FRATERNAL

The installation of the officers for the ensuing year of Knights of Pythias Lodge No. 35 took place on Monday evening last. At the close of the ceremony the assembled brethren partook of an informal supper and enjoyed a short time spent in social chat. The officers are: C. C., Wm. Anderson; V.C., R. Johnson; Prelate, J. C. English; K. of R. & S., C. E. Strickland; M. of F., A. Faulkner; M. of E., F. Pyman; M. at A., J. C. O'Connor; M. of W., J. Folkard; I. G., J. Graham; O. G., R. Bailey.

On Tuesday evening the installation of the newly elected officers of Eureka Lodge No. 50., I. O. O. F. was held. The ceremony was conducted by Bro. S. A. Shatford, D. D., assisted by Bros. S C. Smith and W. A Cryderman, of Vernon. Labors ended, light refreshments were served. The following are the newly installed officers: W Mack, N.G.; R. E. Wheeler, V.G., J. C Metcalfe, Sec.; H. N. Hendrickson, Treas.; J. Hodson, Warden; M. Dunwoodie, Conductor; J. O'Connor, O.G; R. P. Bradley, I.G.; J. Eastwood, R. S.N.G.; P. Mack, L.S.N.G; R. Blackburn, R.S.V.G.; A. Paul, L.S.V.G., A. Matthews, R.S.S.; F. Gibson, L.S.S

The steel casing for the drill of the Enderby Coal Mines, Ltd., came in on Monday and was taken out to the mines that afternoon. Drilling operations have now commenced on this property.

Miss Macgregor arrived last week from Victoria and is the guest of Mrs. J. E. Crane.

James and P. D. Murphy, of the King Edward Hotel, left on Friday for Michigan, having received word of the serious illness of a sister there.

Mrs. Albert Johnson, who has been enjoying a holiday at Lumby for the past few weeks, returned home last week.

The Kelowna city council have been offered 102 for their first issue of debentures. Does not this offer of two above par show the standing of the Okanagan in the financial market? We think it is the most eloquent testimony.

The weather has been "on the whole" just a trifle cooler this week than the "sizzling" kind meeted out last week by the "weather clerk" to Okanaganites.

J. Verner, son of Dr. Verner, arrived in town last week from Toronto, to join his parents here. He has secured a position in the office of the Kamloops Lumber Company.

Mr. Gracie, accompanied by Mrs. Gracie, arrived in Enderby from Scotland on Friday morning. Mr. Gracie, in partnership with Mr. Wylie, has purchased the Fortune ranch, of which he will take the management. We understand that the new owners contemplate making many improvements in this, the pioneer ranch of the Okanagan valley, and that dairying and fruit growing will be gone into on an extensive scale.

Mayor and Mrs. Geo Bell, Mr. and Mrs. J. W. Evans, and Mr. and Mrs. F. Pyman left on Thursday to join the Tappen Siding summer school and camp on Shuswap lake, which opened this week and will continue till August 20. No better place can be found, says the Inland Sentinel, to spend the hot summer season. Good boating and bathing with an absolutely safe beach for the little ones. Campers must provide themselves with tents and sleeping accommodations, but board may be had at reasonable rates on the grounds. Regular single fare tickets purchased between the above dates will entitle the camper to a return free provided he asks for a standard certificate when purchasing his ticket. Interesting services and lectures will be given at suitable times during the camp.

The lacrosse match played between Armstrong and Enderby on Wednesday evening was witnessed by some 200 spectators, and was a very even one, although Armstrong had an advantage of goals. Considering that the Enderby team have only recently organized, their play was very creditable, and gives promise of better results in the future. When time was called Armstrong was winner by a score of 8-2.

LOCAL NOTES.

Mr. Geo. McCormick was a passenger on Wednesday's train en route for Sicamous, on an inspection tour of the work now in progress on the company's extensive timber limits, around Shuswap lake.

