THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arresteb in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and	Sore Nipples
Bunions	Stiff Joints	Sore Throat
Bite of Moschetoes	Elephantiasis	Skin diseas
and Sand-Flies	Fistulas	Scurvy
coco-bay	Gout	Sore heads
Chiego-foot	Glandular Swellings	Tumors
		Ulcers
Chilblains	Lumbago.	Wounds
Chapped Hands	Piles	Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar), London; also by a respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices 1s. 1½d 2 9d. 4s 6d., 11s., 22., and 33s., each Pot.

Relief for the Afflicted.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker.
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarhœa and Dysentery.

Taken externally cures

Felons, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,
Toothache,
Pain in the Face,
Neuralgia and Rheumatism.

PAIN KILLER,

Taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a COUGH and Bronchitis, a few drops on Sugar, eaten, will be more effective than anything else. For SORE THROAT, gargle the throat with a mixture of Pain Killer and water, and the relief is immediate and cure positive.

☞ It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with ull directions for its use.

Prices 25 cents, 50 cents & $1 per bottle.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHEA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&C.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

AN ADVERTISING DODGE.—A few days ago the *N. Y. Times* pleasantly complimented the *Tribune* on its taste in editorials, the latter journal having published as original a long article on paper collars, which had previously appeared, word for word, in the columns of the former. The *Tribune* responded by asserting that they had not seen the article in the *Times* until their attention was called to it, and, furthermore, that it was offered to them in manuscript by a well-known literary man, and paid for. In proof of the latter assertion, the *Tribune* appended a receipt for $25 for the article in question, signed by John W. Kennion. The exposure of the *Tribune* brought out Mr. Kennion, who explains his connection with the matter thus:

"The facts of the case are these: A party connected with the 'paper collar' trade and manufacture desired me to cause, if possible, to be published in your paper a MS., which was handed to me, and which I had no idea had appeared, in the columns of the *Times*, nor yet did I know that I was acting wrong in having undertaken its publication; but I admit that I copied the matter so the more readily to secure its appearance."

The article in question was simply an advertisement, a column and a quarter long, and there can be little doubt but that the parties in interest paid somebody a good round sum to get it into the editorial columns of the *Tribune*, while the *Tribune*, in turn, paid Mr. Kennion $26, for the privilege of publishing it as an original article.

SAD DESTITUTION IN AUSTRALIA.—The *Melbourne Herald* of June 15th relates the following case of hardship:—"An action was brought in the new court on Wednesday, before Mr. Justice Williams, in which the Hon. W. J. T. Clarke sued a squatter named Philips, for not borrowing from him the sum of twenty thousand pounds. It appeared from the evidence that the plaintiff had taken some trouble and gone to some expense in investigating the security offered, and that he had not been since able to find a safe investment for his money. In cross-examination, Mr. Clarke said that, owing to the falling in of another mortgage for £15,000, his present condition was even worse, as he had now £35,000 uninvested. It is only proper to say that the sad case excites universal commiseration, and our readers will be glad to learn that from the contents of the subjoined memorandums, picked up by our reporter in the court, active steps are being taken to relieve Mr. Clarke's necessities. 'Subscription list: The undersigned, sincerely regretting to learn that Mr. W. J. T. Clarke is suffering from pecuniary embarrassments (in not being able to find borrowers of his money), have agreed to relieve him to the extent set opposite to their respective names:—R. D. Ireland, £5000; J. D. Wood, £5000; T. H. Fellows, £5000; B. C. Aspinall, £7500.' The jury found for the defendant."

