Daily British Columbian
Friday Evening, Sept. 28, 1888.

NOTES AND COMMENTS.

Sir Samuel Baker, in honor of whom Mt. Baker was named, was a great traveler. He explored the Upper Columbia, the headwaters of the Fraser and crossed the latter valley to the Yukon river in Alaska. He recently died in the Nubian desert in Africa, after a life of adventure and discovery.

Recent Toronto papers have some sensible remarks about the "address" nuisance. It appears that Lord Stanly, on his visit to that place was literally bombarded with complimentary addresses, from all sorts of bodies corporate and incorporate. Everybody acknowledges that the whole thing is a farce, yet everybody goes in for it.

Mr. John L. Killough writes from San Francisco to an eastern paper to warn young Canadians against going to California to find work. If they must come to this coast, he says, let them settle in British Columbia, where they will find better laws and more congenial neighbors. Shake, Mr. Killough! Your head is distinctly level.

The territorial W. C. T. U. convention of Dakota passed among other resolutions one denouncing the adverse decision against woman suffrage by the supreme court of Washington Territory, in the interest of the liquor traffic, and calling upon the supreme court of the United States to vindicate the validity of laws giving the ballot to women.

The practical joker has achieved a remarkable success in Galway, Ireland. A young lady of the place, Miss Keegan, went out for a walk with her brother and a gentleman named Leech. Mr. Keegan was carrying a loaded gun, and Leech went behind him and "in fun" pulled the trigger. The girl was fatally injured. It is hard to say whether or not to be hanged, drawn and quartered is adequate punishment for the fool who fires a gun in fun with such a result.

Although the matrimonial differences of King Milan of Servia, and his Queen Natalie are notorious, it is not generally known, says an exchange, that this is a family habit. The King's uncles and predecessors, Prince Michael and Prince Milosh, both had difficulties with their spouses and got rid of them, one by banishment and the other by divorce. King Milan is trying both plans. The Obrenovich family is a bad one to marry into, and should be avoided by match-making mothers.

The Victoria board of aldermen had a stormy session last Wednesday evening. The bone of contention was the auditor's report, which showed a cash shortage of $4,311.79—a sufficient cause to set the august body by the ears. Some of the passages were intensely lively, and Alderman Wilson, on being given the lie, invited Ald. Coughlan outside "to settle it at once!" A good deal of violent language was used, and the mayor had his hands full rapping with his gavel and demanding retractions. Wiser councils, however, prevailed finally, and the offending document was referred to the finance committee. A good deal of explanation will be in order, according to all accounts—and the end is not yet.

One of the most wonderful freaks in nature is exhibited in Philadelphia. It has baffled the skill of surgeons and physicians and is attracting great crowds of people. It is a living man with a broken neck. The *Record* says: It has always been believed that no human being could possibly exist after disruption or dilaceration of the vertebræ, but Mr. Barney Baldwin furnishes a living refuation of this belief. His neck, right arm and five ribs were broken in a railroad abcident on the Louisville & Nashville railroad, at Birmingham, Ala., in March, 1887. He was supposed to be dead and the coroner was sent for, but luckily for Barney, a physician arrived at the scene of the wreck in advance of the post-mortem functionary, and noticing signs of vitality in the mangled form of the young man, determined to save his life. Baldwin laid abed 127 days, and was then, by the aid of a set of pulleys attached to the ceiling, raised to a standing posture and his head placed in an iron mask. Since that time he has never placed his head on a pillow, but sleeps in an easy chair made especially for him.

A lady writes: "I was enabled to remove the corns, root and branch, by the use of Holloway's Corn Cure." Others who have tried it have the same experience.

BY TELEGRAPH.

English Soldiers Blamed for Butchery in the Thibetan Campaign.—Manian Defeated by Kemp.

Terrible Tale of Destitution and Cannibalism Among the Athabasca and Mackenzie River Indians.—Wiggins on Deck Again.

LAST NIGHT'S DESPATCHES.

LEAVE EXTENDED.

PARIS, Sept. 27.—The *Temps* says that the leave of absence of the French ambassador to the Quirnal has been extended till the Emperor William's visit to Rome has ended.

FOR ROYALTY'S SAKE.

VIENNA, Sept. 27.—The Empress of Austria explains that although she admires Heine's poetry she will withdraw her donation to the Heine monument fund at the request of the emperor in consequence of Heine's insults to the Hohenzollerns.

NOT SATISFIED.

CONSTANTINOPLE, Sept. 27.—The porte has ordered the release of the Greeks arrested in connection with the Sponge dispute and has instructed the governor of the island to cease annoying the Greeks. It is reported that the Greek government is not satisfied with the orders, and demands further reparation.

THIBETAN TROUBLES.

LONDON, Sept. 27.—The opinions of the Chinese government with regard to the recent trouble in Thibet are awaited here with considerable anxiety. It is feared that trouble with China may ensue through the virtual invasion of Chinese territory by the British troops, although China had been previously advised of the proposed British operations against the Thibetans, and the operations were conducted within the limits prescribed.

The *Pall Mall Gazette*, commenting on the rout of the Thibetans in the Jaffa Pass by Colonel Ceahl, says that the killing of 400 Thibetans by the force of English troops, which sustained the loss of 9 wounded in the encounter, suggests a wanton butchery by no means justified by any circumstances leading to the affair which have been permitted to become public here. Referring to England's last campaign in Egypt, the *Gazette* says the prevailing taunt at the time was that the English soldiers butchered their enemies and ran away. Now it would seem their policy is "slaughter and slay," instead of "butcher and bolt."

BISMARCK ENTHUSES.

BERLIN, Sept. 27.—On Saturday Prince Bismarck addressed the people at a harvest festival on his estate, felicitating them on the comparatively good harvest after the bad winter and rainy summer. He referred to the accession of William III as follows: "The gloomy days have given way to bright sunshine. We can look with pride upon the present emperor. He is every inch a soldier and will fight bravely if Germany should ever be attacked. But he loves his subjects too much and will do his utmost to preserve peace. Those among you who were with me in France in 1870 know what a harvest home can be when an enemy is at hand. There is little in life then for the tiller of the soil. Let us, therefore, to-day think of our emperor and give him a thundering good "hock unser kaiser libe hock." The toast was drunk by all.

