Saturday Evening, Sept. 29, 1888.

NOTES AND COMMENTS.

They have now got guns in the British service that will pitch a shell over twelve miles. If they keep on improving, warlike emperors and such will soon be able to stay at home, when they go to war, and bombard each other at leisure out of their respective back doors.

President Cleveland's recent message has attracted attention in France. French newspapers are busy explaining to their readers that Canada is a large body of water filled with valuable fish, and that the quarrel turns upon the ownership of the Three Mile Limit, an island which lies near the mouth of the River Montreal.

There recently died in Boston a well known merchant of convivial habits, and who was known as a good liver in an epicurean sense. Among those who attended the funeral were two friends, one of whom said to the other: "J—— ought to have lived twenty years longer; he had a constitution equal to it." "Yes," replied the philosopher of the two, an ex-member of the senate, "a man inherits his constitution; but he makes his own by-laws."

An exchange says: The anti-Chinese legislation in the United States and Australia is having its natural effect. The Chinese have now opened a war of retaliation, their government having decided that foreigners shall not in future be permitted to build or establish manufactories in China. American capitalists cannot logically complain of this edict. If the Anglo-Saxon races, on their own soil will have nothing to do with the Chinese, they must expect that the Chinese will have nothing to do with them in the Celestial Empire.

At a Salvation Army meeting in Toronto, a high caste Hindoo, who gave up his worldly prospects to join the army, was the principal speaker. He says the army has gone to work in the right way in India, by keeping clear of certain European customs which the natives abhor, and by respecting native customs. Speaking of native ideas of Christianity, he said that when a native became a drunkard he was nicknamed "Christian." The money required to send out twenty Canadian recruits to the army in India was raised in a few minutes.

The following is a description of Gladstone published in a London paper of 1838, the date of his marriage: "Mr. Gladstone's appearance and manners are much in his favor. He is a fine looking man. He is about the usual height and of good figure. His countenance is mild and pleasant, and he has a highly intellectual expression. His eyes are clear and quick; his eyebrows are dark and rather prominent. There is no dandy in the house but envies what Trufit would call his fine head of jet black hair. It is always carefully parted from his crown downward to his brow where it is carefully shaded. His features are small and regular, and his complexion must be a very unworthy witness if he does not possess abundant good health."

Although the Arab horse is celebrated for his feats of endurance and courage, the impression prevails in army circles in this country that the Arab blood so common in American horses must be modified by a reinfusion of the strains of heavier steeds. It is becoming difficult in this country, where horses are so plentiful, to mount our 10,000 cavalry, as the desideratum of an animal which unites great speed with weight carrying, great power and endurance, is hard to pick out from the animals brought before the purchasing army. The formation of a government stud, modeled on those of France, Germany and Austria, has been suggested by cavalry officers, who find plenty of heavy horses, and plenty of speedy horses, but few that are both heavy and speedy. The same trouble is experienced in England, where it is said that the horses offered to the purchasing officers are altogether too "fine" for the service. Austria seems to have some nearness to solving the problem of producing the model cavalry horse in Hungary. Proud as Turkey is of its possession of the Arab stock, it buys largely in Austria when it can raise the money to procure cavalry remounts.

A lady writes: "I was enabled to remove the corns, root and branch, by the use of Holloway's Corn Cure." Others who have tried it have the same experience.

Malietoa, the Deposed King of the Samoan Islands, Defeats the Usurper and Drives out the Germans.

TO-DAY'S DESPATCHES.

TASCOTT HIDING.

SAN FRANCISCO, Sept. 29.—The *Chronicle* this morning says that William B. Tascott, the reported murderer of millionaire Snell, of Chicago, has been in the city for about two months in closest hiding and seldom if ever going outside his place of concealment. A local detective has a warrant for Tascott's arrest and the *Chronicle* says he will probably be taken in custody to-day.

RAILROAD DISASTER.

SALT LAKE, Sept. 29.—The train on the Utah and Northern railroad near Pocatello, Idaho, on Thursday night ran into stock, derailing the engine and twenty cars and killing engineer Hill, fireman Leonard and brakeman Walton and three others. Damage to railroad property is $15,000.

ROBBERY.

PARIS, Sept. 29.—Mrs. Paran Stevens, of New York, has been robbed of diamonds, valued at $100,000.

ANOTHER STRIKE.

BALTIMORE, Sept. 29.—A strike among the boys has caused nearly one thousand men employed at the glass and bottle establishment to be thrown out of employment.

QUARANTINE RAISED.

CHATTANOOGA, Tenn., Sep. 29.—The board of health to-day raised a quarantine on all through travel, but inspection of trains will continue. No refugees are allowed in the city from any infected point.

BLOWN TO ATOMS.

CHARLESTON, S. C., Sept. 29.—By the explosion of the boiler of a cotton gin at Bufort yesterday afternoon, the engineer and fireman were blown to atoms. Two bystanders were fatally and several others seriously injured.

WHEAT.

NEW YORK, Sept. 29.—Wheat, 102¾ for cash, 102⅞ Oct.; 103⅞ Nov.; 105⅝ Dec. and May, 109¼.

LIVERPOOL, Sept. 29.—Wheat Quiet Cals., 7s, 10½d.

CHICAGO, Sept. 29. — September wheat closed to-day at 165, an advance of eleven and a half cents. October closed three cents and December 3¼ cents better.

CLEVELAND WILL SIGN.

WASHINGTON, Sept. 29.—There is the highest official authority for the statement that the president will, between now and Tuesday next, sign the Chinese exclusion bill.

FEVER DYING OUT.

JACKSONVILLE, Sept. 29.—Up to noon to-day not a death from fever is reported. The weather remains cool and refreshing. The stores which remained closed are being opened. A more hopeful spirit prevails on all sides.

