Thompson, Ryrie, J. E. Foster, Dr. J. E. John H. Shaw, F. E. Goodall, S. Oakley, William Atchinson, Wil- Watson, W. C. Stone, J. A. Hin- Dr. P. S. Byrne, John T. Huetter, G. Cooper, D. M. Thompson, W. S. Crea, W. D. Knight, A. E. Bailey, liam G. Malloy, Harl J. Cook, H. G. mmell, A. A. Kraft, Dr. F. W. Hil- er, R. A. Willson, J. W. Oakes, E. Wilson, Perry D. Tull, Jay P. Graves, orge A. Lovejoy, T. H. Brewer, G. se, M. H. Eggleston, C. Herbert ore, William Pullen, Fred Phair, M. Whitehouse, Henry Wigman, E. J. de, Will H. Dodd, M. H. Strathern, W. Reynolds, Miss Byrne, August ulsen, Mrs. August Paulsen, Mrs. B. Kinney, Eugene Enloe, Mrs. W. C. ne, H. O. Brown, F. B. Wright, J. Wagner, E. S. Blair and wife, F. Boldrick and wife, C. A. Hunter d wife, Chas. Freese, H. S. Collins, za Hurst, C. A. Trimborn, P. W. ncher, W. L. Henning, R. L. Ford, ns Waldhausen.

Breakfast was already provided for em at the Strathcona and Hume ho- ls, and soon they were on the streets gerly "sizing up" Nelson.

The visitors all wore red ribbons th various inscriptions and devices, l indicative of the belief that Spo- ne is the coming metropolis of the rth.

They are of all sizes, ages—the men nly—and occupations, and like all Westerners are interested in every- ing.

Mayor Gillett and other members of e council and many business men of elson were on hand to welcome the isitors and extend to them assur- nces of hospitable treatment.

Among th eparty are about 30 la- es, wives of members of the chamber f commerce.

This year's trip is rightly regarded y the members as the most impor- nt of all undertaken by the chamber.

For many years past it has been the stom of the members to form par- es for holiday trips in September, r the purpose of studying conditions n surrounding districts, of becoming etter acquainted with each other, but hiefly for pure recreation and relax- tion from the cares of business.

Former trips have been made into the mining and agricultural districts f Eastern Washington and Idaho, the ountry directly tributary, commer- ially, to Spokane, the Inland Empire, s it is proudly called by the citizens f its ambitious capital.

But this year's trip into Kootenay s of far greater interest to most of the members. It is admitted by the lder residents of Spokane that the hief fortunes of the city have been uilt up from the wealth of Kootenay mines. Spokane capitalists are still argely interested in the mines, lum- ber mills and other industrial and commercial interests of Kootenay and Boundary.

Yesterday was spent in the Bound- ary with visits to the mines of Phoe- nix and the Granby smelter of Grand Forks, all owned, or partly owned, by Spokane capitalists.

Today is being spent in visits to Kaslo and Ainsworth. At the former the visitors will be allowed to view the fair exhibits, although the formal opening will not take place until to- morrow morning. At Ainsworth, if time permits, a visit will be made to the Krao mine, whose recent devel- ments have attracted great interest sout has well as north of the border.

The visitors will return to Nelson at 6 o'clock this evening. At 7 they will be the guests of the Nelson board of trade at a dinner in the armory. All citizens of Nelson and their wives are welcome on the terms already published.

The formal toast list will be short, but ample opportunity will be afford- ed to the orators of Spokane, who are understood to be present in force, to expatiate on the glories of the West generally and of the Inland Empire in particular.

A musical program has been arrang- ed and every effort will be made to give Nelson's neighbors a warm wel- come and a thoroughly enjoyable eve- ning.

The toast list will be:

The King and President Roose- velt," by the chairman.

"The Spokane Chamber of Com- merce," proposed by F. M. Black; re- sponded to by D. T. Ham, first vice- president.

"Our American Cousins," proposed by S. S. Taylor; responded to by Dr. Byrne.

"The Ladies," proposed by A. W. Hyndman; responded to by Denison Wright.

"The Press," Messrs. Gandy, Baer and Moffatt.

"City of Nelson," responded to by Mayor Gillett.

"Nelson Board of Trade," responded to by F. Starkey.

Mrs. Melville Parry and Mrs. H. C. Briggs will sing during the evening.

The party will leave by special train shortly after midnight and will spend tomorrow in Rossland and Trail. Their whole trip will have covered only three days, but the excursionists will have seen Southwestern Kootenay and part of Yale.

