of beauty, which shall add to the health, the pleasure and the attractiveness of the city. In view of the provincial exhibition being held at this city next fall, special efforts must be made to have the new city park, as well as all public grounds, streets, sidewalks, etc., in the very finest condition possible. The next annual show, if properly managed, will furnish a rare opportunity for advertising the city, which must not be allowed to pass unimproved. By that time the Southern Railway will be running, and in addition to the large number of visitors that may be attracted from other quarters, our friends south of the line must be invited to give us a call and such arrangements made as will enable them heartily to respond. Much can be done in the way of furthering the success of the next provincial exhibition, in every respect, by the co-operation and assistance of the city council for the ensuing year, and we hope to see this co-operation and assistance readily forthcoming. Our citizens, too, can aid in the most substantial way, the same worthy project. For further particulars, see B. C. P. E. Fund in another column.

First, perhaps, on the list of new city undertakings is the much talked of and long contemplated city market. For years, both under its present and former management, THE COLUMBIAN has advocated the establishment of a market and urged upon the city authorities the advisability and necessity of adopting and carrying out the scheme. Vancouver has not been slow to recognize the advantages of such an institution, and has taken steps which insures it having the first market. Westminster must, without fail, establish a city market early next year. A city hall building, containing besides a public hall, library, and police court rooms, and other city offices, should be erected during the year. The city has been long enough without such headquarters for its civic business, and it is not compatible with its dignity and present and prospective importance, to say nothing of the necessities of the case, to dispense longer with a city hall building. It is altogether probable that the city may find it advisable during the coming year to give substantial aid in some way to new manufactures, such as the proposed large foundry referred to the other day in these columns. A flouring mill and elevator is an enterprise that we may consider it expedient to encourage. Other industries may require fostering, and, second to no matter in importance, we must see to the improvement of our trade relations and communicative facilities with all parts of the district, the province and the outside world. To do justice to the city next year, it will plainly be necessary to borrow a considerable sum of money; but the credit of the city is good, and our debt is small, so that the borrowing of a hundred thousand dollars or over will not be a serious matter, considering, too, that the amount and value of our rateable property is steadily increasing, and promises to do so still more rapidly in the future It may be advisable to adopt a different system of municipal taxation than the one that has obtained heretofore. We refer to taxing property according to its value, including improvements, which, we believe, is the rule elsewhere. We refrain, however, from entering into this subject at present.

Mr. T. J. Humes, Columbus, Ohio, writes: "I have been afflicted for some time with Kidney and Liver Complaint, and find Parmelee's Pills the best medicine for these diseases. These pills do not cause pain or griping, and should be used when a cathartic is required. They are gelatine coated, and rolled in the Flour of Licorice to preserve their purity and give them a pleasant, agreeable taste.

A Sluggish L[illegible]

Causes the Stomach and bowels become disordered, and the whole system to suffer from debility. In all such cases Ayer's Pills give prompt relief.

After much suffering from Liver and Stomach troubles, I have finally been cured by taking Ayer's Cathartic Pills. I always find them prompt and thorough in their action, and their occasional use keeps me in a perfectly healthy condition.—Ralph Weeman, Annapolis, Md.

Twenty-five years ago I suffered from a torpid liver, which was restored to healthy action by taking Ayer's Pills. Since that time I have never been without them. They regulate the liver, assist digestion, and increase the appetite, more surely than any other medicine.—Paul Churchill, Hayesville, Ohio.

INVIGORATES.

I know of no remedy equal to Ayer's Pills for Stomach and Liver disorders. I suffered from a Torpid Liver, with dyspepsia, for eighteen months. My skin was yellow, and my tongue coated. I had no appetite, suffered from headache, was pale and emaciated. Three boxes of Ayer's Pills, taken in small doses, restored me to perfect health.—Waldo Miles, Oberlin, Ohio.

Ayer's Pills are a superior medicine. They strengthen and invigorate the digestive organs, create an appetite, and remove the horrible depression and despondency resulting from Liver Complaint. I have used Ayer's Pills in my family, for years, and they never fail to give entire satisfaction.—Otto Montgomery, Oshkosh, Wis.

