SCIENTIFIC MISCELLANY.

A consumptive sanitarium near Berlin is to be a large cylindrical building in which patients will be exposed to the alleged therapeutic influence of exhalations from cows.

A Berlin musician, Dr. Eisenmann, has applied electro-magnets to the piano so as to sustain, increase and diminish sound. The timbre of the tone may be changed also, as from a violoncello to a piccolo.

It has been noticed that a jet of compressed gas inflicts upon the body an injury of the same nature as a burn. Dr. B. W. Richardson has accordingly suggested the use of compressed gas—carbonic acid as most convenient—as a cautery, with advantages in removing warts, etc.

A system of building houses entirely of sheet iron has been communicated to the Society of Architecture in Paris. The walls, partitions, roofs and wainscoting are composed of double metallic sheets, separated by an air mattress, which is surrounded by different non-conductors of heat.

ECONOMIC PROGRESS IN ELECTRICITY.—The progress made in the use of electricity during a period of only five years is strikingly showed by Mr. A. R. Foote, of Cincinnati, in these figures. Dynamos, increased efficiency, 25 per cent; decreased cost, 40 per cent. Incandescent lamps, increased efficiency, 100 per cent; increased life; 100 per cent; decreased cost, 75 per cent. Wire, decreased cost, 20 per cent. Line construction, decreased cost, 20 per cent.

A REMARKABLE EXHIBITION.—Among the interesting scientific exhibits at a recent conversazione of the London Royal Society were the following: 1. The "electro graphoscope," an adjunct of the magic lantern, consisting of a white lath rotated like a windmill by an electric motor, a picture thrown on the lath being visible in its entirety, on the principle of retention of vision, and seeming to stand out in mid-air. 2. The magnetization of iron by a ray of light. 3. A shallow vessel of water, with projecting pieces of zinc to represent Europe and America, on which a dozen or more pipes blew air-jets representing all the trade and other regular winds, the arrangement giving motions in water imitating the Gulf Stream and other actual oceanic currents. 4. A Gramme ring made to rotate under the influence of the magnetism of the earth. 5. Experiments showing that in perfectly dry oxygen such substances as charcoal, sulphur and even phosphorus may be heated to high temperatures without burning. 6. Also, some useful applications of fibres of quartz, specimens of the rediscovered Egyptian blue, and a great photographic map of the solar spectrum.

GOLD MADE FROM SILVER.—Three allotropic forms of silver—broadly distinguished from normal silver by color, properties and chemical reactions—have been obtained by Mr. M. Carey Lea, of Philadelphia. The first is soluble, deep red in solution, lilac, blue or green while moist, and brilliant bluish green metallic when dry. The second is insoluble, dark reddish brown while moist, and when dry somewhat resembles the first. The third is insoluble, dark bronze while wet, and when dry exactly resembles gold in burnished lumps. Minute specks of this form have been occasionally noticed in silver solutions, and this has probably often led to the supposition that silver might be transmuted into gold. It may be formed in many ways, but by only one process—in which silver tartrate is reduced by ferrous tartrate—has Mr. Lea succeeded in making the gold-silver at all permanent, specimens thus secured being unchanged after thirty months. Each of the three forms gives lustrous metallic films when spread out in pasty condition, is easily crushed to a fine powder, and is restored to normal silver by acids. A paste of gold-silver on glass makes a beautiful gold-colored mirror.

THE SCAVENGERS OF NATURE.—"Under the microscope," says Mr. Henry J. Slack, F.R.M.S., "it is seen that as animal and vegetable matter rots away, swarms of ferments come into existence. For example, in a drop of water, the flesh of a dead water-flea was noticed in commotion while the writer was engaged on this paper. Thousands of U-shaped vibrions were living upon it; all were in brisk motion, straightening and bending their bodies with whip-like flicks. They were a company of scavengers, sweetening the water by a chemical process necessary for their nutrition. Our rivers and ponds would become factories of deadly poisons, and all the earth's soil would be contaminated, if inexpressible myriads of minute plants and animals did not attack dead organic matter, and cause its elements to enter into new and useful combinations. If we find thousands of such little ferments at work upon a fragment of matter no bigger than a full stop of this print, what must be the numbers in operation when tons upon tons are dealt with in the contents of our sewers, in the manures we put on our fields, and in the vast multitudes of human and other bodies that perish on land or in sea."

Children Cry for Pitcher's Castoria

GREAT MORTALITY.

Smallpox and Yellow Fever Raging in Brazil with 75 per cent. Mortality.

A Market Roof Falls and Buries Fifty People Many of Whom are Killed.

Dakota Indians Take the Warpath and Fire Out the Neighboring Settlers.

EPIDEMICS RAGING.

NEW ORLEANS, June 15.—News has just been brought here by a gentleman from Brazil, who says that smallpox and yellow fever are raging in a very violent form not alone in Rio Janeiro, but through all the states within 2,000 miles of that city. The death rate for 13 days at Santos was 70 per cent., and people who could do so were leaving in droves.

AFFAIRS AT JOHNSTOWN.

JOHNSTOWN, Pa., June 15.—This morning a hundred and fifty laborers were added to the number already engaged in removing the wreckage from above Stone bridge. For a time the work progressed very satisfactorily, but a heavy rain storm came up, however, and compelled all the workmen to seek shelter. The flames in the wreckage are burning furiously this morning, having gained such headway that the heavy rain had but little effect in extinguishing them. Contractor McKnight says if he can keep the fires burning at their present volume during to-day and to-night, the big raft will be entirely out of the way by to-morrow. Dynamiting was kept up through the night and this morning. Some of the explosions were so heavy the people in their houses on Prospect hill left them, fearing they would fall.

THE CRONIN MURDER.

NEW YORK, Jn. 15.—Judge Andrews in court, of Oyer and Terminer, heard arguments to-day upon writs of habeas corpus in cases Maroney-McDonald. Asst. district attorney MacDonnald, read returns to writs, including telegrams from Chicago, and affidavit made thereon by Detective Vongerichten, together with the subsequent commitment by the police magistrate. The answers of prisoners are a general denial of any complicity whatever in the commission of the Cronin murder; that their detention was illegal and claiming they were in New York on the day the crime was committed, concluding with offers of evidence in support of an *alibi*. The judge took the papers and reserved his decision.