A FATAL JUMP.

CHICAGO, Sept. 29.—Anton Blander, while being conveyed to Joliet penitentiary this morning, to enter upon a three years' sentence, escaped from the sheriff and jumped from the train a few miles from this city. He received a fracture of the skull which will prove fatal.

GERMANS KILLED.

ZANZIBAR, Sept. 29.—A steamer from Kilva brings news that two Germans, 11 of their servants and 21 native insurgents have been killed at that place. The insurgents had renounced allegiance to the sultan.

SALVATIONISTS ATTACKED.

BERNE, Sept. 29.—A mob at Neufchatel made a savage attack on the Salvation Army, blockading the meeting houses and pouring petroleum on the buildings and firing pistols. Riots ensued and several persons were injured.

IMPERIAL PARLIAMENT.

LONDON, Sept. 29.—The British cabinet will resume its councils about Oct. 11th. Immediately upon the opening of parliament Gladstone will raise the question of evictions in Ireland, and will propose a vote of censure on Mr. Balfour.

IN SELF-DEFENSE.

SAN FRANCISCO, Sept. 29.—Thomas Dawson, 18 years old, who shot and killed Randolph Trossen, who forced his way into Henderson's lodging, was ordered to be discharged from custody this morning and the charge of murder dismissed, Judge Lawler being of the opinion that Dawson acted in self-defense.

TIME TO PLEAD.

NEW YORK, Sept. 29.—Bedell, the forger, was granted to-day until Wednesday to plead, as he yet has no counsel.

OCEAN YACHT RACE.

SAN FRANCISCO, Sept. 29.—The yacht White crossed the line nearly 5 minutes ahead of the America in the ocean race for one thousand dollars a side. The wind was blowing 22 miles an hour. The White at 1:30 p.m. leads the America.

BANK ROBBED.

NEW YORK, Sept. 29.—The National Bank of Republic, on Wall street, this city, has been robbed of $5,800, taken in one package yesterday morning, soon after the bank was opened. No arrests yet. The bank employees were all searched.

THE EMPEROR'S ESCAPE.

VIENNA, Sept. 29.—The artillery practice yesterday, at which the Emperor Francis Joseph narrowly escaped being shot, took place at the Steinfield ranges. The emperor had ordered the bugle to sound the signal to cease firing, that he might inspect the target. The officer in command of the battery was one thousand yards away, did not hear the signal, and as it was impossible to see the emperor as he advanced, owing to the depression in the ground, the battery again fired. The Emperor and his suite were out of the line of fire and consequently were not hurt. Orderlies rushed to the battery and prevented further firing.

AUSTRALIAN NEWS.

SAN FRANCISCO, Sept. 29.—The steamer Zealandia arrived from Australia this morning, bringing the following advices: A violent earthquake was felt throughout New Zealand early on the morning of the first instant. At Christ Church 20 feet were broken off the top of the Catholic Cathedral spire, causing great damage in its fall. Houses of light construction and a number of large stone structures where the shock was severest were badly shattered. Chimneys fell by the wholesale and the destruction of glass and crockery was immense. Fissures ranging from three inches to a foot in width and of various lengths appeared in several places. No loss of life is reported.

The Melbourne exposition, which opened on the first of August, has been a great success so far as attendance goes. It is, however, yet in a most incomplete state.

One of the most prominent incidents of the month, affecting all Australian colonies, is the strike of the coal miners at Newcastle, New South Wales. The strike has arisen from a dispute as to the terms on which the men are to take out certain seams which occurs amongst the coal. Great inconvenience will be caused by the strike. The effect in New Zealand has been greatly to increase the output of local coal. If the men continue to remain out the mines will be worked which are at present lying idle.

The details of the battle between Samoa's deposed king, Malietoa and Tamasese, which was mentioned briefly in these despatches a few days ago, was brought up by the Zealandia. The Germans had released Malietoa and he returned to the mountains in Samoa, where his followers flocked around him. On the morning of the battle with an army of a thousand men Malietoa marched to Apia and halted on the plain behind the town. His followers were well supplied with arms and ammunition, probably furnished by American and British traders. Tamasese's forces were about two hundred greater than Malietoa's, and led by the German officer, Brandlis, came on to meet the deposed king. The battle which followed lasted nearly two days, and resulted in the complete rout of Malietoa's opponents. Three hundred of them, including a German, were slain, while but half that number fell on Malietoa's side. The latter took possession of Apia and drove the Germans from the island. At last accounts two German warships and the American man-of-war Adams were on the way to Apia.

The New Zealand parliament has voted to discontinue the mail service with the United States after November, 1889.

Communications.

Vaccination Vs. Small-Pox.

EDITOR COLUMBIAN.—Perhaps the following statistics might be interesting to many of your readers about this time. From the statistical reports of sickness and mortality of Her Majesty's troops for 20 years, I find in dragoon regiments and guards, out of 44,611 men, in the total mortality of 627, there were only 3 deaths from small-pox among 60,269 men. In West Indies not one among the white troops died out of 96,661 men, of small-pox, and out of 40,934 black troops there was not a case of small-pox. In Bermuda, Nova Scotia and New Brunswick, not a death from small-pox occurred in the 20 years, and the white troops in western Africa wholly escaped the disease, although the unvaccinated blacks were being carried off by hundreds. In Malta there were only two deaths out of 40,826 British troops, and in that time there were three small-pox epidemics which destroyed 2,338 persons belonging to the island population. Yours etc.,
A. PEELE.

Late Canadian News.

OTTAWA, Sept. 24.—A new weekly Catholic paper is to be started in Ottawa with Rev. Father Coffey as editor.

TORONTO, 24.—London defeated the Torontos at baseball Saturday. Syracuse is now sure of the pennant and Toronto of second place.

