CANADA AND BRAZIL.

A letter from Rio Janeiro, published in *La Mine ve*, states that the Brazilian Government is d sposed to enter into commercial arrangements with Canada; that it will consent to a l the commissioners asked of it, provided some equivalent be given in return. There is one passing difficulty that will render it difficult for Brazil to make any agreement, involving a loss of revenue. The war wi h Paraguay has proved such a strain upon its finances that, for the moment, it has need of all it can o tain. But it is thought that this obstacle is not so serious that it may not be got over, with some difficulty.

What can we send to Brazil? It is not certain that our flour can be made suitable for the climate; to render it so, if that be possible, will require some new mode of manufacture. And here it may be pertinent to remark that the indifferent barrels which are now too often made, must, if not discarded for better ones, soon injure the reputation of our flour in all the markets of the world. The loss of flour, owing to the inferior barrels often used, must be enormous, when they are rolled on a wharf the flour exudes between every s ave, and the loss from shaking in railway cars must be very great. The exposure of the flour to dirt is another source of damage. In nothing so much as the flour barrels of these modern days is a reform wanting. If we are to send flour to hot climates it must be well secured. Of the products of our forests the Brazilians receive considerable supplies; but they receive them through the Americans, for whom they have a settled and deep rooted dislike. Why should we not take this trade into our own hands? We have abundance of vessels and means of every sort for doing it; and even in the absence of a treaty there is no reason why it should not be done. For cured fish all the South American States are good customers, and British America can supply in greater abundance than any other country in the world. There is no reason why a large trade should not spring up between Canada and other countries.

THE COBOURG FAMILY.—During the last fifty years this family have been noted for their good luck. Prince Leopold of Saxe Cobourg, whose whole income was a shabby three hundred pounds a year, married the heiress of the British throne in 1816; dropped into a life pension of fifty thousand pounds for life, on her death in 1817; was chosen King of Greece in 1830, but declined; became King of Belgium in 1831, and reigned for twenty five years with great success. His sister, a poor widow, though a 'born princess,' married one of the English royal dukes, and their only surviving child now occupies the British throne; her daughter will one day be Queen of Prussia; another of the Cobourg family married a daughter of Louis Philippe of France. Yet another is father of the present King of Portugal. Leopold's eldest son espoused an austrian archduchess and his only daughter is Empress of Mexico.

FASHIONABLE AUTHORSHIP.—Authorship has become fashionable in the courts of Europe. The London *Review* says: It is tolerably well known that our Queen has been for some time engaged upon a series of compositions—of the essay form, we believe—which are to be published, or at least privately printed, when her Majesty shall deem them sufficiently complete. The Crown Prince of Prussia is engaged upon a history of the 'Electoral Princes of Brandenburg.' The ex King of Greece (Otho of Bavaria) is translating the Iliad of Homer, and his father, Louis, ex-king of Bavaria, is at Nice giving the last touches to a new volume of poems. King John of Saxony has just issued the third and last volume of Dante's 'Divina Commedia,' translated by himself into German. The literary labors of the Emperor and Empress of the French have been subjects for conversation and criticism for a long time; and only a week ago we mentioned the fact that Omar Pacha is busy writing a 'Life of Alexander the Great.'

A PHILOSOPHER ON HIS LEGS.—Mr. Mill has mended his delivery since the beginning of the session as regards articulation and gesture. One could have heard a pin drop from the beginning to the end of his remarkable address. The first time his memory failed to furnish him with the connecting thread of his argument he stood mute and motionless, with head declined and eyes fixed upon the ground waiting the restoration of continuity in the current of his thoughts. There was a general manifestation of surprise and sympathy throughout the House highly creditable to the generous and gentlemanly character of that great assembly. Twice again the unaccustomed lips of the philosopher suddenly ceased to move, and again the same forbearance and good feeling showed themselves. His speech was, no doubt, like that of Sir Bulwer Lytton, committed to memory; and in neither case could the speaker conceal the faltering effect of the effort to repeat sentence by sentence the careful composition.—*London Letter.*

THE VALUE OF LONDON PROPERTY.—As indicating the value of the property at the west end of London, it may be stated that the family residence of the late Lord Willoughby de Eresby, situate No. 142, Piccadilly, between Hamilton place and Hyde Park, commanding views of the Green Park and Constitution hill, with stabling in Hamilton Mews, held on lease from the crown for the present term of forty years, at a low ground rent, was disposed of the other day, by order of the trustees, for the large sum of £24,700, the tenant's fixtures to be taken by the purchaser of the lease; these fetched £550 in addition.

