The Daily Canadian

OLUME I. No. 252. NELSON, B. C., THURSDAY, MARCH 28, 1907. FIFTY CENTS A MONTH

YORK OF SCHOOLS

genda List for Teachers Convention

HREE DAYS' DISCUSSION

incipals of Manitoba and British Columbia Normal Schools to Be Chief Speakers.

The teachers of British Columbia will eet in annual convention in Nelson xt week. It is expected that between 0 and 125 will be present. All meetgs will be held in the armoury except ose of the High School section, which ll be held in Fraternity Hall.

Tuesday, April 2nd.

10 a. m.—President's address. Enllment of members. Appointment of mmittees. Address, W. A. McIntyre, ormal School, Winnipeg.

2 p. m.—Grading of city schools—A. Miller. Discussion led by A. Sullivan. rawing—L. Bruce. Discussion led by Blair.

7:30 p. m.—Reception by Nelson staff.

ection Work—Wednesday, April3rd.

10 a. m.—Language Work in the Priary Grade—Miss S. Hewton, Grand orks. Discussion opened by Miss E. om, Nelson.

Nature Study and the School Garden D. Wilson, Victoria. Discussion openl by W. Elley, Rossland.

2 p. m. — Geography — Intermediate ade—J. D. Buchanan, Normal School, ancouver. Discussion opened by J. T. llock, Revelstoke.

Language work in the intermediate ade—Miss E. Atkinson, Revelstoke. iscussion opened by Miss L. Thomas, elson.

Public Meeting.

8 a. m. Address—Rev. F. H. Graham, elson. Address—W. A. McIntyre, Noral School, Winnipeg.

Training for citizenship—Wm. Burns, ormal School, Vancouver.

ection Work — Wednesday, April 3rd.

High school section to be held in igh school. C. B. Sissons, chairman. F. Smith, secretary.

10 a. m.—Latin — R. D. Fullerton, rand Forks. Discussion opened by C. Thomson, Rossland.

Primary Work in Botany—C. McLean raser, Nelson. Discussion opened by Fulton, Vernon.

2 p. m.—Should the Study of English iterature in high schools be extensive r intensive?

3 p. m.—Can High Schools of one or wo teachers be expected to give satisactory instruction to pupils beginning igh school work in January without eglecting their more advanced stuents?

3:30 p. m. — Assuming the junior rade work of the high school to extend ver a period of two years, how much ime should be allotted to each subject? What subjects of the course might stuents be expected to study with comaratively little help from the teacher?

No formal papers or addresses will e given at the afternoon session in the igh school session, but all members re requested to prepare for discussion f the questions.

General Session—Thursday, April 4th.

10 a. m.—Inspector and Teacher—W. Burns. Discussion opened by J. D. Gills.

Senior Grade History—J. D. Buchanan. Discussion opened by J. C. Robson.

2 p. m.—General business. Questions. Address—W. A. McIntyre.

Th executive of the institute is composed of the president, Inspector Gordon; vice-presidents, J. C. Robson, R. Landells and G. L. Pedlar; treasurer, A. Sullivan; secretary, Miss E. M. Bell; Mrs. J. S. Brock, L. J. Bruce, A. E. Miller, Miss G. D. Burris and J. L. Watson.

DOCUMENTS SEIZED.

Nature of Papers Found in Paris at Papal Nunciature.

Paris, March 28.—The Figaro, a paper with Catholic sympathies, says that the documents seized at the Papal Nunciature here after the expulsion of its secretary, Mgr. Montagnini, include a despatch from Cardinal Merry del Val, the Papal secretary of state, advising Mgr. Montagnini to give the Catholics free rein to oppose the taking of the church inventories under the law provided for the separation of church and state; a report from Mgr. Gaspari, secretary of ecclesiastical affairs at the vatican, embodying information for use during the French electoral campaign, and instructions relative to that campaign.

Continuing, the Figaro asserts that one of the most interesting documents is Mgr. Montagnini's diary, detailing conversations which the prelate had with various political personages whcih, however embarrassing to those involved, will not compromise the Holy See. In conclusion, the Figaro asserts that the documents do not contain anything confirming the reports that Premier Clemenceau attempted indirectly to negotiate with the vatican, or anything from ex-Premier Rouvier, although there are notes indicating that he hoped ultimately to arrive at an understanding with the vatican.

EXAMINATION IS BEGUN.

Lunacy Commission on Harry Thaw In Session Today.

New York, March 28.—This afternoon at 2 o'clock the first session of the commission, which is to determine whether Harry K. Thaw is sane or not, will be held.

Daniel O'Rielly, of counsel for Thaw, said yesterday that Thaw will surely appear before the commission and answer all of its questions and, further, he wil submit to a physical examination by any experts. Thaw is growing nervous under the steady strain. His friends and relatives fear that he will break down unless the case ends soon. His wife, too, is giving away. When she was in court yesterday with the prisoner's mother, it was noticed that her cheeks were pale and sunken and her brow wrinkled. When she and Mrs. Wm. Thaw went to Thaw's cell after she had been told by her lawyers that Justice Fitzgerald had appointed Mr. Munro in place of ex-Justice O'Brien, it is said that she collapsed. The elder Mrs. Thaw is reported to have borne herself with much fortitude.

ROUMANIA GROWS CALM

Order Slowly Being Restored—Famine Feared as Result of Neglect — of Agriculture.

Bucharest, March 28.—Order generally has been restored in the province of Moldavia but fresh disturbances have occurred in the Dolje district and several other places in Wallachia. The disorders at Nzacfi have been suppressed by the killing or wounding of 25 men. At that point the troops dispersed 5,000 inhabitants. There is still serious fighting in Valiksa district, where bands of plunderers, who have taken refuge in the villages, are being shelled by the troops.

