NOTES AND COMMENTS.

"You know that soda water man, I see, Alfred." No, my dear, I never saw him before." Well, you were very familiar for a stranger, it seems to me. I saw you wink at him."

The boarding-house. — Boarding Mistress—"Well, Bridget, have all the boarders gone?" Bridget—"Yes, ma'am." B. M.—"Well, then *let you and I have something decent* to eat."

"I don't say marriage is a failure," said Adam candidly, as he sat down on a log just outside the Garden of Eden and looked hungrily at the fruit on the other side of the wall, "but if I had remained single this wouldn't have happened."

Since Eve took such a prominent part in the forbidden fruit act, woman has been blamed for nearly everything. Woman, says an exchange, is really at the bottom of the latest trouble between the United States and Great Britain. The chief subject of dispute in the Behring Sea affair is the raw material for the seal skin sacque.

A Presbyterian church in Pittsburg has just secured a soprano from Chicago by offering her $2,000 a year, which is $500 a year more than she has been receiving. It is said that a few old fogies in the church wanted to dispense with a soprano and give the $2,000 a year to the poor and needy, but the idea was not entertained for a moment.

An English clergyman, it is said, who was recently telling the story of the Good Samaritan, got two incidents in the Bible mixed, with a decidedly ludicrous result. After reciting the good Samaritan's promise to the landlord of the inn, "And when I come again I will repay thee," he added, "This he said, knowing that he should see his face no more."

Anticosti is once more for sale, but tenders must be in before the twenty-ninth of the present month. The island, which is private property, comprises about two million and a half acres. It is a good place for *sport, but settlers do not appear to* prosper upon it. The Canadians who went there some years ago returned sadder and wiser adventurers.—*Mail.*

Coningsby Disraeli, a nephew of the former English Premier, has *made his debut in British politics* with much the same audacity of method which marked the earlier efforts of his uncle to gain notoriety. He is only twenty one years old, but did not hesitate to roundly abuse Mr. Parnell and other prominent Irish legislators in his maiden *speech at Bath.—Ex.*

Hotel call-boy — "Madam, you must hurry if you would save your life. The hotel is all on fire. This is the third time I have warned you." Lady guest—"Well, tell the firemen to keep the flames under control until I take out my curl papers and friz my hair. I just know there's a great crowd of men down there and some of them are newspaper reporters."

At the closing session of the Mormon conference George Q. *Cannon read the statistics of the* church which are: Twelve apostles, 70 patriarchs, 3,719 high-priests, 11,805 elders, 2,069 priests, 2,292 teachers, 11,610 deacons, 81,899 families, 115,915 officers and members, and 49,302 children under eight years of age, a total Mormon *population of 153,911. The number* of marriages for the six months ending April 6, 1888, was 530; births 3,754; new members 488; excommunications, 113.

A rather surprising incident took place at the general assembly of the church of Scotland the other day. A committee submitted the proof of a volume of prayers for family worship. In a warm speech Principal Cunningham moved that the book be referred back to committee, so that the Apostles' Creed might be omitted from it. A debate of a more or less exciting kind followed, and finally Dr. Cunningham's motion was rejected, only himself and one other member recording their votes for it. The occurrence created surprise, as the general supposition was that the creed referred to was an expression of the common beliefs of most Christians. Dr. Cunningham said he did not believe in the clause which said that Christ descended into hell.

The following from an exchange is said to be the origin and history of the "Union Jack." "The Union Jack bears on a blue ground the red cross of St. George for England, the white diagonal cross of St. Andrew for Scotland, and the red diagonal cross of St. Patrick for Ireland. The original Union Jack was adopted in 1606, three years after James VI. of Scotland became King *of England, and consisted of the* crosses of St. George and St. Andrew. The name Jack is said to be a corruption of the world Jacobus, Jaques, or James. The flag was adopted 101 years before the two kingdoms were united. During that time they were separate king*doms, with as it happened,* one ruler. In 1801, when Ireland was taken into the union, the cross of St. Patrick was added.

THE OLD STORY.

A Suburb of Montreal is Almost *Wiped Out by Fire. No* Water Supply.

Latest Returns of Victims of the Johnstown Flood Fixes the *Number at 3,000.*

Important Arrests Made To-day in Connection with the Cronin Murder Case.

GREAT FIRE RAGING.

MONTREAL, June 17.—Fifteen acres of flames are raging at Mile End, a suburb of Montreal. There is no water near the scene. The inhabitants of the village and workmen are at the place on fire, and the firemen of this city are giving up the hopeless task of checking the flames by ordinary means. They have been provided with shovels and picks and have thrown up earth works across the path of the fire. The fire started in the Bushnell Iron Works, controlled by the Standard Oil Company. The works have a fire department of their own. They attempted to cope with the flames without calling the assistance of the Montreal department, but before anybody realized the extent of the blaze it had extended to one of the receivers of the company, which blew up and spread the blazing oil in all directions for a radius of 200 yards.

THE MILE END FIRE.

MONTREAL, June 17.—Last nights fire at Mile End destroyed the Bushnell Oil Refinery, ten freight cars and other property. The loss is over a quarter of a million dollars.

STRICT ORDERS.

OTTAWA, June 17.—*The Dominion* government has instructed the commanders of government cruisers not to *overlook any infraction of the fishery* regulations, but to seize any vessel guilty of violating the law when the evidence will *warrant such a step.*

ARRESTED IN WINNIPEG.

WINNIPEG, June 17.—Last night the chief of police arrested Martin Burk, *alias* Delaney, wanted for complicity in the Cronin murder.

BURK'S ARREST IS IMPORTANT.

CHICAGO, June 17.—Chief Hubbard says of Burk's arrest, "It is very important and will be followed by another in this city."

THE NEW YORKERS RELEASED.

NEW YORK, June 17.—The Chicago men sent here to identify Mar ney and and McDonald through their photographs, as the men concerned in renting the Carlson cottage where Cronin was murdered, visited the tombs this morning. They failed to recognize either of the men. Later Judge Andrews, *in the superior court,* rendered his decision, discharging the two men from custody on the ground that the *evidence was not sufficient to connect* either of them with the Cronin murder.

MORE SMUGGLING.

NEW YORK, June 17.—James Boyd, a porter on steamer Colon, of the Pacific Mail Line, which arrived from Aspinwall on Saturday, was arrested and held to-day on the charge of smuggling $500 worth of opium. Ten packages were found on his person, and ten more in his bunk.