TO-DAY'S DESPATCHES.

KEMP WINS.

SYDNEY, N.S.W., Sept. 28.—A race for the sculling championship, between Peter Kemp and Edward Hanlan, was rowed to-day and won by Kemp.

ARRESTED FOR OPIUM SMUGGLING.

SEATTLE, Sept. 28.—At 10.30 this morning, Hon. J. C. Haines, a well-known lawyer, was arrested by a U. S. marshall on authority of a warrant issued in Buffalo, N. Y., charged with conspiracy in smuggling opium. This arrest, which is not explained, unquestionably grows out of Mr. Haines' connection as defending attorney with Gardner and others now under arrest in New York state, charged with smuggling.

PERISHED IN THE FLAMES.

CRONSTADT, Sept. 28.—A lofty wooden tenement, filled with people, was burned to-day and the staircase destroyed before the inmates could escape. Many leaped into the street and were mortally injured by falling on stones. Sixteen were burned to death in the house.

WIGGINS AGAIN.

OTTAWA, Sept. 28.—Professor Wiggins, in an interview last night said the cause of the yellow fever in the south was purely astronomical. On June 19, 1881, he said, the planets were in the same line, and the earth had yielded to the tendency to approach the sun, and since then cyclones, earthquakes, floods, cholera, and yellow fever had devastated our planet. The advance had been only a few miles, but increased solar attraction contracted the earth's surface, causing floods. The unequal shrinkage caused earthquakes. The atmosphere had become denser, and consequently held more carbon and its compounds in solution, producing microbes, and thus cholera and yellow fever.

A ROUGH PASSAGE.

QUEENSTOWN, Sept. 28.—The steamer City of New York arrived to-day after a passage of 7 days and 2 hours. Her circulating pumps are defective and she was only able to use her starboard engine. For days she met with continuous gales, during which two passengers were thrown on deck, and had their ribs broken. The passengers were greatly frightened and one went insane and had to be put in a straight-jacket.

PASSENGER LIST.

SAN FRANCISCO, Sept. 28.—Passengers per str. Mexico for Victoria: Mrs. G. Wise, T. C. Harris, H. H. Edelitz, Mrs. Lukely, W. Hastie, H. Morton, J. C. Bunster.

ADVANCE IN PRICE OF WHEAT.

CHICAGO, Sept. 28.—Yesterday's scenes in the wheat pit were re-enacted to-day and the upward movement in September wheat was maintained. It opened at 125, rapidly advanced, and at one o'clock was sold at 149½.

MILL BURNED.

BUTTE, Mont., Sept. 28.—The Margaret Ann mill at Wilkeville, two miles from here burned to the ground last night. There was no water at hand. Loss $25,000. Uninsured.

RANDALL RENOMINATED.

PHILADELPHIA, Sept. 28.—Congressman Samuel J. Randall has been unanimously renominated by the democrats of the third district.

SMALL POX SPREADING.

BUFFALO, Sept. 28.—The small pox is spreading in Polish quarters, four new cases having been discovered today. The disease has also broken out in aristocratic portions of the city.

TASCOTT ARRESTED.

DENVER, Col., Sept. 28.—A man answering the description of Tascott, the Chicago burglar who murdered millionaire Snell, has been arrested.

GIGANTIC STEEL RAIL COMBINE.

PITTSBURG, Pa., Sept. 28.—Information has reached here of the formation of an international steel rail pool. The combine was consummated at Glasgow, and includes England and the continent. Carnegie, who was present, promised co-operation on the part of the American combine in the endeavor to advance and maintain prices.

RAVAGES OF JACK FROST.

WASHINGTON, Sept. 28.—Freezing weather is reported in northern Minnesota, and killing frost from southern portion of Michigan and Wisconsin, and light frosts in the northwest and as far south as southern Missouri.

FACTORY BURNED.

CHICAGO, Sept. 28.—The furniture factory of Wilkins & Co. was burned this morning. Two bodies of the employees have been removed from the ruins and it is believed that there are more still there. Complete loss, $250,000.

CLOUD BURST.

NEW BEDFORD, Mass., Sept. 28.—A cloud-burst last night washed great ditches in the streets and undermined many buildings.

CHRISTENSEN DYING.

SAN FRANCISCO, Sept. 28.—Physicians attending Antoine Christensen, Martin Kelly and Wm. Harrington, who were shot in last night's affray at the rooms of the republican county committee, stated this morning that there is no hope for Christensen and that his death is only a question of a few hours. Kelly and Harrington are much improved and will be able to be around in a few days. The grand jury will meet to-morrow morning and make thorough investigations into the affair.

REBELS SUFFERING.

LONDON, Sept. 28.—Advices from Suakim state that there was heavy firing between rebels and the British until midnight last night. Deserters report that the rebels suffered severely, one shell killing seventeen.

WHEAT MARKET.

NEW YORK, Sept. 28.—Wheat, 103; for cash, 102½; Oct., 104; Nov., 105¼; Dec. and May, 109¼.

LIVERPOOL, Sept. 28.—Moderate demand; Cals., 7s, 10½d.

CHICAGO, Sept. 28.—Wheat, 149 for cash; Sept., 100; Oct., 99¾.

GONE TO THE BOTTOM.

SAN FRANCISCO, Sept. 28.—A despatch to the Merchant's Exchange this morning says that the British ship Earl Wemyss, hence for Queenstown, which was in collision off Pernambuco with the British ship Ardencaple, from Liverpool for this port, has sunk. The Ardencaple is filling with water and has been abandoned.

CHOLERA NEWS.

JACKSONVILLE, Sept. 28.—The news from Fernandino and other points indicates no alarming increase in the disease. Frank Ponsot, democratic candidate for state treasurer, his wife and child are sick at Sanderson. At Macclenny fever is not increasing rapidly. Gainesville is almost considered clear again. Southern towns report a brighter outlook.

INDIAN DESTITUTION.

