SCIENTIFIC MISCELLANY.

During the last ten years an oculist of Cronstadt is said to have treated thirty cases of photo-electric ophthalmia, a new disease due to the action of the electric light on the eyes.

A project is being considered for adding 250,000 acres to the irrigated area in Egypt, the water being taken from a point so high upon the Nile that the canals shall *never run dry.*

A unique collection of specimens *of the earliest* printed maps has been made by Baron Nordenskjold. It will be reproduced in a great atlas with accompanying text—a Swedish and an English edition to be issued.

Narrow-chested recruits of the Prussian army are to be measured monthly, and those whose chests are not widened by drill are to be discharged as predisposed to consumption. All *are to be considered* narrow-chested whose chests are less in circumference than half the length of their bodies.

Prof. G. Sormani has shown that the flesh of animals which have died of tetanus may be eaten with impunity, the bacillus passing through the system without causing special disturbance. An animal may swallow unharmed 10,000 times *more than would kill if placed* beneath the skin. The germ itself is unaffected by the digestive juices.

Dr. Von Duhring has reported a case in which tuberculosis was transmitted by the ear-rings of a girl who died of consumption to another girl. Shortly after the second girl commenced to wear the ear-rings, an ulcer containing tubercle bacilli formed on her left ear, and she subsequently developed *pulmonary* consumption.

SKULL DEVELOPMENT.—By comparing modern skulls with those of the same race in an old monastery in the Kedron Valley, Dr. Dight, of the American College of Beirut, Syria, has shown that thirteen centuries have added two inches to the circumference and three and a half cubic inches to the capacity of the *Caucasian skull. The brain has de*veloped in the parts presiding over the moral and intellectual functions, growing high and longer, without increase of the lower portions, which give breadth to the head and in which the selfish propensions are centred.

ARTIFICIAL SUGAR.—A feat of much scientific interest, if not immediate commercial value, is the *recent production of chemical sugar* by Fischer and Tafel, in the laboratory of the University of Wurzburg. Glycerin was used as the starting-point in the experiments. After decomposition and treatment with various reagents, a colorless syrup was obtained, which—*unlike saccha*rine—appears to be a genuine sugar, acting in every respect like ordinary natural sugar except in being incapable of rotating a beam of polarized light. The discoverers expect soon to give even the lacking optical activity to the new product, which is provisionally named *acrose.*

ANIMALS OF WELLS.—The fauna of well-water, as shown by Professor Vejdovsky's examination of 231 wells of Prague, comprises 111 species of organisms, including 20 varieties of amoeba-like organisms, 12 varieties of flagellate infusoria, 45 varieties of other infusoria, 24 varieties of worms, and 10 varieties of crustacea. These varieties are washed by surface water into the *wells, where they live in the mud* on the bottom, their presence in the water above being indicated by a turbid appearance. Danger from wells containing them arises chiefly from the putrefying organic matter supporting them, which greatly *favors the development of fungi* which prey upon the human body.

A NEW IDEA IN MINING.—Water as an extinguisher of the flames of *blasts in mines has been applied* in a novel manner—as a powdered solid—in a form of explosive devised by E. Muller, of Cologne. This substance is called *Grisontite,* and consists of suitable explosive agents with which certain water-*containing salts—such as carbonate* of soda and sulphate of magnesia—are incorporated. Grisontite with 50 per cent of carbonate of soda contains 30 per cent of water, and with sulphate of magnesia in like proportion, 25 per cent. Experiments under the most dangerous conditions have proven that the flames are quenched, and that this material is both safe and efficient.

TIDES IN THE EARTH.—Some twenty years ago, Herr Falb, an Austrian scientist, first suggested the possibility that the moon may act upon the great ocean of molten matter beneath the earth's crust exactly as it acts in producing the *tides of the external ocean of water.* He now considers that the reality of such action is proven, and that the earth's crust is severely strained, and more or less warped and broken, at the times the theory would indicate. It is during the periods of greatest strain resulting from the moon's attraction that earthquakes appear to be most likely to occur, and that gases seem to be forced into coal-mines to such an extent as greatly to increase the explosions.

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found as low as at any other office in the province.—*Adv.*

LIBERAL AMOUNTS

Being Subscribed all Over the States for the Seattle and Johnstown Sufferers.

A Cave-in of Rock in a Mine *Causes the Death of* Four Miners.

The British Government Sends a Message of Sympathy Concerning Johnstown Floods.

LIBERAL SUBSCRIPTIONS.

NEW YORK, June 10.—Money continues coming into the mayor's office for the relief of the Conemaugh sufferers. In an hour this morning $299,620 was counted. Walter Stanton, chairman of the transportation com*mittee, received the following dispatch* to-day from W. R. Thompson treasurer of the relief committee of Johnstown: "Your telegram received, offering to donate for help of Johnstown sufferers. Cots, comforters and bedding badly needed; ship to Johnstown mark 'James B.' The Chemical Company *sent a thousand one grain quinine pills* to day."

RUNNING UP FAST.

SAN FRANCISCO, June 10.—Subscriptions to the Johnstown fund *amounted to $68,100 at noon.*

MORE AID.

SAN FRANCISCO, *June 10.—It is pro*posed to divide the $4,000 surplus funds of the National association convention between Johnstown and Seattle.

THE MORGUES.

JOHNSTOWN, Pa., June 10.—At the Presbyterian church morgue this morning the first body brought in was that of a horribly mutilated man. He was taken out of the ruins near the First National Bank, and is not identified. Since six o'clock last night nine bodies *have been taken to the morgue at the* 4th ward school building. The morgues at Kerneville and at the Pennsylvania R. R. depot have been abandoned, and a new morgue located in the first ward school building near Stone bridge. The state board of health reports all of the morgues in favorable sanitary condition.

TERRIBLE ACCIDENT.

WILKESBARRE, June 10.—A terrible accident occurred at Gaylord mine, Plymouth, this morning. A number of miners were at work in a large breach when without warning the rocky roof fell in. Four men were instantly killed, viz.: Reese Lloyd, Pat Carley, Wm. Williams and Matthew Davis. Two Poles had their legs cut off and will probably die. Insufficient propping was the cause.

SERIOUS RAILWAY ACCIDENT.

WILKESBARRE, Pa., June 10.—The fast express train on the Lehigh Valley R. R., running between Hazelton and Wilkesbarre, was thrown from the track at Sugar Notch this morning while running at 35 miles per hour. The cars were telescoped, and 2 of them crushed in the frame house which stood near the track. The tenants had narrow escapes. The escape of the passengers from instant death was *miraculous. No one was fatally hurt,* though the following sustained serious injuries: John S. McGrorley, deputy treasurer of Luzerne county; George H. Troutman, a lawyer of Hazelton, John Lough, principal of Freeland schools, and Mrs. Costello and child, of Whitehaven. It will take all day to *clear the wreck. All traffic* is at a standstill. A broken axle under the tender caused the train to leave the track.

A CHALLENGE.

BOSTON, *June 10,*—Henry C. Peterson of San Francisco, the well known sculler, sent from Salt Lake city a challenge to John McKay, of Halifax, N. S., to row him a single scull race three miles with turn on some eastern lake for $1,000 a side, the race to occur four weeks after signing articles.

WHEAT.

