TOWN & DISTRICT NOTES.

Dr. Maclaren, of Toronto, paid a short visit to the city on Tuesday.

Mrs. D. Simpson visited her sister, D. F. Forbes for several days last week, leaving on Friday for Salmon Arm.

A. Campbell, who recently disposed of his 320 acre ranch to Geo. Inch, has purchased ten acres from R. Mowat and has commenced the erection of a house. This ten acres fronts on the river, and is about one mile from town, and one of the most desirable locations in the district. We wish there were more ten-acre holdings offering.

A lecture entitled "Through Palestine", will be given at the Methodist church on Monday, October 15th, and will be illustrated by one hundred stereoptican views.

H. W. Harvey has had his residence repainted and it looks very smart therefrom. An addition has also been built and several little improvements carried out.

The annual shoot of the Enderby Rifle Association will be held on the 17th and 18th of this month. All members are respectfully requested to attend.

A gold strike, which in richness far surpasses anything yet discovered has been made at Wabigon, Ont. The ore just discovered assays $300,000 a ton.

F. Franklin returned from the Vernon hospital on Wednesday, and we are pleased to note that he has quite recovered from the attack of inflamatory rheumatism from which he was suffering.

A. Youngmayr climbed to the summit of the Cliff one day last week. On his return, he explored Brash's creek for quite a way up, and says that there is an excellent stream of water in it, which he considered ample for Enderby's needs for many years to come.

Though the past summer has been on the dry side, big apples come along with great regularity. The latest is one which weighs twenty two and one-half ounces. This was grown in J. A. Mohr's orchard and is of the Alexandra variety.

F. Philp arrived from Scotland on Monday, and is at present staying with his old friend, R. Waddell, of Hazelmere ranch. Mr. Philp thinks this country is all right, and will locate somewhere in the Northern Okanagan.

"What beautiful weather this is," is the remark we hear from visitors in our midst. True, it is—its the charm of the country—but it is only usual autumn weather—our Indian Summer. This can be guaranteed every fall.

There have been distributed by the Farmer's Institute, three little booklets of the "Brother Jonathan Series"—No. 1, on Propagating Trees and Plants; No. 6, on Bush Fruit, and No. 8, Hints on Pruning. These are most interesting and instructive works, and which should be found in the possession of every fruit-grower; while the fact that such useful books are distributed free to members of the Institute, should prove an inducement to every farmer to become a member, for the value of cost of joining is received many times over. The fact that these are the very best authorities on the subjects that can be had, is, no doubt, the reason for importing them from the States; but at the same time, it is to be extremely regretted that the same cannot be obtained or produced in Canada, more particularly as each book contains such a boost for an American publication.

If the C.P.R. cannot improve the service on this line very much, one they are certainly making changes in the appearance of their property and improving the permanent way. Early this year, needed additions to the various platforms along the line were made, and various other little items of improvements carried out, such as the repair of fences, station houses, etc. The track also received great attention and a large number of new ties have been put in. Following upon the carpentering and track-laying, come the painters and bridating gang. The painting gang struck town this week and are now engaged in decorating the station house, etc., which will be very much improved and preserved thereby. A big steam shovel is also on the branch, being now near Mara. We understand that it is the intention to re-ballast the entire length of the S. & O. with gravel. So, if our trains are not running strictly to schedule, it can be said that travelling has been made a little more comfortable and that the various stations look more prosperous to the newcomer than they did previously.

Government Agent Norris has been engaged this week in inspecting the work done on the Mabel Lake road.

Chas. Garden returned on Tuesday from Vernon and we are much pleased to note that he is greatly improved in health.

In a descriptive write-up of F. R. E. DeHarte's nursery, the Kelowna Courier has the following to say, with which we fully agree:

We are pleased to learn that both Mrs. P. Burnet and Mrs. A. E. Broderick, who have been on the sick list, are now greatly improved.

The poplar and birch trees have now taken on their autumn tints, and in contrast with the deep green of the fir and spruce, make the hillsides look extremely pretty.

The Kelowna Board of Trade are arranging for a page write-up of their district (with photographs), in the Manitoba Free Press. This is the kind of advertising from which results will be obtained.

Mrs. B. Green has just returned from Mara, where she had been the guest of Mrs. Wm. Cadden. She reports having had a fine time and enjoyed her visit immensely—Albert Canyon notes in Mail-Herald.

"Get into the habit" of reading the advertisements in this paper. The firms advertising in our columns are the most reliable dealers and can furnish anything you want in their line at right prices and prompt delivery.