THE ROOF FELL.

GALVESTON, June 15.—City of Mexico advices say the Merced market roof fell in yesterday, burying nearly fifty persons. Soldiers are at work removing the debris and searching for bodies. There are already taken out eight dead and a number of wounded.

AGAIN ON STRIKE.

NEW YORK, June 15.—The discontented longshoremen, of the National Steamship Company, who struck a few days ago, but concluded to work on the company's terms yesterday morning, went out on another strike last night. Their places were filled this morning by 100 non-union men. A large police force is on hand to prevent a disturbance.

APPOINTMENTS.

WASHINGTON, June 15.—The president made the following appointments to-day: Wakefield R. Frye, Maine consul-general at Halifax; Joseph A. Leonard, Minnesota, consul general at Shanghai; Zachary T. Sweeny, Indiana, consul-general at Constantinople; Oliver H. Dockery, North Carolina, consul-general at Rio De Janeiro; Oliver H. Simons, Colorado, consul-general at St. Petersburg; Geo. M. Roosevelt, Pa., consul at Brussels; Levi W. Brown, Ohio, consul at Glasgow.

THE VAULTS STOOD.

WASHINGTON, June 15.—The comptroller of currency received a telegram to-day from the cashier of the Puget Sound National Bank, at Seattle, saying the loss to the bank by the fire is nominal. All the vaults stood the test well. The bank is now doing business in temporary quarters.

ARTFUL SMUGGLERS.

SAN FRANCISCO, June 15.—Nine boxes of contraband opium were found this morning by a customs officer in the furled sails of the str. City of Sydney, which arrived from Hong Kong a few days ago. This is the second seizure made on the vessel.

WITH USUAL HONORS.

VALLEYO, June 15.—Lieut. Frank Heath, one of the survivors of the U.S. str. Vandalia, which was wrecked at Samoa, and who died here a few days ago, was buried with military and naval honors to-day.

INDICTED FOR FRAUD.

LOS ANGELES, June 15.—Frank Lauterio, deputy-county auditor, has just been indicted by the grand jury for presenting a fraudulent warrant on the city treasury.

MURDERER CAPTURED.

TULARE, Cal., June 15.—City Marshall Murray arrived in town this morning from the mountains, south of here, where he captured W. Rice, who is wanted in Lincoln, Ill., for the murder of a child some time ago. The sheriff of Lincoln is on his way here with the necessary papers.

DOWN THE RIVER.

WASHINGTON, June 15.—The president, accompanied by secretaries Blaine and Windom, left to day for a trip down the Potomac on Mr. Wanamaker's yacht and will return Monday.

THE CRONIN INVESTIGATION.

CHICAGO, June 15.—The grand jury in the Cronin case resumed their work this morning by considering the matter of Sullivan's speculations, and examined the clerks of Moore & J. L. Lesler & Co.

BABY MURDER.

SAN FRANCISCO, June 14.—The body of a dead baby, about two months' old, was found late this afternoon under a rose bush in the garden in front of the unoccupied house at 2008 Leavenworth street. The indications are that the baby was murdered. There are several cuts and bruises about the head and face, and blood is coagulated all around the mouth and nose. The clothing was neat and was all blood stained. The ghastly discovery was made by some school children playing in the garden. They at once notified their parents and the news was sent by them to the morgue. Coroner Taylor said that while the indications were that the child had died from violence, he would not express an unqualified opinion until he made an autopsy. The cuts and bruises about the head would seem to substantiate the theory of murder. It is supposed that the body was thrown into the garden sometime last night, as no one was noticed around to-day. There were a number of children playing on the sidewalk in front of the house all day, and they would have seen anyone entering the garden. An autopsy will be made on the body, and if it is found that the babe was murdered, no effort will be spared to bring about the arrest of the guilty parties.

A BIG DEAL.

ST. LOUIS, June 14.—One of the most extensive stock yard deals ever consummated was made here yesterday. The Fairbank Canning Co., of Chicago, bought the East St. Louis Dressed Beef Co. The trade includes 100 refrigerator cars. Fairbank agrees to slaughter daily in the East St. Louis works at least 1,000 head of cattle. The price paid is $500,000.

ON THE WARPATH.

WASHINGTON, June 14.—The adjutant-general this morning received the following telegram from Assistant-Adjutant-General Williams at Chicago: "A telegram has been received in consequence of a telegram dated yesterday, sent from Mora station, twenty-five miles from Mille Lac reservation, to Governor Merriam, that the Chippewas there had the night before begun driving out the settlers and had killed and wounded six. I sent last night three companies of the third infantry from Fort Snelling to repress the trouble. Captain Stouch reports this morning from Mora that the report there is that one man was shot, but the circumstances are not known. The original report was probably an exaggeration of the actual facts, and the condition will be ascertained by Capt. Stouch. (Signed) Ruger, Brigadier general commanding."

THE NEW PORT.

LOS ANGELES, June 14.—J. B. Alexander, the representative of the Spreckles Bros. Commercial Co., at San Diego, said in an interview to-day that the first steamer of the Peninsular & Oriental Co., from Yokohama, was billed to arrive at San Diego on the 15th of July. The citizens of San Diego were to be informed by cablegram when the steamer would leave China, but as yet no information to that effect has been received. There is no sure thing about the enterprise being carried out. There is nothing yet to lead one to invest money in San Diego on the strength that the steamers will land Oriental freight at that place. The voyage is much shorter and the idea is a good one, but there are many things that prevent the establishment of such large enterprises, even after all the preparations for carrying out the project are made. Baring Bros. & Co., of London, are largely interested in the Peninsular & Oriental and have a large block of stock in the Atchison, Topeka & Santa Fe Co. They are working hard to carry out the scheme of receiving China freight at San Diego for this season. Freight received at San Diego, destined for the east, will be loaded on Santa Fe cars and hauled across the continent.

THE TREATY SIGNED.