THURSDAY EVENING, JULY 5, 1866.

THE FOURTH OF JULY.

There is a science in keeping a holiday, just as there is in getting up a dinner or computing the distances or magnitude of heavenly bodies. There is something in knowing how to keep the spirits of any number of people collected together for a day's amusement from flagging. It is no mean capacity that manages to vary the pastime or change the scene, so that the body as well as the mind never gets fagged—to bring in fact one amusement or occupation to relieve another. We do not wish to be complimentary, but we think the citizens of Victoria, thanks no doubt in a great measure to the natural facilities which surround the place, possess this holiday-making faculty to an eminent degree. It would be difficult, indeed, to find a community anywhere that enters into the matter with greater zest or more liberality of sentiment. The citizen of London "spreads" himself on the 24th of May, but he has little sympathy for the 4th of July; and the New Yorker revels in oratory and sky-rockets on the anniversary of "Independence Day," but looks askance at the Birthday of Queen Victoria. Here, however, the narrowness of London and New York finds no place. We keep both holidays and a dozen more. We cannot say, indeed, whether our cosmopolitan spirit may not lead us in the future to enter into French and German festival days with the same spirit, and carry us ultimately to pic-nics and pyrotechnics during the Chinese New Year; but we can say that national prejudice is every day finding smaller foothold on Vancouver Island. The American vies with the Englishman in keeping English holidays, and the Englishman is no way behind his Republican brother in celebrating the great day that sprung from '76. Indeed the Fourth of July would appear to a stranger the best kept holiday of the whole year, and it is the best kept, not because there is any preponderating American element in the place, for the contrary is the fact, but because the anniversary of the Independence of the United States is a day full of meaning and of sublime thoughts to men of every country. It is one of the necessities of our being, to be guided by example and affected by the actions of others, and nothing, we believe, in the whole range of history has made so deep an impression on civilized man as the celebrated declaration of independance on that memorable Fourth of July, nearly a century ago. France felt it and feels it; the liberty loving Englishman is by it brought nearer and nearer his enlightened goal; Germany, and even Russia are under its benignant influence, and the little better than half civilized republics of South America are gradually emerging through its aid to the capacity for self-government. The Fourth of July should be a universal holiday, or at least a holiday wherever man is capable of appreciating the blessings of liberty. It is a day that belongs not to the Americans but to the whole human family—a day in which the intelligent and unprejudiced Englishman sees as much to admire and appreciate as the most patriotic citizen of the United States. That the anniversary of the declaration of self-government on the American Continent was kept by all of our citizens yesterday in a joyous manner is a credit to the intelligence as well as liberality of sentiment of the inhabitants of Vancouver Island.

WESLEYAN SABBATH SCHOOL PIC-NIC.—The Annual Pic-nic of this School came off yesterday, being in every sense a most delightful reunion of parents, friends, teachers and scholars. Forming in procession at the church they halted while Mr. Shakspeare obtained a successful photograph of the whole group, and this done they marched to the place of rendezvous, where what with eating and drinking and innocent recreation they spent a right royal enjoyable day. The School, we learn, was never in better trim than at present, and we wish it and every kindred association the most perfect success.

ODDFELLOW'S ELECTION.—The following officers were elected on Monday evening for Victoria Lodge I. O. O. F.: E. C. Holden, N. G.; Jacob Sebi, V. G; Chas. Hegele, R. S.; Thos. Hammond, P. S; E. R. Thomas, Treasurer, (re-elected.)

