A FATHER'S ADVICE TO HIS SON.—Bob, you are about leaving home for strange parts. You are going to throw me out of the game and go it alone. The odds are agin you, Bob—remember that industry and perseverance are the winning cards, as they are the 'bowers.' Book learning, and all that sort of thing, will do to fill up with, like small trumps, and you must have the bowers to back them or they ain't worth shucks. If luck is agin you pretty strong, don't cave and look like a sick chicken on a rainy day, but hold up your head and make believe you are flush of trumps; they don't play so hard agin you. I've lived and traveled around some, Bob, and I've found out that as soon as folks thought you held a weak hand, they'd buck agin you strong. So, when you're sorter weak, keep on a bold front; but play cautious; be satisfied with a p'int. Many's the hand I've seen 'em cucred cause they played for too much. Keep your eyes well skinned, Bob; don't let 'em nig you; recollect the game lays as much with the head as with the hands. Be temperate; never get drunk, for then no matter how good your hand, you won't know how to play it; both bowers and the ace won't save you; for there's sartin to be a 'miss deal' or something wrong. And another thing, Bob, (this was spoken in a low tone) don't go too much on women; queens is kinder poor cards; the more you have of em the worse for you; you might have three, and nary a trump. I don't say discard 'em all; if you get hold of one that is a trump, it's all good, and there's sartin to be one out of four. And above all, Bob, be honest; never take a man's trick wot don't belong to you, nor 'slip' cards or 'nig,' for then you can't look your men in the face, and when that's the case, there's no fun in the game; its a regular 'cut throat.' So now, Bob, farewell; remember wot I tell you, and you'll be sure to win; and if you don't, it sarves you right if you get 'skunked.'

A FLEA UNDER A MICROSCOPE.—When a flea is made to appear as large as an elephant, we can see all the wonderful parts of its formation, and are astonished to find that it has a coat of armor *much more complete than ever warrior* wore, and composed of strong polished plates, fitted over each other, each plate covered like a tortoise-shell, and, where they meet, hundreds of strong quills project like those on the back of the porcupine or hedge-hog. There are the arched neck, the bright eyes, the transparent cases, pierces to puncture the skin, a sucker to draw away the blood, six long jointed legs, four of which are folded on the breast, all ready at any moment to be thrown out with tremendous force for that jump which bothers one when they want to catch him, and, at the end of each leg, hooked claws, to enable him to cling to whatever he alights upon. A flea can jump a hundred times his own length, which is the same as if a man jumped to the height of seven hundred feet; and he can draw a load two hundred times his own weight.

A gentleman presenting a lace collar to the object of his adoration, said to her in a jocular way—

'Do not let any oue else rumple it.'

'No, dear,' said the lady, 'I will take it off.'

THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounds, and, in fact, *every species of inflammation and suppuration*, whether in the skin, the flesh the glands, or among the muscles, can be arrested in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians reregularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and *emigrant*.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but *it must be well rubbed in for some considerable* time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure a lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and	Sore Nipples
Bunions	Stiff Joints	Sore Throat
Bite of Moschetoes	Elephantiasis	Skin diseas
and Sand-Flies	Fistulas	Scurvy
coco-bay	Gout	Sore heads
Chiego-foot	Glandular Swellings	Tumors
		Ulcers
Chilblains	Lumbago.	Wounds
Chapped Hands	Piles	Yaws

Wit and Humor.

Miss Susan Nipper, who lives in a small tenement, a lone woman, was quite 'flustrated' the other morning by an early call from a bachelor neighbor.—'What do you come here after?' said Miss Nipper. —'I came to borrow matches,' he meekly replied.—'Matches! That's a likely story. Why don't you make a match? I know what you come for,' cried the exasperated old virgin as she backed the bachelor into a corner. 'You come here to hug and kiss me almost to death! But you shan't—without you're the strongest, and Lord knows you are!'

'Having in my youth,' says a celebrated Persian writer, 'notions of severe piety, I used to rise in the night to watch, pray, and read the Koran. One night, whilst deeply engaged in these exercises, my father, a man of practical virtue, awoke whilst I was reading. 'Behold (said I to him) thy other children are lost in irreligious slumber, whilst I alone wake to praise God.'—'Son of my soul,' he answered, 'it is better to sleep than wake to remark the faults of thy brethren.'

Those two celebrated divines and scholars, Drs. South and Sherlock, were once disputing on some religious subjects, when the latter accused his opponent of using his wit in the controversy. 'Well,' said South, 'suppose that it had pleased God to give *you* wit, what would you have done?'