Mr. Russell, of Bathgate, Scotland, accompanied by Miss Russell, came in by Monday's train and is visiting with his daughter, Mrs. Heggie, of the Stepney Ranch.

The road menders are at work now on the Mara road. Walter Gardner is in charge.

Fruit Growers' Meeting.

The B. C. Fruit Growers' Association held their periodical meeting on Saturday afternoon in the Orange Hall, in order that the local members of the Association might have the opportunity of listening to addresses delivered by Messrs. Brandrith and Kipp, who have been touring the Interior and lecturing in the interest of the Association. Owing to the prevailing heat, the attendance was very small. Mr. Elson was elected to the chair and in the course of his introductory remarks, said that the hot weather was causing a great loss in the small fruit crop, as a large quantity of raspberries, gooseberries and currants were being cooked on the bushes.

Mr. Brandrith, secretary of the Fruit Growers' Association, was the next speaker, and began his lecture by reading a letter from Mr. Cunningham, Dominion Fruit Inspector, who was to have been present at the meeting, but as the letter stated, was detained from so doing by having to go to Agassiz, where he is trying to subdue the infestation which has already ruined some forty acres of hops. Mr. Brandrith went on to speak of the importance of spraying fruit trees. He said that the majority of fruit growers who sprayed their trees did not seem to know why or when to do so. He showed the importance of spraying with the right mixture and at the right time, and stated that he would be quite willing to give any enquirers all the information on these subjects that was at his disposal. He also said that importers of fruit trees could not be too careful in regard to where they got their trees, saying that trees from the coast were likely to be infested by injurious insects. He said that the Okanagan Valley was very free from pests of all kinds and that it was up to those who were engaged in the fruit-growing industry to keep it so. Mr. Brandrith also stated that members of Farmers' Institutes could receive spraying materials from the Institute at cost.

Mr. Kipp spoke of the keeping qualities the different varieties of fruit which have come under his notice and gave those present some very timely advice upon the varieties of fruit trees to plant in this section of the province and upon the manner in which pruning should be done, advising them not to leave the pruning of their trees entirely in the hands of anyone who might come along professing to be expert in that line, as this was one of the most important events in the life of the tree, and the work should be done by capable men and along scientific and natural lines.

The addresses were listened to with great attention by all present and a vote of thanks to the speakers brought the lecture to a close. Messrs. Brandrith and Kipp drove down to Armstrong the same evening where they also delivered addresses.

JULY 12 AT THE ARM

With such accompaniments as fine weather, a good programme, as pretty a place as one could wish to visit, and the fact that the day was none other than the Glorious 12, the celebration on Thursday at Salmon Arm could not have been otherwise than a great success.

The special pulled out of Enderby at 9.30, and was well filled with a large crowd of happy passengers, all intent on crowding as much enjoyment and sight seeing into the day as possible.

That Enderby sent her share of the visitors was apparent, and the town was quite a "Deserted Village." From reports which have reached us, it is clear that one and all enjoyed the trip immensely. All speak in the highest terms of the arrangements made by the committee in charge of the celebration for the comfort and amusement of their visitors.

Salmon Arm won from Armstrong at baseball by a score of 7 to 3, while Revelstoke beat Enderby at football by 3 to 0. The lacrosse match between Kamloops and Vernon did not materialize, much to the disappointment of a great many.

COUNCIL MEETING

A special council meeting was held on Tuesday evening, the Mayor and all the Aldermen being present.

The principal subject of discussion was the waterworks scheme, which was considered at great length. A number of amendments to the By-law were passed, and it was finally, on the motion of Ald. Evans, seconded by Ald. Barnes, read for the third time.

The date for taking the vote of the property owners upon the By-law was fixed for Tuesday, July 24th. The Clerk was instructed to write to the Health Department, asking them to provide analysis of water sent them some time ago, in order that the City may be in a position to comply with the requirements of the Health Act before commencing construction of works, which, unless an early start were made, would have to be postponed till next year. He was also instructed to advertise for tenders, so that if the By-law is confirmed by the electors, subject to the approval of the Health Department, the council will be in a position to close a contract for construction of the works without delay.

