Wit and Humor.

A literary gentleman, whose courtesy in a certain matter a pretty woman had rewarded with a kiss, was so well pleased with the mode of payment, and so little satisfied with the amount, that, judging by the following epigrammatic reply, he is likely to prove a rather inexorable creditor. We don't blame him:

One coin, so delicious, alone
Pays more than you owe me; and yet,
While you have a *mint* of your own,
Don't ask me to cancel the debt!

—*Boston Post.*

Burton, while travelling on a steamboat, seated himself and called for a beef steak. The waiter furnished him with a small strip of the article. Taking it upon his fork, and turning it over and examining it, with one of his peculiar looks, he coolly remarked, 'Yes, that's it; bring me some.'

'I tell you,' said a warm friend of a newly elected Senator, to an old sober politician, 'your party may say what they please, but cannot deny that Mr. C is a sound man.' 'That's just what we are afeard on,' replied old beeswax; 'its our opinion that he's *all sound.*'

Jenkins thus describes the hangings of a New York belle: 'She wore an exquisite hyphalutin on her head, while her train was composed of transparent fol de-rol, and her petticoat of Crambambuli flounced with Brussels three-ply of A No. 1.'

NE SUTOR.—A lady writes to ask us whether her husband who is by profession a cobbler, is justified in sitting up all night in the exercise of his vocation. He can, at all events, put in a proverbially philosophical plea—that it is never too late to mend.

THE WAY TO BE HAPPY.—The best way to be happy is not to want anything until you have got it, and then be saving of it. Pudding and milk are good things to have, so one has not too much of them.

Miss Thomas, in her *Walter Going*, says: 'Women can make one another miserable in such infinitesimally small ways that a man can rarely be brought to comprehend how the business is managed.'

When Voltaire was told that a friend of his was studying to become a physician, he exclaimed, 'Why will he be so mad? He will have to thrust drugs of which he knows but little, into a body of which he knows less.'

The best defence of lying that we ever read, is the remark of Charles Lamb, related by Leigh Hunt, that 'truth was precious and not to be wasted on everybody.'

Males, says a sweet young lady, are of no account from the time the ladies stop kissing them as infants till they kiss them as lovers.

'What is the use,' asked and idle fellow, 'of a man working himself to death to get a living.'

Make no enemies; he is insignificant indeed who can do thee no harm.

Municipal

By-Law to Regulate the Sanitary Condition of the City.

BY-LAW.

We, the Mayor and Councillors in Council convened, by virtue of the power and authority vested in us by An Act to Incorporate the City of Victoria, passed the second day of August, A.D. 1862, in the Twenty-sixth year of the reign of Her Most Gracious Majesty Queen Victoria, entituled, "The Victoria Incorporation Act, 1862," hereby enact as follows:—

I. No person or persons occupying any Messuage, Shop, Building or other Erection, or any Land or other Premises within the city, or if there shall be no occupier thereof, no owner or owners of any Messuage, Shop, Building or other Erection, or any Land or other Premises within the City, shall have or permit or suffer to be in or on his, her or their Messuage, Shop, Building or Erection, or any Land or other Premises as aforesaid, any ditch, gutter, drain, privy or ash-pit emitting noxious or offensive effluvium or smell, or constructed so as to be a nuisance to or injurious to the health of any person or persons, or any swine kept so as to be a nuisance or offensive by reason of the stench thereof, or any dung, manure, refuse, offal, ashes, filth, or other matter or thing emitting noxious or offensive effluvium or smell, or any animal, vegetable or mineral matter or thing alone or together with other matters or things in a state of fermentation, putrefaction, decomposition or decay, or emitting noxious or offensive effluvium or smell, or permit or suffer any Messuage, Dwelling House, Shop, Erection or Building whatsoever within the said City to be in a filthy state or infected with any kind of vermin or dirt or emitting noxious or offensive effluvium or smell; Provided, however, that no person or persons shall be liable to any penalty for the infraction of this By-law until he, she or they shall have received notice from the Mayor and Council in manner hereinafter mentioned, and until he, she or they shall have neglected by the space or time therein mentioned to abate or remove the offensive matter or thing noticed in such notice and therein complained of, or to do the act, matter or thing required of him, her or them by such notice within the space of time limited by such notice.