Public Notice

THE ATTENTION OF THE PUBLIC is hereby directed to the "Provincial Health (small-pox) By-Laws, 1888," issued by His Honour the Lieutenant-Governor in Council, under authority of the "Health Ordinance, 1869."

Having been appointed Provincial Health Officer for Districts lying south of Fraser River, I hereby give notice that the provisions of said By-Laws will be strictly enforced, and all persons are required to govern themselves accordingly.

R. I. BENTLEY, M. B.,
Provincial Health Officer.

[L.S.] HUGH NELSON.

BY-LAWS ISSUED BY HIS HONOUR THE LIEUTENANT-GOVERNOR-IN COUNCIL,

UNDER THE AUTHORITY OF THE "HEALTH ORDINANCE, 1869."

HIS HONOUR THE LIEUTENANT-Governor of British Columbia, by and with the advice of the Executive Council of British Columbia, acting under and by virtue of the provisions of the "Health Ordinance, 1869," enacts as follows:—

1. Whenever small-pox is present in any locality without the boundaries of any Municipality, the Provincial Health Officer nearest to such locality shall at once cause the patient to be removed to an isolated hospital, tent or other suitable place, or cause such person to be otherwise sufficiently isolated, and shall see that he is properly cared for, and shall take proper measures for the disinfection, or, if necessary, the destruction of all clothing which may have been exposed to the contagion, and for the disinfection and purification of every conveyance, rail-car, steamboat, railway, vessel, carriage, or other vehicle which may have been exposed to the contagion.

2. Such Health Officer shall have, in his discretion, full power to place in another building or tent all persons who may have been exposed to the contagion, and shall cause them to be supplied with all necessaries until the period of incubation of the disease shall have elapsed, and no such person shall go, or be permitted to go, abroad, until he or she has given satisfactory proof of successful vaccination within the preceding seven years, or shall have obtained a medical certificate of insusceptibility to the vaccine disease, nor until the clothing or effects worn or carried by or with him or her have been properly disinfected, if the same have been exposed to contagion.

3. To assist the Health Officer, he shall have full power to employ persons to be nurses, sanitary policemen, and otherwise to aid in the prevention of the spread of the disease, and may himself give and enforce such reasonable directions for the same purpose as to him may seem expedient, and the nearest Government Agent shall see that all articles and necessaries required by the Health Officer are furnished.

4. It shall be the duty of every medical practitioner who shall attend upon, or give medical or surgical advice, to or about any person suffering from small-pox, to give notice forthwith after he shall have commenced so to attend or give such advice, to the nearest Provincial Health Officer. When a householder knows that a person within the house occupied by him is taken sick of small-pox, he shall immediately give notice thereof to the nearest Provincial Health Officer.

5. The Provincial Health Officer before mentioned is and includes any person appointed Health Officer under the "Health Ordinance, 1869," by the Lieutenant-Governor in Council.

6. The foregoing provisions shall have no effect within the limits of any Municipality, save as hereinafter mentioned.

7. In case the Council of any Municipality, whenever small-pox is present, or likely to occur therein, shall fail to make or carry out proper provisions to prevent the invasion or spread of small-pox within the Municipality, and complaint thereof shall be made to the Lieutenant-Governor by the Council of any adjacent Municipality, it shall be lawful for the Lieutenant-Governor in Council, acting upon such complaint or in his discretion upon other information, to order that these regulations shall, until otherwise ordered, apply to and be in force within the Municipality in which such neglect occurs, and thereupon any Provincial Health Officer shall have, within and in respect of such Municipality all the authority with which he is clothed in respect of localities without Municipalities, and in such case all disbursements and expenses paid by the Province, in the carrying out within such Municipality of the foregoing regulations, shall be paid by such Municipality.

8. These regulations may be cited as the "Provincial Health (small-pox) By-Laws, 1888."

Dated at Victoria, this 3rd day of October, 1888.

By Command,
JNO. ROBSON,
doc6ml Provincial Secretary.

Executor's Notice.

