NOTES AND COMMENTS.

The good men do is oft interred with their bones, but it doesn't crowd the casket much as a usual thing.—*Ex.*

The English scientific periodical *Nature* has been sued for publishing, so the report says, "a slashing criticism of a book." The jury awarded damages at one farthing, and no costs.

An old ledger has recently been brought to light in Edinburgh. It belonged to a merchant of the 16th century. At the top of the inside board, the bookkeeper had inscribed the words, "God blis this buik and keip me and it honest."

In Holland an unmarried woman always takes the right arm of her escort and the married woman the left. At a church wedding the bride enters the edifice on the right arm of the groom and goes out on the left side of her husband.

His Proposal. — Edgar — Miss Edith, I—ah—have something most important to ask you. May I—that is—Edith (softly)—What is it Edgar? Edgar—May I—Edith, would you be willing to have our names printed in the papers, with a hyphen between?

The Mormon hierarchy has purchased several thousand acres of land from the Galt Railway Company, and a Mormon colony from Utah and Idaho is on its way, bag and baggage, to the new field for settlement. We have already some Mormons in the North-West; but these are understood to be content with one wife. They did not come from Utah. The Utah and Idaho Mormons are, however, polygamous. They must leave their superfluous wives behind them or Canada must erect some more gaols in the territories.—*Mail.*

The London Spectator may have an eye for color, but it is not always the right color. This literary journal, referring to the complexions that form under the South African sun, compares it with the "parchment color of the Yankee, the grayness of the Australian, the frosty purple of the Canadian, etc." Now, we take exception to this misleading reference to Canada; the others seem appropriate enough. Just imagine calling the bright, ruddy hue in the checks under our invigorating climate purple. The critic has never sniffed a Lake Ontario winter breeze in his life.—*Empire.*

An English friend of the late Laurence Oilphant says that there never was a man so indifferent about money. He came one day to a bank in London, and asked for a box that he had long ago deposited there, and which he believed to contain valuable securities and important papers. The box was brought; he had no key, and there was none in the possession of the custodians of the box. It was therefore broken open. What was the contents? A battered old meerschaum pipe, and nothing more. And what were the results of this discovery on Oilphant? Not any expression of disappointment or regret, but peal upon peal of that delightful and infectious laughter which all who knew him will ever connect with the personality of Laurence Oilphant.

Estimating in the June *Forum* the relative importance in the education of an English-speaking man of the ancient and the modern languages, Prof. John Stuart Blackie says: "While Latin and Greek will never cease to hold their place in the front rank of educational agents it is an anachronism of the grossest kind to insist on a prolonged study of these two dead languages as the necessary basis for the general culture of a well-educated gentleman in the latter end of this nineteenth century; the more so, that experience has taught that out of twenty young men who have been driven through this routine of the dead languages at school, in after-life make no use of them, and the fruits which their boasted classical training has to show are in the inverse ratio of the labor spent upon it."

A most amusing episode of the land league agitation happened at Portlaw, County Waterford, a short time ago, says an exchange. A meeting was held to denounce a man named Hickey, who, in defiance of the league, had rented a farm from which a tenant had been evicted. When the men had their say, two girls named Margaret Sheehan and Mary Sullivan got up and respectively proposed and seconded the following extraordinary resolution: "That we, the young girls of Waterford, Tipperary, and Kilkenny, resolve and promise this day, before this vast multitude, to treat with scorn and contempt any matrimonial proposals from Michael Hickey." Hickey should now imitate Dickens' character and inform Mary or Margaret that Barkis is willin'. There appears to be no other way of escaping such a boycott as this.

Plans for the new Northern Pacific hotel and station at Winnipeg are out. The building will be seven storeys high and cost about $150,000.

Children Cry for Pitcher's Castoria

OUR COAL MINES.

Colonel Fred Crocker will Visit British Columbia to Inspect Our Coal Mines.

The Cronin Murder Case Goes Before the Grand Jury. Witnesses Must Speak.

Ayer & Co. Enter a Suit Against the Dominion Government to Recover a Large Sum.

TO INSPECT COAL MINES.

SAN FRANCISCO, June 12.—Colonel Fred Crocker leaves for Vancouver on Saturday evening to inspect the coal mines in British Columbia in which the Southern Pacific is interested.

AT JOHNSTOWN.

JOHNSTOWN, June 12.—A new administration was in charge this morning and the different camps present an animated appearance. Big squads of men, with flags, are parading around town. The day opened with the usual rain, which promises to continue throughout the day. The Baltimore & Ohio depot is surrounded with a big crowd waiting to receive their money. About 500 men were at work this morning. Trains on Pennsylvania road now arrive and depart from the regular passenger station. The broken tracks over the bridge are fully repaired. Some bodies were recovered so badly decomposed that the skin breaks and the hair falls off while being washed by the undertakers. None are embalmed now. The bodies when first recovered were saturated with disinfectants and brought to the morgue where the clothing is cut off. Valuables are preserved and description taken, after which the remains are wrapped in muslin, coffined, and immediately taken away for burial. The request has been made that mayors of all cities and towns along the rivers between Pittsburg and New Orleans send descriptions of any bodies they may find in rivers. Permanent headquarters are established in the Pennsylvania railroad freight warehouse. It is stated Gen. Hastings is considering the advisability of ordering out the 18th regiment to relieve the 14th regiment now doing guard and police duty.

THE CRONIN CASE.

CHICAGO, June 12.—The special grand jury selected by Sheriff Matson, in obedience to the mandate of Judge Shepard, to investigate the Cronin tragedy, were empanelled in the criminal court at 11 o'clock this morning. Only two Irishmen were on the panel, W. J. Quan and John O'Neil. Mr. Quan is a well known wholesale grocer and O'Neil is ex-county commissioner. In addressing the jury Judge Shepard said he expected a full, exhaustive and impartial investigation of the murder Cronin. The entire resources of the country, he said, would be at the disposal of the grand jury, and witnesses who would not testify should be made to do so. The grand jury has in its possession the power to make them. This is taken as the meaning that witnesses who "don't know" and "don't remember" will subjected to the operation of the sweat box, thumbscrew, rack and a few other such effective devices which may strengthen their memory and develop their powers of speech. The foreman of the grand jury is John Plough.

A CHINESE DEAL.

SAN FRANCISCO, June 12.—Col. Theophiles Masac, president of the Lower California Mining Co., with other officials of the company, leave for San Diego to-day. Yesterday afternoon contracts with the Chinese syndicate were signed and money paid. The contracts as assigned provide that the Chinese shall invest $60,000 in improvements within the next six months. They are also to assume all outstanding obligations, and to pay all taxes on the property. Within two years they must erect reduction works, and two-thirds of the product of the mines must be reduced on Mexican soil. By July 1st from 150 to 200 chinese laborers from this city will be taken to the mines. A second installment of from 500 to 1000 Coolies will follow in the fall. The price paid for the mines was $328,000.