SAN FRANCISCO, June 10.—Wheat *firm, buyer 89, 134⅛, seller 89, 120¼,* buyer 89 after Aug. 1st 133⅝.

NEW YORK, June 10.—Wheat moderate, June 81⅛, July 82, Aug. 82¾.

ROBBER CAUGHT.

CHICO, Cal., June 10.—An attempt was made at 1:15 this morning by burglars to rob *Hubbell & Booths* hardware store. The robber had obtained some booty and was leaving the store when he was stopped by an officer. A cane was levelled at him as if it were a rifle. The thief was arrested.

AFFAIRS AT JOHNSTOWN.

JOHNSTON, Pa., June 10.—Rain began falling at four o'clock this morning and is now coming down in a pour. The laborers *work right along* and will so continue. All of the laboring men who worked on the wreck will be paid off on Wednesday and as many of them as desire will be given employment by the state. This morning a detail of the 14th regiment was sent to Cambria City to bring out 200 *Italians and compel them to go to* work. They have been drawing rations right along but have refused to work. They are now at work with a guard over them. At Cambria hospital there are a few female patients suffering from nervous prostration. Late yesterday the ruins of the Catho*lic church and 3 other large buildings* near the Baltimore and Ohio passenger station, were condemned and blown up by dynamite. The bodies recovered yesterday were all in such an advanced stage of decomposition that it was necessary to pour disinfectants on the clothes before the workmen could handle them.

BRITISH COURTESY.

WASHINGTO, *June 8.—Sir Julian* Pauncefote, the British minister, called on the president to-day and delivered to him the message of sympathy from Queen Victoria for the losses sustained by *American* people by the Johnstown disaster. Sir Julian delivered the message verbally and the president replied: "This message of sympathy from her majesty the queen will be accepted by our people as another expression of her generous character as well as of the friendliness *and good will of her people.* The disasters which have fallen upon several communities in the state of Pennsylvania while extreme and full of the most tragic and horrifying incidents, have fortunately been limited in territorial extent. The generosity *of our own citizens will promptly* lessen to the stricken people every loss that is not wholly irretrievable and which the sympathy of the queen and the English people will help to assuage. Will *you, Mr. Minister, be pleased to* convey to the queen the sincere thanks of the American people."

A FATAL FEUD.

JACKSONVILLE, June 7.—A long-*standing feud between Capt. Douglass* a prominent Democrat of Dayton, and J. H. Benjamin, editor of the Deland *News* had its outcome in the fatal shooting at New Smyrna last night of Douglas by Benjamin. *Angered by* an attack upon him, which appeared recently in Benjamin's paper, Douglas assaulted him, knocking him off the pier into the marsh and jumping on him. While he was holding his head under water Benjamin managed to draw a revolver and shoot his assail*ant dead, the ball entering his heart.* There is much excitment.

THE WELDON ACT.

OTTAWA, June 6.—The government will send a dispatch to England transmitting the Weldon extradition act of last session. It points out that a royal commission three years ago recommended that extradition treaties should not be held to be indispensable, but that statute power should be *given the pro*per authorities to deliver up fugitives and criminals whose surrender is asked for, irrespective of the existence of any extradition treaty, and the Weldon act simply carried out this recommendation. The vicious influence upon the Canadian population of American *criminal fugitives is referred to,* and the dispatch holds that Canada has a perfect right to legislate on matters pertaining to the peace and good government of the country. If the act is allowed, it is proposed to apply it to the states and Mexico.

THE CHURCHES.

Summaries of City Sermons Spoken Yesterday.

ST. MARY'S, SAPPERTON.

At St. Marys' church, Sapperton, yesterday morning, His Lordship, Bishop Sillitoe, preached an interesting and instructive sermon on the subject of the Holy Ghost, taking for his text, Acts 19 chap. 2nd verse: He said *unto them, have ye received the Holy* Ghost since ye believed? And they said unto him, we have not so much as heard whether there be any Holy Ghost. "The church, dear friends, teaches us to regard the Holy Ghost as a fact, and the Creed says: 'I believe in the Holy Ghost.' To say anything *clear on the power of the Holy Ghost* is impossible, but I hope many of you know and have felt its power within. We have only hints from time to time in the scriptures, but no more, and I suppose God does *this intentionally.* The great difficulty in regard to the Holy Ghost, as well as other articles of the church, is that the world will not receive them, because the world has not the faith to believe. Believe in God, Jesus Christ and the Holy Ghost; that is the whole scheme of holy re*ligion as propounded to us in the book* of common prayer. Jesus said, 'If I do not go away the Comforter will not come to you.' But how many will not believe in this Comforter. Man says, 'no, how can I believe some other being is within me.' Thank God, many of us can and do believe. The action *of the Holy Spirit is like the dew* which imperceptibly falleth from heaven. The coming of the Holy Spirit is also imperceptible, and 'according to your faith shall it be unto you.' That is, you shall receive the Holy Ghost. Jesus Christ after finishing his earthly duties ascended to heaven, but he would not leave human nature alone. No, He sends another Comforter to be with His people and His church to the end of time. We have to believe in the indevelling of *the Holy Spirit to guard us from sins* coming from the heart as well as those coming from without. Being lead by the Spirit means the surrender of ourselves to its inclinations. We can, we may and we must so yeild to the guidance of the Holy Spirit—and then there will be no condemnation. There is *no subject so neglected as that of the* Holy Spirit in the church of Christ and that is why I took this text to-day. Whole churches eliminate the Holy Ghost from their teachings and services, but this is *not in accordance* with what is right, and we are taught by the scriptures to follow in our worship of God. Take the offices of the church and read them through and you will find much to instruct you on the subject of which I have spoken."

METHODIST CHURCH.

