Bear Us in Mind **Tell Your Friends about Us**

NOTICE.—Cut Prices are for CASH ONLY. Goods charged on account will be charged at full prices.

Enderby Drug & Stationery Co., Limited.

TOWN & DISTRICT . NOTES .

Monday, Sept. 2 is Labor Day, and a statute holiday.

Mrs. E. C. Simmons and family, of Vernon, are visiting Mr. and Mrs. B. Gardom.

J. H. Mohr has severed his connection with the Vernon News, and is now getting his hand in at farming once again.

T. Richardson, accompanied by his wife and family, returned on Friday last from a combined business and pleasure trip into Oregon.

F. C. Bowman went to Kelowna on Wednesday for a short visit.

Miss A. Anderson of Minneapolis is visiting her niece, Mrs. H. N. Hendrickson.

Mrs. Dr Verner and her daughter Erminie returned on Thursday from Toronto where they spent the summer.

Ye Editors, accompanied by F. C. Bowman, have decided to take a holiday on Shuswap Lake—out of the jurisdiction of the Okanagan close season, and will be away a week or ten days. During our absence, J. H. Mohr will be the man at the helm of the Progress.

City Foreman Grevell has been busy superintending the filling in of Maud street and the laying of some new side walks in different parts of the town. The appearance of Maud street has been greatly improved by this filling in. It is costly work, however, and when finished there will not be much to show for the money it will take.

D. A. Wright and family leave for Southern Alberta, says the Armstrong Advertiser, on the first of the month. Mr. Wright has taken up 320 acres of land 14 miles southwest of Calgary. Mr. Wright has a number of friends in this locality who will wish for him the best of good fortune in his new home.

During the past week L. Cumming has put through, two more real estate deals, and has also others pending. H. Douglas has purchased a house and lot on Knight street from Ira C. Jones; and A. G. Avery a twenty-eight acre lot of the Bell property north of the city limits. The price paid for the latter was $40 an acre. Mr. Avery intends to erect a dwelling and in other ways improve the land.

In addition to the trophies and prizes announced last week for the Okanagan Rifle Association's annual meeting on Sept. 2nd and 3rd, several others have been donated, which are as follows: By Duncan Ross M.P., a challenge cup, to be won three times, for a match to be known as the "Duncan Ross Match," ranges 200, 500, and 600 yards, open to all comers; association conditions as to rifles. As well as the cup, there will be nine other prizes. Entrance fee 75 cents. S. M. McGuire of Salmon Arm has presented a handsome carving set; W. J. Linton, a beautiful cut glass water bottle, and R. A. Simmons, a cut glass bon bon dish.

Since organization, the Enderby branch of the B. C. Fruit Growers' Association have held several profitable meetings. Especially so was the last one, held at the residence of the president, Mr. G. R. Lawes. All those present profited by the experience and experiments of one another, more particularly in the direction of finding the varieties of apples and other fruit most suited to the soil and climate of the district.

Rain and sunshine alternatively describes the weather in brief during the past week.

The site for the Consumptive Sanitarium at Tranquille has been taken over by the Anti-Tuberculosis Society, and it is announced that within six weeks' time patients will be received at temporary quarters.

Next Monday being a legal holiday, the barber will take to the woods with his gun, and the barber shop will be closed from Saturday night until Tuesday noon.

Enderby and district got some free advertising last week to the extent of a three column write up in the Vernon News of an interview by a representative of that paper with Mayor Bell.

Miss K. F. Wade, who has been visiting her sister, Mrs. Wm. Fraser, for some time, left on Friday for Salmon Arm, where she has accepted a position as teacher.

Road-Foreman Fenton pulled out for the Salmon Arm road—the next scene of his labors—on Monday.

F. Burnet went to Kamloops on Tuesday on business.

School opens on Tuesday next, September 3. H. McDonald retains his position as principal, and Miss Beattie will have charge of the second room. With the extra room now provided, a third room, for the youngest children, will be added. This room will be in charge of Mrs. Harlow, from Vancouver, a teacher who comes very highly recommended, and who has had much experience with small children.

Efforts are still being made towards the establishment of a high school in town; and though the Education Department at Victoria are not in favor of it, they have not refused the application of the trustees, who are very sanguine of success. When the officials say they will give the per capita grant, it will be established, as all other details in regard to it, we are informed, have been settled.