A GOOD LAW.

MODESTO, June 12.—The board of trustees of Modesto has passed an ordinance prohibiting the sale of opium, cigarettes or tobacco in any form to persons under 18. The penalty for violation is fixed at a fine not to exceed $100, and imprisonment of not more than ten days.

SITTING BULL SINKING.

BISMARCK, Dak., June 11.—A courier who arrived here last night, from standing Rock agency states that Sitting Bull, who has been dangerously ill with pneumonia, is sinking slowly and there is no hope of recovery.

RAILWAY PURCHASE.

ST. THOMAS, June 11.—It is reported that the Canada Southern Railroad is negotiating for the purchase of the Erie and Huron railway, and it is expected the deal will be consummated in a few days.

THE GREAT ANTI-JESUIT CONVENTION.

TORONTO, June 11.—The great anti-Jesuit convention convened in the opera house this morning, and was called to order at 10 o'clock by Rev. Dr. Caven. About 500 delegates were present, every part of the Dominion being represented. The opening prayer was delivered by the Rev. Dr. Hunter, of Toronto, after which Duncan Clarke, of Toronto, was appointed preliminary secretary and the business committee was named. Dr. Caven then delivered an opening address advising all present to be united and work with one mind for the great object they had in view. The delegates then reported the work done by the committees in different sections of the country, after which the convention took recess.

POLITICAL RUMORS.

TORONTO, June 11.—The report that the Quebec elections will take place after the autumn session, creates great interest here, as some such move is thought to be on the *tapis* in Ontario politics. Premier Mowat leaves for Europe on June 20.

A FRIENDLY SUIT.

TORONTO, June 11.—The Ontario and Dominion governments have decided to have a friendly suit to test the constitutionality of the act passed by the local legislature assuming the right of the lieut.-governor in council to pardon offences committed against the laws of the province. Christopher Robinson, Q. C., and A. MacDonald have been retained by the federal government and Æmelius Irving by the provincial authorities.

WILL HAVE TO SHAVE BEFORE SUNDAY.

QUEBEC, June 11.—The city barbers have organized a pilgrimage to La Bonne, St. Anne, and the city will be bare of tonsorial artists on Sunday next.

THE FIRST SOD TURNED.

TORONTO, June 11.—The first sod was turned yesterday on the site for the childrens' hospital, which will cost $100,000.

THE GROSSE ISLE CABLE.

QUEBEC, June 11.—The Grosse Isle telegraph cable has been successfully laid and went into operation on Sunday night. The cable is in all four miles long.

FOR MANITOBA.

TORONTO, June 11.—The second party of excursionists leave for Manitoba to-night in charge of Mr. W. D. Scott.

A NEW TRIAL ORDERED.

MONTREAL, June 11.—The court of review has ordered a new trial in the case of Dame Curran, widow of the man Lasconte, who was run over and killed by the Grand Trunk some time since; she obtained a verdict of $4,000 damages from the company. The court of review held that Lasconte was responsible for the accident.

AYER & CO. AGAIN TO THE FRONT.

OTTAWA, June 11.—J. C. Ayer & Co. have once more taken action against the customs department for the recovery of $124,000; this time it is for the damage in connection with a seizure made 3 years ago at Quebec.

TORONTO SUBSCRIBES.

TORONTO, June 11.—The city council last night voted $3,000 to the Johnstown sufferers. Private subscriptions are also being made.

TO BORE FOR OIL AND GAS.

BLENHEIM, Ont., June 11.—A company has been organized here to bore for gas and oil. Operations will be commenced immediately.

OTTAWA NOTES.

OTTAWA, June 11.—The Weldon extradition bill will be put into effect as soon as it is ratified by the Imperial government. Although it is retroactive in principle the extradition of American fugitives already in Canada will not be permitted, because parliament clearly expressed its intentions last session when it struck out the retroactive clause. The legislators, of course, had their trouble for their pains, as all legislation affecting extradition is retroactive.

Mr. Anderson, steamship owner, London, Eng., has had a conference with the committee of the privy council to-day, respecting the proposed Atlantic steamship service. The basis of an arrangement was concluded. It was decided that vessels need not maintain a rate of speed of 20 knots as originally contemplated.

ONE PURE ARTICLE OF FOOD.

The Royal Baking Powder Officially Commended.—Wholesome Action of the New Jersey State Board of Health.

The action of the New Jersey State Board of Health in publishing the names of the alum baking powders sold in that state will be commended by all who are in favor of pure and honest food. Scarce an article sold enters more generally into the daily food of every one than baking powders. It is well understood that the alum and the alum and phosphate baking powders are detrimental to health, and consumers only require to be informed as to the names of these unwholesome brands in order to avoid them.

This information the manufacturers of the alum baking powders are endeavoring it seems to suppress. It is stated that they went so far as to seek (unsuccessfully, however,) for an injunction to prohibit the New Jersey authorities from proceeding with their recent investigation and expose.

It is particularly gratifying to consumers to know that the baking powder which they have so long been accustomed to using, the Royal, has invariably gone through these analyses not only without a reflection against it of impurity or unwholesomeness, but each time more emphatically endorsed as the superior of all the baking powders of the market.

The health authorities of a number of other States have also recently made exhaustive examinations of this character, and with the uniform result of finding the Royal superior to all others. The United States Government Chemist, after an examination for the Indian Department, made the emphatic statement that "The Royal Baking Powder is the purest in quality and highest in strength of any baking powder of which I have knowledge." The authorities of Canada have been making an elaborate study of the baking powders sold there. The official analyst of Ontario says as the result of his investigation that he "finds the Royal Baking Powder far superior to the others," and goes so far as to "recommend its use in preference to any other." Likewise, a series of over five hundred tests for strength made by public analysts and other chemists of prominence throughout the country show it to produce an average of 25 per cent. more leavening gas than any of its competitors.

A company that maintains this high standard for its product against the temptations of the enormously greater profit that would accrue from the use of the cheaper materials employed by others (for the alum baking powders are produced at a cost of three cents per pound) is entitled to this public commendation and endorsement.

Halifax has a sensation, according to a late despatch. Thirty years ago Geo. Campbell, now Capt. Campbell, courted and seduced Esther Fletcher, and a child was born. Campbell, who is now sixty, married last fall a widow lady, and the coming trial in the supreme court of Esther Fletcher's suit against him for $30,000 damages is creating a great sensation. It was generally supposed that Campbell, if ever he married, would marry Miss Fletcher, of whose child he acknowledged being father.

TERRIBLE ACCIDENT

To an Excursion Train in Ireland in which Seventy Children and Adults are Killed.

Great Excitement in France Over the Political Arrests. The Trials Postponed.

Trial of Mrs. Maybrick at Liverpool Brings Additional Evidence to her Relief.

TERRIBLE RAILWAY ACCIDENT.