At the Methodist church last evening the Rev. J. H. White preached *from Genesis 3rd chap. part of 8th* verse, "And they heard the voice of the Lord God, walking in the garden in the cool of the day," and spoke substantially as follows: These are very ancient records, but it is an error to suppose that this book of Genesis was written by Moses; he was the compiler *of these accounts given in Genesis,* they having been handed down by those who were upon the scene prior to the memorable rescue of Moses from the ark of bulrushes; but while he was not the author of this book of Genesis, but the compiler, the other records are of his authorship. There is one reason why I believe if Moses had written Genesis he would have described God in a different way, such as "God Almighty," the "Everlasting God;" those accounts here seem to be just like the *writing of children, so simple in their* language, and they speak of God, and He is described, just as if He were one of the Gods of the heathen. This book might be reconstructed in the higher language such as used by Moses, but people would object and say it was not the simple record of the people of the early days. "They heard the voice of the Lord God walking in the garden in the cool of the day," or evening. Have you ever thought of the moral value of night, or the cool hush of eventide? A great many would go mad if it were not for night, the toil and anxieties of their business would break them down; they would never stop until their whole frame was exhausted, body and mind, were it not for the quiet cool hush of evening, and the still darkness of midnight, to slum*ber and refresh the frame for the next* day's struggle. Just think, at the coming of eventide, how good and pleasant it is for a man to lay aside his work and join his family, making the circle more complete, and the tendency, thus united, to have thoughts about God and meditation of His providence, and the possible influences upon your children from conversing of the goodness of the Almighty. Then just think what the coming of evening means to *the sick, the invalids, who have all the* day been unable to find a cool place to rest, but when night comes, and its cool breezes fan the brow of the fevered one, bringing repose and forgetfulness of pain, these afflicted ones will rejoice and count it a blessed thing that God has sent us the eventide. Then it *is a blessed time for the sinner,* a time for thought of things forgotten in the bustle and heat of the day; for many that have fallen, to think of God, and there comes up before them in the hush of eventide thoughts of the prayers learnt in their youth, taught them by those now passed away, and terror seizes them that they have forgotten these in their madness of sin, and they instinctively seek to hide themselves from God's accusing voice, and perchance just then, conscience stricken, *they review the past, and in penitence* ask for pardon, and launch out into a new life, better for the meditation at eventide. And this eventide is not only a blessing to the sinner, but to the Christian; the thoughts are not always under control, and during the heat and turmoil of the day they may *have wandered in thought and action,* and now when eventide comes they too meditate on the wonderful providence and goodness of an ever watchful God. And will not you, who have wandered far from God, hear just for a little while His voice to-night; God takes occasion as a wise teacher to attract attention by lowering His voice, low and sweet, and speaks in soft whispers in the quiet hush of the evening, just as he did to Elijah. God sometimes separates us from the bustle and *activity of life, and then speaks to us.* The periodical depression in business, I believe God sends, so that we may be afforded time to think of Him, and it is a blessed thing that at night we have to lay aside business; some would not, only that they must sleep or die. Some say it is impossible for them to think *of God, they havn't time; but if their* wife or child were to die they could shut the store, crape would be upon the handle, and, although they may fret and fume, they close up, if for no other reason than that people would marvel if they did otherwise. Then, in sickness and bodily infirmity we have to find time to put aside business, and the town goes on just as well as if we were at our accustomed post. Jesus led the blind man out of town to speak to him, and it would be a *grand thing if we were led out of town* into the quiet country district, or away down to one of the islands in the gulf, so that in the quietude God, when speaking, might be sure of a hearing. Then, old age, the eventide of life, is sure to come; it is a sad thing, and goes to the heart, the first time a man *is spoken of as "the old man;"* there is a strange feeling, and there are many here who, if you have not experienced it, you very soon will; you will be spoken of by your relations as the old man, and you will begin to feel old; your vigour, strength, sight, power will fail, it has got to come: *then your mind will seem to fail,* and you will at last become old fashioned in your notions, and you will begin to feel you are going down the hill of life; and blessed is the man that can go *down cheerfully, just as a tired work*man at the close of the heat of the day, and I think that in old age God speaks as he does not at any other time of life, when the duties and cares have ceased and the nature becomes mellow, softened and ripened. And now, as in the garden, how many are hiding in *God's gifts from God, having every*thing so smooth and comfortable that they forget Him who has provided? I beg of you to hear His voice, and although you may not return to the paradise of Eden, you may enter the better paradise, of which Christ is the door, and in the quiet stillness of this summer Sabbath evening contemplate a little of the heaven and rest prepared through Him, and let your heart go out to Him, in adoration and thankfulness, this summer evening. God bless *every member of this congrega*tion this summer Sabbath evening.

Chilliwack Council.

The municipal council of Chilliwack met for regular business, at the council chambers, on the 4th June, 1889. Present, Reeve Cawley, and Couns. Kennedy, Armstrong, Lickman, Reice, and Bayly. Minutes of previous meeting read, and adopted.

COMMUNICATIONS: From W. S. Gore, surveyor-general, *re* Dunville bridge.—Placed on file. From D. Robson, New Westminster city clerk, stating that he had shipped 650 advertising "folders" to this council for distribution. — Ordered filed. From Corbould, McColl & Jenns, regarding drainage on Prairie central road.—Clerk instructed to reply. From H. Webb, assessor, asking council to ap*point a committee to look over assess*ment roll with him, to see that no names were left off. On motion the reeve and clerk were appointed committee on the same.

The following accounts were received and ordered paid: J. McKenzie, $4.50, work on road; steamer Irving 75 cts., freight; Henderson Bros., $50.25, account of ballot box, supplies to J. Hardison, and order from Alex. Cruikshanks.

PETITIONS: From Hugh Ramsey, and others, calling attention to a former petition laid over. From Wm. Newley, and others, asking that an examination of the Semiault creek be made, under section 98, of the "municipalities act, 1889." Granted. From residents of the Lickman road, asking for an appropriation on the same. Re*ferred to board of works.*

Tenders for municipal work; grading Trunk road, at Cheam school house, E. Vickerson, $45; N. Munro, $55. On motion E. Vickerson's tender was accepted. Corduroy on Upper Prairie road,—J. Gibson, $1.25 per rod; A. Smith, $1.35; J. Ford, $1.90 per rod. *On motion* J. Gibson's tender was accepted. Ditch on Chilliwack central road—N. Munro, 95 cts. per rod, which was on motion accepted. Corduroy on McGuire road, was let to Hugh Ramsey at $1.75 per rod. On motion, J. McDonald's tender of $797 for constructing Camp Slough bridge was accepted.

Council adjourned to meet 8th inst., at 8 o'clock p. m.

S. A. CAWLEY, C. M. C.

Monday Evening, June 10, 1889.

Continuing our remarks on the water works scheme, we would submit, in the first place, for the information of our readers, a few figures taken from the annual reports of officers of the corporation of the city of Victoria for the year 1888. The figures relate to the results of the operation of the water works of that city, and may assist some of our readers to form definite ideas of the probable revenue from, and expenditures incident to, the operation of a system of water works in this place. On page 12 of the report we find the Victoria water works itemized among cash receipts as:

Water works rents	$37,763.93
Fire insurance tax	6,225.00
Making a total of	$43,988.93

And (on page 15) the operating expenses as:

Interest on loans	$15,650.00
Sinking fund	6,099.00
Salaries, printing, &c.	4,901.59
	$26,650.59

Leaving a balance of profit of $17,338.34 on the year's operation—a sum sufficient to pay 5½ per cent. dividends on stock to the amount of the whole cost of the works, were they in the hands of a private company. On page 16 we find the "construction account" of the works given at $261,316.44, exclusive of the "reservior account," which is given at $54,820.47, making a sum of $316,136.91 invested in the works. On page 36 we find the number of service pipes connected with the mains given at 1,738, and, assuming an average of 7 consumers to be supplied by each service pipe (an average which has been established as a fair standard from the statistics of many cities possessing water works), we have a population of consumers of 12,166. The average amount contributed to the revenue derived from water rates, in Victoria, is, therefore, $3.10 per head of the population.

Now, assuming the cost of the proposed New Westminster works to be $200,000, and the annual expenditures upon their operation to be:

Interest at 5 per cent.	$10,000.00
Sinking fund to redeem $200,000 50-year bonds (to be invested at 3 per cent. compound interest, as in Victoria)	1,773.10
Salaries, &c., as in Victoria	4,901.59
We have a total of operating expenses of	$16,674.69

Again, assuming that two-thirds of the present population of Westminster will avail themselves of the proposed works to obtain their water supply—leaving one third to supply themselves from wells, if they prefer to do so—and those who take water will contribute to the revenue the same rate per head as in Victoria, we have, from:

Water rates (4,000 consumers at $3.10)	$12,400 00
Fire protection rate, ¼ of 1 per cent. on the amount of assessment roll of $2,540,245	6,350.00
Making a total revenue of	$18,750.61

Leaving a balance of profit of $1,075.92 at the outset, from a revenue raised from the imposition of ordinary rates such as are levied in other cities, upon those citizens who are directly benefitted by the works. To this balance of profit might fairly be added at least another $1,000 for the value of water that would be afforded by the works for sewer flushing. (Vancouver, which does not own its water works, it might be mentioned here, pays about $1200 for this service.) And if any value be set on public fountains, drinking troughs, &c., the amount of profit to the city would be further augmented thereby.