THE PACIFIC NAVAL STATION.

WASHINGTON, June 17.—One of the members of the board appointed to select a site for the navy yard on the northwest coast said last night that the board favored the selection of Port Orchard in W. T. The report will not be ready for presentation to Secretary Tracy, however, for over a month.

MORE BODIES FOUND.

JOHNSTOWN, Pa., June 17.—Six bodies were found this morning but could not be identified. A lot of drift near the bridge was burned away this morning. Col. Rogers, chief of the bureau of information, to whom was referred the work of identifying the dead, has completed and submitted his report to General Hastings. He says on the face of the returns 4,125 persons appear to have been lost, but making due allowance for the proneness to exaggeration in estimating the crowds and the population, he believes the total number of lost will not exceed 3,000. The work of rebuilding is being pushed rapidly.

JOHNSTOWN REPEATED.

KANSAS CITY, Mo., June 17.—A terrible calamity has fallen upon Uniontown and Belletown, in Kansas, *and the country around them. A vio*lent wind and rain storm passed over that section and an unprecedented fall *of rain caused a dam above Uniontown* to break, and the whole village was swept away. Two women and four children are known to have been drowned, and it is feared the loss of life is heavier.

A TERRIBLE STORM.

MARTINSBURG, Va., June 17.—There was a heavy storm in the southern part of Berkeley county last evening, accompanied by a terrific gale of wind, causing great damage. The wind storm was followed by a terrible thunder storm, and this was succeeded by a destructive hail storm. The hail*stones in some places were three to* four inches deep. The crops and trees were ruined. The live stock was *badly bruised and in some instances* killed. Houses and barns were wrecked by the wind. No loss of life is re*ported.*

THE CRONIN INQUIRY.

CHICAGO, June 17.—The grand jury resumed proceedings in the Cronin case this morning. The first witness examined was James P. Quinn, a hat dealer, who witnessed the fight between Detective Coughlan and P. O Sullivan and a man named Roach, *and who also overheard Coughlan say* that a prominent Catholic would soon not hold his head so high.

Richmond Council.

Council met on Saturday, June 1st; all the members present.

A communication was read from Mayor Grant, of Victoria, inviting the reeve and councillors to be present in Victoria on the occasion of the celebration of the Queen's birthday, which was received, and on motion the clerk was instructed to acknowledge receipt of same with thanks.

REPORTS: Coun. Stewart reported having let a contract to Ah Len on road 13, Sea Island, 65 rods of 10ft ditch, and roadway, at $2 per rod, and 60 rods of 8ft. ditch and roadway at $1.12½ per rod. Coun. Reid reported Ham Lee's contract on road No. 4, completed, 124 rods at $1.25, 15 rods at $1.75; also 80 chains at $5.00, extras, $2.00; total, $583 25; and recommended payment of balance due $128,-25. On motion the reports were adopted.

Moved by Coun. Reid, seconded by Coun. Blair, whereas several mistakes have been made in assessment notices, be it therefore resolved that the clerk be and is hereby instructed to send out corrected notices to parties concerned, with instructions that an adjourned meeting of the court of revision, for hearing complaints (if any) on these assessments, will be held on the 6th of July next.

The highway by-law was taken up for re-consideration, and, on motion, all the roads indicated in the by-law after section 3 were struck out, and the by-law was laid over till next meeting.

The following bills were ordered paid: W. J. Scratchley, $61.70; H. T. Read & Co., $5; Ham Lee, $128.25.

The council adjourned for one week.

On June 8th the council met, all present except Councillor Reid.

Court of revision met at 12 o'clock, pursuant to appointment. The clerk reported no appeals on hand other *than the complaint of Alex. Ewen,* received and filed on May 11th, which was, on motion, taken off the file and *considered.*

On motion, the clerk was instructed to strike off the wild land from the assessment of Mr. *Ewen, on sections* 8, 9, 17 and 20, B. 4 W., R. 4 W. Lulu Island.

Court adjourned till the 6th day of July, at 12 o'clock noon.

Council resumed, and Coun. Stewart reported Wm. Gray's *contract on road* 13, Sea Island, completed; also Eli Lander's on same road, recommended *payment of balance due; report* adopted.

The highway by-law was reconsidered and the following added to the same: "Clause 4—Beginning at the Gulf of Georgia on section 4, B. 5 W., R. 7 W., at the point now known as Terra Nova, and running along and inside the dyke and ditch on the bank of the North Arm of the Fraser, until it intersects road No. 2, with a width of 33 feet." By-law laid over till next meeting for further reconsideration.

A committee, composed of the reeve and councillors Garratt and Stewart, was appointed to examine the conveyances of right of way for the road from Terra Nova to the bridge, and to have the same completed to report at next meeting.

The clerk was instructed to publish the "Loan By-Law, 1888" and the "Assessment" and "Municipal officers and salary" by-laws, 1889, in the B. C. *Gazette* and COLUMBIAN.

Coun. Blair gave notice that at the next meeting he will introduce an amendment to the "Trades License by-law 1886."

On motion the tenders for the purchase of the $15,000 in debentures were opened and read as follows: For each $100 of debentures, payable in 25 years: I. B. Fisher, Bank of B. C. New Westminster, $99 25; T. R. Pearson, $100.50; Geo. D. Brymner, Bank of Montreal, New Westminster, $102. The tender of Mr. Brymner was accepted, on motion of Coun. Daniels, seconded by Coun. Blair. The following bills were ordered paid: E. Lander, $253.50; Ah Len, $75; Wm. Gray, $73; T. J. Ridehalgh, $6.75; BRITISH COLUMBIAN $24 85.

The council adjourned, to meet on Monday the 17th inst. at 3:30 p.m.

FROM VICTORIA.

Van Horne and Party at the Capital.—Rev. Mr. Starr Attacks Local Vices.—A Victoria Printer Allows a Train to Run Him Down and Sustains Little Damage.

Special to the Columbian.

VICTORIA, June 17.—W. C. Van Horne, president of the C.P R., and party, arrived last night and put up at the Driard house. They remain here to-day and return to-morrow to Vancouver. They were called on last night by Mayor Grant and many other prominent citizens.

J. C. McLagan, editor of the Vancouver *World*, was in the city last night and left for Portland this morning.

The sealing schooner Sierra arrived this morning with a small catch.

Rev. Mr. Starr last night preached a local sermon, hitting the vices of the city straight from the shoulder.

Joe Howard, a pugilist, was arrested last night for robbery.

