The Daily Canadian

VOLUME I. No. 258. NELSON, B. C., MONDAY, APRIL 8, 1907. FIFTY CENTS A MONTH

NELSON'S PROTEST

University Club Objects to Reduction

GRANT NOT EXCESSIVE

Resolution Adopted Urging Government to Pass Endowment Bill as Introduced.

The attack of the two opposition parties in the legislature upon the Provincial University Endowment bill has roused the friends of university education throughout the province. Party lines are for the moment forgotten and all are united to urge Premier McBride and his colleagues to adhere to the terms of the bill as introduced.

No organization in the province has done so much in urging the establishment and endowment of a university as the University Club of Nelson. For three years the campaign was maintained by that club almost single-handed. When the Endowment bill was finally introduced the club unanimously adopted a resolution expressing gratification and forwarded it to the premier.. The standing committee of the club on the question was retained in office, although its functions were considered practically at an end.

The news that the opposition party in the legislature was united in an attack on the bill roused the committee to action again.

A special meeting was called Saturday afternoon at 4 o'clock in Dr. Arthur's office. The members of the committee are: Mrs. E. C. Arthur, Mrs. W. S. Pearcy, Rev. F. H. Graham, Rev. J. T. Ferguson, Dr. E. C. Arthur, A. L. McKillop, C. M. Fraser, W. J. Baird and R. J. Clark. All but two were present at the meeting and the absentees' opinions were represented.

The chairman briefly stated the reason for calling the meeting, read the original bill, and the amendments proposed by the leader of the opposition.

It was then moved by Dr. Arthur, seconded by Rev. F. H. Graham, and unanimously resolved:

"That the University Club of Nelson regards the proposal to deduct from the land grant for the Provincial University all revenues derived from minerals, coal and timber in or upon such lands, as a menace to the future efficiency if not to the very existence of the university;

"That it is the conviction of this club that such deduction would render the grant utterly inadequate for the purposes for which it is intended;

"That this club, therefore, earnestly requests the government of British Columbia to adopt the endowment bill as introduced."

The chairman was instructed to telegraph the resolution to the premier at once and to mail it to all the members of the legislature representing constituencies adjacent to Nelson. The instructions were complied with Saturday night.

CONSTITUTIONALITY TESTED

United States Supreme Court Sitting on Important Appeals.

Washington, April 8.—The United States supreme court reconvened today after a two weeks' recess. Several cases of more than ordinary importance are on the calendar for early hearing. Among the number is the case of the United States against Heinzen & Company, involving the tariff on articles imported into the Phillippine Islands from the United States between April, 1899, and November, 1901. This is the last of the Philippine test cases.

A case of more than general interest and importance is that of Damselle Howard against the Illinois Central Railroad, involving the constitutionality of the railroad employers' liability act, passed at the last session of Congress. This case was tried by the United States circuit court for the western district of Tennessee, which held the first section of the act, abolishing the fellow-servant rule, to be unconstitutional.

The case is considered to be of great importance, not only because of the number of similar cases that have arisen and will arise but because of the principle involved. When the United States district court held the act invalid becauses of its unconstitutionality President Roosevelt at once took up the matter and decided to take the question to the highest court with a view of having the decision reversed. Only once before, it is said, in the history of the department of justice has similar action been taken by the administration.

SHIP MOLYBDENITE.

Cobalt Proves Rich in Rare Mineral—In Good Demand.

Toronto, April 8.—M. H. Dreany, of Dreany & Company has received an order from an English syndicate for a carload of molybdenite. This substance is now being mined on the Temagamo claim, which has the largest deposit thereof in the world. Molybdenatic acid is used in the tempering of the finer grades of steel and cutlery, and the market for it is confined almost solely to Liverpool and Sheffield. The annual production of the mineral in Norway is 14 long tons, and in the United States 30 short tons, and these countries hitherto have practically controlled the world's supply. On the Temagami claim at Cobalt, which is 30 acres in area, 20 veins of molybdenite have been discovered. Molybdenite is a sulphidel of molybdenum, and it is worth about $500 a ton.

Word has been received stating that Cobalt is being boomed in the English ppers, and that an English syndicate is preparing to place 500,000 shares of mining stock on the London market.

Mr. M. J. Patterson, a mining engineer, reports on the Ontario-Quebec, Gilpin and Wonderland, claims that their elevation is 100 feet above the level of the Cobalt lodes and so the shafts will require sinking to the depth of 100 feet to get at them. Some native silver is being found in the shafts on the way down. The shaft on the Wonderland is now at the 100-foot level Prof. Schoonmaker reports a find of native silver on the Coyne property.

Cobalt Lake stock will probably be placed on the market today. Allotments were yesterday sent out to different brokers.

MINING AT EDMONTON

Two Big Companies Preparing to Operate Near Alberta Capital—For Gold and Gas.

Edmonton, April 8.—Two large mining companies are announced in Edmonton as being ready to commence operations on undertakings which will be of very great importance to this city. They are the American Canadian Oil company, which proposes to operate in the Morinville district, and the Clark Dredging company, of Chicago, which proposes to work gold dredges on the Saskatchewan between here and Strathcona.

The American-Canadian Oil company is backed by Seattle capitalists, and they have leases on a large tract of territory in the Morinville district which Dr. Dawson and Dr. Selwyn and Joseph Tyrrell pronounced as an oil field nearly ten years ago. The manager of the company, H. L. Williams, put down a test well in 1905 to a dept of 550 feet, proving the presence of gas in large quantities. He now has eleven carloads of drilling machinery on the rail from Pittsburg, with which he proposes to sink to a depth of three thousand feet if necessary. Mr. Williams is a pioneer in the Summerland oil fields of California, and is expected to be competent driller and a very successful operator.

The Clark Dredging Company's work is in the hands of Horace J. Clark, of Chicago, president of the company. He is backed by large capital, and the dredge will cost $60,000. The latter is now on the way from Chicago. Clark admits that there have been many unsuccessful attempts to work the river gravel, but he says that he understands the proposition and that he has taken it only after having made thorough tests of the river bed. He has secured a lease of 15 miles of river bottom from the federal government.

Plans Nearly Completed.

John McLatchie, of Nelson, who has been in Calgary for the past four months, working on the right of way plans of Candian Pacific railways in British Columbia, has just about completed his work. Mr. McLatchie made surveys of the British Southern, the Columbia Western, and the Columbia & Kootenay railways with the object of determining the right of way and his work has been to make plans for the same, so that the necessary land might be secured.

To Hear Rate Complaints.

Topeka, Kan., April 8.—The Interstate Commerce Commission met in Topeka todady to hear the complaint of farmers, merchants and shippers' clubs of Kansas against the Rock Island and Sante Fe railroads for alleged unjust rates on wheat and corn from Kansas points to Kansas City, Galveston, Gainsville and Fort Worth.

