LOCAL NOTES.

Kamloops citizens pay $2.60 a month for water.

F. C. Wolfenden, of Armstrong, was in town yesterday on business.

A. Faulkner left on Wednesday on a trip to Greenwood and the country adjacent thereto.

A. E. Sage, of Fisher & Sage, of Armstrong, was a visitor to Mara on Wednesday evening.

A. K. Stuart, who went to Seymour Arm last week to inspect the Cottonbelt group of mineral claims there, returned to town on Thursday,

Mrs. O. Harvey, accompanied by her little son, returned to town on Thursday, from a short visit to friends down the line.

Miss Townsend, who has been visiting Miss Gibbs for a few days, left on Thursday for her home at Pincher Creek, Alta.

J. G. Whitacre, general agent for B. C., for Mason & Risch pianos paid a business visit to Enderby and northern Okanagan points generally early this week.

Do not forget the auction sale of stock, etc., next Thursday, June 28th. At this sale will be offered all the stock and utensils belonging to the Empire Dairy, and will be held at their farm, one-half mile north of Enderby, along the S. & O. tracks. B. Francis will be the auctioneer.

At the recent sessions of the Grand Lodge, I.O.O.F., S. C. Smith was appointed Grand Marshal of the Grand Lodge of British Columbia, and S. A. Shatford was appointed Deputy District Grand Master for District No. 18, comprising Enderby, Vernon and Armstrong lodges.

His Lordship, Bishop Dart, of New Westminster, passed throug on Thursday afternoon on his way home. His Lordship said that it had had been decided to build a new Anglican church at Vernon and that all the money that was necessary was either subscribed or promised. Evtensions will also be made to the church at Kelowna.

On Monday, George Folkard and Mrs. James Graham, of Enderby, brought the little daughter of the latter, Katie, to the Vernon Jubilee Hospital. Katie is the little girl on whom the operation of skin-grafting was performed after a severe burn some time ago. The wound has not yet completely healed, and requires more skin-grafting.—Vernon News.

Rev. F. V. Venables has left for the Coast, having received from the Bishop of the Diocese extended leave of absence, for the benefit of his health. The PROGRESS joins with Mr. Venables' many friends in wishing him speedy and complete recuperation. During the absence of the Vicar, services will be conducted at S. George's Church every Sunday evening by Graham Rosoman, Licensed Lay Reader. Morning service, with Holy Communion, will be held from time to time by a visiting clergyman, of which due notice will be given by the Churchwardens.

Honor L. Wilhelm, editor of that bright little periodical, called "The Coast," published at Seattle, Wash., and devoted to travel and story in the Pacific Northwest, accompanied by Mrs. Wilhelm, was a passenger on Saturday afternoon's train. Mr. Wilhelm was returning from a brief visit to Vernon and surrounding district, with the intention of giving in his magazine a write-up of our thriving Okanagan Valley. He was greatly taken up with its appearance and prospects, and only regretted that he could not spare greater time here.

Monday Evening's Meeting.

The meeting on Monday evening, called to discuss the proposal to instal a gravity system of waterworks in Enderby was a most successful one, a large number of ratepayers and others being present. About an hour after advertised time, Dr. Bentley was chosen chairman, and G. Rosoman secretary. The chairman called upon the mayor. In reply the mayor stated that by his petition which had been circulated, there was a prospective revenue, at a conservative estimate of $150 a month, or $1,800 a year. That being so, the system would be self-supporting, with a surplus of revenue over at the end of the first year. The interest and sinking fund on $17,000, for thirty years, at five per cent.) the amount proposed to be borrowed) was $1,105.87 annually.