FAMINE THREATENED.

Production of Cascara Bark Reduced to Vanishing Point.

Portland, Sept. 13.—In the states of Oregon and Washington, which supply the world with cascara sagrada, prac- tically no bark was gathered this year. The season for peeling has just come to a close and the returns received show that not more than two carloads was peeled in Oregon and only about four carloads in Washington during the summer months. A few years ago, when the excitement in the cascara bark market was at its height, the daily receipts at Portland often ex- ceeded that amount. The quantity harvested was far in excess of the de- mand and prices from that time drop- ped sharply. With the decline in val- ue the production has fallen off, until now the drug market of the world is face to face with a cascara famine.

KASLO AT HOME.

Members of Chamber of Commerce Lunch With Board of Trade.

(Special to The Daily Canadian.)

Kaslo, Sept. 13, 2:30 p. m.—The Spokane chamber of commerce has ben entertained at a luncheon by the Kaslo board of trade. Two hundred guests sat down in the commodious dining room of the Kaslo hotel.

An excellent luncheon was provid- ed, followed by toasts to the king and the president, followed by national airs. D. T. Ham, vice president, re- sponded for "The Visitors," and de- scribed the present trip as the best and most enjoyable in the 10 years' series. A felicitous address of wel come was made by Mayor McAnn.

LAND LAWS ARE DRASTIC

Revolutionary Legislation of New Zealand Rouses Vigorous Opposi- tion of Property Owners.

London, Sept. 13.—The Times' Wel- lington correspondent says that the government land proposals, the most drastic in the history of colonial leg- islation, are causing intense interest in New Zealand, especially the clauses compelling owners to sell within a de- cade the excess of land held beyond $250,000 unimproved value, and the provisions preventing the present own- ers of 1000 acres of first class land or those of 5000 acres of second class land adding to their estates either by freeholds or leaseholds. The corre- spondent adds that the proposals will be sturdily contested.

NO SILLY DISPLAY.

Herr Krupp's Daughters Will Be Mar- ried in Modest Gowns.

New York, Sept. 13.—A cable de- spatch from Berlin printed here today says: "Frau Krupp, widow of the great gunmaker of Essen, and her daughters Bertha and Barbara, have just arrived here, the object of their visit being to buy the daughters' trousseaux. Notwithstanding their wealth, not more than $250 was spent for each outfit. This modest outlay is quite in accord with the simplicity with which the girls were brought up. Fraulein Bertha Krupp is the richest woman in Germany, she being the principal heiress under her father's will. She is engaged to be married to Gustav von Bohlen Halback, under- secretary of the Prussian legation to the vatican. Barbara Krupp, although not nearly as rich as her sister, is worth $12,500,000. Her fiance, Baron Von Wilowsky, is governor of Prus- sian Saxony. Neither bridegroom-elect is wealthy."

ENLARGING PLANT

Increasing Capacity of Trail Smelter

WANT 2,000 TONS A DAY

New Large Copper Furnace Proves Complete Success---Management Resolve on Expansion.

(Special to The Daily Canadian.)

Trail, Sept. 13.—The new copper furnace, blown in last week at the Trail smelter, having a capacity of 400 tons per day, being thus the larg- est in the province, has proved so suc- cessful in operation that it is now the intention of the management to bring up the capacity of the other four fur- naces immediately to the same amount.

Trail will thus have a capacity of 2000 tons of copper ore pr diem.

This increase is warranted in spite of the falling off of the Le Roi from the large supply of ore now guaran- teed.

New improvements and discoveries at the War Eagle-Centre Star will en- able that mine to ship in very much larger quantities, and the purchase of the Iron Mask, together with the lease of the Snowshoe, will far more than compensate for any loss accruing through the breaking of the Le Roi contract.

SWITCH CHARGES DISPUTE.

Railway Commission in Rossland on Railway Case.

Commissioners A. C. Killam and Dr. James Mills, with their party, arrived at the Strathcona last night. They left this morning for Rossland, where a session of the railway commission is being held this afternoon.

H. E. Macdonnell, district general freight agent of the C. P. R. com- pany, accompanied the commissioners to Rossland to represent the Canadian road in a dispute with the Great Northern in which the commissioners are asked for a ruling.

It is an old matter and has ben be- fore the commissioners before. It is the charge of $3.50 for switching cars from the tracks of one company to the other.