Any of our citizens who wish to observe a real live comet with, the usual appendage of a fiery tail, must turn out about 3 or 3.30 a.m. when the sky is clear. It can then be seen with the naked eye on the eastern horizon, near the morning star. The comet is of unusual size, with a tail that appears to be about 200 yards in length, and emits bright flashes. The comet was first discoved by Professor Daniels at the Princeton Observatory, on June 8, and it has been sweeping earthwards at the astounding rate of a million miles a day. It will reach its nearest point to the earth on September 3rd, when it will be 47 million miles away.

We understand that H. E. Waby, of Holmfield, Man., son of F. Waby, of the Salmon Arm road, anticipates moving to Enderby at an early date. Mr. Waby, who has disposed of his property in Manitoba, has been carrying on the successful breeding of high-class poultry, registered red-polled cattle, and carriage horses. At the recent Winnipeg exhibition he carried off the following prizes: Red Polls, 1st for aged cows; Grand Championship for best cow, any age; 3rd for bull calf; 2nd and 3rd in the three days' milking contest against all dairy breeds; 1st for two-year carriage filly; Grand Championship Silver Medal for best carriage mare, any age; as well as taking a large number of prizes in the poultry division. He intends bringing a large stock of high class poultry with him, as well as a car of cattle and horses. Mr. Waby expects to be in Enderby this fall, and will embark in pure bred stock and poultry raising.

A Startling Assertion

On the no less authority of the guards themselves, it is claimed that when Bill Miner concluded his vacation at the New Westminster penitentiary, he did not walk away with bare face and clipped head, the distinguishing marks of a convict, but with hair over an inch long and a moustache of several months' growth. At least, so says the New Westminster News.

Why Bill Miner was favored, concludes the News, with the privilege of growing a moustache for months before he escaped from the pen is not clear to the average person, in view of the fact that it is the established custom in penitentiaries to keep convicts cleanly shaved and closely cropped during the term of their confinement.

PRAIRIE CROPS

Reports from various sections of the wheat belt are generally favorable, and very little damage from frost reported. Though a number of farmers have already commenced cutting, harvesting operations will not be general for fully another week. Grainmen who have visited various parts of the country say the crop is fairly good, but will ripen unevenly, and that considerable of the late stuff will be caught by early September frosts.

In Alberta the crops are ripening in great shape and the yield will undoubtedly be a record one. By the end of the week there might be, at a conservative estimate given by experts, over 250,000 acres cut which will average over thirty bushels to the acre.

W. McKay, of Salmon Arm, was in town over Thursday night.

Mr. Peel, father of R. Peel, of the the Enderby Trading Company, Ltd., left for his home in Paris, Ont., after a short visit to Enderby.

A convention of the Liberal Party in British Columbia will be held in Perder Hall, Vancouver, commencing Tuesday, Oct. 1.

It is said that agents of the Canadian Northern Railway have entered into negotiations with the Tsempsian Indians for the purchase of the reserve at Port Simpson. The Canadian Northern will make this their Pacific terminus, the price demanded for the waterfront being $1,000,000.

City Clerk Rosoman is enjoying a holiday visiting Okanagan lake points. The City office is closed, and will remain so until September 3.

Fair time is drawing near, and our farmers should be getting their exhibits planned, so that Enderby and district will make a good showing. It would be a gratifying thing if a concerted move were to be made in this direction.

Usually at this time of the year the air is heavy with smoke from bush fire, but this unpleasant summer feature is almost entirely absent this year. No fires of any consequence have been able to obtain a foothold yet, this being due to the late wet spring and summer. For the same reason the hillsides are still very green, and as yet one can scarcely discern and autumn tint.

The passenger train on this branch was stalled here on Wednesday till past three o'clock in the afternoon on account of the tender of the engine leaving the rails, while returning light from the water tank. The accident happened about opposite the sawmill office, and was due to a defective guard rail; and the derailed locomotive was in such a position that it completed blocked the line. Luckily the freight train was here, and with the help of the section gang, No. 92 was got on the track again. Beyond twisting a rail and disturbing the permanent way to some extent, no damage was done.