The Mayors remarks were received with general satisfaction. Mr. H. W. Harvey spoke on the necessity of a sewerage system, if such a large amount of water was going to be brought into Enderby. Up to now, we held the record as the healthiest town in British Columbia, and, said the speaker, let us keep it such. He thought that the extra amount of dirty water which would be poured on the ground by reason of the people having such an unlimited amount at their command should the system be installed, would be prejudicial to the health of the place. He was, however, in favor of the scheme, and thought that the city should own such public institutions. Mr. W. A. Dobson also referred to the necessity of sewerage. Another question which was discussed, was whether the work should be done by day labor or contract. Mr. J. F. Johnson spoke strongly in favor of the former, as did one or two other citizens. The Mayor, W. A. Dobson and H. W. Harvey were in favor of it being done on contract. A vote on this subject resulted in a tie. Some remarks on the Recreation Ground by Mayor Bell, concluded the meeting. The meeting was characterized by good feeling all round, which augurs well for the successful accomplishment of the object for which it was called.

Indian Agent Irwin, of Kamloops, was in town the early part of the week, on business connected with his department.

The public school closes to-day for the summer vacation. Principal McDonald and Miss Beattie leave this afternoon to attend the teachers' convention at Victoria.

Two hundred and five timber licenses were issued by the Provincial Government during the month of April.

The Council of Public Instruction announces in the current issue of the B. C. Gazette, that the date set for the High School entrance examinations to City School districts has been changed to June 20th, 21st and 22nd, and also that permission has been given to teachers who wish to attend the annual convention of the British Columbia teachers' association this year to close their schools on 22nd June.

COUNCIL MEETING

The City council held their usual weekly meeting on Wednesday evening.

A report was received from the pound-keeper stating that a steer, which had been impounded by the Kamloops Lumber Co., had been sold after the usual lapse of time.—Filed.

The Finance Committee recommended the payment of teachers' salaries and wages for road work, amounting to $138.60.—Adopted

The remainder of the session was taken up with the consideration of the by-law authorizing the construction of the waterworks system. Seeing that it was such an important matter, it was felt that it should be drawn up by a legal man, and it was decided to put the matter into the hands of Mr. F. Billings, of Vernon, together with the transfering of F. H. Hassard's water record to the City. It was also decided to raise the amount to be borrowed to $18,000, seeing that already some extensions on the original plan as prepared by Mr. Atkinson, would have to be provided for. The annual payment of interest and sinking fund on this amount is $1,170.92.

New Real Estate Firm.

As will be seen in our advertising columns, Messrs. Elsom, Kirby & Elsom have opened an office in the Bell Block, for the transaction of business in that line. They are now listing land, and any who are desirous of disposing of their farm, or city property or a portion of such, should send along particulars, as many enquiries for land are being received and now is the time to sell.

The Ladies' Aid of St. Andrew's Church will give something special in the way of a strawberry festival, on June 28th, on Mrs. Moffet's lawn, commencing at 2.30, p.m., and continued through the evening.

The C.P.R. have made some very great changes in the appearance of their station property here. The old, narrow platform has been replaced by one sixteen feet wide, extending as far as Mill street, thereby making it a much longer one than heretofore. That unsightly old barn has been removed, and the old fence is to be replaced with a new one.

The Clerk of the Municipality of Armstrong gives notice in the current issue of the B. C. Gazette, that the Council of the Municipality will, after forty days from date, apply to His Honor the Lieutenant-Governor in Council for Letters Patent extending the present limits of the townsite of the town of Armstrong, so as to include certain lands and premises prescribed in the notice.

School Inspector Gordon came in this morning to be present at a meeting to be held this evening in Mr. A. Duncan's house, on the Mara road. The meeting is in connection with the new school district of North Enderby, which has just recently been formed. Several important matters will be up for discussion, among which will be the selection of a fitting location for the site of the school house. It is hoped that all being within this new district will be present.