A SIBERIAN WOMAN.—A gentleman who is engaged in the telegraphic expedition in Siberia, relates the following incident in a letter to a friend in Cincinnati: "I met with a Korak woman of about twenty-two years of age, on the great Tundra, (marked Keran on the map,) who drove a team of reindeers with a loaded sledge fifty versts in one day, and at night slept out in the snow, with no covering whatever except the clothes she had worn during the day, and in a temperature 43 degrees below zero, 75 degrees below the freezing point! Think of that, ye effeminate ladies of America. That I saw myself, although even to me it seems incredible now. I thought it an extraordinary thing to sleep in a reindeer-skin tent out of doors in such weather, and should have frozen to death in two hours had I attempted to sleep without it. She traveled with us, driving her own reindeer, and sleeping on the snow every night.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

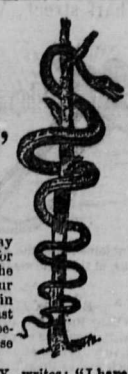
AYER'S

CHERRY PECTORAL,



FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given public to the world. For over a quarter of a century in private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and restore and invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the wasting energies to their pristine state. To the young and middle-aged they will prove most invaluable, as a ready, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Bilious Complaints,
Diarrhœa,
Dropsy,
Debility,
Fever and Ague.

Female Complaints,
Headache,
Indigestion,
Inflammation,
Inward Weakness,
Liver Complaint,
Lowness of Spirits,
Ringworm,
Rheumatism,
Salt Rheum,
Scalds,
Skin Diseases.

☞ NOTICE.—None genuine without the engraved trade-mark around each pot or box, signed by DR. J. MAGGIEL, 63 Fulton street, New York, to counterfeit which is felony.

☞ Sold by all respectable Dealers in Medicines throughout the United States and Canada—at 25 cents per box or pot.

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).

The Edinburgh Review (Whig)

The Westminster Review (Radical)

The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the time in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews	$4	per annum
For any two of the Reviews	7	"
For any three of the Reviews	10	"
For all four of the Reviews	12	"
For Blackwood's Magazine	4	"
For Blackwood and one Review	7	"
For Blackwood and any two of the Reviews	10	"
For Blackwood and three of the Reviews	13	"
For Blackwood and the four Reviews	15	"

CLUBS.

A discount of *twenty per cent.* will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review will be sent to *one address* for $12 80. Four copies of the four Reviews and Blackwood, for $48, and so on.

POSTAGE.

When sent by mail, the POSTAGE to any part of the United States will be but twenty-four cents a year for "BLACKWOOD," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years.

Subscribers may obtain the Reprints immediately preceding 1866, as follows, viz.:

Blackwood from September, 1854, to December, 1865 inclusive, at the rate of $2 50 a year.

The *North British* from January, 1863, to December, 1865, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1865, inclusive, and the *London Quarterly* for the year 1865, at the rate of $1 50 a year for each or any review.

☞ A few copies yet remain of *all the four Reviews* for 1862 at $4 a set, or $1 50 for any one.

LEONARD SCOTT & CO.,

Publishers, 38 *Walker Street, N. Y.*

L. S. & Co., also publish the

FARMER'S GUIDE

By HENRY STEPHENS, of Edinburgh, and the late J. P. NORTON, of Yale College. 2 vols. Royal Octavo, 1600 pages, and numerous Engravings.

Price $7 for the two volumes—by Mail, post paid, $8 00. au 23

All articles from his Establishment are guaranteed to be pure and unadulterated. The public are respectfully invited to call and convince themselves Country orders promptly attended to. se 2

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 5s. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fits	Sore Throats
Bilious Complaints	Fever of all kinds	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Doloreux
Colics	Indigestion	Tumors
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness from whatever cause
Dysentry	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

*** There is a considerable saving by taking the larger sizes.

Directions for the guidance of patients in every disorder are affixed to each box.

PRINTED and Published by McCLURE & Co. at the office, Langley Street.

Evening Telegraph.

THURSDAY EVENING, OCTOBER 4, 1866.

Cariboo and the Legislature.

