LUME I. No. 54. NELSON, B. C., MONDAY, AUGUST 6, 1906. FIFTY CENTS A MONTH

## MMISSION FINDS

### at Vancouver World's Charges Are False

### F. GREEN EXONERATED

#### austive Review of the Evidence --Commissioners Report in Full.

ctoria, August 4.—The commis-er appointed to investigate the ges of the Vancouver World in ect of the sale or lease of the dray lots completed its work, and Fred Peters, K. C., has sent his rt to his honorable lieutenant ernor, James Dunsmuir.

he preamble sets forth the facts o the appointment of the commis-, the taking of the oath, and then es the following findings:

find the facts relating to said pro-d sale to be these: Mr. Pendray he owner of certain property on 's Point, which he uses for his ness, and which adjoins lot 570B, for obvious reasons was desirous taining lot 570B. In order to ac plish this purpose he opened ne tions to buy the lot with the Hon. Green in September, 1905. These tiations were carried on partly by Pendray personally and partly by Brown, his agent.

he result was that Mr. Green signi his willingness to sell the lot by lic competition, viz: either by ten-or by public auction, at the same making a stipulation that the lot ld not be put up for tender unless (Pendray) was prepared to put in ubstantial tender, and it was ed that at least $2,000 should be dered (I find that this stipulation s wise, and in the public interest). Green at the same time suggested t it might be better to sell the perty by auction, as under the ten-system a slightly higher tender ght be put in, and Pendray thus e the property, whereas at auction would know just what he had to et, and could act accordingly. The shot of the matter was that the ten-r system was adopted, and on the st of September, 1905, Mr. Percy own, agent for Pendray, put in a itten tender for $2,000, and put up a rtified check for that amount. This nder was not sealed, but was open, reason for this being that Mr. own wished to assure Mr. Green at Pendray was bona fide keeping s bargain as to the amount he would nder.

Under the circumstances, I cannot e that there was anything wrong in r. Green accepting the open tender. Tenders were then called for by no ce, dated the 22nd September, 1905. nder the terms of that notice ten-rs were to be made by 12 o'clock oon of the 7th October, 1905.

On receipt of Mr. Pendray's tender, r. Green locked it up in a private awer in his office, apparently still pen, not sealed up, and the evidence atisfied me that it remained in that awer until after 12 o'clock noon of e 7th October, 1905. It is also clear at no official in the Lands and Works epartment, other than Mr. Green imself, saw the Pendray tender, or new the amount stated in it, until af-er 12 o'clock noon of the 7th October, 905.

Shortly before 12 o'clock noon of the th October, Mr. Harrison, proprietor f the Driad hotel, and a Mrs. Loggie, stenographer employed at the Dri-rd, came to the Lands and Works epartment and put in a tender for Mrs. Loggie for $2,100. This tender as sealed, and enclosed with it was Mrs. Loggie's check on the Canadian ank of Commerce for the $2,100 duly ertified. There were no other ten-ders.

At about 2 o'clock on the same day he tenders were opened in the presence of Mr. Green and the then depu-, Mr. W. S. Gore, when, of course, it as found that the tender of Mrs. Log-ie was the higher.

I am of the opinion that if nothing had intervened, the tenders would in e ordinary course have been laid be-fore the council, probably with Mr. Green's recommendation that the Log-gie tender be accepted, but something did intervene. The board of trade, a day or so after the 7th October, sent a delegation to the government to point out that the lot in question should not be allowed to fall into pri-vate hands, for the reason that if a tall building was erected at the end of the point, it wolud intercept the view between vessels approaching each oth-er from opposite sides of Sehl Point and cause a menace to navigation. To this argument the government acced-ed, and both tenderers were informed in writing that the lot would not be sold, and the reason for the refusal to sell was given.

The sale by tender having fallen through, negotiations to lease the property were entered into by Pendray with the department, which are not yet complete, they having been delay-ed by reason of negotiations with the government of Canada for the acqui-sition of the lot for lighthouse pur-poses. The proposed lease to Pendray was not produced. I understand, how-ever, that it contains, or will contain, certain clauses allowing its cancella-tion on notice, this being necessary in order to allow the government of British Columbia a free hand in its negotiation with the government of Canada.

So far as the action of the depart-ment is concerned, what I have al-ready stated is a history of the whole transaction, and upon its face I can see nothing in the least wrong about it.

On the 16th May, 1906, an editorial appeared in the Daily World, a news-paper published in the city of Van-couver, of which Mr. D. W. Higgins is editor. This article was headed "An-derson and Anderson Again in Evi-dence," and will be found in the en-closed exhibits, marked Exhibit 4. It contained certain charges.

The first named article was follow-ed by a second in the same newspa-per, in the issue of the 23rd May, 1906, also to be found in the exhibits, re-peating and adding to the charges al-ready made. And a third article in the same newspaper, dated 26th May, renews the same charges, with added details, and they are reiterated in a fourth article on the 5th June, 1906.

The charges made in these articles may be formulated as follows:

1. That Mr. Green, or some person in the department, gave away the amount of the tender to Mrs. James Anderson, or some other person, be-fore 12 o'clock on the 7th October, with the object of fleecing Pendray.

2. That Mr. Green agreed to lease the lot in question to Mr. Pendray at a nominal rent, under a threat from Pendray that unless the land was giv-en to him he would expose the whole transaction.