FIRE AT ARROWHEAD.

Arrowhead, July 12.—Fire broke out at this place early this morning. Despite all efforts to stem its progress, it spread rapidly and at daylight the whole of the business section of Arrowhead was in ruins. Two Hotels, four stores and two residences were destroyed. The loss is approximately fifty Thousand dollars and the insurance is unknown.

The Grand Challenge Cup for rowing at Henley was won by the Belgian crew, who defeated Trinity Hall Cambridge. This is the first time this trophy has left England.

A lad named R. McRury was drowned in Sicamous lake last Friday afternoon. He was swimming in the lake, following a boat which contained a companion, when he suddenly sank, no doubt be seized with cramp.

Notes and Comments

THE CATALOGUES.

Those who buy from catalogue houses in the cities should be interested. When your catalogue comes from the mail order house, wait until you get home before removing the wrapper, then wait until after your supper; when the chores are done draw an easy chair to the table where light will shine full on the page, put on your glasses so no bargains may escape your eye, and settle down for an hour of quiet enjoyment.

What a wonderful book it is, to be sure—wonderful in what it does not contain as well as what it does. We miss some things we should be glad to see. Where is their offer to pay cash or exchange goods for your butter, eggs, hay and grain? How much do they pay for cattle, sheep and hogs? How much taxes will they pay for improving roads and bridges, for the support of the poor of the country?

On what page is their offer to contribute money or services in the establishment and maintenance of Church or Sunday School for the improvement of the moral tone of the community? What line of credit will they extend to you when crops are bad and money gone, when through illness or misfortune you are not able to send them cash with your order for your hardware, dry goods, etc.? And where is their offer to contribute to any demonstration or holiday?

In what department do they explain to the increased value of your property as a result of dealing with them? If in the catalogue you find these questions answered to your entire satisfaction, bring the answer in and most town merchants will turn to farming and let the towns go to grass.

Under such conditions no town is needed, further than to furnish a railway station, express office and post office, all of which might be covered with one roof. If you buy of catalogue houses think over the above seriously, and then make up your mind that you should patronize the business people who advertise in your own local paper.

FIRE PROTECTION

In its issue of July 5, the Kelowna Courier, reprints our remarks of a week or two back concerning Enderby's need of a fire brigade, and, editorially says: "Here is a lesson for Kelowna to take to heart. We are investing in an expensive fire engine, and provision should be made for its proper handling. Apparatus alone, however good, will not suppress a fire without trained men to use it. The need of a fire brigade is imperative. The same chaos as was observed at Enderby was evident here when the saw-mill burnt. People were running about shouting orders who had no authority to do so, and much valuable time was wasted in organising the available fire-fighting force, which was large and willing but entirely unskilled and undisciplined. We do not believe an efficient fire brigade can be held together here unless there is a paid chief or engineer, thoroughly instructed in the running of the engine and able to cope with difficulties should it break down. Such a man should be paid a small monthly sum as retaining fee, say $15, and receive full pay for each time of service, at the rate of $5 per fire. Sleeping quarters should be provided gratis for the chief and a force of firemen, who would receive no retaining fee beyond the free quarters, but would be paid say $3 per fire. Part pay might be allowed for a fortnightly practice. An efficient force of a chief and ten men could be maintained at an annual cost of about $600 for pay, allowances and fuel. With a nucleus of so many trained men, the willing general public could be made use of under discipline instead of running hither and thither, and the time saved in checking a fire at its outset would probably be the means of saving many buildings that would otherwise be destroyed."

The foregoing cannot be gainsaid by any one resident in town, and we ask, again, have the city council no intentions or concern in the matter?