The Cariboo miners have been sorely puzzled to find a candidate who will stand for nomination at the approaching "election." Mr. Robertson, one of the most liberal and progressive lawyers in either colony, and the general favorite of the miners, declines to represent Cariboo or any other constituency in the Official Legislative Council of British Columbia. Under other circumstances we would regret exceedingly, Mr. Robertson's course, —for no better man could be found for the position—but, as we have said in a previous issue, it is simply degrading the people to have an election at all. Another gentleman, Mr. MacLaren, equally popular and equally capable, is put forward by the Mining Board of Cariboo, but in an able letter to the *Sentinel*, he declines the "honor," and gives his reasons very lucidly for so doing. It is rumored that he was subsequently persuaded to accept the nomination but so far we have nothing before us to that effect. Mr. McLaren administered some sound castigations to Governor Seymour for His Excellency's misrepresentations. Quoting from that portion of the celebrated Parisian Despatch in which the gubernatorial penman says—"I like to hear any grievance which the American miner may imagine he suffers from in Cariboo disposed of as now by the remark 'wait for the next election!'" Mr. McLaren very properly observes:

Now I do not think there is an intelligent American in Cariboo that thinks if Daniel Webster were to come from the dead and represent them in this Council he could reform it, with ten official members voting their own salaries, and only responsible to themselves, and only five elective ones, especially when the Government have a declared written policy at Downing Street which they are pledged to support.

Alluding to the statement in the despatch that "a large sum was spent in connecting by a long street the three mining towns in Cariboo," Mr. McLaren says:

Now the estimates for roads, streets and bridges was $125,500; the 'large sum' spent on our STREET was $6,700. This street is only nine feet wide, without a railing on the creek side, and over which one or two vehicles fall every week. Again, Governor Seymour says, 'Public libraries, etc., testify to the energy of the Government,' The Cariboo Library has cost in pub ic subscriptions and private donations over $8,000; the Government expenditure is $400. Energy! 'Ne dites moi jamais ce bete de mot.'

The rest of the letter is too pointed and too forcible to bear condensing, and we therefore give it in its entirety:

It is also a part of the policy to represent that British Columbia is prosperous and satisfied. It well may. One official for every 45 inhabitants, and a taxation equivalent to $250 per caput.

The Civil List in Canada in 1861 was $437,285, the population 2,500,000. The Civil List of British Columbia in 1866 is $178,358, the population 5,000. Yet the Canadian Government were compelled to reduce their salaries 12½ per cent. We are satisfied! Our Government appropriates to itself about one-fourth of the revenue for managing (?) the three fourths—30 per cent commission. The item "Governor" in the estimates is $29,654 50, almost $5000 more than the mighty ruler of 40 states and 30,000,000 of people receives. Well done five thousand! Highly satisfied prosperous five thousand!

Again it is part of the policy of this Government to offer certain conditions of Union or annexation to Vancouver Island, apparently because they cannot be accepted; and the whole Colony is represented as endorsing a view which is only cherished by a party. Space will not allow me to follow this policy further at present; but I must say it is one in which I have no confidence.

I perceive also that the only relationship existing between the miners and the Government at present is a supreme contempt on the part of the former and a morbid insensibility on the part of the latter—a relationship with which I do not wish to deal.

It is high time for the Government to shake off its dignity of dullness, to discern the real condition of the Colony, to abandon the idea that a mere fishing station at the filthy mouth of the Fraser is the whole of British Columbia, to adopt a stronger bond of union than the bond of common plunder, and to abandon for ever the worship of Janus. It will no longer satisfy the American or any other miner to "wait for the next election."

It is only in popular institutions that the people can be represented; it is only in popular institutions therefore that I ever wish to represent the people.