A plain spoken woman lately visited a married woman and said to her, 'How do you contrive to amuse yourself?'—'Amuse,' said the other, starting; 'do you know I have my housework to do?—'Yes,' was the answer, 'I see you have it to do; but as it is never done, I conclude you must have some other way of passing your time.'

One day the philosopher Bias found himself in the same vessel with a crowd of sorry scoundrels. A tempest came on; and instantly the whole band began to invoke the succour of their gods. 'Be quiet, you wretches!' said the sage; 'if the gods perceive that you are here we are lost!'

A young man asked his governor for some money, as he wanted to go out of town to recruit his health. 'Recruit your health!' exclaimed the old captain; 'well then, here's a shilling, that is all we pay for recruiting in the army.'

During the recent census at Dundee, an ancient dame returned herself as a 'Congregational *Decanter*,' meaning, in correct language, 'dissenter.'

When does a barber treat certain letters of the alphabet with severity?—When he ties up queues (Q's) and puts toupees (two P's) in irons.

When does the House of Commons present a most ludicrous spectacle?—When its ayes (eyes) are on one side, and its noes (nose) on the other,

There is a man out West who is so aristocratic that he has cut his own acquaintance.

Woman, with all thy faults, I love thee *still*,—as the Quaker observed when he muzzled the scold.

Truth, they say, *lies* in a well. 'For my part,' said a wit, 'I thought it the property of truth to *lie* nowhere.'

Why is a kiss given to the wrong person like a gun?—Because it is a blunder-buss.

To discover how many idle men there are in a place, all that is necessary is to set two dogs a fighting.

Why is London milk like a Bank of England note?—Because it is not current without the water-mark.

Why is the street-door like a barrel of beer?—Because it's frequently tapped.

What would be likely to give the best report of a fire?—A powder magazine.

What flower most resembles a bull's mouth?—A cowslip.

When does a man look like a cannon-ball?—When he looks round.

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic** and **Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts. per box.

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the *patient is suffering, and re-invigorates the ailing* system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a remedy, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought *for three hundred years ago, and never found. He* looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates *with the most searching effects to the very root* of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions, whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a *constant abstraction of effete products is effected.* This perfect circulation thus becomes *the very fountain of health and life,* and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, *want of energy,* and *want of strength,* to correct all these evils, three or four of these *Pills should be taken twice a week,* when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young *or those between forty and fifty—the most critical* period of life—may be radically removed *by using these Pills according to the printed* directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluid, causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 5. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

SUPREME COURT.—After hearing the argument of counsel in Court yesterday in the case of manager of the Bank of British Columbia *vs.* Lowenberg, His Honor decided that defendant was liable for the claim of $3000, without interest, for which he had become security for Spratt & Kriemler, but that the Bank must give defendant a proportionate share of the security subsequently obtained by them from the debtors.

HOUSE OF ASSEMBLY.—This body met to-day shortly after three o'clock. Present: The Speaker, Messrs. De Cosmos, Pidwell, Cochrane, Dickson, M'Clure, and Young. Mr. Young gave notice to rescind the original Union resolutions, and to-morrow was fixed for the debate on the Confederation question. All members should be present.

CITY COUNCIL.—This body met last evening. Reports from the committees on Bridges, Finance, and Sanitary matters were received. The last-named commission stated that they had issued 85 notices to remove nuisances. The Finance committee reported the city indebtedness up to the 30th June 1866.

PUGET SOUND OFFICIALS—The *Pacific Tribune* states that Mr. G. F. Whitworth has resigned the post of Deputy Collector of Customs, and will become principal of the Territorial University at Seattle *vice* Mr. W. E. Barnard, who takes Mr. Whitworth's place in the Customs.

FROM PUGET SOUND.—The steamer Josie McNear arrived this morning, at half-past 9 o'clock, with 18 passengers and a small freight of cattle and sheep. The McNear is improving much in her running, having made the distance from Port Townsend to this city, this morning, in 3½ hours.

THE EUROPEAN WAR.—We have received W. H. Russell's account of the great battle between the Prussians and Austrians in Bohemia, published in the London *Times* of June 30th, 11 days later than dates received by last mail, and will publish it to-morrow.

FOR NEW WESTMINSTER.—The steamer Enterprise sailed at 11 a.m., with some 10 or 12 passengers and about 10 tons freight. The Enterprise has been beautifully repainted, carpeted and furnished, and is a credit to her owners.