Some of the statements and assumptions in the foregoing might stand a word of comment. It will be noticed that a fire protection rate of ¼ of 1 per cent. on the assessment roll is mentioned as one of the sources of revenue from the water works. In Victoria this rate is levied as a tax on fire insurance companies, and the companies, of course, take it out of the insurers by the imposition of higher insurance rates. The proposal to levy the tax in this city directly upon the ratepayers is more equitable, and the result will be fully as satisfactory, if not more so. The almost perfect fire protection that will be afforded by the water works for every part of the city will bring insurance rates down to a figure that will more than compensate for the fire protection tax, while, in the case of those who do not make a practice of insuring against fire, the comparative safety guaranteed their homes and property is surely a consideration of value equal to the small tax for that purpose. Moreover, the tax itself would be reduced, or even removed, in time, as the revenue from the works increased, as it is certain to do steadily and rapidly, with the growth of the city and the appreciation of the conveniences and advantages of the works, which must lead nearly everyone to seek connection with the supply. In the foregoing calculations it has been assumed that the present population of the city is 6,000, and that 4,000 persons would take water the first year. If any are disposed to object to these figures as too high, it may be remembered that the water works can hardly be completed in much less than a year from the passing of the by-law, when our population is certain to be much larger than it is at present. On all grounds, there cannot be the slightest doubt that the water works, with liberal terms and conditions given to consumers, will pay for themselves from the start, and provide a surplus that shall be sufficient to make extensions of the works, when required, pay interest and sinking fund on an amount that will be required for sewerage, and eventually prove a source of city revenue over and above all these.

Some people that know little or nothing of the cost of constructing water works, and are utterly incompetent to form an estimate, for the very good reason that that sort of thing isn't in their line, render themselves absurd by scoffing at the estimate which the water works company have figured out as necessary to complete the works, and upon which the city proposes to borrow $200,000 for that purpose and to meet the $20,000 purchase money required, and declare that a much larger sum will be necessary. Last year, when the Coquitlam Water Works Company were negotiating with the Bank of Montreal for a loan to complete the works to this city as a private enterprise, the Bank employed an independent engineer and expert, Mr. H. P. Bell, M.I.C.E., &c., to report on the scheme and as to the advisability of loaning the money asked. Mr. Bell, in his report to the monetary institution above mentioned, figured on water works to supply about 10,000 people and give 75 fire hydrants, and made the total cost of works complete $195,768. This total included an item of $9,900 interest, being one year's interest on the amount expended for construction, before any revenue could be received from the works. As the expenditure for construction would be expended over the entire period of construction, and the whole amount would not be paid out at the commencement, the item of interest noted above would not cost the city probably more than $5,000. Mr. Bell's estimate in the various items provides for a population of 10,000, and in some particulars certain expenditures would not obviously be made until our population approximates that figure. It will thus be seen that the $200,000 proposed to be borrowed will be ample for the purposes required. It should be mentioned that Mr. Bell's report was made upon the prospectus of the Coquitlam Water Works Co., prepared by Mr. A. E. Hill, C.E., and that Mr. Bell's report was practically corroborative of Mr. Hill's estimate on the cost of the works. Mr. Bell concluded his able and exhaustive report with this very favorable and positive recommendation: "I am under the impression that any water works in a rising town of a growing country, that will pay expenses the first year is a first-class investment, and conclude by stating that so far as my judgment serves, I consider the Coquitlam waterworks debentures a safe investment for the Bank now, and the enterprise one of promise for the shareholder in the not distant future."

Liquor License By-Law.

A By-Law to Provide for the Granting of Licenses for the Sale of Intoxicating Liquors within the City of New Westminster, and to Regulate Places so Licensed, and to Fix the Fee for such License.

WHEREAS IT IS EXPEDIENT THAT provision should be made for issuing licenses for the sale of intoxicating liquors within the City of New Westminster, and regulating the houses in respect of which such licenses may be granted, and limiting the number of such licenses, and *fixing the fee to be paid for such licenses;*

THEREFORE, the Mayor and aldermen of the City of New Westminster in council assembled, under the powers contained in the "New Westminster Act, 1888," and the "New Westminster Act, 1888 Amendment Act," enact as follows:

1. It shall be lawful for the Licensing Board for the City of New Westminster to direct the issue of licenses, either written or printed, or partly written and partly *printed, of the several kinds or descriptions* following, that is to say:
(a) Hotel Licenses,
(b) Saloon Licenses,
(c) Wholesale Licenses.

2. Every such license shall authorize the person licensed to sell, subject to the provisions of this by-law and of the statutes relating to the sale of liquors, all spirituous and malt liquors and all combinations of liquors and drinks and drink*able liquids which are intoxicating, and* such license shall be signed by the City Clerk.

3. A hotel license or saloon license shall authorize the licensee to sell and dispose of any liquors in quantities not exceeding two gallons, which may be drunk in the hotel or saloon in which the same is sold.

4. A wholesale license shall authorize the licensee to sell and dispose of liquors in his warehouse, store, shop, or place de*fined in the license, in quantities of not* less than two gallons in each cask or vessel; and whenever such selling by wholesale is in respect of bottled ale, porter, beer, wine, or other fermented or spirituous liquor, each such sale shall be in quantities of not less than one dozen reputed quart bottles; provided that none of the liquor so sold shall be consumed in or upon the premises in respect of which the license is granted.

5. *The Licensing Board for the said city* shall hold a meeting on the third Wednesday in the months of March, June, September and December for the consideration of applications for licenses, and such meeting may be adjourned from time to time by resolution to be recorded on the minute book of the board.

6. Every application for a license to sell liquors shall be by petition to be filed with the City Clerk at least fourteen clear *days before the meeting of the Licensing* Board, and shall be accompanied by a fee of $2.50, to cover the expenses of inspection and license, and a notice of such application shall be inserted twice in some newspaper published within the city, prior to the application, giving full particulars as to the names of parties and the premises in respect of which the license is required.

7. Upon receipt of such application the City Clerk shall transmit the same to the Inspector, who shall inspect the premises of the applicant and report in writing to the board, and such report shall contain: [1] a description in brief of the house, premises and furniture; [2] if the application is made by a person who previously held a license in the city, a statement as to the manner in which the house has been conducted during the existence of the previous license; [3] a statement whether the applicant is a fit and proper person to have such a license, and whether he is of good name, fame and repute; [4] a statement whether the applicant is or is not the true owner of the business of the hotel, saloon or shop *sought to be licensed.*

8. The report of the inspector shall be for the information of the board, which shall, nevertheless, exercise its own discretion on such application.

9. Any person may, either in person, by petition, or through an agent, oppose the granting of a license to any applicant or to his premises, and all proceedings of the licensing board shall be open and public.

10. *No license shall be granted to any* house in the immediate vicinity of a hospital, school or church, nor to or for the benefit, directly or indirectly, of any person who is a member of the licensing board, or a license inspector, and any license so issued shall be void.