ALL PERSONS HAVING CLAIMS against the Estate of the late John H. McInnes must present same, properly verified, to the undersigned on or before the 31st inst., and all persons indebted to said Estate must pay forthwith.

THE GAME OF POLO.

Where It Originated and the Growth of Its Popularity.

Polo, or hockey on horseback, as it is sometimes called, is the national game of the people of Gilgit, a mountainous country to the northeast of Cashmere.

Reports had reached India, by way of Cashmere, that the Gilgittis were a race of blue-eyed Kaffirs (unbelievers in Mohammed), and it was suggested that they were probably the descendants of one of Alexander's settlements, and to solve this question the Punjab government in the spring of 1866, deputed Dr. Gottlieb Lietner to visit the country and inquire into the history and language of the people.

As far as concerns that matter, the language of Gilgit was proved to be a sister language of Sanscrit, and not like Hindi or Greek, a daughter language; but the point of interest for us is that Dr. Lietner took as much interest in the national game of polo as in the language, and persuaded three natives of the country to return with him to British India and bring their ponies and polo sticks along with them.

The party reached Sakon, the capital of the Punjab, sometime in August, 1866, and the game having been discussed at government house a couple of teams were got up and the day fixed for the trial games, which all the European residents turned out to witness.

The teams were composed of Capt. Charles Marshall, Lieut. Pemberton, Lieut. R. Nicholetts, Mr. C. F. Amery, Dr. Leitner, Serdan Mohammed, Hynth Khan, the three Gilgittis and one other, and the game thus inaugurated, rapidly acquired popularity, clubs being established promptly at all the military stations.

The game was played with an energy, and with such speedy ponies of Arab stock that severe casualties were frequent, so much so that considerable pressure was brought to bear on the army authorities to put a stop to it, but they wisely forebore, and the game was soon transplanted to English soil, where it flourished freely, throwing off vigorous shoots for transplantation in America and the British colonies.

It is perhaps the most exciting and exhilarating game known, but it is only centaurs who can play it creditably and enjoy it thoroughly.

MOHAMMED AND MUSIC.

The Prophet Nowhere Encourages the Practice of the Tonal Art.

It is, indeed, remarkable that the founder of the religion of a music-loving people like the Arabs should have been so decidedly indifferent to the practice of the tonal art. For although Mohammed, strictly speaking, was the avowed enemy of the plastic art only, yet nowhere do we find him encouraging the practice of the tonal art.

This is all the more unaccountable, since, notwithstanding the prophet's seeming indifference towards the art, he never denied his descent from a musical nation. For he tells us that when, like Moses, he withdrew into the solitude of the wilderness, there to hold communion with his God, he heard the sound, as it were, of a tinkling bell, and voices singing and calling to him, and on looking, behold, no one was nigh!

Afraid of losing his reason he communicated this strange manifestation to his wife, Chadidsha, and it was entirely owing to her ministering comfort that he took courage, and continued to believe in his Divine mission.

The fact of Mohammed seeking the advice of his wife would seem to indicate that the social position of Arabian women was superior to that of other oriental nations, and it breathes somewhat of that chivalrous spirit which we see now and then reflected in their melodies.

Music also had no important part assigned to it in the early wars of Mohammed. At the battle of Ohod, 625, A. D., in which the victorious Mohammed three times repulsed the Meccanites, the women, led by the poetess Hind, sang to the sound of the timbrel that the victor would be received with open arms.

FENCING IN DUELLING.

The Disposing of Differences by Fighting Originated in Barbarism.

In a country like France where duelling is sanctioned by the social code and practically permitted by the law, fencing must be held in high esteem.

Duelling with swords is certainly a braver and manlier method of disposing of differences than a resort to the brutal and stupid bullet. With us the lesson taught by Hamilton's death has been deep and precious.

It it not thought necessary to prove a man's valor by a personal encounter, and the moral sense of our people, supported by our legislation, likens the killing of a man by a prearranged encounter to deliberate murder.

It is a mistake, however, to suppose that the custom of duelling was a plant indigenous to Latin civilization. Its origin is distinctly barbarous, Scandinavian probably.