3. That the tender put in by Mrs. Loggie was not really hers, but that her name was only used as a blind, and that the real tenderer was An-derson.

After carefully considering all the evidence adduced—and I have been careful to obtain every witness who could give any information—I am clearly of the opinion that none of the charges are true, and that the evi-dence given very clearly establishes their falsity, and that with regard to the whole transaction nothing has been done by Mr. Green, or any offi-cial in the Lands and Works Depart-ment, in the slightest degree worthy of censure.

I shall proceed to give my reasons for this finding. The first charge is a very serious one.

It will be apparent that if informa-tion as to any particular tender is giv-en out to other tenderers, the whole system of sale by tenders would be useless. Such a proceeding is not only unfair to the person whose ten-der is disclosed, but is calculated to cause loss to the province by tending to keep down the amount of subse-quent tenders.

The grounds upon which the charge in question was founded was that one Percy Brown (Pendray's agent), a real estate agent of repute, had stated that before 12 o'clock on the 7th Oc-tober, Mrs. Anderson had come to his office and shown that she knew the exact amount of Pendray's tender, and had stated the amount to him, Brown, and told him he should bid more if Pendray wanted to get the property; and from this it was assumed that Mrs. Anderson must have obtained her information from the department.

The evidence satisfies me that Mrs. Anderson did not know the amount of the Pendray tender, but from calcula-tions made by other parties (to whose evidence I will refer), she was pos-sessed of a very close estimate of what Pendray would probably tender; that when she went into Mr. Brown's office she was by no means certain of the amount of the Pendray tender; that she went there for the purpose of getting information upon that point, and by the rather sharp ruse of pre-tending to have information, which she did not have, she threw Mr. Brown off his guard to such an extent that he himself actually gave her the re-quired information, and satisfied her that the calculations she already had were correct, so that if knowledge of the Pendray tender was obtained at all, it was so obtained—not from Mr. Green, but from Mr. Brown. I may say that Mr. Brown now practically admits this to be the case in his evi-dence.

The history of how the Loggie ten-der came to be put in now follows: The notice calling for tenders came to the eye of Mr. Murray, a real estate agent, and he immediately came to the con-clusion the he would try to get one of his clients to tender. He was moved to do this by two reasons: Firstly, he had been concerned in he sale to Pendray of his property on Sehl's Point, and he contended that in some way (not necessary to enquire into) he had not been well treated in the matter of the commission, and that Mr. Brown had reaped the re-ward of his (Murray's) work. He felt sure Pendray would tender for the lot, and he thought he might get even with Pendray on the old score if he got someone else to tender enough to beat Pendray's probable offer. Sec-ondly, he saw a fair chance of making money on the deal.

Having concluded he would induce some person to tender, he made a careful calculation to ascertain what Pendray would probably tender. I may say that Mr. Murray was in a pecu-liarly good position to make this cal-culation. He was intimately acquaint-ed with the property, and with Pen-dray's ideas of value, and I see noth-ing surprising in the fact that he and Pendray came to about the same val-uation. The result of his calculation was that he concluded that Pendray would probably value the property at $2,000. That, in order to cover that value, he (Pendray) would probably tender $2,050, or thereabouts, and that a second tender of $2,100 would be successful. Having come to this con-clusion, he approached Dr. Gibbs on the subject, showed him the calcula-tion and tried to get him to tender. Dr. Gibbs was not then able to go into the matter. He next tried Mr. Laird, and gave him the same information. If we stop at this point, it will be seen that before Mrs. Anderson or her hus-band had anything whatever to do with the transaction, Murray had set-tled the amount of any second tender he could get, and had given the fig-ures to Dr. Gibbs and Mr. Laird, who were both called as witnesses. It is clear that Murray got no information from the department, but that the amount of $2,000 was arrived at by well considered calculation. I think a fair consideration of this evidence re-moves every shred of suspicion that might arise from the fact of the ten-ders being so nearly of the same amount.

Up to Thursday before the tenders were to be put in, Murray had accom-plished nothing, but on that day he met Mr. James Anderson at his club and laid the matter before him, giving him the same figures he had given the others, and also a sketch of the prop-erty. Anderson seemed pleased with the proposition, and spoke of some person in Seattle who might take it. Anderson told his wife about the mat-ter, and particularly upon Friday even-ing Anderson and his wife talked the matter over, and it is clear Anderson gave his wife the particulars of Mur-ray's calculation. On Saturday at about 11:30 a. m. Mrs. Anderson had the interview with Brown before re-ferred to.