Press despatches received here from Czarinowitz on the Moldavian frontier, say that conditions in parts of Roumania are still most serious. Grave disorders are reported to have broken out on the domains of King Charles at Polana and troops have been sent to the royal domains. It is rumored that large numbers of peasant rioters have been killed in conflicts near Braila and Hapulescha and it appears that a large number of rioters, on trying to enter the town of Galatz were repulsed by soldiers near the village of Losavene, with a loss of 20 men killed. Then the peasants turned their attention to Barila. Fighting is reported at Vlasta, near Startenske, but these reports probably refer to occurrences of Monday and Tuesday as, owing to the censorship, all despatches have to be mailed to the frontier.

Information reached here late last night which indicates that peace is slowly being restored, particularly in the north. It is feared, however, that one result of the disturbances will be the neglect of tillage and a consequent dearth of wheat next winter, which will mean a financial calamity.

GREAT NORTHERN WINS.

Issue of Stock Not Subject to State Railway Commissions.

St. Paul, March 28.—The state supreme court today upheld the Great Northern Railroad company in its contention that it had the right to issue the amount of sixty millions stock authorized by the directors some months ago and was enjoined by the attorney general, who claimed that the company should first come before the state railroad and warehouse commission and submit to an examination to show the necessity and the purpose of the issue. This contention of the state was upheld by Judge Hallam in the Ramsey district court, who ordered an injunction to issue. The supreme court today reversed that decision.

American Lumbermen Combine.

Chicago, March 28.—Representatives of lumbermen and lumber interests of the middle west yesterday voted to organize to protect their interests from mail order houses that are charged with ruining the trade of the retail dealers, and the lumber interests generally. The operations of the mail order houses, especially in their sale of wooden ware and other articles made from lumber, will be investigated.

HELP FOR SLOCAN

Two Bills for Relief Put Through Quickly

HUNTER'S FIRST SPEECH

Bill to Extend Nelson's Borrowing Powers Will Be Introduced by Government.

(Special to The Daily Canadian.)

Victoria, March 27.—Today's session of the legislature was uneventful.

Two bills for the relief of Slocan City were introduced by the premier, passed through all stages, and will take effect on April 1st. They provide for increased borrowing power to restore the town to solvency, and for the rectification of titles necessary through defects in a by-law.

Amandments to the Railway Act, the Coal Mines Act, and the Elections Act were dealt with.

The debate on the University Endowment bill goes over nutil after recess.

The recommendation from the municipal committee to extend the borrowing powers of the city of Nelson, will be introduced as a government measure an dadopted without opposition.

In the debate on the bills to relieve Slocan City, William Hunter addressed the legislature for the first time. In replying to questions put by Hawthornthwaite he gave a lucid explanation of the circumstances necessitating the measures, which satisfied even the Socialist leader.

HINDU'S FEAT OF STRENGTH.

Carried Stove on His Head—Smallpox in the Boundary.

(Special to The Daily Canadian.)

Grand Forks, March 27.—The most novel spectacle yet witnessed in Grand Forks in connection with the Hindus was experienced yesterday by Chief of Police A. E. Savage of this city. It appears that the chief of police was engaged in ordering some Hindus out of a building in the west end of the city which among other things contained a small cooking kitchen range, and to the utter astonishment of the policeman a Hindu quietly picked up the range and placed it on his head and carried it out of the building in that manner. The chief of police further asserts that there was a fire in the stove atthe time, and that it would weigh at the very least 200 pounds. The man performing this feat was about five feet six inches tall and would not weigh more than 150 pounds. It has been noticed all along that these Hindus are capable of carring great weights on their heads, but up to the present time, the carrying of the cooking stove has far surpassed all former feats of this kind.

Yesterday morning a man, presumably, a laborer, walked from Danville Wash., to Grand Forks and called at the office of Dr. iKngston to consult the doctor professionally; when the doctor examined him he found that the man was suffering from an attack of smallpox. Dr. Kingston at once telephoned to Dr. Manley at Republic and at the same time sent the smallpox victim back to Danville. It has since been learned that a pest house has been established at Danville and the town strictly quarantined. Considerable unrest was experienced here when it was learned that a smallpox patient had been walking leisurely through the city. Dr. Truax, the official quarantine officer here, is taking eevry precaution to protect the district.

Vatican Denies Report.

Rome, March 28.—The vatican emphatically denies the report current in Europe that it intends to publish the text of the documents seized at the Papal Nunciature in Paris in order to forestall their publication by the French government.

Much Wanted Boy.

Hanover, Prussia, March 28.—According to the local police Eddie Krieger, son of Dr. Krieger, formerly of Chicago, is still in the hands of kidnappers. The authorities expect to locate the boy and arrest the kidnappers in a day or two.

Grand Trunk Promotions.

Toronto, March 28.—H. A. Nixon, of Strathford, will succeed U. E. Gillen there as assistant superintendent of the Grand Trunk. Gillen goes to St. Thomas as superintendent of the Wabash, the Grand Trunk southern division. Cunningham, superintendent at St Thomas, succeeds Superintendent Brownlee, of the middle division at Totonto, and Superintendent Brownlee succeeds Manager McGuigan. These are said to be the changes consequent on McGuigan's leaving the Grand Trunk

NO BOOM IN NELSON.

Values are Conservative and There is No Attempt at Inflation.