MORE SECESSION

New Ontario Dissatisfied With Lot

FORM A NEW PROVINCE

Meeting Held to Initiate Movement Is Unanimous--Want Local Administration.

Fort Frances, Ont., April 8.—A big massmeeting of both political parties was held last evening to initiate the movement in New Ontario of secession from the old province and forming a new one embracing Algoma, Nipissing, Thunder Bay and Rainy River districts. For some time there has been a growing feeling of discontent over the way this district has been treated by the Ross and Whitney governments, and which has been intensified by the utter indifference Premier Whitney and his colleagues have manifested towards, not only this part of the country, but to the districts of Nipissing and Algoma. The fact that in spite of remonstrances from all sources and from both parties as to the continued robbing of the districts mentioned by sale of timber, collection of unjust dues, iniquitious mining and timber laws and the absolute refusal to return even five per cent of thhe revenue so taken, has led to a deep feling throughout the entire country that if these districts would grow and prosper they must not look to Toronto for further assistance, but secede and legislate for themselves.

The feeling that New Ontario has been the milch cow long enough has come to stay, and it is not likely to end as long as Old Ontario holds the balance of power and retains all the revenue without an adequate quid pro quo in return.

After a number of speeches had been made by the reeves of the several municipalities and other leading citizens of both parties the following resolution moved by Dr. F. H. Bethune, secretary of the district Conservative association, and seconded by W. I. Price, a leading Liberal leader of Buriss, was carried by a standing vote:

"Whereas, New Ontario comprising the following districts, Nipissing, Algoma, Manitoulin, Thunder Bay, Rainy River and that part of Ontario lying north and west of the French river, if that part of Keewatin east of the Manitoba boundary be included is sufficient in area to form a new province, as it has an area of 632,815 square miles, 1-6 of the area of Canada, and larger than the combined area of Alberta and Saskatchewan and 12 times the combined area of Nova Scotia, New Brunswick and Prince Edward Island.

"And whereas: The legislation of Old Ontario has uniformly followed the system of collecting revenue out of the resources of the district and has never made any return for the same.

"Therefore, it is resolved that a committee be appointed to communicate with the various cities, towns and municipalities, throughout the districts of Ontario lying west and north of the French river, and endeavor to ascertain thier opinion concerning the advisability of seceding from Old Ontario, and of forming a new province, and in event of their being in favor of the same to endeavor to have a meeting called at a convenient city in each district, with the object of appointing a board or committee, to arrange to have a plebiscite taken of the above named districts to ascertain the feelings of the people in the matter."

LOCAL AND PROVINCIAL.

Hume School.

Hume school reopened this morning with an attendance of 66 pupils. Miss McClellan commenced her duties in the second room.

Industrial Workers.

A meeting of the Industrial Workers of the World will be held tomorrow evening, when the question of co-operative stores will be discussed.

Concert Tonight.

The Fletcher-Giorza-Impala concert this evening should be liberally patronized. The performers are artists of recognized merit, and the programme is one that should give enjoyment to those who will be present.

Destruction of Property.

Many complaints are made of the destructive habit of certain boys living up the hill and the seeming neglect of parents in bringing up their children. The electric light globes are being smashed, and it may be that the city will be forced to shut off the light in certain parts of the city altogether. If something is not soon done to restrain the destructive habits of these youngsters, the aid of the police will have to be called in.

Home Again.

P. Lamont, manager of the Canada Drug & Book Co., Ltd., returned last Saturday evening from a four weeks' visit to California and Oregon. Most of Mr. Lamont's vacation was spent amongst the orange groves of California, and it is needless to say that he enjoyed himself immensely. At Los Angeles it was raining and this somewhat interfered with the pleasure of his visit there, but he was able to take a run out to Pasadena, Santa Monica and other points of interest. No place seemed to possess the same attractions, however, as San Diego and its surroundings. Coronado Beach was visited, and a day or so was spent very pleasantly at that famous tourist resort. During his absence Mr. Lamont met many former residents of Nelson, all of whom are prospering in their new homes.

John McGuire Dead.

Those who have taken much interest in theatrical matters in the West will regret to learn of the death of that veteran manager, John McGuire, which took place at Monterey, Cal., a few days ago. The deceased was the pioneer of Butte, Mont., but visited nearly every city in the West during his managerial career, which extended over a period of 40 years. He was in Nelson on several occasions, and those who met him were greatly interested in the old man's reminiscences of early theatrical events. Besides being a manager Mr. McGuire was an actor of the old school, and in character parts had few equals in the West. He also contributed largely to the press, and at the time of his death, was editing a newspaper at Monterey.

Kellog-Hurdle.

A very quiet wedding was solemnized at the Royal hotel at 6 o'clock this morning when Albert Kellog and Miss Dora Hurdle, both of Nelson, were married by Rev. E. H. Shanks.

After a wedding breakfast given by Mrs. Roberts, aunt of the bride, Mr. and Mrs. Kellog left for Spokane and other Washington cities. They will return about May 1st and make their home in Nelson, where Mr. Kellog is a trusted employee of the Nelson Transfer Company.

In Chambers.

His Honor Judge Forin held a chamber session of the county court.

H. C. Hall, for the C. P. R. Co., applied for an order of cancellation of the townsite ofLemonton. E. C. Wragge, on behalf of two property owners, opposed. The application was adjourned till Monday, April 15th.

In Roberts vs Anderson, J. O'Shea obtained an order for payment out.

In Bank of Montreal vs Thomson, E. C. Wraggie obtained an order for ser vice ex juris.

LIKELY OPEN VERDICT

Expert Witness in Buchtmann Inquest Says Machinery Was Protected As Well As Possible.

The inquest on the death of Hermann Buchtmann in the sampling mill of the Hall mines smelter the morning of March 30th, was resumed in the city hall at 2:30 p. m. today.

Coroner Arthur presided, all the jurymen were present, E. F. Gigot H. Byers, J. E. Annable, F. A. Brewer, A. D. Emory and G. W. McBride, and J. J. Campbell, manager, and E. C. Wragge, solicitor for the Hall Mines Company, were also present.

M. Swartz was the first witness. He told of the accident.

S. J. Blaylock, superintendent of the smelter, described the machinery in detail, and the precautions taken to ensure safety. In reply to the coroner he stated that any attempt to protect by boxing would be more menace than protection.

B. C. Travis, manager of the Kootenay Engineering Works, knew the machinery in question, had seen it before and since the accident. It had the regulation safety collar over the set screw. He knew of no other usual precaution. He considered the protection as ample as possible, consistent with efficient operation. As to the suggestion of boxing in the shafting, he agreed with Mr. Blaylock that it would rather increase than lessen the danger.

The hearing is still in progress as The Daily Canadian goes to press.