WASHINGTON, June 14.—The Berlin negotiations for the Samoan treaty are at an end, and the despatches received at the state department this afternoon state the protocol was signed by all the commissioners to-day in Berlin. It is now understood that the agreement originally submitted to the state department was found to be entirely satisfactory to the president, to Secretary Blaine and the rest of the cabinet. The state department officials are not certain whether or not the treaty should be made public before the meeting of congress. As a formal treaty, pertaining to international questions, it will have to be submitted to the senate, but a simple agreement the state department has power to make public its provisions at its discretion.

THREATEN TO STRIKE.

CHICAGO, June 15.—The Union Pacific engineers are threatening to strike as a result of the quarrel with Major Baldwin.

THE WALKEM-HIGGINS CASE.

OTTAWA, June 14.—In the supreme court to-day the case of Higgins *versus* Walkem came up for judgment. It was decided that if Walkem agrees within two months to take $500 damages, reduced to that amount, then both appeals will be dismissed with costs. If he refuses, then the appeal from the judgment allowed with costs, and a new trial will be directed and an appeal from the rule refusing non-suit dismissed with costs. Chief Justice Ritchie did not agree with the other judges that the opinion of the plaintiff was only necessary to the acceptance of the $500, but held that the defendant should have been consulted as well. The damages, he thought unnecessarily severe. The supreme court should not arbitrarily assess damages. Justice Taschereau, in referring to the case, spoke strongly against the article. He said the libel was false, grossly malicious and wholly unjustifiable. The writer knew it was false, yet up to the present day he never possessed manhood enough to tender an apology. There was nothing more manly than for a man to apologize when he knew he was wrong. The defendant's conduct (Higgins) could not be defended. Justice Strong was not present, but agreed with Justices Taschereau, Gwynne and Fourinier. It should be said that the chief justice also held that the inuendo was not withdrawn properly from the jury.

PREMIER MERCIER.

MONTREAL, June 14.—Mercier and his cabinet arrive here to-morrow, to consult local politicians as to the advisability of dissolving the house in the fall.

Dr. Nicolai, of Stuttgart, has recorded a case in which a fistula opening in the breast was connected with disease of the left lower first molar. It closed in twelve days after removal of the tooth.

Children Cry for Pitcher's Castoria

MILITARY CONVENTION.

Russia and Servia will Hold a Military Convention for Purpose as yet Unknown.

The Samoan Treaty is Finally Arranged but its Contents Still Kept Secret.

Two Steamships Collide in the Mersey, are Badly Damaged and have to Dock.

A MILITARY CONVENTION.

LONDON, June 15.—A special despatch to the *Daily News* from Belgrade says: M. Persiane, minister of Russia to Servia, has proposed in the name of his government the immediate conclusion of a military convention between Russia and Servia. The Servian regents receive the proposition with favor.

THE SAMOAN TREATY.

BERLIN, June 15.—The delegates to the Samoan conference have separated with mutual feelings of the most cordial nature. The negotiations have been in the highest degree satisfactory. Secrecy of the contents of the treaty is strictly enjoined, and must not be made public until the matter comes before the senate of the U. S. for confirmation. Notwithstanding it is generally known the further provisions of the treaty are all certain to transpire in the interval. The attitude of the senate towards the treaty is the only matter now remaining which is causing any anxiety.

STEAMSHIPS COLLIDE.

LIVERPOOL, June 15.—The British steamship Kansas was in collision this morning in the Mersey, with the British steamship Sesostris. Both were badly damaged and had to be docked. No one was injured.

THE EMPRESS FREDERICK.

BERLIN, June 14.—The Empress Frederick and her daughters will visit Potsdam; on Saturday, upon the anniversary of Emperor Frederick's death.

FRENCH AND ITALIAN NAVVES QUARREL.

PARIS, June 14.—The French and Italian navues in the department of Haute Marne are quarreling among themselves. Troops have been sent out to stop the disturbances.

STOKERS STRIKE.

LONDON, June 14.—All the stokers on the Antwerp steamers struck work yesterday.

CABMEN STILL ON STRIKE.

PARIS, June 14.—The striking cabmen held a meeting to-day, at which Mr. Constance, minister of the interior, was present. The cabman could not arrive at an agreement with the authorities, and the strike will probably be a general one.

STEAMER SUNK.

LONDON, June 14.—The North German Lloyd steamer Trane, from Bremen to New York, yesterday morning sank the Russian schooner David, in the North Sea. The Trane rescued the schooner's crew and landed them to-day at Southampton.

CREATES A SENSATION.

LONDON, June 14.—The arrest of Alexander Sullivan, of Chicago, for alleged complicity in the Cronin assassination has created a profound sensation in Irish national circles.

OTTAWA NOTES.

OTTAWA, June 14.—It is unlikely that Graham's offer to the government to refer the Jesuits' estates act to the supreme court will be accepted.

This morning the works of the Canada Powder Co., Brockville, blew up with terrific force. Fortunately the men had not gone to work, and, consequently no lives were lost. A horse and several sheep were blown to atoms and several plate glass windows in town were smashed.

Four men appeared at Milford station last night with the apparent intention of taking the Canadian Pacific express for Halifax. The police suddenly appeared and ordered the strangers to throw up their hands. They refused and the police were ordered to fire upon them They did so and the fire was returned with revolvers. After firing 30 shots the burglars ran for the woods and escaped. No casualties.

The catch of mackerel on the Atlantic coast this season is large.

VICTORIA NEWS.

The Beacon Hill Menagerie. Opening of the St. Andrews and Caledonian Grounds. Coal Prospectors for the North.

Special to the COLUMBIAN.

VICTORIA, June 15.—Victoria has the nucleus of very good zoological garden at Beacon Hill park. It is being added to almost daily by the addition of various native animals. In the near future this will be one of the features of the city.

This afternoon there will be cricket and music at Beacon Hill.

The St. Andrews and Caledonian enclosed grounds will be opened this afternoon by the seventh league game of base ball between the James Bays and Maple Leafs. In future these games will probably be held within the enclosed grounds.

The str. Sardonyx leaves this afternoon for the North. Among others aboard will be a surveying party for Queen Charlotte Island. Their primary object will be locating coal lands. They will be absent three or four months.

The Swiftsure, Icarus and Amphion, the three war ships, will go to Vancouver on Dominion Day. After assisting the Vancouverites in celebrating Canada's national day, the three ships sail for a cruise in Alaskan waters. They may be absent about six weeks or two months. It is not thought now the cruise is for the purpose of protecting sealers, but merely for the purpose of keeping the men from getting rusty.