A correspondent writes The Daily Canadian that "the present unprecedented inflation of land values should be discouraged, lest a boom ensue with disastrous results." The correspondent should not be despondent on this account. There is no boom in Nelson, nor is there likely to be a boom. It is quite true there has been a very great demand for real estate in and around Nelson, but the price cannot be considered unreasonable, and the real estate men are not going out of their way to advertise their land. So far, there has been no undue inflation of values. As a matter of fact, Nelson is the only city in the West where you can take up the newspapers without having to wade through pages of full-page and half-page advertisements. Even the weekly publications in the small towns between here and Winnipeg have been compelled to issue 12 and 16 pages to meet the advertising demands of the real estate dealers. A few of the real estate men in Nelson advertise a little, but not one of them to the same extent the dealers in the Northwest announce their lands. In many of the interior towns of British Columbia this advertising is being indulged in, especially over in the Okanagan, but so far as Nelson is concerned, the dealers in real estate have been commendably modest, and as a result, there is no immediate danger of the citizens being carried off their feet by a boom.

GERMANY NOT ALARMED.

France in Morrocco Acting for Good of All Europe.

Genoa, March 28.—Prince Von Buelow, the imperial German chancellor, who is at Rapalle, spoke reassuringly to friends yesterday concerning the Morroccan situation, saying it was not so bad as had been reported by some people. Germany, the chancellor continued, did not look with disfavor upon the occupation of Oudja if this occupation was temporary, nor would any other country be opposed to such a step. France was acting for the protection of interests of other countries in Morrocco and, the chancellor concluded, Germany's interests are identical with those of France.

Empress of Britain Arrives.

Cape Race, March 28.—The steamer Empress of Britain, Liverpool for St. John, was in wireless communication with the Marconi station here when 180 miles south of this point at 10:15 p. m. on the 27th.

LAURIER ONLY FOLLOWS

Canadian in London Assures British [illegible] Canada's Premier Merely Obeys Public Opinion.

London, March 28.—An Anglo-Canadian, writing to the Morning Post regarding the question of an imperial council, says if the conference had met last year at the appointed time and had been asked to discuss the making of the constitution for the Transvaal, Canadians would have a very different idea of its value,, and adds in the question of imperial policy the Laurier administration does not lead Canadian opinion but follows it at a distance. Anglo-Canadian feels sure Sir Wilfrid Laurier will come to England as when the crisis comes the followers of Henry Bourassa, "that plagiarism of the late Honore Mercier," will be outnumbered as at the time of the South African war by the Imperialist English speaking Canadians.

Good Friday Services.

At St. Saviour's the services tomorrow will be: Matins, ante-communion and sermon at 10:30 a. m.! children's service, 3 p. m.; evensong and address, 8 p.m. The offerings will be in aid of the "Jerusalem and the East Mission" fund, which is under the superintendence of the bishop of Jerusalem.

At the Church of Mary Immaculate there will be the regular Good Friday services.

At the Methodist church there will be a special service at 11 a. m.

More Promised.

The Toronto World says that the Fowler charges of immorality, that have been hinted at against certain federal ministers in a general way, are sufficiently well founded to call for the resignation of two members of the cabinet. No names are mentioned. The World says that the whole truth will shorty come out.

HEAR FROM WATTS

Home Truths to Lumber Commission

CONDITIONS EXPLAINED

Wattsburg Mill Owner Compares Cost of Production in British Columbia and Ottawa Valley.

Ottawa, March 28.—The lumber committee yesterday heard the testimony of A. E. Watts, of Wattsburg, B. C., a somewhat belligerent millman who has been anxious to cross-examine witnesses from the first day of the meeting, but was shut off by the committee. He started out today by charging that E. A. Lancaster put answers into the mouths of the witnesses and when the same went on record it appeared that the witnesses had made false state. ments. He said, evidently Lancaster was trying to enhance his reputation in order to qualify for the attorney generalship in the next cabinet. This statement evoked a good deal of laughter, in which Lancaster joined.

Chairman Greenway intimated to the witness that he had better confine himself to the subject matters of the inquiry and leave the matters of the committee alone.

Watts thereupon proceeded to explain the difficulties of all owners in British Columbia. He said that in that province they could not and would not pay the starvation wages which prevailed in the East. In Ottawa men were paid $1 per day and boarded themselves, while for similar work men in British Columbia $2.50 to $3 a day was paid, "and we feed our men with the finest kinds of food and the delicacies of the season, better than many eastern hotels supply."

Should the time come when he could not afford to pay high wages he would close down his mill and go in for politics, as he noted there was a good chance for an honest and sober legislator, who would join in the hunt after grafters (Laughter).

There was serious talk among old and influential men in the section of British Columbia from which he came, that the province would be better off as a crown colony, but he personally would sacrifice his own interests rather than help to undo the work of the grand old empire builders.

SEALERS' HARD LUCK.

Newfoundlanders Battle With Storms and Drifting Ice.

St. John's, March 28.—Gloomy tidings from the seal fishing fleet off the Newfoundland coast were received by the sealing steam Grand Lake. Capt. Knee of the steamer declares that this is the worst season for seals in his 40 years' experience. The Grand Lake lost two blades of her propeller in an encounter with the ice, and was obliged to return here. The steamer Greenland with 183 men aboard, broke her main shaft during heavy weather last. Her master attempted to induce the captain of the steamer Ditna to take all of the men on board that vessel, but this was not done. There was no room on the Ditna to accommodate the men. During a severe blizzard on Sunday the Greenland was driven seaward and has not since been seen by the other vessels up to the time the Grand Lakes had started for this port. It is feared that the Greenland has met with further trouble.

BRUTALITY IN SWISS PRISON.

Russian Murdress Complains, and Warders Do Not Deny.

Thun, Switzerland, March 28.—Mlle. Tatiana Leontaiff, the Russian woman, who murdered a Frenchman named Muller, at Interlav, in November last, mistaking him for M. Durlavo, ex-minister of the interior, of Russia, was today sentenced to four years solitary confinement, and to 20 years expulsion from the country. The prisoner complained that she had been subjected to the most brutal treatment by the examining magistrate, and the prison wardens, who, when called to the witness stand, were unable to deny the charges.