Very nearly $600,000 will be the total revenue derived by the provincial government from the operation of its timber department during the fiscal year which ended on June 30.

All records for collections on account of licenses and royalties were broken during the fiscal year just ended, and the lumbering industry appears to be on the eve of still greater expansion. A conservative prophecy made is that the fiscal year of 1906-1907 will show a revenue from the timber department of not less than $750,000.

The month of June was the banner month for collections since the days when the province first commenced selling timber locations. Approximately $100,000 was received in payment of licences alone during that month. That amount is over five times greater than the total collections made the first year the Government commenced to derive revenue from the sale of its timber. The revenue from timber during the fiscal year 1904-05 amounted to $412,000 in round numbers, while collections for the calendar year ending last December 31 last, totalled nearly $579,000.

The number of licenses taken out for timber is steadily increasing. The amount paid in royalties is not increasing in proportion to the number of licenses granted, which goes to show that the timber held under licenses is not being taken up for the purpose of immediate use.

The Toronto News has recently opened a fund for the erection of a memorial in Gladstone Avenue School to the memory of Alexander Muir, the author of "The Maple Leaf for Ever," who died so suddenly last Tuesday night. The co-operation of all Canadians is asked, especially that of the school children. Any contributions addressed to the News will be acknowledged in that paper. Mayor Coatsworth, with Chairman Shaw of the Board of Education, and Insepctor Hughes will be a committee to carry out the movement. Newspapers throughout the Dominion are asked to co-operate with the News in this tribute to the memory of the man who has done so much to unify the nationhood of Young Canada.

News From Near & Far

Miss May Sutton, of California, lost the tennis championship of Great Britain which she won last year, being defeated by Miss Douglass by 2-0. The scores were 6-3, 9-7.

Charlie Smitheringale, late of the Slocan Drill, intends publishing a fraternal paper to be called The Pythian Shield. It will be devoted to the interests of the K.P's. in British Columbia.

The Chicago Tribune of Saturday publishes its ninth annual summary of the deaths and injuries caused throughout the United States by yesterday's celebration of the Declaration of Independence. The figures up to an early hour were as follows: dead 38, injured 3,351.

Earl Grey will visit the governor of Newfoundland during August. Later on he will visit the Northwest and British Columbia, but will not go to the Yukon. He will attend the forestry association meeting at Vancouver, and will open the exhibition at New Westminster on October 2. He will return to Ottawa at the end of October.

A. Jarvis won the five-mile swimming championship contest at Putney, England, on Saturday. The time was an hour three minutes and forty seconds, beating the previous record by thirteen and a fifth seconds. Taylor, of Camerdon, was second. It was a very close race, Jarvis being only two yards ahead of Taylor at the finish.

Mr. Maxwell Smith, Dominion fruit inspector says: "There is little need for this province to spend money in trying to induce immigrants from other countries to come here and settle. The best immigration work that British Columbia can do is to develop the fruit-growing industry, and to send large quantities of first-class fruit, properly grown, harvested, packed and shipped, to the Northwest; this will bring our own people here as soon as they become tired of the more rigorous climate of the praries."

Further fighting between the native rebels and the British columns occurred July 4th. The latter came in contact with the enemy's vanguard, killing 350 men; but the main Zulu force, numbering 8,000, is still at large. A band of desperadoes, shouting the rebel Zulu Chief Bambaata's name, and terrorizing the southern suburbs of Johannesburg, attacked a number of whites, stabbing them with assegais, and robbing them. Mr. Maddison a Wesleyan minister, who, with some others, is in a precarious condition.

Opposition to some of the features of the Sunday Observance Bill is so strong that many believe the Senate will lay the matter over till next session, particularly in view of the fact that the measure is not to take effect till next March. In the senate on Monday, Senator Bostock declared it was no use passing a Sunday Law that could not be enforced. It was one thing to put a measure of this kind through Parliament, and quite another to enforce it against the wishes of the people. In British Columbia it would be difficult to get a jury to find a man or company guilty of violating the clause which forbids the publication of Sunday papers. The people of that province knew by experience that there were fewer objections to Sunday than Monday morning papers.