Brown's office is on Broad street, near Trounce alley. At the very same time Anderson meets Harrison, of the Driard, also on Broad street, near Trounce alley. Anderson says this meeting was accidental, and also that it was an accident that he should be on Broad street just when his wife was at Brown's office. I have my doubts on this point. I am disposed to think the whole thing was arranged between Anderson and his wife be-forehand. I will state my reasons for this view later, and will now continue the narration of the facts. When Har-rison and Anderson met, Anderson explained the position of affairs to Harrison, and gave him the figures and advised him that it was a good chance. Harrison immediately went to Mrs. Loggie, who is a stenographer at the Driard hotel, and laid the mat-ter before her, with a strong recom-mendation that she should tender. As a result of this, she, in company with Harrison, drove down to the depart-ment and put in the tender. Neither Anderson nor his wife had any com-munication with Mrs. Loggie. In fact, she did not know either of them. I am perfectly satisfied that so far as Mrs. Loggie is concerned, she put the tender in, relying solely upon the judgment of her friends and adviser, Harrison, and that she did so for her own benefit, and was not acting for anyone else. Mrs. Loggie gave her evidence in a very satisfactory man-ner, and by the production of her bank book, which she allowed me to see, showed clearly that she was well able to finance a transaction of this kind. The charge that Mrs. Loggie was act-ing as a blind for the Andersons was in reality not strongly urged. In fact, in an article in the issue of the World of the 19th of May last, it was practi-cally withdrawn. Whilst entirely be-lieving that Mrs. Loggie's tender was for herself solely, and that the Ander-sons had no interest in it whatever, I am not satisfied that the Andersons did not hope at some later date to try and obtain an interest in the deal if Mrs. Loggie succeeded, probably by re-purchase from Mrs. Loggie. I am satisfied the Andersons thought the deal promising, and I cannot think they would have taken the trouble they did about if in some way they did not hope to profit by it. I consid-er, however, it is utterly immaterial to this enquiry to speculate whether or not the Andersons had any hope to get into the transaction later on or not, and in any case I have only the evidence of the Andersons upon the point, and the last few lines of Mrs. Anderson's evidence referred to her having by signal told her hus-band that the amount of the tender was all right, and her subsequent com-plete change of this statement, such change being made at the instance of her husband, convinces me that no finding depending solely upon their evidence can safely be made.

As to the second charge, namely, that Mr. Green had agreed to give Pendray a lease under a threat of ex-posure, it will be sufficient to say that the evidence clearly shows that no such threat was ever made, and there is no foundation whatever for the charge.

As to the third charge, namely, that Mrs. Loggie was merely a blind for the Andersons, I have already dis-posed of this.

I might stop at this point, as what I have already reported disposes of all the matters referred to in my com-mission, but in fairness to the editor of the World, I think it proper to ex-press the opinion which I have formed —that the editor of the World cannot be blamed for publishing the charge that information had been given out from the department at the time he did. I am further induced to express this opinion upon the ground that Mr. Taylor, counsel for Mr. Green, cross-examined Mr. Higgins very closely with a view to showing the contrary. In order to arrive at a just conclusion on this question, I must put myself in the position of the editor at the time he published the articles and forget the evidence that I have before me now, but which he did not have then. I think the story told by Brown, un-explained by further evidence, was calculated to arouse suspicion—a sus-picion which has happily been com-pletely removed.

Appended hereto is a complete re-port of the evidence and all proceed-ings had before me, with the several exhibits produced; also the original commission.

All of which I respectfully submit.

(Signed) FREDERICK PETERS,
Commissioner.

30th July, 1906.

## STRANGER KILLED

### Fatality at Hall Mines Smelter

### BURIED BY FALLING ORE

#### D. H. Smith, of Thurso, Scotland, Found Dead This Morning in Ore Bin.

The Hall Mines smelter has been the scene of very few fatal accidents during the years of its operation. A year ago an employee of the C. P. R. company was caught and crushed be-tween a car and a platform on the smelter spur, and smeltermen have died from injuries. But the accident discovered this morning is the only case of an employee of the smelter company being killed while at work.

D. H. Smith entered the company's employment about July 18th. Nothing was known of him except that he had lately arrived in the city from the east.

Last Friday morning he was assign-ed the task of loosening the crushed and caked ore from a mechanical roaster no longer in use. The ore oc-cupied about half the bin in which he was to work. He was intended to loosen it and bring it down gradually, so that it might be shovelled out and the bin cleared. The entrances to the bin were from the side and from above. Work of exactly the same kind has been done again and again in the smelter without accident, and has never been considered dangerous.

Smith was checked by the foreman and the timekeeper at noon on Friday, when he seemed to be making fair progress. He was never seen alive again.

He was missed on Saturday, and it was seen that his work was not fin-ished. He did not report for duty this morning, which caused some surprise. Then a message came from Mrs. Fin-nerly, proprietress of the Sunnyside hotel, where Smith was boarding, say-ing that he had not been there since Friday morning.

Manager Hedley and Foreman Saun-ders then began to investigate. At first glance at the bin it seemed to both impossible that the body of a man could be there, as part of the floor was still bare and the space covered by the fallen ore was very small.

Mr. Hedley, however, ordered the space to be cleared, and a few min-utes' shovelling discovered the body of the unfortunate man, doubled up, buried by the mass of ore he was stooping to loosen, evidently working from the bottom instead of the top.

Dr. Arthur was immediately sum-moned, and he and a representative of The Canadian arrived soon and saw the body removed to the Standard Furniture Company's undertaking par-lors.

On inquiry at the Sunnyside hotel it was learned that the deceased ar-rived in Nelson about three weeks ago from Brandon. His trunks arrived on Friday last after he had gone to the smelter. A post card also arrived ad-dressed originally, "D. H. Smith, Thur-so, Scotland," changed later to Bran-don, and then to Nelson. He was probably about 30 years of age.

Whether he was married or not is not known by anyone in Nelson.

## ROUND THE BOUNDARY

#### Correspondent Corrects Error of the Daily News—Grand Forks News Items.

(Special to The Daily Canadian.)