WATERWORKS

We are pleased to note the unanimity with which the proposed waterworks system as brought forward by the city council has been received by the property owners and others. With only two exceptions, everybody whom the Mayor approached signed the petition to the council asking them to submit a bylaw to the voters, authorizing the borrowing of money for that purpose; and if the signing of a petition can be taken as any criterion which way the signee will vote, it is safe to say that when submitted it will carry. Enderby's need of water needs no pushing forward by us, for it is admitted on all hands. Neither do the advantages which will accrue need setting forth at any great length They are, we may say, material and prospective. Materially, because, as soon as the system is completed, we who are resident here will then enjoy the benefits of an unlimited supply of good water, brought to our very doors, at a cheap rate; and prospectively, by reason of the tendency that all such civic improvements have towards increasing the value of property; secondly, that it will be a means of inducing homeseekers from the prairie to invest in property here and build a home; and thirdly, the installing of a water works system will be a good advertisement for our town and district. As an ideal townsite, for situation and natural beauty Enderby is unsurpassed. A good water supply will place our fair city farther ahead of her competitors than ever.

At Monday evening's meeting all speakers were in favor of the system being installed. One question, however, was raised, which is a serious one, and one which the city will have to face in any case, a few years hence. We allude to the question of the carrying away of sewerage, which it is claimed by some, will become a matter for immediate consideration as soon as the people of Enderby have the use of an unlimited amount of water. While we are in accord on the seriousness of the question, yet we do not see that it should stand in the way of the system being installed. Many other places, as pointed out at the meeting, have had waterworks for years, and no sewerage system. In those places there is a slight increase in the number of cases of fever, etc., as compared with Enderby. But, can it be said that the sanitary condition of these places is all that can be desired? The city council can make any regulations guarding the city's health, dealing with any exigencies that might arise after the system was installed. If they make such regulations—and they will have to—and enforce them with a firm hand, the sanitary condition of the place would be greatly improved, for it is very far from being perfect now!

With regard to the discussion as to whether the system should be installed by contract or day labor, we most emphatically say let it done by contract. Have the system installed on a tender by a reputable firm, and see that the terms of the contract are so rigid that no extras will be able to creep in. Day labor is perhaps preferable in large cities, where the corporation employ an engineer to oversee the work; but in small places, where the council have not the time nor the experience necessary to supervise an undertaking of magnitude, to let it out on contract is the wiser course Responsibility, then, will not rest with the council—practically, the whole of the property owners—but with the contractors.

Notes and Comments

We have been wondering of late what the plans of the Board of Works are with regard to street improvements, whether that body has any plans, and if so, are they being carried out. We remember an estimate being presented at a meeting of the council, and if it is being followed, we know of one instance where such has been exceeded. We have reference to the new piece of sidewalk on the north side of Cliff street, built last week. However, we think that was a much needed improvement, and that it is proper policy tu improve our main streets first, and one which has been advocated in these columns. But the opposite side of Cliff street also has a claim. A piece of sidewalk is wanted between the Bank and Matthews & Evans' livery stable. Then we would like to ask why the crossings of George street and the Armstrong road on this side of Cliff street, have not been gravelled, and if it is intended to do so. For citizens wishing to reach the places of business on this side, it would make it cleaner walking in wet weather, and would be greatly appreciated. Let a little consideration be shown for "the other fellow!"

Our mild protest against the discrimination made by the Provincial Government, in the calling of tenders for supplies for public institutions has brought forth some varied, interesting and amusing comments in the columns of the Valley press. As would happen, Mr. Moffet, of "Moffet's Best" fame, made a journey to Vernon soon after the publication of our article. Of course, the Armstrong Advertiser Editor again "bobs up serenely," and again shows a little of the spleen that is in him. In an account of his interview with the manager of the Columbia Flouring Mills, he states that he asked Mr. Moffet if he inspired the Enderby paper's attack on the Provincial Government. Our modest little remonstrance magnified into an attack! But there! there! we all know Editor Rogers! Try another tack.

Legislation has been introduced with the object of pretecting the public against fraud in the sale and marking of gold and silver. Marks like "gold," "solid gold," "pure gold," "U. S. assay," and other like description are prohibited. Silver marked "sterling" must contain nine hundred and twenty-five one-thousandths pure silver. In the case of gold-filled, rolled-plate, gold or silver fronted, double stock or other soldered combinations of alloys of gold or silver with other base metals, plated or electro-plated, gilt or fire-gilt jewelry, watches, chains, lockets, etc., the stamp must indicate the statement of fineness, and also the actual weight in gold, silver or alloy contained therein.