And whereas it is expedient for the good government of the City that a Sanitary Commission be appointed, and to enable such Commission to inspect, order the removal and report all nuisances within the said City of Victoria;

Therefore be it enacted by the Mayor and Councillors of the City of Victoria, with the consent of His Excellency the Governor on Her Majesty's behalf:

II. From and after the passage of this By-law the Mayor and City Councillors may from time to time nominate three members of the City Council to act as a Sanitary Commission for the purpose of inspecting, ordering the removal and reporting all nuisances and other matters, the continuance of which may be deleterious to the public health.

III. The Commission shall perform their services gratuitously.

IV. The Commission shall have power to enter any Messuage, Dwelling House, Shop, Building or other Erection or Land or other premises within the City, and whether or not the same be occupied or the curtilage of any of the same, and inspect the condition of the same between the hours of eight in the morning and eight in the evening.

V. No person or persons shall permit, after due notice in that behalf given, any animal or vegetable matter in a decomposed or putrifying condition to remain on the premises occupied or owned by him or them.

VI. The Commission on behalf of the Mayor and Council may notify any person or persons on or occupying any messuage, dwelling house, shop, building, or other erection, or the curtilage of any of the same or other land or premises within the city, or if the same be unoccupied, then the owner of any such messuage, dwelling house, shop, building or other erection, or the curtilage of any of the same or other land or premises within the city on which any matter or thing may be done, permitted, or suffered, contrary to the intention of this by-law (according to the form of schedule A annexed) to remove such nuisance as before mentioned, or to close up, purify, cover, or cleanse any well, cesspool, drain, privy, ditch, or gutter, or otherwise to abate or remove the matter or thing noticed in such notice as in their judgment shall seem meet by giving notice in writing, (as per schedule aforesaid) signed by two or more of the Commission on behalf of the Mayor and Council, specifying the act to be done and the time in which the same is required to be done, such notice may be given to the occupier or owner of such messuage, dwelling house, shop, building, or other erection, or the curtilage of any of the same or of the land or premises in the city, or by leaving the same at his, her, or their last known place of abode, or by fixing the same or a copy thereof on some conspicuous part of the premises.

VII. In the event of any Messuage, Shop, Building or other erection, or any land or other premises within the City being unoccupied and the owner or owners thereof neglecting or refusing to abate or remove any matter, or thing done, permitted or suffered, contrary to the requirements of this Bye-Law, either absolutely or in the terms of any such notice as aforesaid, duly served as aforesaid, within the time in that behalf specified, it shall be lawful for two or more of the Commission, on behalf of the Mayor and Council, or their servants or agents in that behalf, to do the act or acts, matters or things, required to be done or performed by such notice at the costs and charges of the owner or owners of such Messuage, Shop, Building or other erection or any land or other premises, the said costs and charges to be recoverable by action as work and labor done and money paid by them for the use of such owner or owners as if done at his, her or their actual request, or in such other form as is proper in law.

SCHEDULE A.

To the Owner

NOTICE is hereby given that you are required within days from the date hereof to , and in default of so doing you will be proceeded against under the provisions of the Municipal Bye-Law to regulate the sanitary condition of the City, 1866.

LUMLEY FRANKLIN,
Mayor of the City of Victoria.

This tenth day of July, 1866.

Evening Telegraph.

TUESDAY EVENING, JULY 31, 1866.

BIRTH.

In this city, this morning, the wife of Mr. W. B. Townsend of a son.

HOUSE OF ASSEMBLY.

The debate on the Ministerial Council question came on to-day, when Dr. Dickson moved and Mr. Young seconded, that the subject be taken up this day six months. A stormy debate ensued on the amendment.

Ayes—Ash, Dickson, Young, Carswell, Stamp. (5).

Noes—Trimble, M'Clure, Powell, Pidwell, DeCosmos. (5).

The vote was therefore a tie, and the Speaker gave his casting vote against the amendment, in order as he said that the subject should be discussed. The House then went into Committee on the following resolutions:

Resolved.—1. That the vital interests of the colony have suffered and continue to suffer most materially for want of a closer alliance and a greater degree of harmony between the respective branches of the Legislature than at present exist.

2. That the elements of the present constitution of the colony prohibit a closer alliance and prevent the establishment of such a degree of harmony between the respective branches of the Legislature as is essential, in order to ensure legislation in accordance with the well understood wishes of the people.