LAURIER'S STAND

Premier's Duplicity Fully Revealed

BOURASSA VOTED DOWN

Custodian of Honor of Parliament Declines to Permit Charges To Be Investigated.

Ottawa, April 8.—Last Tuesday's debate in the House of Commons will remain historic in the political annals of the country. That was the day fixed for Mr. Bourassa's motion for an investigation into matters affecting the honor of ministers and members. The Independent-Liberal member for Labelle moved a resolution calling for the appointment of a special committee to enquire into the conduct and character of members and ministers against whom charges and reflections had been made. Mr. Bourassa referred to Conservative members whose names have been mentioned in the insurance enquiry and also to any ministers and members who might be implicated in the "wine, women and graft" suggestion of Mr. Folwer.

The motion for an enquiry was voted down at the request of Sir Wilfrid Laurier. Not a single regular government supporter voted for it. On the other hand, every Conservative member, except two, who refrained from voting because their names were mentioned, gave their voice. for a full investigation and enquiry, as did three Independent-Liberals, Mr. Bourassa, Mr. Lavergne and Mr. Robitaille. It was thus practically a straight party division. Mr. Borden and his whole party joined Mr. Bourassa in the request that all charges and reflections affecting the honor of members of the House and their worthiness to sit as representatives of the people be cleared up. Sir Wilfrid and his whole following voted against such investigation.

It should be remembered that from the opening day of the session until Mr. Fowler gave notice of his intention to carry the war into Africa, government supporters lost no opportunity to throw out insinuations and sneers against certain of their opponents. While carefully avoiding any direct charge which could be taken up and invesigated they have been free with imputations suggested by the grossly unfair and apparently malicious report of the insurance commission. Who would have expected such a remarkable outcome to the demand for parliamentary investigation? We find that Mr. Foster, Mr. Fowler, Mr. Bennett and Mr. Lefurgy, the members mentioned in the insurance report not only ready for an enquiry but even demanding it. On the other hand, the ministers and members, including those who have instigated and promoted the political excursions of the insurance commissioners, and all who have assisted or encouraged the assaults on the character of Conservative members, now coming forward in a body to deprecate and head off a parliamentary investigation. Had a committee been appointed the majority of the court would be government supporters. The minister of justice, whose partisanship is narrower and more bitter than that of any previous occupant of his office, would have largely controlled its methods and procedure. Notwithstanding this the opposition was ready to accept the investigation. The government would have none on any terms.

Of course it was not to be an investigation into insurance matters only. Mr. Bourassa in the preamble of his motion referred to insurance reports to remarks made in the House by Mr. Carvell, Mr. Ross and Mr. Devlin, all Liberals, to Mr. Fowler's notice that the true Hyman story might be told, and his further intimation that if the House intended to go into the discussion of private affairs he would himself "discuss the character of members opposite, whether they be ministers or private members and their connection with women, wine and graft."

Mr. Bourassa's resolution then proceeds.

"That these statements have become a matter of general comment and have aroused public opinion throughout the country, so that an immediate enquiry is imperative.

That the prime minister and his colleagues, being the principal guardians of the honor of Parliament, should take the initiative in such an enquiry;

That the government should ,therefore, ask the House to constitute a special committee to conduct a strict and impartial enquiry as to whether any ministers of the Crown or members of Parliament have improperly made use of their positions as such for their private gain, or have otherwise been guilty of personal misconduct under such circumstances or of such a character as to justify the intervention and censure of this House;

That any charges that may be preferred against any member of the government or of the house should be formulated before that committee; and that members of this House or other persons who have material or data at their disposal with reference thereto, should divulge them to that committee;

That such committee have power to employ and hear counsel, to send for persons, papers and records, to examine witnesses on oath or affirmation, and to report to the House during the present session.

This was the motion that Mr. Bourassa offered from his seat on the government side of the House. It is the motion which the opposition leader and party supported to a man. It is the motion which Sir Wilfrid Laurier and the whole of his regular party opposed and defeated. It is the motion which Parliament rejected by a majority of 54.

In his argument Mr. Bourassa made some personal allusions which he did not obtain from Mr. Fowler, and which were more direct and striking than any statements previously made in Parliament. We do not quote these words here. He summed up his case in this way:

"In regard to the general accusation about 'wine, women and graft,' I claim that if any ministers of the Crown—the truth of which accusations I do not know and speak only of general facts—are connected with wine and women in such a way that has become a matter of public scandal;if they have used the property of the government to carry on their profligate acts; if they have been guilty of this conduct with women, and if anybody has a knowledge of these facts, he must make them public."

FISHING TOWN BURNED

Chinese Quarter of Stevetson Visited by Disastrous Fire—Loss Estimated at $10,000.

Vancouver, April 6.—A fire which broke out at an early hour yesterday morning in the Chinese quarter of Steveston, the cannery-packing village about 16 miles south of here, completely gutted the quarter in which the Orientals live, doing damage to the extent of approximately $10,000.

The knocking over of a lamp was the cause of the blaze, which started about 3 a. m., and came dangerously near wiping the entire place out of existence. To the heroic work of Chief of Police Morrison, Constable McKay and many other volunteers, including Japanese and Chinese, is due the fact that the up town portion of Steveston was saved.

About 100 Chinamen saw their homes licked up by the flames, which were fanned by a fierce southeast wind. Fortunately, the progress of the flames was stayed before the white men's dwellings were reached. As it was the Sockeye hotel and the barber shop had a pretty close shave.

The principal property owners who suffered losses are Messrs. James Furlong, Vancouver; Lee King, Sam Kee and Quong San Lee.

Many Immigrants Land.

St. John, N. B., April 8.—The C. P. R steamer Montezuma, Captain Birschman, arrived in port today with 1,161 passengers. There was not a single case of sickness during the voyage. The passengers were Gallicians and Italians, with a sprinkling of Germans, Hollanders and Belgians. All but 78 are going to the Canadian West. The steamer had 16 French horses consigned to Calgary.

The Cassandra, the big new boat of the Donaldson fleet, also reached port this morning from Glasgow, with 785 passengers.

Revenue Increasing.

Ottawa, April 8.—The revenue of the post office department for the nine months of the fiscal year closing March 31st, was $5,964,347, an increase of $696,363 over the corresponding period of 190-06. The revenue for March was $610,472 ,a decrease of $13,758 as compared with March, 1906.

Winnipeg Public Works.

The estimated cost of proposed civic works to Winnipeg that have been ordered is $1,800,000.

Manitoba Legislature.

The Manitoba legislature will meet April 22 for the despatch of business.

Winnipeg city council decide to allow the government to install a telephone system after a conference with Hon. J. H. Howden.

SALMO MINE SOLD

Mother Lode and Golden Bell Transfer

FAIR PRICE RECEIVED

Famous Properties in Sheep Creek Valley Acquired by Idaho Operator—Nelson Owners.