WINNIPEG, Sept. 28.—A terrible tale of starvation and destitution among the Indians comes from the Athabaska and Peace river country in the form of a petition to the minister of interior for Canada. It is signed by the Anglican bishop of that diocese, six clergymen and missionaries, and several justices of the peace. The document sets out that, owing to great mortality among beavers and other small game, the Indians for nearly a year have been in a perpetual state of starvation. Their food supply and power of procuring clothing has been affected. They are now in a complete state of destitution and unable to provide themselves with clothing, ammunition, etc., for winter. Many of their dogs, so necessary to the Indians for travelling and hunting, have perished, thus seriously increasing the difficulty of getting a living. During the winter of 1886-87, on account of starvation and consequent cannibalism, a party of 29 Cree Indians was reduced to three. In the Mackenzie river district, several deaths by starvation and one or more cases of cannibalism occurred last winter, and among the Fort Chippewayan Indians between twenty and thirty starved to death and many women and children are now helpless and must starve to death or eat each other this winter unless help comes.

Daily British Columbian

Friday Evening, Sept. 28, 1888.

Without wishing to indulge in anything like a spirit of fault finding or to appear to sit in condemnation upon our gallant Hyacks, whose voluntary and patriotic services on behalf of the city cannot be too highly spoken of, we must call attention to an abuse, which we have no doubt the Hyacks themselves will no sooner recognize than they will be anxious to reform. We refer to the practice of ringing the fire bell as if for an alarm when summoning the firemen for hose drill and practice. A different manner of ringing the bell, if agreed on beforehand and understood by the members of the company, would be just as effective in calling the boys together for practice, while it would not be open to the objections that obtain against the present go-as-you-please method. One very obvious objection to sounding a fire alarm on any other occasions but fires (unless announced previously), in a city like Westminster—where we have no paid fire department, and everybody is expected to lend a hand—is that a real alarm of fire is likely to be disregarded some time, after the citizens have been "sold" several times on bogus alarms. Besides, people are put to no little inconvenience and annoyance, to say nothing of the fright that some experience, by rushing bald-headed from their work to see where the fire is. The Hyacks probably do not appreciate the fact that their fire-bell exercises such a sway over the citizens; but the result is as we have stated, and even worse consequences are liable to happen. Yesterday afternoon, as stated in an item, Mr. Jas. Cunningham's horse, startled by the general excitement and running to and fro, and the rapid rush of the hose-cart along the street, became frantic and did considerable damage to the buggy and its contents. If Mr. Cunningham had not grasped the horse's bridle and held on, and had not several other gentlemen assisted, the consequences would certainly have been more serious. In the event of a regular fire, of course, all sorts of inconveniences and dangers have to be incurred, but there is no necessity of courting these conditions on ordinary occasions. We would suggest that the Hyacks arrange for a different signal for summoning their members for practice, or else notify the public through the newspaper when they intend to call such a meeting. We leave the matter to their good sense and competent judgment, assured that it will not be necessary to call upon the civic authorities to correct the abuse.

Returning to the subject of the fisheries report, and passing over several varieties of fish with which the reader is familiar, and others of minor importance, we come to the shad, which are said to have increased during the last few years on the Pacific coast. Mr. Mowat urges the authorities to take some steps for the propagation of these fish, and thus make a valuable addition to the wealth of our fisheries. No better place, he feels sure, could be found than the overflows of the Fraser for the natural propagation of these fish. We shall not dwell upon the subject of the deep sea fisheries, as our readers have been made acquainted from time to time as to the position of this branch of our fishing industries. It is to be hoped the Dominion government will, early next year, give proper aid to the development of the almost unknown, but doubtless vast, wealth of our deep sea fisheries. The report speaks of sardines—a fish which, we venture to say, is not generally known to exist in our waters—as follows: "These fish were plentiful during the months of August and September in all the harbors near the straits, especially at Esquimalt. They were caught with seines by Italian fishermen in large quantities. They are of good size and quality, and larger, if anything, than the French sardines. They follow the Lant in shoals, which makes their stay in any one place rather uncertain. From what I saw of them on the west coast, on my exploring trip, and the quantity taken at Victoria, I feel satisfied that with proper appliances they could be procured in sufficient quantity to warrant the establishment of a sardine cannery, and a market would undoubtedly be found for them." Referring to the excellent opening for engaging in whale fishing, which is largely availed of by American fishermen (a fleet from San Francisco having captured, the previous season, 267 whales, valued at $1,285,000, an average of over $107,000 to each vessel), the inspector says: "Considering that our people are situated 750 miles nearer the Arctic fishing grounds than our San Francisco neighbors, I am at a loss to understand why an effort is not made to participate in this remunerative business." The catch of fur seals showed a decrease for 1887, the reason assigned being, boisterous weather, causing the loss of a few seals and a number of valuable lives. The principal reason, however, for the decrease in Behring's Sea was the uncertain state of affairs with the United States, and the annoyance caused by the seizures of our sealing schooners. Referring to lobsters, Mr. Mowat informs the department that he has examined and taken the temperature of a number of places, which, from their surroundings, seem well adapted for the habitat of these crustaceans, and he has no fear of the results when they are planted in these localities. Mr. Mowat, as our readers are aware, is now in eastern Canada, a part of his mission being the introduction of lobsters to this coast. The report touches upon crabs, shrimps, prawns, and clams, all of which are stated to be abundant, but owing to the fact that eastern markets are too distant to make trade profitable, and the American markets on the Pacific coast have a plentiful supply nearer home, the business in these is confined to supplying the home demand. As to oysters, the report states that there are a number of defined beds on the coast, but for want of proper care and attention they have deteriorated and are now almost worthless.