It is stated that a Teuton once sent a challenge to Marius. This statesman was so ignorant of what is usual among gentlemen that he declined, simply stating, "If he is in a hurry to die, let him hang himself."

Perhaps the world would be none the worse if the same answer were given in more modern cases.

Good Woman for Colorado.

One of the remarkable women of the age is Miss Cornwell, whose success in deciding upon and estimating the properties of mines has won for her the title of "The Princess Midas." She is English, but in babyhood was taken to Australia.

Five years ago she began to visit mines and to ask questions. She listened to the explanations of theorists, and got practical miners to teach her what they knew.

To the theories and facts thus obtained she added her own intuitions and judgments, and thus developed such a remarkable faculty for determining the values of mines that many persons think she has the gift of second sight.

In the Picture Gallery.

"And I must show you our picture gallery now," said Mrs. Fitzpercy to Mrs. Snagge, who was paying her a visit.

"Thank you, Mrs. Fitzpercy," replied Mrs. Snagge; "if there is anything I delight to look at it is pictures."

"This, now," said Mrs. Fitzpercy, as she pointed at the first picture, "is my great-great-grandfather who came over in the very early days."

"Yes, and who is this lovely woman?" pointing to an adjacent picture.

"That is a Madonna."

"May Donner! What a pretty name! Is she a relative?"—[Pittsburg Chronicle.

A Creaking Hinge

Is dry and turns hard, until oil is applied, after which it moves easily. When the joints, or hinges, of the body are stiffened and inflamed by Rheumatism, they cannot be moved without causing the most excruciating pains, Ayer's Sarsaparilla, by its action on the blood, relieves this condition, and restores the joints to good working order.

Ayer's Sarsaparilla has effected, in our city, many most remarkable cures, in cases which baffled the efforts of the most experienced physicians. Were it necessary, I could give the names of many individuals who have been cured by taking this medicine. In my case it has worked wonders, relieving me of

Rheumatism,

after being troubled with it for years. In this, and all other diseases arising from impure blood, there is no remedy with which I am acquainted, that affords such relief as Ayer's Sarsaparilla.—R. H. Lawrence, M. D., Baltimore, Md.

Ayer's Sarsaparilla cured me of Gout and Rheumatism, when nothing else would. It has eradicated every trace of disease from my system.—R. H. Short, Manager Hotel Belmont, Lowell, Mass.

I was, during many months, a sufferer from chronic Rheumatism. The disease afflicted me grievously, in spite of all the remedies I could find, until I commenced using Ayer's Sarsaparilla. I took several bottles of this preparation, and was speedily restored to health.—J. Fream, Independence, Va. ††

The str. Irving left for Chilliwhack this morning shortly after the arrival of the str. Princess Louise. She took a number of passengers and 25 tons of freight.

The str. Princess Louise arrived from Victoria this morning with 80 tons of freight and 30 passengers. She cleared on the return trip shortly after the arrival of the Pacific express.

Don't forget that Ogle, Campbell & Co. keep the largest assortment of Men's, Women's and Children's Rubber Overshoes in town. All fresh goods, at popular prices. doc29w1

A fine constitution may be ruined by simple neglect. Many bodily ills result from habitual constipation. There is no medicine equal to Ayer's Pills for restoring the system to natural and healthy action.

F. B. Lyttell, business manager for the Annie Firmin troupe, has arrived in town, and expects to be able to make arrangements to play at the opera house on Friday and Saturday nights. The public will be duly notified.

The real estate sale of 400 city and suburban lots is now going on and will continue for one week as advertised. Parties desirous of securing bargains should call upon T. J. Trapp at once. Prices are exceedingly low and terms of payment very easy.

Chronic catarrh usually indicates a scrofulous condition of the system, and should be treated, like chronic ulcers and eruptions, through the blood. This disease has been cured, in hundreds of cases, by the use of Ayer's Sarsaparilla. Price $1. Six bottles, $5.

Two of the Twelve Apostles of the Mormon church, F. M. Lyman and John W. Taylor, are now in the Canadian Northwest. They have completed the organization of the church there and have conferred the Aaronic priesthood on Mr. A. M. Stenhouse, the late member for Comox.