The contract to build the electric tramway in this city was let this morning to F. H. Osgood, representing the Thomson-Houston Electrical Co., of Chicago.

Dr. Child's Pile Ointment instantly relieves and permanently cures Piles, Pruritus and all hot and itching sores and eruptions. N. W. agents, D. S. Curtis & Co. dmy28yl

Mailed, 6 months	1.25

Daily British Columbian

Saturday Evening, June 15, 1889.

We may expect now to see preparations made for active prosecution of the street improvements outlined in the by-law to which the ratepayers gave their hearty assent the other day. The suggestion has been made that, as water mains and service pipes would have to be laid in all the streets to be improved or opened, it would be a good scheme to make such arrangements as that the mains, &c., should be laid simultaneously with the street work, and thus save a second breaking up of the street surface. Whether it will prove practicable or convenient to carry out, we shall not presume to say. We would, however, commend the suggestion to the consideration of the city authorities, who should inquire into the economy of the scheme and, if practicable, adopt it.

In referring in the first instance to our correspondent "Taurus'" suggestion *re* earth closets, we said, among other things: "As a temporary expedient, until our water and sewerage works are completed, it would be well, we believe, to carry out, to a certain extent, our correspondent's suggestion." Now that the water works question has been most satisfactorily settled, it is in order to consider, by itself, the propriety of adopting some comparatively cheap, easily worked, temporary method of disposing, or rendering innocuous, of a portion at least of the city's sewage. Earth closets, we believe, if universally adopted, and placed under the control of the city authorities, would meet these requirements, and as it is likely to be two years at the earliest before we shall have a completed system of sewerage for the city, it will be well for the council to consider the advisability of providing for the sanitary welfare of the city in the interim. In so far, therefore, as our correspondent's suggestions referred to a system of earth closets by itself, without any respect to the water supply, we endorse them, to the extent of recommending the civic authorities to take steps, if possible, towards adopting a cheap, easily administered system of earth closets, for the time being. A number of citizens have already adopted the system, at their own costs, and it is for the council to consider if they should not provide reasonable facilities so that every one might, without serious cost, be enabled to adopt earth closets, and then take steps to close all cesspools and prohibit their use in the future. As it must be about a year before the water works can be completed, and probably two years before we can look for sewerage proper, the necessity of adopting some temporary system to protect the public health will be generally conceded.

The city council, with its well known and commendable industry and zeal for the advancement of the public business, held a special meeting last night, and got through with considerable necessary work, a report of which will be found in another column. It will be seen that the first step has been taken to commence operations on the water works by Alderman Curtis' notice of the introduction of a by-law for the election of water commissioners. Alderman Cunningham's notice, that at the next meeting he would ask for $200 towards the cost of a B. C. exhibit at the Toronto exhibition, to take place this fall, we believe, should receive the favorable consideration of the council. Last year, as everyone knows, Westminster made a disgraceful showing at this exhibition, and it will pay to take a greater interest in the matter this year and send a good exhibit, and also see that we get credit for it. With respect to Alderman Scoullar's motion, seconded by Alderman Jaques, in the matter of an additional teacher for the high school in this city, we would earnestly second the recommendation of the resolution. The school board, at their annual meeting on Monday last, on motion of Rev. Mr. Jamieson, strongly urged the government to grant an assistant teacher for the high school, and the council are doing the correct thing in supporting the demand. It is not necessary to recount here the good and sufficient reasons which are given for this eminently reasonable request, both by the school board and the city council. The necessity for an assistant school teacher for the high school here has existed for some time, and has been pointed out before by the school board and also by this journal. In the interests of the school, we trust that the government may now see their way clear to comply with the request that has been made and grant the additional teacher required.

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found as low as at any other office in the province.—*Adv*

Children Cry for Pitcher's Castoria

The recent death of Laura Bridgman, observes an exchange, calls to mind a still more remarkable, though less noted, case of the malevolence of fortune. Nineteen years ago there died in England a man whose parents had given him for a Christian name the letter S, and whose misfortunes were so unparalleled that a short biography of him entitled "The Life of S," attracted wide attention in Great Britian and on this side of the Atlantic. S, who was the child of very poor parents, was born deaf and dumb. Being poor, no effort was made to discover if his deafness was curable, and he grew up without any instruction adapted to his misfortune. S is described as having a vigorous body, a large and noble head and handsome features full of intelligence and force; and so great was his mental quickness and manual dexterity that, while still a lad, he made a good living for himself and his widowed mother by making wicker baskets, which brought high prices owing to their artistic and original design and perfect workmanship. One day, when grown to manhood, while he was engaged in his favorite amusement of watching the machinery in some mills, he leaned too far to examine a belt and his arms were caught and amputated by a circular saw. After this misfortune the character of S seemed to undergo a change. He had always been cheerful and affectionate, as well as industrious; but now that he was reduced to idleness and dependence upon inadequate charity, he became as morose as he was miserable. One day as he wandered forth in his usual gloomy mood, he undertook to cross a railroad track as the engine was approaching. Unluckily, his foot caught on the rail and he fell, and, having no arms to lift himself quickly, the train passed over his legs, which were so horribly crushed that it became necessary to amputate them. While lying at the hospital to endure this operation a fever produced inflammation of the eyes which destroyed his sight, and the medicines salivated him so that his teeth fell out. S was now reduced to a helpless trunk, without arms or legs, without sight, hearing, speech, or the means of mastication. His countenance meanwhile seemed to show not merely physical suffering bnt furious passions; it was apparently distorted with rage as well as anguish. In this condition he attracted general attention in the neighborhood, and efforts were made to communicate with him through the sense of touch. When his countenance was calm and gentle his skin was smoothed with velvety materials, but when he fell into one of his rages he was lightly pricked or pinched. At last the tide of his misfortunes began to turn. The inflammation of his eyes subsided and he recovered his sight, charity supplied him with artificial teeth, and one day he astonished his nurses by breaking out into a furious oath. His illness had, in some way, so operated upon his ears that he had acquired hearing and his first words were the oaths he heard from the suffering wretches in his ward. More than all this, even romance was not denied to him. Among his numerous visitors was a young lady, the daughter of the rector of the parish. She read to him, instructed him, brought him pictures to amuse him. In the latter he showed an eager interest, and, having seen her draw, begged for a pencil that he might imitate her. From that time, with a crayon in his mouth, he made his living by drawing portraits so life-like as to indicate, under the circumstances artistic genius of perhaps the highest order. And the rector's daughter, pitying and admiring him unto love, offered, as his wife, to be to him a life-long nurse. But S, though she was to him as dew unto the desert, magnanimously refused the sacrifice, and died of apoplexy at the age of 40, honored by all who knew him. From such a life as that described above, those who imagine themselves hopelessly handicapped by ordinary disadvantages have something to learn.