Referring to Crofter immigration, Mr. Mowat states that the subject is attracting considerable attention, not only here, but in the eastern provinces and Great Britain. He is constantly in receipt of letters of inquiry on the subject, and strongly urges upon the department the necessity of making energetic efforts to prospect and obtain trustworthy information in regard to our deep sea fishing as may be serviceable to people wishing to engage in this industry. The report of Mr. John McNab, fishery guardian of the Skeena and Naas Rivers, is quite interesting and contains some good suggestions. Referring to grey and black cod, Mr. McNab concludes that both species can be caught with proper appliances in most of the sounds and bays on the coasts and islands; he also saw and handled two of the Atlantic or true cod, caught in a salmon net near the mouth of the Skeena. Halibut, he says, are to be found over the whole extent of coast between Skeena and Port Simpson in great quantities. On this section of the coast, marine vegetation is very luxuriant, affording shelter and food for small-bait fish; mussel beds are very extensive. The shores are generally smooth, with good marginal sand and gravel beaches, favorable for landing and curing fish, and all the conditions exist there that are found in the vicinity of the most prolific fishing grounds on the Atlantic coast. Much might be done, Mr. McNab thinks, toward solving the problem of the value of the fisheries in British Columbia by a competent party with a steam schooner devoting a whole summer to the work. It is to be hoped the Dominion government, after all their delay in this matter, will make provision for a thorough investigation early next season. Should these fisheries prove anything like so valuable as there is good reason to expect, the benefit to the whole province would be difficult to compute. Mr. Chas. F. Green, guardian for the Fraser River, gives it as his opinion that the fishing at the mouth of the river is detrimental to the general interest, as the fish are, thereby, to a great extent, prevented from coming into the river, and suggests that in future a limited number of licenses be issued. Mr. Green also suggests that a small steamboat be placed at the disposal of the fishery guardians on the river, a request which we believe should be complied with. Mr. John Buie, also a fishery guardian, submits an interesting report, from which our space will not enable us to quote, except as to his opinion that some limit should be placed on the number of nets in the river, and that action cannot be taken to soon in the matter. The cannerymen he found willing to comply with all the requirements of the fishery act. We shall refer separately to the hatchery report.

A Sluggish Liver

Causes the Stomach and Bowels to become disordered, and the whole system to suffer from debility. In all such cases Ayer's Pills give prompt relief.

After much suffering from Liver and Stomach troubles, I have finally been cured by taking Ayer's Cathartic Pills. I always find them prompt and thorough in their action, and their occasional use keeps me in a perfectly healthy condition.—Ralph Weeman, Annapolis, Md.

Twenty-five years ago I suffered from a torpid liver, which was restored to healthy action by taking Ayer's Pills. Since that time I have never been without them. They regulate the bowels, assist digestion, and increase the appetite, more surely than any other medicine.—Paul Churchill, Haverhill, Mass.

INVIGORATED.

I know of no remedy equal to Ayer's Pills for Stomach and Liver disorders. I suffered from a Torpid Liver, and Dyspepsia, for eighteen months. My skin was yellow, and my tongue coated. I had no appetite, suffered from Headache, was pale and emaciated. A few boxes of Ayer's Pills, taken in moderate doses, restored me to perfect health.—Waldo Miles, Oberlin, Ohio.

Ayer's Pills are a superior family medicine. They strengthen and invigorate the digestive organs, create an appetite, and remove the horrible depression and despondency resulting from Liver Complaint. I have used these Pills in my family, for years, and they never fail to give entire satisfaction.—Otto Montgomery, Oshkosh, Wis. ††

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicine.

New Westminster Southern Ry

NORTHERN TERMINUS.

MESSRS. W. J. WALKER & COMPY have lots for sale in the city from $50 upwards.

Also, immediately adjoining the City limits from $25 upwards; and a few remaining lots at Sapperton at $100 on very easy terms.

Also, Farming Land in Surrey Municipality, near the international boundary, and along the line of railway; and Acre Lots at Brownsville in first-class situations at profitable rates.

A FOR'S A QUARTER OF A CENTURY.

An Escaped Union Prisoner Recognised by a Libby Ghiest.

A few days ago a gray-haired old man was in one of the hotels of this place when a stranger got off a train which had just arrived, and passed through the waiting room. He eyed the old man closely, and over the face of the latter there flashed a look of recognition.

"Pardon me," said the stranger, "your face has a familiar look, yet I cannot place you. Perhaps I am mistaken."

"Oh, no," said the elderly gentleman. "I know you are not mistaken. I know you like a book."

"Indeed?"

"Yes, sir. You used to board with me."

"Is't possible?" said the stranger.

"Yes, sir, and you left without paying your board."

"That, sir, cannot be," was the hotel-keeper's answer, as he became more and more confused.

"And," continued the old man, "you left in the night and neglected to take your luggage."

By this time the stranger was furious. He grew red with anger, and intimated that pay the gray haired tormentor saved him from violent treatment.

"Oh, you needn't get mad," said the old gent, remaining provokingly cool. "You did all these things, and I can prove it."

"See here, old man, who are you, and where are you from?"

"I, sir, am Capt. Jack Warner and you are Quartermaster Murphy, and you escaped from Libby while I was Quartermaster of that institution."

"My God," was the stranger's ejaculation, as he warmly clasped the hand of the ex-rebel. "Are you, indeed, the old commissary? Well, I did board with you a while, and I gave you the slip, too," he laughingly continued.

Quartermaster Murphy belonged to a New York regiment, and was captured and sent to Libby. It was the practice of the rebels to allow prisoners who had been practitioners of medicine to attend the sick in the prison hospital. They were given the freedom of the prison to go and come at will.

One day a green sentry would not allow these men to pass, when he was sharply reprimanded by Capt. Gibbs, and was told that these men who wore red ribbons on the lapels of their coats should pass unmolested.

Murphy overheard this and took advantage of it. He had some red lining in his vest, and tearing off a strip, he pinned the physician insignia on his coat, and, watching an opportunity, he got past the guard and escaped over into the Union lines.—[Cincinnati Commercial Gazette.

THE COT AT THE FOOT OF THE HILL.

There's a mansion of stone at the top of the hill,
With beautiful gardens around,
Where rarest exotics, in gorgeous dyes,
Tare all the long winter abound.
Its floors are enamled with mosaic designs,
Its windows are smothered in lace,
And treasures of art, in marble or oil,
Fill every available space.

At the foot of the hill is a dear little cot
Embowered in clambering vines;
Round doorway and windows the sweet climbing rose
With the fragrant Madeira entwines.
The sunbeams paint pictures all over the walls,
And in front is my small garden-plot,
Where the old-fashioned flowers, in bright flaming tints,

Shed perfume around the dear spot.

In the beautiful house at the top of the hill
Lives a lady so stately and fair;
In satins and velvets her figure is robed;
In the braids of her soft dusky hair
Gleam radiant jewels that shimmer and flash
Like the starpoints ashine in the sky;
And yet—her red lips seem just ready to part
And give vent to a heart-broken sigh.