The first G. T. P. construction train left Toronto for the west on Friday. It consisted of three locomotives, two steam shovels, 91 flat cars, seven kitchen and dining cars for the gangs, a machine shop on wheels, and five tool cars. It will cost $18,000 to convey this large order to its destination, which will be the G.T.R. to North Bay, thence to Forth William, for use on the Lake Superior Branch, and to Portage la Prairie for the prairie section. It is understood that the laying of the actual transcontinental track will be commenced in a few weeks, as over 125 miles of the road have been graded already on the Lake Superior Branch. At Fort William an immense terminal depot will be equipped. The Company has secured 1,600 acres for its buildings from the Indian Reservation.

Another mutiny has started among the Turkish army reserves in Yomen province. Sixteen battalions demanded that they be repatriated and the commander-in-chief, Marshall Feizi Pasha, ordered the forts to open fire on the mutineers.

A new island has arisen in the sea near Bernslov Island, Alaska, which itself was thrown up by a volcano a hundred years ago. Fishermen say they were unable to approach the island because the waters around were still seething from heat.

Robert Fleming, teller in the Bank of Montreal, St. John, N. B., has had 539 pieces of glass removed from his eye, which was injured nearly a month ago by the breaking of an incandescent globe near his desk. His physician vouches for the count, and says the case is without parallel in medical history. The sight of the organ will be saved.

Lord Aberdeen, the lord-lieutenant of Ireland, had a narrow escape while travelling from Haddo House to Aberdeen, Scotland. A stone crashed through his carriage window and struck the door on the other side of the compartment. A young lady in another carriage of the same train was struck on the forehead by a stone that came through the window, and was severely injured.

The board of trade inquiry into the wr ck of the Plymouth steamer ex press on July 1st has formally begun at Salisbury, Eng. It will be thorough, and all the expert testimony possible will be taken. The police have been informed by one of the relatives of a person killed, that a large sum of money was stolen at the time of the disaster. Unofficially it was learned that the time in which the boat train should cover the 115 miles to London is 113 minutes.

A poor but worthy old couple had a rare stroke of luck. Some relative died and left them a fortune of $100. The night of the arrival of the lawyer's letter telling them of their good fortune they sat up late, discussing the future and what they were to do with the great sum they had inherited. When they had done, and were rising to go to bed, the old man said with a grand air of magnanimity, "Well, I suppose Janet, this 'ull mak' nae difference. We'll just speak to the neebours as before."

Canadian Pacific Railway earnings for the last week in June, the last week in the fiscal year of 1905-6, showed a gain of $306,000, and thus the greatest year in the road's history was brought to a close. The earnings for the year amounted to $61,612,410. The road showed a steady string of weekly gains throughout the year, and in five months out of the twelve the increases were bigger than those shown by any railroad in America. The way the stock has held in view of the slump in New York indicates that the earnings have created a very strong impression upon the speculative mind in Wall street and Europe.

As a result of a conference between the Canadian Pacific and Allan steamship lines, and the postoffice authorities, it has been arranged that the steam ships carrying the Canadian mails will sail from Montreal on Friday mornings, and from Liverpool on Friday afternoons, the call at Moville for mails being cut out. It is expected that this will result in a considerable saving of time.

The crew representing the Club Nautique De Gand, (Belgium) July 5, defeated Trinity Hall, Cambridge, by three lengths in the final for the Grand Challenge Cup. Time 7 min. 9 sec. The cup thus leaves England for the first time in its history, and for the next 12 months will adorn the headquarters of the Belgian Rowing Club. The ease with which the Belgians beat the crack British crew was a rather rough shock to the complacency of the home oarsmen and their belief in the hitherto unshakeable invincibility of their methods of rowing. Apart from a momentary advantage at the start Trinity Hall was never in the race.