Ancient City in Ceylon.

In the heart of the jungle in the north of Ceylon, the remains of the wonderful city of Anuradhapura are being excavated by the British government. Mr. H. C. P. Bell, of the Ceylon Civil Service, and the engineers who are working under his directions, have unearthed palaces and temples which were built 1,500 years and more ago. One of these temples has been estimated to contain enough material to build 8,000 one-storey houses, each with a frontage of 20 feet. The April Century, by permission of the authorities, will publish an account of these official explorations, prepared by Dr. Rosalie Slaughter Morton, who has recently visited the ruins.

LIBERAL MAJORITY REDUCED.

Exciting Contest for Vacant Seat in British Commons.

London, March 28.—R. D. Holt, Liberal, was elected yesterday to represent the Hexham division of Northumberland in Parliament, by a majority of 1,157 over Colonel Bates, the Unionist candidate. The vacancy was caused by the elevation of Mr. Beaumont, Liberal, to the peerage in succession to his father, the late Lord Allendale.

The campaign was fought with great vigor and was marked by wild scenes of disorder. Meetings were broken up by the Unionists, who were opposed to the decision of the general election. The miners of the district, however, voted solidly for Mr. Holt, with the result that the Liberals retain the seat, though the majority was nearly cut in two. The woman suffragists were active in opposing the Liberal candidate, while the tariff reformers displayed great activity for the Unionist candidate, who announced that though a tariff reformer he was oppposed to any additional tax on food.

YEAR'S RAILROAD RECORD

Canada's Mileage Per Capita of Population Already First in the World.

Approximate figures have been furnished by the leading Canadian railways of the amounts spent during 1906 on the construction of new lines and additions to rolling stock. The total expenditure for further extensions in 1907 is largely in excess of what was spent last year, and, as a matter of fact, the carrying out of the plans already adopted will entail a similiar expenditure each year for the next half-dozen years. During that period an army of not less than twenty to thirty thousand men will be occupied in building new railway tracks. This estimate does not take into consideration new railroad projects that will certainly crop up in the meantime, as each session of the Dominion Parliament has submitted for its consideration an imposing list of new railways seeking legislative sanction. The following are the figures for last year:

New lines, about	3,300 miles.
Total cost, about	$63,000,000
Construction, about	45,000,000
Equipment, about	18,000,000
C. P. R. expenditure, about	23,000,000
C. N. R. expenditure, about	15,000,000
G. T. R. expenditure, about	5,000,000
G. T. P. expenditure, about	7,000,000
G. N., etc., expend., about	10,000,000
Nat. Trans. expend., about	1,000,000
T. and N. O. expend., about	1,000,000

These figures refer only to steam railways, but the work done on new electric railways during the past year was correspondingly large. At the end of 1906 the total mileage actually in operation of steam railways in Canada was probably about 22,500 miles. The early setting in of winter brought operations to an abrupt close on several lines under construction and nearing completion. A few weeks' work after this year's season opens will probably add another 1,000 miles to the railways actually in operation in the Dominion. As it is, the mileage per head of the population is already greater than that of any other country in the world. Canada is no doubt a country of magnificent distances, but the long lines of steel rails that are pushing their way east, west and north will in a few years alter that, for in these days of rapid movement distance is reckoned by time rather than by actual measurement.

Policeman Murdered.

Cleveland, March 28.—Albert Shuka, a special policeman was stabbed to death about midnight last night, just after he had left a dance hall, where he had been on duty during the evening.

Trains and Boats.

Crow boat—Hour late.

Coast and Slocan train—Half-hour late.

Boundary train—On time.

Rossland train—On time.

Kaslo boat—Half-hour late.

Prices of Metals.

New York, March 28.—Silver, 66⅝c; copper, 24⅝c; lead, $6.

London, March 28.—Silver, 30⅝d; lead, £19, 6s, 3d.

Silver advanced one point today on the London metal market. All other quotations are unchanged.

NEED MORE MONEY

New School Will Cost at Least $50,000

COUNCIL WILL ASSIST

Site, Design and Material Discussed in Conference Last Night by Aldermen and Trustees.

The new public school building will necesitate the issue of city debentures to the amount of $60,000 not $50,000 as at first suggested. Such was the unanimous decision of the school trustees and three representatives of the city council after two hours' conference and study of details. It was agreed that the building is imperatively needed, that it cannot be built for any less sum, and that the property owners of Nelson will not hesitate to vote that amount.

What is designed is a modern 12-roomed building, plainly and economically constructed of material that will last and give satisfaction. No expenditure for removal of buildings or improvement of grounds, that can be avoided or postponed, will be undertaken this year.

Mayor Gillett's intimate knowledge of building operations and their cost was of the greatest advantage to the committee in their deliberations and was duly appreciated and acknowledged.

The first meeting of the school building committee, consisting of the five members of the board of school trustees and Mayor Gillett and Aldermen Irving and McMorris, was held in the office of Dr. Arthur, secretary of the school board, last evening at 8 o'clock. There were present, Dr. Arthur, W. Irvine, R. J. Steel, A. D. Emory, F. W. Swannell, the mayor and the two aldermen.

W. Irvine, as chairman of the board, presided.

Dr. Arthur stated the object of the meeting, and an informal discussion began.

Mayor Gillett immediately began figuring. He thought that if the new building were placed west of the present two-storey structure, the initial cost would be reduced by nearly $6,000, his estimate of the cost of moving the present buildings and keeping them habitable until construction is completed. He also thought the new building should be so designed as to be capable of further enlargement in the future.

Dr. Arthur remarked that the estimated cost of the same kind of building two years ago was $37,000, and he supposed it would be at least 10 per cent higher now.

The mayor—Fifteen per cent.

