The Daily Canadian

VOLUME I. No. 58. NELSON, B. C., FRIDAY, AUGUST 10, 1906. FIFTY CENTS A MONTH

SCHOOL FEE FIXED

Non-Resident Pupils Must Pay to Attend

BASED ON AVERAGE COST

Nelson Trustees' Reply to Refusal of Education Department to Concede Anything.

Hereafter the children of non-resident parents who wish to attend the public schools of Nelson must pay fees at the rate of $1.50 per month.

To the end of the last term no fees were charged and no questions asked as to the place of residence of any pupil who presented himself for enrolment.

When the present board of school trustees presented their estimates of expenditure for the current year to the city council in February last, the council demurred at the amount asked. After some delay a conference was held between delegates from the council and the trustees. Several possible reductions were proposed on behalf of the council by Alderman Selous. All but one were finally withdrawn.

It was agreed that the board should state the case to the provincial education department, and ask for a special grant in respect of the educational facilities afforded to non-resident pupils.

The request was accordingly made by the secretary, Dr. Arthur, and promptly refused by the department. Some further correspondence has since passed as a result of a petition from residents in Addition A to the provincial government for provision for their children to attend the city schools, to which no answer has been received, other than a suggestion from the superintendent of education that the boundaries of the city of Nelson school district should be extended to include all suburban districts not contained in the Hume addition.

At its July meeting the board of trustees instructed Dr. Arthur to estimate the per capita cost of education in the Nelson public schools and make that the charge for the admission of non-resident pupils.

Dr. Arthur completed his task this morning and fixes the amount at $1.50 per month, which will amount to $15 a year, as the average cost per pupil to the city directly, exclusive of the grant from the government.

Asked as to the conditions of payment, Dr. Arthur replied that they could be fixed by the board, presumably payment for each term at the beginning, $6 for the fall term and $9 for the long term.

The situation created is a peculiar one. Since the last amendment to the school act the cost of school maintenance is thrown directly on the constituencies. Except the residents of Fairview, none of the residents of Nelson's various suburban sections are organized into municipalities for any purposes, and cannot levy school rates if they wish to do so.

Not being within the limits of the Hume addition school district nor ratepayers in it, they are not entitled to send their children there. There is, in fact, no school to which they can claim admission.

It is still within the powers of the provincial government, in its capacity of council of public instruction, with or without the consent of the Nelson city council or school board, to alter and extend the boundaries of the Nelson city school district so as to include all residential areas in the neighborhood, a course which it has been stated semi-officially, is not at all unlikely to be followed. The children of non-residents would then be entitled to attend the city schools, and all ratepayers in adjacent districts would be taxed for school purposes on the basis of assessed value of property, the rates being collected by the government officials.

Will Be Godfathers.

Berlin, Aug. 10.—The king of England and emperors of Germany and Russia will be godfathers to Emperor William's grandson, whose christening has been postponed from August 12 to August 29.

Nelson-Gans Glove Contest.

Goldfield, Nev., Aug. 10.—Joe Gans and Billy Nolan, manager for Battling Nelson, signed articles last night for a Nelson-Gans fight in this city on Labor day. Gans agreed to accept $10,000 as his share of the purse under the following agreement: Straight Marquis of Queensbury rules to a finish. Weight agreed upon, 133 pounds, weigh in at 3 o'clock; purse to be cut so that Nelson will get $20,000, win or lose, Gans to get $10,000, win or lose; Gans and Nelson each to post with John S. Cook & Co., bankers of Goldfield, the sum of $5000 on signing articles of agreement at Goldfield August 10, at 2 p. m.

ARE LEVYING ATTACHMENTS.

San Francisco Fire Losers Are Determined to Collect Policies.

New York, Aug. 10.—Attachments were levied yesterday on the property of the Trans-Atlantic Fire Insurance company of Hamburg, held by the trustees in this city as well as on that in the possession of the state superintendent's office. This action was taken by the attorneys retained by the San Francisco policy-holders, and was WWW11:ffffdwn2adn hrd hrd hrdshm due to the refusal of the company to pay claims in fire losses at San Francisco, on the ground that the destruction by fire was an act of Providence, excepted in the form of their policy. Most of the trust funds of the company are in New York state.

The policy-holders decide ato bring the action here. The state superintendent of insurance has on deposit with him $565,000 of the company's money. An attachment was served on him yesterday for that amount. Considering himself in a position similar to that of a receiver of a corporation, however, he will take no action in the matter personally, as the amount of the claim, is over $800,000. Attachments will be levied on all property held by the trustees in this city.

WHITE AT VICTORIA

Vice President of C. P. R. States His Views on Chinese Labor Question—Advocates Immigration.

(Special to the Daily Canadian.)