3. That it is, therefore, expedient and above all things advisable in the present state of the country, to amend the Constitution this session so as to secure a closer alliance and ensure active and harmonious co-operation between the Assembly, the Legislative Council, and the Executive.

4. That a constitutional amendment be framed and passed into an Act with substantially the following provisions:

1. That from and after the passing of this Act, it shall be lawful for the Governor, and he is hereby authorized, empowered, and required to establish a Council to assist him with their advice in all matters pertaining to the Legislature and legislation of the colony.

2. That the said Council shall be called a Ministerial Council, and shall consist of five members nominated by the Governor; and there shall not be more than two of the said members who shall be Legislative Councillors, and not less than three of the said members shall be members of the Assembly, but at no one time shall there be more than two members of the Executive Council in the said Ministerial Council.

3. That the members of the said Ministerial Council who may be members of the Assembly shall, on being nominated and appointed members of the said Council, resign their seats in the Assembly and appeal to a constituency for re-election; and if any such member so resigning shall not be re-elected, then he shall *ipso facto* cease to be a member of the said Ministerial Council; and the Governor may nominate another member to fill such vacancy.

4. That if the said Ministerial Council shall be unable to command a majority in the House of Assembly to carry out the measures or general policy of the Government, the members thereof shall tender their resignations to the Governor, who may, in accordance with the usages of responsible government, in such cases, accept their resignations, appeal to the country, reconstruct the said Council, or dismiss the said Council and nominate another.

5. All vacancies in the said Ministerial Council shall, from time to time, as occasion may require, be filled by the Governor with all reasonable despatch.

Resolved.—That the above resolutions be transmitted to His Excellency the Governor, through a Committee of this House authorised to explain the same, and with a respectful request that His Excellency the Governor and his official advisers may be pleased to concur with this House respecting the proposed constitutional amendment.

Dr. Ash moved that the Committee "rise"—which was carried. The resolutions are, therefore, killed.

NAVAL.—We learn that Commander Fox, of H.M. gunboat Forward will return home by the Sparrowhawk, which goes down to San Francisco shortly to go on the dock at Mare Island. The gallant officer has been on this station for several years, and his many friends will be glad to know that he will probably return again in a year or two.

THE MURDER CASE—Tim, one of the Indian witnesses in the recent murder case, was to-day sent up to the higher court for perjury in the evidence given before the police court. Mr. Superintendent Hankin and Thomas Wilson, a witness in the case, were bound over in $500 each to prosecute and give evidence at his trial.

FOR THE NORTH.—The steamer Sir James Douglas sailed for Nanaimo and Comox yesterday morning. She will lie at the latter settlement till Friday to give Mr. C. S. Nicol, who went up on her, an opportunity of examining the coal seam discovered there in '64 by the Island Exploring Expedition.

CABLE REJOICINGS—The members of the Germania Sing Verein, who are always among the foremost in taking part in any popular festivities, will give a *soiree dansante* to-night in their Hall, Government street, in honor of the success of the Atlantic Cable.

CHEAP LOTS.—Two full-sized lots across James Bay, adjoining Welch's Brewery, well fenced, were sold by Mr. J. P. Davies to-day at $122 50 each. Sheriff Naylor was the purchaser.

COMPLIMENTARY—Our staff drank success to the Atlantic cable to-day in bumpers of wine kindly sent to the office by the proprietors of the "Grotto."

FOR CALLAO—The ship Mohawk will probably finish discharging to-day, and will shortly proceed to Utsalady to load for Callao.

A LONG LINE—The total length of telegraph line from Victoria to London is over 9000 miles.

Public Rejoicings on the Success of the Atlantic Cable.