Mrs. Sommers, of Cedar hill, died yesterday from cancer.

A printer named Bland was knocked down by an Island Railway train. He is pretty badly hurt, but will likely recover.

A boxing and wrestling match between the Jap and Faulkner takes place to-night at Philharmonic Hall.

Pendola's Brewery Burned.

Special to the Columbian.

SAVONAS, June 17.—*Pendola's* brewery was totally destroyed by fire this afternoon; loss $10,000, partially insured. The fire is supposed to have started in the engine room.

He is Sanguine.

Percy Dickinson, connected with the Bellingham Bay and Westminster R. R., came in on to-day's train and is staying over at Hotel Vancouver until to-morrow. Mr. Dickinson stated to a *World* reporter this afternoon that everything on the railroad he is interested in is moving satisfactorily, and rails will probable be laid and trains running sometime in September. When asked as to extending the railroad system from Westminster to Vancouver, he said laughingly, "One at a time." He added that Senator Canfield has been indisposed, but is better. The Seattle fire has to a certain extent, had its influence on their plans.—*World of Saturday.*

The Anglican synod closed its session Saturday at Toronto. A resolution condemning the Jesuits Estate Act passed without discussion.

Children Cry for Pitcher's Castoria

AFRICAN LECTURES.

Stanley will Return from Africa *this Fall and go on Lecturing Tour.*

The Yacht Valkyrie Wins Another Race, Beating Her Old Opponents.

The Canadian Fast Atlantic Service Arranged. Twenty Knot Strs. will be Built.

STANLEY WILL LECTURE.

LONDON, June 17.—Stanley's agent is here arranging for a lecture tour for him for October. His return here be*fore autumn is regarded as a certainty.*

VALKYRIE WINS EASILY.

LONDON, June 17.—In the Cork Yacht club regatta to-day Dunravens yacht Valkyrie won easily, Yarana second, Deerhound third.

THE FAST SERVICE.

OTTAWA, June 15.—It is learned on good authority that arrangements for a fast mail steamship line on the Atlantic have been pratically closed between the Andersons and the government. Anderson says that the new boats will be twenty knot boats, although not making 20 knots per hour in all places and all kinds of weather.

NEW BATTALION.

OTTAWA, June 15.—The formation of a battalion in London, Ont., to replace the 7th fusileers, lately disband*ed, has been authorized.*

Passenger List.

Following passengers arrived by the steamer Rithet this morning: Mr. and Mrs. Lombard, Miss Ferstenen, Miss Dean, Mr. and Mrs. Strang, *Thos. Rogan,* T Adams, J. Bramah, P. Murry, J. Guichon, J. McLeod, H. Selous, Jas. Day, Gus Holt, C. E. *Herd, A. G. Fowler, Redhehalght,* J, S. Oliver, G. Sherman, T. R. Truell, G. Perrin, H. L. Spraker, J. E. Cow*an, R. Mc Crumon, Ed.* Bowers, Jno. Lambert, H. Drummond, M. Young, J. Whiteside, J. S. McDonald, T. *Sherman,* C. Clausen, Capt. *Fecola,* J. Southerby, J. C. Calhoun, H. Boer, S. Beunelle, Peterson, Brown, I. *Broadhurst,* C L. Shaw, T. W. Wenis, D. Wise, W. R. Orr, Jas. Tight, John Muse The Rithet also brought 185 tons of freight.

Silver Specimens.

The fine collection of minerals to be seen at Mr. John Kurtz's, was yesterday augmented by a more than usually valuable addition, brought down by Mr. G. B. Wright, who arrived from Kootenay Lake on Thursday night. The specimens, which yesterday were viewed by many visitors, were of about 200 pounds weight, and contained both native and wire silver in great abundance, and plainly visible. The wire silver is like a spider web, plastered all over the face of the rock in bunches big and little. It came from the Kootenay No. 1 Claim, Hot Springs camp, Kootenay Lake, and will go from 500 oz. to the ton upwards. The black sulphurets will go 1700 oz. to the ton. The company at Kootenay Lake is now shipping quantities of ore to Helena, Mont., to be worked. All who wish to see the specimens brought by Mr. Wright can have their wish gratified by calling at Kurtz's well-known cigar store.—*Colonist.*

Hair-Raising Adventures.

The mysterious disappearance of Mr. David Little, of Alberni, which was chronicled in the *Free Press* some time ago has at last been explained. It appears that the night before the finding of his horse he had slept out of doors and got thoroughly drenched with the heavy rain. Next morning his horse being badly foundered he left for Englishman's river. Next night the rain still continued, and as his cabin leaked badly he started for a neighbor's, but took the new road which is being built and which led him into a swamp; becoming bewildered he wandered around for four days, when he struck Taylor's ranch and obtained food. He left there and again became bewildered, and fortunately was discovered by Mr. H. C. Edwards, about five miles beyond Alberni settlement, and on the opposite side of the river. Mr. Edwards, seeing the exhausted and nervous condition in which Mr. Little was, brought him to the city and placed him in the Nanaimo hospital. Mr. Little tells some hair-raising experiences while lost in the bush. Every night he heard panthers in close vicinity and one night he slept under a fallen tree while his panthership occupied the upper side not fifteen feet away. The escape of Mr. Little from a horrible death is miraculous, and the effects of the dangers and hardships which he underwent during those four days are still visible on his countenance.—*Free Press.*

LATE CANADIAN NEWS.

Reports from Lachine, Que., say that there was hail there Friday night. It was the heaviest ever seen, the hailstones being at least half an inch in diameter, accompanied by a strong wind.

A *Gagetown, New Brunswick,* special says: It seems that a woman named Mary Jane Godfrey had been *living with a sister, whose name is* Fanny, and two illegitimate children in a hut in a desolate locality about *eight miles from the shiretown.* The whole family appear to be half witted. On May 22nd the body of Mary Jane was found dead in the hut with evidence of having been killed, while her sister Fanny and the children were going about as usual. The jury brought in a verdict to the effect that the deceased came to her death at the hands of her sister Fanny while laboring under a temporary fit of insanity. The coroner issued a warrant for the arrest of Fanny Godfrey, who was soon afterwards imprisoned in the gaol at Gagetown. She will probably be taken to the lunatic asylum. It is not known how long the body of the deceased had lain in the place before it was discovered, but decomposition had made considerable progress.

Daily British Columbian

Monday Evening, June 17, 1889.