Victoria, Aug. 10.—William Whyte, second vice president of the C. P. R., is in Victoria. In an interview had with him by the Colonist he dwelt at length upon all the points of the labor question, which, both regards agricultural and domestic service is much more acute in the East than in the West. Touching upon the matter of Chinese labor he deprecated the attitude of the labor organizations as inconsistent and ill-advised, as it was originally through the attitude of the artisans that Chinese labor had been first imported, and at the present juncture it would not interfere with the labor interest. The influx of Japanese has been checked by the course of Japan's enterprise being diverted to Manchuria and Korea, and provided that the removal of the poll tax with a view to the admission of Chinese labor, joined with strict instructions limiting their sphere of activity to agriculture, market gardening and laundry work only, he thought such a step could not be other than beneficial to the country. He trusted that when this fact was fully grasped by the men, their opposition would be voluntarily withdrawn. The step suggested would not constitute any menace to their legitimate rights or conflict with their vested interests.

Royalty on Board.

Cowes, Aug. 10.—King Edward and the Prince of Wales wer eactive participants in today's racing, being among those on board Viscount Iveagh's Gateona in the contest of schooners over the queen's course. The other entries were Emperor William's Meteor, Sunshine, Clara and Adela.

In the race for cutters and yawls the starters were Navahoe, Karaida, Whiteheather, Merry Maid and Nyria. The weather on this, the last day of the Cowes regatta, continued bright, with a good breeze blowing.

Cowes, Aug. 10.—The Adela won by 1 second on time allowance. As a strong coincidence the Nyria, which was third to cross the line in the race for cutters and yawls, was also declared a winner by 1 second on time allowance.

Sufferagetes Movement.

Copenhagen, Aug. 10.—The conference of the International League of Women Suffragists today decided to hold the next conference in Holland in 1908. In connection with this conference there will be mass meetings at Amsterdam, The Hague and Rotterdam. The conference also decided to publish an official paper in English in the interest of the suffragist movement.

Mayors Will Discuss.

Des Moines, Iowa, Aug. 10.—The program for the annual meeting of the American League of Municipalities, to be held in Chicago on September 2, includes an open discussion of municipal ownership in which Mayors Coatsworth of Toronto, Dunn of Chicago, Adams of Buffalo, and other speakers will take part.

CLOSE SEASON FOR CABINET MINISTERS

Ottawa Letter Contains Verbatum Report of Lord Strathcona's Protest---A Strange Story of Ballot Box Stuffing in Rabbitskin District.

Ottawa, August 5—This is an off time in politics at the Capital. The Ministers are all away but two or three and these are confining themselves pretty closely to departmental details. Still the machinery has been sufficiently active to make a few appointments and to consider others. For example Mr. Savard, former Liberal member for Chicoutimi, has been comfortably provided for with an $1.800 office in the Transcontinental Railway Commission.

At last accounts the Mounted police officers, supposed to have been sent in hot haste to bring back to Prince Albert H. P. Moberley, who was engaged to work with the census staff, have not yet reported their man. It must not be forgotten that Mr. Moberley is an expert election manager. He was sent last year with two or three others to the country far north of Prince Albert to hold a provincial poll. After going a day's journey into the wilderness they held a poll all by themselves, inventing names of electors, filling the ballot box with ballots, and the poll book with the names which they had created. It was a unanimous election party, and they brought back a return of over two hundred votes for the Government candidate and none at all for the Opposition. The favorite name forged by the returning officers was Rabbitskin. About fifteen votes for the government were polled by the Rabbitskin family.

At first the scheme worked very well. The government canditate had been defeated in the town and neighboring settlements. Only the Rabbitskin votes saved him. But after he was declared elected and the truth came out, he thought it well to resign. Mr. Moberly and his colleagues were prosecuted. Though they had the assistance of the local agent of the Department of Justice to defend them were convicted.

Mr. Oliver has gone with his family to Europe to re-organize the immigration business. Having unloaded Mr. Preston on Sir Richard Cartright, and given the North Atlantic Trading Company notice that their bonus will be discontinued it becomes Mr. Oliver's duty to make other arrangements. First of all he ought to have an understanding with Lord Strathcona. The High Commissioner certainly has good ground to demand a large assortment of appologies from the Minister of Interior for the slanderous statement made in 1905 and this year that he was responsible for the North Atlantic Trading Company contract.

One year ago Mr. Foster was condemning this contract in the House and mentioned Mr. Preston as the man who made it. Mr. Oliver interrupted saying "I beg the honorable gentleman's pardon. If he would change the name to Lord Strathcona.". And Sir Wilfred Laurier, speaking on the same day, July 13, 1905, "I now come to the practical side of this question. It was first introduced by Lord Strathcona and was then continued by Mr. Preston on the terms agreed to by Lord Strathcona."