LIGHT CALENDAR.—Only a solitary "drunk" put in a woe-begone appearance at the police court this morning, and was let off with the usual light penalty. The occupation of policeman is becoming almost a sinecure.

THE FIDELITER.—A private telegram received here this morning announces that the Fideliter sailed for Victoria yesterday, at 5:30 p.m. She will therefore be due here to-morrow morning, about 10 o'clock.

ON THE WAY BACK.—Our special despatch, received this morning, states that H. M. S. Sparrowhawk left San Francisco for Victoria yesterday, the 20th.

NEW TRIAL.—The argument for a new trial in the case of Bunster vs. Joseph Bros. was being heard to-day.

FOR HONOLULU.—The fine new schooner Minerva sailed for the Sandwich Islands this evening with a full freight valued at $10,000.

STOCK FOR SALE.—J. P. Davies & Co. will sell on Thursday next a splendid American stallion and some other horses and cattle.

SAN FRANCISCO, Aug. 20.—Coroner Harris is holding an inquest in the police court this afternoon, on the body of John Brewster, who was killed by the falling of Sumner Street House The verdict will apply to all victims of said disaster.

About three o'clock this morning a serious affray occurred at the corner of Vallejo and Dupont streets, in which Jas. Miller, Mat. Brady, and a man named Rogers were cut and seriously injured. The statement of the injured parties, with the exception of Miller, who is unable to tell his story, is as follows:—Dr. Boyle, Brady, and Rogers were passing the corner when they observed Miller was having an altercation with some Italians. They stepped across to see what was going on, and as soon as they reached the street Miller and the Italians came to blows, when they interfered. The Italians drew revolvers and used them freely, and having wounded all but Dr. Boyle, fled from the scene. Miller was stabbed in the shoulder by a knife, which glancing downward entered the lungs, inflicting a wound which it is feared may prove fatal. He is now lying at the county hospital in a low condition. Brady was stabbed in the abdomen, neck and arm. His wounds are not of a serious character. Rogers was cut in the face and severely beaten and bruised about the head. Brady is a member of Washington Hose Company, of which Rogers is also a member. Who the Italians were and what was the origin of the difficulty between them and Miller is not known. The police have no clue to the assassins.

Wesleyan Presentation.

The presentation by the Wesleyan congregation to Rev. Dr. Evans on his leaving for Nanaimo took place last evening in the Wesleyan church in the presence of a large number of people, including members of all denominations. The chair was filled by the Rev. Mr. Browning, who gave a short summary of the career of the Rev. gentleman who was about to leave, eulogising his intellectual capacity and general usefulness, and stating that had he turned his attention to any other walk in life that led to worldly eminence he would have reached almost the highest pinnacle. Dr. Evans had worked as few other men could have worked for the interests of the church, but there was a broad catholicity of spirit in his disposition that led him at all times to merge sectional feeling in the great desire to see Christian churches of every denomination progress. Outside the church he had, both in Canada and Vancouver Island, taken a great interest in the material welfare of the people. He had always identified himself with the friends of civil and religious liberty, and had, indeed, in Canada been one of the foremost in obtaining for the people some of the most valued privileges which they now possess.

Dr. Dickson, M.L.A., being called on by the chairman, came forward, and in a pathetic manner, alluding to the kind and wise counsels which he had always received from Dr. Evans, introduced the address, which was highly eulogistic, and which was accompanied by a silver tea-set.

The Rev. Dr. Evans felt exceedingly thankful that his services should have been so highly prized by his congregation; but they must excuse him for saying that he merited neither the eulogy of the chairman nor that contained in the address He had simply endeavored to do his duty. He felt sorry, as every person possessed of human feeling must do, at sundering the ties of deep and enduring friendship; but there was one feature about Wesleyanism that made it so potent, and that was this very itinerancy, which brought forth that self-denial and self-sacrifice so essential to Christian ministrations—which made the feelings, the life of the pastor subservient to the church. So far as he was concerned, he had never asked, in his whole ministerial career, to be sent to any particular place or to preside over any particular congregation. It was enough for him to know that the Conference in Canada desired him to go to this place or to that. His long residence in Victoria had been an exception to the general rule of Wesleyanism, but that exception was owing to the fact that Victoria was the only place, from its central position and its facilities for communication, in which a superintendent could direct with efficiency the general management of the church in these colonies, both spiritually and financially. The rev. gentleman then alluded touchingly to the uniform kindness that had met him at every step, and the generous assistance he had received from his congregation in surmounting the great difficulties which presented themselves in establishing the church on its present permanent foundation, and concluded by commending his successor, Rev. Mr. Browning, to their kind consideration and co-operation.