FOR PORTLAND.—The steamer Fideliter sailed for Portland this morning at half-past ten o'clock, with 25 passengers and freight as follows: 10 tons pig iron, 5 tons scrap do, 5 tons rod do., 5 bales burlaps, 12 casks spirits, 4 do. ale.

Evening Telegraph.

THURSDAY EVENING, JULY 5, 1866.

The Fourth in Washington Territory.

We are requested to publish the following account of the popular festivities at Swinomish on the Fourth, received by telegraph here this morning:

SWINOMISH, July 5th.

The ninetieth anniversary of our national birthday, which was celebrated by the citizens of Island County, W. T., at Coupeville, Whidby Island, was a day which will long be remembered by those who participated in its festivities.

Early in the morning parties of ladies, gentlemen, and children, some on horseback and in carriages and others on foot, might have been seen wending their way from different parts of the island to an elevation of land which overlooks a beautiful little valley known as Eby's Prairie—a spot which had been selected for a pic-nic, and on which at 10 o'clock a. m. a large number had congregated to the amount of four hundred.

The Rev. Mr. Todd was present and opened the exercises with prayer. The Declaration of Independence was read by N. D. Hill, Esq., after which J. K. Kennedy delivered an oration, which was listened to with marked attention by all present and which was worthy of great praise. The good things were next brought forward by the ladies. We shall not here attempt to enter into detail as to quantity or quality, but suffice it to say that it was of a superior quality, and as to quantity, after the hungry multitude had feasted many baskets of fragments remained.

The whole affair was under the special direction of the Island County Temperance Society, and it reflected much credit for the orderly manner in which it was conducted. The ball in the evening at Alexander's Hall was a splendid affair. It was largely attended and all were well satisfied that their share of tripping the light fantastic to the sound of the violin was at least realized. The whole affair was a success, and we have the satisfaction at least of having celebrated one Fourth of July without that curse of humanity, intoxicating liquor.

CELEBRATION OF THE FOURTH.—Yesterday was very generally observed as a holiday by all classes of the community. The Victoria Arm was thronged all day with boats, and its shores were thickly dotted with merry picnic groups, while many other spots in our picturesque vicinity were similarly occupied. The excursion to San Juan carried off some 500 eager pleasure-seekers, who, however, were doomed to meet with disappointment, as, apparently through some misunderstanding, their reception was anything but cordial by the officers of the garrison. The party on landing ascertained that the settlers had looked eagerly for their coming, and had raised some $200 to provide sports for the occasion, but the programme was put a stop to by Captain Gray, the officer in command, who forbade the sports, and gave the excursionists indirectly to understand that their presence was not agreeable to him. The consequence was that the harmony of the party was destroyed and although they endeavored to accommodate themselves to the circumstances, a general feeling of discomfort and dissatisfaction prevailed. It is stated that Captain Gray had never been notified of the excursion, but whether that be the case, he might at least have treated the party with civility, considering the occasion, and the fact that a majority of the excursionists were probably his own countrymen. The conduct of the officers of the British garrison on the Queen's Birthday might have been imitated with advantage by Capt. Gray and his company.

GOOD NEWS FROM GROUSE CREEK—We have been permitted to make the following extracts from a letter received by a gentleman here from a shareholder in the Ne'er do Well Co., Grouse Creek:

* * * * Four of us own 640 feet in the claim, which adjoins the Discovery claim, we got out pay three weeks ago, and it looks splendid. I judge it to be good for $50 per day to the interest for the next three years; it has paid that already, and is a splendid, well-defined back channel. Everything is very lively on the creek; new house are going up all round, and quite a village is springing up in front of our claim. Andrew Kelly is starting a bakery and restaurant, board being $16 per week.

P.S.—Last night we tried a pan and got sixty-eight dollars.

Yours truly, M.

