CITY HOTEL!
COLUMBIA STREET
New Westminster, Brit. Col.
FREDK. RAITH, Proprietor
F. RAITH BEGS TO INFORM THE Public that he has bought the interest of Mrs. Bonson, who is retiring from hotel business. Having thoroughly refitted and furnished the House, the travelling public and residents of New Westminster will find this one of the most comfortable and convenient hotels, conducted on temperance principles; situated in the business portion of the city and commanding a beautiful view of the Fraser river. dwoc6tc

Daily British Columbian
Thursday Evening, Oct. 25, 1888.

NOTES AND COMMENTS.

In the suit for libel brought by Attorney-General Martin against Acton Burrows, of the Winnipeg *Call*, the preliminary examination has resulted in the committment of the defendant for trial at the assize court. Premier Greenway has also instituted suits for criminal libel against Mr. F. Luxton of the *Free Press*, and Mr. Burrows.

An exchange says:—One of the first questions which Lord Lansdowne will have to grapple with when he assumes the viceroyalty of India will be to decide whether the province of Scinde is to remain under the Bombay presidency or be attached to the Punjaub. A correspondent says:—"It is mainly a question of military administration, the chief argument in favor of the transfer being that all the troops along the north western frontier of India would then be under the commander-in-chief of India, in place of partly under him and partly under the Bombay commander-in-chief." That it is no light matter is evident when we consider that the district has a population of two million and an area of 54,000 square miles. Scindé was formed into a British commissionership in 1843, after one of the brilliant victories of Sir Charles Napier over the Ameer.

Speaking of the late manipulations of the Chicago wheat market the N. Y. *Graphic* says: It ought to be a criminal offence to "corner" wheat as "Old Hutch" of Chicago has done. It is very strange that the law, which exists to regulate large corporations so that they may not rob the general public, should be powerless in the case of individuals who illegitimately control the markets for the necessaries of life. It is the rankest villany. It is the meanest of all "trusts," or monopolies, for it proposes no benefit to the public, the "Old Hutches" meaning in every case to enrich themselves within a few days through a state of things as unnatural and abominable as that which orders a man to hold up his hands that a thief may go through his pockets without danger to himself. There ought to be statesmanship enough in this country to stop that species of highway robbery.

There is apparently no limit to newspaper "enterprise" these days. The latest illustration is found in the Chicago Tribune, which, in the absence of some better sensation, employed two female reporters to enter the ranks of the salvation army and "write up" the workings of that institution. These girls made profession of conversion, donned the uniform, walked the streets, lived at army headquarters, and were as hypocritical as it is possible for mortals to be. Their experiences are in "to be continued" articles, profusely illustrated; but they are not much of an exposure. On the contrary, while sneering allusions are made to the methods of the army, and to the bad grammar spoken by some of its adherents, testimony is borne to the faithfulness, sincerity and zeal of the officers, while their treatment of the new "recruits" seems to have been of the kindliest possible description.

A Chicago press correspondent says, recently:—Five years of high license have we now had in Chicago, and, while it is a success as a revenue measure, it is an undisguised failure as a temperance measure. It in no way checks the consumption of intoxicating liquors as a beverage, nor does it in the least degree lessen the evils or crime from such use. It may be true that in a city like Chicago the number of saloons may be reduced by a few hundred, but such a reduction from an aggregate of several thousand is scarce noticeable. Drunkenness and the petty, as well as the grave, crimes resulting therefrom, receive no check from high license, and to urge it as a temperance measure or anti-saloon expedient is to attempt to commit a fraud on the community. Nor does high license give more decent saloons, if such places can claim any decency. The dives and dens, the barrel-houses and thieves' resorts, are as bad and frequent in the city to-day, after five years of high license, as they ever were. Call high license what it is, an easy way to raise a revenue from vice, but let there be an end of endorsing it as a temperance or a reform measure.

Pleasant as syrup; nothing equals it as a worm medicine; the name is Mother Graves' Worm Exterminator. The greatest worm destroyer of the age.

BY TELEGRAPH.

Servian Bishops Dismissed for Opposing King Milan.--The Lancashire Strikers Win.--Parnell Commission.

Montreal Wants to Borrow Fourteen Million Dollars.--The Manitoba Government Effect a Crossing.

LAST NIGHT'S DESPATCHES.

THE PARNELL COMMISSION.

LONDON, Oct. 24.- Sir R. E. Webster accused Mr. Parnell of criminality in his knowledge of the use of vast sums of money by the league for criminal purposes. According to the *Freeman's Journal* the receipts of the league from Oct., 1879, to Oct., 1881, were £144,890, only £44,877 of which was accounted for. Didn't Parnell know how the remainder was used? Had it been so expended that no open statement of its disposition could be given? If the league were a constitutional concern why were its books concealed? Some of the items of the accounts of the league, he said, had been traced, disclosing Mr. Parnell's relation with murderers and assassins. For instance the £100 cheque which was sent to Byrne, and the £35 cheque sent to Quinn. Sir R. E. Webster was proceeding to discuss the support received by the Parnellites from the *Irish World*, when the hour for adjournment arrived.

The Parnellites are elated over the admission of the *Times'* solicitors that their client is in possession of a bundle of letters admittedly spurious, which were purchased in America, and from this point of view it is argued that if the letters are not all genuine the paper may have been deceived in the matter of the other documents upon which its case is based.

FATHER KENNEDY RELEASED.

CORK, Oct. 24.—Father Kennedy, who was arrested in August for heading a meeting of the Duhallow branch of the National league, which had been suppressed, was released from the Cork jail to-day, his sentence having expired. There was no demonstration, his liberation having been made privately.

CARDINAL HOWARD'S MADNESS.

LONDON, Oct. 24.—Cardinal Howard was conveyed last week from the private mad house in St. John's Wood, where he has been confined, to a better asylum for the winter, situated near Brighton. The cardinal was seized with madness last December. He has had frequent lucid intervals, in which his grief and despair have been highly pathetic. He is now crazy all the while, and the cerebal affection is hopeless. He still looks the picture of health, save for a wild glance in the eyes. His mania almost steadily is that he is a captain in the horse guards, which he was before he took orders, and his language now is much better adapted to the mess room than to the monastery. He is very watchful, though, about his clothes, and insists on maintaining a cardinal's dress throughout, even to the red stockings and the red beretta, which he wears back on the side of his head, like an officer's forage cap.