Writing this year to Sir Wilfrid Laurier Lord Strathcona states that the proposal accepted by Mr. Preston has been informally made to him on previous occasions and had not been entertained. His Lordship adds: "It is only proper to add that the suggestions never commended themselves to my better judgment but it was urged upon me so strongly that a trial might be given to the scheme and it was received with so much favor with the Department of the Interior, that I did not feel justified in the circumstances in withholding such assistance as I could properly give to carry into effect the declared policy of the Department."

Again, Lord Strathcona says: "While personally I could not approve of the proposed arrangements, I felt it incumbent on me, under the circumstances, to carry out the policy of the Government, but at the same time I wish most distinctly to disclaim the direct responsibility attributed to me in the matter."

In another letter Lord Strathcona gave some of the reasons he had for not favoring the contract. He said that the contractors would get the advantage "without any great expense or effort to themselves of the movement which was bound shortly to take place as the result of our continuous educational work with the various agencies of the continent."

Today Lord Strathcona expresses the opinion "that the immigration which has taken place would have been at least as large under ordinary circumstance under the arrangements prior to 1899."

EVERYONE AT THE DANCE

Waltzing Contest Decided, but Prize Was Missing—Approaches to Park Too Dark.

The Twenty Thousand club dance at the Pavilion last night attracted nearly all Nelson to the park. From early in the evening until nearly ten the outward bound cars were crowded to the limit. The rear platform of the big car carried 14 men on one trip.

The committee might arrange for a few more lights between the car terminal and the park. The ground is rough and walking uncertain in the dark. Chinese lanters lit up the park but many had burned out before the evening was over.

The beach was lined with lauches, boats and canoes, and the park was fairly crowded.

Only a few of the more enterprising attempted to dance, but the rest enjoyed looking on or strolling on the beach.

The waltzing contest resulted in a victory for Miss E. Withrow and O. Stevens. Then it turned out that the prize, the handsome belt, was missing. It had been handed by one of J. J. Walker's employes to H. E. Douglas, of the entertaiment committee, who in turn handed it to J. Jackson, caretaker of the pavilion.

When the prize was awarded and it became the duty of the mayor or Captain Gore to place it aroud the waist of the victress i twas not forthcoming. It is reported to have been foud today.

The dances are evidently meeting a genuine want, and are incidentally supplying the Twenty Thousad club with the sinews of war. A small investment for more light would undoubtedly be profitable.

ST. PETERSBURG SITUATION.

Government Organ Insists That Proper Course Has Been Taken.

St. Petersburg, Aug. 10.—The Rossia today protests energetically against the charge of insincerity against the government because it has taken measures to stop the agitation of those whose real purpose was to seize the reins of power. The paper insists that the government intends to introduce reforms and says its only change of policy is the abandonment of its former passive attitude, claiming that it is entitled, as a party to the fight, to make an active campaign in support of its views.

Verooyansk, Aug. 10.—A roving band of Circassians rode into the railroad station here yesterday and robbed the cashier of $47,500.

Moscow, Aug. 10.—A band of men on bicycles are systematically robbing village churches in this vicinity, avowedly with the intention to secure funds for the revolutionists.

London, Aug. 10.—The Evening Standard today announced that inquiries were being made on behalf of the Russian government among British shipbuilders with reference to the construction of more battleships.

FRANCE LENDS A HAND

Leading Statesmen Forward Document to Emperor Extolling Russian Duma.

Paris, Aug. 10.—The leading senators, deputies, former cabinet ministers and members of the academy have united in an address extolling the outlawed Russian parliament as the bulwark on which Russian hopes are dependent. The address says: "History teaches us that a representative government and individual liberty form the only certain means on which a nation can found progress and prosperity. As the friends of Russia we watched with profound interest the cessation of the Russian parliament after its heroic struggle for existence. The triumph of liberty in Russia, which we hope is near, will permit the Russian and French people loyally to support the Franco-Russian alliance on the basis of common ideals and interests. The Russian parliament is dead. Long live the Russian parliament.

Senator P Berthelot, ex-minister of foreign affairs, forwarded the address to Professor Mouromsteff, who was president of the lower house of the Russia nparliament.

Pulajanes Still Active.

Manila, Aug. 10.—First Lieutenant John F. James and two privates of the Eighth infantry, with Contract Surgeon Calvin Snyder and International Revenue Collector Williams, were killed yesterday afternoon in a hand-to-hand fight with a force of Putajanes at Julita, island of Leyte. The detachment which consisted of ten men, was greatly outnumbered, but made a gallant fight. The Putajanes captured three pistols, four Krag-Jorgensen rifles and 300 rounds of ammunitoin.

SASKATCHEWAN MASONS.

Grand Lodge Is Formed for New Province and Elects Officers.

Regina, Sask., Aug. 10.—The Masons of this province gathered in Regina today in great strength for the purpose of forming a Saskatchewan grand lodge, A. F. & A. M. The number of delegates in attendance far exceeds all expectations. No less than 25 lodges are represented out of a total of 28 in the province. Representatives are here from almost every province in the Dominion, including Bro. Brand of New Westminster, Right Worthy Bro. Morris of Prince Edward Island, Most Worthy Bros. McKechnie and Jas. A. Ovas of Manitoba, and others.