Streets and Park Debenture By-Law.

A By-Law to raise by Loan the sum of $85,000 for Street and Park Improvements.

WHEREAS IT IS EXPEDIENT that the council of the city of New Westminster should provide for the improvement of certain streets in said city, and of Queen's Park.

AND WHEREAS it will be necessary, in order to effect said improvements, to issue debentures of the said city for a sum of money not exceeding $85,000.

AND WHEREAS for the payment of interest and creating a sinking fund for payment of said debentures it will be necessary to raise the sum of $5,950 annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city, according to the last revised assessment roll, is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the said city is $155,500, irrespective of the sum of $200,000 proposed to be borrowed under authority of the Water Works Debenture By-Law, *which by-law is to be submitted to a vote* of the electors of the city concurrently with this by-law.

AND WHEREAS, for the purpose of raising the said yearly sum of $5,950 an annual special rate of 2 2-5th mills in the dollar will be required.

THEREFORE, the Mayor and Aldermen of the city of New Westminster, in council assembled, enact as follows:

1. It shall be lawful for the mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of $85,000.

2. It shall be lawful for the said mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than $100 each, such debentures to be sealed with the seal of the corporation, signed by the mayor and countersigned by the treasurer of the said city.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect, either in sterling money of Great Britain or in currency of this province or the country where the same may respectively be made payable, which may be in any place or places authorized by law as may be agreed upon between the purchaser or purchasers thereof and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half-yearly on the first *days of January and July in each* and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 2 and 2-5th mills in the dollar shall be levied and collected, in addition to all other rates, in each year upon all the rateable property in the said city during the currency of the said debentures or any of them.

6. All moneys arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as they respectively become due, without prejudice to any of the powers conferred upon the said council by the act of incorporation.

7. The proceeds of the debentures issued and sold under authority of this by-law shall be applied to improvements on Queen's Park and the streets hereinafter mentioned, and, as nearly in the proportion following as may to the said council seem expedient, that is to say: Queen's Park, $15,000; Columbia street, $1,000; Provost, Dallas and Carnarvon streets, $4,500; Agnes street, $2,500; Royal avenue, $3,000; Queen's avenue, $3,000; Pelham street, $3,500; Montr al street, $3,000; Melbourne street, $2,500; Leopold Place, $500; Park Lane, $1,500; Clinton street, $2,000; St. Patrick street, $1,000; Clement street, $3,000; St. George street, $1,000; Mary street, $1,000; St. John street, $1,000; Douglas street, $5,000; *Hallfax street, $750; St. Andrew's* and Ellice streets, $3,000; Fortesque street, $2,700; Edinburgh street, $2,500; London street, $1,000; Blackle street, $500; Merivale street, $500; Buckwood street, $500; McKenzie street, extending and making, $7,500; streets in St. Andrew's square, $1,500; St. George's square, $500; St. Patrick's square, $1,000; *sidewalks and general* street repairs, $8,050; provided that out of the said sum of $15,000 set apart for the improvement of Queen's Park there shall be paid into the city treasury to the credit of the general account the sum of $3,000, being the amount already expended out of the general revenue for Park improvements; provided also that if the requirements of any of the streets above mentioned should be found to be less or greater than the sum apportioned to said street, the said sum may be increased or diminished as in the circumstances may seem to the council expedient, and the surplus, if any, remaining out of the appropriations above set out, after said streets have been completed, may be applied to other works of permanent improvement not specified herein, at the discretion of the council.

8. This by-law shall take effect and come into force on the 17th day of June, A.D., 1889.

9. This by law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

10. This by-law may be cited as the Street and Park Improvement Debenture By-Law, 1889.

By-law read a first time on the 6th day of May, 1889.

By-law read a second time on the 6th day of May, 1889.

NOTICE.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the BRITISH COLUMBIAN newspaper, which publication took place on the 15th day of May, 1889, and that a vote of the electors of the city will be taken on said proposed By-law at the New City Hall, Market Square, in said city on the **13th day of June, 1889,** between the hours of 9 o'clock a.m. and 5 o'clock p.m.

D. ROBSON,
City Clerk.

Water Works Debenture By-Law.

A By-Law to provide for the issue of Water Works Debentures.

WHEREAS BY THE "NEW Westminster Act, 1888," an act of the legislature of British Columbia, passed in the fifty-first year of the reign of Her Majesty, Queen Victoria, and chaptered forty-two relating to the corporation of the City of New Westminster, it is among other things provided that the council of the corporation of the said city may, subject to the provisions of the said act, pass by-laws for constructing water works, and providing for the expenditure thereof.

AND WHEREAS it is expedient that the council should provide for the construction of water works for the supplying of water to the inhabitants of the said city.

AND WHEREAS, in order to carry into effect the said proposed construction, it will be necessary to issue debentures of the said corporation for a sum of money not exceeding two hundred thousand dollars.

AND WHEREAS, for the payment of the said debentures, sinking fund and interest, it will require the sum of $14,000 to be raised annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city according to the last revised assessment roll is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the city is the sum of $155,500, irrespective of the sum of $85,000 proposed to be borrowed under authority of the Streets and Park Improvement Debenture By-law, which by-law is to be submitted to a vote of the electors of the city concurrently with this by-law.

THEREFORE, the corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the mayor to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon *the credit of the debentures* hereinafter mentioned, a sum of money not exceeding in the whole the sum of two hundred thousand dollars.