The popular demonstrations last night to celebrate the successful laying of the Atlantic submarine cable, exceeded anything of the kind that has yet been witnessed in Victoria. Although the proceedings were necessarily of an impromptu nature, public sympathy could not have been more universal, nor the general rejoicings more enthusiastic had the grand event been fixed for a week beforehand. The special telegram to this journal announcing the glorious news arrived here about ten o'clock a.m., and at twelve a meeting of citizens was convened and the committee of gentlemen appointed, to whose energetic efforts the town is much indebted for the success of the demonstration. The firing of a salute of 50 guns at 6 o'clock announced that the programme had commenced, and shortly after 7 o'clock crowds began to assemble in Government street to take part in the procession. The Volunteers, with their band at their head, formed in front of the Bank of British Columbia, and about half-past seven started for the Government Buildings, followed by the Firemen, who mustered strong and formed an important feature in the gathering. A great crowd of ladies and gentlemen accompanied the procession to James Bay, and when the assemblage drew up in front of the Government House there must have been at least 1,500 persons present. His Excellency and family drove up on the ground immediately after the procession arrived, and were well received. His Worship the Mayor then stepped on the platform, and after a few introductory remarks read the glad tidings that peace had been declared on the continent—an announcement that was received with loud cheering. His Excellency then addressed the assemblage, alluding to the occasion as the happiest moment of his sojourn in the colony. His speech was received with loud cheers. He was followed by Chief Justice Needham, U. S. Consul Francis, Colonial Secretary Young, and Captain Lang, V.R.V., all of whom were heartily received and loudly cheered.

His Worship then proposed three cheers for the Queen, which were followed by three for the President of the United States, for the Governor, Cyrus W. Field, and for the commercial success of the great undertaking.—The firemen then lighted their torches, and, preceded by the volunteers, marched back to town. A huge bonfire had been lighted, and with the display of fireworks and torchlights, Government square presented a most animated appearance.

On reaching town the firemen were liberally treated to champagne at the Colonial by Capt. Stamp, and the cable was pledged in brimming glasses throughout the city generally. The utmost enthusiasm and hilarity prevailed, and the whole proceedings were most creditable to the inhabitants.

THE MOUNT BAKER EXPLORERS—Dr. Brown and Mr. E. T. Coleman returned from Puget Sound by the steamer Josie McNear this afternoon. The party consisting of the two gentlemen named and Judge Darwin of Washington Territory, started up Skadgett river on the 21st instant, and travelled for a week up the valley with a party of Indians from the coast. On arriving at the mouth of Yukullam or White Stone river, which flows from Mount Baker, where it was necessary to procure additional guides, the Koma Indians living in that neighborhood refused to allow any further ingress to their country. Finding it impracticable to come to terms, the party were obliged to abandon that route. They will however leave by the McNear on Thursday for Port Townsend, and will attempt to reach the mountain by way of Bellingham Bay and the Nootsac river. Dr. Brown will not accompany the expedition, being under engagement to return to England by the next steamer, but the party will be reinforced in all likelihood by Gov. Pickering and Hon. Ed. Eldridge, Speaker of the House of Representatives.

ST. LOUIS COLLEGE.—The Alexandra to-day carried up to New Westminster the clergymen who formerly managed the St. Louis College, and who we learn are about to open a similar institution in that place. The college property in this city has been purchased by Bishop Demers, and the school will be carried on as usual.

FROM PUGET SOUND.—The steamer Josie McNear arrived this afternoon from Puget Sound with 30 or 40 passengers and a full freight of stock.

MAILS—H. M. Sparrowhawk will leave six hours after the arrival of the steamer from San Francisco, and will carry a mail.

TELEGRAPHIC.

SPECIAL TO THE EVENING TELEGRAPH.

To-day's Despatches.

European.

FARTHER POINT, July 25.—The Hibernian brings dates to November 16. It is now declared in diplomatic circles at St. Petersburg that Russia will not abandon her neutrality, nor allow intervention. The Moscow *Gazette* expressed sympathy with the Italian cause, and says Italy must have Rome.

The Prussian headquarters were at Brunn with a second column at Iglau marching rapidly on Vienna.

The Prussians overwhelmed the Federal army in battle at Sschäffenburg in Bavaria, on the 14th, and were marching on Frankfort. The Federal Diet had removed to Augustenberg.

General Cialdini had occupied Vicenza, cutting off the Austrian troops in Venetia from succor unless he be dislodged.