You can shake down a "Sunshine" furnace without getting covered with ashes and dust—has a dust flue through which all the dust and ashes escape when you shake down the fire.

This heater is so easily regulated and operated, and so clean, that it makes the entire household bright and genial.

Sold by all enterprising dealers. Booklet free.

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section 160 acres or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

TOWN & DISTRICT . NOTES .

Mrs. H. N. Hendrickson returned on Friday from a visit to relatives in Dakota.

P. Burnet returned to town on Saturday from Penticton where he had been engaged surveying for a few days.

A. O. Cochrane, of Vernon, passed through on Monday, returning from Victoria where he successfully passed the examinations for barrister.

Mr. R. Waddell, of Bathgate, Scot. arrived in town on Monday, on a visit to his son who recently purchased the Coles property on the Mara road.

A. G. Fuller, of Vernon, passed through on Saturday returning home from Harrison Hot Springs, where he had been to undergo treatment for rheumatism. He says that he has been greatly benefited by the baths there.

H. E. Waller, of Carberry, Man., former owner of the famous trotting stallion Pilot, was in town the latter part of the week on business connected with that horse. He has disposed of Pilot to Messrs. Matthews & Evans, of this place.

J. F. Smith, editor of the Vernon News, passed through on Friday on his way to his old home in Truro, N. S., where he will spend a two mohth's visit.

Mrs. A. E. Huntley, of Armstrong, who has been visiting her parents at Kamloops for a few weeks, passed through on Tuesday on her way home.

W. Huppel, who has been visiting his brother, Mike Huppel, Mabel Lake, for the past few weeks, left on Tuesday for the coast. Mrs. Huppel accompanied her husband.

L. W. Shatford, of the Southern Okanagan Land Co., of Penticton, passed through on Tuesday on a business visit to the coast.

E. M. Endacott was in Enderby on Wednesday. Mr. Endacott, who was once a resident of Enderby for a short time, is preparing a new map of Canada, which is to be issued by his firm, (Rand, McNally & Co., of Chicago,) and is busy collecting data. He left for Cranbrook on Wednesday afternoon.

F. H. Hale returned on Thursday from an extended tour of the Southeast Kootenay. He was accompanied by Mrs. Hale.

Editor ENDERBY PROGRESS.

Dear Sir: Our friends who have so kindly contributed towards the cost of a bell for St. George's Church, will be interested to learn that the bell has now been ordered from Meneelie & Co., at New York. The donations have not yet been quite sufficient to cover the entire cost of the bell and mountings, and of the erection of a suitable belfry. A friend, however, has promised to advance a sufficient amount to enable us to purchase the bell, and have it put up at once.

We should feel very grateful if anyone who is intending to add to the fund, will send in their donations, at once, so that the Guild may be able to free itself from debt as quickly as possible. A full account of all money received will be published as soon as the bell is placed in position.

MABEL R. GIBBS, Pres.,
EVA LAWES, Sec.,
St. George's Guild, July 11th, 1906.

At a meeting held in the reading room on Monday for the purpose of forming a lacrosse club, and the following were elected as officers for the ensueing year: President, J. W. Evans; Vice President, R. Hancock; Secretary-Treasurer, W. T. Broderick; Captain, R. Blackburn.

A fire last week totally destroyed the Peachland sawmill on Okanagan Lake. The fire started at about 4 o'clock on Friday afternoon, July 9th, by a spark from the engine. The water from the pump, which was fortunately at work filling a boiler at the time, was turned on at once, but a strong gusty wind was blowing, everything was dry, and the whole mill was on fire in a few minutes. A large number of persons joined heartily in the work of saving the lumber; and through their efforts a large quantity of box material, stored away in one of the warehouses, was saved. The loss was $15,000, partially covered by insurance. Mr. Lang states that he will rebuild at once. He is now on his way to Vancouver to buy the new plant, and expects to be in shape to resume work in about two weeks. The fire is particularly awkward, happening at this season, when there are a large number of orders for fruit boxes to fill. Mr. Lang states, however, that he will be able to live up to his contracts.