Such are the sentiments of every independent and intelligent man in either colony; the only misfortune is they are not always acted up to. Men will be found to come forward for "honors" the most questionable, and people will be discovered tame enough to submit to a bad state of things rather than assume the trouble of remedying it. The only consolation is that necessity compels them ultimately to do their duty. When things come to the worst—when mismanagement carries with it general destruction, and empties the colony of the best portion of the inhabitants—when in fact political indifference is seen to produce as it always does, pecuniary indgence, then something has to be done. That something, like everything else that comes too late, generally assumes a violent and revolutionary character, and so the population as a punishment for their carelessness or inertia, have to meet with the worst phase of a country's existence. The safest and quietest remedy for the people of British Columbia, would have been to have scouted the proposition of an election altogether, and brought the Government into an ostensible as well as virtual despotism, or forced it into a representative institution.

NEW WESTMINSTER LIBERALITY.—It has been so much the custom to run down or laugh at everything done in the capital of the neighboring colony, that it is refreshing to announce an act that calls forth the admiration of even the most hostile Victorian. The *British Columbian* office we have already announced was burned to the ground, and the type destroyed, and neither the place nor the material was insured. On this fact becoming generally known the inhabitants made up a subscription which in the course of a very little time amounted to one thousand dollars, the old office of the *North Pacific Times* was purchased, and the paper again made its appearance, having only omitted a single publication. It is rather an interesting fact that one side of the paper had been printed off when the fire occurred and through the exertions of the firemen it was saved. The issue which came down yesterday was this number bearing indications on its edges of the conflagration. We congratulate our contemporary on so speedy resumption of publication, and record our admiration of the noble spirit of liberality which animated the people of New Westminster on his behalf.

"JACK" IN TROUBLE.—Four sailors from H. M. ships at Esquimalt were brought up in the Police Court this morning, charged by officer Abson with fighting in the streets, and with assaulting him in the execution of his duty. It appeared that the jolly tars had got on a spree and were becoming rather too demonstrative, when officer Abson interfered and attempted to take one of them into custody. He resisted and was assisted by the others, who knocked the officer down, and the culprits then ran for it, one of them jumping into a boat lying at Reid's ferry, containing three men. Just as the boat was moving off officer Ferrall jumped in after the runaway and the boat upset plumping the whole lot into the water, whence they were rescued by John Reid. The sailors were then arrested and lodged in gaol, two civilians who were in the boat also being imprisoned for aiding their escape. After hearing the case this morning the magistrate remanded the lot for further evidence, except one sailor whom officer Abson admitted he tried to kick, and whom the magistrate let off with a fine of $1, as the officer had exceeded his duty.

EXCURSION—On the invitation of Dr. Tolmie, of the H. B. Co., a large party of ladies and gentlemen started on the steamer Enterprise this morning for an excursion up Puget Sound. The party consisted of His Excellency and family, Sir James Douglas and family, Judge Needham and daughters, several other officials, Dr. Tolmie and family, Hon. R. Finlayson and family, and many others. The Enterprise sailed about 10 o'clock, calling at Esquimalt, when she took on board a large number of officers from H. M. ships; she then sailed for Port Angelos, and will call at all the principal Sound ports, returning on Saturday evening.

THE SHRIEVALTY.—His Excellency has appointed William Robert Haynes Adamson to be Sheriff, *vice* Naylor, deceased. The appointment we think is a most judicious one. Mr. Adamson is a gentleman fully capable in every way of performing the duties of the office, and will, we are satisfied, prove a worthy successor to the late lamented Sheriff.

VANCOUVER ROWING CLUB.—A meeting of the members of the Vancouver Rowing Club will be held to-morrow afternoon, at three o'clock, to receive the boat, make arrangements for crews, and for getting up races &c. All members are requested to be present.

REWARD OFFERED.—The British Columbian government offers a reward of $500 for the apprehension and conviction of the villains who set fire to the *Columbian* newspaper office.

THE Enterprise will not make her customary trip to New Westminster to-morrow, consequently we will have no communication with the sister colony till next week.

A correspondent of a New Orleans paper writes from Alexandria, Louisiana: 'General Beauregard is under parole to the United States military authorities, and has visited Europe under the special permission of the President of the United States; and he will abide especially by that parole and by that permission. In this regard he will not engage his services to any of the European belligerents without the express permission of the President.'