11. No person who holds a retail license under this by-law shall be permitted to sell by wholesale, unless such person has also taken out a wholesale license.

12. *No new license for the sale of liquors* shall be granted unless, in addition to the other requirements and provisions in this behalf required by law, a petition or requisition for the granting of such license, signed by a majority of the qualified electors resident within the ward in which is situated the premises in respect of which the license is sought, be presented to the licensing board, and the board shall not be bound to grant such license if, in the opinion of a majority of the board then present, the public interests justify a refusal.

13. When the board is satisfied that it is expedient and in the public interest, that a license should be granted, and the provisions of this by-law have been complied with, and that the applicant is a fit and proper person to obtain a license, it may direct such license to be issued, subject however to the following limitations: [1] from and after the passing of this by-law the number of hotel licenses issued, or to be issued, in the City of New Westminster, shall not exceed thirty until the population of the city shall have been ascertained to be 10,000 or more, and then only one additional hotel license shall be granted by said board for each full 500 in population in excess of 10,000, the basis of enumeration to be the yearly census taken by the assessment commissioner of the city; [2] from and after the passing of this by-law the number of saloon licenses issued, or to be issued, shall not exceed 30, and that any time this number should become reduced through revocation or *other causes, no other or more saloon* licenses shall be granted in lieu thereof.

14. Every license issued under this by-law shall be in force from the date of its issue until the 31st day of December next following, and no longer; and for each renewal of license expired by lapse of time a new application and inspection must be made and the same formalities must be observed as in the application for a new license, except that no petition shall be *required in favor of such renewal of li*cense as provided in sec. 12 of this by-law.

15. The following fees, in addition to the inspection fee, shall be paid for each license granted under this by-law: Saloon license, $400 per annum; hotel license, $200 per annum; wholesale license, $50 per annum; and the said fees shall be paid half-yearly to the City Collector, the first half thereof to be paid prior to the issue of such license, and the other half thereof on or *before the 1st day of July, and if not* paid as provided in this section, said license shall be absolutely null and void.

16. All licenses granted under this by-law shall be constantly and conspicuously *posed in the warehouses and shops for* which they have been granted, and in the bar-rooms of hotels and saloons, and every licensee who violates the provisions of this section shall incur a penalty of five dollars and costs for every day's wilful or negligent omission so to expose such license.

17. No person to whom a license has not been granted shall, by any sign or notice, lead the public to suppose he has such a license; and no person *shall keep or have* at any house, building, shop, eating house or house of public entertainment, or in any room or place whatsoever, for the purpose of selling, bartering or trading therein, any intoxicating liquor, unless to be duly licensed for that purpose under the provisions of this by-law.

18. The preceding section shall not apply so as to prevent any practising chemist or druggist, duly authorized under any act in force in the province to dispense medicine, from keeping, having or selling liquors for strictly medicinal purposes, but no such sale shall be made in packages of more than six ounces at a time, *except under a certificate from a* registered medical practitioner. A record of every sale or disposal of liquors so made, with the name of the person to whom sold or disposed of, and the name of the medical man who granted the certificate for same shall be kept in a book which may be inspected at all reasonable hours by the license inspector; but no liquor so sold or disposed of shall be consumed on the premises in which same are sold.

19. Every license under this by-law shall be granted only for the premises mentioned therein, and shall entitle the licensee to keep only one bar on such premises, and no person shall have granted to him, or shall have, more than one liquor license at the same time.

20. No sale or other disposal of liquors shall take place in any premises licensed under this by-law, by wholesale or retail, *out of or from the same to any person* or persons whomsoever from and after the hour of 12 o'clock on Saturday night until 6 o'clock on Monday morning following, nor between the hours of 12 o'clock midnight and 6 o'clock in the morning of any day; and during the prohibited hours all bars shall be closed, provided always that in hotels and saloons liquor may be sold on Sundays to guests *bona fide* boarding or residing at such hotels or saloons, *to be consumed only at meals, but this* provision shall not permit the furnishing of liquor to such persons at the bar.

21. Every person having a license under this by-law who receives in payment or as a pledge for any liquors supplied in or from his licensed premises anything except current money or the customer's own cheque on a bank or banker, shall, for such offence, incur a penalty not exceeding $20, besides costs.

22. *No hotel license shall be issued to* any premises unless the same have been certified by the inspector to be clean and convenient for the purposes of a hotel, and that there are sufficient appliances for the escape of guests in case of fire, and that there are in the premises in addition to what is required for the use of the family and employees of the hotel keeper, at least 12 bedrooms, together with, in every case, a sufficient quantity of furniture and bedding; and that each of such bedrooms contains at least 384 cubic feet of space for each person occupying the same, and is provided with a window to open at least two feet square; and every hotel shall, in addition thereto, be shown to the satisfaction of the board to *be a well-appointed and sufficient eating* house, with the appliances requisite for serving meals daily to guests or travelers.

23. If at any time after the granting of a license any of the requirements specified *in the preceding section* should be found wanting, then the license for such hotel shall become null and void.

24. Every person licensed under this by-law who permits drunkenness or any violent, quarrelsome, riotous, or disorderly conduct to take place on his licensed premises, or who sells or delivers intoxicating liquors to any habitual drunkard or intoxicated person, or to any person under the age of 21 years, or who permits *any such person to consume intoxicating* liquor on his premises, or who permits any person of notoriously bad character to frequent his premises, or permits any gambling or any unlawful game to be carried on or played on his premises shall be subject to the penalties provided herein and may, in addition, have his license suspended by the convicting magistrate until the next meeting of the licensing board.

25. *No person to whom a license has* been granted under this by-law shall make or use, or permit to be made or used, any internal communication between any premises so licensed and any unlicensed premises which are used for public entertainment or resort, or as a refreshment room or house under a penalty not exceeding $50 for every day during which such communication remains open.

26. Every hotel keeper licensed under *this by-law who fails or refuses, except* for some sufficient reason, to supply lodging, meals and accommodation to any traveller applying therefor within reasonable hours, shall be guilty of a breach of this by-law.

27. Any officer, policeman, constable or inspector, may, for the purpose of preventing or detecting the violation of any of the provisions of this by-law, which it is his duty to enforce, at any time enter *into any and every part of any hotel, sa*loon or other place of public entertainment, shop, warehouse or other place wherein refreshments or liquors are sold or reputed to be sold, whether under license or not, and may search every part thereof and of the premises connected therewith as he thinks necessary for the purpose aforesaid, and every person who is therein and who fails or refuses to admit such officer, policeman, constable, or *inspector demanding admission in the* execution of his duty, or who obstructs or attempts to obstruct the entry of such officer, or interferes with him while searching or inspecting such premises, shall be guilty of a breach of this by-law.

28. The mayor or police magistrate, or other justice of the peace having jurisdiction, may, if he is satisfied by information on oath of any officer or other person that there is any intoxicating liquor kept for sale or disposal contrary to the provisions of this by-law, in any unlicensed house or place within the city, grant a warrant under his hand and seal, by virtue of which the person named in the warrant *may, at any time or times within ten* days from the date thereof, enter, and if need be by force, the place named in the warrant, and every part thereof, or of the premises connected therewith, and examine the same and search for liquors therein, and for such purpose may, with such assistance as he deems expedient, break open any door, lock or fastenings of such premises, or any part thereof, or of any closet, cupboard, box, or other *article likely to contain such liquor; and* in the event of liquor being so found unlawfully kept on the said premises, the occupant or occupants thereof shall, until the contrary be proved, be deemed to have kept such liquor for the purpose of sale, contrary to the provisions of this by-law.