Many and various suggestions were made as to the site for the proposed building, and disposal of the various parts of the present site.

Dr. Arthur insisted that the proposed 12-roomed building should be complete in itself and not intended for future addition. He also urged that the present playground is already inadequate and should not be encroached upon unnecessarily.

The mayor and Alderman McMorris replied that all available money should be devoted to the new building and removals left, as far as possible, to the future when more money may be available for the purpose.

Alderman McMorris suggested that the representatives of the council retire until the board should decide on its plan of action.

Dr. Arthur suggested, and it was agreed ,that all members of the joint committee should meet on the school grounds Friday afternoon at 2:30 o'clock.

Mayor Gillett suggested that instructions be given to a competent architect, who should make a rough plan. Then changes should be made and more perfect plans adopted, which should then be submitted for competition.

It was agreed that three bonuses of $600, $400 and $200 be offered for the best three plans submitted.

The material, is was agreed should be selected brick on a stone foundation, with cement sills, and steel roof.

The mayor recommended Australia butt wood for the floors and stairs; it would be slightly more expensive but really economical.

Dr. Arthur also urged that the boiler room should be made absolutely fireproof.

As the various items were discussed and cost estimated, Dr. Arthur remarked:

"I think we shall need at least $60,000.'

Capt. McMorris—Ithink so, too.

Alderman Irving—Say $55,000.

The mayor—I think $60,000.

It was agreed that the meeting should be resumed in the same place today at 3 p. m. after the survey of the site. The meeting then adjourned.

HUDSON'S BAY STORES

Prospectors', Lumbermen's, Miners' and All **Campers' Supplies**

TENTS in all sizes and weights
RUBBERS and OIL SKIN CLOTHING.
OVERALLS and JUMPERS.
UNDERWEAR at all prices

Advertising rates on application.

All monies paid in settlement of The Daily Canadian accounts, either for subscriptions or advertising, must be receipted for on the printed forms of the Company. Other receipts are not valid.

MARCH 28, 1907.

THE NEW SCHOOOL.

It will hardly suprise anyone in Nelson who knows anything of school building requirement and of building operations generally, to learn that Nelson's new public school will cost $60,000.

The first reflection will probably be that a mistake was made two years ago when the board of trustees first preferred their request. At that time the sum of $45,000 would have covered the cost of construction and all contingent expenses. The increase is due to the steady rise in wages and cost of material, neither of which shows any sign of early decline.

However, what is past cannot be remedied, and the heavier task must be undertaken now as cheerfully as may be.

The building of a new school cannot be any longer delayed. The people of Nelson are justly proud of the record of their schools, they know that the city's reputation as an educational centre is a valuable asset, and it is not likely that anyone will opppose the authorizing of the loan necessary to provide adequate and decent accommodations.

The conference held last evening between the school trustees and members of the city council revealed several gratifying facts. Every member conceded the importance of good schools, and the duty of making the buildings worthy of the work accomplished in them, and of Nelson; and all expressed a healthy yet sober optimism as to Nelson's future. No one doubted that still more school accomodation would be required before many years, or that the city would easily meet, without embarrassment, any financial obligations incurred on account of schools, or any other necessary public institutions; and, most important of all, perfect harmony prevailed and all evinced only zeal for the welfare of the city.

The complaints of A. E. Watts against the unfair treatment received by himself and others at the hands of a committee of the Dominion parliament, are echoed by all the lumbermen of the West. It is not unnatural, and it is not resented, that the people of the prairies should wish to get cheap lumber for building. But the lumbermen also have rights. For years the industry was carried on without profit—in some cases at a loss. Within the last year conditions have changed. Canada is no longer a slaughter market for American coast mills, the home demand has greatly increased, and, at the same time the cost of operating has substantially increased. The lumbermen are not asking for anything more than a fair profit on their operations. But their grievance is not chiefly against the complainants. It is that the parliamentary commission, supposed to be judicial in character is, as Mr. Watts has well expressed it, a band of prosecuting attorneys, emphasizing every complaint, and muzzling the defence. Its members seem to have been appointed for the purpose of convicting the lumbermen of extortion. Where are British Columbia's representatives? Will not one of them raise his voice on behalf of one of the chief industries of the province?

Anglo-Canadian in his letter to the London Post, reported from London today, has, probably quite unintentionally, given an accurate estimate of Sir Wilfrid Laurier as a statesman, when he says that Sir Wilfrid does not lead, but follows, Canadian public opinion. The only purpose of Anglo-Canadian evidently is to assure the British public that no danger is to be apprehended from Sir Wilfrid's personal apathy, if not aversion, to the ideals of Imperialists. He instances the slow and reluctant bending of Sir Wilfrid to the storm of public opinion which demanded the offer of troops for the South African War. Anglo-Canadian is probably right in regarding Sir Wilfrid as a negligeable quantity, but unfortunately his voice may be mistaken for the voice Canada, or at least for that of the Liberals of Canada, unless the latter decisively disassociate themselves from his utterances.

It is quite evident that public opinion in Nelson will not tolerate the retention of any part of the present pile of buildings known as the central school, in anything like close promixity to the new building. For the outlay they are called upon to make, the citizens are entitled to expect, and will expect, a building not only satisfactory for the purpose for which it is intended, but one which will be at once thoroughly creditable in appearance, comparable to the best public buildings in Nelson in existence or projected. It cannot be denied that the present two-storey structure, crude as it is in design and execution, would spoil the appearance of the new school as long as it was suffered to remain on its present site.

William Hunter, M. L. A., for Slocan, has earned the gratitude of his constituents of Slocan City. Recognizing his own inexperience as a legislator and his weaknes as an orator, Mr. Hunter enlisted the aid of the premier himself in securing the adoption of measures which will enable the citizens of Slocan to rehabilitate their town financially. There is nothing showy about William Hunter, but his intelligence, business experience, and his unquestioned integrity will make him one of the most trusted and valuable members of the provincial house.