Hon. Wm. Templeman will recommend to Ottawa that $30,000 be spent in protecting Revelstoke from the waters of the Columbia. There is a little matter along the same lines here in Enderby which the Dominion Government might look into, and complete a half-finished job.

"As the result of our visit, we arrived at the conclusion that it would be folly to send to outside points for nursery stock when such vigorous, clean trees are to be had here at reasonable prices, and which may be dug and replanted the same day, eliminating the certain percentage of loss that cannot be overcome even with the best imported article."

The regular meeting of the Ladies' Aid of St. Andrew's Church will be held at the home of Mrs. McVeigh on Wednesday, 17th. Afternoon tea will be served for the benefit of the Aid's Fund, from 3.30 to 6 p.m. All are cordially invited to attend.

W. J. Thompson, who has been visiting with Mr. and Mrs. J. A. Mohr, left on Tuesday for his home at Devlin, Ontario. Mr. Thompson has been looking over the Northern Okanagan and has secured options on several places in the vicinity, intending to return and settle here as soon as he can dispose of his farm and business at Devlin. He was greatly impressed with the fruit-growing possibilities of the valley, and much taken up with our climate and scenery.

Active work on the townsite of Prince Rupert is now being prosecuted. Three hundred acres will be cleared by the G. T. P., who have also commenced the erection of a hotel to be the forerunner of a $40,000 building. The company will not sell land in the townsite until final surveys are made, which may not be till three years' time, hence many a speculator will be disappointed. The railway company will erect buildings and rent them to accommodate the business in the meantime.

A printing office is usually considered a rather tough place and the newspaper worker a mighty bad man. Statistics, however, do not bear out that idea. Out of 3,800 in a United States penitentiary, there is not a printer or a newspaper man, while there are ministers, lawyers, music teachers, doctors, bankers, cooks, photographers, barbers and members of other professions and callings. The printer gets a bad name because the nature of his business teaches him to detect shams and scorn hypocrites.—Exchange.

PROMPT AND CAREFUL ATTENTION GIVEN TO BUSINESS ENTRUSTED TO US

Mayor Bell returned on Tuesday from attending the Methodist Conference at Montreal. Mr. Atkinson, representative of the firm who have secured the contract for the installation of the Enderby waterworks system also came in at the same time. Anyone would think that it was an arranged double event; but all look upon it as only a coincidence.

Mrs. Tolmie is visiting in Enderby for a few days, the guest of Mrs. H. W. Harvey.

Mr. and Mrs. T. Jalland, of Sandon, are visiting Mayor and Mrs. Geo. Bell for a few days.

Dr. K. C. McDonald, of Vernon, denies the report that he will be a candidate at the next Provincial elections in the Liberal interests.

A strong constitution means a healthy mind and good work—and good work means advancement. To have a strong constitution one must have the best meats, and that's what you will find at the new brick block. Always fresh, juicy and tender.

Geo. R. Sharpe
ENDERBY

Governor-General's Okanagan Visit.

Vernon put on gala dress last week to give Earl Grey a royal reception. Flags, bunting, and arches displaying bright, red Okanagan apples, were much in evidence. Replying to the Mayor's address, Earl Grey complimented the Okanagan on its fruit-growing reputation. The Governor-General said he envied Lord Aberdeen's privilege of being the pioneer fruit-grower and initiator of the prosperity of the district. He also exalted the occupation of the horticulturist. The viceregal party was driven through the city and up Mission Hill for a view of the valley. On returning, the schoolchildren presented an address, receiving a gracious reply. The party lunched at the Coldstream ranch. In the afternoon the Indian hop-pickers presented an address, and the party was shown over the estate by Manager Ricardo.

Leaving Vernon, Earl Grey next visited Kelowna. The citizens turned out en masse, and the welcome lacked nothing in heartiness. An interesting incident was the presentation of a bouquet to Lady Grey by the little daughter of Dr. W. Gaddes. The viceregal party drove out to T. W. Stirling's orchard. His Excellency being much interested in horticulture. On his return, an address was presented and a suitable reply made. Earl Grey reached Summerland late in the day and was met by a band and a large gathering. An address was read by Major Upcraft, who amid his loyal assurances, claimed for the Okanagan the home of gold-medal fruit and the finest climate on the continent. Earl Grey replied in a particularly witty and felicitous manner, congratulating Summerland on its optimistic local patriotism, and wishing the town all prosperity.