The tracks are so located in Ross- land that each company is at the mer- cy of the other in regard to certain freight, the biggest item, of course, being the shipments of ore.

The C. P. R. company is the plain- tiff in the present case and is asking for an order for a material reduction in switching charges.

The commissioners return to Nel- son tonight and are prepared to con- sider any local grievances tomorrow

FIRST LABOR MEMBER.

Sketch of D. J. O'Donoghue, Fair Wages Officer, Now in Nelson.

D. J. O'Donoghue, fair wages officer, and clerk of the Dominion department of labor, is now at the Hume. Mr. O'Donoghue visits Nelson about once a year in connection with the duties of his office, and always receives a warm welcome from his numerous friends here, especially those who knew him 30 years ago in the Ottawa valley.

Mr. O'Donoghue has ben identified with trades union matters for the past 35 years, and in the East, among printers he is regarded as the father of the typographical union in Canada.

Although an ardent member of that organization Mr. O'Donoghue did not confine his interest to that body, but took active steps in organizing other trades into unions. In such high es- teem was he held by organized labor in Ottawa in the early '70s that he was several times elected to represent one of the capital constituencies in the provincial house. He was elected on a labor platform, without any affilia- tion with either of the old parties, and the strongest testimony that he never proved recreant to the trust re- posed in him was supplied by his re- election, whenever he came before the electors.

Death of German Prince.

Berlin, Sept. 13.—Albrecht, prince of Prussia, regent of the duchy of Brunswick and the richest prince in Germany, died today. Death followed a stroke of apoplexy.

Price of Metals.

New York, Sept. 13.—Silver, 68 7-8c; copper, 18 5-16c; lead, $5.75; electro- lytic copper stock, 18 7-8c to 19 1-8c.

London, Sept. 13.—Silver, 31 1-2d; lead, £18 7s 6d; zinc, £27 10s.

Chicago Stricken.

Chicago, Sept. 13.—Five men were injured, two fatally, six horses were killed and the entire plant of the Illi- nois Brick company practically de- stroyed last night when a thunderbolt fell on two of the largest buildings of the South Evanston plant. Sixty men were about the premises and not one escaped injury. The storm was one of the most severe experienced in Chi- cago for years.

DEFEAT MUNICIPAL OWNERSHIP.

Property Owners of Seattle Reject Pro- posal to Operate Street Railway.

Seattle, Sept. 13.—Municipal owner- ship of street railways ,as represented in a proposal to bond the city for $4,- 272,000, of which $1,172,000 was to be charged against the general funds of the city and the rest to be indebted- ness against 20 per cent of the gross receipts of the system when in oper- tion, was defeated at a special elec- tion here yesterday. Out of a total of approximately 13,000 votes cast, mu- nicipal ownership lacked 935 of a plu- rality. It was proposed to build a mu- nicipal street railway system that would extend beyond the lines of the Seattle electric Railway company, owned by Boston capitalists.

FIGHTING WHITE PLAGUE

Rev. Dr. Moore, of Ottawa, in Nelson to Rouse Interest in Campaign Against Tuberculosis.

Rev. Dr. W. Moore of Ottawa, of the Canadian Anti-Tuberculosis associa- tion, arrived in the city this morning from Rossland, and was met by Dr. E. C. Arthur. Dr. Moore is lecturer and organizer of the association and is in British Columbia at present on the in- vitation of Dr. C. J. Fagan, secretary of the provincial board of health, who has for many years devoted all the time that he can spare from his offi- cial duties to the task of rousing pub- lic opinion for a campaign against the great white plague.

It is estimated that there are in Canada 60,000 persons afflicted with tuberculosis. The disease is curable, and all that prevents its eradication is ignorance and carelessness.

To dispel the one and shame people out of the other is the task undertaken by a few philanthropic and public- spirited Canadians, now represented by Dr. Moore.

Dr. Moore delivered an address to the pupils of the senior classes of the public school this afternoon. Tomor- row morning he will address the pu- pils of the high school. Tomorrow evening he will speak at a public meet- ing in the opera house, at which Mayor Gillett will preside.

A general invitation to be present is extended to all, and particularly to all members of church and fraternal or- ganizations, the Women's Hospital aid, the Women's council, and all other bodies whose object, or one of whose objects, is mutual helpfulness. At the public meting a collection will be tak- een up, the proceeds of which will be added to the fund already begun for the building of a sanatorium in Brit- ish Columbia.