The latest rumor in steel rail circles, says the *Railway Review* of a late date, is that steel rails will be down to $25 before midsummer. The strongest basis for that rumor, says the *Review*, is that two western Pennsylvania mills are competing for trade, and that one is determined that the other shall not have business at $26. The article continues: The latest steel rail improvements have been adopted by steel rail manufacturers to reduce the cost of production to the lowest point ever known, and as there is not enough business to go round, those who can discount quotations from one to two dollars per ton below others will secure the first rush of business. Nothing has as yet been settled with reference to the talk of shutting down for the summer. Heavy iron ore contracts are being placed every day. Pig iron production has not been curtailed in any section of the country. Railroad companies have quietly undertaken to modify freight rates to purchasers from furnaces. Bar mills throughout the country are working but little over 60 per cent of their capacity, plate mills 70 per cent. Pipe mills are booking a good many orders. The coal trade is extremely dull, but there are signs of improvement. Coke makers find it difficult to maintain prices under the heavy output. There is a strong confidence that in two or three weeks more a general improvement will set in. Foreign iron and steel makers are quite active. Marine engine building and ship building are brisk, and companies doing such business are quite full of work, and a better condition exists than has been known for several years. Railroad building is not being pushed with the accustomed energy, but railroad promoters assert that, as as soon as conditions warrant it, renewed zeal will be manifested in not only the newer sections of the country, but in the older, in which there is at present a superabundance of railway facilities.

Appalling as the Johnstown catastrophe is, it is not, as an exchange remarks, without its parallels in the history of the Christian era, nor is it by any means among the worst the world has known. It is but little more than a year and a half since the rising of the Yellow River in China caused the inundation of 10,000 square miles of territory, rendered 3,000,000 persons homeless, and brought death to from 500,000 to 750,000 persons. In 1833 another inundation in China swept away 10,000 houses in Canton, and about 100,000 inhabitants of that city were drowned, while equally heavy losses were reported from other parts of China. In 1813 a great storm caused the Danube to overflow, sweeping away a Turkish corps of 2,000 men on an island near Widin. The same storm caused the loss of 6,000 lives in Silesia and of 4,000 in Poland. In 1,617 Catalonia, in Spain, was visited by floods in which about 50,000 were drowned. Numerous other great floods caused by rains are recorded in modern history, the loss of life in many cases being estimated by the thousand. The sea has also been the cause of some terrible inundations. Away back in the year 363 Cheshire, in England, was invaded by the waves and 3,000 people perished. In 1421 the dikes at Dort, or Dordrecht, gave way and 72 towns and cities were submerged, the loss of life being estimated at 100,000. In 1530 a similar disaster in Holland is said to have caused the drowning of 400,000 people. In 1883 the great waves caused by the terrific explosion of Krakatoa swept the shores of Sunda Strait and carried death to over 40,000. Among reservoir disasters may be mentioned the bursting of the reservoir at Bradford, England, in 1864, when over 250 persons were drowned; and the Mill River disaster near Northampton, Mass., in 1874, when several villages were swept away and 150 lives were lost. In the latter year also great floods at Pittsburg and Alleghany City caused 220 deaths. The Johnstown catastrophe, however, is the most appalling one of its kind, or of any other kind, that America has ever known, and, happening in a centre of civilization, as it did, and in this age of the world, when all parts of the earth are drawn near together by the bonds of electricity and steam, appeals more powerfully to the notice and sympathies of mankind than any similar historical event that might be mentioned, or any one of modern times taking place in comparatively unknown lands.

A weak heart, says a medical journal, seems to be decidedly more practically inconvenient than a weak head. If a man or a woman be a little feeble about the region of the brain, it is generally of little moment. Some post or other will be provided if the conduct be respectable; and lack of brains is too common to excite any particular attention either in the person concerned or in those about him. But a weak heart insists in putting itself in evidence at all sorts of convenient and inconvenient times. If its possessor finds himself rather late for his morning train, and makes a "spurt" to recover lost time, the exertion is generally followed by such a "bad quarter of an hour" that he resolves in future rather to lose a dozen trains than to risk temporary suffocation or permanent syncope again. The practical evils which are associated with a feeble heart are innumerable, and will readily suggest themselves to those who possess so unsatisfactory a pumping engine. Weak hearts are by no means so common as is often supposed, thinks an authority, and adds: Many a man who thinks he has got one is merely dyspeptic; many a woman owes her symptoms to tight lacing or insufficient feeding. If the dyspepsia be cured, or the tight lacing be dispensed with, the symptoms of heart weakness will disappear. Even when the heart is genuinely "weak," the weakness is not always due to special disease of that organ. It may be only part of a general weakness of the whole system, which is easily curable. The late Sir Robert Christison, one of the most eminent of British physicians, used to smile at certain persons who were always complaining of weak hearts. "Gentlemen," he would say to his students when lecturing on digitalis, "gentlemen, the best tonic for a weak heart is a good brisk walk." Not a doubt of it. The majority of weak, flabby hearts are weak and flabby because every other muscle in the body is weak and flabby, and this general weakness and flabbiness is due to want of vigorous use. Exercise of the legs and back and arms gives additional and much needed exercise to the heart, and the heart grows strong by vigorous exercise exactly as every other muscular organ does, for the heart is a muscle. If a man has no organic disease of the heart, no enlargement, and no functional disorder, plenty of brisk walking, with occasional running, will soon dispel his breathlessness and heart weakness, other things being equal. The muscular inactivity of the modern town man is the parent of more ill health than any other single cause whatever.

Streets and Park Debenture By-Law.

A By-Law to raise by Loan the sum of $85,000 for Street and Park Improvements.

WHEREAS IT IS EXPEDIENT that the council of the city of New Westminster should provide for the improvement of certain streets in said city, and of Queen's Park.

AND WHEREAS it will be necessary, in order to effect said improvements, to issue debentures of the said city for a sum of money not exceeding $85,000.

AND WHEREAS for the payment of interest and creating a sinking fund for payment of said debentures it will be necessary to raise the sum of $5,950 annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city, according to the last revised assessment roll, is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the said city is $155,500, irrespective of the sum of $200,000 proposed to be borrowed under authority of the Water Works Debenture By-Law, which by-law is to be submitted to a vote of the electors of the city concurrently with this by-law.

AND WHEREAS, for the purpose of raising the said yearly sum of $5,950 an annual special rate of 2 2-5th mills in the dollar will be required.