One of the pending deals for properties in Sheep Creek Valley is within sight of completion.

George S. Bailey, of Lewiston, Idaho, president and manager of the Wild Rose and Ozark mines, at Peirce City, Idaho, has just closed a deal for the purchase of the Mother Lode and the Golden Bell groups of mines, near Salmo for $150,000. The properties were owned respectively by Thomas Bennett and F. P. Drummond and others, and by F. P. Drummond and C. E. Bennett, and had been operated by them in a small way.

Six carloads of ore shipped from the Mother Lode to the Trail smelter gave returns of $113 in gold and two ounces in silver. There are large quantities of ore on the dump that will assay $40. The ore shoot from which this ore was taken has been proved to be from four to five feet wide and has been explored for 700 feet.

To the Spokesman-Review, Mr. Bailey said: "Ores appear to increase in value at the 60-foot level and from laboratory tests show that from 76 to 80 per cent can be saved by amalgamation. The remainder of the values can be saved by the cyanide process."

The mines are well known in Nelson where they have in the past been the subject of many negotiations and some litigation.

The Mother Lode group consists of shipping mines, and a lot of development has been done on the Golden Bell.

The Bennett brothers and Mr. Drummond have still many valuable interests in Sheep Creek valley, including the Kootenay Bell mine.

VANCOUVER GOLD SCARE.

Street Placer Mines Exist Only in Newspaper Columns.

Vancouver, April 8.—The vivid account of the wonderful Eldorado discovered in the East End of Vancouver, which appeared in the columns of one of the evening papers, may, as stated, start a stampede towards Gore and Dunlevy avenues, but it is more than likely that the wonderful discovery of gold will be as quickly forgotten as the report was sudden. Mr. R. J. Skinner, who is the one at the court house who issues licenses, states that the seven licenses for mining claims were duly taken out by men who, it is reported, have formed the syndicate, and Mr. Skinner still further says that it is quite possible that gold was found, just as has been described by Mr. Phil. W. Harner, while he was digging the ditch, but where did the gold come from? Mr. Skinner is an old mining man himself, and, what is more, something of a geologist, and in his opinion, there is no placer ground in this peninsula on which Vancouver is built. The utter lack of any wash, and the impossibility of its ever having formed the bed of any stream, precludes the possibility of the present find resulting in placer fields. It is hardly creditable that the gold could have come from any lead, which would mean a quartz ledge, and those who best know the formation of the land, which is composed for the most part of clay and sandstone, will take the tidings of the wonderful gold discovery with a large pinch of salt. Mr. Skinner states that it is possible that in some way the gold was dropped or lost by some one long ago, and has possibly settled down to the hard pan from which it was unearthed.

The mining licenses taken out were in the names of Phil. W. Harner, Chas. W. Murry, Frederick P. Murry, Whitley Murry, Russell Barrett, Colin McCuaig and one other.

False Report.

There is no truth in the report that insurance rates are to raised in Winnipeg.

Prices of Metals.

London, April 8.—Lead, £19, 11s., 3d. No other quotations received.

HUDSON'S BAY STORES

APRIL 8, 1907.

UNIVERSITY ENDOWMENT

The attack on the government bill to endow a provincial university out of the public domain, made in the legislature by J. A. Macdonald, Liberal leader, last Friday, came as a shock to the advocate of endowment throughout the province.

For three years and a half the friends of education in British Columbia, led, both in time and effort, by the University Club of Nelson, have been urging the immediate provision by endowment for the establishment of a university which all are convinced, is essential to the completion of the educational system of the province.

Their efforts were at last rewarded by the introduction, early in the present session of the legislature, of an enudowment bill framed on generous and intelligent lines.

The chief clauses in the bill are:

"It shall be lawful for the lieutenant governor in council to grant to the University of British Columbia lands in the province of British Columbia, not exceeding 2,000,000 acres, in aid of higher education in this province."

"All revenues derived from said lands, or from the sale or other disposition thereof by the said university, shall be devoted to the maintenance by said universiy of the following faculties: Arts and Science, Medicine, Law and Applied Science."

The bill was immediately attacked by the Socialists in the legislature. Their attack neither requires or deserves much consideration. Their only pretence of an argument destroys itself. They say that the well to do, for whom universities are maintained can well afford to send their children to eastern institutions—they can. It is for the talented and deserving children of the poor that a university within the province is chiefly required. Fortunately all the working men of British Columbia are not of the type of their self-constituted representatives who mistake blatant lung power for knowledge and ability.

But the attack of J. A. Macdonald, himself a member of a learned profession, is a different matter.

We do not propose at present to deal with Mr. Macdonald's m otives but only with his proposals. He will hear in a few days, if he has not already heard, from more enlightened members of his own party, who may be safely trusted to point out to him the fatuous nature of the course he is pursuing.

Mr. Macdonald urges that the grant be reduced to 1,000,000 acres, and that even from the 1,000,000 all revenues from coal, minerals and timber be diverted from the university funds to the revenues of the province for general purposes.

If Mr. Macdonald had not explicitly stated that he favored the establishment of a university, the only possible inference that could be drawn from his amendment, would be that he sought to make such establishment impossible.

His proposals differ not in kind but only in degree from those of Mr. Hawthornthwaite that the grant be reduced to 150,000 acres, and that all coal, mineral, timber and agricultural land be excluded.

One clause of the endowment bill already provides that:

"The said grant of land shall not in clude any lands held by grant, lease, agreement for sale, pre-emption or other alienation by the Crown, nor shall it include Indian reserves or settlements nor military or naval reserves, nor lakes or lands in which any person other than the Crown shall have a vested interest."

Now, it is obvious that any other land that may be granted for the university, if it is to afford any revenue within a reasonable time, must carry with it all possible sources of revenue. Mr. Macdonald's proposed deduction would leave nothing but potential value as agricultural land, and as no university board can go into the business of land promoting, the market value of even such parts of the grant as might be favorably situated, would be at the most but a few dollars an acre.

A university is necessary to British Columbia for the training of its youth; it is necessary even that the best may be made of the public and high school establishments. If it is to accomplish anything, if it is even to exist, it must be adequately endowed. The endowment proposed by Mr. Macdonald is ridiculously inadequate.

No advocate of the university seeks party advantage in connection with it. All deplore the fact that it has become a subject of dispute. But, unless Mr. Macdonald can be convinced that his policy is destructive; the only hope left is that the premier and his colleagues will pass, in spite of all opposition, the most liberal, progressive and far-sighted measure introduced into the legislature for many years.