Grand Forks, August 6.—With refer-ence to the case of George Davis, who was sentenced here a few days ago by Police Magistrate Cochrane to three months' imprisonment, and in addition was fined $100, and, in default of payment of the fine, to an addition-al charge of three months, on a charge of "wounding William Hoffman, with intent to do grievous bodily harm," this man was charged as above, and not with "wounding with intent to kill." Your correspondent has made inquiries into this case, and finds that there were extenuating circumstances. The accused is a cripple, he not hav-ing the use of his left arm. The evi-dence in the police court went to show that Hoffman was the aggressor, Davis being brutally assaulted, knock-ed down and otherwise abused. This being the case, and the charge being that of assault, the penalty imposed by the trial magistrate was not a light penalty, which it would have been considered if the charge had been as it was at first reported, "wounding with intent to kill."

E. R. night has just arrived here from Bonanza Mountain, where he has been doing development work on the Copper Monarch group. Mr. Knight corroborates previous reports regarding the immense ledges of high-grade copper ore on this group. In an interview last Saturday evening he said: The claims in this group are the Copper Monarch, Fairview, Blue Boy and Blue Boy Fraction. There is a large quartz ledge, with an average width of from 30 to 40 feet, with a strike in a northeasterly direction and a dip to the southeast, although this ledge is apparently barren on the surface. Assays have been obtained from $2 to $3.50 in gold. A remarka-ble feature about this quartz ledge, and which should draw the attention of mining men, is that along the con-tact of the ledge on either side are copper outcroppings assaying from $20 to $30 in copper and five to ten ounces in silver. The outcroppings to the east seem to be the richest, being found on the Blue Boy Fraction, where the outcrop has been stripped for a distance of 40 feet in breadth. Mag-netic iron, copper carbonites and chal-copyrite take place the entire distance across. Assays taken from this par-ticular spot run from 5 to 10 per cent in copper.

Bonanza mountain is the third big mineral mountain up the North Fork, the first being Volcanic, some ten miles from Grand Forks, while Bonan-za mountain is 17 miles from Grand Forks. While comparatively little has been known of Bonanza mountain dur-ing the past few years, the immense bodies of copper ore now being opened up in that camp are bringing it into early prominence.

(Special to Daily Canadian.)

Greenwood, August 6.—The colony of eastern mining men, some of whom have been in town for some weeks, keeps growing. Saturday's hotel reg-isters show the names of Warner Mil-ler, Samuel Newhouse, M. M. Johnson, James Donahue, H. H. Melville, J. W. Traylor, Richard Armstrong and oth-ers, representing New York, Boston, Chicago and Salt Lake City.

Extensive repairs and enlargements are being made to St. Jude's hall.

The recreation park has been re-cently enclosed with a high board fence and a commodious grand stand erected. Now if it could be bodily moved in towards the heart of town about a mile it would be better.

Dwellings are above par here now, owing to the scarcity, and an opening exists for some one to make a good investment in a score of neat cottages that would rent at from $12.50 to $15 per month.

A syndicate of local men is being formed to take over the E. P. U. mine. This property lies just east of town, and has shipped considerable first-class ore.

#### Circus Tomorrow.

The late Robert G. Ingersoll once said, "The more I know men, the bet-ter I like dogs." There is food for thought in this apparently frivolous remark. There is no discounting the fact that a horse or a dog is a true friend. The many remarkable in-stances of devotion displayed by the four-footed creatures is sufficient to prove this assertion. The intelligence displayed by many animals of the low-er order is truly wonderful. With Burch and Reiss' World's Greatest Dog and Pony Shows, which will ex-hibit in this city on Tuesday, August 7, are over 350 animal actors. These four-footed creatures display intelli-gence that is almost uncanny. Ponies go through a military drill with the precision and willingness that would put to shame many military compa-nies. They obey every command, and perform the most intricate manoeu-vres; there are ponies that count, mul-tiply, subtract and tell the different colors. There are ponies that will act as servants, and will bring any article the trainer may designate. There are clown ponies, and ponies that perform the most difficult of acts. The dogs, monkeys, goats, zebus, lla-mas and camels all perform surprising acts. The man who says that animals do not think will feel ashamed of him-self after seeing these shows. Ani-mals in comedies and little plays, ani-mals in tragedies and animals in doz-ens of wonderful acts all go to show that they think and are capable of making themselves understood. In conjunction with the multitudinous animal acts will be presented famous-ly funny clowns, Japanese acrobats and aerialists, Lilliputian performers and many new and novel features nev-er seen with a show along these lines before. Gregory's Royal Italian Band has been especially engaged for the tour of Messrs. Burch and Reiss' shows, and is unquestionably the fin-est musical organization ever carried with a tented exhibition. Another spe-cial feature of these shows is that the 100 Shetland ponies will be placed at the disposal of the little men and wo-men after the matinee. Every child attending these shows will be given a free pony ride. Under no circum-stances will this feature be omitted. A grand free street carnival and chil-dren's fairyland parade will be given on the morning of the exhibition at 11 o'clock, at which time the entire aggregation of animal actors will be seen.

#### Cowes Yacht Races.

Cowes, Isle of Wight, August 6.—The Cowes regatta opened today un-der the most brilliant auspices with a program of races under the patronage of the Royal London Yacht Club. The roads were crowded with yachts of various rigs and with stately warships guarding the kings of England and of Spain, who, with their consorts, watch-ed the races from their respective royal yachts. The weather was bright, but the wind was very light.