THEREFORE, the Mayor and Aldermen of the city of New Westminster, in council assembled, enact as follows:

1. It shall be lawful for the mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of two hundred thousand dollars.

2. It shall be lawful for the said mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than $100 each, such debentures to be sealed with the seal of the corporation, signed by the mayor and countersigned by the treasurer of the said city.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect, either in sterling money of Great Britain or in currency of this province or the country where the same may respectively be made payable, which may be in any place or places authorized by law as may be agreed upon between the purchaser or purchasers thereof and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half-yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 2 and 2-5th mills in the dollar shall be levied and collected, in addition to all other rates, in each year upon all the rateable property in the said city during the currency of the said debentures or any of them.

6. All moneys arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures or any of them.

7. The proceeds of the debentures issued and sold under authority of this by-law shall be applied to improvements on Queen's Park and the streets hereinafter mentioned, and, as nearly in the proportion following as may to the said council seem expedient, that is to say: Queen's Park, $15,000; Columbia street, $1,000; Provost, Dallas and Carnarvon streets, $2,500; Agnes street, $2,500; Royal avenue, $3,000; Queen's avenue, $3,000; Pelham street, $1,500; Montr al street, $3,000; Melbourne street, $2,500; Leopold Place, $500; Park Lane, $1,500; Clinton street, $2,000; St. Patrick street, $1,000; Clement street, $3,000; St. George street, $1,000; Mary street, $1,000; St. John street, $1,000; Douglas street, $5,000; Halifax street, $750; St. Andrew's and Billee streets, $3,000; Fories que street $2,700; Edinburgh street, $2,500; London street $1,000; Blackie street, $500; Merivale street, $500; Blackwood street, $500; McKenzie street, extending and making $7,500; streets in St. Andrew's square, $1,500; St. George's square, $500; St. Patrick's square, $1,000; sidewalks and general street repairs, $8,050; provided that out of the said sum of $15,000 set apart for the improvements of Queen's Park there shall be paid into the city treasury to the credit of the general account the sum of $3,000, being the amount already expended out of the general revenue for Park improvements; provided also that if the requirements of any of the streets above mentioned should be found to be less or greater than the sum apportioned to said street, the said sum may be increased or diminished as in the circumstances may seem to the council expedient, and the surplus, if any, remaining out of the appropriations above so out, after said streets have been completed, may be applied to other works of permanent improvement not specified herein, at the discretion of the council.

8. This by-law shall take effect and come into force on the 17th day of June, A.D. 1889.

9. This by law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

10. This by law may be cited as the Street and Park Improvement Debenture By Law, 1889.

By law read a first time on the 6th day of May, 1889

By law read a second time on the 6th day of May, 1889

NOTICE.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the BRITISH COLUMBIAN newspaper, which publication took place on the 15th day of May, 1889, and that a vote of the electors of the city will be taken on said proposed By-law at the New City Hall, Market Square, in said city, on the **13th day of June, 1889,** between the hours of 9 o'clock a.m. and 5 o'clock p.m.

D. ROBSON,
City Clerk.

Water Works Debenture By-Law.

A By-Law to provide for the issue of Water Works Debentures.

WHEREAS BY THE "NEW Westminster Act, 1888," an act of the legislature of British Columbia, passed in the fifty-first year of the reign of Her Majesty, Queen Victoria, and chaptered forty-two relating to the corporation of the City of New Westminster, it is among other things provided that the council of the corporation of the said city may, subject to the provisions of the said act, pass by-laws for constructing water works, and providing for the expenditure thereof.

AND WHEREAS it is expedient that the council should provide for the construction of water works for the supplying of water to the inhabitants of the said city.

AND WHEREAS, in order to carry into effect the said proposed construction, it will be necessary to issue debentures of the said corporation for a sum of money not exceeding two hundred thousand dollars.

AND WHEREAS, for the payment of the said debentures, sinking fund and interest, it will require the sum of $14,000 to be raised annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city according to the last revised assessment roll is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the city is the sum of $155,500, irrespective of the sum of $85,000 proposed to be borrowed under authority of the Streets and Park Improvement Debenture By-law, which by-law is to be submitted to a vote of the electors of the city concurrently with this by-law.

THEREFORE, the corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the mayor to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of two hundred thousand dollars.

2. It shall be lawful for the mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than one hundred dollars each, such debentures to be sealed with the seal of the corporation, and signed by the mayor and counter-signed by the treasurer thereof.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect, either in sterling money of Great Britain, or in the currency of this province, or the country where the same may respectively be made payable, which may be in any place or places authorized by the said act as may be agreed upon between the purchaser or purchasers thereof, and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 5¾ mills in the dollar shall be levied and collected in addition to all other rates in each year upon all the rateable property in the said city during the currency of the said debentures or any of them.

6. All monies arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as they respectively become due, without prejudice to any of the powers conferred upon the said council by the act of incorporation.

7. This by-law shall take effect on the 17th day of June in the year of Our Lord one thousand eight hundred and eighty-nine.

8. This by-law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

9. This by-law may be cited as the Water Works Debenture By-Law, 1889.

By-law read a first time on the 11th day of March, 1889.

By-law read a second time on the 11th day of March, 1889

NOTICE.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the BRITISH COLUMBIAN newspaper, which first publication took place on the 15th day of May, 1889, and that a vote of the Electors of the City will be taken on said proposed By-law at the New City Hall, Market Square, in said city, on the **13th day of June, 1889,** between the hours of 9 o'clock a.m. and 5 o'clock p.m.

D. ROBSON,
City Clerk.

To Contractors & Carpenters

TENDERS WILL BE RECEIVED BY the undersigned up to noon of SATURDAY, **29th inst.,** for the dividing of *Herring's Opera House into tenements,* and other work. Plans and specifications can be seen at my office, Mary Street. The lowest or any tender not necessarily accepted.

Port Kells

This Fine Townsite, at the Fresh-Water Junction of the

Southern Railw'y

—WITH THE—

FRASER RIVER

12 Miles Above Westminster,

Has just been Surveyed, and the Lots are for sale by

WOODS, TURNER & GAMBLE

—AND—

ALBERT J. HILL & COMPANY

OF NEW WESTMINSTER, B. C.

The advantages and prospects of this Plot for a future thriving Town are many.

The Land in the vicinity is good.

There are inexhaustible IRON ORE DEPOSITS, of a superior quality, immediately adjacent, as well as vast strata of the finest BUILDING SAND and POTTERY CLAY.