DUBLIN, Jn. 12.—An excursion train containing a large number of passengers was thrown from the track near Armagh this morning. The cars have been reduced to splinters and twenty killed and wounded. It is not definitely known, but a large number of the injured will die.

LATER.—Reports from Armagh state fifty children were killed. The train was filled with Methodist Sunday school children, who with their relatives and teachers, were on their way to Warrenport. It is now ascertained upwards of seventy persons were killed. The number of persons injured is upwards of a hundred.

EXCITEMENT IN FRANCE.

PARIS, June 12.—There is a vast deal of excitement over the arbitrary arrests at Angouleme. Last night's angry debate in the chamber of deputies has increased it. Boulangists declare that never in the worst days of the empire has there been such wanton use of power. M. Constanse defence is satisfactory to nobody. He could not explain why a peaceable electoral meeting should have been prevented, nor why representatives of the people protesting against the acts should be arrested. The hearing in the cases of M. M. Laisant, LaGuierre and De-Roulede, at Angouleme, on charge of rebellion against the agents of the government, was to have been continued to day, but owing to the agitation it has been postponed until to-morrow, and will probably be deferred until Saturday. The magistrate will consider the question of bail to day. There is great clamor over the detention of the accused.

MRS. MAYBRICK.

LIVERPOOL, June 12.—Mrs. Maybrick was brought before the magistrate to-day. Mrs. Briggs was called to the witness stand. She admitted she suggested to Mrs. Maybrick while in custody to write to Mr. Brierly asking for assistance.

ANOTHER PHASE.

LIVERPOOL, June 12.—Mrs. Maybrick, charged by the verdict of the coroner's jury with having poisoned her husband was arraigned in the police court this morning. Among several witnesses examined was Doctor Hopper, who testified Mr. Maybrick had been addicted to the use of patent medicines, and that he told witness he was in the habit of taking arsenic as a nerve tonic. Most of the testimony is similar to that given at the request.

Hot Spings Camp.

A correspondent of the *Truth* at Hot Springs Camp writes: A ride of 3 miles up a gradual incline some 3,000 feet landed us at No. 1 mine, which was bought last fall as a prospect by G. B. Wright and Victoria capitalists at $20,000. I found this a model camp, with every improved requirement so far as they have gone. They are now shipping 3 tons per day to Helena, Montana, and, in a few days, when a cross-cut drift-tunnel at a lower depth is completed they will be able to take out 5 tons per day, which, as work is proceeded with, will be increased until, within a year, they expect to be able to take out 50 tons per day. This is high-grade ore, with grey copper and wire as well as horn silver, interspersed with some galena and gangue and a large amount of carbonates. It is said that the shipments have already cleared the cost of the mine and most of the development work done. Beyond and northwest of this claim numerous leads have been located showing equally high grade ore. The Delish, Let-her-go-Gallagher, Daddy Gallagher, and Young Gallagher (the three last named being owned by the Wheelers, Americans with some means), are, perhaps, most worthy of notice. Then below is a claim owned by a Mr. Cooper of Spokane Falls. It has been prospected for 2 years, and at every point for 600 feet along the lead has been found rich carbonates and galena carrying from 20 to 300 ounces silver to the ton. Next is the Little Donald, owned by Davenport & Co., who have 60 tons of ore sacked ready for market. They have made a very good start, having sunk an incline shaft 50 feet in 6 feet solid ore, which is galena with zinc black-jack carrying high in silver. The Krao, owned by the Wheelers, is a high-grade mine, with wire and some horn silver and carbonates and galena carrying silver. Considerable prospecting has been done in three different shafts. The United is a claim just located. It is uncovered for 30 feet and shows a wide vein, 8 feet of which is solid galena with carbonates and carrying a good deal of antimony. A hundred other locations have been made, many equally promising as those named. The Ainsworth is a mass of galena ore, equally as large as the Hendryx, who claim that they contract to get out 300 tons per day, as they have written to the manager of the Kootenay Smelting & Trading Syndicate at Revelstoke.

In Aid of Seattle.

Seattle's sister city, Tacoma, has nobly responded to the appeal for help for the sufferers by the fire, with a cash donation of $17,827, and goods and provisions of the value of nearly three-thousand more, making a total of over $20,000. Portland collected over $5000 on Friday, and also devoted the sum of $5,400 (collected for the Fourth of July celebration) to the relief of Seattle, resolving to forgo the celebration this year. Portland also sent by special train 200 pairs of blankets, 55 tents, 25 cases of condensed milk, 100 cases canned beef, 5 cases syrup, 200 pounds of bread, and 1,000 pounds of crackers. Port Townsend sent a cash donation of $2,167.—*Colonist.*

Daily British Columbian

Wednesday Evening, June 13, 1889.

If any doubts existed in the minds of any that the water works by-law would carry by a large majority to-morrow, the public meeting last night, and its outcome, must have completely dispelled the illusion. In all the large, intelligent, and thoroughly earnest assemblage only two were found that made any attempt to criticize the action of the council with respect to the water works scheme, and these two will admit themselves that they made a sorry hand of the business, and merely wasted the time of the meeting by carrying on a very stupid burlesque, a fact which the audience of course perceived, and sustained the infliction with the utmost good humor. The lucid explanations of Aldermen Scoullar and Curtis, and the weighty and telling expressions of his worship Mayor Hendry, the chairman of the meeting, as well as the remarks of the mover and seconder of the resolution of confidence, were all appreciatively received by the large audience, which showed its good sense and thorough grasp of the situation by passing, without a dissenting voice, the resolution, moved by Mr. Brown, endorsing the action of the council in the water works matter and pledging the meeting's support to the scheme. By the very full report of the meeting published elsewhere, it will be seen that several vexed points, with some people, were taken up and ventilated so thoroughly, and wrong impressions corrected so ably, that it would be almost repetition to go into them again.

While the result of the meeting was perfectly satisfactory, and failed to educe any practical opposition to the water works by-law, it is not improbable that there are a number in the city opposed to the by-law—not because their attitude is reasonable and patriotic, or can be supported by reason or argument—which they are painfully conscious it cannot—but for the sufficient reason to themselves that their private interests happen to run counter to the public good, and they prefer to sacrifice the latter. To these may be added a few who, like the old woman in the play, pose as "the guardian angel of this town," and therefore feel constitutionally obliged to roll a log across the track whenever the chariot of progress "gets up steam," for fear it might telescope the apparition of "blue ruin" which is never long absent from their day dreams. Such opposition as we have described above would not, it will be readily admitted, seek to air itself at a public meeting, where it might have to give a reason for the faith (?) that was in it; so it is not to be hastily assumed that the two objectors at the meeting are the only determined opponents of the by-law. Indeed, we believe they received the reward of their bravery in attending the meeting, and were converted from the error of their way on the spot. What may fairly be inferred from the meeting, its proceedings, and result, is, that while it is not demonstrated that there is no opposition to the water works by-law, it is quite certain that there is practically no honest, courageous, or reasonable opposition—no opposition that dare assert itself, or attempt to show cause for its existence, beyond indulging in street corner talk. Against such opposition the by-law has nothing to fear—if the patriotic ratepayers, those who have the city's interests *really at heart*, will *not* neglect the very important duty of exercising their function of the ballot. *Those who desire the city's* welfare, who wish to see the town progress, have the power to realize *their own wishes to a large extent.* Let each ratepayer look upon the casting of his vote as a sacred privilege and responsibility, which it is, and go to the polls to-morrow as religiously as if the entire result depended on himself, and the result may be confidently predicted.