29. Every person who sells or barters intoxicating liquor of any kind without the license therefor by this by-law required, *shall, for the first offence,* incur a penalty not exceeding $50, nor less than $20, with costs; and for the second offence he shall incur a penalty of not less than $50 nor more than $100 with costs; and for the third offence he shall incur a penalty of not less than $100 with costs, or imprisonment for any period not exceeding six months.

30. Any person may be prosecutor or complainant under this by-law, but all information or complaints for the prosecution of any offence against any of the provisions thereof shall be laid or made in writing within thirty days after the commission of the offence.

31. Any person who has *lawfully* obtained a license under this by-law may, on application to the licensing board, have such license transferred to any other person, or to any other premises, if approved by said board; but notice of application for all transfers must be given in writing, and such notice must specify the person and premises to whom or which the transfer is proposed to be made, and must be served upon the city clerk at *least 14 clear days before the meeting of* the board, and shall be accompanied by a fee of $2.50.

32. When in consequence of the death of the person holding a license under this by-law, or in case he, being a tenant of the licensed premises, is ejected, or his lease expires by affluxion of time, or he absconds, or by operation of the law is deprived of the licensed premises, the legal representative of such person, or the *landlord or other person interested in the* premises, or the assignee at law, may, on application to the licensing board, notwithstanding the non-production of the license, obtain a transfer of such license on such terms as may to the board seem just, and application for such transfer shall be a companied by the fee of $2.50, and shall be made as provided in the preceding section; provided, nevertheless, that no such transfer shall be granted *unless a majority of the board is of* opinion that the person to whom it is proposed to make the transfer is a proper person to hold such license.

33. With the exception of the mayor, who is *ex-officio* a member of the licensing board, no person shall sit or vote as a member of said board who is owner or lessee of any place where liquors are sold or proposed to be sold within the city, or who is a partner of the owner or lessee of *such premises,* or who has a direct personal interest therein, and any person knowingly disqualified by this section who sits or votes or acts on said board shall incur a penalty of $50 for each time he shall so sit, vote or act.

34. At all meetings of the licensing board any three members thereof including the chairman shall form a quorum, and the mayor shall be chairman thereof, if he be present, and in his absence any other member of the board may be elected to the chair for the time being. All questions coming before the board shall be decided by a majority of the members then present; the chairman shall vote only in case of a *tie.*

35. A special meeting of the board may be called whenever deemed necessary by the mayor on requisition of a majority of the members thereof, in which case written notice shall be given to each member at least 24 hours previous to the hour fixed for such special meeting, and such notice shall set out the purpose for which the meeting is called, and no other business shall be transacted, except such business as is *stated in such* notice; provided that no license shall be granted or transferred at any special meeting.

36. The city clerk shall be clerk of the licensing board, and shall keep a record of the proceedings thereof in a minute book.

37. The chief of police of the city shall be inspector of licenses under this by-law.

38. No license shall be granted under this by-law to any person under twenty-one years of age.

39. Any person guilty of a breach of this by-law shall, except where otherwise provided, on conviction, be liable to a penalty not exceeding $100 for each offence, or to imprisonment for a period not exceeding three months, or to both fine and imprisonment in the discretion of the convicting magistrate; and all persons against whom information has been laid under the provisions of this by-law may be tried in a summary manner and all penalties inflicted thereunder may be recovered by sale of goods and chattels of the person convicted.

40. The expression "liquor" or "liquors," wherever used in this by-law shall mean and include all spirituous and malt liquors and all combinations of liquors and drinks and drinkable liquids which *are intoxicating.*

41. It shall be lawful for the licensing board at any time to order the cancellation of any license granted under this by-law, if, in the opinion of a majority of said board, the person who holds such license has been guilty of such conduct as to justify such cancellation, or the public interest so demands, and the person whose license is thus cancelled shall have no claim whatever upon the city in *consequence of such cancellation;* and all licenses issued under this by-law shall contain a clause expressly reserving this right of cancellation, and shall otherwise be in such form as may be approved by the city council.

42. Notwithstanding anything contained in this by-law it shall be lawful for the licensing board to hold its first meeting on the 27th day of June, 1889, and any person applying for a license at said first meet*ing shall be deemed to have complied* with the necessary formalities of each application if the petition therefor shall have been filed with the city clerk 7 clear days before the said first meeting; and all licenses granted at said first meeting shall be and continue in force for the period of six months only, namely, from the 30th day of June, A. D., 1889, to the 31st day of December next following (inclusive) and shall then expire and determine, and the *fee to be paid for such license shall be one* half of the annual fee fixed by this by-law for any such license respectively, which fee shall be paid before the issue of such license; but the provisions of this section shall not apply or have any force after the said first meeting of said board.

43. Sections 1 and 2 of Schedule A of the "New Westminster Revenue By-law, 1888" are hereby repealed.

44. This by-law may be cited as the "Liquor License By-law, 1889."

Done and passed in open council the 4th day of June, A. D., 1889.

Port Kells

This Fine Townsite, at the Fresh-Water Junction of the

Southern Railw'y

—WITH THE—

FRASER RIVER

12 Miles Above Westminster,

Has just been Surveyed, and the Lots are for sale by

WOODS, TURNER & GAMBLE

—AND—

ALBERT J. HILL & COMPANY

OF NEW WESTMINSTER, B. C.

The advantages and prospects of this Plot for a future thriving Town are many.

The Land in the vicinity is good.

There are inexhaustible IRON ORE DEPOSITS, of a superior quality, immediately adjacent, as well as vast strata of the finest BUILDING SAND and POTTERY CLAY.

On the Townsite are a number of valuable MINERAL SPRINGS.

Communication by land and water is unequalled, by reason of the location of the Townsite on the Fraser River and the Southern Railway, while the natural elevation and lay of the land can not be excelled as a situation for a fine town.

The ground is open and clear of heavy timber.

The site has been selected as one of the most important stations on the *Southern Railway, and with the com*pletion of the road, in the near future, must, with all its other advantages, spring into prominence at once.

Those who apply early will have the pick of the Lots.

A clear title given with every purchase.

Parties wishing Lots can apply as well, on the premises, to

Fish are still exceedingly scarce.

Another day and no police court.

Strawberries and Cream at the "Club." *

All the fashionable iced beverages, at the "Hub," next the "Queen's." *

The city council meets to night at 8 o'clock for the transaction of business.

Russell's Restaurant, opposite the American Hotel, open day and night. a9m3*

A re-count shows the recent Mitchell Ont., mayorality election to have been a tie.

200 lots on the Thorne road, from $65 upwards at $10 per month.—W. Reidt, Front street. *

Just received a lot of new California potatoes at Rae's (successor to McPhaden) grocery store. 3t*

The str. *Gladys* left for Chilliwack this morning with a large number of passengers and a full lead of freight.

The str. Dunsmuir left for Nanaimo this morning with a full load of lumber and merchandise and a number of passengers.