MR. ZINN begs to announce to the inhabitants of Victoria that he has lately received a large assortment of Children's Carriages and Chairs, Fishing Baskets and Fishing Canes, and a large quantity of Market and Travelling Baskets, China Vases, Fancy Goods and Toys, all of which have to be sold on or before February next at greatly reduced prices. Goods sold at wholesale for cost prices. *

THE NOVELTIES in the Silk trade this season are the beautiful Gros de Suez, Gros de Londres, and Gros de Pekin. A choice lot of these are for sale at the LONDON HOUSE; also a splendid stock of Black Gros Grains and Glaces, from three-quarters to a yard and a quarter wide, bought before the advance in the silk market. *

REMOVAL.—Mr. Hibben requests us to state that he is now removing his bookstore from the old stand, corner of Yates and Langley streets, to the fine new premises in the Masonic Buildings, Government street, where he will open in a day or two. *

FROM PUGET SOUND.—The schooner Growler, Captain Williams, arrived on Tuesday night with 28 m feet lumber, 28 sheep, and 200 bushels barley.

REMOVAL.—Andrew Robertson, merchant tailor, of Government street, has removed his establishment across the street to the store just vacated by Waitt's book store.

TELEGRAPHIC.

SPECIAL TO THE EVENING TELEGRAPH.

Highly Important News.

Proposition in Congress to annex North American Provinces, including British Columbia—Revolution impending in Chile—War declared by Prussia and Italy against Austria - Saxony entered and overran by the Prussians — Threatened dissolution of the English Ministry.

LEAVENWORTH, July 2.—Senator James H. Lane shot himself through the head last evening in this city and died to-day.

WASHINGTON, July 2.—In the House Mr. Banks introduced a bill establishing conditions for the admission of Nova Scotia, New Brunswick, Canada East, and Canada West into the Union as States, and for the organization of the territories of Selkirk, Saskatchewan and Columbia by proclamation by the President, whenever a notice is deposited in the Department of State that the Government of Great Britain and provinces have accepted the propositions made in the second section which are to assume the provincial debt, including ten millions to the Hudson Bay Company.

NEW YORK, June 22.—The *Post's* money article says European news had little effect in Wall street, except to give an upward tendency to gold. The Bank statement shows an increase in loans to two and a half millions, and decrease of specie seven hundred thousand, an increase in deposits of two and one-third millions, increase of legal tenders one million dollars.

NEW YORK, July 2.—The Northern Light arrived with San Francisco dates to the 10th, and Panama to the 22d. Business was brisk on the South American Coast since the departure of the Spanish fleet, whose destination is not known All the other republics of South America were driving away the Spanish residents. Congress met at San Diego on the 1st. President Persi's message was received with hisses; revolution is waiting for a favorable opportunity to burst forth among the Chilleans. Valparaiso is being strongly fortified.

NEW YORK, July 2.—Steamer Bremen, from Southampton, 20th, has arrived.

Prussia on the 18th, formally declared war against Austria; Italy also the same day declared war. Entrance of Prussians into Saxony was preceded by formal declaration war against the kingdom King of Saxony responded, by proclamation, to his faithful people, and left Dresden to join the army in Bohemia.

It is rumored that Saxony has effected a junction with the Austrians, and that the Prussians occupied Dresden and have over-run the entire kingdom, and are rushing to Bohemia.

The Austrians had made a demonstration on the Selesian frontier, near Neisse, and the entry of the Austrians into Saxony was hourly expected.

King of Hanover had joined the army at Gattingon.

NEW YORK, July 2—The City of Boston brings dates to the 21st: No serious collision has yet taken place in Germany.

The Ministerial crisis in England was believed would end in the resignation of the ministers and the dissolution of Parliament.

Last Night's Despatches.

QUESNELLEMOUTH, July 3.—The *Sentinel* of June 28th, says:—The Petty Court was held on the 22d. Ah Sue was charged by H. H. Margesson with having in his possession a special receipt from the Bank of British North America for $750, which was lost or stolen on Saturday, the 16th, from complainant. After being locked up 24 hours the friends of the prisoner brought the pocket book and papers, and delivered them up. The prisoner was cautioned and dismissed.

Some Chinamen were arrested on suspicion of having robbed the sluices of the Chittenden Mining Co., on Lowhee Creek.

