January 27, 1948

Dear Miss Wolf,

The enclosed copy of my letter to Mrs McVicar will explain why you haven't heard from me sooner regarding the exact date of my arrival in Baltimore.

It was an immense relief to learn today that the acute stage of the CNA project is over and that I can feel free from responsibility in that connection for some time to come. Now I can really concentrate on the plans which the Alumnae Association has in mind.

Have you any preference regarding the exact date on which I am to arrive at the Hospital? As you will see, I have faithfully promised to be at Mrs McVicar's disposal on Monday, February 16. During the intervening days I hope to get everything cleared up at this end.

With kind regards,

yours very sincerely

Ethel Johns