Dr. Hall, in common with all other Liberal members of the legislature, has proven himself by his vote against the Better Terms resolution, to be a partizan and follower of the machine, and not a patriotic British Columbian. Those who heard his statements during the campaign that he would, if elected, vote in every case as his reason and conscience dictated, will know in future how to value such pledges.

The hasty concessions of the Roumanian government in the face of impending revolution amount to an admission that the peasants' grievances were real and great, and go far to justify, if anything can justify indiscriminate lawlessness, the resort to civil war by which the promise of reform has been extorted.

It is one of those miracles of popular government that good and capable men can always be found to perform voluntarily and gratuitously the tedious and exacting duties of city councils and school boards.

LABOR PROBLEM SOLVED

One Industrial Institution in Canada Conducted Without Friction —Welfare Work.

The idea of co-operation between employer and employees is not by any means a new one, but it may be news to men that its most successful application has been achieved in a small town in Canada.

The letters "W. G. and R." stamped in red or black inside the collars of men's shirts, stand for Williams, Greene and Rome Co., of Berlin Ont. That firm has for four years followed a system called Welfare Work.

The annual meeting of the company's employees was held in Berlin lately, and the proceedings have been published in pamphlet form. A copy has been handed to the editor of The Daily Canadian by A. J. Kerr.

The company formerly had 522 employees working ten hours a day, six days a week throughout the year. Now they have 430 working nine hours a day, except on Saturdays, when they have a half holiday. But the smaller force, working fewer hours, does 90 per cent more work than was accomplished under the old conditions.

The system was in part copied from that of the National Cash Register Co., of Dayton, Ohio, but that company's manager, J. H. Patterson, who was present at the gathering conceded that the Berlin firm had greatly improved on its model.

The factory is managed by a committee on which the employees are represented and friction is practically unknown. The factory now contains a well equipped and well furnished library and reading room, an employees' dining room, a girls' rest room, a "dry" room where changes of clothing are available in wet weather, and where umbrellas and other articles are kept for emergencies. There are also a men's club room, a benefit association, athletic association, literary and debating society, and educational classes.

There is no charity feature about. Everyone pays for what he gets, but he only pays cost price, and he gets the best.

The employers have gained by a greatly increased production at greatly reduced expense, and the employees derive unnumbered benefits.

NIAGARA RECEDING.

Edge of Precipice Slowly Travelling Towards Lake Erie.

A careful estimate of the annual rate of recession of Niagara falls has been made by Dr. G. K. Gilbert of the United State Geological survey.

The data for computing the rate of recession of Niagara Falls include surveys of the crest line made in 1842, 1875, 1886, 1890 and 1895, and camera-lucida sketches made in 1827. During the period covered by these data the rate of cecession has not differed to an important extent from the natural conditions. The present and prospective diversions of water for economic uses interfere with the course of nature and may be expected to modify the rate of recession.

The rate of recession of the Horseshoe fall, or the rate of lengthening of the Niagara gorge, during the sixty-three years from 1842 to 1905 is found to be 5 feet per annum, with an uncertainty of 1 foot. For the thirty-three years from 1875 to 1905. The rate of recession of the American Fall during the seventy-eight years from 1872 to 1905 was less than three inches per annum.

The time consumed in the recession of the falls from the escarpment at Lewiston to their present position, or the age of the river, is not here estimated. It can not properly be computed without taking account of all conditions, local and temporary, affecting the rate of recession, and some of those conditions have varied greatly from point to point and from time to time.

Mr. Gilbert's report is published as Bulletin No. 306 of the Geological Survey. It was accompanied by a report on the survey of the crest line of Niarga Falls by Mr. W. Carvel Hall, who made the survey in June, 1905.

Devil Worship Revived.

Paris, March 27.—The cult of Devil worshippers, whose scandalous orgies shocked all Paris some years ago, has been revived. A quiet cafe appears to have been selected as the temple for the carrying out the blasphemous ritual associated with the worship of Satan. An upstairs room was fitted up in imitation of a church. Anonymous communications acquainted the police with what was going on.

Recommends Colonials.

London, March 27.—Sir Richard Jebb, representative of Cambride university in the last parliament, suggests that the Rhodes scholars from Canada and other colonies should be given a fixed number of places in the Indian military, civil and other services, in order that the people in our over-sea dominions may take a wider interest in the tangle of imperial affairs.

Notice is hereby given that thirty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works, at Victoria, for a special license to cut and carry away timber from the following described lands in West Kootenay, that is to say: Commencing at Huscroft's and Schermerhorn's post No 2, running thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to point of commencement post No. 3, containing 640 acres of land, more or less.

Dated at Creston, B.C., this 22nd day of March, A.D., 1907.

GEO. HUSCROFT,
J. C. SCHERMERHORN.

Notice is hereby given that thirty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works, at Victoria, for a special license to cut and carry away timber from the following described lands in West Kootenay, that is to say: Commencing at a point 80 chains east of the northwest corner of Huscroft and Schermerhorn's post No. 1, running south 40 chains to post No 2, thence east 80 chains, thence north 80 chains, thence west 80 chains, thence south 80 chains to place of commencement post No. 2, containing 640 acres, more or less.

Dated at Creston, B.C., this 22nd day of March, A.D., 1907

GEO HUSCROFT,
J. C SCHERMERHORN.

Notice is hereby given that thirty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works, at Victoria, for a special licence to cut and carry away timber from the following described lands in West Kootenay, that is to say: Commencing at a post planted 40 chains east of the northeast corner of block 812, (post marked 812 K. S.) thence running east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to location post No. 1, containing 640 acres of land, more or less.