At the foot of the hill in my little white cot,
Time creeps pleasantly away;
With my cheery pipe-dudeen and round of small cares,
I am happy and busy all day.
In my pretty pink dress and with unadorned hair,
At even a walk to the stile,
To wait for my husband returning from work,
And to give him a kiss and a smile.

The lady who lives at the top of the hill
Has her carriage, her pony to ride;
And often she drives past the door of my cot,
But her husband is ne'er by her side.
And often she sports to my husband and me
Going home thro' the long shady lane,
And her beautiful features, so haughty and cold,
Contract in a spasm of pain.

Ah, the house at the top of the hill is a gem!
But it cannot compare with my cot;
All the jewels and wealth of the lady up there
Could not tempt me to change with her lot;
We have love in our cot that, in sunshine or gloom,
Our hearts with pure happiness fills.
Oh, no! I'd not give for the wealth of the world,
My cot at the foot of the hill.

—[English Paper.

SALT DUST OF THE SEA.

Is it possible to think, even sometimes Disagreeable?

While voyaging from Australia to New Zealand, one of the passengers, a lady, complained that the dust of the sea caused her eyes to smart, and had also soiled her clothing. She was laughed at by the other passengers, who insisted that there could be no dust at sea.

"They were mistaken," says Mr. M. M. Ballou, who tells the incident in a book of travel. "There is a salt dust which rises from the spray and impregnates everything, even filling one's mouth with a saline taste.

"While the sun shines, this deposit, like the dew on land, is less active and perceptible; but to walk the deck at night is to become covered with a thin coating of salt dust so pungent as to be easily perceable, but which in time becomes sufficiently crystallized to be obvious to the eye.

"The dust of the sea is no fable. The officer who stands his night watch on the bridge will testify to this fact, and the cabin steward will tell you that he has often to resort to something more potent than a whisk-broom to cleanse clothing which has been exposed to sea dust."

Unfounded Report

Professor Snore, of the University of Texas, is such a learned man that he has continual spells of absent-mindedness.

"I am glad to see you. Why, there was a report all over town that you were dead," said one of the students to him a few days ago.

"You don't tell me so?"

"Yes, it was reported that you were dead and buried."

"I believe it. Well, the report has not been confirmed yet, has it?"—[Texas Siftings.

Scrofula

Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cured by the use of Ayer's Sarsaparilla.

I inherited a scrofulous condition of the blood, which caused a derangement of my whole system. After taking less than four bottles of Ayer's Sarsaparilla I am

Entirely Cured

and, for the past year, have not found it necessary to use any medicine whatever. I am now in better health and stronger, than ever before.—O. K. Willard, 216 Tremont st., Boston, Mass.

I was troubled with Scrofulous Sores for five years; but, after using a few bottles of Ayer's Sarsaparilla, the sores healed, and I have now good health.—Elizabeth Warnock, 54 Appleton street, Lowell, Mass.

Some months ago I was troubled with Scrofulous Sores on my leg. The limb was badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy failed until I used Ayer's Sarsaparilla. By taking three bottles of this medicine the sores have been healed, and my health is restored. I am grateful for the good it has done me.—Mrs. Ann O'Brian, 158 Sullivan st., New York.

Ayer's Sarsaparilla.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5

NOTICE.

Lease of Trenant School Reserve.

SEALED PROPOSALS WILL BE RECEIVED by the Honorable Chief Commissioner of Lands and Works up to noon of SATURDAY, 8th instant, from parties who may be desirous of securing a lease of that portion of the N. W. quarter of Section 35, Township 5, New Westminster District, known as "Trenant School Reserve," containing 115 acres, excepting therefrom 24 acres, which have been leased to the Delta Agricultural Society, and one acre upon which the school-house stands.

PROPOSALS MUST STATE:

1st. The purpose for which the land is intended to be used, the nature of the improvements proposed to be effected, and within what time.

2nd. The term of years for which the lease is desired.

3rd. The annual rental proposed to be paid.

In the event of a lease being granted, it will be issued subject to a provision that the Honourable Chief Commissioner of Lands and Works may at any time during the tenancy resume possession of the hereditaments upon giving the lessee two months' notice, and after paying him the appraised value of the improvements made by him.

The Honourable Chief Commissioner of Lands and Works reserves the right to reject any or all proposals which he may receive.

W. S. GORE,
Surveyor General.

Lands and Works Department,
Victoria, 13th September, 1886.

AUCTION

PROVINCIAL

Government Lands

—ON—

NORTH ARM OF FRASER RIVER, AND ADJACENT LANDS, NEW WESTMINSTER DISTRICT.

TUESDAY, 23rd OCTOBER

AT 11 O'CLOCK, A. M.

I have been instructed by the Chief Commissioner of Lands and Works to sell by Auction

AT VANCOUVER, B. C.

Several parcels of fine agricultural lands, situate on or near the North Arm of Fraser River, being sub-divisions of Lots 325, 326, 329, 330, 331, 332 to 339, 149, 150, 156, 175, 166, 165. The subdivisions of these Lots contain from 27 to 172 acres each; the location of these lots is shown on the present maps of the District.

The terms is the immediate vicinity of these Lots are considered the finest agricultural properties in British Columbia. Some of the lots front on the North Arm, and others are in the immediate vicinity of the same.

Steamers run daily from New Westminster and Vancouver, past these valuable properties.

ALSO,

Lots 628 to 670, and Lots 130 to 136.

All situate between the North Arm of Fraser River and Vancouver City. The North Arm Road from Vancouver runs through these Lots, and there are other roads laid out that will give access to each of them. This property commences about 2½ miles south of Vancouver City and is bounded on the west by the C. P. Railway Land Grant, and is surveyed into lots containing from 8 to 55 acres each, maps of which will shortly be ready for distribution.

All the lands to be sold are well adapted for agricultural, dairy or orchard purposes, and on account of their close proximity to the markets of Vancouver and New Westminster cities, will be desirable properties for families seeking a home or for investment.

The C. P. Railway are now constructing a line wagon road from Vancouver to the North Arm of Fraser River and Lulu Island. They are also surveying a line of railway through these properties with a view of connecting with the United States system of railways at Seattle.

These lands may fairly be considered as the most valuable ever offered for sale by auction in British Columbia.

GEORGE BYRNES,
AUCTIONEER.