THE POPE'S ADDRESS.

ROME, Oct. 24.—The pope, addressing a deputation of pilgrims from Naples to-day, said, "Foes of the papacy would not hesitate to confirm by renewed insults, even on solemn occasions, usurpation and violence which are within the remembrance of the whole world. Rome," he declared, "is predestined to see the Vicar of Christ and shall ever remain the capital of the Catholic world." The Archbishop of Naples recounted to his holiness all that had occurred in Naples during the visit of the Kaiser to that city, whereupon the pope said, "Our enemies are exerting their whole strength to oppress us. Let us redouble our efforts. Prompt and unwavering action is necessary, for which I rely upon the clergy."

AFTER GOLD.

BOSTON, Oct. 24.—Inspector Walls of the police, armed with a pickaxe and shovel and a diagram, started yesterday for Montreal. It has leaked out that he has gone in search of a pot which was secreted by "Old Joe" Fowle, and which is said to contain $8,000 in gold, the result of Fowle's various swindling operations in this city.

A FAMOUS SWINDLER.

LONDON, 24.—Mrs. Gordon Ballie, who claimed to be a philanthropist and swindled a number of tradesmen out of various supplies by means of worthless checks for alleged charitable purposes, has been sentenced to five years' penal servitude. Her husband received a sentence of eighteen months with hard labor.

GERMANY REFUSES.

LONDON, Oct. 24.—The *Standard's* Berlin despatches says the government has declined to share with England's part in the relief expedition for the rescue of Emin Bey on the ground that Dr. Emin is no longer a German subject.

MUST RETURN TO CHINA.

SAN FRANCISCO, Oct. 24.—The attorneys for the Chinese appeared in court this morning and asked Judge Sawyer to remand back to China 17 Chinese who claimed to be merchants, but whose examination developed the fact that they were only laborers. The judge formally ordered them remanded and that they be kept in the custody of the United States marshal until the arrival of the steamship Arabic, upon which vessel they will be taken back home.

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without pain. What it has done once it will do again.

TO-DAY'S DESPATCHES.

SUICIDED FROM GRIEF.

PATERSON, N. J., Oct. 25.—Thos. Douglas Hoxsey, paymaster U.S. navy, stationed at Brooklyn navy yard, suicided last night by shooting, at his family residence, Haledon, near here. The cause is supposed to be grief over the death of his wife.

MAIL-BAGS ROBBED.

CHICAGO, Oct. 25.—The mail-pouch which left Boston on Tuesday and arrived in Chicago last night over the Michigan Central railroad, was robbed of all first class mail matter and registered letters. It is supposed a large amount of money was secured by the thief. The robbery is supposed to have been committed between Boston and Cleveland by some one acquainted with the postoffice.

BISHOPS DISMISSED.

BELGRADE, Oct. 25.—The Bishops Demetrius of Hesch and Hicanar of Cauk have been dismissed from the Servian church for opposing King Milan's divorce.

STRIKERS WIN.

LONDON, Oct. 25.—The owners of the Lancashire collieries have yielded to the demand of the strikers. It is expected the Yorkshire collery owners will do the same and terminate the strike.

EFFECTED A CROSSING.

WINNIPEG, Oct 25.—A force of twenty-five provincial policemen, in charge of Chief Clark, and about thirty track layers left this city last night at midnight and drove to Headingly, 15 miles distant, where the Portage line crosses the Glenboro branch of the C. P. R. Under cover of darkness they succeeded in effecting a crossing and the force of armed police are protecting it. An injunction has also been obtained prohibiting the C. P. R. from interfering with it. A large number of men were brought in from Port Arthur and other eastern points to-day to reinforce the little army which the C. P. R. have stationed at the southwestern crossing.

SENTENCED TO HANG.

HALIFAX, Oct. 25.—Judge Ritchie this morning sentenced Wm. Preiper to be hanged on January 16th, for murdering Patrick Doyle, a farmer, for whom he worked. He vehemently protested his innocence.

SEARCHING FOR AXWORTHY.

QUEBEC, Oct. 25.—City detectives have been instructed to search the s.s. Polynesian, expected down from Montreal to-day, as it is supposed Axworthy, the Cleveland defaulter, is on board.

SERIOUS ACCIDENT.

MONTREAL, Oct. 25.—Mr. Baumgarten, ex-master of the Montreal fox hounds, met with a serious accident at the hunt yesterday. Owing to the heavy condition of the country he was induced to diamount at a large ditch. Leading his horse he crossed on foot but slipped and fell, his horse stepping heavily on him and seriously injuring his spine. Partial paralysis was caused.

A BIG LOAN.

MONTREAL, Oct. 25.—A cable was received from Mayor Abbott this morning stating that Baring Bros. have offered to take up a $14,000,000 three per cent. perpetual corporation loan at 82. The bankers here say the price offered is far two low and that better terms might have been extended on their side.

BLAINE.

NEW YORK, Oct. 25.—Blaine will make this city his headquarters until after the election, meantime speaking in neighboring states. To-night he speaks at the Irish-American meeting here.

JEM SMITH FINED.

LONDON, Oct. 25.—Jem Smith, the pugilist, was arraigned at the police court this morning, charged with raising a drunken row and using obscene language while returning from the Newmarket races yesterday. He was fined.

THE PARNELL COMMISSION.

LONDON, Oct. 25.—Before the Parnell commission to-day Attorney-General Webster resumed his address. He said the land league was originated in America and the conspiracy was benefitted by American money. The members of the league in America were dynamiters and advocates of murder, and they had the Parnellites as accomplices. It is absurd to say that Parnell had no relations with Patrick Ford. A host of facts proved intimate connection between the two. The counsel for the *Times* had subpœnas served upon Thos. Power O'Connor to-day summoning him to appear before the commission.

Late Canadian News.