The London *Times* believes the discouragement of the Austrian army by their repeated losses in Bohemia will deter the Emperor from a final encounter so close to his capital, and trusts that before the Prussians shall be ready for the onset an interview between the monarchs will take place, which might better have been held the day after the disaster at Konigsgratz. The *Times* of the 26th says whatever forces the Austrian Government may have succeeded in gathering around Vienna, it is still doubtful whether it will find itself equal to the task of withstanding victorious Prussians, who, according to all calculations, should assemble before Vienna to-morrow, or the day after; if it were needed to render the Austrian position hopeless it was tidings of the irreparable disaster at Schaffenburg, which must have reached Vienna, preceded by a deputation from the Vienna Municipality enquiring the Emperor's pleasure in regard to the defence of that city. The Emperor at once removed the people from apprehension by answering that Vienna should be treated as an open city, and added he would limit the operations to the defences of the line of Danube, which might bring a Prussian attack on Fladeroff Village, three miles from the gates of Vienna, where the Austrians have entrenched their camp. Should the Prussians, however, resolve to attack Vienna they would certainly attempt to cross the river in several places, and in case of success the open city would unavoidably fall into their hands.

California.

SAN FRANCISCO, July 30—Although as yet no public demonstration has taken place over the completion of the Atlantic cable, every one congratulates his neighbor. A general jollification is inevitable.

The following despatch was received this morning:

HEART'S CONTENT, July 28.

Hon. Stephen J. Field, San Francisco.

I arrived this morning in perfect health. The cable has been successfully laid across the Atlantic ocean.

(Signed) CYRUS W. FIELD.

The successful laying of the cable and important European despatches received by it are the absorbing topics of conversation in business circles.

Gold despatches from New York are to 29th—156. Sterling Exchange was dull and nominal, with no demand except for sight.

Arrived—T. W. Lucas, 9 days from Utsalady; British bark Alice Kilson, 207 days from London via Falmouth; bark Milan, 10 days from Teekalet. Sailed—Brig Orient, Puget Sound; bark Huntsville, Puget Sound.

Last Night's Despatches.

CHICAGO, July 29—The following reports were received here of the successful laying of the Atlantic cable, with news dated London, July 27, stating that a treaty of peace had been signed between Austria and Prussia, on terms of the latter.

MR. ZINN begs to announce to the inhabitants of Victoria that he has lately received a large assortment of Children's Carriages and Chairs, Fishing Baskets and Fishing Canes, and a large quantity of Market and Travelling Baskets, China Vases, Fancy Goods and Toys, all of which have to be sold on or before February next at greatly reduced prices Goods sold at wholesale for cost prices. *

THE NOVELTIES in the Silk trade this seaons are the beautiful Gros de Suez, Gros de Londres, and Gros de Pekin. A choice lot of these are for sale at the LONDON HOUSE; also a splendid stock of Black Gros Grains and Glaces, from three-quarters to a yard and a quarter wide, bought before the advance in the silk market. *

MR. DIGBY PALMER requests that orders for teaching, playing and tuning Pianofortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort street. *

REMOVAL.—Mr. Hibben requests us to state that he is now removing his bookstore from the old stand, corner of Yates and Langley streets, to the fine new premises in the Masonic Buildings, Government street, where he will open in a day or two. *

MR. D. LINDSAY, Accountant and Official Assignee in Bankruptcy, &c., &c., requests us to intimate that he will remove his Office to Captain Stamp's New Building, Government Street, on Monday, 30th July. *

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from *one to two of his extraordinary Pills*, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic, and Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts. per box.

HOLLOWAY'S PILLS AND OINTMENT.—Dangerous Diarrhœ.—The causes of this weakening disease being so various, and the nature of its attacks so changeable, fully account for the enormous number of its victims. Under Holloway's treatment the source of this complaint may lie in obscurity and the successful issue be still the same whether the stomach, liver, large or small intestines be the seat of malady, for his Pills, judiciously taken, and his Ointment, briskly rubbed on the abdominal walls, restrain the excited vessels and regulate each erring function, let it spring whence it may. Both medicaments address themselves directly to reproduce the exact balance between sensibility and irritability, between morbid and healthy secretion, between natural and excessive excretion.

THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arresteb in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians reregularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure a lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
oco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore heads
	Lumbago,	Tumors
Chilblains	Piles	Ulcers
Chapped Hands		Wounds
		Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices 1s. 1½d 2. 9d. 4s 6d., 11s., 22., and 33s., each Pot.

*** There is a considerable saving by taking the larger sizes.

N B.—Directions for the guidance of Patients in every disorder are affixed to each Pot.

TUESDAY EVENING, JULY 31, 1866.

AN EXPOSITOR OF LAW.