Great interest and enthusiasm is being shown in the proceedings. This evening the visiting delegates were entertained by the local Masons at an elaborate smoking concert, which proved in every way a success as great as the earlier proceedings.

Steamer Grounded.

Ponta del Gada, Azore Islands, Aug. 10.—The Zotti line steamer Brooklyn, from Marseilles August 4 via St. Michaels, Azore islands, for New York, with 360 immigrants on board, grounded while entering port today. Efforts are being made to float her, but they are meeting with great difficulties.

A CRICKET EXCURSION

Many Citizens Will Accompany Local Players to Victoria to Witness Coast Tournament.

Mayor Gillett, F. A. Starkey and T. Morley are canvassing for members of the board of trade or others who will join in the special excursion to the coast. It is now assured that enough will go to secure a special car and single fare.

The excursion will leave Nelson on the 17th instant, arriving in Victoria the afternoon of Sunday the 19th. The cricket tournament will begin the following morning.

Edgar Mason has found it impossible to go and Mr. Gregg has not yet been heard from definitely, but nine of the 14 cricketers who are going have bowled before and are capable of doing creditably.

A. W. Dyer, secretary of the Nelson Cricket club, has had a letter from J. C. Barnacle of the Victoria Cricket club, announcing that definite arrangements for the tournament will be made and communicated promptly.

Cricket has been unusually popular on the coast this summer and it is fortunate for Nelson that a local team is ready and willing to journey to the capital and sustain the credit of the Kootenays.

Building Kootenay Central.

Work is still progressing steadily on the construction south from Golden of the Kootenay Central railway. The grading already done will be connected with the town and main line by driving piling across Phantom lake and filling the trestlework in by means of work trains. A fine new bridge is to be built across the Kicking Horse river a little east of the present bridge, and it is reported the railawy station will be moved to the junction at that point. As soon as the trestlework is filled in a start will be made with laying the ties and rails.—Revelstoke Mail-Heradl.

Anglo-Chinese Convention.

London, Aug. 10.—The text of the Anglo-Chinese convention respecting Thibet, which was signed at Pekin on April 24th, was issued last night and confirms the explanation given in the House of Lords on May 1st by Lord Fitzmaurice, under secretary for foreign affairs, that the convention did not alter the arrangement constituted by the Anglin-Thibetan treaty.

Swinging Scaffold Falls.

Calggary, Alta., Aug. 10.—A swinging scaffold on the public school building fell today, with four men upon it, a distance of 40 feet. J. R. Bristowe, a stonemason, hit his head against a sill, fracturing his skull, and died in a few hours. J. McDonald sustained a fracture of the spine and will probably die. The others got off with light injuries.

Standard Oil Indicted.

Jamestown, N. Y., Aug. 10.—The federal grand jury for the western district of New York this afternoon returned indictments against the Standard Oil company of New York for granting rebates to the Panama Railroad company, and the Vacuum Oil company of Rochester, in the violation of the interstate commerce law.

THE BANK AFFAIRS

Latest Revealations Make Things Worse

HERRING SEEKING COVER

Explains How Systematic Forgery Was Conducted With His Consent.

Chicago, Aug. 10.—In addition to the discovery of a private ledger kept by President Paul O. Stensland of the wrecked Milwaukee Avenue State bank, in which was concealed a record of $191,000 of savings bank deposits, another sensational book came to light during the examination of Cashier Herring by Assistant States Attorney Olsen at the bank last night. This book showed that the misuser was a heavy plunger on the races. It contained memoranda of the campaigns on the turf. One day Stensland and some companions bet $75,000 to win $60,000 on a certain horse, and the animal won. There were lots of losings, however, shown by the book. The authorities are chary of reposing implicit confidence in Herring's statement that he did not forge the names on certain notes, and by implication insinuating that Stensland did.

The actual securing of money on bad paper was always put through at noon, when the paying teller was at lunch. Then Herring would enter his cage, take the money and leave a debit slip on the hook. This is what happened on July 28. Herring admits that he took $1000 from the paying teller's drawer, put the money in his pocket and put on the spindle a slip charging the sum to a mythical "Umbach." In the case of the money borrowed by Stensland from the bank Herring said that Stensland had instructed him to make between $700,000 and $900,000 in forged notes signed with the names of prominent patrons of the bank. Also at Stensland's dictation he cared for these notes and credited interest on them from time to time, and was directed by Stensland to keep them carefully away from the eyes of the note teller in order that notice should not be sent to bank patrons whose names had been forged.

GLEANED AT GREENWOOD.

Heavy Forest Fires Are Raging Round the City—New Water Mains.

(Special to The Daily Canadian.)