OTTAWA, Oct. 22.—A charge of shameful land-grabbing is laid against Sir Adolphe Caron and Hon. John Costigan. A farmer named Leclaire, in Ottawa county, Quebec, has made a sworn declaration to the effect that he has been defrauded out of a great part of his farm on which was phosphate by these two ministers of the crown.

An attempt was made to sandbag Mr. C. W. Mitchell, of the *Free Press*, last evening by two ruffians while on his way home. It is supposed they wanted to rob him.

The government surveyors have concluded this season's astronomical observations, extending from the Pacific coast to Port Arthur. This will enable them to correct any siderial errors in the British Columbia and Northwest surveys.

OTTAWA, Oct. 23.—The Knights of Labor have passed a resolution condemning the Chapleau banquet as a tory "bun-feed."

Children Cry for Pitcher's Castoria

Daily British Columbian

Thursday Evening, Oct. 25, 1888.

With the increase of sawmills in and around this city, and the multiplication of steam tugs and larger steam crafts, to say nothing of our woollen mill, prospective flouring mill, and other industries requiring machinery, the question of the speedy establishment in the city of a thoroughly equipped foundry, including machine and boiler shops, becomes one of the most urgent. As things are at present, great inconvenience and loss result from having to send out of the city and province to replace broken and worn out parts of machinery, as really heavy work cannot be done short of San Francisco. The money, too, that is sent out of the country in this way is no inconsiderable item; and in the course of a year or two, when the sawmill industries of the city will have been more than trebled by the addition of the Ross-McLaren mills and other prospective establishments—with the consequent increase of steam craft and the impetus accruing to other manufacturing industries—the amount that would have to be paid out of the city and out of the province for repairs to old, and for new, machinery would unnecessarily handicap our manufacturing industries, besides proving a serious drain upon this city and the country at large. But this is only the negative side of the question. A $300,000 foundry, with machine and boiler shops, would give employment, directly, to 400 men. Such a foundry would be complete in every respect, and competent to do any possible work required in the direction already outlined, besides supplying the constantly increasing demand for mining machinery—a branch of industry that bids fair in the near future to assume dimensions hitherto unapproached. Ship-building, too—an industry almost certain to be prosecuted here before long—requires a large amount of iron work, and this the foundry would also supply, as well as repairs to the fleet of seagoing lumber and other vessels which will soon throng our harbor at all seasons. The canneries, also, would have all their wants in the machinery line met by such a foundry as we have mentioned. Recognizing the open field—it may be said to be fairly yawning—which Westminster offers for a foundry of the dimensions and capacity alluded to, a practical eastern man has signified his readiness to subscribe liberally to the stock of the proposed foundry and superintend its establishment. It has been estimated that such a foundry as is required would demand a capital stock of $300,000. A certain amount of eastern capital would be put into the scheme. It has been suggested that the New Westminster & Seattle Railway Co. should take stock in the enterprise to the extent, at least, of the bonus of $75,000 given them by this city for a foundry and workshops, thus turning their capital and work into the larger undertaking—an arrangement which would benefit all parties, and to which there could, consequently, be no objection. The remainder of the capital required, it is surmised, would be readily subscribed by the various sawmill companies and other manufacturers, the whole scheme being placed upon the basis of a joint stock company. It would be in the interest of the city to deal liberally with this enterprise in the way of furnishing a proper site, in exemption from taxation, or in other ways. Considering all our circumstances, and prospects, the importance of this foundry scheme, as intimately related to the welfare of the city, is only equalled by the expediency and the necessity for immediate action in the matter. It is by properly appreciating the situation and seizing such opportunities as this that a city builds surely and solidly, laying foundations for future greatness. There is a tide, &c., that taken at the ebb flows on to fortune. This is fully as true in the experience of cities as of men. The present is a critical—a formative—period in the history of British Columbia. The destinies of the various cities and districts are shaping in such a way now as has never been the case before. Opportunities allowed to slip now can practically never be recovered. Some city, or, at the most, cities, will forge ahead. Which shall it be? If the people of Westminster awake to a full appreciation of the situation and the wealth of latent advantages which they possess, and adopt a bold and progressive policy, sacrificing, if need be, to some extent, the present for the future, our destiny is realized—the Royal City will certainly not be last in the race. Let us endeavor, at least, to keep neck-and-neck as long as possible in the friendly heat with our rivals.

Last week marked an important epoch in the history of Winnipeg and Manitoba. It can now be said that at least the beginning of the end of the C.P.R. monopoly has been witnessed. The first passenger train over the Red River Valley and Northern Pacific Railway connections from St. Paul arrived in Winnipeg on Friday afternoon about 4 o'clock. The event caused a considerable gathering of citizens, who watched the approach of the train with feelings of satisfaction. Hereafter, says the Winnipeg *Commercial*, through trains will leave Winnipeg daily for St. Paul at 9:05 in the morning and will arrive at Winnipeg at 1:30 o'clock in the afternoon. The trip between the two points will be made in 22½ hours. The passenger fare will be $14.40, the same as the St. Paul and Manitoba road, but a second class fare for $11:50, not obtainable on the other road, will be given. A freight tariff will shortly be issued giving rates to all points in the east, over the Northern Pacific and connections, via Duluth and Chicago; also to and from Pacific coast points. After long waiting and agitating, an independent outlet for Manitoba has been secured, but not without considerable sacrifice by the province. It is to be hoped that the new route will prove all that is expected of it, and that it will be in fact as in name, a competing line. There has been already some disposition to criticise the new road, more particularly in regard to its apparent tardiness in cutting rates, but the general sentiment is to suspend judgment until the management get their affairs into regular running order. When this is accomplished it is to be hoped that the policy of the road will prove satisfactory to the people of Manitoba, who have liberally aided the enterprise and perseveringly surmounted so many vexatious obstacles to secure this southern connection. We bespeak for them the sympathies and best wishes of British Columbians generally.