The larger question of the water works has apparently engrossed public attention to the exclusion of any particular discussion of the streets and park debenture by-law. This measure, however, although somewhat thrown in the shade by *the more absorbing issue, is far too* important to be treated lightly or allowed to go by default. Works *and improvements of the utmost* importance, some of which have long been wanting, are dependent upon *the ratification of the streets and* park debenture by-law, by the ratepayers to-morrow, for their execution. Whether we look at the improvements contemplated in the by-law apart or as a whole, the measure commends itself strongly to the practical approval and sanction of the ratepayers. In the matter of the park improvements, it would be a serious stultification of ourselves to cut the work off where it stands at present for this season, and that is what the defeat of the by-law, or that portion of it referring to the park improvements would mean. More especially as the provincial exhibition is to be held in the city this fall, and Westminster stands publicly pledged to redeem its past bad record in exhibition matters, does it become imperative that we should make at least decent preparation for that important event. If the amount designed by the by-law for park improvements is not made forthcoming by the action of the ratepayers to-morrow, the city will hardly be able to make creditable arrangements for the show, and, apart from the exhibition, very desirable park improvements will have to be indefinitely postponed. The fact that there is a question as to whether the money already spent upon the park has been wisely expended in every particular, will not justify such a stultification by the city as to refuse to decently complete what it has undertaken. Mistakes are liable to be made by the best and wisest; but it is the part of wisdom to profit by these, and not to crawl into a hole and pull the hole in after us, from sheer cowardice of continued action. The royal city musn't take any back water on its park, and it won't. With respect to the street and sidewalk improvements, we are convinced it is not necessary to say anything more than has been said. Everyone must appreciate the necessity of these improvements, and we cannot imagine that half-a-dozen votes will be recorded against this measure.

There is an important feature with regard to the passage of both by-laws which, the schemes themselves being intrinsically worthy, constitutes a perfectly legitimate supplementary argument, if any were needed, why our citizens should *give these measures their hearty* support. If the by-laws carry, of which there can be no reasonable doubt, not only will several very important and urgent city works and improvements be inaugurated and pushed to an early completion, conferring all the benefits that have been enumerated in former articles, but the very considerable sum of $285,000, in addition to all other public and private expenditures, will be laid out, principally in this city, within the next twelve months. Hardly a tradesman or mechanic in the city, it is safe to say, but will reap, directly or indirectly, appreciable benefit from this expenditure, apart from the general benefits conferred by the completion of the works and improvements in question. The increased impetus to trade as a result of this expenditure is bound to be considerable. Real estate should gain in solid values at least 25 per cent. from the assurance of having these valuable civic works and improvements carried out. Private enterprise will be stimulated, and the general hopeful outlook will attract desirable immigration to the city, and by the time the works are completed we shall find ourselves borne forward on the wave of prosperity many degrees beyond our present status as a city, and nearer our assured and glorious destiny as the premier city of the province. One of the speakers at the meeting last night made a very true remark, and one worthy of repetition, when he said that the adoption and carrying out of the water works scheme would prov· an *effective advertisement for* the city abroad. There can be no doubt of it. With the completion *of these water works the royal city* will stand peerless among cities the world over for a pure, crystaline, and *exhaustless* water supply. New Westminster is no ordinary city. It has a history, of which it is proud, and a future, of which it shall be far prouder. Give us necessary street improvements, a park, with athletic and pleasure grounds, and exposition buildings, and water works—with *such* water as we are getting—and proper sewerage to follow—and the royal city, by the banks of the noble Fraser, will be well on to the realization of her exalted destiny as a place of habitation to be desired above all others—a joy for the whole earth. Vote for the by-laws to-morrow.

Streets and Park Debenture By-Law.

A By-Law to raise by Loan the sum of $85,000 for Street and Park Improvements.

WHEREAS IT IS EXPEDIENT that the council of the city of New Westminster should provide for the improvement of certain streets in said city, and of Queen's Park.

AND WHEREAS it will be necessary, in order to effect said improvements, to issue debentures of the said city for a sum of money not exceeding $85,000.

AND WHEREAS for the payment of interest and creating a sinking fund for payment of said debentures it will be necessary to raise the sum of $5,950 annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city, according to the last revised assessment roll, is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the said city is $155,500, irrespective of the sum of $200,000 proposed to be borrowed under authority of the Water Works Debenture By-Law, which by-law is to be submitted to a vote of the electors of the city concurrently with this by-law.

AND WHEREAS, for the purpose of raising the said yearly sum of $5,950 an annual special rate of 2 2-5th mills in the dollar will be required.

THEREFORE, the Mayor and Aldermen of the city of New Westminster, in council assembled, enact as follows:

1. It shall be lawful for the mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of $85,000.

2. It shall be lawful for the said mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than $100 each, which debentures to be sealed with the seal of the corporation, signed by the mayor and countersigned by the treasurer of the said city.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect, either in sterling money of Great Britain or in currency of this province or the country where the same may respectively be made payable, which may be in any place or places authorized by law as may be agreed upon between the purchaser or purchasers thereof and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half-yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 2 and 2-5th mills in the dollar shall be levied and collected, in addition to all other rates, in each year on all the rateable property in the said city during the currency of the said debentures or any of them.

6. All moneys arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as they respectively become due, without prejudice to any of the powers conferred upon the said council by the act of incorporation.

7. The proceeds of the debentures issued and sold under authority of this by-law shall be applied to improvements on Queen's Park and the streets hereinafter mentioned, and, as nearly in the proportion following as may be, to the said council shall in their opinion expedient, that is to say: Queen's Park, $15,000; Columbia street, $3,000; Prince, Dallas and Carnarvon streets, $2,500; Princess street, $2,500; Royal avenue, $3,000; Queen's avenue, $3,000; Pelham street, $1,000; Montreal street, $3,000; Melbourne street, $2,500; Leopold Place, $500; Park Place, $1,500; Clinton street, $2,000; St. Patrick street, $1,000; Clement street, $3,000; St. George street, $1,000; Mary street, $1,000; St. John street, $1,000; Douglas street, $1,000; Halifax street, $750; St. Andrew's street, Ellice streets, $3,000; Fortesque street, $1,000; Edinburgh street, $2,500; London street, $1,000; Blackie street, $500; Merivale street, $500; Blackwood street, $500; McKenzie street, extending and making, streets in St. Andrew's square, $1,500; St. George's square, $500; St. Patrick's square, $1,000; sidewalks and general street repairs, $8,650; provided that out of the said sum of $15,000 set apart for the improvement of Queen's Park there shall be paid into the city treasury to the credit of the general account the sum of $5,000, being the amount already expended out of the general revenue for Park improvements; provided also that if the improvements of any of the streets above mentioned should be found to be less or cheaper than the sum apportioned to said street, the said sum may be increased or diminished as in the circumstances may seem to the council expedient, and the surplus, if any, remaining out of the appropriations above set out, after said streets have been completed, may be applied to other works of permanent improvement not specified herein, at the discretion of the council.