The silver medal for "best all round athlete," presented yearly by the St. Andrew's and Caledonian society to the winner of the most prizes at the annual sports and games, has been awarded to Mr. A. Roe. The medal is very handsomely designed and is certainly something to be exceedingly proud of.

Numerous complaints were made to-day by merchants on Columbia st., concerning the sidewalk on the south side of the street, opposite the Hamley block which, they say, should have been laid a week ago. The merchants say that they have lost considerable trade since foot passengers have been forced to take the other side of the street. It is to be hoped the council will take some action in the matter to-night.

The str. Dunsmuir arrived last evening from Nanaimo with a full cargo of coal. She made the run across, 55 miles, in 6 hours and 25 minutes, which time included 6 stops to load freight and take on passengers. Capt. Rogers is more pleased than ever with his fine craft and declares she can make 12 miles an hour with ease. The saving in fuel is much greater than was expected, being a trifle over 40 per cent., which in itself will be a handsome profit. The Dunsmuir returned to Nanaimo to-day with a full load of merchandise.

Rev. J. McLaurin, Canadian Baptist Missionary to India, writes: "During our stay in Canada, we have used Dr. Thomas' Eclectric Oil with very great satisfaction. We are now returning to India, and would like very much to take some with us for our own use and to give to the natives."

Moody's Visit.

It is announced that Mr. Dwight L. Moody, the great revivalist, will arrive in Westminster on Saturday next and will hold his first meeting at 9 o'clock on Sunday morning at Herring's opera house. Other services will follow during the day at 4 and 8 p.m. Mr. Moody will remain in the city till Thursday, Nov. 8th, and longer if the interest in his meetings does not flag. The opera house will be fitted up with extra seats for the meetings and the stage will be used by the choir. Another practice of the union choir will be held in the Presbyterian church on Thursday evening.

Held Up.

On Saturday as a freighter was going from Windermere to Canal Flate, in the Kootney district, with a load of freight, he was met on the trail by an Indian, who presenting a blunderbus ordered him in tolerably good English to hold up his hands. The freighter seeing himself at the mercy of a ruthless savage, to whom is attributed the killing of two white men some time ago, complied with the request and Mr Indian proceeded to "go through" him and relieved him of $17 cash and his watch and chain and then let him go. This is one instance how the Indian is acting since the police have been away.—*Sentinel.*

A Downright Shame.

A young man and woman of Semilkameen after a courtship lasting nearly six weeks made up their minds to end the suspense at once and get married. With this end in view the happy swain rode from Semilkameen to Granite Creek last week, a distance of over 50 miles, to procure the necessary liscense, but found on arriving there that Mr. George Tunstall was not authorized to grant marriage licenses. Canon Cooper was obliged to leave before a license could be procured, to the great disappointment of the parties concerned, who will have to wait until December for their wedding. A registrar should be appointed for the Semilkameen district.

Hyack Fire Company.

A well attended meeting of the Hyack fire company was held in Hyack hall on Saturday evening. Capt. J. C. Armstrong occupied the chair. The company officers reported having examined the fire apparatus and had found it in a very inefficient condition. Steps have already been taken to put everything in proper repair and fit for service. Considerable time was taken up in discussing the affairs of the company and in maturing plans for the better efficiency of the brigade. Mr. J. S. Clute, Sr., introduced a resolution instructing the secretary to apply to the council for all books, documents and funds belonging to the Hyack fire company. The resolution was carried. After arranging some other business matters the meeting adjourned till Wednesday evening.

Collecting Taxes.

Mr. L. P. Eckstein is the owner of a very valuable piece of property at Port Moody, which city he has so much confidence in that he cheerfully pays his taxes every year notwithstanding the fact he has not yet received any income from his investment. The value of the lot is $6, and taxes on the same 3 cents. The assessment sheet and printing must have cost the government half a cent, the envelop the same, and stamp thereon 3 cents—total 4 cents. All Mr. Eckstein is asked to pay is 3 cents, while the cost of collecting this large sum is 4 cents. The question now is whether it would not be more economical for the goverment to remit Mr. Eckatein's taxes, or allow them to run for 50 or 60 years till they assume such proportions as would pay, at least, the cost of collection. Other instances similar to the above could be quoted were it necessary.