Sir Wilfrid Laurier's reasons for voting against Mr. Bourassa's motion for enquiry into G. A. Fowler's general charges of corruption, are as puerile as anything he has ever said either in the House or on the public platform. He objected to having inquisitorial functions imposed upon Parliament, and regretted that Mr. Bourassa's motion admitted of no amendment. The second statement was flagrantly dishonest; he himself had dictated the form of the motion. Even if it were true it would mean that Sir Wilfrid wished an opportunity to express a pious opinion without committing himself to any line of action. As to his first objection, where, if not in parliament, are such charges to be investigated? Sir Wilfrid quoted with his usual unction the time-honored phrase about parliament being the custodian of its own honor. Parliaments have always recognized the obligation of purifying themselves of unclean members. Mr. Gladstone did not ignore even street gossip when it touched a member of his cabinet. Sir Wilfrid has shirked his duty and left to the public press the duty of driving moral lepers from the cabinet council.

The dismissal of Lord Aylmer from the command of the Canadian forces is but one more act in a long and unbroken series since 1896, that demonstrates the purpose of the Ottawa machine, of converting the Canadian militia like all other departments of the public service into a political engine for the advancement of purely party interests. Lord Aylmer is a thorough soldier, of high ideals, straight methods, and popular with the rank and file of every military unit in the Dominion. For political jobbery however he has neither taste nor capacity, and therefore he has not won the favor of his departmental chief, Sir Frederick Borden, and therefore he has to go. Lord Aylmer is in good company. Among the other soldiers who have been found too honest for the post are General Herbert, General Hutton, General O'Grady-Haly and Lord Dundonald.

George P. Graham, leader of the Liberal opposition in the Ontario legislature, has not yet shown himself to be a statesman, but he has earned a certain measure of public respect by declining to accept a salary as leader of the opposition. Mr. Whitney was perhaps right in offering it. He had the examples of Sir Oliver Mowat and Sir Wilfrid Laurier. Mr. Graham might have quoted one precedent for acceptance, but he chose to follow the earlier and more honorable precedent set by Sir William Meredith.

Dr. Hall asked a question in the legislature last week. He wanted to know how many special permits had been granted to teachers in 1905 and 1906. Of course the superintendent of education or any clerk in his office could have given the information, but Dr. Hall is quite right in using all available means and opportunities to familiarize himself with public speaking.

John Oliver's strictures on the public school acts of 1905 and 1906 were sufficiently ridiculous, it might have been thought, to debar that learned member from further contributions to debate on questions connected with education. But modesty is not one of John's weaknesses. He has now constituted himself an authority on the requirements of universities.

ADMIRAL PALLISER DEAD

Career of Former Commander of Fleet on Pacific Coast.

Vancouver, April 8.—Admiral Henry St. Leger Bury Palliser, "Fighting Hal" of the Royal navy, passed away a few days ago, at his residence, Halnaker, near Chichester, England. Death was due to heart failure. The admiral, who was an Irishman by his father's side anw owned Warden Court, in County Waterford, came of fighting ancestors, who attained to prominence in both services. As a midshipman he fought in the trenches at the Battle of Inkerman in the Crimean campaign, along with his father and two brothers who were in the Eighth Hussars. The admiral enjoyed the distinction of being a fellow middy with the late Duke of Edinburgh, The deceased was often in action. He commanded the Pacific squadron in these waters shortly before his retirement.

The Palliser range, in East Kootenay, is named after his cousin, Sir John Palliser, who crossed Canada with Mackenzie in 1838(and who was the author of "The Hunter of the Lone West." Another cousin, Sir William Palliser, invented the Palliser shell. Major Edward Palliser distinguished himself in the Riel rebellion by running the blockade in a canoe full of ammunition to relieve a fort. On his mother's side the admiral was a nephew to Captain Marryat, the famous writer, and the inventor of the system of marine flag signalling throughout the world. Word of his death was received in this city on Thursday by R. C. Campbell-Johnston, who was a nephew of the deceased. Admilar Palliser was very fond of British Columbia and had intended to come here to fish this summer. He is survived by Mrs. Bury Palliser. There are no children.

9.—Commencing at a post planted eighty chains east and eighty chains south of location No. 8, and marked G. A. Laurie's southwest corner of location No. 9, thence east 160 chains, thence north 40 chains, thence west 160 chains, thence south 40 chains to point of commencement

Dated Jan. 26th, 1907. G. A. LAURIE, Locator.

10.—Commencing at a post planted about six miles down Barnes creek from the mouth of Eureka creek *where it flows into Barnes creek* in a southeasterly direction, and marked G. A. Laurie's southwest corner post of location No. 10, thence east eighty chains, thence north eighty chains, thence west eighty chains, thence south eighty chains *to point of commencement.*

Dated Jan. 28th, 1907. G. A. LAURIE, Locator.

11.—Commencing at a post planted eighty chains east of location No. 10, and marked G. A. Laurie's southwest corner post of location No. 11, thence east eighty chains, thence north eighty chains, thence west eighty chains, thence south eighty chains to point of commencement.

Dated Jan. 28th, 1907. G. A. LAURIE, Locator.

12.—*Commencing* at a post planted south of and adjoining location No. 11, and marked W. H. Page's northwest corner post of location No. 12, thence east eighty chains, thence south eighty chains, thence west eighty chains, thence north *eighty chains* to point of commencement.

Dated Jan. 28th, 1907. W. H. PAGE, Locator.

13.—Commencing at a post planted eighty chains east and eighty chains south of location No. 12 and marked G. A. Laurie's *northwest* corner post of location No. 13, thence east eighty chains, thence south eighty chains, thence west eighty chains, thence north eighty chains to point of commencement.

Dated Jan 28th, 1907. G. A. LAURIE, Locator.

14.—Commencing at a post planted north of and adjoining location No. 13, and being marked G. A. Laurie's southwest corner post of location No 14, thence east eighty chains, thence north eighty chains, thence west eighty chains, thence south eighty chains to point of commencement.

Dated Jan. 28th, 1907. G. A. LAURIE, Locator.

15.—Commencing at a post planted eighty chains *north of* location No. 14 and marked W. H. Page's southwest corner post of location No 15, thence east eighty chains, thence north eighty chains, thence west eighty chains, thence south eighty chains to point of commencement.

Dated Jan. 29th, 1907. W. H. PAGE, Locator.

16.—Commencing at a post planted eighty chains east of location No. 15, and marked G. A. Laurie's southwest corner post of location No. 16, thence east *eighty chains, thence north* eighty chains, thence west eighty chains, thence south eighty chains to point of commencement.

Located Jan. 29, 1907. G. A. LAURIE, Locator.

17.—Commencing at a post planted south of *and adjoining* location No. 16, and marked G. A. Laurie's northwest corner post of location No. 17, thence east eighty chains, thence south eighty chains, thence west eighty chains, thence north eighty chains to point of commencement.

Dated Jan. 29th, 1907. G. A. LAURIE, Locator.