Notes and Comments

FROM the report of the address delivered at Salmon Arm by Hon. Frank Oliver, the deduction can only be drawn that matters concerning the administration of the Railway Belt in this Province are in a more or less chaotic state. If such is the case, considering the many interests at stake, and the way in which development in many sections of the Province is being retarded, it is surely up to both the Federal and Provincial authorities, and the timber limit holders, to call a truce, and make a hearty effort to come to an equable and lasting agreement. No one, it seems, can be blamed for the condition of things, it appearing on the surface to be due to the ignorance of the possibilities of this part of the Dominion. But this ignorance can now no longer exist, and the questions now outstanding call for an immediate and fair adjustment.

NEWSPAPERS throughout America have been discussing the incident at Butte, Montana, where for thirty-nine days the newspapers suspended publication owing to labor troubles. The aspect which has chiefly appealed to them, however, was the effect on the trade of Butte caused by the stoppage of newspaper advertising. It appears that the Butte merchants turned to the use of bill-posting, hand bills, and circular letters to bring their offerings before the public, and that the result was almost disastrous.

Theaters lost their patronage, stores were empty of customers, manufacturers and wholesalers felt the drop in trade. Even the stock exchange was affected, as investors and speculators refused to credit the information given by the circulars issued, which necessarily lacked the guarantee afforded by a reputable daily.

The episode conclusively proved the immense superiority of newspapers over other forms of advertising, but that was by no means its most interesting feature. From a sociological standpoint the effect on the public was remarkable. The absence of reliable information as to passing events caused all sorts of trouble in Butte at the time.

AN idea for the setting forth of the products of this district to strangers travelling up and down the valley has been suggested to us, as a means of inducing perhaps some of these landseekers to stop off here, instead, as they invariably do, of going right through. The suggestion is that a show case be erected on the C. P. R. station, in which to place on exhibition samples of the products of the land in this vicinity. Such an exhibition of the fruit grown around Enderby would show those travelling up and down the line the capabilities of this country in an undisputable and most convincing a manner. It is a well-known fact that the majority, from the glimpses they get of the country from the car windows, think that there is no farming land, or very little, between here and Sicamous; which fact is, no doubt, the reason why many do not stop off. While one may be sure that the real estate agents of places to the south do not try to change that opinion. Many of the country towns throughout Washington successfully carry out such a scheme, and if it is a profitable proceeding for them, why not for Enderby?

"As others see us" is surely the best way of "seeing ourselves," and peradventure some of our business men and readers generally have considered that we have over-drawn Enderby's need of advertising, we reproduce the following from last week's issue of the Vernon News:

"It is time that Enderby should wake up to the necessity for placing its claims as a place for settlement more forcibly before the public. At present much of the greater part of the tide of settlement passes south, attracted by the advertising which our sister towns understand so well how to make effective. Some of our enterprising citizens and business men should get together and form a Board of Trade, Two Thousand Club, or similar body, to undertake a systematic campaign of publicity. Enterprise and organization will pay.

Dates of District Fairs

Changes having recently been made in the dates of some of the provincial exhibitions, we give a revised list of those of interest to this district.

Kelowna Exhibition, Kelowna, Sept. 19 and 20.

Kamloops Exhibition, Kamloops, Sept. 19, 20, 21.

Armstrong Exhibition, Armstrong, Sept. 24 and 25.

Vernon Exhibition, Vernon, Sept. 16, 17, 18.

Salmon Arm Exhibition, Salmon Arm, Sept. 26 and 27.

Victoria Exhibition, Victoria, Sept. 24, 25, 26, 27 and 28.

Provincial Exhibition, New Westminster, Oct. 1, 2, 3, 4, 5.

English Lady's Saddle

For sale in first class order; patent safety stirrup and all appurtenants complete. Price $25.00. Can be seen at PROGRESS Office.

McClary's Magnet Furnace

The man who has been provoked well-nigh to desperation when trying to squeeze fuel through the ridiculously small opening provided on common furnaces will appreciate to the greatest extent the advantages of the generous feed-door of the "Magnet."

It's the entire width of the fire-box, and very deep. Large enough to easily admit big, rough chunks of wood, that would otherwise either have to be chopped up or wasted.

And this feature is only one of the many possessed by the "MAGNET" —the furnace built on sound, sensible lines.