MUSIC.

MISS FREESE, late of Seattle, W. T., is now prepared to give instructions on the Piano. Will go to the homes of the pupils if desired. Residence—W. R. Lewis, Agnes street. djly30tc

The catch of salmon last night averaged about 25 to a boat. They were principally cohoes.

On our second page will be found a new advertisment from the Bon Marche establishment.

First class Board and comfortable Rooms at Miss Yeo's, Columbia st., opposite Catholic church *

The steamer Adelaide left at 8 o'clock this morning for Westham Island to bring up a load of produce.

Just received, the latest fall styles in Ladies' and Children's Dolmans, Mantles and Jackets, at James Ellard & Co.'s. dse20tc

T. J. Trapp will hold another sale to-morrow night of dry goods, gent's furnishings, etc., at Austin's store, Front street.

Boys and others who indulge in tearing down and defacing posters around town will do well to remember that there is a penalty attached to that sort of thing.

When symptoms of malaria appear, in any form, take Ayer's Ague Cure. It will prevent a development of the germs of disease, and eradicate them from the system. Chemically pure, warranted in every instance.

Ah Sing, a Chinaman, was up in the police court this morning charged with indecent assault on an Indian woman named Annie. On application of Mr. Leamy, counsel for the defence, the case was remanded until to-morrow.

When the system is debilitated by disease, it should be strengthened and renewed with Ayer's Sarsaparilla. This medicine invariably proves itself worthy of all that can be said in its favor. Sold by druggists and dealers in medicines. Price $1. Six bottles, $5.

The steamer Rithet arrived from Victoria yesterday afternoon with 33 passengers, 92 tons of general merchandise and 865 cases of canned salmon. She left again at 7 o'clock this morning for Victoria with about 20 passengers and a quantity of freight.

The steamer Irving arrived down from Chilliwhack shortly after 7 o'clock last evening with about 100 passengers, returning from the exhibition, and a quantity of farm produce. She cleared again at 7 o'clock this morning for up-river points with 30 passengers and about 25 tons freight.

The old stage road that leads from this city to Hastings, Burrard Inlet, has lately been put in repair by the government. It is said to be now in splendid condition. Mr. Sprott, the inspector, has started a party of men this week to work on the Pitt river road and expects to have it in good condition before the commencement of the rainy season.

For several days the people of Sehome and Whatcom have been anxiously watching for the good ship Germania, loaded with railroad iron and locomotives for the B.B. & B.C.R.R. They were jubilant when it arrived Monday evening and anchored safe at the Sehome wharf. We suppose the sound of the locomotive will soon be heard on the shores of Bellingham Bay.—*Blaine Journal.*

Death of a Pioneer.

Tuesday evening, at Victoria, Alex. Allan, for many years cashier at Welch, Rithet & Co.'s, breathed his last at the age of 55; born at Banff, Scotland, in 1833. Mr. Allan was an old pioneer, having been engaged in gold mining for some years at Cariboo, and subsequently published the *Sentinel* newspaper at Barkerville.

Canada's Illustrated Weekly.

The *Dominion Illustrated* is again to hand, replete with choice reading and illustrations. Among the latter we notice a well-executed engraving representing "C" battery on parade at Victoria, on the eve of departure for the Skeena. These papers can be got from the publishers, G. E. Desbarats & Son, Montreal and Toronto.

The Westminster Southern.

The work of locating the line is nearly completed. Mr. Govereau, C. E., and party commenced cross-sectioning to-day, and "ground will be broken" in the course of a few days. Mr. Hill, the chief engineer of the road, states that the work of grading will be pushed rapidly forward in order to have it completed if possible from Brownsville to a point beyond the Nicomekl and Serpentine rivers before the commencement of the rainy season.

Worms derange the whole system. Mother Graves' Worm Exterminator is the safest and surest remedy. It gives rest to the [illegible] twenty-five cents [illegible]

Small-Pox.

Dr. D. McLean came over from Surrey this afternoon and gave the following information respecting the small-pox epidemic: He left Mrs. Walworth's place at 9 o'clock last night; there were then ten cases of the disease in her house; this is all the cases so far known. The people of Blaine have shut off all communication with them, and they are without any provisions or medicine, and no assistance whatever except what can be rendered by two women belonging to the house.

Steamboat Whistling.

The steamers took their departure this morning without the usual announcement by whistles that precedes the clearing. Mr. Briggs, agent of the C.P.N.Co., informs us that this was in compliance with a request made by some of the city physicians through consideration for their patients. This deference on the part of the C. P. N. Co. is to be commended. Let the citizens do their part, and have the practice of refraining from whistling, in the early morning especially, made universal.

A Wealthy Lumber Company.

The last number of the *Canada Gazette* gives notice that a charter has been applied for by leading lumbermen of this province and British Columbia for an extensive lumbering organization under the name of the Ross-MacLaren Lumber Company (limited), with a capital of $500,000. It is said that the operations of the company will be on the Fraser river, where it controls very extensive and valuable timber limits. The names of the provisional directors are: Hon. James G. Ross, of Quebec; James MacLaren, Ottawa, and Leonard G. Little, Montreal.—*Toronto Empire.*

Foot Ball Matches

A foot ball match between the "Colonists" and the "Old Country" team will take place on the cricket grounds to-morrow, commencing at 3 p. m., in which the following members take part:

COLONISTS:—Back—Dockrill; ¾ back—White, Woods and Wilson; ½ back McMartin and Turner; forwards—Smith, Mowat, Corbett, Cunningham, Clute, Draper, Hall, Black and Port.

OLD COUNTRY:—Back—Hartman; ¾ back—Coulthard and Lister; ½ back—Parkes and Green; forwards—Hamber, Pickles, Bell, Pittendreigh, Jones, Whiteside, Woodward, Aikman, Shadwell and Winters. The game will be conducted according to Rugby union rules.

Surrey and Delta Shows.

The Surrey agricultural exhibition took place to-day. A representative of THE COLUMBIAN went over this morning, but, owing to there being no telegraphic facilities in the neighborhood of the show grounds, we are unable to publish the report to-day. It will appear to-morrow.