WINNIPEG, Sept. 26.—Lady Macdonald and party are guests at the government house.

Assistant Superintendent Shaughnessy, of the Canadian Pacific, accompanied by Chas. Dudley Warner, left for the west to-day.

OTTAWA, Sept. 26.—It came out in evidence yesterday in the Ottawa contested election case that Father Paradis, of the Oblate order, had voted twice for Rochon the liberal candidate.

TORONTO, 26.—The Hibernian and Britons fife and drum bands met at the corner of King and Jarvis streets last night, when a free fight was indulged in. Several were slightly wounded. The police dispersed the mob.

REGINA, Sept. 26.—School inspector Grover has returned from an inspecting tour extending a hundred and fifty miles north and east. Everywhere farmers are satisfied with the season's crop, abundant evidence of the excellence of which were visible.

SHERBROOKE, Que., Sept. 26.—Corbet and Shirley, contractors of the Hereford branch railway, have skipped out, leaving about 700 Italians unpaid. When the men heard that the bosses had skipped, they commenced rioting and have taken complete possession of Sawyerville and threaten to destroy the town if not paid. The inhabitants are panic-stricken. The 58th Compton battalion have gone to the scene of the trouble. The situation is serious.

Worms derange the whole system. Mother Graves's Worm Exterminator deranges worms, and gives rest to the sufferer. It only costs twenty-five cents to try it and be convinced.

Daily British Columbian

Saturday Evening, Sept. 29, 1888.

We reprinted an item yesterday from the Calgary *Herald* which described in glowing terms a small but choice exhibit of fruit, &c., grown in this city, which was shown at the Calgary agricultural exhibition opened there last Tuesday. The exhibit, it would appear, was a revelation to our neighbors across the mountains. Mr. R. F. Drummond, of this city, who assumed care of the samples *en route* and interested himself particularly in displaying them to advantage at the fair at Calgary, informs us that it was hard to convince many who took notice of the fruit that some of the samples were not California raised. Looking to the Northwest as our most natural and promising market for the fruits which this province is so admirably adapted to raising in abundance, no better advertisement of our resources in this line could be given than to place samples on exhibition in the agricultural shows of the country. The credit for the Calgary exhibit is shared by Mr. R. F. Drummond, who volunteered to take charge of the fruit, &c., as stated above, the mayor of this city, who superintended the collection and assorting of the different samples, Mr. J. C. Armstrong, who rendered valuable assistance, and several other of our citizens who co-operated substantially by furnishing the several items of the exhibit. The whole affair was quite impromptu, and wholly unofficial, but, as has been seen, was a gratifying success and accomplished, perhaps, as much as would have been gained by a more pretentious collection. The fact is, the products of this province speak for themselves, and upon such evidence the case may be confidently rested for an overwhelmingly favorable verdict every time. There is some talk of organizing a permanent exhibit in this city, illustrating the resources of the country. A good idea, we say.

Our brethren in the east are becoming fully alive to the importance and the wealth in resources of the Pacific province of the Dominion. We clip the following from about a three-quarter column article in the Toronto *Mail* on the British Columbia exhibit at the Toronto exhibition: "The industries and natural products of British Columbia are for the first time brought prominently before the Ontario public at this year's exhibition. The showing which the Pacific province makes is exceedingly creditable, and is viewed with surprise by many who have been in the habit of thinking that the Rocky Mountains dam up the stream of enterprise and invention from the east, and that the hardy sons who labor on the Pacific seaboard have not exchanged so many of the vicissitudes for the amenities and luxuries of life as they have actually done. Nothing could better enlighten the eastern mind as to the true condition of British Columbia than the display of her manufactures, arts, and agriculture in the extensive exhibit on view in the dairy hall. When, a week before the opening of the exhibition, the invoice of the goods which had been despatched was received, no small surprise was expressed at the comprehensive character of the collection sent, as it was from so far a distance. It is not too much to say that as soon as it was properly adjusted on the stands it became the centre of great interest, and one of the most attractive features of the exhibition, so that visitors not only admire the pluck of the British Columbians, sending so large and varied an exhibit, but they also are indebted to them for contributing so fine a display to the fair. It is popularly known to visitors as the British Columbia section, and from the enquiries and the interest it has elicited, there can be little doubt that the result will be a benefit to that province. The capabilities and resources of British Columbia are brought to the front in a convincing manner, and her great future can be clearly seen in germ. When her mineral wealth and great natural resources are fairly developed the western province will no doubt be one of the richest parts of Canada. With her salubrious climate and an energetic, enterprising population, such as is rapidly filling her borders, her future greatness is assured."

A report of the special council meeting last night, called to take action in the matter of a possible smallpox epidemic, will be found in another column. It will be seen that a health officer has been appointed—Dr. W. A. DeWolf Smith. The appointment, we believe, is a good one, and, in connection with the board of health, the new health officer will not shrink from taking the necessary steps for protecting the health of the town immediately. It is to be hoped there will be no laxness shown in this work. Up to to-day it was doubted by many whether the disease under which the household in the vicinity of Hall's Prairie is said to be suffering was actually smallpox, but the results would now appear to have been confirmed beyond reasonable doubt, and ten out of the sixteen in the house are said to be down with the dread malady at latest accounts. The house, we are told, is isolated, the nearest neighbor being about two miles, and all communication has been stopped with Blaine and the surrounding settlements. In fact, it is reported that the afflicted household are suffering from want of provisions and medicine. In this connection, the action of the mayor and aldermen last night, in appropriating a sum of money for the relief of the distressed family is to be highly commended. Although this municipality is about the last corporation having any responsibility in the matter, yet, being aware of the existence of distress, we could not well refrain from ministering to its alleviation, and none the less so that others, perhaps, are failing in duty. It is about time that the question was definitely settled as to whether the provincial government, or what municipality, have jurisdiction and responsibility in the infected district. It is stated that the house containing the smallpox cases is situated on a strip of ground, by some irregularity or other, included in no municipality. We cannot say whether this is the truth, but, if such be the case, the provincial authorities would be chargeable with responsibility in the premises. The powers of our board of health and health officer do not extend beyond the city limits, but within those boundaries they will find ample scope for necessary work in preparing for and guarding against a possible epidemic of smallpox, which we sincerely trust may, however, be confined to its present bounds and dimensions. Some citations from the ordinance of 1869 "for promoting the public health" in British Columbia (which rules in such cases) may be of interest. The first clause of section 3 provides as follows:—"For the purposes of this ordinance, the corporation of the city of Victoria and the municipal council of New Westminster, and the council of any municipality or municipal district now or hereafter to be created, respectively, shall be the local boards of health within their respective limits and jurisdictions." The following section we quote in full:

7. Whosoever shall wilfully obstruct any health officer, or any member of the local board of health, or any officer or person duly employed in the execution of this ordinance, or of any bylaw, or of any provision of any such bylaw, or destroy, pull down, injure or deface any board, placard, or notice made or published under this ordinance, or in any way commit any wilful breach or contravention of any provision, or part of any provision, of this ordinance, or of any rule, regulation, or bylaw to be made in pursuance thereof, shall be punishable summarily before any justice of the peace, upon information under oath, and upon conviction, by any fine not exceeding, for a first offence, one hundred dollars, and for a second offence, any sum not exceeding two hundred dollars.

Under this act, the board of health may, subject to the approval of the governor-in-council, make such regulations and bylaws as may be deemed necessary or expedient, specifying the duties and powers of the officers and servants appointed or employed by the board. Since the greater part of this article was written, we learn—particulars of which will be found elsewhere—that the provincial authorities have taken the matter in hand, as will be seen, in a commendable spirit of liberality and thoroughness. The action of the government, coupled with that of our civic authorities, is a sufficient guarantee that the wants of the stricken household will be properly attended to, and the health of the community at large fully safeguarded.

Children Cry for Pitcher's Castoria

GREAT

Real Estate Sale!

I HAVE RECEIVED INTSRUCTIONS to sell by Public Auction at the Colonial Hotel, on

Saturday, October 13th,

AT 8 O'CLOCK, P.M.

THAT VALUABLE HOUSE AND LOT on Agnes street west, and known as Lot 9, Block XXXIII, New Westminster City. This is a full size lot with good six-room House, stabling for four horses, an excellent garden of bearing Fruit Trees, and a never failing supply of pure spring water. Terms, $1200 cash, balance at 8 per cent.

THE S. W. QUARTER OF SECTION 30, Group 2, 3¼ miles from New Westminster, with half a mile frontage on the Scott Road leading to Ladners Landing. This is an excellent chance to secure a good ranch within easy reach of the city. The growth is principally light alder, and the soil is of excellent quality. Terms, 25 per cent. cash, balance at 8 per cent.

THAT VERY ELIGIBLE LOT ON Agnes street, next the residence of Mr. Phillips, and known as Lot 39, Victoria Gardens; the size of the lot is 66 x 132 feet. This is one of the best situated lots on this street, and should meet with ready sale.

ANNACIS ISLAND.

ALSO THAT VERY DESIRABLE PROperty known as "Annacis Island." This island is situate about three-quarters of a mile below New Westminster City on the Fraser River. It contains 905 acres, a great part of which is prairie with a heavy growth of timber around the outer edge of the island, forming an excellent shelter and making it eminently adapted for a stock ranch. Some of the land has been cultivated, and it is upon this island that the beet sugar industry was established. This property will be found worthy the attention of capitalists, as in the hands of competent parties this island could be conveniently cut up into small farms of say 50 acres each, and would bring in a handsome return for the investment. And parties locating here would be within easy reach of the city, and have the advantages of a ready and constant market for all they could produce.

ALSO SEVERAL CHOICE LOTS 66 x 132 in Lot 19, Block XIII, New Westminster suburbs; and in Lot 9, Block X, New Westminster suburbs, facing on the Douglas Road. Terms, one-third cash, balance in three and six months, at 8 per cent. interest.

T. J. TRAPP,
se28td Auctioneer.

A Sluggish Liver

Causes the Stomach and Bowels to become disordered, and the whole system to suffer from debility. In all such cases Ayer's Pills give prompt relief.

After much suffering from Liver and Stomach troubles, I have finally been cured by taking Ayer's Cathartic Pills. I always find them prompt and thorough in their action, and their occasional use keeps me in a perfectly healthy condition.—Ralph Weeman, Annapolis, Md.

Twenty-five years ago I suffered from a torpid liver, which was restored to healthy action by taking Ayer's Pills. Since that time I have never been without them. They regulate the bowels, assist digestion, and increase the appetite, more surely than any other medicine.—Paul Churchill, Haverhill, Mass.

INVIGORATED.

I know of no remedy equal to Ayer's Pills for Stomach and Liver disorders. I suffered from a Torpid Liver, and Dyspepsia, for eighteen months. My skin was yellow, and my tongue coated. I had no appetite, suffered from Headache, was pale and emaciated. A few boxes of Ayer's Pills, taken in moderate doses, restored me to perfect health.—Waldo Miles, Oberlin, Ohio.

Ayer's Pills are a superior family medicine. They strengthen and invigorate the digestive organs, create an appetite, and remove the horrible depression and despondency resulting from Liver Complaint. I have used these Pills in my family, for years, and they never fail to give entire satisfaction.—Otto Montgomery, Oshkosh, Wis. ††

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicine.