8. This by-law shall take effect and come into force on the 17th day of June, 1889.

9. This by-law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

This by-law may be cited as the Street and Park Improvement Debenture By-Law, 1889.

By-law read a first time on the 6th day of May, 1889.

By-law read a second time on the 6th day of May, 1889.

NOTICE.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the BRITISH COLUMBIAN newspaper, which first publication took place on the 15th day of May, 1889, and that a vote of the electors of the city will be taken on the proposed By-law at the New City Hall, Market Square, in said city, on the **17th day of June, 1889,** between the hours of 9 o'clock a.m. and 5 o'clock p.m.

Water Works Debenture By-Law.

A By-Law to provide for the issue of Water Works Debentures.

WHEREAS BY THE "NEW Westminster Act, 1888," an act of the legislature of British Columbia, passed in the fifty-first year of the reign of Her Majesty, Queen Victoria, and chaptered forty-two relating to the corporation of the City of New Westminster, it is among other things provided that the council of the corporation of the said city may, subject to the provisions of the said act, pass by-laws for constructing water works, and providing for the expenditure thereof.

AND WHEREAS it is expedient that the council should provide for the construction of water works for the supplying of water to the inhabitants of the said city.

AND WHEREAS, in order to carry into effect the said proposed construction, it will be necessary to issue debentures of the said corporation for a sum of money not exceeding two hundred thousand dollars.

AND WHEREAS, for the payment of the said debentures, sinking fund and interest, it will require the sum of $14,000 to be raised annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city according to the last revised assessment roll is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the city is the sum of $155,500, irrespective of the sum of $85,000 proposed to be borrowed under authority of the Streets and Park Improvement Debenture By-law, which by-law is to be submitted to a vote of the electors of the city concurrently with this by-law.

THEREFORE, the corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the mayor to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of two hundred thousand dollars.

2. It shall be lawful for the mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than one hundred dollars each; such debentures to be sealed with the seal of the corporation, and signed by the mayor and counter-signed by the treasurer thereof.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect, either in sterling money of Great Britain, or in the currency of this province, or the country where the same may respectively be made payable, which may be in any place or places authorized by the said act as may be agreed upon between the purchaser or purchasers thereof, and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 5⅝ mills in the dollar shall be levied and collected in addition to all other rates in each year upon all the rateable property in the said city during the currency of the said debentures or any of them.

6. All monies arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as they respectively become due, without prejudice to any of the powers conferred upon the said council by the said act.

7. This bylaw shall take effect on the 17th day of June in the year of Our Lord one thousand eight hundred and eighty-nine.

8. This by-law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

9. *This by-law may be cited as the* Water Works Debenture By-Law, 1889.

By-law read a first time on the 11th day of March, 1889.

By-law read a second time on the 11th day of March, 1889.

NOTICE.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the BRITISH COLUMBIAN newspaper, which first publication took place on the 15th day of May, 1889, and that a vote of the Electors of the City will be taken on said proposed By-law at the New City Hall, Market Square, in said city, on the **13th day of June, 1889,** between the hours of 9 o'clock a.m. and 5 o'clock p.m.

D. ROBSON,
City Clerk.

To Contractors & Carpenters

TENDERS WILL BE RECEIVED BY the undersigned up to noon of SATURDAY, **29th inst.,** for the dividing of Herring's Opera House into tenements, and other work. Plans and specifications can be seen at my office, Mary Street. The lowest or any tender not necessarily accepted.

G. W. GRANT.
New Westminster, June 7, 1889. dje7td

Card of Thanks.

I DESIRE TO HEARTILY THANK the Citizens of New Westminster for their very generous patronage during the past five years and trust that in the future I shall continue to merit their confidence. I have just secured as an assistant, A. J. Holmes, D. D. S., a graduate of the Ohio Dental College (a branch of the Cincinnati University), which college ranks second to none in the world. Dr. Holmes comes highly recommended, and having had three years experience in the practice of Dentistry, I feel that I can confidently assure all requiring dental work that only a superior class of work will be done.

Prices moderate as in the past.

Crown, bridge work, and the preservation of the natural teeth specialties.

Port Kells

This Fine Townsite, at the Fresh-Water Junction of the

Southern Railw'y

—WITH THE—

FRASER RIVER

12 Miles Above Westminster,

Has just been Surveyed, and the Lots are for sale by

WOODS, TURNER & GAMBLE
—AND—
ALBERT J. HILL & COMPANY
OF NEW WESTMINSTER, B. C.

The advantages and prospects of this Plot for a future thriving Town are many.

The Land in the vicinity is good.

There are inexhaustible IRON ORE DEPOSITS, of a superior quality, immediately adjacent, as well as vast strata of the finest BUILDING SAND and POTTERY CLAY.

On the Townsite are a number of valuable MINERAL SPRINGS.

Communication by land and water is unequalled, by reason of the location of the Townsite on the Fraser River and the Southern Railway, while the natural elevation and lay of the land can not be excelled as a situation for a fine town.

The ground is open and clear of heavy timber.

The site has been selected as one of the most important stations on the Southern Railway, and with the completion of the road, in the near future, must, with all its other advantages, spring into prominence at once.

Those who apply early will have the pick of the Lots.

A clear title given with every purchase.

Parties wishing Lots can apply as well, on the premises, to

HENRY KELLS,
dmy9tc PROPRIETOR.

Wednesday Evening, June 12, 1889.

NEW ADVERTISEMENTS THIS DAY.

By-Law.....Mayor
Timber Lands for sale:..Woods, T. & G.

Strawberries and Cream at the "Club." *

Don't wait till the afternoon to vote, but vote early.

A number of communications have been crowded out to-day.

All the fashionable iced beverages, at the "Hub," next the "Queen's." *

Vote early to-morrow and be sure the ballot paper is properly marked.

Strawberries, for preserving, at 8 cents per pound, at C. J. Robson's. 3t*

Russell's Restaurant, opposite the American Hotel, open day and night. a9m3*

If you want good roads and sidewalks, vote for the streets improvement by-law.

The str. Gladys left for Chilliwack this morning with 20 tons of freight and 35 passengers.

200 lots on the Thorne road, from $65 upwards at $10 per month.—W. Reidt, Front street. *

Remember the terrible fate of Seattle and vote for the finest water system on the continent.