The Steamer Beaver.

The old pioneer steamer, the Beaver, the first steam vessel which ruffled the placid waters of the Pacific ocean, still lies on the rocks at the entrance to the first Narrows. Messrs. Llewellyn & Swift have obtained the contract for raising and intend to carry out the work by means of scows. The latter are, however, so scarce that hitherto they have not been able to obtain them and have in consequence been delayed in carrying out their work. Capt. Swift, late of the steamer Pearl, states that they anticipate no trouble, once scows are placed in position to float her. It is to be hoped they will prove successful in saving the old boat which came around here in '35, even if it is ever after only kept as one of the relics of the old pioneer days. The very fact that scows are so scarce ought to stir up some of our boat and ship builders to construct some right away as it would, to a certainty, prove a very paying speculation.—*Vancouver World.*

A Scow Wrecked.

The str. Clara Port started for Pitt Lake yesterday afternoon with a house-scow, in which was a number of Chinamen, in tow. When directly opposite the C.P.R. wharf the towing line broke and the scow turned half over, and it seemed for a time that it was going to sink. The dip of the scow prevented the Chinese leaving by the door, and the only means of getting out was through the stove pipe hole in the roof. A few seconds after the accident occurred a top-knot was seen to bob up through the hole and a second afterwards the whole Chinaman was on the roof calling in the most pathetic Chinese language for assistance. He was shortly reinforced by the rest of the Celestials, whose united cries were enough to drive all the fish out of the river, and which probably accounts for the small catch of salmon last night. The Clara Port ran alongside and took the frightened Celestials aboard, after which a rope was made fast and the scow towed ashore in a sinking condition.

Children Cry for Pitcher's Castoria

Hustling for the Show.

Mr. E. A. Sharpe, of Lulu Island, of the firm Sharpe & Paine, one of our best known and most enterprising and enthusiastic farmers, was in the city to-day and called at this office to pay over the $10 which he had the honor to be the first after THE COLUMBIAN to contribute towards the B. C. Provincial Exposition Fund. We appreciated Mr. Sharpe's promptness and the confidence he showed in us by trusting us with the money, but referred him to the conditions at the head of the list in this paper and reminded him that we did not receive the money, but merely gave our space for the publication of the subscription list. Mr. Sharpe is enthusiastic about having a fine exhibition next fall, and will further it in every way himself. He says Westminster is just the place, but expresses astonishment that some of the business men and prominent citizens are so slow in "coming up" in the matter of the "fund." Mr. Sharpe even goes so far as to say that a man with a club ought to go round and "argue" with some of them. We know of no man more capable to be at the little end of the club than the genial Mr. Sharpe himself, and the style of "argument" suggested would no doubt prove very effective.

WESTMINSTER WINS!

Exciting and Interesting Game of Foot-Ball--Vancouver Literally Played Out.

The foot ball match which was postponed on Saturday owing to the heavy rain was played this afternoon on the cricket grounds. The Vancouver team, accompained by a number of supporters, arrived on the noon train and after lunch at the Colonial proceeded to the grounds. The competing teams were composed as follows:—

Vancouver—Boultbee, Downs, Williams, Johnson, Robertson, Robinson, Rounsfell, Tatlow, forwards; Crickmay and Elwood, half-backs; Stewart, Quick and Palmer, three-quarter backs; Holt, full-back.

Westminster—Back, Woods; three-quarter backs, Rev. P. Woods, White and Lewis; half backs, Turner and Greame; forwards, Lister (captain), Corbett, McMartin, Hall, Smith, Bell, Hamber, Pickles and Mowat.

