SMITH CURTIS

Political Meetings Against Dunsmuir's Policy.

VANCOUVER AGAINST MARTIN

No One to Uphold "Fighting Joe's" Flop—The Oriental and Labor Questions.

Hon. Smith Curtis, M.P.P., for Rossland returned last night from a visit to the coast where he spoke at political meetings in the Chilliwack and Delta ridings and the City of Vancouver.

All these meetings were largely attended, and resolutions of non-confidence in the government were carried unanimously in Delta, (at Ladner), and Vancouver, and with but two dissentient voices at Chilliwack Mr. Munro, M. P. P., for Chilliwack, Mr. Oliver, M. P. P., for Delta, and Mr. Gilmour, M. P. P., for Vancouver, all expressed themselves as not having changed their attitude towards the Dunsmuir government, and Mr. Gilmour said he would not support the Dunsmuir government unless it came out and adopted the 22 planks of the Martin government—a thing it certainly will not do. Mr. Munro is desirous that the opponents of the government should meet and decide upon a policy and line of action. Mr. Oliver is willing to attend it, and Mr. Gilmour is willing to support a redistribution act and would then like to see an appeal to the country on party lines—a course which commends itself to a great many people. The Vancouver meeting was remarkable in this, that no one could be found in his own constituency to approve publicly of the flop of Joseph Martin into the arms of Dunsmuir.

Mr. Curtis at the Vancouver meeting stated the policy he would like to see followed with regard to Coast to Kootenay and other railway projects, the and Oriental and labor questions. In a future issue the WORLD will refer to these.

Mr. Curtis reiterates that the Dunsmuir government is in a minority in the House.

If you wish a dainty meal, call at the Kootenay. tf

SHOT FOUR BEARS.

Quick Work of a Sunday Morning at China Creek.

In the gulch, last Sunday, much interest was manifested in the result of a days hunting by James Hardington, Charles Newburn and William Pluman, who killed four bears in as many hours. The men started out at 3 a.m., after deer and made China Chreek their destination. They went around the mountain for a mile and a half when they were arrested by the vigorous barking of their dog, in a clump of bushes behind them. Turning, they were confronted by a big cinnamon bear and three cubs. They had no time to lose in despatching the bunch. Owing to the difficulty of travel, only two of the cubs were brought in. The skin of the other and the old bear were also brought to town.—Trail Creek News.

THE DEADLY WHITE DAMP

Bodies of the Eight Mining Men Recovered.

WITH THEIR ARMS CLASPED AROUND

A Brave Party of 40 Enter the Pocahontas Mine--Foiled Once They Try Again--Find the Slain Inspector and His Men.

Bluefields, West Virginia, Nov. 24.—The dead bodies of the lost party of eight men who entered the west mine of the Pocahontas Collieries company on Friday morning last at 11 o'clock were recovered at 12 45 o'clock today.

At 7 o'clock this morning a rescuing party numbering 40 persons, entered at the main entrance, bratticing the mine as they went in order to improve the circulation of the air. They had reached a distance of 3000 feet from the entrance when they encountered such quantities of white damp that it was impossible to proceed further. Retracing their steps they decided to make another attempt from the Tug river entrance some six miles across the Flat Top mountain.

They went in this entrance about 10.30 a. m. and after going about 600 feet found the dead bodies of A. S. Hurst, chief inspector; Bob Odham, sub-inspector and Fraser G. Bell, mining engineer, all huddled together. From their positions they must have met death suddenly and without pain. All of them were lying face down without a sign of a struggle. Hurst had made a pillow of his coat, on which his head rested.

The bodies of the other members of the party, superintendent of mines Walter O'Malley, Joseph Cardell, superintendent of the Shamokim Coal and Coke company, and R. E. St. Clair, second assistant inspector, were found several hundred feet back in the mine, three of the bodies lying some little distance apart. The bodies of Joseph Cardwell and St. Clair were lying with arms clasped around each other cold in death. The bodies of O'Malley St. Clair ane Price were discolored and bruised about the face showing signs of a struggle, it being very plain to see they made a desperate attempt at reaching better air, but already had advanced too far into the deadly white damp to escape alive.

THEY ARE FREE MEN

Colistro and Beamish Released--Will Be Banquetted on Friday.

Thomas Beamish and Joseph Colistro, of Rossland were released from the Nelson jail on Saturday, having completed their sentence of two months for assault on Joseph Horn, the stool pigeon, on Aug 10th.

They were given a reception Saturday, by the union men of Nelson, at the Miners Union hall.

The irrepressible Beamish served his time in close confinement, as he absolutely refused to work. He said he was on strike, and would not scab in Rossland or Nelson until the strike was settled.

Colistro returned to Rossland last night. Beamish has taken a trip to Nine Mile point on Kootenay lake to look after some mining claims in which he is interested.

Members of the different labor organizations of Rossland are arranging for a reception and banquet for Beamish and Colistro on Friday evening at the Miners' Union hall. A short musical program will be rendered during the evening and several speeches will be made.