The Delta agricultural show takes place on Tuesday next. For the accomodation of visitors from this city, the steamer Adelaide leaves here at 8 o'clock on Tuesday morning, returning in the evening, fare for the round trip being 75 cents. If the present fine weather continues many will doubtless avail themselves of this opportunity to visit the Delta show grounds. A representative of this paper will be on hand.

A Valuable Publication.

The *West Shore*, published at Portland, Oregon, at the extremely reasonable price of $2.50 a year, devotes its attention mainly to engravings and carefully prepared descriptions of the industries, resources, picturesque scenery, cities and towns of that great portion of our continent embraced within the limits of Oregon, Washington, Idaho, Montana, B. C. and Alaska. Each number is a mine of information. The engravings are of the highest form of lithographic art. A large art supplement, in colors or tints, accompanies each number, making a collection of large engravings of the grand scenery of the west unobtainable in any other way. A special offer is made to those who subscribe now for 1889. To all such the September, October, November and December numbers of 1888 will be sent free. Sample copies sent upon receipt of 25 cents. Address L. Samuel, Publisher of the *West Shore*, Portland, Oregon.

New Westminster Fruit.

It has long been known that New Westminster and the immediate country around it is well suited for raising superior fruit. But not until direct connection was made by the C. P. R. with the rest of the world has that town had much chance of finding an outlet for its productions. In going the rounds of the exhibition building to-day our attention was attracted by a splendid display of fruits the growth of New Westminster. They comprise first and second crop of Bartlett pears, Russett pears and a fine sample of late perserving pears. In plums, there are green gages, blue plums, small red plums and prunes. Of grapes there is only one variety, "The Princess," grape growing being a new industry in that section. Of apples there is a fine show, comprising Roxbury, Russett, Golden Russett, Gravensteins, Baldwins, Belleflower, Northern Spy and several other varieties. There is also sweet corn from Chilliwhack on the Fraser river. In addition to the fruit we noticed a beautiful blanket from the new woollen factory at Westminster city. The place of production of these fruits can be vouched for as they were collected from the gardens in the city by Mr. R. F. Drummond of her majesty's mail service, who is a resident of New Westminster. The *Herald* can also substantiate Mr. Drummond's statement, one of their reporters having just returned from the above mentioned city, where he saw similar fruit growing in many gardens.—*Calgary Herald.*

Children Cry for Pitcher's Castoria

THE CHILLIWHACK FAIR.

Notes on the Last Day's Proceedings.—The Formal Opening.—A Grand Parade and Successful Close.

The fair was formally opened at 11 o'clock on Thursday morning by Mr. Donald Chisholm, M.P., in the presence of a large assemblage of people. Mr. Chisholm made a speech suitable to the occasion and complimented both the society and the farmers on the success of the exhibition. Mr. W. H. Ladner, M.P.P., also assisted at the opening and made a very happy speech.

The first race between Mr. Black's and Mr. Gibson's horses having been declared "No Race" owing to a false start, the judges ordered it to be run over again, which was done, Mr. Black's horse winning this time. Mr. Gibson's jockey was thrown from his horse near the winning post and it is thought the result would have been different had this mishap not occurred.

Some dissatisfaction was expressed at the decision of the judges on peas. The judging was done by lamplight and the dim light was the cause of a serious error. Mr. J. Reece was awarded the first prize for white peas and Mr. H. Kipp second. An examination of the peas by daylight clearly proved that Mr. Kipp's exhibit was by far the best, being white and fully matured, while the other exhibit was not so good in color and had not fully ripened. The judges acknowledged their error, but it was impossible to reverse the decision, according to the rules of the society. Mr. Kipp is thus really entitled to first prize although he was awarded second.

Shortly after 1 o'clock a general parade of all the stock was ordered, and the drivers of vehicles were also invited to take part in the procession round the track. A number of young lady and gentlemen riders also joined the procession, and for half an hour a very animated scene was presented to the interested onlookers. This was the closing feature of the exhibition and shortly after 4 o'clock everyone was packing up and turning homewards. The Irving left the landing shortly after 2 o'clock, carrying away the Westminster contingent, all of whom were loud in their praises of Chilliwhack and the hospitable people.

The ball at Henderson's Hall on Wednesday night was not a success in point of attendance, but the supper was excellent in every particular. The music, furnished by the Westminster string band, was the best ever heard in Chilliwhack and many deserving compliments were awarded it.

The exhibition passed off without any accident or unpleasant occurrence to mar the general pleasure. In a large measure this was due to the precautions and care of the officials of the society whose management is to be highly commended.

Delicious Grapes.

We beg to acknowledge the receipt of a basket of home-raised grapes from Mrs. Trew, of this city. The grapes, which were perfectly ripe and temptingly luscious, are of the Isabella variety, and were grown and ripened in the open air in Mrs. Trew's garden, on Mary street.

Sad Drowning Accident.

A Port Townsend special says: News has been received detailing the drowning of the two-year-old son of Capt. William Smith of the British bark Pak Wan, and the heroic effort of the father to rescue the boy, as the vessel was passing Cape Flattery on Saturday afternoon at one o'clock in tow of the tug Goliah. The vessel was towing along at the rate of ten or twelve miles an hour, and the little fellow was playing on the after-deck, leaning over, and as the vessel sheered with the heavy swells which were rolling in from the westward, the boy lost his balance and toppled overboard. Capt. Smith heard the boy cry and saw him strike the water, and immediately jumped in after him. After madly swimming around in a fruitless endeavor to find his son, Capt. Smith became exhausted and barely reached a life buoy that a sailor had thrown overboard. Half an hour afterwards or as soon as the tug could be signalled to stop, a boat came back and picked the captain up. His wife and two children, both sons, aged two and four years respectively, accompanied him on his voyage to Puget Sound.—*Times.*

Mr. C. E. Riggins, Beamsville, writes: "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used: to quote his own words, 'It just seemed to touch the spot affected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results."

Personal.

Jas. Orr, M. P. P., returned to Vancouver this afternoon.

James McNamara and bride came up on the Rithet yesterday afternoon.

Wm. Tietjen went down on the Rithet this morning to Victoria.

Capt. Bole, M. P. P., left by the noon train for Vancouver, en route for Victoria.

Hon. John Robson, provincial secretary, arrived from Vancouver by the 8 o'clock train last evening.