The chief event of the day was a handicap race for schooners exceed-ing 100 tons over a 48-mile course, in which Emperor William's Meteor, Claude T. Cayle's Adel, Herr Guil-laume's Clara, Viscount Iveagh's Ceto-nia and other big yachts started.

Another race for 79-footers, the com-petitors being George W. Watkins' yawl Navahoe, Myles B. Kennedy's cutter White Heater, Sir James Pen-der's cutter Kariad and R. N. W. Ye-tung's cutter Nyrita, will take place.

## REPORT OF THE STRIKE

#### Russian Labor Leaders Hesitate to Precipitate Horrors of Civil War Throughout the Country.

St. Petersburg, August 6.—Late this afternoon it was evident that the gov-ernment had practically succeeded in crushing the organization of the strike leaders here. A central committee of the several democratic societies was captured and imprisoned in the early hours, and the greatest confusion now prevails in the revolutionary camp. The hope of the revolutionists is now centered in Moscow, as the St. Peters-burg railway committee has decided to await the result of the strike there before attempting to order out the men.

Wednesday is now the day on which they say the railroad strike will be-gin, although the employees of several of the street railroad lines which struck Saturday have resumed work. The prefect of police of Cronstadt has notified the striking longshoremen that unless they return to work to-morrow they will be expelled from the island.

A private despatch from the West-inghouse Branch at Moscow received late today said that the men are at work, and that the manager has been assured by the prefect of police that a general strike in Moscow was impos-sible.

#### WILL VISIT AGAIN.

#### Chicago Contractor is Charmed With Beauties of Nelson.

L. T. Dickason, with his wife and children and their governess, left for their home in Chicago Saturday night, after spending a month in Nelson and on the waters of the West Arm.

Mr. Dickason is a wealthy contract-or, and always takes a month's holi-days in the summer with his family. He has visited most of the summer re-sorts of the continent, but hereafter he will experiment no more. He has discovered in Nelson the spot he has been looking for, and declares his in-tention of being a regular summer res-ident.

Mr. Dickason chartered a houseboat on his arrival, and spent the first fort-night cruising on the Arm and the main lake, fishing and exploring. The remainder of the time was spent in comfortable quarters at the Strathco-na.

On leaving Mr. Dickason expressed the opinion, which is fully shared by the rest of the party, that in beauty of scenery and glories of climate Nelson hasn't an equal on the continent.

The party viewed the N. P. A. A. O. regatta, and greatly enjoyed a specta-cle that they hardly expected to see in a land of mountains.

While in Nelson they made many friends and greatly enjoyed the social life of the city as well as its natural attractions.

Mr. Dickason is so enthusiastic that he intends to tell all his friends in Chicago of the treasure he has dis-coverer and invite them to share it with him next year.

#### A Lord's Marriage.

London, August 6.—Lord Haddo, eldest son of the Earl of Aberdeen, lord lieutenant of Ireland and former governor-general of Canada, was mar-ried to Mrs. Cockmayne, a widow, at St. Columbus church here this after-noon in the presence of a large and fashionable congregation.

## A FEARFUL WRECK

### Italian Steamer Sirio Went Down Saturday

### THE CREW WAS RESCUED

#### Frightful Scenes at Shipping Offices Seeking Word of Three Hundred Drowned.

Genoa, Italy, August 6.—The wreck of the Italian steamer Sirio on Satur-day off Hormigas island, near Carta-gena, Spain, caused intense excitement among the relatives and friends of the Italian passengers and crew, most of whom lived here or in this vicinity. The offices of the captain of the port and the Italian Navigation Company, to which the Sirio belonged, were so besieged today by agonized throngs seeking information that the police were compelled to establish barricades to hold back the crowds, some of whom assumed a threatening aspect, declaring that facts were being with-held.

The Sirio had seen 23 years of ser-vice, but she was considered to be sea-worthy. Her captain, Giuseppe Hara-dia, was a native of Genoa and a vet-eran seaman.

The Italian General Navigation Company, owners of the wrecked steamer, received a despatch last night purporting to be from the cap-tain of the ill-fated vessel, reserving his report of the details of the wreck, but saying the crew were safe. This raises the possibility that the captain ultimately was rescued.

Cartagena, Spain, August 6.—The Sirio is considered to be a total loss. A number of bodies of the drowned were buried today. Ten passengers died after being brought ashore. The survivors say the ship sank with rap-idity. Many of the passengers were on deck as the steamer disappeared. The boats were so overcrowded that a number of them immediately capsized, throwing their occupants into the wa-ter. Quantities of goods and clothing for the survivors are arriving here from all parts of the country.

Madrid, August 6.—The naval au-thorities here have opened an inquiry into the wreck of the Italian steamer Sirio. The officers of the Sirio will be detached at Cartagena to await the result.