There are at present four sanatoria in Canada, one provincial, at Kent- ville, N. S.; one municipal, at Hamil- ton, and two private, Dr. Kemp's at St. Agathe, Que., and Mr. Gage's at Gravenhurst, Ont. All are doing val- uable work, but many more are needed if the plague is to be successfully at- tacked or even held in check.

Dr. Moore called at the Canadian office, this morning in company with Dr. Arthur and asked that everything possible be done by the press to dis- pel the general apathy which is the chief obstacle to the work of the as- sociation.

He said: "British Columbia and the eastern foothills of the Rockies form a grand natural sanatorium. You have a magnificent climate here and all the world knows it.

"But the number of deaths due to tuberculosis in British Columbia alone is about 200 a year. In every case the disease is due to importation. It doesn't develop here.

"But the attractions of the climate bring tubercular patients here, and in self-defence the people of this prov- ince should prepare to combat it. The hardest thing is to get the people to realize that the disease can be cured.

"For that reason I like, wherever and whenever possible, to speak on the subject to children and enlist their interest, and also to impress on them the necessity for care, and for obedi ence to the laws of health."

Dr. Fagan and R. Marpole are Brit- ish Columbia's representatives on the Dominion council. There are now 40 societies in British Columbia formed at the instance of Dr. Fagan, all hav- ing as their object the raising of funds for a provincial sanatorium.

In all his public addresses Dr. Moore has assured his hearers that a sanatorium is not a menace to the lo- cality in which it is situated.

His public address tomorrow even- ing will be an appeal for aid to the society and sympathy and support in its aims, together with instructions in simple methods of minimizing the dan- gers of contagion, especially by atten- tion to cleanliness, public and private. Wherever Dr. Moore has gone his meetings have been followed by a strengthening of the local anti-tuber- culosis societies in numbers, zeal and wealth.

OTTAWA SPECIAL

Demers Goes up on the Bench

BORDEN IN NOVA SCOTIA

Holds Enthusiastic Meetings and Un- folds Tale of Election Methods Producing Strong Impression.

Ottawa, Sept. 13.— (Special.) —This week has brought several ministers back to Ottawa, and witnessed a re- newal of executive activity. One of the first proceedings of the cabinet after the holidays was to create an- other vacancy in the house of com- mons by the appointment of Mr. De- mers to the bench. This gentleman has for some time been regarded as a prospective judge and was thus in the position described by Sir William Mu- lock some years ago in a well remem- bered speech. Sir William, who was then a private and untitled represen- tative, spoke of members expecting office as persons themselves deprived of independence and moving among their associates as a corrupt and con- taminating influence. Whether this is true or not of Mr. Demers it is cer- tain that he was a member of the committee appointed to investigate the "Arctic" scandal, and that he signed the majority report declaring that there was nothing wrong in the whole affair, except the price paid for one order of tobacco. It is much to be hoped that Judge Demers will not be so easily satisfied when accusa- tions of fraud and misappropriation of funds come before him in future.

The Ex-Member for Shelburne.

Mr. Fielding, fresh from the elec- tion trial which resulted in the forfeit- ure of his seat, with the question of his disqualification still to be settled, is resuming the tariff inquiry.

The finance minister has not as yet revealed the names of those Conserva- tives who have condemned the prose- cution of this election petition. It is hard to find any claim that the un- seated member has on the sympathy of the party whom he defeated by the means disclosed in this trial. Mr. Fielding surely had sufficient odds in his favor in his normal majority, his official patronage and prestige, and the influence of two governments, without the wholesale bribery shown to have taken place.

The Personal Question.

As to his personal connection with the corrupt proceedings it must be re- membered that the sum of $600, which seems to have been used for corrupt purposes in one small corner of the constituency, was furnished to the op- erators by Mr. Farrell. Now this gen- tleman, who is speaker of the Nova Scotia assembly, appears to have been all along Mr. Fielding's most intimate friend and campaign adviser. Mr. Fielding admitted that after the elec- tion of 1900 he paid Mr. Farrell a sum of money which the latter report- ed to have been spent in the election in addition to the amounts authorized. He swore that he paid the money to Mr. Farrell unwillingly but he abso- lutely and repeatedly refused to dis- close the amount. It is believed that the sum which Mr. Fielding or his friends had to repay or which was provided out of campaign funds was not less than $4000 or $5000. Now if Mr. Farrell had offended Mr. Fielding by this corrupt expenditure one would expect the finance minister to have sought some other adviser and man- ager for the next contest.

