Dear Mr. Leeman :

It was good of you to send me a copy of Dr. Odlum's letter. I am glad to be assured that she agrees that I did my best "to leave so much of it in its original form." After all, what are a few almoners and hyphens between friends? This is an excellent text, remarkably free from gobbledegook, and I am proud to have had a hand in it.

If I can be of any further help, please let me know.

With kindest regards,

very sincerely yours

Ethel Johns