A matter calling forth more interest, as well as sympathy in Manitoba railway affairs just now, is the stubborn and cantankerous obstruction by the C.P.R. of construction on the Portage la Prairie extension of the Northern Pacific and Manitoba system. A C.P.R. locomotive was placed across the track some days ago, where it was desired to make the crossing, and a guard stationed to prevent its removal by the tracklayers of the Portage extension. Van Horne also applied for an injunction to the supreme court of Manitoba, and an interim injunction was granted restraining the Portage extension from crossing the C.P.R. track accordingly. Monday the injunction case was argued, and, according to our despatches yesterday, judgment was given against the C. P. R., who it is said, further, will not accept the decision of the courts, but will resist the crossing by force. This unwarrantable proceeding, added to the hostility which has already been aroused by the attitude and actions of the C.P.R. in this matter, is almost certain to precipitate trouble immediately. The tracklayers on the Portage extension are right up to the C.P.R. obstructions, and, having now the decision of the courts at their back, the determined Manitobans will be very likely to sweep all obstacles that bar their progress out of the way. Such, indeed, would appear to be the intention, according to our despatches last night, which stated that the attorney-general had issued a call for special constables to clear the track to-day. The Manitoba people are conscious of being in the right in this matter. They argue, very properly, that, as the C. P. R. was paid to forgo its monopoly rights, the present policy of the company is in violation of the spirit of the agreement for the removal of the monopoly. The action of the C.P.R. in this affair is both reprehensible and foolish, as the province, in the very nature of the case, must, should, and will have its rights eventually, which in this case, we believe, will mean almost immediately. We sincerely hope there may be no actual violence, leading perhaps to bloodshed; but, if there should be, the C.P.R. will find it difficult to shift the responsibility for such a lamentable result from their own shoulders.

It is a remarkable fact that Dr. Thomas Eclectric Oil is as good for internal as external use. For disease of the lungs and throat, and for rheumatism, neuralgia, crick in the back, wounds and sores, it is the best known remedy, and much trouble is saved by having it always on hand.

Jacob Loockman, Buffalo, says he has been using it for rheumatism. He had such a lame back that he could do nothing; but one bottle entirely cured him.

Pimples, Boils,

And Carbuncles result from a debilitated, impoverished, or impure condition of the blood. Ayer's Sarsaparilla prevents and cures these eruptions and painful tumors, by removing their cause; the only effectual way of treating them.

Ayer's Sarsaparilla has prevented the usual course of Boils, which have pained and distressed me every season for several years.—G. Scales, Plainville, Mich.

I was badly troubled with Pimples on the face; also with a discoloration of the skin, which showed itself in ugly dark patches. No external treatment did more than temporary good. Ayer's Sarsaparilla effected

A Perfect Cure,

and I have not been troubled since.—T. W. Boddy, River st., Lowell, Mass.

I was troubled with Boils, and my health was much impaired. I began using Ayer's Sarsaparilla, and, in due time, the eruptions all disappeared, and my health was completely restored.—John R. Elkins, Editor *Stanley Observer*, Albemarle, N. C.

I was troubled, for a long time, with a humor which appeared on my face in ugly Pimples and Blotches. Ayer's Sarsaparilla cured me. I consider it the best blood purifier in the world.—Charles H. Smith, North Craftsbury, Vt.

Ayer's Sarsaparilla

Is sold by all druggists. Ask for Ayer's Sarsaparilla, and do not be persuaded to take any other. ††

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Price $1; six bottles, $5.

NOTICE.

NOTICE IS HEREBY GIVEN THAT thirty days after date we intend to apply to the Chief Commissioner of Lands and Works for permission to lease for timber purposes the following described lands, situated in New Westminster District, B. C., on the southerly side of Harrison lake, and about twenty miles from Harrison hot springs:

Commencing at a post planted at the south-west corner of Plot No. One [1] of Martin & Son's application for the Harrison Saw Mills, dated September 24th, 1888, post marked H. S. Mill; thence 160 chains north, 70 deg. west, to a post marked S. W. post, H. S. Mill; thence 20 chains north-east to a post marked N. W. post, H. S. Mill; thence east 165 chains to a post marked N. E. post, H. S. Mill; thence 40 chains south to place of commencement—containing about 300 acres.

Public Notice

THE ATTENTION OF THE PUBLIC is hereby directed to the "Provincial Health (small-pox) By-Laws, 1888," issued by His Honour the Lieutenant-Governor in Council, under authority of the "Health Ordinance, 1869."

Having been appointed Provincial Health Officer for Districts lying south of Fraser River, I hereby give notice that the provisions of said By-Laws will be strictly enforced, and all persons are required to govern themselves accordingly.

R. I. BENTLEY, M. B.,
Provincial Health Officer.
New West., Oct. 6, 1888. doc6ml

[L.S.] HUGH NELSON.

BY-LAWS ISSUED BY HIS HONOUR THE LIEUTENANT-GOVERNOR-IN COUNCIL,

Under the Authority of the "Health Ordinance, 1869."

HIS HONOUR THE LIEUTENANT-Governor of British Columbia, by and with the advice of the Executive Council of British Columbia, acting under and by virtue of the provisions of the "Health Ordinance, 1869," enacts as follows:—

1. Whenever small-pox is present in any locality without the boundaries of any Municipality, the Provincial Health Officer nearest to such locality shall at once cause the patient to be removed to an isolated hospital, tent or other suitable place, or cause such person to be otherwise sufficiently isolated, and shall see that he is properly cared for, and shall take proper measures for the disinfection, or, if necessary, the destruction of all clothing which may have been exposed to the contagion, and for the disinfection and purification of every conveyance, rail-car, steamboat, railway, vessel, carriage, or other vehicle which may have been exposed to the contagion.

2. Such Health Officer shall have, in his discretion, full power to place in another building or tent all persons who may have been exposed to the contagion, and shall cause them to be supplied with all necessaries until the period of incubation of the disease shall have elapsed, and no such person shall go, or be permitted to go, abroad, until he or she has given satisfactory proof of successful vaccination within the preceding seven years, or shall have obtained a medical certificate of insusceptibility to the vaccine disease, nor until the clothing or effects worn or carried by or with him or her have been properly disinfected, if the same have been exposed to contagion.

3. To assist the Health Officer, he shall have full power to employ persons to be nurses, sanitary policemen, and otherwise to aid in the prevention of the spread of the disease, and may himself give and enforce such reasonable directions for the same purpose as to him may seem expedient, and the nearest Government Agent shall see that all articles and necessaries required by the Health Officer are furnished.