2. It shall be lawful for the mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than one hundred *dollars each, such debentures to be sealed* with the seal of the corporation, and signed by the mayor and counter-signed by the treasurer thereof.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect, either in sterling money of Great Britain, or in the currency of this province, or the country where the same may respectively be made payable, which may be in any place or places authorized by the said act as may be agreed upon between the purchaser or purchasers thereof, and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 5¾ mills in the dollar shall be levied and collected in addition to all other rates in each year upon all the rateable property in the said city during the currency of the said debentures or any *of them.*

6. All monies arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as *they respectively become due, without* prejudice to any of the powers conferred upon the said council by the said act.

7. This bylaw shall take effect on the 17th day of June in the year of Our Lord one thousand eight hundred and eighty-nine.

8. This by-law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

9. This by-law may be cited as the Water Works Debenture By-Law, 1889.

By-law read a first time on the 11th day *of March,* 1889.

By-law read a second time on the 11th day of March, 1889.

NOTICE.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the BRITISH COLUMBIAN newspaper, which publication took place on the 15th day of May, 1889, and that a vote of the electors of the city will be taken on said proposed By-law at the New City Hall, Market Square, in said city on the **13th day of June, 1889,** between the hours of 9 o'clock a.m. and 5 o'clock p.m.

D. ROBSON,
City Clerk.

Port Kells

This Fine Townsite, at the Fresh-Water Junction of the

Southern Railw'y

—WITH THE—

FRASER RIVER

12 Miles Above Westminster,

Has just been Surveyed, and the Lots are for sale by

WOODS, TURNER & GAMBLE

—AND—

ALBERT J. HILL & COMPANY

OF NEW WESTMINSTER, B. C.

The advantages and prospects of this Plot for a future thriving Town are many.

The Land in the vicinity is good.

There are inexhaustible IRON ORE DEPOSITS, of a superior quality, immediately adjacent, as well as vast strata of the finest BUILDING SAND and POTTERY CLAY.

On the Townsite are a number of valuable MINERAL SPRINGS.

Communication by land and water is unequalled, by reason of the location of the Townsite on the Fraser River and the Southern Railway, while the natural elevation and lay of the land can not be excelled as a situation for a fine town.

The ground is open and clear of heavy timber.

The site has been selected as one of the most important stations on the Southern Railway, and with the completion of the road, in the near future, must, with all its other advantages, *spring into prominence at once.*

Those who apply early will have the pick of the Lots.

A clear title given with every purchase.

Parties wishing Lots can apply as well, on the premises, to

The snagboat Samson is in port. The work of extracting the up-river snags goes merrily along from week to week, and much good is being accomplished.

At a meeting of the Hyack fire company last night a hose team was formed with Mr. Geo. Scoullar as captain. The new team will hold a practice this evening.

Baptist church to-morrow, T. Baldwin pastor. Subject in the morning, "Light shining out of darkness," and in the evening, "Demons at prayer, and its lessons."

The Reformed Episcopal church services will be held again to-morrow at the Orange Hall. Subject, *morning*, "Zion;" evening, "Lessons from the Johnstown flood and Seattle fire."

The fishermen are having a hard time at present to make both ends meet. Yesterday the total catch of 7 boats was only 19 fish. These figures are discouraging, but better things are looked for.

The City Hall will undergo another "smoking" in order to try and rid it of the tenants which refuse to leave. After the insect powder has been thoroughly applied the whole institution will be painted with carbolic acid.

The str. Rithet had a larger load than usual this morning. Besides 60 head of cattle, 20 tons of flour and a large quantity of farm produce for Victoria, she took 50 tons of machinery etc., for canneries near the mouth of the river.

The sisters of St. Ann's convent will hold their annual bazaar of fancy and useful articles on the 25th, 26th, and 27th insts., in the drill shed. Lunch and refreshments will be served on each day. The ladies of Vancouver will assist at the sale.

The sub-committee appointed by the mayor at the last general meeting of the celebration committee to collect the shortage of $800, did its work rapidly and satisfactorily, and everything is *now in good shape as far as* money is concerned.—*News.*

A strawberry festival, under the auspices of the Methodist church, will be held on Wednesday, June 19th, at the residence of John Kirkland, Esq., Ladners Landing. The festival will commence at 9 a. m. and last all day. Other refreshments will be provided. 2t*

The *licensing court, consisting of* Capt. Pittendrigh J. P., W. D. Ferris J. P., and W. Campbell J. P., of Sumas, met at Riverside this morning and granted three licenses, viz: Edward A. Morrisey, Riverside; Thomas F. York Sumas, and St. Alice Hotel, Harrison Hot Springs.

Mr. A. M. Nelson laid on our table to-day three bars of fine soap, the product of the Vancouver soap factory, of which Mr. Nelson is a member. The bars represent three of the many different varieties manufactured, common yellow, blue mottled, and electric, and are very creditable samples.

At the nomination of candidates at Nanaimo yesterday, to fill the vacancy in the local legislature caused by the death of the Honorable Robert Dunsmuir, Mr. Andrew Haslem was the only candidate proposed for nomination. Returning Officer Bray accordingly declared him duly elected.

Mr. Joseph Wintemute brought to this office to day the largest rhubarb stalk and leaf we have ever seen. The fruit was massive, but the leaf was mammoth. It measured 3 ft. 8 in. across and 3 feet 10 inches in length, and when held over Mr. Wintemute's head made a large and complete umbrella.

Children Cry for Pitcher's Castoria

Rev. J. H. White will address the young men at the Y. M. C. A. to-morrow afternoon. On Wednesday evening of next week the regularly monthly reception will be held in the rooms; the class in gymnastics under the leadership of Mr. Graham will give a sample of the progress made since June 4th; vocal and instrumental music will also be on the programme. Each member is privileged to bring one lady or gentleman friend.

Professor John Macoun, of the geological and natural history survey of *Canada, is now in Kamloops.* Writing to a friend the learned professor says: "I reached Vancouver city April 5th and have been at work ever since. We have worked up the natural history between here and the coast pretty well, having collected over 1,000 specimens of plants besides 300 skins of birds and other mammals." The great scientist will remain yet for some time in Kamloops, and all the summer in this province.

The Scott Road.