Dated at Creston, B.C., this 22nd day of March, A.D., 1907.

GEO. HUSCROFT,
J. C. SCHERMERHORN.

FRUIT LANDS REAL ESTATE

LICENCE TO AN EXTRA-PROVINCIAL COMPANY.

"Companies Act, 1897."

CANADA;
PROVINCE OF BRITISH COLUMBIA,

No 378.

THIS IS TO CERTIFY that the "Nakusp Fruit Lands, Limited," is authorised and licensed to carry on business within the province of British Columbia, and to carry out or effect all or any of the objects of the company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situate at the City of Winnipeg, Province of Manitoba.

The amount of the capital of the company is five hundred thousand dollars, divided into two thousand five hundred shares of ten per cent preference stock of the par value of one hundred dollars each, and twenty-five hundred shares of common stock of the par value of one hundred dollars each.

The head office of the company in this province is situate at the City of Nelson, and Robert Wetmore Hannington, barrister, whose address is the same, is the attorney for the company.

Given under my hand and seal of office, Victoria, Province of British Columbia, this 16th day of February, one thousand nine hundred and seven.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the company has been established and licensed are:—

(a.) Buying, selling, leasing or disposing of coal mines, coal and wood lands, farming, grazing and fruit lands, and timber limits, and to work and develop the same;

(b.) To carry on the business of immigration and colonization agents, make advances to assist settlers on lands purchased from the company and to secure the repayment of such advances with interest on such terms and in such manner by way of mortgage or agreement as may be mutually agreed upon.

(c.) To carry on the business of ranching, breeding, selling and dealing in cattle, horses, sheep and other live stock;

(d.) To purchase, sell and deal in lumber, wood, coal, minerals, grain, provisions, clothing and general supplies;

(e.) To carry on trade as general merchants and forwarders;

(f.) To issue in payment of any property acquired by the company, shares of the capital stock of the company as fully paid up and non-assessable or otherwise;

(g.) To carry on the business of manufacturers and dealers in power generators and motors of every description, to construct and operate all classes of vehicles, agricultural implements, machinery, boats, steamers, barges and ferrys in which the said motors are used; to construct and operate boat lines and to carry on the business of carriers, cartage and parcel deliveries, to own and operate omnibus lines and vehicles and boats for hire; to sell, lease and supply electricity; to own and operate electric plants, and generally to carry on any of the business incidental to the aforesaid purposes and objects of the company;

(h.) To purchase, take on lease, exchange or otherwise acquire or dispose of any real or personal property, and any rights or privileges which the company may consider necessary for the purposes of their operations; and to sell and dispose of any lands or other real estate and personal property at any time owned or controlled by the company or any part thereof, or any control therein, or claim thereon, and generally to do all such things as are incidental to or conducive to the carrying out of the objects of the company;

(i) To become shareholders in any existing or proposed company, and to promote and assist in promoting any company carrying on a business pertaining to the objects for which this company is incorporated, and which may prove useful to this company, and to acquire, take over and operate the business of any such company or companies, and to enter into an agreement for sharing of profits, union of interests, reciprocal concessions or otherwise, with any person or company and take or otherwise acquire or hold shares and securities of such company or companies;

(j) To acquire and hold lands by gift or purchase or as mortgagees or otherwise as fully and freely as private individuals, and to sell, lease, mortgage or otherwise alienate the same, and to exercise all the powers set out in the several clauses.

LICENCE TO AN EXTRA PROVINCIAL COMPANY.

"Companies Act, 1897."

CANADA,
PROVINCE OF BRITISH COLUMBIA.

No. 375.

THIS IS TO CERTIFY that the "Columbia Valley Land Company," is authorised and licensed to carry on business within the province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Winnipeg, province of Manitoba.

The amount of the capital of the said company is one hundred thousand dollars, divided into one thousand shares of one hundred dollars each

The head office of the company in this province is situate at the City of Nelson, and Robert Wetmore Hannington, barrister, whose address is Nelson, B. C., is the attorney for the company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 8th day of February, one thousand nine hundred and seven.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which this company has been established and licensed are:

(a.) Buying, selling, leasing or disposing of coal mines, coal and wood lands, farming, grazing and fruit lands and timber limits, and to work and develop the same;

(b.) To carry on the business of emigration and colonization agents, make advances to assist settlers on lands purchased from the company, and secure repayment of such advances, with interest, on such terms and in such manner by way of mortgage or agreement as may be mutually agreed upon.

(c.) To carry on the business of ranching, breeding and selling and dealing in cattle, horses, sheep and other live stock;

(d.) To purchase, sell and deal in lumber wood, coal, mineral, grain, provisions, clothing and general supplies;

(e.) To carry on the trade as general merchants and forwarders;

(f.) To issue in payment of any property acquired by the company shares of the capital stock of the company as fully paid up and non assessable or otherwise;

(g.) To carry on the business of manufacturers and dealers in power generators and motors of every description, to construct and operate all classes of vehicles, agricultural implements, machinery, boats, steamers, barges and ferries in which the said motors are used; to construct and operate boat lines, and to carry on the business of carriers, cartage and parcel delivery; to own and operate omnibus lines and vehicles and boats for hire; to sell, lease and supply power, and to generate and sell, lease, and supply electricity; to own and operate electric plants and generally to carry on any business incidental to the aforesaid purposes and objects of the company;

(h.) To purchase, take or lease, exchange or otherwise acquire and dispose of any real or personal property and any rights and privileges which the company may consider necessary for the purposes of their operations, and to sell and dispose of any lands or other real estate and personal property at any time owned or controlled by the company, or any part thereof, or any control therein or claims thereon, and generally to do all such things as are incidental or conducive to the carrying out of the objects of the company;

(i.) To become shareholders in any existing or proposed company and to promote and assist in promoting any company carrying on a business pertaining to the objects for which this company is incorporated and which may prove useful to this company, and to acquire, take over and operate the business of any such company or companies, and to enter into engagements for sharing profits, union of interest, joint adventures, reciprocal concessions or otherwise with any person or company, and take or otherwise acquire and hold shares and securities of such company or companies.