REMOVAL.—Messrs. Solomon Bros. have removed to the two-story brick building on Government street, opposite the St. Nicholas Hotel. They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call. *

FUNERAL OF SHERIFF NAYLOR.—The funeral of the late Mr. William Brook Naylor, sheriff of the Colony, took place this afternoon at 3 o'clock. The funeral procession consisting of the members of the two Masonic Lodges, the members of the Fire Department, and the citizens, formed in front of the Masonic Hall, Government street, and proceeded to the residence of the deceased, James Bay, whence they took the route along Government Square round the head of James Bay, along Humboldt, Government and Fort streets to Christ Church and thence to the cemetery, in the following order: Rifle Volunteer Band, playing the "Dead March" in Saul; members of the Vancouver and Victoria lodges, in full regalia; the Hearse, with Messrs. D. B. Ring, H. Wooton, C. B. Young, J. J. Cochrane, W. S. S. Green, Dr. Powell and Captain Frain, as chief mourners; brother officials of the deceased; the Police; members of the Fire Department; citizens; draymen, with their drays; in all numbering more than three hundred persons, and forming the largest funeral ever seen in the colony. At the cemetery the solemn and impressive services prescribed by the Masonic order were read by the Chaplain, the Rev. Thos. Somerville, and the body of the lamented gentleman was consigned to its mother earth amid the profound feeling of sorrow at the loss of a trustworthy official, a good citizen, and a faithful and kind-hearted friend.

FRENCH MILLINERY—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris.—J. H. TURNER & Co. *

CARIBOO.

MINING INTELLIGENCE.

(*From the Sentinel.*)

WILLIAMS CREEK.

The late rain has had the cheering effect of starting every claim on the creek to active operations again, and there is every prospect of considerable dust being taken out yet before fall. Owing to the almost total suspension of mining on the creek till within the last few days, scarcely any money has been taken out for the past week, but now that everything is in thorough working order, we trust to report favorably on mining matters generally before the end of the present week.

The United Co. in Conklin Gulch washed up for the week 156 oz, thus yielding a dividend of $74 to the share.

GROUSE CREEK

The Heron Co. are still taking out good pay; the wash up for the week ending 22d instant, was 201 oz. $4.

The Discovery Co. took out about 150 oz. for the week.

BEGGS GULCH.

We were shown a beautiful specimen that was taken out of a claim on this gulch last week weighing over three ounces. There are only two companies at work on the gulch and both are making over wages.

LOWHEE CREEK.

The miners on the upper end of this reek who have been idle for a month ast, are now endeavoring to make up for ost time by taking advantage of the opious supply of water now running in heir ditches and in the creek.

CANYON CREEK.

The quartz discoveries on Hixon creek are now attracting considerable attention. The Washburn and Steward companies are the only ones which have commenced prospecting systematically. The former company sank a shaft near the creek about 18 feet in depth, and were then driven out by the water. They have not as yet found any defined lead, but the indications are good. In sinking they came across a great many detached pieces of quartz, in some of which gold was visible to the naked eye. In sinking the shaft they took out about half a ton of rock, and have shipped it to San Francisco to be tested.

A new creek, called Terry's creek, about six miles east of Hixon creek and emptying into Canyon creek, is reported to be paying well. Letters have been received here from parties who are making from $15 to $20 per day. The gold is of the same nature as that found on Hixon creek, being full of quartz, and of a poor quality; the Bank of British Columbia are only paying $14 25 an ounce for the dust.

ELECTION INTELLIGENCE.