The use of any stamped, printed or written guarantees on this latter class of goods, for any specified period of time, is absolutely prohibited. The trade is prohibited from imporing goods that do not conform to the foregoing regulations.

Who are the really live merchants? Do you want to know? Then read the following from a contemporary which tells with accuracy and point:

The live merchants, the merchants who do not complain of hard times, are the advertising merchants. They have realized the fact that, in this advanced day, for a man to hold his own in business without advertising is a poor policy by which to be governed. They have learned that every year they must spend a share of the profits in advertising. The time has come when the people look to the advertisements as their buying guide and trade with the men who advertise.

News From Near & Far

The mountain lumbermen's association have advanced the prices of all lumber one dollar per thousand.

The Vernon Fire Brigade Band have secured a special train for their celebration on July 2nd. It will be run from Revelstoke to Vernon.

The Trail electric light plant was burned to the ground on June 12. Loss, $18,000.

The Dominion House is expected to prorogue in two weeks. The Sunday Observance Bill was taken up on Wednesday.

After a heated debate the English House of Commons has adopted a resolution whereby the Education Bill will be put through in two weeks.

Despatches from the Congo report a revolt of the natives of Kwangi district. Several factories have been pillaged and burned. Troops are being rushed to the scene.

It is probable that all the shingle mills in Washington State will be tied up by a strike among the operators.

Reports from Rosthern, Sask., say that wheat there is headed out in fime shape and a magnificent crop is assured.

A deficit of $40,000,000 is expected in the next Japanese budget.

An immense attendance of delegates at Philadelphia, on Monday evening, celebrated the fiftieth anniversary of the founding of the Republican party of the United States.

Fire did damage at St. Paul, Minn., on June 18th, to the amount of $500,000.

It is claimed that the Japanese are bottling up Manchurian trade, and it is almost impossible for foreign merchants to do business.

John Houston, ex-mayor of Nelson, has opened an office in Goldfield, Nev., to deal in "prospects and mines, mine leases, mining stocks and real estate."

Kamloops sold $12,500 worth of debentures at 101.

The Vernon Waterworks Extension by-law carried without difficulty, but the Sewerage by-law went down under a very close margin. It required 110.4 votes to carry the proposal and 110 were polled in favor of it.

The C.P.R. is building a station at Three Valley which hereafter will be a regular railway, telegraph and express office, in place of Griffin Lake, which is to be closed.

Dishonest mortar, faulty construction and the misguided use of cheap bricks, were responsible for nearly all the earthquake damage, says Dr. Eakamura, who was sent by the Japanese Government to investigate the effects of the trembler and fire.

During a debate in the House of Commons last night it came out that during the recent war in South Africa, more than half the canned meat used came from the United States. The War Office knew no case of enteric fever which could be classed as ptomaine poisoning.

The past week in Russia has been characterized by some brutal attacks upon the Jewish population, at Bialystok, and messages say that only energetic intervention can avert a terrible catastrophe. The streets of the above place were a continuous picture of arson and pillage. The windows and doors of the Jewish houses were wide open giving a view of the wrecked interiors. Weeping women were to be seen everywhere, hunting for trace of killed or wounded survivors.

A most disastrous fire raged at Nakusp on Thursday last, totaly destroying the Yale Columbia Co.'s big lumber mill and two million feet of lumber. For a time the whole town was threatened but fortunately the wind changed its course and the fire was confined to the vicinity of the mill. The C. P. R. lost three box cars and one flat car. The lumber company's loss on the plant is about $25,000.

It is estimated that the annual payroll of the C. P. R. amounts to $20,000,000. What a second transcontinental road will mean to the working people of Canada is not hard to realize.

At Friday morning's session, the Presbyterian General Assembly emergency committee appointed Alexander Warden to position temporarily of treasurer and joint clerk, in place of L. R. Warden. Much interest was manifested in the reading of the home mission report. The past year was a banner year in the history of Presbyterianism in the eastern provinces. The burden of all addresses is more means needed to evangelize the west, where there are 500 mission fields, containing 150,000 families. The amount of the home mission fund last year was over $150,000.