The surplus fund remaining in the hands of the committee who collected the subscription for the testimonial to Judge Cox, amounting to $227 50, was generously bestowed on the Sisters of Charity of Victoria, and sent by last express to be applied towards the maintenance of two children of Mr. Winnard, sent from here to their care, over a year ago.

The *Sentinel* of July 2d, says:—

While a man named John Garrison was crossing a log, on Friday last, at Grouse Creek, his foot slipped and he fell on a sharp limb of a tree, receiving a very severe cut on the arm.

A man named John Chisholm, while at work in the Cayote and Crane claim, on Saturday last, had his leg badly bruised by the caving in of a bank.

On the same day another man named John Muir, in the Vaughan-Sweeny claim, marvelously escaped being killed by a similar cave.

Mr Lee, who had his leg broken near the Blue Tent House, two months ago, got in on Saturday.

Since our last visit to Grouse creek the population has increased from 100 to 240 and claims that were then only being prospected are now yielding large returns.—All this has happened within a month. Within the last eight days the excitement has increased in consequence of some new developments, and the creek has been staked off for two or three miles.

It is the opinion of miners well acquainted with the country that the lead will continue straight into Antler creek. This creek supplies a desideratum which has long been wanting in the country, viz., the mines are easy of access to those of limited means. The Discovery Co. are taking out their usual pay—3 or 4 ozs. a day to the hand.

There are 11 or 12 companies at work on this creek, some of whom are taking out good pay.

During the past week there has been a very perceptible increase in the yield of gold from the various claims on Williams creek, which is likely to continue throughout the season. The Aurora Company washed up on Thursday 219 ounces, and yesterday 350 ounces. The Davis Co. washed up for the week about 387 ounces. These amounts—being 1085 ounces—are out of the disputed ground, and will be divided between the two companies.

The Never Sweat Co. washed out for the week $800. They are just getting into pay.

QUESNELLEMOUTH, July 3—Still good news from Canon Creek. Boats are being loaded and starting daily up the river for this creek

A ball is arranged for the evening of the 4th at the Fashion hotel in this town. A gay time is anticipated.

The weather for three days has been extremely warm and almost suffocating, the thermometer rising as high as 95° in the shade.

The telegraph line is now completed to Fraser Lake, 190 miles, and the chopping party are some way ahead. The work is being pushed on vigorously, and it is expected the line will be stretched to Rocher de Bouiller, on the Skeena river, by the 1st of August. Parties are exploring the Skeena river, and it is hoped the Stekin can be crossed a short distance from the coast. Over 250 pack animals are employed transporting wire and supplies About 100 pack animals and the same number of beef cattle leave here to-morrow for Fraser lake. The boats have already made two trips to Fort Fraser and Nakeesla.

THE AURORA-DAVIS DECISION.—The Cariboo *Sentinel* of the 25th gives the following as Judge Begbie's decision in regard to the now celebrated Aurora vs. Davis dispute:

AGREEMENT OF REFERENCE.

"This appeal coming on for judgment this day upon the issues found by the special jury on Saturday last, the 16th inst., and it being apparent that any judgment which may be given on this appeal will not conclude the litigation between the parties hereto: it is hereby agreed that in lieu of giving a decision on the mere rights of the parties on this present cause it be referred to the Judge of the Supreme Court to make such award as he shall think fit and expedient for settling as well the interests of the two companies and their respective shareholders in the piece of ground contested in this cause (being a piece of ground about 100 feet wide from E to W. and about 130 feet long from N. to S., and lying to the E. of the original Harvey-Dixon ground), as also all matters in dispute or in any wise relating to any dealings or workings of any of the parties in and upon the same piece of land: and also all costs as well of litigation heretofore had, as also up to the final settlement of the interests of the parties therein."

AWARD.

"Declare mutual release of all past acts.—Define the disputed territory by producing the S. boundary of the Harvey-Dixon claim 100ft. up the hill, thence draw a line northwards parallel to the eastern bounds of the Harvey-Dixon, such line to be the eastern boundary of the disputed territory."