CITY OF ENDERBY

LOAN BY-LAW No. 1

A By-law for raising the sum of $18,000.00 to provide for the construction of a waterworks system for the City of Enderby

WHEREAS it is deemed expedient to construct a waterworks system within the City of Enderby to provide a supply of water for ordinary household and fire protection purposes, and in order to do so it is necessary to raise by way of loan upon the credit of the said City the sum of $18,000.00, payable on the first day of August 1936, bearing interest in the meantime payable half-yearly at the rate of five per cent. per annum, the principal of such sum when raised to be applied for the purposes aforesaid;

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sam of $1170.92 by rate in each and every year;

AND WHEREAS the whole rateable property of the City of Enderby, according to the last revised assessment roll is $172,516.90;

AND WHEREAS there is no existing debenture debt due or owing by the City of Enderby;

NOW THEREFORE the Mayor and Council of the City of Enderby, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Mayor of the City of Enderby to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said City by way of the debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of $18,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said City, for the purposes and with the objects hereinbefore recited;

2. It shall be lawful for the said Mayor to cause any number of debentures to be made for the sum of not less than $1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of $18,000.00, and all such debentures shall be sealed with the seal of the City of Enderby, signed by the Mayor and countersigned by the Treasurer of the said City;

3. The said debentures shall bear date the first day of August, and shall be made payable in thirty years from the date hereinafter named for this By-law to take effect, at the Bank of Montreal, in the City of Enderby;

4. The said debentures shall have coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said debentures and such interest shall be payable half-yearly on the first days of February and August in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed;

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the City, sufficient to pay interest on the debt hereby created, during the currency of the said debentures, and to provide for the payment of the said debt when due;

6. The sum of $900.00 shall be raised and levied annually by a rate on all the rateable property in the City of Enderby, in addition to all other rates, for the payment of the debt hereby created when due;

8. It shall be lawful for the said City of Enderby from time to time to repurchase any of the said debentures at such price or prices as may be mutually agreed upon, and all debentures so repurchased shall forthwith be cancelled and no re-issue af any debenture or debentures shall be made in consequence of such repurchase;

9. This By-law shall, before the final passage thereof, receive the assent of the electors of the said City of Enderby in the manner provided for by the Municipal Clauses Act, 1896, and Amending Acts;

10. This By-law shall come into force and take effect on the first day of August, 1906;

11. This By-law may be cited for all purposes as "The City of Enderby Waterworks Loan By-law, 1906."

TAKE NOTICE that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Court House, Enderby, on Tuesday, the 24th day of July, 1906, between the hours of 9 a.m and 7 p.m.

GRAHAM ROSOMAN,
Clerk to the Municipal Council.

CITY OF ENDERBY

Voting on Proposed Waterworks Loan By-Law: Public Notice is hereby given to the Electors of the Municipality of the City of Enderby, that I require the presence of the said Electors at the Court House, Enderby, on Tuesday the 24th day of July, 1906, between the hours of 9 a.m. and 7 p.m., for the purpose of recording their votes, either to confirm or to negative a certain proposed By-law, to wit:

A By-law for raising the sum of $18,000.00, to provide for the construction of a waterworks system in the City of Enderby.

Any person, male or female, being a British subject, and the assessed owner of land or real property within the Municipality, is entitled to vote on such proposed By-law.

Given under my hand this 13th day of July, 1906.

GRAHAN ROSOMAN,
Returning Officer.

Ye Editor, returned from a visit to Edmonton on Thursday morning, and is getting into harness again, which does not seem to exactly fit.

The night crew at the sawmill have been paid off, and the management will only run in the daytime.

Walter Mack returned home on Wednesday from a visit to his old home in Ontario.