Mr. J. Hendry, manager R. C. P. Mills, accompanied by Mrs. Hendry, left by the Atlantic express to-day for Calgary.

Mr. and Mrs. Redon, of the Driard Hotel, Victoria, came up on the Rithet yesterday and are registered at the Colonial.

Rev Dr. Sutherland, of Toronto, general secretary of the Methodist church, accompanied by Mrs. Sutherland and Rev. Dr. Young, of Brantford, formerly supt. of Methodist missions in the Northwest Territories, drove over from Vancouver yesterday and after spending an hour in the city took the train for the east.

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found as low as at any other office in the province.—*Adv.*

THE CHILLIWHACK

Children Cry for Pitcher's Castoria

Communications.

Barkerville Letter.

EDITOR COLUMBIAN:—We Cariboottes were favored with a visit last week from the Rev. James A. Woods, a Methodist minister. He spent two Sundays in Barkerville and held divine service twice each Sabbath, to very large and attentive congregations. His visit was much appreciated by the whole community, which was shown by the liberal collections taken at each service. Rev. Mr. Woods certainly did more in Cariboo, in the Barkerville Methodist church, than any other minister before him. After the evening service last Sunday he administered the sacrament of the Lord's Supper, and 6 persons were added to the church who never had communed before in Cariboo—4 women and 2 men, one of the women being a young lady of 14 years, and one of the men 74 years old. We were very sorry when he was compelled to leave us. If he could have stayed longer in Cariboo no doubt there would have been quite a revival in the Methodist church. There was quite an attendance each Sunday from the English church. Yours, &c.,

W. D. MOSES.

BARKERVILLE, Sept. 21, 1888.

M. A. St. Mars, St. Boniface, Manitoba, writes: Dr. Thomas' Electric Oil is a public benefit. It has done wonders here, and has cured myself of a bad cold in one day. Can be relied upon to remove pain, heal sores of various kinds, and benefit any inflamed portion of the body to which it is applied.

Late Canadian News.

OTTAWA, Sept. 23.—Considerable horse smuggling is going on between Montana and Alberta. The collector at Fort McLeod has seized four horses brought into the country by a Northwester without entering them at the customs.

TORONTO, Sept. 25.—The mother and sister of the first victim of the small-pox here have been taken down from their home and removed to the hospital. This makes four cases there now. Five free vaccination stations have been opened.

STRATHROY, Ont., Sept. 23.—A dastardly murder was discovered on the second line of Adelaide, about four miles from here, on Saturday. Jonathan Robinson, an old bachelor Englishman, 73 years old, was found lying on the floor of his house, where he lived alone, with his throat cut from ear to ear, his skull fractured and both his arms broken. He had not been seen alive since the 18th inst., but no notice was taken of this as the neighbors thought he had gone to Michigan on that date. An inquest was begun this morning. Robinson lived in Adelaide thirty-five years. After the post mortem examination he was buried here this afternoon.

ST. LAURENT, Man., Sept. 25.—A public meeting held here last night condemned the Manitoba government for the course taken relative to the Hudson's Bay Railroad.

MONTREAL, Sept. 25.—Mr. Hague, president of the Merchant's Bank, who has just returned from the Northwest, expresses the opinion that half the crop will be harvested in good condition.

OTTAWA, Sept. 25.—The report is confirmed that the Dominion government refuse further aid to the Hudson's Bay Railroad enterprise. They never have taken much stock in it and the action of the Manitoba government gives them a good excuse for their action.

WINNIPEG, Sept. 25.—The burial of Fulljames, the light weight prize fighter, killed at Grand Forks, will take place in Winnipeg, where his wife and children reside. The police so far have been unable to locate the man whom he fought with.

They Never Fail.—Mr. S. M. Boughner, Langton, writes: "For about two years I was troubled with Inward Piles, but by using Parmelee's Pills, I was completely cured, and although four years have elapsed since then they have not returned." Parmelee's Pills are antibilious and a specific for the cure of Liver and Kidney Complaints, Dyspepsia, Costiveness, Headache, Piles, etc., and will regulate the secretions and remove all bilious matter.

New West., 28th Sept., 1888. dse28m1

GREAT

Real Estate Sale!

I HAVE RECEIVED INSTRUCTIONS to sell by Public Auction at the Colonial Hotel; on

Saturday, October 13th,

AT 8 O'CLOCK, P.M.

THAT VALUABLE HOUSE AND LOT on Agnes street west, and known as Lot 9, Block XXXIII, New Westminster City. This is a full size lot with good six-room House, stabling for four horses, an excellent garden of bearing Fruit Trees, and a never failing supply of pure spring water. Terms, $1200 cash, balance at 8 per cent.

THE S. W. QUARTER OF SECTION 30, Group 2, 155 miles from New Westminster, with half a mile frontage on the Scott Road leading to Ladners Landing. This is an excellent chance to secure a good ranch within easy reach of the city. The growth is principally light alder, and the soil is of excellent quality. Terms, 25 per cent. cash, balance at 8 per cent.

THAT VERY ELIGIBLE LOT ON Agnes street, next the residence of Mr. Phillips, and known as Lot 36, Victoria Gardens; the size of the lot is 66 x 132 feet. This is one of the best situated lots on this street, and should meet with ready sale.

ANNACIS ISLAND.

ALSO THAT VERY DESIRABLE PROperty known as "Annacis Island." This island is situated about three-quarters of a mile below New Westminster City on the Fraser River. It contains 905 acres, a great part of which is prairie with a heavy growth of timber around the outer edge of the island, forming an excellent shelter and making it eminently adapted for a stock ranch. Some of the land has been cultivated, and it is upon this island that the beet sugar industry was established. This property will be found worthy the attention of capitalists, as in the hands of competent parties this island could be conveniently cut up into small farms of say 10 acres each, and would bring in a handsome return for the investment. And parties locating here would be within easy reach of the city, and have the advantages of a ready and constant market for all they could produce.

ALSO SEVERAL CHOICE LOTS 66 x 132 ft. Lot 19, Block XIII, New Westminster suburbs; and in Lot 9, Block X, New Westminster suburbs, facing on the Douglas Road: Terms, one-third cash, balance in three and six months, at 8 per cent. interest.

T. J. TRAPP,
Auctioneer.