Greenwood, B. C., Aug. 10.—The funeral of Mary Eleanor, youngest child of G. B. Taylor, city clerk, took place from the family residence on Kimberley avenue yesterday morning. The services were conducted by the Rev. J. Leech-Porter and the remains interred in the Church of England cemetery. The city council attended in a body.

Miss Marie Hodge of London, Eng., arrived in Greenwood by Wednesday's Canadian Pacific train and is visiting with her brother, L. B. Hodge, local manager of the British Columbia Telephone company. Miss Hodge is the secretary of the Women's Institute, a bureau of information with wide affiliations. The object of the institute is the advancement of women's interests generally, and Miss Hodge is inquiring into conditions prevalent in Canada.

A rather heavy forest fire is raging in Kimebrley camp, north of Greenwood, and the air is quite heavily smokeladen. Fortunately no fires are near the city, nor near any mining plants. The summer has been very dry, but the vigilance of the provincial officers has thus far prevented any damage.

The city is having a water main from the Twin Creek reservoir to the corner of Copper and Deadwood streets, with the intent of supplying water for street sprinkling and Burns & Co., and the Boundary Creek Times' motors therefrom, shut preventing 9''?SFcmfsh therefrom, thus preserving the Lind Creek supply for domestic purposes. The Lind Creek water is remarkably pure, while the Twin Creek supply is extremely doubtful.

Sultan Is Really Ill.

Constantinople, Aug. 10. — The reports that Sultan Abdul Hamid II. is ill are confirmed by private advices.

A slight but annoying accident to the machinery in the Canadian office has delayed the paper this evening and also reduced our usual quota of news. The paper will appear as usual tomorrow.

Advertising rates on application.
All monies paid in settlement of The Daily Canadian accounts, either for subscriptions or advertising, must be receipted for on the printed forms of the Company. Other receipts are not valid.

AUGUST 10, 1906.

"By one word we are sometimes judged to be wise and by one word sometimes judged to be foolish. Let us therefore be careful what we say"—CONFUCIUS.

CIVIC PROBLEMS.

Is the city of Nelson to have a water famine is the question that is being asked since the publication in the Canadian yesterday of the information that the warning gong at the fire hall had sounded a signal from the reservoir. The answer to the question depends solely upon what action the city council may take to prevent such a possible calamity in time. Water problems are not new in British Columbia, or anywhere else for that matter, as nearly every city in Canada has at one time or another had to face a crisis in solving the problem of ample water supply. Just now both Winnipeg and Toronto have their difficulties after years of experimentation, while Victoria and Vancouver are not without serious apprehension as to what the future may have in store. To these larger cities the problem assumes serious aspects, but for a compact little town like Nelson there should be no difficulty in obviating the last vestige of danger or even inconvenience.

As was pointed out in our news article, there are three ways in which the drain upon the reservoir may be lessened, either reduce the domestic supply, cut off the water motors, or else reduce the amount that is used by consumers in sprinkling their lawns.

The first and second of these are out of the question. There is no wanton waste of water used for domestic purposes and the cutting off of motor power would cripple every important industry in Nelson. There would seem, therefore, to be but one way to avoid lowering the reservoir supply below the point of safety in anticipation of conflagrations which might occur. Only yesterday the city of Calgary had a serious fire loss in the burning of an immense industry because the water mains were not yet laid in close proximity to the new factory. While we apprehend no real danger from fire in Nelson through a shortage of water, any such possible danger can be obviated only by the council adopting stern measures to discontinue the reckless waste of the precious fluid in many parts of the city.

* * * * * *

So far as we can call to mind Nelson is the only city in the province that permits the unrestricted use of water for the purpose of irrigating lawns and gardens. The freedom that is taken because of this liberty is one which is amazing to anyone who has ever lived in a city that has proper regulations respecting the use of water for this purpose. While the appearance of the many fine lawns in the city has been the subject of frequent and admiring comment and is a matter of pride, both to the owners and to the city, which claims a general interest in such assets, it is now beginning to be discovered that this beauty is being purchased at a price that may some day prove too great for the city to assume. It is not exaggerating to say that many gardens and lawns are kept sprinkled night and day and that the hose—often more than one—is kept running at full delivery every hour in the awenty-four. A clever mathematician could easily estimate the probable consumption of water and consequent drain upon the reservoir supply if furnished with the number of lawn owners who offend in this way. It would be found if such were done that the most serious difficulty against which the city has to contend is the wanton if not criminal waste of its water supply in this way. If any demonstration of the truth of this proposition is needed, let the use of water for irrigation purposes be prohibited for three days, or even one day, an let the reservoir be measured, and it will be found that therein lies the solution of the problem. Most people water their lawns too freely, and it is now well understood by horticultural and agricultural authorities that grass takes deeper root and keeps a greener surface if it is sprinkled freely for a couple of hours about three times a week. There are some lawns in Nelson where streams run, literally pouring over the surface of the lawn into the street gutter, doing no good and probably much harm.