Take notice that thirty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works at Victoria, B. C., for a special license to cut and carry away timber from the following described lands in West Kootenay:

Commencing at a post planted 20 chains west of the northeast corner of Lot 812, and at the southeast corner of Lot 7786, thence east 20 chains, thence south 40 chains, thence east 40 chains, thence north 40 chains, thence east 80 chains, thence north 40 chains, thence west 120 chains, thence south 40 chains to place of commencement, containing 640 acres more or less.

Dated March 9th, 1907. PETER LUND, Locator

Notice is hereby given that thirty days after date I intend to apply to the *Honorable the Chief* Commissioner of Lands and Works, Victoria, for permission to cut and carry away timber from the following described lands in West Kootenay district:

Limit No. 1.—Commencing at a *post three-quarters* of a mile up Nine Mile creek, on Kootenay river, and marked William Walmsley's S. E. corner post, thence 160 chains west, thence 40 chains north, thence 160 chains east, thence 40 chains to the point of beginning.

Located March 8th, 1907.

WILLIAM WALMSLEY, Locator.
P. SHERAN, Agent.

Limit No. 2.—Commencing at a post about three quarters of a mile up Nine Mile creek, on the West Arm of Kootenay river, and marked William Walmsley's N. E. corner post, thence 160 chains west, thence 40 chains south, thences 160 chains east, and 40 chains north to point of beginning

Located March 8th, 1907

WILLIAM WALMSLEY, Locator.
P. SHERAN, Agent.

Take notice that 30 days after date I intend to apply to the Hon the Chief Commissioner of Lands and Works, Victoria, for a special licence to cut and carry away timber from the following described land, in West Kootenay: Commencing at a post planted at Kokanee Siding, on Sand Point, on south side West Arm of Kootenay river about 12 miles east of Nelson, B. C., marked "C. F Walmsley's N.E. corner post," thence 80 chains south, thence 80 chains west, thence 80 chains north, thence 80 chains to point of commencement, containing 640 acres, more or less.

Located March 16th, 1907.

CHAS. F. WALMSLEY,
P. SHERAN, Agent.

Take notice that I intend thirty days after date to apply to the Hon. the Chief Commissioner of Lands and Works for a special license to cut and *carry away timber from the following described* lands, situated east of Dog creek, in the district of West Kootenay: Commencing at a post marked "The Boundary Lumber Company's northwest corner post," planted about a mile east of the *Columbia and Western railroad, and about three* miles south of the Big Tunnel, thence 40 chains south, thence 60 chains east, thence 40 chains south, thence 100 chains east, thence 40 chains north, thence 80 chains west, thence 40 chains *north, thence 80 chains west to point of commencement.*

Dated 4th March, 1907. J GENELLE,
Agent for The Boundary Lumber Co.

Take notice that I intend thirty days after date to apply to the Hon the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situated on Dog creek, in West Kootenay district: Commencing at a post planted on the east side of the Columbia and Western railroad, on or about ten chains east, and marked "The Boundary Lumber company's post," and about a mile and a half south of the Big Tunnel, the northwest corner, thence running south 160 chains, thence east 40 chains, thence north 160 chains, thence west 40 chains to place of commencement.

Dated March 4th, 1907. J GENELLE.

Take notice that I intend, thirty days after date, to apply to the Hon the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situated on Sandy creek, in West Kootenay district: Commencing at a post planted on the west side of Sandy creek and called J. P. S's southwest corner post, thence running east 80 chains, thence north 40 chains, thence west 40 chains, thence north 80 chains, thence west 40 chains, thence south 120 chains to place of commencement.

Dated this 9th day of March, 1907.

J. C SCHERMERHORN.

LOCAL AND PROVINCIAL.

Library Meeting.

The annual meeting of the Nelson Library Association will be held in the council chamber Wednesday afternoon at 4 o'clock. A full attendance is requested.

Fair Directors.

A meeting of the directors of the Nelson Agricultural and Industrial Association will be held in the city hall tomorrow night at 8 o'clock, to receive reports on prize lists.

School Inspectors.

Owing to the illness of J. D. Gillis, inspector of public schools for Kootenay, Inspector Wilson, of Victoria, made a trip into East Kootenay. Mr. Wilson returned last night and left for Victoria this morning.

No Hotel Room.

On account of the rush of travel and the limited accomodations in Nelson, the Hume Hotel Billiard room has had to be surrendered to commercial travellers for use as a sample room. Today the billiard and pool tables, window sills and even chairs are piled high with samples of clothing, boots and shoes, and fancy goods.

School Plans.

Dr. Arthur has received a letter from C. W. Murray, secretary of the Vancouver board of school trustees, stating, in reply to Dr. Arthur's inquiry, that the plans in the Vancouver board's possession cannot be loaned to another board without the consent of the architects. Such was the opinion of Mayor Gillett when the suggestion to apply to Vancouver was first mooted. The only harm resulting is about a week's delay. A meeting of the joint committee of school board and council will be called for tomorrow or Wednesday evening.

Take notice that thirty days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works at Victoria, B. C., for a special license to cut and carry away timber from the following described lands in Ainsworth division:

Commencing at a post marked Chas. F. Walmsley's southwest post, thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains to point of commencement, the said land being situated on the east side of *Cascade creek*, about 2½ miles south of the Lardeau river.

Located March 12th, 1907.

CHAS. F. WALMSLEY, Locator.
P. SHERAN, Agent.

2.—Commencing at a post marked *Chas. F* Walmsley's northwest post, thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to point of commencement, the said land being situate on the east side of Cascade creek, about 3½ miles south of Lardeau river.

Located March 12th, 1907.

CHAS. F. WALMSLEY, Locator,
P. SHERAN, Agent.

3.—Commencing at a post marked Chas. F Walmsley's southwest post, thence south 80 chains, thence east 80 chains, thence north 80 chains thence west 80 chains to point of commencement, the said land being situate on the east side of Cascade creek, about 4½ miles south of Lardeau river.

Located March 12th, 1907.

CHAS F. WALMSLEY, Locator,
P. SHERAN, Agent.

Notice is hereby given that thirty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works, at Victoria, for a special licence to cut and carry away timber from the following described lands in West Kootenay, that is to say: Commencing at a post planted 40 chains east of the northeast corner of block 812, (post marked 812 K. S.) thence running east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to location post No. 1, containing 640 acres of land, more or less.

Dated at Creston, B.C., this 22nd day of March, A.D., 1907.

GEO. HUSCROFT,
J. C. SCHERMERHORN.

Take notice that I intend, thirty days after date to apply to the Honorable the Chief Commissioner of Lands and Works for a special licence to cut and carry away timber from the following *described lands*, situated on Sandy Creek, in West Kootenay district: Commencing at a post planted on the west side, of said creek, and marked "J. P. S's" northwest corner; thence running south eighty chains; thence east eighty chains, *thence north eighty* chains; thence west eighty chains to place of commencement.

J. P. SWEDBERG,

Dated this 19th day of February, 1907.