New Westminster Southern Ry

NORTHERN TERMINUS.

MESSRS. W. J. WALKER & COMP'Y have lots for sale in the city from $50 upwards.

Also, immediately adjoining the City limits from $25 upwards; and a few remaining lots at Sapperton at $100 on very easy terms.

Also, Farming Land in Surrey Municipality, near the international boundary, and along the line of railway; and Acre Lots at Brownsville in first-class situations at profitable rates.

Intending investors are invited to call immediately, before prices are advanced. The advertisers offer their services as agents for the PURCHASERS of property, and as such will give the fullest information and advice to their best ability, to strangers and others, respecting any proposed investment in land, whether in their own hands for sale, or otherwise.

THE SUNFLOWER.

One Impudent Speech That Proved To Be Fortunate.

"What a queer looking yellow house that is," said Dell Drexil, pointing in the direction of a canary colored cottage.

"And the owner is queer, too," said Minnie Hammond. "His name is Isaac Golden and he was crossed in love, and since then has lived all alone in that yellow house, which he calls the 'Sunflower.'

"There he is now," as a man about thirty came out of the cottage and disappeared among the trees.

"I should like to meet him very much," said Dell, "I am always interested in a romantic life."

She continued roguishly:

"Minnie, I will make you a wager of my opal ring against your volume of Mrs. Browning's poems that I will get Mr. Golden to propose to me before the summer is over."

The other readily agreed to the wager.

Opportunities were not wanting for Dell to meet Mr. Golden, and they were soon on friendly terms with each other. One day, when she was out boating, in trying to reach for some water lilies she fell in the lake, and would undoubtedly have perished if he had not appeared opportunely and saved her life.

Another time, as she was driving by the cottage, he came out and asked her if she would not like to look at his flower-garden. So she hitched up the horse in the shade and went to the gate among the sunflowers and blooming plants.

Dell laughed when she saw them, but the view of the surrounding country was very fine and she praised it to Mr. Golden's content. Then she said she must go at once, for the girls would be uneasy about her.

"I must bid you good-bye," she said, as her host placed her upon her horse, "for I am to go to-morrow."

"So soon!" he exclaimed quickly.

"Yes, and I may not see you again. Good-bye."

"Good-bye," he returned, taking her by the hand. "Always wear blue riding habits and smoking caps with feathers on them, for they are very becoming."

Blushing rosily, she rode away. "Smoking caps, indeed!" she exclaimed. "Well, I have lost my wager; and more, too," she added with a sigh, "but no one shall know of it."

Towards evening she sat under an apple tree in the corner of the garden, thinking of her folly, and the tears rose to her eyes. Suddenly she heard footsteps approaching, and in a moment Mr. Golden stood beside her.

She rose in embarrassment, the result of her recent mood, and, to cover her confusion, invited him into the house.

"Stay, please," he said, gently detaining her. "I've something I wish to tell you." And he went on rapidly. "I love you, Dell, earnestly and sincerely. Won't you take pity on me and accept me for your husband?"

Startled by this abrupt declaration, Dell's face grew red and then white, and finally she burst into tears.

"You wouldn't care for me if you knew how I had talked about you," she said at last.

"I don't believe you said anything very dreadful," he replied with a smile, as he drew her to him. "Tell me about it."

After much persuasion she told him of the wager she had made with Minnie.

"Is that all? I know it already, for I heard you."

At this she dried her eyes, and true to her character, boxed his ears.

"I think I am entitled to the ring," he said. "Won't you give it to me, please?"

"Yes," she replied, "though I don't like to see gentlemen wear rings."

"Nor I," and he slipped it on his watch chain.

Minnie spied the ring at once, when they entered the house a few moments later.

"You don't say——" she began, laughing.

Dell blushed.

"We do, indeed," said Mr. Golden, smiling, as he took Dell's hand in his own. "Allow me, Miss Minnie, to present you to the future mistress of the 'Sunflower'."

WHENCE COLORS COME.

Every Quarter of the Globe Ransacked for the Materials of Which They Are Made.

A well-known artist gave me some curious information the other day regarding the sources from which the colors one finds in a paint box are derived. Every quarter of the globe is ransacked for the material, animal, vegetable and mineral, employed in the manufacture.

From the cochineal insects are obtained the gorgeous carmine, as well as the crimson, scarlet, carmine and purple lakes.

Sepia is the inky fluid discharged by the cuttle fish to render the water opaque for its concealment when attacked.

Indian yellow is from the urine.

Ivory black and bone black are made out of ivory chips.

The exquisite Prussian blue is got by fusing horses' hoofs and other refuse animal matter with impure potassium carbonate. It was discovered by an accident.

In the vegetable kingdom are included the lakes, derived from roots, barks and grass.

Bistre is made from the charcoal of the beechwood.

Lampblack is soot from certain resinous substances.

From the madder plant, which grows in Hindostan, is manufactured Turkey red.

Gamboge comes from the yellow sap of a tree, which the natives of Siam catch in cocoanut shells.

Raw sienna is the natural earth from the neighborhood of Sienna, Italy.

Raw umber is an earth from Umbria, and is also burned.

To these vegetable pigments may probably be added Indian ink, which is said to be made from burnt camphor. The Chinese, who alone produce it, will not reveal the secret of its composition.

Mastic—the base of the varnish so called—is from the gum of the mastic tree, indigenous to the Grecian archipelago.

Bistre is the soot of wood ashes.

Of real ultramarine but little is found in the market. It is obtained from the precious lapis-lazuli and commands a fabulous price.

Chinese white is zinc, scarlet is iodine of mercury and cinnabar, or native vermilion, is from quicksilver ore.—Iowa State Register.

They Received a Good Plain Education.

President Cleveland never attended a college of any kind.