The Same Things Again.

But we find in 1904 this same friend in the same confidential rela- tions with the minister. We find him again distributing money to local op- erators, who thrust two or three dol- lar bills into the pockets of electors to induce them to vote for the minis- ter of finance. We observe that this friend disappears when the election trial comes on and cannot be obtained as a witness. There is no doubt that as a sequel to the election of 1904 an- other demand would be made for the payment by Mr. Fielding ,or the con- tributors to his campaign funds, of many thousands of dollars spent in buying Mr. Fielding's election. The finance minister might as before be unwilling to pay. But the bills have been or will be paid as before, and unless the election trials put a stop to these methods the program will be re- peated at the next election and as many times as may be deemed neces- sary to prevent the constituency elect- ing a Conservative. Those who choose to believe that Mr. Fielding is an un- willing victim should have their heads examined as soon as possible. Con- servatives who are thus beset by brib- ery and electors whose honest votes are nullified by ballots that are bought will perhaps seek more deserv- ing objects for their sympathy than the winners of such victories.

Mr. Borden in Nova Scotia.

The leader of the opposition has ad- dressed several meetings in Nova Scotia this week and will speak in other provinces before parliament as- sembles. Though his own province sends a solid delegation of govern- ment supporters to parliament the Conservative party was sufficiently strong there to poll some 45 per cent of the total vote in spite of the cor- rupt use of money and patronage to a greater extent perhaps than in any other group of 18 constituencies.

Election trials in Halifax and Shel burne-Queen's partly disclose the methods employed. It is certain that both of Mr. Borden's opponents in Halifax would have been unseated and probably both would have been dis- qualified if the proceedings had not been brought to an end by the deci- sion of one of the judges that they had deprived themselves of jurisdic- tion by their own act in placing the date of the trial. But neither bribery nor patronage, nor the peculiar con- clusions of election judges can detach from Mr. Borden and his party the confidence and support of the majority of the independent and incorruptible electors of Nova Scotia.

The meetings are said to have been full of enthusiasm. The events and disclosures of last session will be laid before the electors not only by the opposition leader, but by other mem- bers and cannot fail to produce a strong impression on the minds of right thinking people.

GLEANED AT GREENWOOD.

Boundary Will Send Extensive Ore Exhibits to Nelson Fair.

(Special to The Daily Canadian.)

Greenwood, Sept. 13.—The patrons of the Nelson fair will have an opportu- nity of studying the ores of the Boundary. G. W. Cornish has a fine collection of these now on exhibition here, designed for the Nelson fair. He has spared no pains to make the ex- hibit fairly representative of the dis- trict and will send specimens from the mountains of low grade ores own- ed by the Granby, B. C. Copper Co. and Dominion Copper Co., as well as from the properties of the Greenwood high grade belt. Beautiful blocks of gold-silver ore from the Providence, Elkhorn, Skylark, Strathmore and Prince Henry are in the lot, as well as samples from the Sally, Duncan and Rambler at Beaverdell.

This work of advertising the dis- trict is meritorious on the part of Mr. Cornish, who realizes that returns direct to him from the exhibit will be small. At one time the Boundary made a specialty of exhibiting ores at the Spokane Fruit fair, but when the time came that the management had hundreds of prizes for the dog show and nothing for minerals the district got disgusted and quit. Mr. Cornish, however, intends to take his ores to Spokane from Nelson.

Hanover, Mass., Sept. 13.—James A. Garland, a prominent yachtsman and former editor of the New England Magazine, died here early today of pneumonia.

LEPROSY CAN BE CURED

Dr. E. H. Plumacher Reports on Re- suts of Nearly 30 Years Study— Little Hope in South America.

Washington, D. C., Sept. 13.—After displaying rare heroism by the devo- tion of a lifetime to a study of leprosy, Eugene H. Plumacher, American consul at Maracaibo, Venezula, has decided that the dread malady is not contag- ious but is hereditary to a degree not reached in any other disease. He has made an exhaustive report to the state department telling of his personal at- tention upon lepors afflicted in the most revolting form. His report in- dicates that leprosy is curable but that there is little hope in Venezula or other Latin American leper colonies where nutritious foods and expensive drugs are rarely provided. Dr. Plum- acher was appointed to Maracaibo in 1878 where in conjunction with his duties as consul he has constantly ob- served leper cases and their treatment and where he experimented in no small way.