* * * * * *

If the civic fathers will do as other cities which have learned their lesson, often at great cost, that is, pass a law limiting the use of water to certain hours of the day, and then strictly enforce the law, beginning with the city fathers and civic officials themselves, they will find an ample supply in the reservoir and no danger from that source as far as fires or other drains upon the water system will demand. It is largely a question of backbone on the part of the council. No doubt such action would cause an outcry from the untutored, but it will be better to have that now than to be told when too late that it should have been done long ago.

We believe, however, that the citizens of Nelson, of all classes, are sufficiently law-loving and law-abiding to obey any civic ordinance that may be enacted, and we are confident that they will suffer little inconvenience from doing so.

CIVIC PROBLEMS AGAIN.

The question of electric power and light supply is not the only one the city has to face if it is to become the Mecca of tourists and the pride of the Kootenays. The water question, as we intimate in another article, is easy of solution, but features that make the city so refreshing in scenic and climatic attraction are so easily marred by other things that some attention must be paid to the tout ensemble if we are to realize all we are struggling for. We have in mind as a proper subject for criticism the condition of the sewer which empties into the river at the foot of Ward street, just behind the provincial gaol. The Canadian office, probably because this is an evening paper, is a rendezvous for tourists and travelers who visit Nelson, and while, as we said a few days ago, all these are loud in the expressions of appreciation of the little city among the hills, they often take the liberty to speak freely of what ought not to be.

As is well known, the sewer in question drains an important part of the city, and it so happens—if such things ever just happen—that it is not carried sufficiently far out into the stream to catch the current and thus rapidly disperse in the waters of the Kootenay. Anyone who looks can see that at certain levels of the water in the stream there is a back eddy at the point where the sewer empties, and the sewage which should be rapidly carried away is held in solution in the murky pond that exists at the point in question. While the effluvium is not so offensive in cool weather, there are times in the hot season when the stench which is given off is positively offensive to the hotel guests, and on hot evenings it floats higher and higher, until it becomes nauseating to the permanent residents upon the upper levels of the city streets.

One of the Canadian's informants described a common experience when he said that the street car passengers passing a certain point are obliged to "hold their noses" till they round the curve at the corner of Ward and Water streets.

While the Canadian is not a knocker and can stand this sort of thing as well as any of the citizens, it is simply a question as to whether we had better clean up our city door yard and water front before we press upon strangers to some and see us, only to have them tell us how we are not doing things. The Twenty Thousand club is making a heroic campaign of advertising and spreading abroad the attractions of the city, and it would be a pity to have their efforts succeed if it will only result in our friends calling us names when they come.

Toronto has a similar trouble on its hands, and its newspapers give the city council no rest, nor do they intend to do so, until the nuisance is removed. Whoever is responsible for the present circumstance is no matter, but it does matter that the situation be handled immediately and the nuisance overcome.

Lemons in British Columbia.

Lemons grown in British Columbia are a very rare occurrence indeed, but they may be seen in Nanaimo, says the Colonist. The owner of the lemon tree, that is actually bearing fruit, is Mrs. Thomas Kitchin of Newcastle townsite, at Nanaimo, and she takes a very natural pride in showing this tree to visitors, for she planted it and cared for it herself, until now. The fruit is developed to the size of a large egg, and though green, shows promise of ripening into choice lemons of the best quality. Mrs. Kitchin claims that this is the only lemon tree in British Columbia that bears fruit.

Mrs. Kitchin is mistaken, as Rev. G. W. G. Fortune of Cranbrook makes a similar boast.—Ed. Canadian.)

R. and P. Minstrels.

The number of people who really live is small compared with the vast number that merely exist. Some people seem to think if they go to one minstrel show that they have seen them all and stop right there. Those are the people that just exist, nothing more.

In the larger cities it is common to meet the heads of families who in figuring on their weekly or monthly expenses, figure that the theater is a necessary expense and a visit each week must be figured on. These people really live and it is a noticeable fact that the same habit is spreading into the interior.

Go and see them all if you can afford it: if not, pick out those that have the mark of age in their favor, those that have been before the public long enough to know just what you are getting. Richards & Pringle's Famous Georgia minstrels that come to Sherman's opera house on Tuesday next will come near filling your expectations.

One sip of this
Will bathe the drooping spirits in delight
Beyond the bliss of dreams—Be wise and taste.

SODA WATER

DID YOU KNOW

that the drinks served at our Soda Fountain had tonic properties besides refreshing? We use only real fruit syrups of the finest quality. Fountain, counter, glasses and receptacles are kept scrupulously clean.

STAR BAKERY CHOQUETTE BROS.

Baker Street, Nelson, B. C.

LAND NOTICES.