Rev. Mr. Somerville, being called upon by the chairman, said he came there as a spectator not as an actor, but as he was called on, he would, as a clergyman, although of a different denomination, and as a citizen of Victoria, beg leave to say a few words. He was sorry with the rest of them at the departure of Dr. Evans. He (Mr. Somerville) had, like the previous speakers, received great kindness and assistance at his hands, and he would there tell the audience that they little knew the difficulty of getting up two sermons one Sunday after another, and of the help which, on several occasions when he was unable to attend to his duties in Victoria, he had received from the Wesleyan ministers. As a clergyman, he would ask them to strengthen the hands of their minister, to work with him in every way; for he was a false christian who did not assist or endeavor to assist the pastor in the discharge of religious duties He was glad to state that Wesleyanism was in its church management akin to Presbyterianism; in the latter body no more than the former could the minister make his own selection. Everything was subsidiary to the good of the church. As a citizen of Victoria he (Mr. Somerville) could safely say one of the pillars of the city was going away. Dr. Evans was a strong man—a firm, strong-minded sagacious man—and no community could well afford to lose such a member.

Mr. Jessop then rose and alluded feelingly to the departure of Dr. Evans, as being a loss which Victoria as well as the Wesleyan congregation would deeply feel. The loss of Miss Evans also he considered almost irreparable as a Sunday school teacher and as organist for the choir—a position she had filled from the commencement gratuitously.

Mr. Sparrow then in a few appropriate remarks, presented an address to Miss Evans and with it a silver basket and knife. He spoke of the punctuality, earnestness, and unwavering kindness Miss Evans had shown in her religious and other duties connected with the church.

Mr. Spencer as leader of the choir, also bestowed a eulogy on the lady, when Dr. Evans feelingly replied.

The business of the meeting being then over, the large assemblage after a benediction from Dr. Evans, dispersed.

Round the Island.

We have been favored with the following memoranda of the recent voyage of H.M.S. Scout round this Island:

H. M. S. SCOUT, August 20th.

TO THE EDITOR OF THE EVENING TELEGRAPH. Sir,—We left Esquimalt at 10 p.m., with Governor Kennedy, accompanied by Lieutenant Hankin, on the night of the 8th of August, having a thick fog through the straits and right up to the entrance of Barclay Sound. We entered Barclay Sound at noon on the 9th, picking up at the entrance an Indian interpreter who had been in waiting for us, rejoicing in the English name of Friday. He had been in the "Hecate" with Mr. Hankin, and amused us much by his vocal attainments, singing "Dixie's Land" and other popular songs. Several other natives went with us as far as Stamp harbor, Alberni Inlet, where we arrived at 5 p.m., and anchored for the night. His Excellency visited the sawmills, but the sound of the artificer's hammer has ceased. The Governor also visited the Indians in the district. On the morning of the 10th we proceeded on for Uchuckiesit harbor, anchoring in Green Cove at 7 a.m., His Excellency landing and visiting the natives. At 5 we anchored in Island harbor, intending to visit the fishing station off Village Island, but the weather was too misty. August 11th, at 4:30, we weighed anchor and proceeded to Village Island, where we stopped a few cables off and landed the Governor, rather astonishing the residents by rousing them up at that early hour. Two white men are here employed procuring fish from the Indians, salting and packing them; the supply is always equal to the demand. At 10 a.m. we entered Clayoquot Sound, and anchored off Ahousat village. His Excellency landed and visited the place, and the ship was surrounded by Ahousat natives in their canoes, bringing nothing of value, however, to barter for. At 2.20 we left and steamed round Flores Island, passing through the Rocky Pass; it was, however, so very rainy and misty that the scenery, here so grand, was quite lost in the clouds above. The ship passed out at Sydney Inlet, and anchored for the night in Hesquiot Bay for the want of a better. On the 12th, at 5 a.m., proceeded on for Nootka Sound, and anchored at Friendly Harbor (at its entrance) at 8 o'clock. His Excellency landed here and visited the natives, who came off in their canoes highly gratified apparently at our disturbing the monotony of their daily life. The natives here were not encumbered with much clothing, blankets being in great request. At 9:25 we proceeded on and steamed round Nootka Island, passing through Hecate Narrows. This was a very fine day, and the scenery was remarkably grand; the usual wooded land, but very high, and the water in the narrows themselves reflecting the green on their surface, was pleasing to the artistic eye. At one p. m. we anchored in Queen's Cove, a very pretty little harbor just sufficiently large to swing one ship at single anchor, the mountains clothed in summer grandeur rising to a very high altitude all round.