4. It shall be the duty of every medical practitioner who shall attend upon, or give medical or surgical advice, to or about any person suffering from small-pox, to give notice forthwith after he shall have commenced so to attend or give such advice, to the nearest Provincial Health Officer. When a householder knows that a person within the house occupied by him is taken sick of small-pox, he shall immediately give notice thereof to the nearest Provincial Health Officer.

5. The Provincial Health Officer before mentioned is and includes any person appointed Health Officer under the "Health Ordinance, 1869," by the Lieutenant-Governor in Council.

6. The foregoing provisions shall have no effect within the limits of any Municipality, save as hereinafter mentioned.

7. In case the Council of any Municipality, whenever small-pox is present, or likely to occur therein, shall fail to make or carry out proper provisions to prevent the spread or spread of small-pox within the Municipality, and complaint thereof shall be made to the Lieutenant-Governor by the Council of any adjacent Municipality, it shall be lawful for the Lieutenant-Governor in Council, acting upon such complaint, or in his discretion upon other information, to order that these regulations shall, until otherwise ordered, apply to and be in force within the Municipality in which such neglect occurs, and thereupon any Provincial Health Officer shall have within and in respect of such Municipality all the authority with which he is clothed in respect of localities without Municipalities, and in such case all disbursements and expenses paid by the Province in the carrying out within such Municipality of the foregoing regulations, shall be paid by such Municipality.

8. These regulations may be cited as the "Provincial Health (small-pox) By-Laws, 1888."

Dated at Victoria, this 3rd day of October, 1888.

By Command,
Geo. Robson,
doc6ml Provincial Secretary.

Executor's Notice.

ALL PERSONS HAVING CLAIMS against the Estate of the late John H. McInnes must present same, properly verified, to the undersigned on or before the 31st inst., and all persons indebted to said Estate must pay forthwith.

POPULAR MELODIES.

Their Origin Lost in the Mists of Antiquity.

The Avalanche declines to believe that "The Arkansaw Traveler" ever had a composer.

It is one of those airs of the people, one of those rude and homely, lively, quick and devilish fantasies of the common people, that "put life and mettle in our heels."

"Nae cotillion, brent new frae France," nae whirling air from Germany, nor yet sport of an Italian fiddler, it is one of those rollicking tunes of the backwoods that grew somewhere in the backwoods years ago. Its origin is lost in the mists of antiquity. It is probably older than the common law, as old as custom, hoarier than manners.

Such airs, with varying names and varied strains, are like the ballads, the proverbs, and the sayings of the people. They may be tracked back and back until the track is lost.

Origin or author they have never had. They have been harped and blown and fiddled, thrummed and danced by the ages. Antiquarians have searched diligently for author and origin for the ballads and for the saws, proverbs, and sayings of the people.

The search has only established that these always were just as they are, with minor variations.

Who composed "Rack Back, Davie," "Old Granny," "Rye-Straw," "Forked Deer," "Leather Breeches," "Old Zip Coon," "Natchez-under-the-Hill," "Billy in the Low Grounds," and hundreds of other popular country fiddler airs?

Their names have changed and their strains have been varied, but they may be heard fiddled out and danced out the world over. They might have been heard centuries ago.

Sherman thought the air to "Marching Through Georgia" a war composition, but he heard a blind fiddler fiddling it in Edinburgh.

Harry McCarthy, "the Arkansas comodian," gave the "Bonnie Blue Flag" to the South, but the air is old as the hills. The air sung to Jim Randall's "Maryland, My Maryland," is gray with age.

The airs of the people, grave and gay, quick and devilish, in the minor key, in the major mode, pathetic or sombre, or soft and languishing with love and tears, and the ballads of the people and the sayings of the people are equally without author or origin.

They go with the traditions. Perhaps they came from Adam, from before the fall. "The Arkansas Traveler" is one of these.

Unhappy the man who has not worn out his heels in early youth on puncheon floors in stolen midnight and perhaps forbidden dance at quiltin' or apple butter bilin' to these airs of the people. —[Memphis Avalanche.

Strange Story of Unconscious Memory.

A girl of 7 years, employed in tending cattle, slept in an apartment next to one occupied by an itinerant fiddler, a musician of considerable skill, who frequently spent the night in performing pieces of a refined description.

She fell ill, was taken care of by a lady and eventually became her servant. Some years elapsed, and the family were often surprised to hear music during the night.

At length the sound was traced to the sleeping room of the girl, who, fast asleep, was warbling in a manner exactly resembling the sweetest tones of a small violin.

It was found that after being two hours in bed she became restless, and began to mutter to herself; then uttering noises resembling the tuning of a violin, she dashed off, after some prelude, into elaborate pieces of music, which she performed in a clear and accurate manner.

A year or two passed away, and she began to vary her performance by imitating the sounds of an old piano in the house, the singing of the inmates, and further on she began to discourse on a variety of topics.

The justness and truth of her remarks on all subjects excited the utmost astonishment in those who were acquainted with her limited means of acquiring information.

She was known to conjugate correctly Latin verbs, and to speak several sentences in French.

During paroxysms it was almost impossible to wake her, and when her eyelids were raised, and a candle brought near her eye, she seemed insensible to light.

About 16 she began to observe those who were in the apartment, and answered questions put to her with astonishing acuteness. This affection went on for ten or eleven years.

She was, when awake, a dull, awkward girl, slow in receiving any kind of instruction, without any turn for music, or apparently any recollection of what passed in her sleep.—[Contemporary Review.

Began at the Foot of the Ladder.

Ex-Senator Davis, now a gentleman of great wealth, is a self-made man, as the following reminiscence shows:

In 1882 a dinner party was given in New York City. Henry G. Davis sat at one end of a table, Simon Cameron, of Pennsylvania, sat at the other, and Gen. W. T. Sherman at the head.

The General began a reminiscence of his life by saying:

"When I was a lieutenant——"

"Come, now, Sherman," interrupted Mr. Davis, "were you ever a lieutenant?"