The acting Vice-President, John Sherman, is a graduate of the common schools of Ohio.

The Secretary of State, Thomas F. Bayard, never got farther than a Delaware rural academy.

The Speaker of the House of Representatives, John G. Carlisle, is a self-educated man.

Scrofula

Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cured by the use of Ayer's Sarsaparilla.

I inherited a scrofulous condition of the blood, which caused a derangement of my whole system. After taking less than four bottles of Ayer's Sarsaparilla I am

Entirely Cured

and, for the past year, have not found it necessary to use any medicine whatever. I am now in better health, and stronger, than ever before.—O. A. Willard, 232 Tremont st., Boston, Mass.

I was troubled with Scrofulous Sores for five years; but, after using a few bottles of Ayer's Sarsaparilla, the sores healed, and I have now good health.—Elizabeth Warnock, 54 Appleton street, Lowell, Mass.

Some months ago I was troubled with Scrofulous Sores on my leg. The limb was badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy failed until I used Ayer's Sarsaparilla. By taking three bottles of this medicine the sores have been healed, and my health is restored. I am grateful for the good it has done me.—Mrs. Ann O'Brian, 158 Sullivan st., New York. ††

Ayer's Sarsaparilla.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5

GEORGE BYRNES

AUCTIONEER.

AUCTION

PROVINCIAL

Government Lands

—ON—

NORTH ARM OF FRASER RIVER, AND ADJACENT LANDS, NEW WESTMINSTER DISTRICT.

TUESDAY, 23rd OCTOBER

AT 11 O'CLOCK, A. M.

I have been instructed by the Chief Commissioner of Lands and Works to sell by Auction

AT VANCOUVER, B. C.

Several parcels of fine agricultural lands, situate on or near the North Arm of Fraser River, being sub-divisions of Lots 325, 326, 329, 330, 331, 332 to 339, 149, 150, 156, 175, 166, 155. The subdivisions of these Lots contain from 27 to 172 acres each; the location of these lots is shown on the present maps of the District.

The farms in the immediate vicinity of these Lots are considered the finest agricultural properties in British Columbia. Some of the lots front on the North Arm, and others are in the immediate vicinity of the same.

Steamers run daily from New Westminster and Vancouver, past these valuable properties.

ALSO,

Lots 628 to 630, and Lots 186 to 194.

All situate between the North Arm of Fraser River and Vancouver City. The North Arm Road from Vancouver runs through these Lots, and there are other roads laid out that will give access to each of them. This property commences about 2½ miles south of Vancouver City and is bounded on the west by the C. P. Railway Land Grant, and is surveyed into lots containing from 5 to 25 acres each, maps of which will shortly be ready for distribution.

All the lands to be sold are well adapted for agricultural, dairy or orchard purposes, and on account of their close proximity to the markets of Vancouver and New Westminster cities, will be desirable properties for families seeking a home or for investment.

The C. P. Railway are now constructing a line westward from Vancouver to the North Arm of Fraser River and Lulu Island. They are also surveying a line of railway through these properties with a view of connecting with the United States system of railways at Seattle.

These lands may fairly be considered as the most valuable ever offered for sale by auction in British Columbia.

GEORGE BYRNES,

aslsd AUCTIONEER.

MUSIC.

MISS FREESE, late of Seattle, W. T., is now prepared to give instructions on the Piano. Will go to the homes of the pupils if desired. Residence—W. R. Lewis, Agnes street. djly30tc

Fresh Eastern Oysters by the can at R. J. Armstrong's. dse26tc

The agricultural exhibition at Ladners takes place on Tuesday next.

Fresh Eastern and Native Oysters, served in every style, at the *Club*. *

Don't forget Trapp's auction sale of dry goods, &c., at Austin's store, this evening.

Big clearing sale of Boots and Shoes at A. B. Wintemute's for the next 30 days, at cost. dse29t3

The steamer Belle left for Nanaimo this morning to bring over a scow-load of coal for *J. Wise*.

First class Board and comfortable Rooms at Miss Yeo's, Columbia st., opposite Catholic church *

The Western Slope arrived from Nanaimo this morning with a cargo of coal and a number of passengers.

The steamer Rainbow arrived from Victoria at 7 o'clock this morning with 20 passengers and a small freight.

Just received, the latest fall styles in Ladies' and Children's Dolmans, Mantles and Jackets, at James Ellard & Co.'s. dse20tc

The barkentine Newsboy is on its way from San Francisco to load lumber at the *R. C. P. Mills for Sydney*, N.S.W.

The str. *Irving arrived down from* Chilliwhack this afternoon with a large quantity of farm produce and 40 passengers.

The steamer Gladys came down from Chilliwhack yesterday afternoon with 20 passengers and a quantity of general merchandise.

James Walworth, one of the smallpox victims, died to-day. Mr. Warwick has sent 'out' a coffin and the funeral will take place to-morrow.

The salmon run at the mouth of the river yesterday was good and the boats averaged nearly 100 each. *The run* last night was also very, encouraging to the cannery men.

The Calgary fair, held the first of this week, was a decided success. A visit to the fair, says the Calgary *Herald*, was a perfect revelation of the progress and development of Alberta.

When symptoms of malaria appear, in any form, take Ayer's Ague Cure. It will prevent a development of the germs of disease, and eradicate them from the system. A cure is warranted in every instance.

"C" Battery vacated their temporary barracks on Thursday, and went under canvas on Beacon Hill. The men will remain in camp until after the agricultural exhibition is held in the hall.

The C. P. R. Co.'s earnings for the week ending September 14th were $266,000; for the same week last year, $244,000. This does not include earnings on the Southeastern and International railways.

The Times says Dr. Hamilton Griffin reports that he has sold his bonded coal lands for $500,000 to a company of European capitalists representing many millions. The ex-editor appears to get there.