Every citizen who has the interests of Westminster at heart will vote for the by-laws to-morrow.

The regular monthly meeting of the Y.M.C.A. will be held at the association rooms this evening.

Westminster will have a beautiful park before autumn if the ratepayers vote solid on the improvement by-law.

North Arm Road Lots, from $100; Sapperton, $150; and Brownsville Acre Lots at $100, on easy terms, at W. J. Walker & Co's. *

Look out for the great sale of lots in the town of Seattle, at the Mission Bridge, on June 15th next. For particulars, apply to Wm. Reidt. *

The lacrosse club meeting to-night at Richards, Haywood & MacKintosh's office calls for the presence of every lover of the game in the city.

If you want your property to receive proper protection against fire, don't omit to record your vote to-morrow in favor of the water works by-law.

A city, no matter how grand its situation may be, is not complete without a park, and no vote should be recorded against the improvement by-law.

Everyone who wishes that the youth of the Royal City should be furnished with the means of athletic exercises will vote for the improvement by-law.

Every lady, married or single, whose name is on the voters list, has a right to vote to-morrow. And THE COLUMBIAN predicts that the ladies will vote for the city's progress.

Although the by-laws are certain to pass, it is still the duty of every good citizen to record his vote, so that public feeling on the questions at issue may be plainly advertised.

Don't wait for someone to come along with a carriage and drive you to the poll, but show your interest in the city's progress by getting there yourself and voting like a man.

Property owners who neglect to vote for the streets improvement by-law are not alive to their own interests. On every street graded and sidewalked property will advance 25 per cent.

The Montreal *Star* of the 11th inst. says: Reliable information was received to-day in well informed circles, which leaves no room for doubt that Premier Mercier is hard at word preparing for an autumn session and a general election immediately after.

Lots in the town of Sumas, Whatcom county, on the boundary line, at the junction of the Canadian Pacific and Seattle Lake Shore & Eastern Railroads, are now on the market at bedrock prices, and are selling fast. Buy quick before the choice lots are all secured. — RICHARDS, HAYWOOD & MACKINTOSH. *tc

Individuals who have opposed the water works from the start, as well as every progressive move the city has ever made, and will oppose everything in future tending towards advancement, have circulated false reports, saying that only the lower portion of the city will be supplied with water. When the water works are put in every portion of the city will be fully supplied.

An Alaskan Railway.

The San Francisco *Chronicle* of last Thursday says the construction of a line from Victoria, B. C., to Alaska, rendering travel to the Arctic possible, is being seriously talked of. The engineers pronounce the scheme feasible, and estimate the cost at $130,000,000. The idea, if carried out, would be a great step in the development of Alaskan resources, and would help the United States to a considerable revenue on the $7,000,000 which Alaska cost.

A Present for Mr. Dewdney.

When the Hon. Edgar Dewdney visits Westminster this fall he will be presented with a fine oil painting by Mr. W. H. Vianen, who, in 1859, with Mr. Dewdney, caught one of the first salmon ever taken from the Fraser river by white men. The picture is that of Mr. Vianen and the monster salmon, caught some years ago, weighing 78 lbs., which was photographed shortly after the fish was taken from the water. Mr. Vianen has had a painting made from the photograph and will present it to Mr. Dewdney as a memento of the days "when we went fishing together."

Fought For Love.

At the police court this morning a celestial named Chin Loy Sin was arraigned on the charge of pointing a revolver at the head of a countryman named Ah Moy. It appears the celestials some three years ago fell in love with the same girl. Ah Moy offered the greatest inducements and won her. Ever since the blighted love of Chin Loy Sin has been a constant worry to him, and his feelings towards Ah Moy have been anything but friendly. Last night the pair met and the old question was brought up, and nearly resulted in murder. The case has been remanded till Monday to allow the prosecution to prepare its case.

Children Cry for Pitcher's Castoria

HOW TO VOTE.

Annexed is a *fac simile* of the ballot paper to be used to-morrow. If an X is placed where indicated progress will win another victory over the disciples of non-advancement. Cut this out.

STREETS AND PARK DEBENTURE BY-LAW.

A By-Law to raise by way of Loan the sum of $85,000 for Street and Park improvements in the City of New Westminster.

1. FOR THE BY-LAW. X

2. AGAINST THE BY-LAW.

WATER WORKS DEBENTURE BY-LAW.

A By-Law to raise by way of Loan the sum of $200,000 to provide a system of Water Works for the City of New Westminster.

1. FOR THE BY-LAW. X

2. AGAINST THE BY-LAW.

The Government Land Sale.

The sale of government lands on Lulu island, took place to-day at the Colonial hotel. A large number of Vancouverites and farmers were in the city and lively bidding was expected, but the sale passed off very tamely. The land offered for sale comprised in all 1120 acres, situated in block 4 north, range 5 west. Following were the purchasers: Sec. 14, Thos. Shotbolt, $9 per acre; sec. 15, W. P. Sayward, $9 per acre; sec. 16, J. W. Horne, $9 per acre; sec. 17, J. M. Parks, $8.50 per acre; sec. 18, J. C. Prevost, $10.50 per acre; sec. 19, Jas. Laidlaw, $14 per acre; sec. 20, J. W. Horne, $12 per acre; sec. 12, H. V. Edmonds, $19.50 per acre.

The New Tugboat Lorne.

The new tugboat Lorne, recently launched from Langis' ways for Messrs. Dunsmuir & Sons, is said to be one of the finest specimens of marine architecture ever launched in these waters. She is now lying at Spratt's wharf waiting to receive her engines and other machinery. The Lorne will be fitted with triple expansion engines. Her bilge pumps will have a capacity of 1,000 gallons per minute and her machinery throughout reflects great credit on the Albion Iron works. The propeller is 12 feet in diameter and weighs 8,000 pounds. The dimensions of the boat are as follows: One hundred and fifty-four feet over all, beam twenty-five feet ten inches, and depth of hold fourteen feet three inches. She is calculated to run at least 13 knots an hour and probably more. The total cost of the Lorne will be in the neighborhood of $60,000.

Pulling Itself Together.

Seattle, says an exchange, now presents an animated appearance, the rebuilding of the city being commenced in earnest. Building materials are heaped up at the sides of the streets, and excavations are being made in all directions. Over sixty property owners have announced their intentions of rebuilding their burnt buildings at once. The business portion is being re-plotted. The relief committee is supplying meals to hundreds during the day. A proclamation has been issued stating that all laboring men out of employment will be given work. The Oregon Improvement Company has a gang of over 500 employed. Everything is quiet and order prevails. Very little thieving has been done. Deeds of bravery were frequent during the fire. When the business portion was all in flames, great efforts were made to check the fire at the offices of the Moore Land Co., in order to save the residential portion of the city. After a hard fight these efforts were successful. and the residences of a very large proportion of the citizens were thus saved.