Furnished rooms with stoves at strike prices at the Alhambra.

Accepted Canada's Offer.

London, Nov. 25.—The war office this afternoon said it has accepted Canada's offer of 600 mounted men for service in South Africa.

NEWS OF THE MINES

Ready for Shipment at the Estella--Noble Five Meeting.

The Prospector of Fort Steele says there are 25,000 tons of ore in the Estella mine ready for shipment.

An extraordinary general meeting of the Noble Five company is to be held in Victoria on Thursday, December 5th, for the purpose of considering the legal proceedings against the company for the foreclosing of the mortgage covering the property of the company.

Development work on the St. Eugene is progressing. The new combination shaft is down 160 feet and the timbering of the shaft and stations is in progress. As soon as the timbering is completed drifting in the 160 foot level will be commenced.

The Sandon Paystreak says the machinery for the McCrossan smelter, which is to be built at Ferguson is being hauled up the road to that place. It is to be a 50-ton stack, and the builders say that they will give a rate to the Lardeau producers that will save all of the long haul freight charges.

Five carloads of machinery of the Lanark concentrator have been received at the Payne mine and it is expected that the work of erecting the plant will be commenced early this week. All told there will be 200 tons of lumber and 50 tons of machinery to be transported before the entire plant will have been removed.

THE PEST HOUSE

Two Cases of Smallpox in the City.

DR. REDDICK ACTS PROMPTLY

Came in From Washington—Hulbert and Chisholm—Some Cases Under Suspicion.

Two cases of genuine small pox, one of a bad and the other of a mild type, are now in the isolated hospital. A suspicious case left the city southbound on Saturday, and another case is under quarantine by the city health officer.

Tom Hulbert, the first patient, was living at and working around the Montana Stables on Washington street. He complained of feeling ill on Wednesday last and on that evening took to his bed. Dr. Kenning was called in on Friday and on Saturday night Dr. Reddick saw the patient for the first time.

Yesterday morning the health official again visited Hulburt and at once declared him to be suffering from a bad attack of transfluent small pox.

Dr. Reddick says that he at once took steps to have the isolation hospital reopened, and Hulburt was transferred there as speedily as possible. "Doc" Johnson naturally undertook to act as nurse, attendant and cook and he and the patient are now the occupants of the pest house.

Hulburt says he came in here from Washington about three weeks ago. He ran the quarantine at Northport he says by walking in from that point.

Two men, who also came in from the south recently, and who have been working with Hulburt left for the south on Saturday. One of these men was ill when he left, and had a bad skin eruption of some sort, possibly smallpox, and it is thought that Hulburt may have contracted the disease from him. Hulburt is in a very critical state. His recovery is doubtful.

The second case was detected this afternoon in the northern portion of the city, in the house of Kenneth Chisholm above the C. P. R. track, and west of North Washington street. Chisholm has been about the Montana stables a good deal and it is presumable contracted the disease there. He was taken to the isolated hospital at three o'clock by Dr. Reddick. The health officer has one suspicious case awaiting developments, and three or four more awaiting further investigation.

The infected premises have been closed to the public, and three men are on guard there. Dr. Reddick says he will thoroughly fumigate the place and the contents tomorrow, and some of the blankets, etc., will be burned. A special meeting of the health committee was called for 4 p.m., this afternoon, and was in session as the WORLD goes to press.

Don't forget Thanksgiving dinner at the Kootenay. tf

WHO IS TO BLAME.

A bad case of smallpox in an advanced stage was discovered yesterday in the heart of the business section of this city.

The patient has been removed to the isolation hospital and we presume the health officer has taken every available means to prevent a further spread of the disease.

Many alarming stories about the outbreak are in circulation around the city today, all of them possibly untrue. It is quite certain, however, that the large majority of the late arrivals in this town have not been vaccinated, if we take the sworn evidence offered in the Geiser case as a sample of the way in which the work of the quarantine officers at Northport has been carried out.

The public will expect exceedingly prompt action on the part of the health authorities. We have enough trouble to contend with at the present time without having an epidemic on our hands, and the greatest care should be exercised at once, to isolate all suspicious cases and insist on the immediate vaccination of all residents who have not already been so treated.

There is no necessity of becomming unduly alarmed over the matter, but there is every reason for insisting that prompt measures should be taken.

NOT AN ADVANTAGE.

A week ago yesterday the Spokesman interviewed Mr. Cussack now a grocer of that city and formerly in business here with Fox & Co. Speaking of his reason for leaving Rossland at the present time, Mr. Cussack ventured to say:

"Rossland is not a good business town now, and the storekeepers do not expect stability to come until some radical change is made from the present condition. The old customers, the miners who have made their homes there, are now almost gone and the few left are leaving as fast as they can get work elsewhere. The non-unionmen did not leave the hill where they have been guarded when off shift, to come down town until quite recently. The non-union men live in the company's boarding houses on the hill and are either unmarried or have left their families in the east. The miner trade in the grocery business is almost entirely gone. In general, the non-union element is anything but an advantage to Rossland, and both the labor and the business conditions in the camp are far from satisfactory."