#### ENCOURAGE YOUNG MEN.

#### The Printers' Strike Forces Open Shop System.

New York, August 6.—Lithograph work and printing representing thous-ands of dollars is tied up in this city as a consequence of the strike of litho-graphers and assistants. At this time of the year much colored calendar work is done for delivery in the fall and unless the orders now in hand can be promptly filled the loss to the em-ployers will, it is said, be considerable. The president of one of the large litho-graph concerns in New York last night estimated the number of strikers in that city at 8,000, and the total throughout the country at 20,000, or about two-thirds of the whole number of men engaged. The week opens with little prospect of an early settle-ment of the trouble. The two sides to the controversy give different ex-planations of the trouble. The strik-ers insist that they seek only a short-er day and conditions consistent with the class of skilled work in which they are engaged.

On the other hand a representative employer said last night: "The length of the working day is not included in this dispute. That could easily be ad-justed. The real point at issue is the substitution of the open shop for the closed shop. There are not lithograph-ers enough in the country to handle the work during the busy season and there will never be under the system of apprenticeship in vogue in the close-d shops. This is because the Union will not permit sufficient new men to learn the trade to offset the mortality among the older men.

"Working eight hours a day we could not fill our orders. What we want is more lithographers, but we cannot introduce new men except through the apprenticeship of the Union. Now, what we propose to do is to establish the open shop, hire ex-perienced men wherever we can and encourage young men to learn the business."

Chicago, August 6.—The Milwaukee Avenue State Bank, one of the largest banks outside of the down town dis-trict, today closed its doors following a run. Henry W. Hering, cashier of the bank, is missing, and a warrant charging him with embezzlement, has been sworn out. At the same time the state bank examiner, C. C. Jones, issued a statemnet to the effect that the whereabouts of the three officials of the bank is unknown today and that the bank is without an official head.

Advertising rates on application.
All monies paid in settlement of The Daily Canadian accounts, either for subscriptions or advertising, must be receipted for on the printed forms of the Company. Other receipts are not valid.

AUGUST 6, 1906.

"By one word we are sometimes judged to be wise and by one word sometimes judged to be foolish. Let us therefore be careful what we say."—CONFUCIUS.

## THE PENDRAY LOTS.

The commission recently appointed to enquire into the charges of the Vancouver World in the matter of the Pendray lots at Victoria has concluded its labors and reported to his honor the lieutenant-governor. In another column we publish the commissioner's report in full, and it sets at rest the matter as far as it concerns the responsibility, good faith and business administration of the Lands and Works Department of the provincial government.

The absolute and complete vindication of the Chief Commissioner of Lands and Works, Hon. R. F. Green, will not come as a surprise to those who have any knowledge of the faithfulness with which he has administered the affairs of his department since he took the oath of his office, and no comment on that aspect of the case is necessary. The political harpies of the opposition press have every occasion for humiliation, for in their eager haste to follow the lead of the World they have shown a degree of readiness to engage in any sort of political vituperation, misrepresentation, and even slander, that they think will further their own cause and damage the fair names of their political opponents.

The humiliating confession of the World editor that he sent the copy of the charge that originally came to his office, "with a few pencil changes, to the printer within an hour," is evidence that he was actuated with an amount of personal animus that should disqualify him for so responsible a position as that which he occupies. No public man is safe in reputation, honor or domestic relations, or public confidence, if it is possible to have newspaper editors rush charges of malfeasance of office and corruption, together with other malevolent insinuations, into print without the slightest investigation of their truth or falsity. The further failure of Higgins to disclose the name of the traducer of Hon. Mr. Green is conclusive evidence that he must have had suspicion of the falsehood of the charges when they were first made. His statement, made under oath, that the production of the name of the writer of the document which Higgins first published would not necessitate the calling of further witnesses, was evidence that the original maker of the charge either knew its falsehood, and made it from whole cloth, or afterward discovered his mistake, and, instead of tendering a satisfactory apology and amending his error, was willing to have the country put to the expense of an investigation and to keep the public in suspense as long as possible in the hope that something might turn up.

British Columbia has not been without some curious political sensations, and some of the things done in past years, as, for instance, when Mr. Joseph Martin was premier, make interesting reading. But we know of no Conservative newspaper, in the heat and acrimony of political debate, that ever stooped to the contemptible meanness of the World and the coterie of small-calibred echoes that whistle its sentiments. Higgins, a disappointed and discredited political renegade, has had his last fling, as he will never be taken seriously again. In the meantime, no better service could have been done the public than has been done by the Chief Commissioner in demanding that the facts be brought into the fullest light. The Liberal scandal-mongers who have a scent for offal, having been so long accustomed to it in their own party, and having become so habituated to making mistakes in British Columbia politics, will profit little by this last experience. They will all be ready to do it again on the slightest suspicion, but the people have learned a lesson, and this time a wholesome one. The country will not soon be set by the ears by political falsehoods gendered by personal animus and disappointed rage, as was the case of the Vancouver World.

## TOUCHED THE SPOT.

A few days ago The Canadian joined in the long procession of papers of both political parties in complaining about the inefficiency of the postal service in the west generally, and in particular with respect to the complaints of Phoenix and Greenwood in connection with the unsatisfactory conditions which prevail there. We took occasion to quote from the Boundary Creek Times, Mr. Duncan Ross' paper, and succeeded in showing that the Times says too much. It inadvertently remarked something about Phoenix "being a hostile camp," and had got all that was coming to it and more. In a moment of weakness the Times said too much when it called attention to the hostile attitude of Phoenix, but that paper reads us a lesson in morals and good conduct and some other things in its issue of last Friday. It says:

"The Daily Canadian is never happy except when it is unfair and inconsistent. Its editor's early training and environment are evidenced in every editorial which has for its object the condemnation of those pestilent Grits and glorification of those heavenly Tories. It has discovered that Phoenix is being punished because it gave a Tory majority in the last Federal election. It finds evidence to substantiate this charge in the treatment accorded that enterprising town since the elections have taken place."