On the Townsite are a number of valuable MINERAL SPRINGS.

Communication by land and water is unequalled, by reason of the location of the Townsite on the Fraser River and the Southern Railway, while the natural elevation and lay of the land can not be excelled as a situation for a fine town.

The ground is open and clear of heavy timber.

The site has been selected as one of the most important stations on the Southern Railway, and with the completion of the road, in the near future, must, with all its other advantages, spring into prominence at once.

Those who apply early will have the pick of the Lots.

A clear title given with every purchase.

Parties wishing Lots can apply as well, on the premises, to

HENRY KELLS,

Look out for the great sale of lots in the town of Seattle, at the Mission Bridge, on June 15th next. For particulars, apply to Wm. Reidt. *

Ald Cunningham has a notice in this issue calling for plans and specifications for the provincial exhibition buildings to be erected on Queen's park.

The rain to-day, though scarcely sufficient, did a vast amount of good to gardens in general, and brightened up verdure to an astonishing extent.

The ship Macduff has completed her lower hold cargo and has commenced her 'tween deck cargo. She will be ready for sea in two or three weeks.

Messrs. Armstrong & Eckstein have taken a handsome suite of offices in Sheriff Armstrong's block, and will move into their new quarters this week.

The celebrated Greer Case Trial, the Government of British Columbia and C. P. Railway *Versus* Samuel Greer, for sale at Zed S. Hall's. Price 25 cents. 6t*

A large fire, in the direction of Port Townsend, was observed from the str. Rithet last night. It was thought by those acquainted with the surroundings to be in the vicinity of the Port Discovery saw mills

The str. Islander will be withdrawn from the Victoria-Vancouver route shortly, and about July 15th will leave on an excursion trip to the northern waters. During the Islander's absence she will be replaced by the steamer Yosemite.

The forest fire on the hillside above Brownsville on Saturday night made a very pretty picture, and was observed with interest by hundreds of people in this city. To-day's rain has had the effect of quenching the fires and clearing the atmosphere of smoke.

The machinists are hard at work placing the machinery in the new tug Active, recently launched by the Royal City Planing Mills Co. Everyone who has inspected the new vessel is greatly impressed with the beauty of its lines, apparent strength and handsome build.

The artillery and rifles have been invited to take part in the Vancouver celebration on Dominion Day, and it has been arranged that the members of both corps will meet at the drill shed on Thursday evening to decide whether or not the invitation will be accepted.

A Vancouver newspaper is urging the church authorities to postpone the Sunday evening meetings till 7:30 or 8 p.m., in order to allow people who live at hotels and dine at 6 o'clock, to go to church. Why not let the hotels give dinner at 5 o'clock rather than change *church hours?*

The completion of the addition being made to St. Paul's R. E. church, which were expected to have been finished this week, will occupy the better part of next week also, and in consequence of this another service will be held at the Orange Hall. Bishop Cridge or Rev. Dr. Reid is expected to participate in the re-opening service.

Many complaints have been heard of late concerning the running time of the Brownsville ferry. The number of passengers and vehicles making use of the ferry has largely increased during the present summer, and a more frequent service, especially in the early morning and late afternoon hours, is demanded. The ferry, now being civic property, should be run to suit the best interests of the city.

Children Cry for Pitcher's Castoria

The election for school trustees took place to-day with the following result: For St. George's ward, John McKenzie; for St. Patrick's ward, J. A. Calbick; for St. Andrew's ward, M. Sinclair and W. A. Duncan. The last named was elected to fill the vacancy caused by the resignation of W. Ross. All the candidates were returned by acclamation.

Attention is directed to the great auction sale of blooded and graded stock fixed to come off at Ontario farm, Langley Prairie on 28th June, full particulars of which will appear in next WEEKLY COLUMBIAN. The *Messrs. Innes are favorably known as* being good judges of horses and cattle, and the sale in question will give an opportunity seldom offered of acquiring good stock. 160 acres of the best prairie land in the province will be offered for sale by auction at the same time and place. Mr. T. J. Trapp will conduct the sale. td*

Rifle Practice.

No Licenses Wanted.

In the supreme court to-day, on motion of Mr. Eckstein a rule *nisi* was granted calling upon the Maple Ridge board of licensing commissioners to show cause why a writ of prohibition should not issue to prohibit the granting of a license to R. W. McIntosh to sell liquors at Port Hammond. The rule will be argued on Wednesday. The people of Maple Ridge are largely in favor of no license being granted within the municipality, and they will use every legal means to carry their wishes into effect.

A Painful Accident.

Mr. H. L. DeBeck, president of the Brunette Saw Mills Company, met with an unfortunate accident to-day, shortly after noon. He was riding on a bicycle in the vicinity of the mills, and, falling, tried to save himself by *throwing out his hands, with the* result that a shoulder blade was dislocated. Dr. Cooper was summoned in haste, and successfully reduced the dislocation. Mr. DeBeck will experience nothing worse than temporary inconvenience and considerable pain from the unfortunate mishap. He did not audibly express his opinion *about bicycles.*

Struck A Cow.

As the 11:20 train from Vancouver rounded the curve below the woolen mills, this morning, the engineer espied a cow on the track and sounded the whistle to frighten it off. The shrieking had no effect on the nerves of the animal, and it remained on the track unconscious of the impending danger. The locomotive was so close *that it would have been useless to at*tempt to stop, and the cow was picked up by the pilot and thrown to one side with its back broken. The police hunted up the owner of the animal, explained the accident and then put the poor brute out of suffering.

Gored by a Bull.

A man named James Coster, in the employ of Mr. Thos. Cunningham, was badly gored by the latter's bull yesterday afternoon. He was engaged only a few days ago, and was warned by the foreman not to go near the bull. Yesterday, contrary to orders, *he attempted to water the animal*, when it threw him down and gored him so badly that it was found necessary to remove him to St. Mary's hospital, where the poor fellow lies in a critical condition. Dr. Fagan is doing all in his power to relieve the sufferer, who is doing as well as could be expected under the circumstances.

Y. M. C. A. Meeting.

The congregation at the Y. M. C. A, *yesterday afternoon, though not so* large as usual, was heartily in sympathy with the speaker, Rev. J. H. White, who showed how frail and unreliable *are all earthly friendships as compared* with Jesus Christ the friend of sinners. Many requests were made that the revd. gentlemen would remember them in his closing prayer. A letter from the executive committee of the Pacific North West, was read, asking that aid be sent to the Y. M. C. A. in Seattle, which is financially embarras*sed in consequence of the recent fire.* A response was quickly made to the amount of $12.55. Some who were not prepared (as a collection in the Y. M. C. A. is not a usual occurrence) will send in their donations during the present week.

