1200 Barclay St.

Vancouver Aug. 20/20

Dear Grace

The 20th! and in ten days or a little more we shall expect to be all together at home again. It looks good to me and I know it does to you. You suggest leaving Kelowna on the 31st. Would your ticket hold out so long? It would be Sept. 1st or 2nd when you reached here. Also does your ticket allow a choice of routes? Make sure about these points before you complete your arrangements. I enclose herewith P.O. order for seventy five dollars - it is always well to have a margin for possible emergencies. About tomatoes & peaches it would be very nice to have them and no doubt they would be better quality than we could get here, but I think you would have to send them by express so the ~~express~~ cost would probably be no less. But use your own judgment & include a box for the parsonage. We have just this morning said good bye to all the Harris family. They go to Lummi Island on the American side - off Bellingham, which they

heard of as a very pleasant comfortable place.
It was reported that there were mosquitoes at Alta Lake.
If they like this place they mean to stay two weeks.
They would have had Auntie & me go with them, but
I preferred to stay quietly here.
Harold was back from Victoria Sunday night intending
to be over there again by Thursday, but Helen & the rest
decided to come back Wednesday, so they are in town
now. They intend to leave Monday for Alta Lake for
a week. They would have us go with them there
if we wished, but I think we are better here.
The weather has been a good deal cooler the
last few days, but continues fine & dry. There
is a good deal of smoke about from forest fires
but nothing serious. Annie B. got off Monday
afternoon - I do not think I have written you since
then - She should be in Toronto by this time. She
seemed pretty well, but looked thin & worn
as though she had been working very hard.
She intends to take up nursing again.
I am feeling really very well and am very
thankful. Everyone has been kindness itself
to me and I shall always remember this summer
with pleasure. I think we all have reason
to do that.
With love to Miss M. & yours own dear self
as ever
Mother.

Of peaches I think Crawfords are
the best - in any case freestone