In this he has the benefit of corres- pondence with the most advanced scientists of the United States and Europe, and it was through his efforts that the Tua Tua plant used in treat- ing the disease is now planted in all countries which have leper stations. At the request of these scientists the doctor took a large number of photo- graphs of lepers, personally removing the bandages of the afflicted in order that the best results might be attain- ed. It was predicted that he would contract the disease, but this did not happen.

Still Trying to Fly.

Paris ,Sept. 13.—M. Santos Dumont's new aeroplane broke down this morn- ing during the course of experiments at Longchamps ,and was very serious- ly damaged, but M. Santos Dumont was not injured.

MURDER ALL JEWS

Russian Patriots' Strange Path to Freedom

WOE TO UNHAPPY RACE

General Massacres are Advocated by Leaders of People---Germany Watching Warsaw.

St. Petersburg, Sept. 13.—The re- sumption of telegraphic communica- tion with Siedlce has enabled the papers of St. Petersburg for the first time to present a picture of the conditions in the ravaged town. As in the case of the massacre at Bialy- stok, later messages greatly reduce the number of the dead from that even in early reports. The property losses, however, from the fury and cupidity of the mob and the destruction wrought by bombardment and subse quent fires are placed higher, running to several hundred thousand dollars. Although it is reported officially that 44 persons were killed, correspon- dents enumerate 62 corpses, mostly of Jews, which have ben gathered on the streets, in houses and in various hospi- tals for burial. The number of corpses buried privately or consumed in the burning buildings may add another score to this number. A pitiful feature of the excesses was the death from thirst of many wounded persons, who were abandoned by their friends in houses from which the people were forced to flee for their lives. Firemen are searching deserted houses for bodies.

There is reason to believe that this attack on the Jews is traceable to the murder of an official on August 21, and the events of Saturday supplied the necessary spark to inflame the passions of the soldiers. This view is supported by an article in the semi- official Russian newspapers published in Warsaw, which attribute the rage shown by the soldiers to this cause. The excesses were aggravated, accord- ing to the correspondent of the Novoe Vremya, by the weakness of the local governor, Engelke, who was only tem- porarily in charge during a change in governors-general, and who was un- able promptly to put a stop to the dis- orders, which had ben a long time in preparation.

Odessa, Sept. 13.—A Jewish agita- tion is rife. Wall spaces, the sides of houses and telegraph poles through- out this city have been placarded with proclamations issued by the union of Russian people, "urging patriots to combine to exterminate the Jews." This action has aroused grave appre- hension among the peacefully inclined, both Jews and Christians.

It is reported here that the Jewish town of Koopin, in the district of Ka- matez, has been burned by peasants from the country. Some of the inhab- itants are said to have been killed in flight, while many perished in the flames.

St. Petersburg, Sept. 13.—"Long live the social revolution for land and liberty." These were the last words of Zenaide Konoplainikovo, the girl who assassinated General Min and who was sentenced to death. They were uttered as the rope was placed around her neck. She refused to see a priest prior to the execution. She mounted the scaffold with firm steps and would not be aided. On a photo graph sent to her sister she wrote the words, "My life was all I had to give."

Warsaw, Sept. 13.—The city is quiet. The authorities are suppress- ing every slightest attempt to start anti-Jewish attacks. On account of the large German interests in the banks and commerce of Warsaw, Ger- man intervention is feared in cases of serious disorders.

INVASION OF BOUNDARY.

Freedom of Grand Forks Extended to Spokane Visitors.

(Special to The Daily Canadian.)

Grand Forks, B. C., Sept. 12.—One hundred and twenty-five members of the Spokane chamber of commerce have possession of the city this even- ing. They arrived here at 5 o'clock this afternoon and have visited the Granby smelter and are now being en- tertained by the civic authorities and the board of trade at the Yale hotel. They will leave here about 12 o'clock for Nelson. The streets have been decorated and the keys of the city turned over to the visitors.

MINING LEASES.

The frequent publication in The Daily Canadian of news items showing the progress that is being made in mining development in the Kootenay district deserves more than casual notice. During the past six months the number of properties that have been leased or bonded, the deepening of properties already under operation, the installation of new plants and the enlargement of those already installed, together with the gratifying results that have been obtained from the operation of the mines which may be considered to be well established, all go to show that the experimental stags in the mining affairs of Kootenay are past.