Mr. McLaren has issued an able address to the Mining Board declining to stand for Cariboo. The *Sentinel* says: We have just heard that Mr. G. A. Walkem, our late member, is a candidate for re-election. It would appear that he has thrown off on his Lillooet friends. The measures which Mr. Harris pledges himself to support and advocate if returned are these: The abolition of Road Tolls; the establishment of schools throughout the colony; reduction of officials' salaries; abolition of sinecure offices; passing of a Homestead Law; the amendment of the present Mining Laws so as to prevent mining suits being carried into a Court of Chancery; reduction of the tariff on certain articles such as beans, bacon, &c, to 12½ per cent; Government support to the Cariboo Hospital, the passing of a measure for authorizing a Gold Commissioner to construct trails from one mining camp to another, on application of a certain number of the resident miners.

The Reception of Governor Seymour.

To the Editor of the Evening Telegraph:

SIR—Many of us, and I am afraid I belong to that class, are too apt to act impulsively instead of calmly submitting men and their acts to our deliberate sober judgment. We even go farther, by anticipating results that may never take place, and often never would unless prompted by our own rashness. If we are to believe in reports, it would appear that Mr. Seymour is positively to be governor of both colonies united; that he may shortly arrive, and it is said may at once take up his residence for some time among us. Coming, as he will, in the character of the representative of our beloved Queen, there can be no question with me, though I fear there may be with others, how the gentleman ought to be received; let us first see whether we have hitherto treated him properly. Everybody here at the time of the arrival of Governor Kennedy must remember the extraordinary ovation made to that gentleman, and, strange to say, though we knew no more of him than we did of Governor Seymour, this gentleman never received the slightest demonstration of civility from the inhabitants of Victoria, even before what was considered his hostile action towards this colony. What renders this fact all the more remarkable is that the Victorians have rendered themselves famous by the numerous banquets given to distinguished foreigners and to citizens, some of whom could hardly, by the most liberal construction, be ranked among the distinguished; now it must in all candour be confessed that a governor of a neighbouring colony had a legitimate right on his first visit to this colony to expect as much attention to be shown him by its inhabitants as any of the gentlemen referred to. There is another circumstance also which has certainly not been calculated to captivate the good will of Governor Seymour, and that is the constant clamour of our press against the government of British Columbia, which may have induced the effective reprisal of making goods from Victoria pay heavier duties than those that are imported direct from a foreign port. But what must have justly exasperated Governor Seymour beyond any other act was the resolution that the colony over whose destinies he had been recently sent to preside, should be united to this one, without even consulting him on the matter, though it might have involved the great inconvenience of removal from a home where he had made every preparation to pass the full term of his governorship. I think that by far the greater number of your readers after having duly considered these facts will agree with me, that Governor Seymour had abundant cause for entertaining anything but a friendly feeling for the inhabitants of this colony. If Governor Seymour has influenced Her Majesty's government in depriving us of our representative institutions, and substituting an infinitely less liberal constitution in their stead, by misstatements, by assertions at palpable variance with the truth, neither he nor any other gentleman can be justified in such a course, and yet as we have indulged in great flights of imagination in pleading our case, Governor Seymour may think that he had a right to use the same means. I have heard more than one of our politicians declare 'that the end obtained justifies the means,' but this I presume, with their usual liberality they meant to apply exclusively to themselves; whatever means Governor Seymour has used, he has triumphed and how do we know but that like General Scott after having conquered Mexico, he may derive much more honor and glory from the moderation with which he use his victory than from the victory itself? A great wrong has no doubt been done us by the Imperial Government, though we did voluntarily submit our fate to its decision, but we have yet to see the *operation* of the law from which we apprehend so much injury; the law itself may prove even beneficial though I very much doubt the possibility, but if the *effects* of it should become insupportable, we have the authority of our greatest philosopher and of our greatest jurisconsult to use all the means we can employ for resistance. For my own part I should no more think of insulting Governor Kennedy on his departure, than of treating Governor Seymour with any demonstrations of incivility on his arrival and I hope and trust that he will be received with the respect due to his position, which will no doubt be properly appreciated by him, and may do much good, while evil must inevitably result from a display of ill-will.