Sixty days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works, Victoria, to purchase 40 acres of land: Commencing at a post planted at the City of Nelson's S. E. corner post, on Kootenay river, thence 20 chains south, thence west 20 chains, thence north 20 chains, thence east 20 chains to point of commencement.
Nelson, B.C., Aug. 6, 1906. E. J. CURRAN.

Notice is hereby given that 60 days after date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands, situated in the West Kootenay district, adjoining C. L. Pearson's on the north, about one and one-quarter miles from the Pend d'Oreille river, commencing at a post marked C. E. Caldwell's S. W. CALDER, Locator.

Notice is hereby given that 60 days after date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at a post planted at the N. W. corner of W. A. Calder's pre-emption in Fire Valley, running 80 chains north, 40 chains west, 80 chains south, 40 chains east to place of commencement.
W. R. MCCANDLISH, Locator.
W. A. CALDER, Agent.
June 20th, 1906.

Notice is hereby given that sixty (60) days after date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described tract of land: situate at Queens' Bay on the west shore of Kootenay Lake in the District of West Kootenay, Province of British Columbia and containing by admeasurement 194.18 acres be the same more or less, which parcel may be more particularly described as follows. Commencing at a point on the westerly boundary of L. 7089 G. 1 West Kootenay District, being the south east corner of L. 6894 G. 1; thence westerly following the southerly boundary of L. 6894 G. 80 chains more or less to the south west corner of said Lot 6894 G. 1; thence astronomic south 40 chains more or less to the northerly boundary of D. R. Balloch's Application to Purchase; thence easterly following the northerly boundary of said D. R. Balloch's Application to Purchase 22.372 chains more or less to the shore of Queens' Bay; thence following the sinuosity of the said shore in a north easterly direction 70 chains more or less to the south west corner of said Lot 7089 G. 1; thence northerly following the westerly boundary of said Lot 7089 G., 1.098 chains more or less to point of commencement.
Dated June 15, 1906. S. M. BRYDGES.

Notice is hereby given that sixty days after date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described tract of land in West Kootenay district: Beginning at a post planted at the northwest corner of Lot 5,567, on Dog Creek, thence south 40 chains, thence west 40 chains more or less, thence north 40 chains more or less, thence east to lake shore, and to place of beginning, the same is intended to embrace what is known as the Hanson pre-emption.
Dated July 5, 1906. GEO. P. WHITE.

Notice is hereby given that sixty days after the date I intend to apply to the Chief Commissioner of Lands and Works Victoria, for permission to purchase the following described land, situate in the district of West Kootenay, east of Grohman Creek: Starting at a point marked John White's S. W. corner, planted about 3 chains south of J. Malone's southeast corner, running north 30 chains, thence east 40 chains, thence south 30 chains, thence west 40 chains to point of commencement. JOHN WHITE.

CORRESPONDENCE.

(The editor is not responsible for opinions expressed by correspondents.)

Salmo, B. C., Aug. 9.—Editor of the Daily Canadian: I see in your issue of August 2 a preacher namer McRae got himself interviewed and put on record for Chinese labor, and said he was glad the fruit growers' union had courage to do the same. It takes brave men to do that, but we have people who don't appreciate that kind of a hero, who wants this country filled up with a swarm of opium smoking slaves. I have taken a pre-emption in the Salmon river valley and will employ white men, who live and spend their money in this country. Mr. Wilson has a fruit farm close to Erie and he let a contract to have some land cleared not long ago, and was asked if he could not have got it done cheaper. He said "Yes, but a man could not work for less than $3 a day here and save any money." It is needless to say that Mr. Wilson did not spend $50 on a trip to Nelson, with those windy labor agitators of the Fruit Growers' association and howl for coolie labor and high prices for their fruit. We have a Fruit Growers' association and lots of Chinamen in California. A great many of the large fruit growers rent their places to Chinamen, go to some big city and stay there; their families spend their money on monkey parties and fancy clothes. The Chinamen live like hogs and send most of their money to China. There are some fruit growers who do not like the Chinese for neighbors. They sell out cheap and some of us move to British Columbia. Mr. McRae says the labor unions are frightened by a shadow if they oppose free Chinese labor.

I read in the Daily Canadian August 2 that Bishop Hartwell has just arrived from Africa, and states there are 50,000 Chinamen employed in mines, and they are learning the work. The Boers did not care for that kind of labor and the mine owners had the courage to force England into a war so the capitalists could run the country to suit themselves. Those mine owners are interested in mines and smelters here With free Chinese labor ,what will prevent them from shipping 50,000 Chinamen here from Africa after they have learned the work, put them in a smelter with a high wall around, a searchlight and Gatling guns on top, with a Sherman Bell who will say: "To h—l with labor unions; we will give them postmortems"; or government officials bought with corporation gold, to kidnap the union officers in the dark hour of midnight, run them by a special train into another province, keep them in gaol without a trial until they die of old age. No, Mr. McRae, the working man can see what makes a shadow as well as the professors. Business men here do not complain of the laborers getting too much money to pay their bills with. If times stay good British Columbia will get the reputation of being a white man's country. We will get an emigration of white men, and then, if the United States millionaires who have accumulated 60 per cent of the wealth in that country by the exploitation of cheap labor, send soldiers to annex Canada they will find men here and not a few yellow complexioned, dyspeptic non-producers, with their friends the rat-eating, slix bittee one day, velly good Chinamen.