North Arm Road Lots, *from $100;* Sapperton, $150; and Brownsville Acre Lots at $100, on easy terms, at W. J. Walker & Co's. *

The annual meeting of the shareholders of the New Westminster Southern Railway will be held on Tuesday July 2nd.

Gents' Balbriggan and Natural Wool Underclothing; Summer Coats and Vests. Just the things for the hot weather—at J. E. Phillips. 3t*

Look out for the great sale of lots in the town of Seattle, at the Mission Bridge, on June 15th next. For particulars, apply to Wm. Reidt. *

The unemployed fishermen are beginning to grumble very loudly, and are anxiously awaiting the result of the inspector's reply to the advisability of issuing 50 extra licenses.

Up to the time of going to press there was no word of the str. Rither, which was due at 8 o'clock this morning. It is supposed she is detained at Plumper's Pass by heavy weather.

The annual school meeting was held at 11 o'clock this morning at the city hall. The report of the board of trustees, which was read, together with other proceedings, will appear to-morrow.

The *Dominion Illustrated* for June 1st has a portrait and a lengthy sketch of the late Hon. Robert Dunsmuir, and also gives several views of British Columbia scenery among its fine landscape pictures.

By a notice elsewhere it will be seen that a public meeting is called for to-morrow (Tuesday) night, at 8 o'clock, by the mayor, on the requisition of a number of the ratepayers to discuss the water by-law.

A good time to-morrow (Tuesday) evening at the Baptist church, where a strawberry festival and sale of work will be held, to commence at 4 p.m. Strawberries and cream, cake, etc., for 25 cents—admission free. *

A boat load of smuggled Chinamen was captured at Port Townsend a few days ago. One of the Celestials when searched had nearly two pounds of gold nuggets, from the size of a pin head to a small egg, stored on his person.

Clearing and bush fires keep the atmosphere in a very smoky condition. The festive mosquito naturally objects to anything but pure and unadulterated breathing matter, and shows its resentment to the smoke by diving deeper inland.

Some native horses in the C. P. N. corral this morning provided an interesting spectacle for a large crowd of onlookers The "bucking" capacity was unusually well developed, and the many antics and back somersaults they cut were surprising to behold.

King & Cassey's camp at Seymour narrows, is doing the best work that has been done on the Pacific coast. At the beginning of this week they had 2,000,000 feet of lumber in the water. This firm employs 25 men and 18 cattle. Times are rushing in the logging business.

The s. s. Idaho arrived in port at 10 o'clock last night from Portland, bringing 50 tons of merchandise. She discharged her cargo and sailed at 2 a.m. for Nanaimo. The trade by this line is increasing so fast that a second steamship will be chartered and put on the route almost immediately.

Lots in the town of Sumas, Whatcom county, on the boundary line, at the junction of the Canadian Pacific and Seattle Lake Shore & Eastern Railroads, are now on the market at bedrock prices, and are selling fast. Buy quick before the choice lots are all secured.—RICHARDS, HAYWOOD & MACKINTOSH. *tc

Col. McGregor, secretary of the public meeting held recently, and which passed resolutions on the fishery licenses question, which were forwarded to Ottawa, received an acknowledgement to day from the deputy minister of marine, with the assurance that the minister was giving the matter his careful consideration.

Children Cry for Pitcher's Castoria

Great Indian Gathering.

Bishop Sillitoe left for Lytton on the Atlantic Express this afternoon to be present at a large meeting of Indians, at Treatannie, which takes place this week. Treatannie is about 15 miles inland from Lytton, and is a headquarters for Indian gatherings. Over 2,000 Indians will assemble there to be instructed by the bishop; some will be confirmed and many children will be baptzied. The meeting commences to-morrow and will last till Monday next. Mrs. Sillitoe, who is an indefatigable traveller and an ardent worker in the good cause, accompanies the bishop. They will be absent eight days.

Spoon Competition.

The "spoon competition" held by the rifle association on Saturday resulted as follows:

	200	500	600	Tot'l
J C Chamberlain,	28	29	26	83
T J Trapp,	25	25	30	80

C Hamber	16	14		
J C Fraser	26	21		

1st class spoon won by J. C. Chamberlin.

2rd class spoon won by B. Finlayson.

Again Postponed.

Mr. W. H. Grassie arrived back from Seattle last night by the Premier. He says that owing to the largeness of the docket in the Seattle court, the case against Carlyle and Coberty will not come up for about a fortnight. He has not yet got what jewellery belonging to him was found on the prisoners, but he will have no trouble in getting it when the trial of the prisoners has taken place. This jewellery will not amount to as much as at first expected only being worth about $450. Mr. Grassie will thus lose about $1,000, besides being put to considerable expense in leaving his business and going to Seattle to appear against the burglars.—*News.*

A Grasshopper Plague.

Mr. Joseph Guichon, of Nicola valley, arrived from the interior yesterday and brings the intelligence that the grasshopper plague is likely to prove very disastrous this year. The grasshoppers are appearing in millions and though young and only commencing to fly, have done a great amount of damage. It is thought they will eat up every green thing in the valley, and stockraisers and farmers are becoming very anxious. If the hay crop is all destroyed and the grass on the ranges eaten up, the ranchers will either have to import feed or take the chance of their cattle starving to death. One thing is certain, however, the plague is likely to prove ruinous to many stock raisers. The valley suffered considerably from a visit of these pests last year, and this affliction following so close cannot but result disastrously.

Golden Chimes.

The marriage of Mr. H. N. Rich to Miss May Green, daughter of C. F. Green, Esq., was solemnized at All Saints church, Ladners, this morning, Rev. C. Croucher officiating. The church was thronged with friends of the high contracting parties, who assembled to witness the ceremony. The bride was attired in a handsome travelling dress and looked very charming indeed. After the ceremony the usual wedding breakfast followed, which was attended by many friends and relations. The happy couple were the recipents of many beautiful presents, both costly and useful. Later in the day Mr. Rich and bride, amidst a shower of old shoes and rice, left for Westminster. From this city they go to Victoria and other cities on their wedding tour. THE COLUMBIAN extends heartiest congratulations to the happy couple.

From Seattle.

Mr. Wm. Reidt returned from Seattle yesterday, where he was when the terrible fire occured. He was staying at the Occidental hotel and had the misfortune to lose all his baggage and a number of valuable maps, the whole valued at $600. Mr. Reidt says the fire broke out suddenly, and though 4 streams of water were soon playing on the flames they proved ineffectual and the fire was soon beyond control. The water soon gave out, and from the start the force was very weak. Salt water was tried but the engines would not pump it. The Occidental was consumed in 10 minutes from the time it took fire. It was Mr. Reidt who warned the captain of the s. s. Ancon that the flames were bursting out from under the wharf against the vessel's side, and it was owing to this warning that the vessel was cut loose in time to escape being consumed in the general conflagration.

Latest From Toad Mountain.

A. L. Davenport has purchased the Eagle gold ledge and two adjoining claims, which gives a good return for the year's work of the worthy vendors Messrs. Nail & McDougall.

Mr. W. White, who has been hunting for 13 months a ledge a few hundred yards up the hill, on float that prospected highly, was rewarded lately by discovering a fine small vein running parallel to the Eagle.

It is believed that mill work at Eagle creek will be at once undertaken.

The English company's mill on Cottonwood creek is being rapidly constructed.