There being at the commencement of the action 5¾ full interests in the Davis company, the owners of which were not members at the time of the jump, 12th August, 1864, and may therefore be taken to have been bona fide members, and 2¼ interests belonging to members cognizant of the jump of 12th August, 1864, and 14 full interests in the Aurora co., divide the whole of the unworked portion of the disputed territory into 19¾ equal parts; 5¾ to belong to the said bona fide members of the Davis Co., 14 portions to the Aurora Co., nothing to the owners of the 2¼ interests in the Davis Co. who were parties to the jump, except indemnity and forgiveness for the past. Each party to pay their own costs ab initio.

Costs of the Receiver in the Commissioners Court to be paid by both companies equally.

Unless the parties can agree without a Surveyor, let a Surveyor be appointed jointly, to fix the posts on the surface, both for the E. boundary line of the disputed territory and for the dividing line between plaintiffs' 5¾ and the defendants 14 parts. If parties agree on one Surveyor, each to pay half expenses of survey. If they cannot agree, each to appoint and pay their own Surveyor. After division, parties to execute mutual releases and quit claims, to be settled by Court if parties differ. Recommend that the residue of the ground be worked in common. Reserve power to give directions for carrying out this award, which is to be made a rule of Court.

THE BEGBIE DEPUTATION—We have received a despatch this afternoon, stating that Messrs. Laumeister and McLaren were at the Camp, waiting on the Administrator of Government.

THE POLICE COMMITTEE.—This Committee met to-day at 11 a.m., and concluded the examination of ex-constable McEwan.

CHRONICLE REPRESENTATION.

TO THE EDITOR OF THE EVENING TELEGRAPH—SIR,—Will you permit me through your columns to correct the *Colonist and Chronicle*. In misreporting what I said in the House on Tuesday last, they unfortunately assume "that it was aimed at some un-named person." On what grounds I should like to know? I am made to use the word "Pharisee," which certainly did not escape my lips, though it might have been uttered with propriety if the *aim* had been made at the amalgamated jumble. What I said was "that I am not a creeping political *parasite*, nor like certain filthy insects that cannot exist without adhering to some other body for their support." As the gentlemen of the "double header" may not be very well up in botany or entomology, I will remind them that many plants owe their existence to the juice they obtain from others more powerful than themselves, to which they tenaciously adhere, and that a certain class of insects such as ticks, &c., live by adhering to other animal bodies. I also said "that I am not a canting unscrupulous hypocrite, who, while I am contending for the rights of this House and the consequent liberty and independence of the people, would sell both, and become the willing slave of any master who would pay, or promise to pay me well,"—somewhat different from the report. The publication of this correction will oblige

Your obedient servant,
CHAS. B. YOUNG.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Billious, Dyspeptic** and **Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts per box.

FAUST.

Mr. Martin's translation of Goethe's 'Faust' is receiving complimentary criticism at the hands of the English Reviews. The following song of Margaret, as she sits disconsolate at her spinning wheel, grieving over the absence of Faust is extremely well rendered:

My peace is gone,
My heart is sore;
'Tis gone for ever
And evermore.

Where he is not
Is the grave to me,
The whole world's changed,
Ah, bitterly!

I sit and I ponder
One only thought;
My senses wander,
My brain's distraught.

My peace is gone,
My heart is sore;
'Tis gone for ever
And evermore.

From my window to greet him
I gaze all day,
I stir out, if meet him
I only may.

His noble form,
His bearing high,
His mouth's sweet smile,
His mastering eye;

And the magic flow
Of his talk, the bliss
In the clasp of his hand,
And, oh, his kiss!

My peace is gone,
My heart is sore;
'Tis gone for ever
And evermore.

For him doth my bosom
Cry out and pine;
Oh, if I might clasp him,
And keep him mine!

And kiss him, kiss him,
As fain would I,
I'd faint on his kisses,
Yes, faint and die!