There are two systems under which mining operations are chiefly carried on. The first of these is what is commonly known as the company system. Extensive capitalization, and the expenditure of large sums of money in the employment of a thoroughly equipped staff in every department of operation, with the maintenance of office routine and regular reports, as well as the monthly checking of stores and the balancing of accounts, such as is characteristic of every well managed enterprise, involving the handling of large sums of the people's money.

There are a few mines in this district that have warranted such generous capitalization, and which have proved themselves worthy of the faith and investment of the management in charge of their respective trusts.

There are however a much larger number which must, if they are to be operated at all, be operated under some simpler system, such as does not involve the expense incurred where extensive capitalization is necessary. The geological features of the Kootenays are such as to make it a promising field for the fullest prosecution of mining under the leasing system, which affords opportunity for economical management and entails less risk of investment from the start. Such arrangements as are made between owners and lessees involving the payment of royalties, either on the gross or net output of the mines, while rendering the progress of development slower, and similarly the sharing of gratifying dividends, make possible the successful exploitation of prospects which, so far as is at present known, do not warrant extraordinary capitalization.

There are conspicuous instances in this section of British Columbia where the operation of properties which failed to give suitable results under the company system, are making good money for both their owners and the lessees of the mines. The reasons in detail for these results need not be argued here, as they are well known to all mining men.

While there are sections of the district which are becoming prosperous because of the operation of the leasing system, there are other sections which, while affording equal opportunities, seem so far to have been overlooked. We refer particularly to the Slocan section. While there are a few mines there in operation under the leasing system, there are, we are assured, many more opportunities for the investment of a moderate amount of capital in this way, than are at present receiving attention.

The Slocan district at one time gave promise of being one of the richest in the whole of the Kootenays, and its recent state of stagnation is not to be attributed to the fact that prospectors or investors have all been disappointed, but rather to the fact that in the transition from the company system to the leasing system, other localities seem to have had the preference. We are nevertheless assured, by practical mining men, that with a moderate amount of financial backing, they could under a system of lease, go into the Slocan district and immediately find just such prospects as are giving such satisfactory results in other parts of the country.

The attractiveness of the Slocan for mining under this system may easily be imagined when it is stated that the terms under which leases may be obtained are much more reasonable there than in Colorado, which latter place may be said to be the home of the leasing system. While labor and cost of supplies in Slocan compare favorably with the prices in Colorado the royalties asked in that state are almost 20 per cent in excess of what could be negotiated in the Slocan.

Just what a revival of the Slocan would mean for Nelson it is not difficult to forecast. The whole valley of the Slocan lake and river is blessed with fertile areas, suitable for agricultural purposes, and many of these tracts are already sold and in a fair way to early cultivation.

In the process of this development Nelson's rural trade will be much increased, while, if the known mineral locations could be investigated by persons who, with a practical knowledge of mining, are looking for the investment of moderate sums under some such system as we are discussing, the future of the whole district would be assured. The Daily Canadian is therefore anxious, both for the sake of the city, and especially for the sake of the Slocan, that the attention of those who would be likely to interest themselves in such investments as are suggested by these conditions should be called to the opportunities afforded here.

NOVA SCOTIA POLITICS.

That the situation in political affairs in Nova Scotia is not beyond reproach for the Liberal party, may be taken as assured, from the attitude assumed toward it by the independent press. The Toronto News has little sympathy with unseated Finance Minister Fielding and none at all for the party as a whole. The more moderate Liberal press are striving with disingenuousnous to put the best possible face on the situation but some of them, notably the Toronto Globe, evidently dislike the task and find it disagreeable. The Toronto Telegram, however, has no squeamishness and with its usual brusqueness, speaks right to the point.

"A hundred years from now the Liberal sweep of Nova Scotia, that was financed in 1904, may look like a far-off infamy remote from the purer ideals of the coming time.

"Nova Scotia is bad enough and Ontario is bad enough. Our own high souled, beloved province is not so far without sin that it can throw the first stone into the corrupt sources of political opinion in those communities that Sir Richard Cartwright described as the shreds and patches of confederation.

"Canadian patriots should keep on struggling and fighting, holding up ideals and pulling down wrongs, and the corruption of Nova Scotia will horrify people a hundred years from now as the people of today are horrified by the corrupt politics of England a century ago."

The invitation to "cheer up" extended by the Telegram is for those who contend for purity ,not only in political administration but in elections as well. It evidently does not include the fortunes of the Liberals.