The Scott road improvements have been commenced, under the supervision of Councillor Armstrong. It appears that no corduroying is to be done, which, if correct, will be a great and serious mistake, as there are places where corduroy is absolutely necessary. It is to be hoped the work on this road will be thoroughly done, as the money will be *almost entirely* wasted unless the improvements are of a substantial nature.

Glittering Gold.

Capt. Rogers, of the str. Dunsmuir, states that on his last trip from Nanaimo he brought over four pounds of rock quartz to Vancouver, for assay by Dr. W. Bredemeyer. The specimens, which was sent by Robert Evans, of Nanaimo, and came from the "Nut Cracker" mine, Texada island, assayed the large amount of $3,195.60 of gold per ton. Samples of the rock are described as very heavy and literally covered with streaks of gold.

Beats the World.

Dr. C. E. C. Brown showed us a cherry branch to-day, 17 inches in length, on which were over 250 cherries. The cherries are of the Governor Gibson variety and much larger in size than the English Oxhearts. The branch looked more like a massive cluster of grapes than anything else, so thickly was the fruit attached to it. The cluster was photographed by Mr. S. J. Thompson. The world cannot beat this yield, for the simple reason that the branch was so thickly covered *that there was no room left for more* fruit.

Special Prizes.

Mr. M. Steves, of Lulu Island, has donated four valuable special prizes to be added to the provincial exhibition catalogue. Following are the conditions and the prizes: For the four best *colts sired by "Suffolk Prince,"* 1485, vol. 2, S. S. B; first prize, a thoroughbred Holstein Fresian bull calf; second, $13; third, $10; fourth, $5. This is liberal encouragement to a worthy object. Let others supplement the special list of prizes, and thus add to the success and interest of the exhibition. All intending to do so should make known their intentions at once.

Junior Base Ball Match.

The base ball match yesterday on the cricket grounds, between the Vancouver and Westminster junior nines, attracted all the youth, if not the beauty, of the city. The game resulted in a walk over for the Westminster youths, who defeated their Vancouver friends by 27 to 17, and that with a couple of their best players absent. The Westminster boys outfielded, outbatted and outran their opponents, and generally covered themselves with dust and glory. Mr. Sam Woods acted the thankless office of umpire to the satisfaction of both teams. A return match will be played at an early date.

Seized By Sheriff.

Last evening Mr. Sheriff Armstrong took possession of the premises and stock of Messrs. Van Volkenburg Bros., of this city and Vancouver, on a writ of execution, taken at the instance of Messrs. Spinks & Munger, of Kamloops, for $2,000. Messrs. Van Volkenburg Bros. have been many years *in business, and have done a very ex*tensive trade both on the island and mainland, and the financial troubles which have overtaken them are a genuine surprise to the majority of the people. It is hoped that the firm may come safely out of its troubles, and *once more hold the leading place in* the cattle trade for which it has so long been noted.

Boat Club meeting.

The boat club meeting last night was not very largely attended but the business on hand was disposed of all the same. The committee on membership reported having 35 signatures on the list. A committee on ways and means was appointed to report on the cost of *a club house, rent of water lot, etc.* After disposing of a number of minor matters the meeting adjourned till Tuesday night. If our young men are anxious to have the club formed it would be well for them to display a little more interest in the organization work. *So far they have been very in*different in the matter. Unless the meeting on Tuesday night is properly supported the idea of forming the club will be abandoned.

Election of School Trustees.

By the advertisement that has been in for some days, it will be seen that *the annual election for school trustees* will be held on Monday next, commencing at 11 a. m. The polling *places* and returning officers for each ward will be found by reference to the advertisement. The following trustees retain office for another year: Wm. Johnston, St. George's ward, and W. B. Townsend, St. Patrick's ward. The trustees retiring, but eligible for *re-election are:* M. Sinclair, St. Andrew's ward; J McKenzie, St. George's ward: and J. A. Calbick, St. Patrick's ward. These, are willing, it is understood, to continue their services, and as it would be difficult to find better men for the positions, it would save *unnecessary trouble if they* were to be returned by acclamation. In St. George's ward a trustee will have to be selected in place of Wm. Ross, resigned.

The Very Latest.

A new phase of the Behring sea question has been introduced by Captain Solomon Jacobs, the hardy mariner who reported that he suffered from the Canadian fishery regulations a couple of years ago. The captain is now seal fishing on the Pacific, and naturally desires the freedom of Behring Sea in which to prosecute his calling. He alleges that there are 30,000,000 seals in the North Pacific, each eating ten pounds of fish daily; or, for the entire seal population, *100,500,*000,000 pounds per annum. In the interests of the fish the seals should be slaughtered. So the captain argues Behring Sea ought to be thrown open to all. It is to be feared, however, that Solomon's wisdom will operate *favorably to the mare clausum theory* rather than otherwise, for if the seals were not to consume all these fish, the ocean would soon become so thickly populated that navigation would be impeded.—*Mail.*

From the North.

The Sardonyx arrived from Skeena and way ports at 5:30 Wednesday evening. The weather was exceptionally fine throughout. The steamers Maud and Boscowitz were both passed bound north. The catch of spring salmon up to the time of the steamer's departure from Skeena was light, and in consequence the canneries were not very busy. A survey party, which has been operating around Fort Rupert, came down. Everything was quiet and *orderly at the various ports, and no* news of a startling nature is reported. A passenger by the steamer Sardonyx from Naas river states that D. F. Fee is engaged with a number of workmen in the construction of a large cannery and wharves at Naas harbor. The *completion of the work will occupy* about three months time. At A. J. McLellan's cannery 250 cases of spring salmon have been packed. The run of spring salmon is light. On the Naas river the sockeye run commenced last Saturday. The canneries are prepared for a large run during the summer months.—*Times.*

Fine Assays.

We learn from Dr. W. Bredemeyer that four pounds of rock sent by Robt. *Evans of Nanaimo,* as coming from the "Nut Cracker" mine, Texada Island, assay no less than $3,195.50 in gold per ton. A *World* reporter was shown several samples of this rock, which he found to be very heavy and literally covered with streaks of gold.

Another lot of samples from Siwash Creek, Yale, assays $30 in gold per ton. The samples forwarded are good sized, weighing several pounds, so that the assay formed gives an excellent idea of the richness of the vein. The samples contain, at the same time, considerable platinum.