Amid much enthusiasm the party arrived at Penticton at 7.30 p.m. W. T. Shatford presented an address and dwelt on the rapid growth of Penticton, as the result of supplying irrigation facilities. Some Southern Okanagan grapes which were presented were much appreciated. Earl Grey, in replying, dwelt on the magic effect of irrigation and social sunshine which insures the prosperity of a district. He said that fruit-growers were a refined and cultured people, the finest class of men on earth. Penticton schoolchildren gave a demonstration and tendered bouquets to the party. Indian chiefs also presented their greetings to the representative of the King.

On the return journey a stop was made at Armstrong, where an address was read, to which the Governor-General replied. Being past 7 p.m. before Earl Grey reached Armstrong, their welcome was somewhat spoilt, for the great labor which the citizens had gone to in decorating their town for his visit, was all lost. However, the decorations came in all right for the fair.

Lady Sybil Grey and Lady Evelyn Grey, in company with Mrs. Judge Spinks, visited Enderby late on Saturday afternoon and made a brief stay in the city, and was unfortunately only recognized by a few of our citizens. The party had motored from Vernon to Enderby, which trip, we feel sure, must have been enjoyed.

It was a pity that Enderby could not have officially recognized Earl Grey's visit to the valley. It need not have been elaborated; that would not be expected. Just a simple address for the Earl to reply to, and an opportunity to cheer—that's all that was wanted. But, another opportunity passed by!

The British Admiralty's report on the Dreadnought says that the vessel is a complete success.

Suits in amounts in the aggregate approximating $150,000 are to be brought against the C.P.R. by those who suffered the loss of relatives and property, and by those who sustained injuries in the wreck of the tug Chehalis, which was run down in the Narrows in July by the steamer Princess Victoria. Eight lives were lost in this disaster.

$200,000 Sawmill Fire.

As the result, it is thought, of an overheated drying kiln, the huge sawmill of E. H. Heaps & Co. at Cedar Cove, near Vancouver, was almost entirely destroyed by fire on Saturday night last week, at a loss of $200,000, the greater portion of which will fall upon the owners. Only about $90,000 of the loss is covered by insurance. At about a quarter to seven one of the night shift of watchmen whose duty it is to care for the drying kilns saw smoke issuing from the kiln, from where it spread with awful rapidity, till some two hours afterward, the fine mill, together with many thousand feet of lumber, were destroyed. A new mill will be erected.

Won Best District Exhibit.

The awards for the district exhibits at the New Westminster fair have been announced, and Chilliwack carries off the highest honors, winning the shield presented by Sir Thomas Dewar, the $500 cash prize awarded by the exhibition management, and also the diploma. The competition was very keen. The second prize of $400 cash, gold medal and diploma, was captured by Langley district, which last year won the Dewar shield. Richmond came third and Agassiz came fourth. The other exhibits were placed in the following order on points of excellence, Surrey fifth, Kelowna and Coquitlam tie for sixth, Maple Ridge seventh, Nelson eight and Edmonton and Strathcona tie for ninth place.

GAS EXPLOSION.

A terrific explosion of illuminating gas in the subway of the Philadelphia Rapid Transit Company, under construction at Sixth and Market streets resulted in the death of six men, the injuring of about a dozen others, and caused a property damage of thousands of dollars. Besides those known to be dead, it is said that at least three others are buried under tons of earth in the wrecked subway.

The Fernie Strike.

There seems to be no prospects of an immediate settlement of the Fernie strike, and a long strike is predicted. The smelters have only enough coke for a few days operations.

Labor Divided.

English workingmen have now an awkward problem, and one that will prove hard to solve before them. It is this "Shall labor follow John Burns, the Liberal, or James Keir Hardie, the Socialist? The Federation of Miners have declared for Burns, and railway servants in conference have decided to follow Hardie.

Affected With Rot.

At a hearing of the London bribery charges several witnesses swore that they received ten dollars for their votes. Jerry Collins paid them. Others intimated they had been paid ten dollars apiece for work done for the Liberal cause. One witness said Collins took one dollar as commission.

J. G. Macdonald, a merchant of Revelstoke, has assigned.

Cobalt has been discovered on the Kettle river.

The strike of the freight handlers at Fort William has ended, resulting in a victory for the C.P.R.

A sawmill with a capacity of 40,000 feet of lumber per day is being erected at Savona, to be ready by Christmas.

At the bye-election in East Elgin, Ont., held last week, the Conservatives retained the seat by a small majority.

An earthquake, lasting two hours, was recently felt at Sydney, Australia. Seismograph officials believe there was a disturbance somewhere eclipsing the disaster at San Francisco. All over the world seismographs have recorded the earthquake, but its location cannot be discerned. It was in all probability under the sea. The earthquake was felt at Nanaimo.