No, we did not "find evidence in the treatment accorded that town since the elections took place." We found the evidence in the editorial columns of the Times in an article written by Duncan Ross, and that is where the shoe pinches our contemporary.

We did not know that it is editorial etiquette to refer to "early training and environment," especially in the sneering way to which the Times resorts; but we will tell the Times, since Mr. Ross has chosen to invite this style of warfare, that Mr. Ross, M. P., has achieved a reputation for political trickery, unreliability, shifting evasiveness and other things that are not to be accounted for by his early training and environment. The only possible explanation of Mr. Ross' vagaries is that so far as politics is concerned he was born crooked.

## LEPERS AT VICTORIA.

The Victoria Times, in summing up the report of the commissioner in the Pendray investigation, concludes a coarse editorial with these words:

"While the government remains the adventurers will be with us, living in luxury, rolling in affluence, upon tht public property they have been enabled to make their own."

Victoria is just now having trouble with the Dominion authorities over a proposal to remove the lazaretto at D'Arcy island to a point some miles nearer the city, and the Times, in common with other Victoria papers, is raising its worthy protest. At this distance the question loses some of its interest, but we sincerely hope that for the sake of the lepers themselves they will be kept as far away from the Times office as possible.

## EDITORIAL COMMENT.

Calgary is not satisfied with the official census recently taken by the government. The city council has resolved to have another census taken under its own authorization. Calgary is not the only town that thinks it is bigger than it really is. Ymir, for instance.

It is not difficult to freely forgive those who have injured us, but it is an impossible task to forgive those whom we ourselves have wronged.

"Czoak the czar" appears to be the watchword of the Douma.

## Horrible Scenes at Shipwreck.

Cartagenia, Spain, August 6.—Reports continue to arrive here of the terrible scene attending the wreck on Saturday evening off Hormigas island, not far from Cape Palos, of the Italian steamer Sirio, resulting in the loss of over 300 lives. The drowning of the Bishop of Sao Paoloat, Brazil is now attributed to the action of an Argentine passenger, who forcibly took from the bishop a life-belt with which the latter had provided himself. One Italian woman kept her three children afloat on a plank until they were secured. A bridegroom who was on his honeymoon lost his bride and sister, and one older man who was saved lost three children. Captain Giuseppe Paradia, commander of the Sirio, was 62 years old and had 45 years' experience in navigation.

A Scotch clergyman, not a local one, however, has clinched the credibility of the Balaam story by asking, "Why shouldn't God make an ass speak? He made me speak."

Cyclist—"My bike has got damaged. Are you a mechanic?" Highland Blacksmith—"No; A'm a Macpherson."

## WANT SHORTER DAY.

### Millmen at St. Eugene Ask Reduction of Working Hours.

The concentrator men at the St. Eugene are asking for an eight-hour day. A petition is now being circulated among the millmen, and it is said that there are no refusals. It will be a unanimous request. The company is given until August 10th to ponder over it, and they ask for a reply on that date. The men are asking for an eight-hour day at the present scale of wages.

In the Coeur d'Alenes the miners and millmen have been working eight hours since the first of the month, and 3,000 men are affected by the change. The mine owners were prompted to this action by the scarcity of men, and they made a cut in the hours as an inducement to bring miners and mill hands from other camps. As a result men are leaving in good-sized numbers from Moyie and the other camps in B. C. for the silver-lead district in Idaho.

The St. Eugene millmen feel that their request is reasonable, and they do not contemplate any opposition to it.—Moyie Leader.

### Dirigible Baloon Voyage.

Noank, Conn., August 6.—Dr. Julian P. Thomas' balloon, which left a point near Port Morris, New York, late last night, landed here at 5.45 a. m. After securing water (?) the passengers reentered the car and the balloon was released, sailing in a north-easterly direction. Dr. Thomas said the trip had been one of the most successful he had ever taken and so far had been without a mishap of any kind. The trip from Port Morris to this point covered about 120 miles. While off Bridgeport Dr. Morris Thomas' balloon descended until the aeronaughts came close enough to Long Island Sound to enable them to carry on a conversation with a yachting party. This was at one o'clock in the morning. Dr. Thomas asked where they were, and after declining an invitation to come all the way down, the balloonists arose and disappeared.

### Sunday Observance in New York.

New York, August 6.—In compliance with the recent ruling of the department of commerce and labor, Ellis island was shut down all day yesterday, and will be on all Sundays hereafter for the next three months, much to the discomfiture of the thousands of emigrants comnig in on the big ships that may dock Sundays. Last night nearly 2,500 steerage passengers slept between decks on four big liners which reached their piers and discharged the first and second-class passengers.

### Nelson Fruit at Brandon.

The British Columbia fruit exhibit occupies one corner of the building. Preserved fruits of all kinds are shown and shipments of fresh apples, peaches, cherries, plums, apricots and tomatoes of this year's growth have been received specially for the fair. The average Manitoban looks wistfully at the tempting array. All the fruits are of large size and perfect in appearance and flavor. The collection of bulbs, iris, tulip, crocus, narcissus, etc., shown is claimed to be equal to those of European growth.—Winnipeg Free Press.