When the system is debilitated by disease, it should be strengthened and renewed with Ayer's Sarsaparilla. This medicine invariably proves itself worthy of all that can be said in its favor. Sold by druggists and dealers in medicines. Price $1. Six bottles, $5.

C. A. Livingstone, Plattsville, Ont., says: I have much pleasure in recommending *Dr. Thomas Electric Oil*, from having used myself, and having sold it for some time. In my own case I will say for it that it is the best preparation I have ever tried for rheumatism.

The first batch of salmon ova, 200,000 in all, has arrived at the hatchery from Harrison river. Fish are reported to be plentiful and it is expected there will be no trouble in obtaining the necessary 6,000,000, which is the number it is intended to hatch this season.

M. A. St. Marx, St. Boniface, Manitoba, writes: Dr. Thomas' Electric Oil is a public benefit. It has done wonders here, and has cured myself of a bad cold in one day. Can be relied upon to remove pain, heal sores of various kinds, and benefit any inflamed portion of the body to which it is applied.

The police to-day seized and burned the clothes worn by Dr. McLean while attending the smallpox patients at Surrey. The doctor had laid away the clothes at his house and the health officer fearing infection ordered them to be destroyed. The doctor has billed the city for $35.

The police court held two sittings to-day on the case of Ah Sing, a Chinaman who was up on remand, charged with having committed indecent assault on an Indian woman named Annie. A number of witnesses were examined in the case and the matter was finally disposed of by pronouncing a sentence on Ah Sing of one month's imprisonment with hard labor.

They Never Fail.—Mr. S. M. Boughner, Langton, writes: "For about two years I was troubled with Inward Piles, but by using Parmelee's Pills, I was completely cured, and although four years have elapsed since then they have not returned." Parmelee's Pills are antibilious and a specific for the cure of Liver and Kidney Complaints, Dyspepsia, Costiveness, Headache, Piles, etc., and will regulate the secretions and remove all bilious matter.

A School of Whales.

Passengers by the Yosemite yesterday afternoon, from Vancouver to Victoria, were witnesses of an interesting spectacle while the steamer was crossing the gulf. A school of fully eighty whales were seen disporting close to the vessel, and one of the mammals was evidently attacked by some marine monster, as it would raise its huge bulk out of the water with a spring and fall back with a mighty splash. These antics were continued until the animal was exhausted, when it sank out of sight of those on the steamer. The whales could be seen spouting in all directions, some of them rising quite close to the vessel.—*Colonist.*

Fruit Stealing.

For some time past Mr. H. Morey has been almost daily missing a quantity of fruit from his garden on Douglas street, but up till yesterday could not ascertain the cause of its mysterious disappearance. A neighboring lady who went into the garden in search of Mrs. Morey, discovered a lad about 12 years of age busily engaged in filling old sacks with apples. On the approach of the lady the little thief took his departure as quickly as possible and has not been since heard from. The police will keep a careful watch for boys of such bad behaviour, and no doubt if caught their youthfulness will not spare them from the demands of justice.

Interior Lakes and Streams.

Mr. Max Mowat, of the fisheries department, has returned from the interior after a three month's tour of inspection among the lakes and streams of Okanagan, Osoyoos and Nicola. The inspection was for the purpose of ascertaining the quantity, habits and species of the fish inhabiting these waters. Mr. Mowat found the fish to be scarce with the exception of one species, for which there is no particular name and which has not yet been classed. Lake and brook trout are both scarce and do not seem to be increasing in numbers to any marked extent. The result of the inspection proves that no large fishing industry can be established in the interior.

The Late Chief Justice.

An amusing incident cropped out during the recent hearing of a British Columbia appeal case before the British privy council. Mr. Jeune, Q. C., in presenting the case for the appellant, happened to refer to a ruling of the chief justice of British Columbia.

"By the way," broke in one of the law lords, "who is the chief justice of British Columbia?"

"I believe he is Sir Matthew Baillie Begbie," *was the reply.*

"Did not the gentleman die recently?" was again asked.

Mr. Jeune—"Yes, my lord, he died some three months ago."

And thereafter during the rest of the hearing, Sir Matthew was referred to as the *late* chief justice!—*Colonist.*

For Surrey.

Mr. Warwick, government agent, received orders from Victoria this morning to supply Dr. McLean, who has been appointed government medical attendant to the small-pox sufferers in Surrey, with supplies, medicines, etc., necessary for the proper treatment of the cases. Mr. Jas. Ellard and Mr. Gordon McKay were secured as nurses to act under Dr. McLean and they left immediately to assume their posts. Dr. McLean took a full supply of all medicines, goods and articles considered necessary to the case and arrangements have been made for the despatch of a regular supply of provisions etc. until the quarantine is raised. The government are to be commended for the prompt action they have taken in the matter.

Catch of Seals.

The number of seal skins entered at the custom house by the sealing schooners already returned to port is 19,038—13,633 being from the North Pacific ocean and 5,405 from the coast. The catch of the Mountain Chief and the Favorite, about 800 and 1,500 respectively, have still to be entered, which will make the total 21,338. The total catch of 1887 was 33,800, so that there will be a deficiency this year of 12,562 as compared with last year's catch. The value at present is $6 per skin, which makes the total catch worth $128,028. The value in 1887 was also higher than now, the price then being about $7 per skin. The stormy weather on the fishing grounds is largely the cause of the reduced catch.—*Times.*

Surrey Council.