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section 160 acres or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

For Sale

MAIL ORDERS RECEIVE PROMPT ATTENTION

Interesting Budget From Mara.

Mara station is now of a beautiful sage-green tint, contrasted with chrome and picked out with deep green and red window-trimmings and is quite a change from its old suit. The painters were side-tracked and have been working on it for nearly a week. We now want in connection with the station: first, and most important, an operator or agent; second, the main crossing to be put where all the people want it—in a line with the bridge; and third, for the C. P. R. to fill in the bad places all along the side-track, so that people can load cars easily, and last, that the fences around the yard built for the protection of our cattle, horses and the travelling public. Mara station at the best has always looked untidy, but now, that improvement has commenced, we hope it will continue.

The skunk nuisance has somewhat stated, but this has been a record year for their depredations. Since reporting Charles Little's loss a few weeks ago, others have occurred, principally among which was that of Mr. Fred Johnston losing all his chickens (twenty-five) and three or four ducks, by one skunk.

There is great activity on the railway now. The big steam shovel and outfit has come and we hear they are going to set it at the gravel pit between Mara and Enderby, and re-ballast the whole of the S. & O. track. This is a good opportunity for the Company to fill in the holes along Mara side-track, so as to make the loading of cars easy. The big gravel plow, in going in the side-track, caught the freight platform and turn it from stem to stern.

The many friends of Mr. Daly, whose wife ran away recently, will be glad to learn that his children are all properly looked after at the Catholic Orphanage (St. Joseph's Home) at New Westminster, and Mr. Daly has found work close to the Home, so that he can often go and see his children. The cost is very moderate for their keep, and they will receive a good education. Mrs. Kelly, who has often lent a helping hand in cases of sickness at Mara, accompanied the children to New Westminster, and returned after paying a visit to her grandson, Johnny Caddom, who is attending college down at the coast.

The Rothesay Lumber Company continues to ship lumber as fast as they can load the cars. This company is also shipping a large number of telegraph poles. It seems difficult to keep the men in the bush, now that the weather is so uncertain, and this seems a pity as there never was a greater demand for lumber than than at present, and the supply of logs at the mill is nearly exhausted.

Sam. Putula cut his knee while working in the bush a few days ago. We trust he will soon be well again.

The only two Freemasons at Mara, F. Franklin and Percy Rossman, were both disappointed at not being able to attend the church parade and Divine worship with the Enderby Freemasons. Both were on the sick-list; Mr. Franklin having developed an attack of inflammatory rheumatism, and Percy Rossman having to keep indoors on account of an attack of bronchitis. Mr. Franklin went to the hospital at Vernon, but sent word down yesterday that he was improving rapidly. Percy Rossman is back at work again.

Nearly all the young men down here are talking of going to the coast in a few days or so. Either there must be a demand for workmen down at the coast, or it is as the old saying "The tart fields look green."

We are sorry to state that Mrs. Zettergreen is sick and has had to keep to her bed for some days.

Armstrong Sensation.

Mrs. Hank Martin, of Armstrong, was taken to Vancouver early this week, charged with the desertion of her year-old baby boy at the Blackburn Hotel, Vancouver, last week.

Will Start Hospital.

Dr. T. Verner announces that he will open a hospital here on October 15th next, provision for which is being made at his residence on Cliff street. Plans have been made for five beds, two of which will be special surgical beds. Every man desiring to avail himself of the privilege of same can do so by purchasing a hospital ticket, the cost of which is one dollar per month each. Appliances and fittings will be fully up to date, and if this small beginning is found to be appreciated, Dr. Verner intends, next spring to erect a cottage hospital. In the meantime, cases of any kind will be looked after. Skilled nursing will be provided. We are glad to learn of this new enterprise, and, seeing that it is one of our needs, it is to be hoped that all will give it their hearty support.

FIRTH.

BORN.—On October 7th, to Mr. and Mrs. John Willon, of Mara, a daughter; living two hours.

Farewell, sweet child, to all our hearts yet dear.
Oft shall we bathe thy memory with a tear.
Short was thy life, but long will be thy rest.
God called thee from us soon, because he saw it best.

Bessie Fossmen, Enderby, B. C.

LOCAL NOTES.

D. A. Hyslop has returned from his holiday.

Mrs. Buckley and two little daughters came in on Tuesday from Minst, N.D., to join Mr. Buckley.

Mr. Riley, of Riley Bros., sash and door manufacturers of Kault, was in town a couple of days this week, the guest of Mr. and Mrs. J. H. McVeigh.