BITE THE BITER— A good joke was practiced in Toronto lately by an incorrigible wag on some twenty to thirty members of the legal profession in this city, including some of the leading gentlemen of the long robe. It appears that polite notes were sent to them signed 'Silas Thompson," and dated from the jail, by some person who represented himself to be a prisoner there, and as having plenty of money, a large portion of which he would most willingly pay, if he could be released from durance vile, as he was anxious to engage in an unfinished heavy speculation, by which he anticipated the realization of considerable profit, and which would not admit of delay. Cab after cab continued to arrive at Castle Allen during the day, and as soon as the legal gentlemen 'put in appearance' before the obliging turnkey, he was informed that there was no 'Silas Thompson' in the jail, nor had he any knowledge that any of the prisoners sought the advice of the legal gentlemen, but that they might go through the corridors and other places accompanied by one of the guards and ascertain for themselves. The rat was soon smelt and the lawyers took a hasty departure, no doubt grumbling at the hoax and at having to pay each cab driver $1 10 (including toll) for proceeding on their 'fool's errand.' The cab drivers say they have no reason to complain of the hoax.

Some interesting facts concerning education and literature in Italy have come to light. The most intelligent are unquestionably the northern provinces of the kingdom; and as you go southward ignorance is more and more prevalent. In Turin the proportion of those who cannot read and write is 489 in 1,000; in lower Calabria, 927 in 1,000; in Sicily and Sardinia (insula) 900 in 1,000; and in Florence 757 in 1,000. The proportion in the latter place will undoubtedly rapidly become more favorable now that the capital of the kingdom is fixed there. The statistics regarding the Italian libraries are very encouraging. In the whole kingdom there are 201 public libraries; of these 164 are open to the public, and they contain no less than 4,149,287 volumes. The principal departments of literature are represented mathematics and science, history, encyclopedia, philosophy and theology.

GERMAN GAMING HOUSES. By the death of Prince Ferdinand Henry Frederick, Landgrave of Hesse Homburg for the past eighteen years, that little German principality, famous for its licensed gaming houses, lapses to the Grand Duke Louis III., of Hesse, in default of a male heir. The new ruler proclaims himself from Darmstadt, under date of March 24. The addition to his revenue by this accession is about $400,000 a year, provided he confirms the licenses of the gaming houses, which have yet twenty five years to run. The respectable part of the inhabitants are giving expression to a hope that these dens of vice will be broken up, but it is doubtful whether Duke Louis will throw away so large a share of the profits enjoyed by his predecessor.

A Triumph of Science
—AND—
THE LIGHT OF THE WORLD

DR. MAGGIEL'S
PILLS & SALVE.

These Life giving remedies are now, for the first time, given publicity to the world. For over a quarter of a century our first practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent sickness, but to cure. They search out the various maladies by which the patient is suffering and reinvigorate the entire system. Taken and inform a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the wonted energies to their pristine state. To the young and middle aged they will prove most invaluable, as a speedy, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold back, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,
Dropsy,
Debility,
Fever and Ague.
Female Complaints,
Headache,
Indigestion,
Inflammation,
Inflammation,
Inward Weakness,
Liver Complaint,
Lowness of Spirits,
Ringworm,
Rheumatism,
Salt Rheum,
Scalds,
Skin Diseases.

☞ NOTICE.—None genuine without the engraved trade mark—round each pot or box, signed by DR. J. MAGGIEL, 43 Fulton street, New York, to counterfeit which is felony.

☞ Sold by all respectable Dealers in Medicines throughout the United States and Canada—at 25 cents per box or pot. jy 2 1y

THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounds, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as, though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure a lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and	Sore Nipples
Bunions	Stiff Joints	Sore Throat
Bite of Moschetoes	Elephantiasis	Skin diseases
and Sand-Flies	Fistulas	Scurvy
Coco-bay	Gout	Sore heads
Chiego-foot	Glandular Swellings	Tumors
		Ulcers
Chilblains	Lumbago.	Wounds
Chapped Hands	Piles	Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY, 244, Strand, near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices: 1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22., and 33s., each Pot.

*** There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of Patients in every disorder are affixed to each Pot.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions, whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

Genera Disorders of the Liver and Stomach.

All who ever indulge at table either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week.

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensibly necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if, at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided; for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices: 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each box.