MONITOR.

Queen Charlotte Coal Mining Co.
(LIMITED.)

Notice of Assessment.

AT A MEETING OF DIRECTORS OF THE above Company held this day the following resolution was passed:—

"That an Assessment of Sixpence sterling per Share on A shares be now made, payable to the Secretary at the office of the Company, on or before the 29th inst., between the hours of 11 A. M. and 2 P.M. daily."

J. S. WILLIS,
Corner Broad and Trounce sts. } Secretary.
September 6th, 1866. 7-td

Special Notices.

MR. ZINN begs to announce to the inhabitants of Victoria that he has lately received a large assortment of Children's Carriages and Chairs, Fishing Baskets and Fishing Canes, and a large quantity of Market and Travelling Baskets, China Vases, Fancy Goods and Toys, all of which have to be sold on or before February next at greatly reduced prices Goods sold at wholesale for cost prices. *

MR. DIGBY PALMER requests that orders for teaching, playing and tuning Pianofortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort street. *

ALEXANDRE'S GLOVES—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia. *

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints,—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic** and **Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts. per box.

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

Obituary.

The London correspondent of the S. F. *Alta* thus notices the deaths of several personages eminent in their way and whose names will be familiar to many of our readers :

Two of the finest sportsmen in fact, I'll say the two finest sportsmen of this or any other age, have recently been called to their last account.

Lord Chesterfield began life in the days when Crockford's was open day and night, estates won and lost at a sitting, and D'Orsay the presiding genius of the fashionable world. It tells well for him, that although he came out of this school with a sadly crippled fortune, yet to the last he was quoted as a man of mark, and the devil-may-care way he wore his hat has scores of times been attempted in vain by juvenile aspirants to fame, it was unequalled, and with a walk to match he looked every inch a Peer ; and the lowest cad from the stable would turn round as he passed and mutter, " He's in the stud book," as a patron of racing, riding across country with the quorn, tooling a matchless team to Richmond, handling the deadly "Manton" in a battue, well may it be said, we ne'er shall look upon his like again.'

Following closely on the heels of this contemporary, 'the Old Squire,' as Geo. Osbalderton was universally known, has gone to his last hunting grounds at the ripe old age of 79. As he was preparing his memoirs at the time of his death, very few remarks need be made about him now ; but as a thorough sportsman, to say he was worthy to rank beside Chesterfield, is the highest praise I can give him. A magnificent horseman, many years master of the Quorn and Pytchley ; a terrifically fast bowler at cricket ; running Roberts close at billiards ; a finished pupil of Ould Nat Langham—these are only a few of the sports in which he made himself a great name, and the name of the 'Squire' will assuredly be handed down to future sportsmen as a 'triton among minnows' Unlike Lord Chesterfield, who was the essence of *bon hommie* and good nature, the Squire had a devil of a temper, and I shall never forget the passion he was in after riding in the Two Thousand, in 1846, when he complained of Hatman's language to him. After a 'cannon' they had when a steward of the Jockey Club, he told him that 'if he choose to ride with jockies, he must put up with jockey fare.' Sir Bellingham Graham and Lord Rosslyn, both M. F. H's, Marquis Camden, and a great *bon vivant*, Mr. Wiglam, whose splendid dinners in Grosvenor Square are said to have hastened the end of Soyer with vexation, have all been called to the last account Poor old Robert Roxley, of Drury Lane, is no more, and champagne drinkers ought to mourn the death of Madame Cliquot, the head of the firm.