Desire Brothier, the notorious procurer, whose pardon, granted for inexplicible reasons by the Ottawa department of justice caused such a general protest in British Columbia, made a dash for liberty at Seattle on Sunday night but was recaptured. The British Columbia government secured the arrest of the released convict, the Seattle police apprehending him at the request of Mr. F. S. Hussey, superintendent of Provincial Police. He was ordered deported to Vancouver by the United States immigration authorities, and was being held for deportation when he sought to make his escape. Brothier was taken to Seattle from Port Townsend by steamer. The convict was to have been taken direct to the county jail and was in charge of Inspectors J. A. Nicholson and Henry Weise, and while the inspectors were talking to the driver, the handcuffed prisoner suddenly sprang around the horse's head and ran down the tracks. In an instant he was lost in the darkness and before the two immigration men could realize what had happened he was gone. They started in pursuit and hunted the fugitive through the maze of cars and railroad tracks, which forms Railroad avenue around the foot of Jackson street, and in the vicinity. The rain and number of cars made it extremely difficult for the inspectors to gain any trace of their man. They kept up the search, however, and at about 11 o'clock appeare at the county jail with the prisoner.

A strong constitution means a healthy mind and good work—and good work means advancement. To have a strong constitution one must have the best meats, and that's what you will find at the new brick block. Always fresh, juicy and tender.

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section 160 acres or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

TOWN & DISTRICT . NOTES .

Mrs. J. H. Martyn left on Saturday for Kamloops, where she will visit her brother.

Don't forget Armstrong's fifteenth Dominion Day celebration. Enderby will, we understand, play baseball that afternoon.

We have received from the Deputy Minister of the Inland Revenue Department, at Ottawa, Bulletin No. 118, entitled "Standard Fertilizers, 1906."

Kelowna's citizens voted on and carried a by-law authorizing the borrowing of $5,000 for making street improvements.

The Provincial Grand Lodge of the A. F. & A. M. met yesterday at Victoria. W. M., F. H. Barnes, of Enderby Lodge, No 13, left on Wednesday to attend its session.

It is understood that the Seymour Arm mineral claims will be handled by Angus K. Stewart, of Vernon, says the Sentinel. There are some 38 claims in the Cottonbelt district, and the owners have succeeded in getting a promise of a subsidy from the Government of $400 for a wagon road from the head of the Arm up the Seymour River.

Last Thursday was a busy day at the Kamloops Lumber Co.'s sawmill, at Kamloops says manager G. McCormick. Using one band saw the cut for the day was 75,656 feet, board measure. This was a splendid run, eclipsing anything of the kind in the same mill, and it is thought, beating the record for one saw in the province.

Armstrong members of the I. O. F. attended anniversary services, conducted by Rev. J. H. King, in their hall.

The following are the special rates for the July 12th celebration at Salmon Arm: Kamloops and return, $1.95; Ducks and return, $1.55; Shuswap and return, $1.15; Revelstoke and return, $2.05; Sicamous and return, 75 cents; Okanagan Landing and return, $2.15; Kelowna and return, $3.20; Vernon and return, $2.00; Armstrong and return, $1.65; Enderby and return, $1.40. Ample accomodation will be provided and a good time assured.

Born.—On May 29th, to Mr. and Mrs. J. F. Moore, a daughter.

J. W. Bacon, of Mara was a business visitor in Enderby on Saturday.

Mr. G. Folkard was a business visitor to Vernon on Monday.

Messrs. Elsom & Kirby were busy on Monday listing land for sale. They report the compilation of a respectable list.

Erratum.—In the article entitled "On Giving Advice," in our last week's issue, second paragraph, "etherial" read "ethical."