"Yes, Davis," he replied, "I was a lieutenant about the time you were a brakeman on a freight train."

"Well, boys," observed Cameron, "I don't suppose either of you ever cut cordwood for a living, as I did."

America has many such men as these.

Color Blind.

A gentleman who imagined that he recognized a lady friend advanced cordially and addressed her:

"I beg pardon," he said, "but isn't this Miss Greenleaf?"

"No, sir," replied the lady, "my name is Redpath."

"Ah, excuse me. I must be color blind."

Defying Expert Testimony.

Client (to lawyer): "I am afraid the physician's testimony will convict me."

Lawyer (reassuringly): "Don't be alarmed about that. I'll read up a little about poison in the stomach, and in ten minutes I'll have that doctor in a cold sweat, and make the judge and jury think he is a hired perjurer."

"It Saved My Life"

Is a common expression, often heard from those who have realized, by personal use, the curative powers of Ayer's Cherry Pectoral. "I cannot say enough in praise of Ayer's Cherry Pectoral, believing as I do that, but for its use, I should long since have died from lung troubles.—E. Bragdon, Palestine, Tex.

About six months ago I had a severe Hemorrhage of the Lungs, brought on by a distressing Cough, which deprived me of sleep and rest. I had used various cough balsams and expectorants, without obtaining relief. A friend advised me to try

Ayer's Cherry Pectoral.

I did so, and am happy to say that it helped me at once. By continued use this medicine cured my cough, and, I am satisfied, saved my life.—Mrs. E. Coburn, 18 Second st., Lowell, Mass.

I have used Ayer's Cherry Pectoral for over a year, and sincerely believe I should have been in my grave, had it not been for this medicine. It has cured me of a dangerous affection of the lungs, for which I had almost despaired of ever finding a remedy.—D. A. McMullen, Windsor, Province of Ontario.

Ayer's Cherry Pectoral saved my life. Two years ago I took a very severe Cold which settled on my lungs. I consulted physicians, and took the remedies they prescribed, but failed to obtain relief until I began using Ayer's Cherry Pectoral. Two bottles of this medicine completely restored my health.—Lizzie M. Allen, West Lancaster, Ohio. ††

Ayer's Cherry Pectoral,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5.

Lost	Kerry & King

Daily British Columbian

Thursday Evening, Oct. 25, 1888.

The salmon run last night was very light.

Fresh Eastern Oysters by the can at R. J. Armstrong's. dse26tc

Fresh Eastern and Native Oysters, served in every style, at the Club. *

W. H. Vianen has sold his two pet deer to Mr. J. C. Henderson, of Chilliwhack.

A meeting of the old Hyack Fire Co. has been called for this evening at the Skating Rink.

The str. Gladys left for up-river ports this morning with a full load of freight and a number of passengers.

The str. Irving arrived down from Chilliwhack this afternoon with a full load of farm produce and 25 passengers.

There are now 86 patients cooped up in the provincial insane asylum. The institution should be at least doubled in size.

It is the opinion of many that Columbia street is unnecessarily blocked up with building material opposite the Colonial. Something should be done to give more street room.

At St. Pauls, R. E. church last night a union choir was formed to assist at the services to be held by Mr. D. L. Moody in this city. Mr. H. L. DeBeck was chosen conductor and Miss DeBeck organist.

The preliminary surveys on the Canfield railroad having been completed, the surveyors are now setting the permanent stakes on the line from Bellingham Bay to New Westminster.—*Whatcom Reveille.*

The experience of years furnishes the most convincing evidence that thousands of lives are annually saved by the use of Ayer's Cherry Pectoral. It speedily cures all affections of the throat, bronchial tubes, and lungs.

Mr. Thos. Cunningham laid on our table to-day a handsome cluster of grapes grown in his garden on Pelham street. They are large in size, of perfect flavor, and will compare most favorably with the California product.

The Salvation army will give a grand tea meeting at the barracks on Saturday evening, Nov. 3rd., which will be followed by a torchlight procession and meeting at Herring's opera house. Posters will be out in a few days.

It is useless to attempt the cure of any disorder, if the blood is allowed to remain impure. Neuralgia and rheumatism are traceable to a disordered condition of the blood, and in numberless cases have been cured by taking a few bottles of Ayer's Sarsaparilla.

The Salvation army people deny the truth of the *Times* statement that Nanaimo was to be abandoned. Lieut. Richardson, who has been removed from the diamond city to Westminster, says the army is making splendid progress there, and that no evacuation will take place while there is a chance to save a soul in Nanaimo.

Yesterday afternoon a horse race for $50.00 a side was run on Douglas street by Robert Kerry's sorrel mare Dolly and Jos. Wise's horse Major. The distance was half a mile, best two out of three heats. A large number of people were present. Both heats were won by Dolly, by three lengths. Dolly is a fine mare, 14 hands high and 5 years old. This was her first race and she gives promise of becoming a "fast 'un."

Ladner's Landing, near the mouth of the Fraser river, is having quite a boom. This is where the Canadian Pacific branch will cross to connect with the West Coast at Blaine; and the wonderful scope of rich bottom land, three times as great in area as the Swinomish flats and equally fertile, gives Ladner's good backing. Oats raised there are selling for $22 and $23 per ton, with Victoria and Vancouver as markets.—*Whatcom Reveille.*

Mr. W. Maguire, merchant at Franklin, writes: "I was afflicted with pain in my shoulder for eight years—almost hopeless at times—have tried many remedies, but with no relief, until I used Dr. Thomas' Eclectric Oil. After a few applications the pain left me entirely, and I have had no pains since. Do not take Electric or Electron Oils, but see that you get Dr. Thomas' Eclectric Oil."

The Provincial Lands Sale.

The sale of provincial lands on Tuesday and Wednesday, at Vancouver, resulted most satisfactorily and was a decided success. The parcels of land sold averaged from 7 to 214 acres each, and the prices obtained ranged from $9 to $92 per acre, the land lying nearest Vancouver bringing the highest price. The squatters whose claims were put up for sale were, by agreement, allowed to bid them in at $2.50 per acre, which pleased them greatly, and they are more than delighted with their good luck. The only squatter's claim bid on by outside parties was that of the Rev. Mr. Ditcham.