There is a melancholy spectacle in the blind leading the blind, and our melancholy is in no way relieved by the knowledge that they will both "fall into the ditch." Our morning contemporary is in the presumptuous position of the blind guide, but fortunately he has no one to lead, and we are therefore saved the painful sight of ignorance taking ignorance in hand and rolling into the mire. No one can say the "*Colonist-Chronicle*" misleads him, because no one is at all affected one way or other by what the *Colonist-Chronicle* says. A journal that is ignorant of the laws which affect the country in which it is published, and that is unable to interpret them when they are placed before it, is surely of all presumptuous guides, the blindest. Our contemporary, after making the silly statement that the "Governor's Instructions" is the Constitution of our colony, and after having its ignorance exposed by the publication of an Imperial Act giving colonies power to make their own constitutions, like ignorance all the world over has not the moral courage to acknowledge his error, but seeks by making even greater blunders to cover his confusion. In our article on Sunday morning we published clauses of the Imperial Act bearing on our present political situation—clauses which showed, as clear as English language can show, that a colonial legislature can, by enactment, set aside every instruction of the Governor but that instruction giving him power to assent or refuse his assent to a bill—a power which must so long as the kingly prerogative exists, form part of every constitution under British rule. The *Colonist-Chronicle* however reads the clause otherwise, and to prove itself right ends the quotation in the middle, by which it would appear that the colonial act cannot interfere with "Letters Patent." This reminds us of a story told of Dean Swift whose antipathy to the fair sex led him to preach a sermon showing that it was next to impossible for a woman to get to heaven. The celebrated divine took his text from Revelations, xii. chap. and 1st verse—"And there appeared a great wonder in heaven; a woman clothed with the sun, and the moon under her feet, and upon her head a crown of twelve stars." Ignoring punctuation and the continuation of the sentence, as our contemporary does in its interpretation, the Dean selected for his text the first part of the sentence thus—"And there appeared a great wonder in heaven; a woman"—clearly showing that a woman in heaven was an extraordinary spectacle. We are afraid, however, the satirical gentleman did not make many converts to his theory on that particular occasion, and we are even a little more dubious of our contemporary's success. To show the plight into which the latter has fallen we give the full quotation from the Act.

"No colonial law, passed with the concurrence of or assented to by the Governor of any Colony, or to be hereafter so passed or assented to, shall be or be deemed to have been void or inoperative by reason only of any instructions with reference to such law or the subject thereof which may have been given to such Governor by or on behalf of Her Majesty, by any instrument *other than the Letters Patent or instrument authorising such Governer to concur in passing or to assent to laws* for the peace, order, and good government of such Colony, *even though such instructions may be referred to in such Letters Patent or last-mentioned instrument.*"

No language can be clearer than this. The Colonial Act is unmistakably shown to overrule every instruction but that authorising the Governor to refuse or assent to a bill; and so particular is the Imperial Act on the question that it adds "even though such instructions may be referred to in such Letters Patent or last-mentioned instrument." The *Colonist-Chronicle* however, finishes its quotation at the word instrument in the tenth line, and of course sagely concludes that the Colonial Act cannot touch "Letters Patent or Instruments." We defy the whole range of newspaper literature to produce an equal to this.

The genius of the *Colonist-Chronicle*, however, is not confined merely to interpretating clauses of acts of Parliament, it has got Johnson's power of definition. The people of the colonies, as well as Anglo-Saxons generally, have been laboring under the delusion that the Legislature of a country means the power that makes the laws; but our contemporary sets them right by informing them that the Legislature means only one body of the law-making power—the House of Assembly. The Imperial act gives every colony possessing a representative Legislature "full power to make laws respecting the constitution, powers, and procedure of such Legislature;" and the *Colonist-Chronicle* in its wisdom informs its readers that this only alludes to changes in the House of Assembly. We will say nothing of the editor of a public journal gravely telling its readers that an Act of the Imperial Parliament was passed last year to give Houses of Assembly in colonies power by local act to regulate the number and qualification of their members,—a power that has belonged to them from their very existence; but for a person in his position to show so gross an amount of ignorance as not to know that the term Legislature includes all the branches of the law making power, if there were fifty differently constituted legislative bodies, is really beyond credibility. It is difficult to teach conceited ignorance; but our contemporary will find out when probably too late that his vocation is to learn, not to instruct.