From Keremeos.

Mr. Thos. Daly, the well known rancher of Keremeos, arrived from the interior yesterday and will remain on the coast a few weeks. He says Keremeos is in a flourishing condition and the prospects ahead are very bright. The winter was unusually mild, and, as a consequence, the cattle came out this spring in fine condition. Latterly heavy rains have fallen and the grass on the ranges is looking splendid. Feed is certain to be good and plentiful all summer, and the ranchers are naturally in the best of spirits. Keremeos has so far escaped the grasshopper plague, and it is now expected these pests will cross the divide from Nicola. A band of 120 head of cattle are now *en route* from Keremeos to Hope for shipment to this city. During the whole season similar bands will be brought out at intervals of two weeks. The ranchers have formed a pool and each supply a proportionate number of cattle for exportation.

Mining matters are in a prosperous condition, and some rich ledges have been struck which will be developed whenever the necessary funds can be raised. No great mining rush is expected to Keremeos this summer, though prospecting and placer mining will be carried on to a considerable extent.

Donald "Truths."

Last Tuesday morning Edward Adair and John Sixsmith, while camped on the banks of the Columbia at a point about 8 miles below the mouth of the Beaver, saw the body of a man float past them. Owing to the rapidness of the current, they could not make a successful effort to bring the body ashore. It appeared to be that of a man short in stature, who wore the rough clothing of a laborer, as the shirt was of dark blue color. It was probably the body of Burton Mann, recently drowned in the Kicking Horse near Leanchoil.

Edward Adair, foreman for Dan Robinson, is back from a cruising trip down the Columbia as far Surprise rapids, some 35 miles below Donald. He reports seeing splendid timber, some of the white pines being 60 inches through, and from which 5 to 6 logs could be cut free from knots. There are also Douglas firs in that locality that measure fully 10 feet in diameter. On the trip Mr. Adair killed 4 bears.

The Columbia River Lumber Company has bush-foreman Moore looking the ground over, across the river from Donald, for a logging camp. The company expects to take out between 2 and 3 million feet this summer and will employ 35 men in the work.

PURE COLD WATER

Is Wanted by the People of the Royal City and Nothing Else.

A Rousing Meeting at Which all the Stumbling Blocks are Explained Away.

And the People Unanimously Adopt the Proposed Water Works Scheme.

The public meeting called for last night to discuss the water works question took place as advertised, with the difference that the hour at which it was announced to commence, 8 o'clock, was prolonged to 8:30 o'clock. At a quarter past 8 only 30 persons were in the hall, and it seemed as if the meeting was going to prove a fizzle, but towards the half hour the ratepayers dropped in more freely and soon the hall was comfortably filled, and by the time the meeting opened 250 persons were present.

Mayor Hendry was unanimously elected to the chair and called the meeting to order. After explaining the object of the meeting he invited free discussion without personalities.

Col. McGregor was appointed secretary.

Mr. Curtis asked the promoters of the meeting to explain why they called it.

Mr. Wintemute said the principal reason for objecting to the water works by-law was that it had been said the charter was costing too much; it might not be any good when it was acquired, and it would run out next March. So it was said.

Ald. Scoullar, chairman of the water committee, said he was certain no ratepayer in the audience objected to, or was against, a water supply. Water was required as a guard against fire. If Seattle had had a good water supply the city would have been saved. The condition of the city in regard to wells and tanks is very bad. The rapid growth of the city has naturally produced additional sewage, and consequently the water in these receptacles must become polluted. It was understood when the new council came in that water works would be built. The board had ever since been working on the scheme, and the present one was considered the most feasible and had been adopted. The council considered it best to acquire the water works and run them to the profit of the city. The committee waited on the Coquitlam Water Works Co. and offered $20,000 for the charter. At the end of a week no answer being received the committee told the company that if the offer was not accepted the city would put in pumping works and pump from the Fraser. The offer was then accepted. In regard to the charter lapsing, it would only lapse in the matter of acquiring land for the right of way, and that land had already been acquired. Mr. Sweeney, of the Bank of Montreal, had stated that the purchase of the charter was very cheap. Ald. Scoullar produced the report of Mr. Bell, C. E., furnished for the Bank of Montreal, which estimated the total cost of the works, allowing $15,000 for the company, at $195,000. He felt certain that the income from the works would be so great that the ratepayers would not be called on to pay one cent towards the interest. The size of the main would be 14 inches. It had been stated that he (Ald. Scoullar) was interested in the company, such was not the case. (Applause). The council had done its duty and it remained with the voters to either support the project or reject it. (Applause).

Mr. Handcock asked if it was true that the company had offered to sell some months ago for $11,000.

Ald. Scoullar: There was a scheme to sell out, with a certain interest in the new company, for $13,500. This left the company with an interest in the new company; but under the present bargain the company resigns all rights, title and interest. (Applause).

Mr. Handcock here asked a number of ridiculous questions which the audience would not listen to, and finally cried him down.

At this point Mr. J. E Lord stepped up to the railing and asked if Ald. Scoullar had said the exclusive rights of the company had been purchased.

Ald. Scoullar replied that he had referred only to the Westminster rights.

Mr. Lord said $400,000 should be borrowed.

Mayor Hendry called upon Mr. Lord to explain by what wonderful reasoning he had come to that conclusion. He felt certain the people were anxious to see where the sense of such a proceeding would come in. (Applause).

Mr. Lord declined to give his reasons.

Mr. J. C. Brown said that after the clear statement made by Ald. Scoullar, he saw no use for further argument and took pleasure in moving the following resolution:

Resolved, that this meeting after hearing the explanations of the chairman of the water works committee, expresses complete confidence in the proposed water scheme; and the ratepayers present pledge themselves to vote for, and heartily support, the water works by-law at the polls on Thursday.

Continuing, Mr. Brown said: "Do we need water and can we pay for it? these are the leading questions, and the answer to them is 'yes'! This community is suffering for want of good water, Look at the difference in the death rate now and 20 years ago, and then ask yourselves 'do we want water'? Then what about insurance rates? Why the reduction in these alone will almost pay the water tax. I agree with Ald. Scoullar that the city has a dead bargain in the purchase of this charter. I have been to Coquitlam lake and know what it is. The water is beautiful, cold and clear as crystal, and no matter to what vast limits the city grows the water of Coquitlam lake will always remain pure. This town will make a very great mistake if it refuses to adopt the present scheme. (Greatapplause.)

Mr. J. S. Clute heartily endorsed the resolution and took pleasure in seconding it. He was one of the oldest inhabitants of Westminster and knew the value of a pure supply of water. If some of those persons who are so fond of crying down schemes for the benefit of the community would take a tour round the city and visit some of these places where the sewerage was simply frightful they would soon come to the conclusion that the sooner water was in the better, even if it cost twice as much. "It is absolutely necessary," said Mr. Clute, "that we have water works. The bargain I consider an excellent one, and the price to be paid very low indeed. I have had occasion to look into the plans and affairs of the Coquitlam water works company, and I assure you that after the expenses the company has been put to have been deducted from the $20,000 there will be very little in it for the original owners of the charter. (Great applause.)