LONDON SPORTING INTELLIGENCE —The Goodwood week has just gone by, and has been a fearful one, both as regards weather and 'hard hits,' the book-makers making a rare harvest. Pigeons plentiful, and most of the West End stationers were out of bill stamps at the end of the week. The Marquis of Hastings carried off the cup with the 'Duke,' the young gentleman and his followers popping the stuff down like men on the horse. His Lordship gave Mr. Naylor a cheque for £10,000 for his yearlings, instead of their annual auction. Old Lord Glasgow has dismissed his 33rd jockey, Johnny Osborne, because he didn't get on a horse to his liking, and now they say he's going to ride his own horses, having tried all the jockeys. Lord Stamford's sporting dogs were sold a few days since, and the young pointers averaged forty guineas each ! The 'legs' and 'sharps' have a splendid pigeon now. Not full and round, but splendid of feathers, and very soft and tender. His Grace the Duke of Hamilton, Brandon in the peerage of England, Duke of Chatellerault in the peerage of France, and owner of half Scotland, having completed his 21st year after a long minority, honors the turf with his patronage. His Grace has started an immense establishment here. Another in France was 'hit' in Paris—the *grand prex* week for £60,000 round a table, at *La Cercle*, the *creme de la creme* of clubs —that is, if you want to play cards. His Lordshid's name was also in the papers a few days ago for hitting a policeman outside a brothel in the Haymarket at three in the morning, as the 'bobby' was impudent enough to want him to go home ; so I think we may safely prognosticate a brilliant career for his Grace.

CINCINNATUS.—This well-known Roman, it will be remembered, when his military services were no longer needed, returned to the plow. He now has some imitators in the United States, and a well-known Confederate Brigadier, who represents Cincinnatus in North Alabama, has been endeavoring to do the thing barefooted, but it seems that the recent hot weather interfered with his classical tastes. To the Nashville *Union* he writes : ' I have followed the plow diligently this summer. On Friday and Saturday last I tried it barefooted. I stood it the two days, but the ground was so hot outside the new made furrow that I had to follow the plow-tail to a dot.'

What is the most profitable of all businesses ? The shoe, for every pair is *soled* before it is finished.

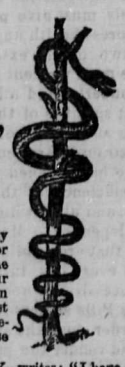
AYER'S

CHERRY PECTORAL,



FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, ESQ., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, ESQ., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass.

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure They search out the various maladies by which the patient is suffering, and re-invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged they will prove most invaluable, as a remedy, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring !

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases :

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhea,
Dropsy,
Debility,
Fever and Ague.
Female Complaints,

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).
The Edinburgh Review (Whig)
The Westminster Review (Radical)
The North British Review (Free Church)

— AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the time in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews	$4	per annum
For any two of the Reviews	7	"
For any three of the Reviews	10	"
For all four of the Reviews	12	"
For Blackwood's Magazine	4	"
For Blackwood and one Review	7	"
For Blackwood and any two of the Reviews	10	"
For Blackwood and three of the Reviews	13	"
For Blackwood and the four Reviews	15	"

CLUBS.

A discount of *twenty per cent.* will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review will be sent to *one address* for $12 80. Four copies of the four Reviews and Blackwood, for $48, and so on.

POSTAGE.

When sent by mail, the POSTAGE to any part of the United States will be but twenty-four cents a year for "BLACKWOOD," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years.

Subscribers may obtain the Reprints immediately preceding 1866, as follows, viz. :

Blackwood from September, 1864, to December, 1865 inclusive, at the rate of $2 50 a year.

The *North British* from January, 1863, to December, 1865, inclusive: the *Edinburgh* and the *Westminster* from April, 1864, to December, 1865, inclusive, and the *London Quarterly* for the year 1865, at the rate of $1 50 a year for each or any review.

☞ A few copies yet remain of *all the four Reviews* for 1863 at $4 a set, or $1 50 for any one.

All articles from his Establishment are guaranteed to be pure and unadulterated. The public are respectfully invited to call and convince themselves Country orders promptly attended to. se 2

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits, and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace ; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient ; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London ; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 5, 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fevers of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Doloreux
Colics	Indigestion	Tumors