The writer received by English mail this morning, the sad news of the death, on Septhmber 26th, of his youngest brother, at the age of sixteen years.

An apology is due to our readers for the late appearance of this issue. We had hoped to have published a full list of the prize winners at the Armstrong Fair, but for reasons already given, have been unable to do so.

Services at S. George's Church, Sunday next:—Matins and Sermon, 11 a.m.; Evensong and Sermon, 7.30 p.m.; Sunday School at 10 a.m., as usual. Thursday next, October 18th., being the Feast of S. Luke, the Evangelist, there wil be a celebration of communion at 8 a.m. This (Friday) evening, Evensong at 7.30, followed by Choir practice at 8 o'clock, as usual.

Mr. P. Greyell has greatly improved the appearance of his property by the removal of the old fence along Belvedere Avenue, and by the erection of a new one on the street line. In connection with the widening out of this street, Mr. Greyell had a request to make of the city council at their last meeting that they furnish lumber for the construction of a sidewalk along his property, and running to the several houses beyond; he offering to construct it. The council, after some deliberation, decided that, owing to the lack of funds, they could not accede to his request.

R. Featherstonhaugh, of Leduc, Alberta, spent a couple of days in town early in the week. Mr. Featherstonhaugh was returning from a trip to the coast, and stopped off to pay a visit to Enderby, where he has property interests. He says that he is very pleased that the town is about to instal a waterworks system, as he considered that that is the only thing lacking to make Enderby an ideal place of residence. He noted the several street improvements made this year, which, he said, showed up better to a town's advantage than any other thing. Mr. Featherstonhaugh intends taking up his permanent residence among us at no far distant date, and he also gave a bouquet to the Progress, for he said that he always looked for its arrival at Leduc every week, reading its contents with interest.

COUNCIL BUSINESS.

The city council held their usual weekly meeting on Wednesday evening, Mayor Bell being in the chair, with Aldermen F. H. Barnes, R. P. Bradley and H. H. Worthington present.

Alderman Barnes reported with regard to the further extension of the city school district. A letter from the Educational Department was also read, wherein was stated that if the council defined exactly the boundaries they wished the district to possess, the extensions asked for would receive careful attention.

The Clerk was authorized to affix the seal to the Tax By-law, making Enderby's first rate thirteen mills on the dollar—general purpose, ten mills, and school three mills.

A letter was read from W. A. Dobson, in which attention was drawn to a defect in the fire by-law, and requesting that it be amended, claiming at the same time, that a neighbor had endangered his home by setting out a fire so close to the fence that, had it not been noticed, would, no doubt, have set it afire. Notice of motion was given of the introduction of an amendment to the by-law.

Armstrong Fair.

The fair of the Armstrong and Spallumcheen Agricultural Society, held Wednesday and Thursday, was, without doubt, a most successful one, though characterized by a lack of interest to it on the part of a number of growers who should have been represented. A large crowd was present on the second day, to inspect the exhibits, Enderby sending down a large proportion, which we were glad to note. Not only by visitors was Enderby represented, but the winning of a respectable proportion of the prize-money principally for fruit, dairy products and fancy-work—also proclaimed her. Chief among the prize-winners were noticed: Mrs. Strouger (butter), Mrs. Evans and Mrs. Johnson (fancy-work), W. Elson, G. R. Lawes, W. Owen (of Mara), W. Gracie and A. D. Strouger (fruit); R. Waddell (sheep), and the Stepney Ranch (horses). Salmon Arm fruit-growers were extremely successful, capturing twenty prizes; P. Owen being responsible for eleven and R. Turner, nine. Mr. Turner had on exhibition some enormous apples of Wolf River variety, which in size and weight nearly equal any recorded this year.

As the judging had not been completed, we were unable to secure all the names of the prize-winners, and as a result, we must hold the list over till next issue, when our readers can depend upon seeing it in complete and correct form. The officers of the Society are to be congratulated upon the success of the show, the arrangements, and upon their new building.

Realization is Better than Anticipation

When you realize that the town is on the move, it is better than living in hope. Join the busy multitude. Invest in property while it is cheap. The Gate of the valley should take the lead.

The Bell Property is going.

Start on Waterworks.

Mr. Atkinson, representing the Canadian Pipe Co., of Vancouver, came in on Tuesday to superintend the installation of the Enderby waterworks system, the contract for which was secured by his firm. Mr. Atkinson was not long in making a start, and already trenches have been dug along a number of the city streets. The energetic start speaks well for the manner in which the work will be prosecuted. Mr. Atkinson says that he wants all the labor he can get, and is at present considerably short-handed.