R. C. ALEXANDER.

SEEKING MORE TROUBLE.

Swiftwater Bill Wants Divorce From Fourth Wife to Try Luck Again.

Seattle, Aug. 10.—Swiftwater Bill Gates, hero of more sensational marital escapades probably than any other man on the American continent, is once more in the limelight of the divorce courts. The man who has made half a dozen fortunes in Alaska and Yukon territory, who has had four wives in the short space of seven years, has brought suit against his last wife, Kitty Bardon Gates.

The papers have not yet been filed in the courts, but have been served. Gates charges his wife, who is said to be but 20 years of age and to be related to the Alaska Don Juan by marriage, with a statutory offense. Two co-respondents are named.

Fred H. Lyons, attorney for Mrs. Gates, today applied to Judge Griffin in the superior court for an order citing Gates to pay $3000 into the registry of the court, to be applied as follows: One thousand dollars for temporary maintenance, an equal amount for suit money, and $1000 more for attorney's fees. Judge Griffin entered an order citing Gates to appear Friday of next week and show cause why he should not pay this money to his wife.

The story is told by Gates' friends that he has already picked a fourth spouse in the wife of a Fairbanks merchant, who is said to be now living in this city. This is the first time that Gates has appeared as plaintiff in the divorce courts. William Wray, Gates' attorney, admits that the hero of many a thrilling ride down the Yukon river, from which Swiftwater Bill earned his sobriquet, is now in Seattle. Gates is represented as living quietly in a down town hotel, which seclusion is broken only by an occasional dash to Al-Ki Point and other nearby resorts to see his latest inamorata.

This lady's name Gates and his attorneys are keeping very quiet, as it is said she has not yet secured her legal freedom from the man she is said to have abandoned in Fairbanks to follow the sinuous trail of Swiftwater Bill.

Swiftwater Bill is rated as worth between $500,000 and $1,000,000. His wife wants her share of that sum, it is said, and ths court proceedings will be interesting.

The present Mrs. Gates is said to be ill at a hospital, and it is claimed her spouse has not furnished her money with which to live and pay her physicians, to say nothing of her attorneys.

A Pointer for Nelson.

Dr. Hawke took a drive up the river the other day for the purpose of capturing a rattlesnake. He found a nine rattle one, and, removing the poison sac, brought it into use in experimenting. A doomed dog was secured from the pound and, after two grains of the poison had been injected, it lived just 22 seconds. The unreclaimed dogs in the pound will take this short cut to the happy hunting grounds.—Medicine Hat News.

TENDERS FOR TIMBER LIMITS.

SEALED TENDERS, marked "Tender for Timber Limits, Woodberry Creek," will be received by the undersigned up to noon of Saturday, the 11th day of August, 1906, from any person desiring to obtain special timber licences to cut and carry away timber from the following described lands, situate on the North Fork of Woodberry Creek, in the Ainsworth Mining Division of West Kootenay District:—

Lot 1.—Commencing at a stake planted on the North Fork of Woodberry Creek, about five miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

Lot 2.—Commencing at a stake planted on the North Fork of Woodberry Creek about six miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

Lot 3.—Commencing at a stake planted on the North Fork of Woodberry Creek, about seven miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 40 chains; thence east 80 chains to the point of commencement.

Lot 4.—Commencing at a stake planted on the North Fork of Woodberry Creek, about eight miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

The person offering the highest cash bonus will be entitled to special licences covering the limits renewable for twenty-one successive years.

Each tender must be accompanied by a certified cheque, made payable at par in Victoria to the undersigned, for the amount, $100.00, of the first year's fees for such special licences, and the amount of the bonus tendered, and also a certified cheque for $30.00 for cost of advertising said limits.

NEIL F. MACKAY,
Deputy Commissioner of Lands and Works.
Lands and Works Department,
Victoria, B. C., July 19th, 1906.

TIMBER NOTICES.

Notice is hereby given that 30 days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in West Kootenay district:

MINERAL ACT
Certificate of Improvements

NOTICE

Gigantic, Giant, First Chance, Chahalais, and Twenty Mile Fraction mineral claims, situate in the Nelson Mining Division of West Kootenay district

Where located: On Dundee mountain, between Wild Horse and Bear Creeks.

Take notice that I, John McLatchie, of the city of Nelson, acting as agent for Joseph Sturgeon, Free Miner's Certificate No B510, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 31st day of July, A. D 19.6.

JOHN McLATCHIE.