The Daily Canadian is in receipt of a very handsome brochure entitled "Canada's National Playground," which is a guide and souvenir of mountain resorts both in British Columbia and Alberta. The illustrations and descriptive matter very fully cover Banff and the various hunting and sporting resorts in the Cascades and Rockies along the route of the C. P. R. A valuable feature of the booklet is a list of livery and boating tariffs charged at the various points, so that prospective visitors can plan the details of their tour from their own homes. Credit is due the Herald company of Calgary for the printing and the B. C. Engraving company of Victoria for the engravings, while the souvenir is the production of Mr. Percy F. Godenrath, a member of the Pacific Coast Advertising Men's association. The price is 25 cents.

SHOWED PROPER SPIRIT.

Striking Instance of Advance in Methods of Organized Labor.

A recent strike of switchmen at New Haven, Connecticut, and its consequences afford an example of the advancement of organized labor, says The Outlook. Regrettably, in many instances a union does not deliberate over a dispute, but impetuously sustains any part of its members in any difference, however just or unjust, between employee and employer. In sharp contrast to such a policy is this instance. There has been in the local railroad yards a feeling on the part of the men against the yard officials, and naturally the service was somewhat impaired. Discipline did not better the situation; and suddenly at midnight, Tuesday, August 7, the officers of the New York, New Haven & Hartford Railroad company discovered that they had no freight switching crews in one of the busiest and most complicated freight yards in the East. Officially the railroad knew of no grievance, as nothing of the kind had been presented in the regular procedure which is defined by contract with its trainmen and yardmen. The contract was entered into that such a contingency might be avoided, and the company was justly angry at the breach of faith. It has since developed that several of the more factious men, some of whom were prominent in the New Haven lodge of the Brotherhood of Railroad Trainmen, on the night of the strike persuaded some of the crews to cease work at midnight. Many joined the movement against their better judgment, some because of esprit de corps, others to avoid violence. There was a decided lack of unanimity, and men asked one another what the trouble was, after they had quit their positions! When the railroad called upon the brotherhood for redress the order promptly responded. The grand masters and lesser committees repudiated the strikers' action, approved their dismissal from the service of the company and expelled them from the fraternity. Volunteers were called for by the order to fill the places of the turbulent men and assistance given to restore traffic to its normal condition. Judging from reports of conversations held with many of the trainmen the rank and file of the brotherhood heartily indirse their superiors' course, and feel that, although the strike was unofficial, the breach of faith tends to discredit their integrity. Such an attitude of fairness and zeal for justice from this source augurs well for the solution of the labor problem.

LOCAL AND PROVINCIAL

There was no docket in the city police court today.

Silver declined two points today on both markets. The London price of lead advanced three points. Copper and zinc are unchanged.

The cups for the Nelson fair given by the Trail and Granby smelters, have been made by J. O. Patenaude's staff and are now being engraved.

Word has reached the city that F. H. Clergue, purchaser of the North West Coal & Coke company's properties near Cowley, Alta., has already begun development work.

J. McL. D. Duff of Montreal, chief clerk in the navigation department of the C. P. R. company, was in the city yesterday, after having crossed the continent with the Overseas Mail train. He left for home this morning by the Kuskanook.

The Pagnatero assault case, in the provincial police court, growing out of a Labor day squabble at Bonnington, has again been remanded until 10 a. m. tomorrow. The parties are said to be reconciled, but Magistrate Crease will not allow a stabbing case to be compounded.

F. Starkey was among those who welcomed the visitors from Spokane this morning. He was promptly seized and decorated with a whistle, red ribbons and advertisements for the Spokane fair. An attempt was made to shanghai him to Kaslo, but he could not be spared. I. G. Nelson was sacrificed in his stead.

The plot of "Hooligan's Troubles," the musical farce-comedy that appears at Sherman's opera house next Wednesday, concerns the attempt of an elderly suitor to win a young and beautiful heiress. He induces "Happy Hooligan" to assume the clothes and character of an English nobleman and he makes love successfully to the young girl's aunt, an elderly spinster; then the old man, who is also the girl's guardian, finds the spinster has a still larger fortune. But Happy has made good with his opportunity and it is only when he loses his clothes in a bathhouse at the seashore that the fraud is disclosed and the spinster is won by the wealth-designing man. Happy takes to a sugar barrel as the latest thing in wearing apparel .

The Women's Hospital Aid society will sublet their privilege of selling soft drinks, fruit, peanuts and candy at the fall fair. Tenders for the same can be addressed to Mrs. Koch, treasurer, and will be opened Monday, September 17.