J. Colthard, of the local branch of the Bank of Montreal, is at present relieving at Kelowna.

Mr. F. S. Waby, of Mount Ida, brought some well matured peas into town with him on Saturday, and says that he has a large crop almost ready to pick. He also states that his strawberry crop gives the promise of being a record one for him.

J. McDonald returned to Armstrong on Wednesday morning. Mr. McDonald, who has the contract for A. L. Fortune's new house states that construction work is proceeding rapidly and expects to have all the carpentering work finished by Saturday. C. Hanson will do the plastering.

All were glad to see Larry Doran back in his old position as conductor of the local mixed. Mr. Doran, who has been on the sick list for over a year, is now looking his wonted self, and he must have been greatly touched by the hearty welcome that met him all down the line.

Armstrong Episcopalians will erect a handsome vicarage for the incumbent in charge, and have secured four acres of desirable land near Armstrong for that purpose.

Though the weather on Tuesday evening was not very propitious, being as it was, so chilly, the ice cream social and open air concert given by the ladies of S. George's, was an enjoyable social treat, and attracted a fair number to the attractive grounds of Mr. and Mrs. G. R. Lawes. The house and lawn were prettily decorated for the occasion, and two hours of social intercourse, interspersed by solos and part songs, was enjoyed by all the visitors. The proceeds will be devoted to the Bell Fund.

A sale of horses will be held at Grand Prairie on June 29th and 30th. B. Francis, of Armstrong, will be auctioneer.

Business must be brisk at both our mills; for the flour mill and sawmill have now been running a night shift for some time past.

New potatoes and strawberries are already on the market. G. R. Lawes shipped out four boxes of berries on Tuesday.

Odd Fellows of British Columbia raised $1981.40 for the relief of the San Francisco sufferers.

J. Johnson, of Salmon Arm, passed through on Tuesday, returning from a trip down the valley. Mr. Johnson states that many enquiries for land in that thriving settlement are being made and that real estate is changing hands quickly.

Mr. J. Bruce Shaver, Phm. B., arrived on Saturday's train from Victoria to take charge of the drug and dispensing department of the Enderby Drug and Stationery Co.'s store.

We are pleased to be able to state that C. E. Fripp, who risides on the Salmon Arm road, about five miles from Enderby, is making good progress towards recovery from his recent illness.

Rev. F. V. Venables, accompanied by Mrs. Venables and little son, passed through on Tuesday on their way to the coast. They were taking their child to the coast to undergo an operation. We sincerely wish that the operation will be successful and that the little fellow will come through the ordeal safely.

Mr. and Miss Gibbs and Miss Townsend visited the falls on Davis Creek, near Armstrong, on Monday. They report an enjoyable trip, and that the scenery along the creek and at the fall as well worth the climb.

The unprecedented amount of rain which has fallen during the past few weeks, though it has been of great benefit to farmers in one way, has not been an unmixed blessing. The temperature has been altogether too much on the cool side, and all growth is nearly at a standstill and very much behind that of average years.

Mr. D. Nairn, accompanied by Mrs. Nairn and little son left on Friday for Revelstoke, where they will reside in future, Mr. Nairn having purchased a drug and stationery business at the latter place. A number of friends were at the station to say good-bye and wish them all success in their new location.

In a letter to the Progress, Wm. Allan, of Field, says: "I notice by the last issue that you are about to install a water system in Enderby, and that a petition is to be circulated to see who will take warer. As I am the owner of some lots at Enderby, I would like very much if you would kindly sign my name to the said petition. As I ex- to reside permanently at Enderby shortly, I would like very much to have the water brought as near my property as possible."

The first tangible evidence that Enderby had a Farmers' Exchange was given this week by the commencement of the erection of a building to serve the purpose of a warehouse and office. This building is situated along the S. & O. tracks, just north of the old cattle corral. It will be finished now within a day or two. Mr. Haworth, the local manager, has been on the ground for some time past now, and but for the trouble experienced in securing a suitable location for the warehouse, would have been located long ago in an office and warehouse.

Shakes Wanted.

Wanted at once, 2,000 Cedar Shakes. Apply to