AINSWORTH LICENCE DISTRICT.

Notice is hereby given that Jas. H Goodenough has made application under the provisions of the "Liquor Licence Act, 1900," for a hotel licence for the Whitewater Hotel, at Whitewater, and that a meeting of the Board of Licence Commissioners, of the Ainsworth Licence District, will be held to consider such application, at the Kaslo Hotel, at Kaslo, on Tuesday, the 16th April, 1907, at the hour of eight o'clock in the afternoon.

W. H. BULLOCK-WEBSTER,
Chief Licence Inspector.

SQUARE TAN FOLDING POCKET BOOK Finder return to this office and receive reward

LOCAL AND PROVINCIAL

Tomorrow being Good Friday, a religious and national holiday, there will be no issue of The Daily Canadian.

Tomorrow being a statutory holiday the general wicket at the Nelson post office will be open only from 10 to 12 a. m.

Wm. Murphy, who had a paint shop here for many years and afterwards removed to Grand Forks, has again taken up his residence in Nelson, and his family has arrived here.

John Burns, Jr., met with a severe accident a few days ago by getting a piece of rock in his eye. It will be some time before his eyesight will be completely restored.

Kootenay Belle Lodge, C. O. F., will entertain George Nunn at a social tomorrow evening. Mr. Nunn leaves on April 4th for Vancouver, where he will reside in future.

W. H. Cushing, minister of public works in the Alberta legislature, is in the city. Mr. Cushing resides in Calgary, where he has extensive manufacturing interests.

I. C. Schermerhorn, manager of the East Kootenay Lumber Co., came in last evening from Cranbrook. Mr. Schermerhorn is well pleased with the outlook for the lumber industry, and predicts that the coming season will be the most prosperous in the history of the Kootenays.

The public and high schools of Nelson, and the Hume addition school, closed for their Easter vacation this afternoon, not to reopen until Monday, April 8th. Good Friday and Easter Monday are school holidays, and the remainder of next week will be taken up with the annual convention in Nelson of the Provincial Teachers' Institute.

The annual ball under the auspices of the Ladies' Aid of the Kootenay Lake General Hospital, will be given in the armoury next Thursday evening, April 4th. The armoury will be tastefully decorated, the supper will receive special attention, and the music will be the best available. The guests will have an evening of pleasure and at the same time feel that they are contributing to a worthy cause.

Wm. Irvine, Provincial Grand Chancellor of the Knights of Pythias, has many pleasant things to say of the generous way in which his brother knights provided for his entertainment during his recent trip to the Okanagan. He attended six banquets during the seven days he was absent, and no pains were spared to make each gathering an event worthy of the occasion. He visited lodges at Enderby, Vernon, Kelowna, Revelstoke and Arrowhead, and organized new lodges at Summerland and Penticton. Great interest is being taken in the order at the various points visited, and the growth in membership is something phenomenal. Mr. Irvine will next visit the lodges along the Crow's Nest.

The Store of Quality

Shipments from the Queen Victoria mine were resumed today when a car of ore was sent to the Trail smelter.

The "Private Secretary" will be produced in the opera house on April 18th. "Dearest Mama" was put on last fall.

Fred Irvine & Co. will keep open till 9:30 this evening, on account of tomorrow being a general holiday.

The Hudson's Bay stores will remain closed on Easter Monday. The patrons of this store are asked to kindly notice this and leave their April orders on Thursday and Saturday this week.

At the Socialist meeting to be held at the Miner's Union Hall Friday evening, the subject under discussion will be, "Socialism, Evolutionary or Revolutionary?" F. C. Tipping will be the speaker of the evening, and everyone is invited.

One location and one assesment were recorded in the Nelson mining office today. Ner Smith recorded the Last Chance located in Sproule Creek March 25th. Jonh Smallwood was granted a certificate on the Gambol.

There was no chambers session of the county court today and there will be none on Monday. The quarterly session will begin Tuesday morning next. There will be a long list of applications for naturalization, but a very short list of cases, and possibly none contested.

In the police court this morning, a well-known hotelkeeper was charged with having supplied liquor to an interdicted person. The charge was established conclusively by reliable witnesses but it was urged in defense that the accused had only recently taken charge of the premises, and that there was nothing to show that the person to whom the liquor had been sold had ever ben interdicted. The police magistrate was evidently convinced of the truth of the defense and dismissed the charge, but took occasion to deliver a lecture to both the hotelkeeper and the man who had been supplied with the liquor. It is understood that the police will investigate one or two other cases of this character, and it is likely that if any cases are clearly proven the offenders will be punished severely.

There will be a football match tomorrow at 8:30 between the Churhcmen's Club and No. 2 Co., R. M. R. The teams will be selected from the following: R. M. R.: Carrie, Teague, Marks, Elvery, Ferguson, Barker, Cummins, H. Balleny, W. Davidson, B. Davidson and Cory; Churchmen's Club: Brett, Wade, Blake, McIntosh, Howe, Gerd, Burns, Evans, Pool, Tregillus and Robertson.

A young man of rather good address has been selling rings, supposed to be brass, to the ranchers along the lake near Procter. He travels from house to house, pretending that he has just run short, of money and offers to pledge the rings for enough to pay his fare to the first town. In several cases he has succeeded in raising a small amount on the rings, but those who have dealt with the young man are now inclined to believe that the jewelry is either spurious or stolen goods. The police will be notified to investigate.