Built for wood, but will also burn coal.

Sold by enterprising dealers everywhere

Heart Strength

Heart Strength, or Heart Weakness means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have their own controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone devoted to these weak and wasting nerve centers. It builds, it strengthens, it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strongthen these nerves—reconstitute them as needed, with

Dr. Shoop's Restorative

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father, or mother, if the father is deceased, of the homesteader, resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1.00 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

SALMON ARM

Weekly Budget of Interesting News and Doings of that Thriving District, from our Regular Correspondent.

Mr. and Mrs. Killough of Winnipeg, who have been touring the Western States and B. C. spent a few days this week with Mr. and Mrs. Neelands.

Miss. Cannel of Victoria has been visiting with Mrs. McLean for the past few days while on her way to the Old Country.

W. Allen of Enderby has moved into his new home on the new townsite.

Work has commenced on the new Methodist Church Jackson & Parker have been awarded the contract and they intend finishing the building before winter sets in.

Monteith & Thompson are erecting four houses on the new townsite for renting purposes.

Mr and Mrs. Wilcox were visitors to Kelowna and Summerland last week.

Mr. Savage of Vancouver who has been spending a short holiday with his daughter Mrs. McGregor, returned to his home on Tuesday.

F. W. Clingan of Virden, Man. was a business visitor in town last week.

Mr. and Mrs. Harper left for Vancouver on Thursday. They intend spending a few days taking in the different places of interest at the coast.

We are pleased to learn that Salmon Arm is to have a new school. It has been decided to build a four-roomed building, and work will be commenced on it as soon as the final arrangements have been completed. The trustees have been very busily engaged hunting up a suitable site and have at last secured four acres of land at the rear of the McGuire townsite annex.

Mr. and Mrs. Barber of Winnipeg spent Saturday of last week with the Drone's while on their way to the coast.

Neelands & Weddie have completed their new store and are putting in a complete stock of hardware. It is a neat little place of business which will no doubt add very materially to the business prestige of our town.

Miss Wade arrived on Saturday morning from Enderby to take charge of the town school

Tenders are being called for the construction of a four-roomed frame school house at Salmon Arm east, and for the construction of a large one-roomed school house at Canoe Creek.

Schools in the municipality open on Monday next after the summer vacation. The teachers engaged are; Miss B. Marshall, Silver Creek, Miss S. Matheson, Salmon Arm East, Miss M. Daykin Canoe Creek, Miss McEwen, Salmon Arm West, and Miss K. F. Wade, Salmon Arm.

Free Samples of "Preventics" and a booklet on Colds will be gladly mailed you, on request, by Dr. Shoop, Racine, Wis. simply to prove merit. Preventics are little Candy Cold Cure tablets. No Quinine, no Laxative, nothing harmful whatever. Preventics prevent colds—as the name implies—when taken early, or at the "Sneeze Stage". For a seated cold or La Grippe, break it up safely and quickly with Preventics. Sold by Enderby Drug & Stationery Co.

Home Circle

Many a man is rich without money. Thousands of them with nothing in their pockets, and thousands without even a pocket, are rich. A man born with a good constitution, a good stomach, a good heart and good limbs and a pretty good head-piece, is rich. Good bones are better than gold, tough muscles than silver, and nerves that flash fire and carry energy to every function, are better than houses and land. It is better than landed estate to have had the right kind of a father and mother. Good breeds and bad breeds exist among men as really as among cattle and horses. Education may do much to check evil tendencies, or to develop good ones, but it is a good thing to inherit the right proportion of faculties to start with. That man is rich who has a flavor of wit and fun in his composition. The hardest thing to get along with in this life is a man's own self. A cross, selfish fellow, a desponding and complaining fellow, a timid, care-burdened man, these are all born deformed on the inside. Their feet may not limp, but their thoughts do. A man of fortune on the brink of the grave would gladly part with every dollar to obtain a longer lease of life.

Count no expense loss that makes the home more delightful.

We are happy in this world just in proportion as we make others happy.

When the last word is likely to be an unkind one, let some one else say it.

Marriage seems never so much a failure to a man as when something goes wrong at home that he can't possibly blame his wife for.

The kind of religion that tells in the long run is the kind that never howls and growls because there is no puddling on wash day.