13th August—At 9 we left this really snug retreat and proceeded through Esperanza Inlet for Quatsino Sound, the most northern inlet on the West Coast, and after a rapid run of nearly 10 knots an hour anchored for the night off Robson Island, Forward Inlet, Quatsimo Sound. At 4 on the 14th we proceeded on with 4 boilers round Cape Scott and over Nahwitti Bar for Beaver Cove (Fort Rupert), and anchored at 1 o'clock p m. His Excellency landed under a salute of 17 guns and the yards manned. This is the port the "Clio" some time back had occasion to visit, in a different spirit however to the present. On landing unmistakable evidence of a warlike character were to be seen in the shape of Armstrong shot and shell gathered in heaps in the different houses. The natives had an insane idea we were come to pay for the damage done!

On the 15th we left Beaver Cove and ran a distance of 150 miles through the Johnstone and other narrow straits in 15 hours, arriving in Tribune Bay, Hornby Island, at 8 o'clock. On the 16th at 8 o'clock a.m., we anchored in Port Augusta, Comox, His Excellency landing to visit the natives and the coal districts.

17th—Weighed at 4:30 a.m. and anchored at Nanaimo. His Excellency landed and the yards were manned but no salute was needed. In the evening at about 10 o'clock the drum was beat for night quarters and three rounds fired from each gun; it was very dark and the flash of the heavy 8-inch guns lit up the whole ship for a moment only, while the sound rolling on was echoed back from the distant hills like muffled thunder. On the 18th weighed at 4:30 from Nanaimo, anchored at 11 a.m. at Cowichan and remained over Sunday, the 19th. His Excellency landed on the 19th and visited the settlers.

20th—Weighed at 5 a.m. and proceeded to Salt Spring. His Excellency landed for an hour to visit the settlers, and at 9 we proceeded on for Esquimalt arriving at 3:30. His Excellency landed under a salute of 17 guns, yards manned, and the voyage was finished.

THE PEOPLE'S FRIEND—PERRY DAVIS' VEGETABLE PAIN KILLER—The Greatest Family Medicine of the Age—Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic, Asiatic cholera, diarrhœa, and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. It is a sure remedy for Ague and Chills and Fever.

HOLLOWAY'S OINTMENT AND PILLS.—Coughs and colds are alike distressing to the patient and annoying to those around him. The mode of cure is simple, innocent, and effective. Holloway's Ointment should be thoroughly rubbed into the chest and between the blade bones twice a day, while the blood is undergoing purification by appropriate doses of his Pills. A double result is thus secured—the air tubes are relieved of accumulated phlegm and the lungs are freed from an impure circulation. These favoring conditions remove the cause and the cough ceases. By the same means and with equal facility, the treatment by Holloway's inestimable remedies will overcome ulcerated and sore throats, diptheria, bronchitis, pleurisy, and asthmatical and pulmonary congestive complaints.

Relief for the Afflicted.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Confederation or Annexation.

In twelve days the House of Assembly will expire by effluxion of time. Very little time can therefore be devoted to public business, and yet before the dissolution comes a grave work has got to be performed. Our relations with the mainland, and with Her Majesty's Government, will have to be clearly and unequivocally put forward. The House will have to declare that it cannot consent to any union that gives to the people less power than they already possess—that when the Assembly left the form of constitution in the hands of the Imperial authorities, it had confidence in the good faith as well as wisdom of these authorities, and never for a moment supposed that the Secretary of State for the Colonies would have allowed himself to be misled by the malice and puerilities of the gubernatorial nincompoop who glories in the aristocratic name of Seymour. It expected, as it was really bound to do, that Her Majesty's Government would deal justly in the matter—that although authority was given them to frame a constitution according to their own ideas of colonial wants, it was never for a moment presumed that advantage would be taken of the circumstance to deprive the people of even the small modicum of power which they already possessed; and least of all was it expected that the subsequent resolutions of the House, showing a desire for not only representative but responsible government would have been disregarded. The question that now arises is, what is the Assembly to do? We said curtly in our yesterday's issue that but two courses present themselves—to become part and parcel of the British North American Confederation, or to pray to Her Majesty for annexation to the United States The first course, we will at once admit, if our recent telegrams are correct, is much the most speedy and most practical way of getting rid of our littleness, our misgovernment, and our dead weight of officialdom. It is now announced that the Confederation scheme is on the eve of being carried out—that the Imperial Government has framed the basis which is to be immediately built upon by the colonies. This alters our case materially, alters our union question, and, in fact, our entire colonial aspect. If we can become at once a member of the Confederation, our destiny is one of which we might well be hopeful and well feel proud. No more an isolated, neglected part of the colonial empire, we shall be brought into instant *rapport* with our colonial brethren east of the Rocky Mountains, and become a healthy member of a vigorous body—no more the receptacle for the "ne'er-do-well's" of the mother country who are foisted on us for support, we shall be governed in such a manner, and by such persons as the people themselves shall declare.