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found as low as at any other office in the province.—*Ads.*

Children Cry for Pitcher's Castoria

Merchants, Attention!

Residents of the North Arm are loud in their complaints against the steamboat service they are obliged to put up with at present. Since the mail contract has been withdrawn from the str. Richmond there has been no reliable service from Westminster, and when a farmer comes to town there is no certainty when he will be able to return home. The steamboat owners complain that the merchants of Westminster do no treat them fairly in the way of freights, they sending down a special steamer when any large quantity of produce is to be brought up. Unless the merchants wish to lose the entire trade of the North Arm they will have to act more liberally, as the farmers feel sore with the present condition of things. A very small sum contributed by the business men of Westminster would insure a daily service.

A Pointer Regarding Moody.

D. L. Moody, the great preacher, who will be in Vancouver on Sunday next, and some time following, is in some respects very differently situated to many of his brother evangelists. In the matter of finances he is very much so. One of Chicago's wealthy men pays all his salary and expenses, and all that the cities and towns in which he preaches are expected to do is to provide a suitable building and the congregations. Moody does not receive a cent of the collections or subscriptions. If there is a balance on hand after all expenses in connection with the meetings are paid, it is generally sent by a committee of the citizens to one of the numerous homes founded by him. We make this explanation because a number of people attribute to Moody, and others engaged in the same work, mercenary and other unworthy motives as being the incentive to their labors.—*Vancouver World.*

The Squamish Small-Pox.

In speaking of the small-pox cases among the Indians on the Squamish River, Mr. P. McTiernan, Indian agent, says the first report that the disease was contracted in Washington Territory turns out to be incorrect. The exact facts are these:—An Indian woman from the Squamish found a bed and some bedding floating in the water underneath the Sunnyside Hotel, Vancouver, and picked them up and took them home. Her two children were given the bedding to sleep on, and in a week or ten days afterwards the disease broke out, both of them being attacked. It is almost certain that the original owners of the bedding could tell a tale of small-pox if they were so disposed. Mr. McTiernan has gone over to Vancouver to send up supplies to the Indians. When the word of the disease was reported to the Indian department at Ottawa Mr. Dewdney telegraphed instructions to Mr. McTiernan to take all steps necessary for keeping it in hand. This Mr. McTiernan has done and there is not any liklihood of the small-pox spreading to the neighboring Indians.

The Provincial Secretary.

Hon. John Robson, provincial secretary, was in the city to-day and was interviewed by a representative of THE COLUMBIAN regarding the new government buildings to be erected in Westminster. Mr. Robson said it had been decided to have plans prepared immediatly and the tender would be let before the end of the year. The plans will probably be prepared by a local architect. The conditions of the contract will call for building operations to be commenced as early next year as the weather will permit. Speaking of the grant of land on Lulu Island, asked for by the city for railway purposes, the Hon. Mr. Robson said the government could not make the grant without special legislation on the subject, but there is every reason to believe the matter will be arranged to the satisfaction of the people of Westminster at the next sitting of the house. The hon. gentleman felt certain the government would put no obstacle in the way of the land being granted. Regarding the small-pox he said the government would take prompt measures at any time to prevent the spread of the disease. The Dominion authorities will attend to any cases among the Indians. The new city charter, Mr. Robson said, would be proclaimed by the executive at the wish of the city council.

The Str. Dunsmuir.

The steamer Dunsmuir, Capt. Rogers, arrived in port last night from Esquimalt, having made a quicker passage than ever before. The run from Esquimalt to Ladners was made in 5 hours 45 minutes, which is fast time for any vessel considering a heavy wind was blowing at the time and the sea was running high. The Dunsmuir made a trial trip on Monday afternoon, several gentlemen being aboard. The steamer under the new improvements gave unqualified satisfaction, making ten miles per hour easily at 146 revolutions per minute. The engines are compound tandem with twin screw, and worked splendidly throughout the trip. They were manufactured by the Albion Iron Works, Victoria. The deck, bulwarks, upper works and rigging are all new, and the steamer presents a trim and seaworthy appearance. The interior arrangements are not all finished yet but will be within a few weeks. A handsome little ladies' cabin is provided on the main deck, astern of the engine room. It is nicely painted and carpetted and will be furnished with sofas, chairs, etc. The ladies' staterooms are large and comfortable and will meet with the approbation of the fair sex. The Dunsmuir's carrying capacity is almost doubled by the change, and, as a seaworthy craft she is equal to any on these waters. She left for Nanaimo this morning with 40 tons of merchandise and eight passengers.

Mr. R. A. Harrison, Chemist and Druggist, Dunnville, Ont., writes: "I can with confidence recommend Northrop and Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation — such cases having come under my personal observation."

A Market for Cranberries.

It is not generally known that cranberries grow abundantly in British Columbia. The Westminster COLUMBIAN says: "The cranberry season is now in full blast and Indians and Chinamen are making good wages in picking them. Up to date W. H. Vianen has purchased 100 barrels and he expects this number will be increased by 300 barrels before the season is over." There would be a good market on this side of the mountains for cranberries, if the enterprising Columbians will go into the business of shipping them in this direction. Owing to the scarcity of fruit here, cranberries are largely used in the winter season in Manitoba and the territories, and with our diet, largely of meat, they furnish an excellent relish. Cranberries are usually worth from $9 to $12 per barrel in Winnipeg.—*Winnipeg Commercial.*

Submerged in Pitch.

Yesterday afternoon about 4 o'clock three employees of the Albion Iron Works Co. met with a novel and decidely disagreeable experience, while at work in the foundary yard. The men were standing on a board over a vat of asphalt, a composition into which the water-pipes are dipped, when the board broke and they took a plunge into the pitchy contents of the vat. Fortunately the asphalt was not hot and the men were immediately rescued in no way injured by their involuntary bath, although mournfully black from head to foot. The worst of it is, the asphalt is made to stick and little short of a mallet and chisel will get it off. As the latter treatment of the case is hardly in order, the probability is that the men will be compelled to pose as respectable "cullud pussons" until the coating wears off. The hair, retaining most of the pitchy substance, will have to come off and the men will, after a shaving process, look like handsome Ethiopians with bald, white heads. The victims of the accident are laid up to-day, while everything that can be, is being done to remove their shells.—*Colonist.*

THE COAST FISHERIES.