Vancouver won the toss and chose to play down field with the wind and sun on their backs. The ball was kicked off at 2.20 o'clock and immediately a scrimmage occurred and when the ball emerged from the forest of legs it was almost instantly kicked out of bounds. Another scrimmage took place, Westminster gaining the advantage and when the leather appeared it was seized on by Rev. Mr. Woods, who made a clever pass to White, who by a brilliant run carried it behind Vancouver's goal and secured the first touch-down. Cheer after cheer went up when the feat was accomplished and much excitment prevailed, which even extended to the fair sex, who were present in goodly numbers. Lister kicked and made goal in the midst of another tremendous round of applause. Time 5 minutes. The ball was instantly kicked into play and several scrimmages followed each other in close succession. These invariably resulted in favor of Westminster, whose men outplayed Vancouver at every point. Lewis was standing well to one side and when the ball came out of the scrimmage it bounded down towards him. A sharp spring and he had it and after a pretty run another touch-down was scored. Rev. P. Woods kicked, but the angle was too great and the ball passed to the right of the goal. More scrimmages followed and again Rev. P. Woods got the leather, passed to Lewis who made a splendid run and got a touch-down, but it was not allowed, Vancouver claiming the ball had been thrown forward. A scrimmage now occurred close to the Vancouver line and Holt took a touch-down for safety. General play followed for some seconds when Hamber got the ball, passed to Rev. P. Woods, who passed to Lewis. The latter made a desperate rush for the line and succeeded in securing a touch-down immediately behind goal. Lister kicked and scored another goal. The excitement now was intense and Vancouver stock fell very rapidly while Westminster could not be bought at any premium. Play was resumed and Woods got the ball passed to Lewis who secured another touch-down. Not allowed. Rev. P. Woods got the leather and made a splendid try for goal but fell a little short. A scrimmage followed and at its close McMartin emerged with the ball and made a touch-down. Lister kicked and made goal. Time called. Score 3 goals, 1 try for Westminster; Vancouver 0.

SECOND HALF.

When play was resumed Westminster instantly forced the leather towards Vancouver's end and presently Greame, who played a very plucky game, got a touchdown. General play followed for a few minutes without much advantage on either side till White got the ball and after a very clever run made another touch-down. Not allowed. A long struggle followed, during which the players and ball were carried across the Vancouver line and Mowat got the touch-down. The ball had to be kicked at an angle to the goal but the Rev. P. Woods was equal to the occasion and dropped it neatly between the poles. After a scrimmage near the Westminster line Lewis got the ball and made a magnificent run, passing through the whole Vancouver force and secured a well earned touch-down. Lister kicked and missed. Rev. P. Woods got the ball passed to Lewis who got another touch-down. Lister kicked and made goal. The game was concluded in a most brilliant manner by White who secured the ball and dashed right through the Vancouver men with a force that proved resistless. Lister kicked and made goal. Westminster thus won by 7 goals and 2 tries while Vancouver failed to score a point. The whole Westminster club played magnificently and never was a club more thoroughly outplayed than was Vancouver to-day. The visitors played a fairly strong game and some good individual play was made but as a team their work was very loose.

Squamish Charley, an old offender, guilty of being "too full," and was fined $20 and one month in jail.

Squamish Charley No. 2, a comparatively new hand at the business, was fined $5 for being caught in a hopelessly muddled condition, the result of trying to drink whiskey against his experienced namesake; and to nip his wickedness in the bud, and save him from becoming a chronic and a wreck like Charley No. 1, their honors piled on $25 more for having whisky in his possession. It is believed that Charlie, finding whisky so dear, will sign the pledge for life and return to the bosom of his family, far from the gilded haunts of vice in the alluring city.

ANGLO-INDIAN AGITATION.

LONDON, Oct. 27.—An influential committee of Anglo-Indians has been appointed to co-operate in London with the patriotic association that has been started in India by Sir Kasi Synd Ahmed Khan and other leading Mahometan opponents of the national congress movement. The principal work of the organization is to counteract the active proceedings of an Indian political agency recently estabiished in London in connection with the congress. So far as India itself is concerned, the European community has taken no part in the agitation, the only overt opposition here to it having come from the Mahometans who appear to be frightened by the superior numbers, intelligence and education of their Hindoo fellow subjects.