Council met on Saturday, Sept. 22nd—all the members present; minutes of previous meeting read and approved. Communications were received from deputy minister of the interior, Hon. P. O'Reilly, A. J. Hill, and the mayor of Vancouver; ordered to be placed on file. Applications for an extension of time in which to complete contracts were received from J. F. & J. A. Boothroyd, C. H. Stender, and Antone Appelle; extension granted on the usual terms. The contract for construction of bridges in ward 3 was awarded to Charles Brewster for $175. H. Kells' tender was accepted for work on Fraser river road, $50. Coun. Johnston was authorized to have certain works executed on the Hyjorth, Newton and Johnston roads. Coun. Armstrong to attend to Blackie's Spit road, bridges over Serpentine and repairs on Wade road; Coun. Brown to expend $200 additional in ward 5; Coun. Shannon to attend to necessary repairs, etc., on coast meridian and Clover Valley roads, ward 4; Coun. Shannon to have Serpentine bridge made secure for the passage of steam threshing machine. Council adjourned until Thursday, Oct. 18th, at 10 o'clock, a.m.

Mr. C. E. Riggins, Beamsville, writes: "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used: to quote his own words, 'It just seemed to touch the spot affected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results."

SURREY EXHIBITION.

The First Exhibition a Grand Success.... Notes of Interest....The Prize List.

The first annual exhibition under the auspices of the Surrey Agricultural society was held yesterday and was a much greater success than even the most sanguine expected. It is only a few months since the society was formed and consequently the farmers had made no preparations for the exhibition and were therefore at a disadvantage. But the results proved that the ordinary products of the municipality of Surrey are sufficient in themselves to make any exhibition of the kind successful. The fair was held at the town hall, Surrey Centre, the hall being used for the produce, fruit and fancy exhibits, while sheds and pens had been constructed on the grounds for the stock and poultry exhibits. The number of entries in live stock was not large, owing to the distance many of the farmers would have had to drive their cattle, but the display of field produce and grain was excellent, the latter especially being very fine and superior to the Chilliwhack exhibits. In grain Mr. Thos. Shannon and Mr. Geo. Boothroyd carried off the honors, and in potatoes Mr. H. T. Thrift and Mr. John Armstrong took the first prizes with as fine specimens as can be shown on the continent. The display of garden produce was large and any of the exhibits were worthy of prizes. In consequence of this the competition was keen and few exhibitors won more than a single prize. Although not large, the fruit display was very fine. Messrs. Fort and Ferguson carried off first prize for autumn apples with some magnificent specimens of Canadian pippins, and Mr. J. Norris won three prizes for other varieties. The prize for the best collection of fruit was awarded to Mr. Geo. Boothroyd. Some very fine samples of butter puzzled the judges for time as to which was most worthy of first prize, and it took many trials and considerable sampling to solve the difficult problem. When a decision was finally arrived at it was found Mrs. Johnston had obtained both first prizes. The floral display was very handsome, although not extensive. The principal prize winners were Mrs. Huck, Mrs. McKenzie and Mrs. Carncross. The exhibit of ladies' fancy work was large and contained many articles which displayed no small degree of taste in their make-up. The laces and embroidery work were especially fine. Mrs. McKenzie, Mrs. Wiltshire and Mrs. Starr took the largest number of prizes. In cattle Mr. Geo. Boothroyd was the most successful exhibitor, and Mr. Thos. Shannon took almost every prize for pigs.

By the time the judges had finished their duties, about 300 people had assembled on the fair grounds, many of whom had driven from Westminster, Ladners, Mud Bay and Langley. When all was in readiness Mr. Ferguson, president of the society, mounted the steps of the town hall and introduced Mr. D. Chisholm, M. P., who formally opened the exhibition. Mr. Chisholm made a telling speech which was frequently interrupted by applause. On concluding he was given three rousing cheers. Mr. W. H. Ladner, M. P. P., also assisted at the opening. During the day Mr. Ferguson, Mr. Punch, Mr. Thrift, Mr. Shannon and other officials of the society were indefatigable in their efforts to make the fair a success in every way, and that they succeeded in this can be vouched for by every visitor present.

Shortly after 5 o'clock the exhibits were released and an hour later almost everyone was homeward bound.

After the formal opening Mr. Ferguson treated a number of his friends to a capital spread, *al fresco*, which was heartily discussed by the hungry guests.

PRIZE LIST.

GRADED CATTLE.—Best cow, aged, Geo Boothroyd; best yearling heifer, Geo Boothroyd; second, Geo Boothroyd; best heifer calf, Geo Boothroyd; best yoke oxen, Geo Cann; second, J Boyce; best 3 fat cattle, Geo Boothroyd.

City Council.

There was a special meeting of the council last night at 8 o'clock. Present, Aldermen Ovens, DeBeck, Calbick and Shiles.

His Worship Mayor Dickinson in the chair.

The mayor stated that the meeting was called for the purpose of arranging sanitary matters and taking into consideration the advisability of appointing a health officer for the city; he understood that Alderman Elliott had received an application from Dr. DeWolf Smith for the position of health officer.

After considerable discussion it was on motion resolved that Dr. DeWolf Smith be appointed health officer and to retain the tenor of office so long as the board of health considers his services necessary.

Dr. D. McLean, who was present, on being requested by the mayor and aldermen to give information respecting the cases of small-pox in Clover Valley, gave a very distressing account of the state of affairs at Mrs. Walworth's place. He stated that he left there at 9 o'clock on Thursday night; *there were then 16 people in the house*, they were without provisions and medicine, and 10 of them were afflicted with the dread disease.

Moved by Ald. Shiles and seconded by Ald. Calbick: That the mayor be authorized to procure provisions, medicine and other necessaries, to the amount of $25, and have them sent to the Walworth family at Clover Valley. The resolution was unanimously carried and the council then adjourned.

Personal.

E. A. Jenns has returned from Clinton where he was attending the fall assizes.

Hon. Justice Crease and Mrs. Crease left by the str. Rainbow this morning for Victoria.