The annexation to the United States is, as we have already said, a question fraught with many difficulties, but it is a question which, now that it has taken hold of the public mind, should not be allowed to die away. If we can show to Her Majesty's Government how much the British connection is costing us, what immense material advantages would open out to us by becoming a member of the neighboring Republic, we strike in the breast of Her Majesty's Ministers the very responsive chord of self-interest, and from that moment banish from their dealings with us that almost cynical indifference with which we have been treated, and which has left us a prey to the official wolves of both colonies. At all events we shall never get anything from the British Government by sycophantic and spurious loyalty; the history of every colony shows that our political parent has to be stirred up by sundry goads before she deigns to bestow a passing thought upon us. We have our own destiny in our hands if we know how to use our strength. Confederation lies clearly and *immediately* before us, if we adopt the proper tactics. Let us only go about the matter in a business-like, sensible way; let us pass a series of resolutions which will meet with the views of the people of both colonies, and transmit them to the Imperial Government, as well as to the various authorities in the Eastern provinces, and we believe we shall have to wait but a very short period before cheap and efficient government, with the thousand collateral advantages arising from being members of a young, progressive, and incipient nationality, will be within our grasp.

A Down East Juryman.

["Ethan Spike" contributes to the Portland *Transcript* a sketch of his experience as a juryman. The first cases he was called upon to try were capital ones—the criminals were a German and a 'nigger' respectively.

'Hev you formed any opinion for or agin the prisoners?' said the judge.

'Not particular agin the jarmin,' says I, 'but I hate niggers as a general principle, and shall go for hanging this old white wooled cuss, whether he killed Mr. Cooper or not,' says I.

'Do you know the nature of an oath?' the clerk axed me.

'I orter' says I, 'I've used enough of 'em. I began to swear when I was only about—'

'That'll do,' says the clark. 'You kin go hum,' says he, 'you won't be wanted in this ere case,' says the clark, says he.

'What!' says I, 'aint I to try this nigger at all?'

'No' says the clark.

'But I'm a jewryman,' says I, 'and you can't hang the nigger onless I sot on him,' says I.

'Pass on,' says the clark, speaking rather cross.

'But,' says I, 'you mister, you don't mean as you say; I'm a regular juryman, you know. Drawed out of the box by the seelick man,' says I. 'I've ollers had a hankering to hang a nigger, and now, when a merciful dispensatory seems to have provided one for me, you say I shan't sit on him! Ar this your free institutions? Is this the nineteenth centry? And is this our boasted—'

Here somebody hollered 'Silence in Court.'

'The Court be d—!' I didn't finish the remark fore a couple of constables had hold of me, and in the twinkling of a bed-post I was hustled down stairs into the street.

'Naow, Mr. Editor, let me ask, what are we comin' to, when jewrymen—legal, lawful, jewrymen, kin be tossed about in this way? Talk about cancers, Mormons, spiritualism, free love and panics—what are they in comparison? Here's a principle upsot. As an individual, perhaps, I'm of no great account; tan't fur me to say; but when as an enlightened jewryman I was tuk and carried down stairs by profane hands just for asserting my right to sit on a nigger—wy it seems to me the pillows of society were shook; that in my sacred person the hull state itself was, figgeratively speakin', kicked down stairs! If thar's law in the land I'll have this case brought under a writ of habeus corpus or icksey bickset.'

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic** and **Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts. per box.

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged they will prove most invaluable, as a remedy, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhea,
Dropsy,
Debility,
Fever and Ague.

The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the time in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions, whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 3. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fever of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Doloreux
Colics	Indigestion	Tumors
Constipation of the Bowels	Inflammation	Ulcers

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts. per box.

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged they will prove most invaluable, as a ready, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhea,
Dropsy,
Debility,
Fever and Ague.

The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the time in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions, whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 5. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