Mr. Dockrill asked if more than one pipe could be laid down on the right of way, to which Ald. Scoullar replied that a dozen could be laid down if necessary.

Ald. Curtis was called on and said: As a member of the water works committee I consider it my duty to explain the scheme as fully as possible. In the first place I am surprised at Mr. Lord having the courage to put up his opinion as superior to such men as Mr. Bell C. E. Mr. Lord got excited and rushed into print. Perhaps he thought we were going to have too much water. If Mr. Lord was a wise man he would let his pen rest quietly especially on subjects which he knows nothing about. The committee appointed to adopt a water scheme for the city had considered several projects, but to the clearheadedness of Mayor Hendry the city is indebted for our not adopting the first scheme which looked reasonable but would have cost the city so much. (Applause.) The mayor sent us back to find something better, and in doing so he displayed the best judgment among us all. When we adopted the present scheme it was accepted, and a more favorable one would be hard to project." Mr. Curtis here went deeply into figures, contrasting the two schemes and proving most conclusively that the one adopted was the best and most economical for the city. Concluding Mr. Curtis said: "The city will own the water works, and if the income is greater than necessary the rates can be reduced from time to time. Instead of paying for water for fire purposes, street watering and flushing sewers, it will cost us nothing. Some people have said that the money might be misappropriated. Now for the benefit of these I would explain that it is the duty of the people, as provided for in the new city charter, to elect water commissioners who will have full control of the works, payment of monies etc. What better guarantee is required than this. But before a single move in operations is made an expert engineer will be employed to examine into and report on plans, etc., for the week. (Great applause).

Mr. Handcock still hankered to have the cobwebs brushed off his brains and insisted on knowing who the members of the Coquitlam company were. Mr. Curtis favored him with the names and he sat down amidst a round of sarcastic cheers.

Mayor Hendry said he was glad the explanations of Aldermen Scoullar and Curtis had been so well received by the meeting, and that they had given such general satisfaction. He then put the resolution of confidence, which was carried without one dissenting voice.

A vote of thanks was passed to the chairman, mayor Hendry, and to the secretary, Col. McGregor, and the meeting adjourned.

Impure Water.

In an address delivered in Victoria recently G. L. Milne, M.D.C.M., said:

We hear frequently of outbreaks of disease from bad water. Cholera, typhoid fever, diphtheria and other diseases are generally traced to this cause. Few wells, and very few indeed, contain water fit for household purposes, and should be condemned, because sewerage pecolates through the area of its drainage and becomes contaminated with organic matter. Many a a case of typhoid fever and diphtheria can be traced to this cause alone. Precaution should also be exercised in having our city water supply as pure as possible. Numerous epidemics have been traced of typhoid fever arising from impure water, or contaminated water carried from miles distant. The relation between the distribution of water, which contains sewerage, and the prevalence of typhoid fever, can easily be observed. Taking the mortuary returns of certain cities and the condition of their water supply, complete and trustworthy data can be obtained on this point for many years back. In the city of Brooklyn, where the water supply is free from sewage, the death rate from typhoid is only 15 in 100,000 of population, while in Boston, where the same purity is not maintained, the death rate is 40 per 100,000 population. In Philadelphia, also, and other cities in the United States, where less attention is given to the purity of the water supply, the death rate from typhoid fever is greatly increased. A striking instance of this comes from the continent of Europe. In the city of Vienna, from the year 1856 to 1874, well water of an impure character was used to a large extent, in addition to a supply from the Danube. During this period the deaths from typhoid fever ranged from 100 to 340 annually in every 100,000 population. But since the time mentioned, a supply of pure water has been the means of reducing the death rate to as low as 11 per 100,000. In the face of such testimony we cannot but admit that the increase death rateof typhoid fever is governed largely by the supply of water used by the citizens.

CORRESPONDENCE.

That Theatre License.

EDITOR COLUMBIAN.—Kindly allow me to reply to the city clerk's letter, in your issue of Saturday last. His comparison between Vancouver and Westminster only exposes his ignorance of theatrical matters. The owner of an opera house in Vancouver could afford to pay $20 per night license and run his house three nights a week and make it pay, whereas this city is not able to pay the expenses of a company playing one night per month, at the old license fee of $5; consequently it does not require the brains of an alderman to see that matters would be getting no better fast in the future with the license fee increased to $10 per night and $20 per year additional, which is simply prohibitive; and I don't intend to pay it. A piece of sharpness was attempted this last year on the opera house by an alderman and a city employe, who, while I was absent from the city, doubled the theatrical tax, which I had changed on my return. I am much obliged to Mr. Robson for his insinuations that I have jumped from the frying pan into the fire. I can assure him, and I hope the information will gladden his heart, that my Vancouver interests have proved far from disappointing in the past and the prospects for the future are in no way gloomy. Vancouver now supports two opera houses, and plans have been prepared and a site selected for a third, to be built by the C.P.R. I may add in conclusion that had the license remained as before ($5) I should have kept the opera house open, being willing to suffer a loss for the public benefit, and at the same time, as a heavy property holder in this city, not wishing to inform the outside world that we are improving so rapidly that the only theatre in the city has had to be closed with its epitaph written by our progressive city fathers—"Killed by Taxes."

Yours truly,
A. M. HERRING.

Real Estate Tax Amendment By-Law.

A By-Law to amend the "Real Estate Tax By-Law, 1889."

WHEREAS IT IS PROVIDED IN the "Real Estate Tax By-Law, 1889," that a rate of 4½ mills in the dollar shall be levied and collected on all the rateable property of the City of New Westminster, in the year 1889, for the purpose of providing for payment of interest and principal of the debt created by the "Workshops Bonus By-Law, 1888," and "Ferry Service By-Law, 1888";

AND WHEREAS, no debentures having yet been issued under authority of said by-laws, it is unnecessary to levy and collect a rate during the current year in respect of said by-laws:

THEREFORE, the Mayor and Aldermen of the City of New Westminster, in council assembled, enact as follows:

1. That Section 1 of the "Real Estate Tax By-Law, 1889," be and is hereby amended by striking out the words "seventeen mills and two-fifths" and inserting in lieu thereof the words, "thirteen mills and three-twentieths."
2. Sub.-sec. 3 of Sec. 1 is hereby repealed.
3. Sec. 4 is hereby amended by striking out the words, "fifteen mills" at the end thereof and inserting in lieu thereof the words, "ten mills and three-fourths of a mill."
4. This By-Law may be cited as the "Real Estate Tax Amendment By-Law, 1889."

Done and passed in open council the 10th day of June, A. D. 1889.

JOHN HENDRY, Mayor.
(L.S.) D. Ronson, City Clerk. djel2t1