Notice is hereby given that 30 days after date I intend to apply to the Honorable the Chief Commissioner of Lands and Works, Victoria, for a special licence to cut and carry away timber from the following described piece of land in West Kootenay district: Commencing at a post planted 20 chains from the east shore of Upper Arrow lake and adjoining block 398 on the south and marked "Chas. Ehl's" northwest corner, thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to point of commencement.

Dated the 4th day of March, 1907. CHAS. EHL.

FORT WILLIAM'S POWER

Big Electric Plant at Kakabeka Falls on Kaministiquia River Now Ready for Operation.

Fort William, April 8.—A project long discussed and variously considered has at last been crystalized into fact by the Kaministiquia Power Company, and this town is now being supplied with electric energy generated at Kakabeka Falls, on the Kaministisquia river, 25 miles west of Fort William. The power is transmitted to the town by two lines on a single right-of-way, and is there distributed from a sub-station. The electrical equipment, which was manufactured and installed by the Canadian General Electric company, is of the most improved and modern pattern. The buildings are absolutely fireproof, being built entirely of structural steel and reinforced concrete, and the plant as a whole will bear favorable comparison with any of its kind in the world.

At the generating station the installation comprises two 5,000 k.w., 4,000 volt, three phase alternators, each direct connected to a 6,786 h. p. twin reaction water turbine; two 150 k.w., 125 volt, direct current generators, each direct connected to a 250 h.p. turbine and two banks of three transformers each, each transformer of 2,200 k.w. capacity of air-blast type, 2,300 to 14,475 volts.

The electricy is conducted in leaden-cased cables laid in tyle ducts underneath the floor from the generators to selector switches, located in cells near the transformer air chamber. For handling the heavy parts of the machines a 35-ton Nile crane has been installed. The crane motors are supplied with current from the exciter generators.

The switchboard is thoroughly up-to-date in the manner of control, and also in the apparatus used. No voltage *higher than 125 volts is found near it.* The transformers are set in concrete cells in a gallery beneath the 4,000 volt buses and the current transformers are placed on the concrete shelves in similar cells behind the high tension oil switches.

It is difficult to realize what the installation of this important plant really means to the town of Fort William and Port Arthur. Admirably located at the extreme end of Canada's extensive system of waterways, these towns bid fair to become great industrial centres, were it not for the difficulty of the fuel supply *owing to the great distance from* the coal fields. Now that an abundant supply of electric power is available at reasonable rates the growth of these towns should be materially accelerated. Already a number of big industries are nearing completion, while several others are projected. These comprise the Aitokan Iron company, the Canadian Northern Coal and Ore Docy company, the Meisel Manufacturing company, said to a branch of the Port Huron Harvester company; the Semans, Kent company, woodworking plant; the Canadian Iron Foundry company, while the Northern Steel company, of Collingwood, are negotiating for the erection of a plant for manufacturing wire and nails. This is only a partial list, but it sufficient to indicate that the twin towns, as they are sometimes termed, are on the high road to industrial prosperity.

NAMES WORTH MILLIONS.

Trade Marks Which Have Become Invaluable Through Merit.

All cameras are not "Kodaks."

All piano-players are not "Pianolas."

All ready-to-finish clothes are not "Semi-ready."

These three well-known trade mark names have taken a permanent place in the English language, though they did not exist fifteen years ago. They have been made to mean so much that the public applies the name generally to anything that resembles them.

Merchants and manufacturers who have imposed on the general acceptance of a name have suffered by their infringement of the Trade Mark Act.

By enthusiastic and intelligent promotion, the owners of a trade mark such as "Semi-ready" have succeeded in revolutionizing an industry and have incidentally created an asset valued in the millions. As a great American millionaire observed, "I had rather own a well-known trade mark than a million dollar plant."

BACK TO NELSON

I have just returned to Nelson and have opened up at the same old stand, and now ready to do all kinds of PAINTING, PAPER HANGING AND KALSOMINING. Shop rear of Bartlett House.

Certificate of the Registration of An Extra-Provincial Company.

"Companies Act, 1897."

I HEREBY CERTIFY that the "Kraco Silver Lead Mining Company, Limited," has this day been registered as an Extra-Provincial Company under the "Companies's Act, 1897," to carry out or effect all or any of the objects of the company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situate at Phoenix, Territory of Arizona, U. S. A.

The amount of the capital of the company is three million dollars, divided into six hundred thousand shares of five dollars each.

The head office of the company in this province is situate at Kaslo, and W. E. Zwicky, mining engineer, whose address is Kaslo, B. C., is the attorney for the company.

The time of the existence of the company is twenty-five years from the eighteenth day of October, 1906.

The company is limited.

Given under my hand and seal of office, Victoria, Province of British Columbia, this 22nd day of March, one thousand nine hundred and seven.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The purposes for which this corporation is formed are to buy, hold, lease, sell, work, explore, develop and operate mines and mining claims, and all kinds of mining property; to locate and procure patents for mining claims; to buy, erect, construct, or otherwise acquire and sell mills, smelters, concentrators or other reduction plants, and to run and operate the same in the reduction of all kinds of ore, and the extraction of mineral therefrom; to acquire in any manner all kinds of real estate necessary for the economical and expeditious operation of its mining and smelting and reduction business, and other business incident thereto; to buy and sell and otherwise acquire and dispose of any and all kinds of personal property, machinery, tools and merchandise, for the convenient and practical operation of its business in any branch thereof, and to that end to establish and conduct stores and merchandising establishments, for the purchase and sale of all kinds of goods and merchandise; to acquire in any lawful manner telephone and telegraph lines and rights of way; to operate and conduct such lines in any manner necessary or convenient for the operation of its mining and smelting and reduction business or any branch incident thereto; to build, construct, equip, operate and conduct railway and tram lines wherever necessary and convenient, to the proper operation of its said lines of business; to buy and sell or otherwise acquire and dispose of the stock of other corporations which may in its judgment contribute to the success of its operations, or which in its judgment may be for the benefit of its stockholders, to acquire in any manner and to *dispose of water rights, ditches*, flumes, pipe lines or other aqueducts, which may be necessary or convenient for supplying water to the various plants of the company, and to acquire in any manner and to establish and *operate plants and lines for operating, heating* or lighting the property or plants of the company, and to acquire in any lawful manner, and to dispose of townsites, or any portion thereof, and to hold, operate, sell, and dispose of water, *light and heat for the purpose of lighting, heating* or furnishing water to said townsite or townsites, and each and every portion thereof, and generally to do any and all things and to acquire and hold and dispose of all kinds of property, *and to manage*, operate and conduct any and all kinds of plants and business which in the opinion of the directors and stockholders may be necessary for the convenience and successful operation of its business as a mining and smelting and reduction company.