Samples of about twenty pounds weight sent from Scotch Creek, near Kamloops, assay from $144 to $157 in gold per ton. So it seems that all the gold strikes made of late hold out wonderfully and the general average of *the richness of the discoveries* is certainly kept up.

Beautifully clear mica samples from Hope have also been forwarded to Dr. Bredemeyer, The peculiarity of this ledge is that the mica runs together in the same vein with white quartz, which *contains $7.50 in gold per ton.* These assays were all made within four hours after the samples were received in the doctor's office.—*World.*

Kootenay Lake Mines.

Both camps in this district are very lively. A considerable number of mining men from the American side are *investing in the mines.* A syndicate from Spokane Falls paid $35,000 cash last week for Nails' gold vein on Eagle Creek, and will erect a ten-stamp mill upon it as soon as possible. Stanley has the machinery for his double Huntington mill upon the Golden King *ground, and expects during the pre*sent month to be crushing ore. A new strike of rich carbonates has been discovered near the No. 1 mine, which bids fair to exceed that mine now in value. It is reported that Jim Wardner, the former owner of the Bunker *Hill and Sullivan, in the Cœur d'Alene* district, has made a high offer for it. The No. 1 mine shipped 400 sacks of ore to the Helena Smelting Works last week. Davenport has about 1,000 sacks on the Little Donald dump ready for shipment, The Hall Bros. are said to have sixty tons of very high grade silver and copper ore ready to sack. Within a month probably 100 tons a week will be sent out from the two camps. About all the supplies for the Lake are brought from Spokane Falls, as packers ask four cents a pound for packing thirty miles over Sproat's trail. The towns of Nelson and Ainsworth will be built quite rapidly as soon as Buchanan's mill can furnish lumber. There are now probably 300 men in both camps, and this number is increasing weekly.—*Truth.*

City Council.

A special meeting of the council was held last night. Present—Aldermen Curtis, Scoullar, Calbick, Jaques, *McPhaden, Ewen, Cunningham* and Townsend.

His worship Mayor Hendry in the chair.

COMMUNICATIONS

Mr. C. McDonough applied for and obtained permission to lay building ma*terial on Agnes street.*

A letter was read from the mayor of Vancouver relating to the B. C. exhibit at the Toronto exhibition.

Also a letter from the surveyor-general, intimating that a crown grant would be issued to the city for subur*ban lot, 17 block 7. The lot was ap*plied for by the trustees for school purposes.

A communication was received from the provincial secretary, *re.* court house.

REPORTS.

The health committee reported having examined the nuisance complained of on Agnes street and that immediate action would be taken to remedy the evil.

The police committee recommended the payment of $50 to D. Whiteside *for care of court room; also recom*mended that police court in future be held in the city hall.

The by-law to amend the liquor license by-law, lately passed, so as to bring it into operation on Dec. 1st next, was introduced by Ald. Jaques. The by law was read a first and second time.

The streets and sidewalks by-law was discussed in committee until 11.30, when the committee rose, reported progress, and asked leave to sit again.

On motion, Mr. Geo. Turner and Mr. W. Wolfenden were appointed members of the licensing board.

Moved by Ald. Scoullar, seconded by Ald. Jaques, that this council is of the opinion that the number of pupils in attendance at the high school, and the number of subjects required to be taught, are such that it is impossible for one teacher to do justice to the school. And inasmuch as the government requires this city to contribute one third of the cost of the maintenance of the schools at present, which *contribution is supposed to be equi*valent to the cost of the high school, this council is of the opinion that the government ought to provide for a second teacher for the high school, who will enter on his duties after the summer vacation.

Ald. Cunningham gave notice that at the next meeting he would ask for $200 towards the cost of a B. C. exhibit at the Toronto exhibition.

Ald. Curtis gave notice that he would introduce a by-law for the election of water commissioners.

The council then adjourned.

PERSONAL.

J. Theo. Davie, of Victoria, is at the Colonial.

W. D. Ferris has returned to the *city from Matsqui.*

Capt. Pittendrigh returned from Matsqui this afternoon.

A. G. Gamble left for Kootenay this afternoon and will be absent about a month.

Miss May Grant went up to Wharnock this morning by the str. Irving and will spend a few days visiting with friends in that locality.

SYRUP OF FIGS,

Produced from the laxative and nutri*tious juice of California figs, combined* with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria

B. C. Provincial Exposition Subscription Fund.

For the purpose of raising a fund to contribute towards the patriotic and worthy object of making the next annual provincial fair, to be held in this city, a grand and unprecedented success, the undersigned agree to contribute the sums opposite their respective names (to be paid into the association or to trustees competent to receive the same, on or before 6 months from the date of the last provincial exhibition, and to be applied to preparing exhibition grounds and buildings in the city, for increasing the amount offered in prizes, and for furthering the exhibition in other ways):

Election of School Trustees

THE ANNUAL ELECTION OF A Trustee for each of the three School Wards of New Westminster City School *District will be held on MONDAY the* 17th day of June, 1889, commencing at 11 a. m., at the undermentioned places, viz.:

FOR ST. PATRICK'S WARD:
Ince Cottage (Mrs. Haynes), cor. Dufferin and Columbia Sts.—Returning Officer, Capt. G. Pittendrigh;

FOR ST. GEORGE'S WARD:
New City Hall, Market Square—Returning Officer, Capt. A. Peele;

FOR ST. ANDREW'S WARD:
Room near Royal City Mills, Richard St.—Returning Officer, Hugh Burr.

In case a poll is demanded, voting will commence at 10 a. m. of the next day and close at 4 p. m., at the above named places.

☞ There will also be held at the same time and place in St. Andrew's Ward, a special election of a Trustee to serve the unexpired term of one year, vice William Ross, resigned.

Extract from "Public School Act."

"30. Any person registered as a voter, as hereinafter provided, shall be eligible to vote at any school meeting held in such district, and in the ward in which he is registered, for the election of Trustees; provided, always, that it shall not be lawful for any person to vote for Trustees in more than one ward in any City School District."

By order of Board of Trustees,

JOHN McKENZIE,
Secretary.