Some men say they are perfectly willing to spend their whole lives in making their wives happy, but they don't spend any money for the same purpose.

The housewife who at night raises the shades of her prettily furnished parlor, that the world in passing may catch a glimpse of the happy picture within, does a good work for civilization.

We never have more than we can bear. The present hour we are always able to endure. As our day, so is our strength. If the trials of many years were gathered into one they would overwhelm us; therefore, in pity to our little strength, He sends first one, then another, then removes both, and lays a third, heavier, perhaps, than either, but all is so wisely measured to our strength that the bruised weed is never broken. We do not look enough at our trials in this continuous and successive view. Each one is sent to teach us something, and altogether they have a lesson which is beyond the power of any to teach alone.

IF IT'S IN OUR AD.—IT IS SO WE AIM TO PLEASE EVERY PURCHASER

BE OPTIMISTIC

Keep Cheerful--Be Sunny!

Things are moving These Days

Salmon Arm is Going Ahead SO ARE WE!

McCallum & Wilcox, SALMON ARM

Let me mail you free, to prove merit samples of my Dr. Shoop's Restoration and my book on either Dyspepsia, the Heart, or the Kidneys. Address me Dr. Shoop, Racine, Wis. Troubles of the stomach, heart or kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—the inside nerves—means stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now Dr. Shoop's Restorative sold by Enderby Drug and Stationery Co.

Flour Mill Improvements

In order to cope successfully and economically with the fast increasing trade coming the way of the Columbia Flouring Mills Co. Ltd., the management have planned many improvements to the equipment of the mill, some of which are now under way. When all these improvements have been made the capacity will have been increased to 400 barrels per 24 hours.

These improvements include the installation of new bolters, a new wheat elevator, a large receiving separator and a power shovel. The latter device will make it possible to empty a car loaded with wheat in five minutes. A car-puller with a capacity of fifteen cars completes the list.

In many ways the machinery of the mill is being re-arranged, and when all the contemplated improvements have been made, Enderby will have as up to date and model flour mill as can be found throughout the country.

Kamloops to Yellowhead Pass

Private word from Montreal, via Winnipeg, says the Kamloops Standard, conveys information fraught with significance to Kamloops. The directorate of the Canadian Pacific Railway Company, so our informant writes, has definitely decided upon the immediate construction of the road via the North Thompson from Kamloops to Edmonton. The matter, we are told, is now in the hands of Mr. Marpole as general executive assistant, and he is preparing the necessary information and data to place before Sir Thomas Shaughnessey and some of the directors, who will accompany the president on a trip west within the next few weeks. The officials will be here sometime about the middle of September if the plans now made are not interfered with by unforeseen circumstances. This decision has been forced upon the board by the movements of other lines who are casting eyes upon this, the natural route for a connecting link between the northern transcontinental routes and the southern part of British Columbia. This road will open up a stretch of country rich in agricultural possibilities, mineral and timber wealth.

About Codling Moth

James Fletcher, Dominion Entomologist, when in Kamloops a short while ago, said that every effort should be put forth to control the pest.

He suggests to all fruit growers the advisability of supplementing the work done in spraying the trees by adopting the other standard remedy for the codling moth, namely, bandaging the tree at once with strips of burlap, sacking or other cheap material, so as to provide a place for the caterpillars to spin their cocoons in after these fall to the ground. The bands should be put on at once. Take a strip of course sacking of sufficient length to go around the tree, fold it once in the middle, then tie to the tree by passing a piece of twine around the middle outside in such a way that the string can be untied easily; then fold the top portion of the band over the string, forming a double folded band around the tree. The caterpillars will resort to these bands to spin their cocoons and the bands should be taken off once a week and the insects destroyed, which may be easily done by crushing them or by dropping into scalding water.

If the trees are not bandaged, at any rate all the fallen apples from beneath the trees should be picked up and destroyed or fed to pigs and other stock.

At Preston, Kansas, where everything is up to date, and the people are always planning something new, a shocking thing happened. One of the popular society women announced a "white elephant party." Every guest was to bring something that she could not find any use for, and yet too good to throw away. The party would have been a great success but for the unlooked for development which broke it up. Eleven of the nineteen women brought their husbands.