English Bay will be Boomed.

Mr. Van Horne was interviewed by the Vancouver board of trade on Saturday afternoon concerning the improvements the company intended making. Mr. Van Horne said the central depot to be built by the company in Vancouver, as well as the company's offices, will be at the foot of Granville street, where the present one stands. When the Southern, or Short Line, is built, a depot for local purposes will be built near False Creek bridge on Granville street. Operations on the new opera house will be begun inside of a month at the farthest. It will be erected at the corner of Gran*ville and Robson streets*, and will be capable of accomodating at least 1,500. The heavy shipping, he expects, will be done on English Bay and that likely within the next eighteen months, or two years at the furthest. The wharves there will be at least half a mile in length. The dread Vancouverites have long stood in fear of, the removal *of the ocean shipping to English Bay*, is now about to be put into effect.

William O'Connor, champion oars*man, arrived at Toronto from San* Francisco on Saturday. He will sail for England in about eight or ten days and row his race with Searle. Wallace Ross will be his trainer.

The Quebec nationalists are unusually active and are organizing political tours all over the province. This is looked upon as a sign of a political conflict at hand.

Got Speedy Trial.

The case of Ah Hoy, the Chinaman who so nearly fatally stabbed Mr. Herbert J. Kirkland last week at Deas Island Cannery, was heard before Capt. Pittendrigh this morning. Mr. Kirkland told his story in a few words. The Chinaman was under contract and attempted to desert from his Chinese boss. The "boss" asked Mr. Kirkland to detain Ah Hoy, and it was in attempting to do so that the prisoner made the murderous assault on him. Dr. Cooper gave evidence to the nature of the wound, which he pronounced dangerous, and said that had it been less than an inch lower the knife would have entered the stomach with fatal results. The wound was an inch long, quite deep, and the loss of blood from it very great. The knife with which the wound was inflicted, was made out of an old file. After hearing all the evidence the magistrate committed the prisoner for trial.

The prisoner signified the wish to be tried without delay, under the "speedy trials act." Mr. *Justice McCreight* took the bench and the case proceeded. The evidence adduced was similar in every respect to that already published in THE COLUMBIAN. Two Indians, George and William, who saw the stabbing, in their evidence showed Ah Hoy certainly meant murder. His lordship remanded the prisoner for sentence. As Mr. *Moresby* was about to remove him from the dock Ah Hoy sprang forward and shaking his fist at Mr. Kirkland cried "by and by me killee you sure," meaning that the next opportunity he would make sure work of him.

THE CHURCHES.

Summaries of Some of the City Sermons Spoken Yesterday.

ST. ANDREW'S CHURCH.

Rev. Thos. Scoullar preached last evening in the Presbyterian church from the Acts of the Apostles 10c. 1-2 verses—"There was a certain man in Cæsarea called Cornelius, a centurion of the band called the Italian band: A devout man, and one that feared God with all his house, which gave much alms to the people, and prayed to God alway"—and spoke as follows: We have in this chapter an account of the opening of the door of the church to the Gentiles—an account of how God recognized the Gentiles and received them into the same privileges as were enjoyed by the Jews. The scene of this transaction was at Cæsarea. Cæsarea was a city of very considerable importance. It was a seaport town and possessed of an excellent harbor, which was visited by many ships. It was built by Herod the Great, and was inhabited at this time mainly by pagans. Cæsarea ought to be a place *of very considerable interest* to Gentile nations, inasmuch as it was here that the door of the church was opened to the Gentiles. It is true that on former occasions those of Gentile nations had received blessings at the hand of God, and the apostles had preached the gospel unto individuals and they had received the gospel. But here God shows an apostle of the circumcision that the Gentiles were cleansed by the atoning sacrifice of Christ as well as the Jews, and that what God had cleansed no man should call common or unclean, that there is no respect of persons with God. It was here also, at Cæsarea, that the great apostle of the Gentiles was imprisoned for two whole years. It was here where he made his famous speech before Felix, Festus, Agrippa and others. In this place there dwelt a devout man called Cornelius. This is a Latin name, which shows that Cornelius was a Roman. He was by profession a soldier, and he was a centurion, which means that he commanded 100 men, although this term will permit of considerable latitude. This soldier was evidently a God fearing man. There are some who seem to think that it is almost impossible for a soldier to be a Christian, that there are few Christians found in the army. It is rather a remarkable thing that of all the centurions we read of in the bible there are good things said of them. So, in later times, we read of noble Christian men who were in the army, such as Hedley Vicars, Havelock, and, more lately, General Gordon. Brethren, there is no position in which we may not serve God. If there is, we had better get out of it. This man Cornelius, then, was a devout man. That means that he served God to a certain extent. This is a general term that may be applied to a pagan as well as to a Christian. You find it applied in the scriptures on several different occasions. It is very evident that he worshipped God up to the light that he said; he served God according to his ability, and we are constrained to ask the question, could any Christian exhibit a more beautiful life than this? As yet Cornelius was not a Christian, but he was an earnest enquirer, seeking for light—not saved, but yet in the best condition to be saved. In answer to the question how Cornelius came to possess his knowledge of the true God, he was probably simply acting up to the light which nature had given him—one of those of whom the apostle speaks as follows: "These having not the law, are a law unto themselves." The question of the heathen is a great question, as to whether the heathen, some of them at least, may not be saved without the revelation which God has given to men. We read that there is no other name given under heaven whereby men must be saved but the name of Christ, and that faith cometh by hearing; but yet, may not God, in some way unknown to us, apply the redemptive work of Christ to those who have not the gospel? There are many of the heathen, we believe, that are seeking after God. This has been proved in the experience of various missions. This, we believe, is the condition of many to-day, in China and in India. Our duty is, if we have the light, if we have the knowledge, to give it to those that have it not, that they may share with us in those blessings which have come to us through Jesus Christ. It is evident that Cornelius had taught his household what he knew of God. All professing Christians do not do as much for their households. Many, I fear, send their children to the Sabbath school, and *think that their duty ends there.* Surely, brethren, it is the duty of all heads of families to erect an altar in the family, and to give their children parental instruction. We read that Cornelius gave much alms and prayed alway, and in these things does he not put many Christians to shame? As Christians we should come to Christ, *telling all our sins*, troubles and darkness, and get from Him light, comfort and forgiveness. May God help us to do so.