Return of Capt. Grant from the Northern Waters.—Excellent Fishing Grounds Discovered.

Capt. C. D. Grant, of the schooner Oriel, has returned to Westminster from a voyage of discovery among the Northern waters. The Oriel left Westminster on August 8th and sailed direct to Cape Scott, the extreme northwest point of Vancouver Island. She sailed thence to Hope Island, which lies a short distance off the mainland. Here an excellent harbor was found and Capt. Grant commenced his explorations and was lucky enough to find a good halibut bank, but not being fitted out with the proper gear could not do much fishing. In Hardy Bay, near Fort Rupert, silver salmon were found in abundance and took the spoon bait as ferociously as do the pike. Capt. Grant stayed in Hardy Bay for two weeks and in that time caught and salted a dozen barrels of salmon. All the fish were caught with a spoon bait. Bull harbor was the next point explored and halibut was found in paying numbers. The whole crew of the Oriel numbered but 2 men and a boy, which made the fishing necessarily slow, as with such a small crew only a limited number of trawls could be manned. After leaving Bull Harbor two weeks were spent in prospecting the neighboring waters with varying success. Capt. Grant had been informed that there was no halibut at Nawitta Bar, but the Indians say the fishing is good when the weather is favorable. Salmon are also numerous near the bar and can be captured easily with a troll. Close to Hope Island Capt. Grant discovered a magnificent halibut bank in 65 fathoms of water, but not being prepared for such deep fishing, and the schooner's hawser only being 45 fathoms long, he was obliged to employ Indians to prospect the ground. The first day's work, for two canoes, was 25 fine fish, running from 25 to 90 lbs. in weight each. This convinced Capt. Grant that he had struck fish at last and the prospecting was continued. The Indians were lazy and would not do any work except on fine days—a light fog or rain being a sufficient excuse to refuse duty. After the first day the boats never brought in less than one hundred halibut, averaging between 30 and 40 lbs. each. All through these waters salmon were found in plenty. After some further cruising, during which several other banks were located, the Oriel's head was turned homewards with a sufficient catch on board to pay all expenses and a neat profit besides. Stiff head winds and several dreary calms were met with on the trip home, but the last day out brought a surprise in the way of weather that Capt. Grant will not forget for many a long day. On Tuesday morning a strong nor'wester sprung up which soon changed into a gale, lashing the sea into foam and making it almost impossible to carry enough canvass to steady the vessel. Fortunately Burrard Iniet was close at hand and after much trouble Capt. Grant managed to enter it in safety.

Speaking of the prospects of the fisheries Capt. Grant informed a representative of THE COLUMBIAN that their greatness is inappreciable, but steam vessels will be necessary to make the business profitable. Steam schooners, fitted with every appliance, are the only class of vessels suitable to the fishing, as the currents and tides are so strong that a sailing vessel is almost useless. The best fishing will be found in deep water, and vessels should be provided with hawsers not less than 75 fathoms long. The fishing is profitable and can be engaged in, not as a speculation, but as a solid money making business. Capt. Grant will now endeavor to form a company to build a suitable vessel and, if successful, he will begin operations early next spring.

Colic and Kidney Difficulty.—Mr. J. Wilder, J.P., Lafargeville, N. Y., writes: "I am subject to severe attacks of Colic and Kidney Difficulty, and find Parmelee's Pills afford me great relief, while all other remedys have failed. They are the best medicine I have ever used." In fact so great is the power of this medicine to cleanse and purify that diseases of almost every name and nature are driven from the body.

Communications.

THE FIRST NOTE.

EDITOR COLUMBIAN. — Although two months have to elapse before the coming civic election, yet it is none too early to be alive and moving in the matter. Some of the present council may become candidates for re-election, and whether they deserve the support of the electors should depend upon the manner in which they have carried out their trusts in the past. Though not open to charges of corruption, yet I think it plain that they have not been vigilant, and through their lack of enterprise and energy have suffered the interests of the city to be neglected and its trade to pass into another channel. You have been good enough, Mr. Editor, to refer, on several occasions, to the exigency that has existed for the establishment of the first market. Have not the council turned a deaf ear to your warning, with the result that Vancouver has gained that advantage which should have belonged to the royal city? How often the council adjourn for want of a quorum! The lack of interest which necessitates this does not occur in any other place in the province. No one will deny that the prodigious growth of Vancouver is due to the energy of its citizens and the interest taken by its mayor and aldermen, who so ably discharge that trust confided to them by their constituents. Strangers notice this and are not blind to its results. Let us take pattern by Vancouver and elect a wide-awake council of business men with outside experience. If this be done, we shall learn how other cities become known and attractive, otherwise Westminster will fail to occupy that leading position for which nature has admirably fitted her. Z.

Personal.

P. McTiernan went over to Vancouver to-day.

W. L. Fagan came over from Vancouver to-day.

John Devine, city auditor, Vancouver, was in the city to-day.

Prof. Silvernail, of the *American Angler*, New York, left for home this afternoon.

John Hendry, manager of the Royal City Planing Mills, is in Victoria and will return home on Sunday.

Hon. John Robson, provincial secretary, was in the city last night and this morning and left for Victoria this afternoon.

A cable from Rome confirms the announcement of the appointment of Abbe L. N. Begin, principal of Laval Normal school as bishop of Chicoutimi.

Children Cry for Pitcher's Castoria

B. C. Provincial Exposition Subscription Fund.

For the purpose of raising a fund to contribute towards the patriotic and worthy object of making the next annual provincial fair, to be held in this city, a grand and unprecedented success, the undersigned agree to contribute the sums opposite their respective names (to be paid into the association or to trustees competent to receive the same, on or before 6 months from the date of the last provincial exhibition, and to be applied to preparing exhibition grounds and buildings in this city, for increasing the amount offered in prizes, and for furthering the exhibition in other ways):