### Will Stay at Home.

Berlin, August 6.—The foreign office authorities authorize the Associated Press to say that the German government requests that the plans of the navy department for the manoeuvers in September include every ship available, and precludes detaching vessels to visit the United States on the occasion of the America-German yacht races off Marblehead.

### The Daily Crash.

St. Genevieve, Mo., August 6.—Twenty persons were cut and bruised in a head-on collision between a passenger and a freight train train on the 'Frisco road yesterday. None was fatally injured. The locomotives were demolished and three coaches derailed. It is stated that the accident was due to the freight train running in on the main track from a switch.

## TENDERS FOR TIMBER LIMITS.

SEALED TENDERS, marked "Tender for Timber Limits, Woodberry Creek," will be received by the undersigned up to noon of Saturday, the 11th day of August, 1906, from any person desiring to obtain special timber licences to cut and carry away timber from the following described lands, situate on the North Fork of Woodberry Creek, in the Ainsworth Mining Division of West Kootenay District:—

Lot 1.—Commencing at a stake planted on the North Fork of Woodberry Creek, about five miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

Lot 2.—Commencing at a stake planted on the North Fork of Woodberry Creek about six miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

Lot 3.—Commencing at a stake planted on the North Fork of Woodberry Creek, about seven miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 40 chains; thence east 80 chains to the point of commencement.

Lot 4.—Commencing at a stake planted on the North Fork of Woodberry Creek, about eight miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

The person offering the highest cash bonus will be entitled to special licences covering the limits renewable for twenty-one successive years.

Each tender must be accompanied by a certified cheque, made payable at par in Victoria to the undersigned, for the amount, $460.00, of the first year's fees for such special licences, and the amount of the bonus tendered, and also a certified cheque for $30.00 for cost of advertising said limits.

NEIL F. MACKAY,
Deputy Commissioner of Lands and Works.

"SEE IN WARD STORE" NELSON

LOCAL AND PROVINCIAL

Residents of Vernon street, west, complain of the condition of the sewer that opens on the flat below.

The members of the Mountain Lumbermen's Association will arrive in the city tomorrow afternoon and evening and hold their monthly meeting on Wednesday in the association office. It is not unlikely that a definite decision will be reached about the price of lumber for the balance of the year.

Mr. Dawson, of London, correspondent of the Times, Mail and Telegraph, was in the city yesterday. Mr. Dawson is gathering material for a book on Canada, which will be devoted to advice as to opportunities for intending British emigrants. He thinks Nelson the prettiest and most desirable place to live that he has visited.

The city council will hold its regular meeting in the council chamber tonight. The new debenture bylaw will be introduced and given its first reading. Power plant matters will be discussed, but no new information is obtainable, as no reply as been received from the Allis-Chalmers-Bullock Company, and District Manager J. O. Gilfoye is out of the city.

James H. Young, formerly Dominion express agent in Rossland, now of Victoria, surprised his Nelson friends yesterday afternoon when he registered at the Strathcona with his bride. The marriage took place at Winnipeg last Tuesday. Mrs. Young was formerly Miss M. Sloan, of Vancouver, and is a sister of W. Sloan, M. P. Mr. and Mrs. Young leave tonight for a visit to Rossland, whence they will go to Victoria at the end of the week.

The Le Roi No. Two Company, of London, has acquired the bond and lease on the Vancouver mine at Slocan, held by M. S. Davis. The consideration was arranged through J. J. Campbell, who brought the property to the notice of the chairman of the Le Roi No. Two Company, Lord Rennel Hamilton, when he was here last fall. The move signifies an intention on the part of the company to enlarge the sphere of interest in British Columbia. The Vancouver is a silver-lead property, while all the other holdings of the company contain only gold-copper ores.

Criminal Courts Busy.

This morning the case of F. S. Rice, who pleaded guilty to stealing a suit of clothes at Erickson's Siding as previously reported, came up for sentence before his Honor Judge Forbin, and was sent to the penitentiary for six months with hard labor.

The case of W. Moore, of Rossland, charged with assaulting J. A. Kelley on Saturday afternoon, came up this morning in the city police court. Dr. Rae testified as to the injuries, which may be of a serious nature. Mr. Kelley and several spectators gave evidence showing that the assault was unprovoked, that the accused had first insulted and then struck the complainant, who had given no offence. The magistrate declined to dispose of the case summarily or before the extent of Mr. Kelley's injuries is known. He committed Moore for trial. Bail had already been fixed at $100.

In the provincial police court a very interesting case is being heard this afternoon. John Patterson charges Frank Dufresne, E. E. Horton and C. E. Rapnet with aiding and abetting. The complainant is represented by S. S. Taylor, K. C., and the accused by W. A. Macdonald, K. C., and R. W. Harrington.

For alleged assault, it is understood, was purely technical, but the case involves the validity of leases on the Mother Lode group of mines on Sheep creek.

It will be remembered that A. E. Dunn had a lease and bond. Suits were entered against him, and creditors seized. The owners, some of whom are the accused in the present case, claimed that Dunn's bond was forfeited, forfeited, and gave a new bond to J. Patterson. When the latter tried to take possession last Friday he was interfered with, as he charges, at the instigation of the owners.