Children Cry for Pitcher's Castoria

JOHNSTOWN FLOOD AND SEATTLE FIRE.

At the service held last evening in the Orange Hall, under the auspices of the Reformed Episcopal church, the Rev. Thos. Haddon drew lessons from the Johnstown flood and Seattle fire, taking as the basis of his remarks the words found in Rev. 7c., 19, 20 and 24v., 8c., 1v., and spoke as follows: We have here in these words two classes of destruction, one of flood and the other of fire, and I take these in conjunction with the two late disasters on the other side of the line, as a basis upon which to draw lessons from. Human nature is just the same to-day as it was in Noah's time; he had been warned of the approaching flood, and as a preacher he warned his people; they laughed at him, and refused to listen to his warnings, and when too late, they *realized how true had been* his forecast. Lot received the same treatment when he warned his sons-in-law of the approaching destruction of Sodom and Gomorrah, and the same indifference as to their fate was shown by the people of Johnstown; they would not believe that disaster and death were so near, hence when it did *come they found it was too late to do* anything to save themselves. An eye witness, Mr. John McCarty, who escaped, says that the people were warned in the early morning; but the warning was unheeded until at ten o'clock the stream poured into Cinder street. Soon houses rocked to and fro, and began to drift away, dashing *against each other*, and going to pieces; these houses were going down to destruction still freighted with the poor wretches who had just a few hours before laughed at the idea of danger. Year after year they had been warned of the possibility of the vast lake breaking through its banks, and the people living below had become accustomed to the talk of possible danger to them, and even now, when the dam broke and the flood was approaching, some only laughed; they would not believe in their insecurity, and is this not the way the ambassadors of God are treated, who warn the people of the sure destruction that will come upon those who will not seek safety in Christ Jesus. At Johnstown, when they were warned of the approaching danger, they should have left the town and tried to secure themselves on higher ground, and when secure have thanked God in prayer for their deliverance, and when we are warned of the sure destruction awaiting the wicked we should seek to rise above the danger and thank God that He has delivered us from eternal destruction. I have little doubt but that God answered the prayers offered up by many in the dying agonies, and thus snatched them from eternal death. A very touching incident is reported by some of the survivors who were upon the banks: A child was coming down the stream, kneeling on a raft in the attitude of prayer, and the raft came so close that they could see the big tears rolling down the cheeks and the pallor of death upon the brow, and they, unable to lend any assistance, shouted to the child to keep courage. By and bye the raft went under some logs, and the child was not seen on the surface again. I have little doubt that child was a Sunday school scholar. Just at the time we are in trouble we pray, but we should make the exercise habitual, and thus prepare for the change of *habitation that must take* place. St. John in the Revelation pictures the destruction of the world, and the cry of the unredeemed unto the rocks and the hills to cover them, but the last prayer that John sees will be uttered on earth will never be answered, for it will be impossible to hide from the scrutinizing eye of God; *and the lesson to be drawn just here* is to pray in faith *now*, and our prayers will be answered. Then I would point to the quickness of desolation in these instances. Look at the first great flood, when only one family escaped; then look at the rapidity of destruction in the cities of the plain, Lot and his family only having left the city *a few hours when it was swept out of* existence. So in the floods on the other side of the line: in the morning the valley picturesque with the beauties of nature; in the evening ten thousand dead or dying, the valley a scene of desolation, the disaster coming upon many suddenly, overtakig rich and poor alike, thousands floating *down to a sure watery grave, and in* their terror and madness attending unutterable despair, fighting for life—the beautiful valley with its towns and villages in their prosperity in the morning; in the evening a vast sea of destruction. And the lesson taught at Johnstown, and repeated at Seattle, is that earth by things are not eternal, *they are not durable and lasting*, but fade away suddenly, and if they do not slip from our grasp death comes suddenly as a thief in the night and carries us away from them, and that is why the advice is given, "Be ye also ready." Then another lesson taught us is the low, debased, degrading position a man will sink to, when *he will rob the dead and the dying*, as was witnessed in the Hungarians' fiendish robbery of trinkets and rings from the dead, in some cases severing the finger or ear; it is no wonder lynching was resorted to, for a man deserves lynching when he gives way and gets so low as to rob the dead; and the lesson here is that, while sin will grow habitual to a man and carry him down to participating in these basest of crimes, the gospel of the Lord Jesus Christ lifts man up, out of, and away from sin, putting a new and better nature within him. Another lesson is taught us in the help and sympathy shown to the suffering and bereaved ones who survived the dis*aster in each case; men giving their* time, money, and in some cases their life in an effort to help those who needed it. Many were the noble deeds, husbands in despair trying to save their wives and families, mothers clinging to their babes, unwilling to see them perish, and preferring to sink with them rather than give them up, their *loved ones*; and now provision is being made of clothes, money and food; from all parts sympathy wells up in substantial help, the very heart of nations being drawn out in tender pity for the suffering and needy. And this self-sacrifice is seen in connection with religion, missionaries and Christain workers, seeing the masses exposed to danger for want of spiritual help, sacrifice time, money and, in many cases, life, to rescue the perishing and make the solitary places glad. The present lesson teaches that God's floods of indignation will surely sweep upon us and the fire that never can be put out will overtake us, and to avoid the terrible consequences we should escape to the mountain of God's holiness, or, like Noah, seek the ark of safety, and, having ourselves found safety, tell others so that they may be saved in time and for eternity, and may God make us *all secure.*

Dr. Child's Pile Ointment instantly relieves and permanently cures Piles, Pruritus and all hot and itching sores and *eruptions*. N. W. agents, D. S. Curtis & Co. dmy28y1

TO CONTRACTORS.

SEALED PROPOSALS WILL BE RECEIVED by the Honourable Chief Commissioner of Lands and Works, up to noon of Wednesday, 10th July next, from persons experienced in well drilling who may be desirous of undertaking contracts from the Government for sinking one or more experimental Artesian Wells in Yale District, B. C., with a view to determining their value for purposes of irrigation.

Proposals must state clearly all conditions and terms, state the kind of apparatus proposed to be used, and give the name of two responsible residents of the Province who are willing to enter into a *bond to secure the faithful carrying out of* any contract which may be entered into.

Such information as may be in possession of the Lands and Works Department will be furnished on application to parties proposing to contract.
W. S. GORE,
Surveyor-General.