NOTICE

In the matter of an application for the issue of a duplicate of the Certificate of Title of Lots 3 and 4, Block 23, Lot 9, Block 38 and Lot 12, Block 50, Nelson City (Maps 206 and 256A.)

Notice is hereby given that it is my intention to issue a duplicate of the Certificate of Title for the above lots at the expiration of one month after the first publication hereof in the name of Franz Jacoby and Emil Pohl which Certificate of Title is dated the 4th day of January, 1907, and numbered 4267A.

PROVINCE OF BRITISH COLUMBIA.

No. 375.

THIS IS TO CERTIFY that the "Columbia Valley Land Company," is authorised and licensed to carry on business within the province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Winnipeg, province of Manitoba.

The amount of the capital of the said company is one hundred thousand dollars, divided into one thousand shares of one hundred dollars each

The head office of the company in this province is situate at the City of Nelson, and Robert Wetmore Hannington, barrister, whose address is Nelson, B. C., is the attorney for the company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 8th day of February, one thousand nine hundred and seven.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which this company has been established and licensed are:

(a.) Buying, selling, leasing or disposing of coal mines, coal and wood lands, farming, grazing and fruit lands and timber limits, and to work and develop the same:

(b.) To carry on the business of emigration and colonisation agents, make advances to assist settlers on lands purchased from the company, and secure repayment of such advances, with interest, on such terms and in such manner by way of Mortgage or agreement as may be mutually agreed upon.

(c.) To carry on the business of ranching, breeding and selling and dealing in cattle, horses, sheep and other live stock;

(d.) To purchase, sell, and deal in lumber wood, coal, mineral, grain, provisions, clothing and general supplies:

(e.) To carry on the trade as general merchants and forwarders:

(f.) To issue in payment of any property acquired by the company shares of the capital stock of the company as fully paid up and non assessable or otherwise:

(g.) To carry on the business of manufacturers and dealers in power generators and motors of every description, to construct and operate all classes of vehicles, agricultural implements, machinery, boats, steamers, barges and ferries in which the said motors are used; to construct and operate boat lines, and to carry on the business of carriers, cartage and parcel delivery; to own and operate omnibus lines and vehicles and boats for hire; to sell, lease and supply power, and to generate and sell, lease, and supply electricity; to own and operate electric plants and generally to carry on any business incidental to the aforesaid purposes and objects of the company:

(h.) To purchase, take or lease, exchange or otherwise acquire and dispose of any real or personal property and any rights and privileges *which the company may consider necessary for* the purposes of their operations, and to sell and dispose of any lands or other real estate and personal property at any time owned or controlled by the company, or any part thereof, or any control *therein or claims thereon, and generally* to do all such things as are incidental or conducive to the carrying out of the objects of the company

(i.) To become shareholders in any existing or proposed company and to promote and assist in promoting any company carrying on a business pertaining to the objects for which this company is incorporated and which may prove useful to this company, and to acquire, take over and operate the business of any such company or companies, and to enter into engagements for sharing profits, union of interest, joint adventures, reciprocal concessions or otherwise with any person or company, and take or otherwise acquire and hold shares and securities of such company or companies.

AINSWORTH LICENCE DISTRICT.

Notice is hereby given that Jas. H Goodenough has made application under the provisions of the "Liquor Licence Act, 1900," for a hotel license for the Whitewater Hotel, at Whitewater, and that a meeting of the Board of Licence Commissioners, of the Ainsworth Licence District, will be held to consider such application, at the Kaslo Hotel at Kaslo, on Tuesday, the 16th April, 1907, at the hour of eight o'clock in the afternoon.

W. H. ULLOCK-WEBSTER,
Chief Licence Inspector

Nelson, B.C., 28th March, 1907.

SQUARE TAN FOLDING POCKET BOOK Finder return to this office and receive reward

LOCAL AND PROVINCIAL

A. H. Gracey Returned.

A. H. Gracey, manager of the Eva mines, returned last night from a trip to Eastern Canada.

Late Train.

The Great Northern train from Spokane encountered a small rock slide near Hall Siding last night and was delayed several hours.

Choral Society.

The regular meeting of the Nelson Choral Society for rehearsal will be held in the K. of P. Hall tonight at 8 o'clock. As only a fortnight remains before the production it is important that every member attend.

Good as Okanagan.

W. B. Hudson returned last night from a six weeks' trip through the Okanagan. He thinks Kootenay is at least as good. Even in fruit lands there is as much activity in Nelson as in all the towns of the Okanagan.

Delayed Mails.

There is much dissatisfaction over the handling of mail from the coast, especially from Victoria. Letters and papers from Toronto reach Nelson as early of those of the same date from Victoria. No blame is attached to the Nelson post office.

Still Falling.

A portion of the new stone wall on the site of the old Victoria hotel fell down Saturday night, and caused so much noise that residents in the vicinity thought it was a visitation from an earthquake. S. A. Wye's plumbing shop had a narrow escape from serious damage.

G. B. McMillan.

George B. McMillan returned last evening from a four weeks' trip through California, Oregon, Washington and Montana. Everyone he conversed with was anxious to learn about British Columbia, and of course Mr. McMillan game them the right kind of information.

Boat Upset.

A lady and gentleman had a narrow escape from drowning yesterday afternoon. Their boat unaccountably upset in the middle of the Arm. They succeeded in clinging to it until employees of the Nelson Transfer Company who saw their mishap put out in a boat and rescued them.

Police Court.

Two offenders faced the police magistrate this morning. One was arrested Saturday night within an hour of his arrival in the city. He was inoffensive though drunk and was let go. The other, an Italian, had got drunk in his own shack and made a disturbance on the street about 8 o'clock last night. He paid $10 and costs.

Forty Hours' Devotion.

The Catholic clergy and congregation commenced the celebration of the exposition of the Blessed Sacrament, and forty hours' devotion, at high mass on Sunday morning. Rev. Father Althoff was the officiating clergyman at the mass and the inspiring sermon on the descent of the Hoy Ghost on the disciples was delivered by one of the visiting priests from Spokane. The ceremony connected with the Exposition included the procession of priests, acolytes and school children, the latter dressed in white garments, and the recitation of the litany of saints. This morning five masses were said by visiting priests and the faithful were in attendance during the whole day. The ceremonies will end tomorrow evening.

The Store of Quality

Left the Track.

A C. P. R. engine got off the track near the quarry this morning. The trouble was a broken rail. No one was hurt, but the Boundary train was delayed several hours.

Council Meeting.

The regular fortnightly meeting of the city council will be held tonight at 8 o'clock. The school loan by-law will be introduced and probably pass at least its first reading. The estimates of revenue and expenditure for the current year will probably be brought down. The resignation of the post of city engineer by A. L. McCulloch will be received. Mr. McCulloch has discovered that his engagements as a land surveyor will take all his time, and that he cannot remain any longer in the city's service.