At Nelson a new house will go up every week as soon as the sawmill can supply lumber.

Dr. Hendryx is reported to have said that he will contract to supply 300 tons a day of galena ores from his company's mine on Kootenay Lake, and to this a great addition could be made if means of transportation existed.

On Cottonwood Creek, about 6 miles up, a man named Stanley, who owns the Golden King claim, is erecting a new roller process mill equal to a six stamp mill. This claim is said to be one of the best in the district.—*Sentinel.*

Mrs. Wright of Toronto, who it is claimed, furnished medicine to the late Kate Dunbar to produce abortion which killed her, has been remanded, but she is to be released in the meantime if the coroner's jury exonerates her. There is no truth in the report that the authorities intend prosecuting her betrayer.

Lacrosse Points.

After the match on Saturday afternoon the Vancouver team was dined by the home club at the Colonial, Mr. Jas. W. Harvey, the president, in the chair. A splendid dinner had been prepared by "mine host" Pithers, and which was done ample justice to by the company. Many toasts were drunk and speeches made, and a most enjoyable evening was spent. The Vancouvers acknowledged that they came over expecting an easy victory, but found the Westminster men of much superior mettle to what they expected.

Regarding the play of the visitors, of which no mention could be made in Saturday's issue much can be said. As a team they played well, and brilliant individual plays were frequent. Quigley and Suckling carried off the palm, but all played well.

For Westminster, J. C. Whyte carried off the honors. His goal keeping was superb, and the many hot attacks he withstood earned him frequent rounds of deserved applause. When Whyte went for the ball he got it, despite the fact that the Vancouvers home was as strong as could be put on the field. Thompson played a splendid game, worked like a hero and proved himself a thorough good man and equal to any of his opponents. Corbett, N. A. White, and Carrie played a strong game, and did not spare themselves in the least. On the whole, Westminster's defence was good. Gow in centre field astonished the visitors as well as the spectators. His brilliant running, catching and dodging showed he was no amateur in the science of lacrosse. Polley was the most conspicuous figure among the home players, and he worked nobly, but unfortunately, not being strongly supported, his efforts did not count for much except to ease the strain on the defence, which was very acceptable to the latter. Among the new players Turner showed the best form, though Lewis, Dockrill, McMartin, Lister and Rischenbach all did good work and played pluckily throughout.

Westminster seemed to overlook the importance of covering their men closely, and it was no unusual thing to see four or five Vancouvers uncovered at the same time, which gave them repeated opportunities of attacking the flags. These chances were never lost. Team play was not observable on the part of Westminster, which was very regrettable as many of the wild throws resulted in the rubber dropping into one of the visitor's sticks. Careful attention to these points will prove advantageous in future matches.

On the whole the Westminsters did credit to themselves, and proved that they are made of the right sort of metal. The return match will be played at Vancouver on the 22nd inst.

THE RUSSIANS.

The Officers of the Kressyer Believed to be Spies.

A prominent gentleman of the city, who has means of finding out secrets possessed by few others, and is generally right in his conclusions, expressed himself as follows to our reporter today on the recent visit of the Russian man-of-war to this coast: "From the actions of the officers of the Russian couvette Kressyer, which recently visited Esquimalt, I am led to suppose that their visit was not a wholly disinterested one. It is reported that they took observations and notes of the various places about this city, which could be made available for defence in case of war, and it is to be surmised that their call at Vancouver is instigated by a similar purpose. Nanaimo and Seymour Narrows are their next objective points, where they will acquaint themselves with the strategic and coaling features peculiar to those localities. From what I can understand these Russian functionaries were shadowed here in Victoria. Their interest in certain localities, combined with the copious notes they were taking, first excited curiosity, then suspicion, ending with a close watch on their movements. They call at Vancouver and the other places mentioned being unusual in Russians, seems to offer corroborative proof of their sinister designs. And when we come to think of it, why should not the Kressyer have sealed at San Francisco instead of Esquimalt. This was apparently a pretext for a visit, and to give the officers time to gather the information they were after without exciting undue suspicion. We may be taking an exaggerated view of the matter, but taking into consideration the surrounding circumstances there seems to be ground for credence, and we may make up our minds that the Russian when he shall have left our waters will be as fully acquainted as we with our ability to defend them.—*Times.*

CORRESPONDENCE.

Fishing Licenses.

EDITOR COLUMBIAN.—Some weeks ago the fishermen petitioned the Dominion government, asking that an extra number of licenses be granted for those fishermen who have complete fishing outfits, and later we learned that Mr. Mowat had been instructed to report on the advisability of issuing 50 extra licenses. We have heard nothing as to his report, but rumor says he will report unfavorably. The public meeting asked the board of trade to assist the fishermen, but that body politely declines to make any suggestion in our favor, which action really means a support of the cannerymen's ideas. It is about time that the fishermen who have been idle for three months should know what is going to be done with them, as valuable time is being wasted by the present uncertainty of what is to follow.

LOUIS L'HENAFF.

LATE CANADIAN NEWS.

An incendiary fire was discovered in the co-operative grocery store at Winnipeg at midnight Friday. The place was badly gutted.

Damage to the extent $50,000 is said to have been done to fruit in the Owen Sound district, Ontario, by the recent frosts.

At the University Convention Saturday afternoon, at Toronto, Sir John Macdonald, Hon. Edward Blake and other notables received the degree of L.L.D.

Mr. Van Horne left Winnipeg on an inspection of the Brandon-Souris route. He was to have been joined there by several St. Paul gentlemen on Sunday and proceed to Vancouver.

Friday was a busy day at the Canadian Pacific station at Winnipeg. Six hundred Ontario excursionists arrived and were despatched on special trains to various parts of the province.

Children Cry for Pitcher's Castoria

The North Ontario Liberals have nominated A. P. Cockburn for the commons and T. J. Gould for the legislature.

The American steamer Calumet has been fined $400 by the minister of customs at Port Arthur for an alleged infringement of the wrecking laws in assisting an American schooner off the bar Friday.

Waldroom Steward Smith, of H. M. S. Comus, left Halifax, N. S., on the steamer Halifax for Boston on Wednesday, after having embezzled a large sum of money from the officers and men of the ship. He took with him a married woman of Halifax. On learning of his departure word was telegraphed to the British consul at Boston to arrest him before the steamer would arrive at her dock, and news has been received that the arrest has been made.

Mr. Van Horne arrived at Winnipeg yesterday, accompanied by Mr. Thomas Skinner, of London, Eng., a newly elected director of the Canadian Pacific Railway, Mr. Robert A. Smith, of the Allan Line, Montreal, and Mr. P. Alexander Peterson, consulting engineer. He stated that the present trip was for the purpose of making the usual spring inspection of the entire line. Great improvements are contemplated during the coming spring. The road bed will be greatly improved. The party were to leave to-day for a trip over the Brandon branch, 100 miles of which will be located forthwith, and the line will be extended to the Southern Assiniboine.

Just after the Chinese murder, Chief Sheppard offered a reward for the knife with which it was supposed the deed was done. A man to-day brought a horribly dull and rusty looking article to Sergt. Walker, saying that it had been found near the scene of the murder, and the finder thought that it was probably the knife used in the killing. It could not have been, however, for it was so dull that one could ride on it without a saddle, and it would hardly cut butter, let alone decapitate a healthy Chinese.—*Standard.*