The Rossland Miner as the champion of the scab element took violent exception to the views expressed by Mr. Cussack, said he had been untruthfully reported and dared him to repeat his assertions over his own signature in the Miner.

Mr. Cussack promptly responded with a very decently worded epistle which appeared in yesterday's paper. The Miner adding further comment along the lines adopted on the first occasion.

If the real desire on the part of the scab journal was to hurt Messrs. Fox & Co. in a business way, by dragging them into a discussion on the merits and demerits of scab labor, it was just on the lines usually adopted by Mr. Macdonald's newspaper. It is quite impossible for the Miner to understand that any one can differ from it on questions affecting organized labor. The merchants of this city have already exerienced two scab pay days here, and we fancy their views on the subject are identical with those expressed very mildly by Mr. Cussack.

Is it not possible, for merchants, or any one else for that matter, to express views which clash with those fondly cherished by the morning paper, without that publication violently attacking them for daring to differ? Or must we all apply ach day to Bernard Macdonald's down town office to find out how we really stand on any given question?

If Rossland is to become a scab town pure and simple the champion of the undesirable element is making it very clear how everyone may expect to be handled when the "good time" really arrives.

The best dinner in town will be served on Thanksgiving day at the Kootenay, for 50 cents. tf

NOTES AND COMMENTS.

Would it be fair to say that Mr. Cussack in his letter to the Miner which appeared yesterday managed to condense more common sense into his "six pages of foolscap" than his critic, the editor, has contrived to impart into his editorials during the past six months?

There are six newspapers in Kootenay that can be depended on to oppose a fair redistribution measure. One is the Trout Lake Topic. It wants a riding made up of the Lardeau and Trout Lake mining division and the Duncan river portion of the Ainsworth mining division. Such a riding would have a population of about 1000. The Revelstoke Herald and Mail wants a riding with Revelstoke as the center. Such a riding with the Lardeau country cut off would have less than 2000 population. The Golden Era and the Canterbury Outlook want northeast Kootenay, with its less than 2000 of population, to remain as it is. The Kaslo Kootenaian wants a riding made up of the Ainsworth mining division alone, which has a population of about 2500. Were the wishes of these six newspapers granted, 7500 of the population of Kootenay would have four members, and the remaining 22,500 would have four. This is the kind of representation Kootenay and Yale and the Lower Frazer country have been denouncing for ten years or more.—Nelson Tribune.

Asthma Cure Free!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Write Your Name and Address Plainly.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.

New York, Jan. 3, 1901.

DRS. TAFT BROS', MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,

REV. DR. MORRIS WECHSLER.

Avon Springs, N. Y., Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symtoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. Feb. 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed, I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

MOUNTED INFANTRY

The Next Canadian Contingent for South Africa --Evans to Command.

Vancouver, Nov. 25.—A special from Ottawa says:

The news that the government's offer of another Canadian contingent had been accepted was received with much pleasure in the capital today, as it was thought possible that the government might consider the acceptance of further colonial assistance as a sign of weakness. The force to be sent will probably be made up of four service squadrons of mounted infantry consisting of four troops each, divided into two battalions of two squadrons each. Each squadron will have six officers, a major, a captain and four subalterns, and each battalion staff will consist of seven, namely, lieutenant colonel, second in command; adjutant, transport officer, quartermaster, medical officer and veterinary officer.

The military department will equip the men, furnishing horses arms and accoutrements. The officers are to receive commissions from the imperial government. It is not yet certain who will command, but the probability is that Colonel Evans, C. B., of Winnipeg will be chosen. Hon. Dr. Borden, minister of militia, will give him a pretty free hand in his choice of officers, but those who have already served in South Africa will be given a preference. There will be no difficulty whatever in filling the ranks; the only trouble will lie in refusing the services of the extra number who will offer. Names of officers anxious to served are already pouring into the department.

All the delicacies of the season an be found at the Kootenay. tf

Cheap Finn Labor.

Nanaimo, Nov. 25.—Considerable excitement has been caused among employes of the Wellington colliery company by the announcement in the Aika, the Finn paper published here, that Finlanders who join the Kalevan Kana, the Finish Colonization company which intends to develop Malcolm island, will be given work in the mines.

The Aika circulates largely in Finland and in the low wage labor centres of the eastern states. It is feared consequently that there will be an influx of cheap labor into the market already overstocked, many miners being out of work now owing to accidents in the mines.

A Big Stock of Rubber Goods at Lowest Prices. W. F. McNeill, next to the Postoffice.

Only a Week in Which to Register.

The importance of registration should not be overlooked. Householders who often pay more revenue to the city than property owners must make a declaration as to their qualifications and hand it to the city clerk this week; if they do not they cannot vote at the next city election.

Dr. Bowes has removed his office to his residence on the corner of Le Roi avenue and Queen street, next to Rossland club.

A pleasant way to spend Thanksgiving evening—attend the concert at the Baptist church. Best local talent.

Special to the Times.

The Ottawa Citizen publishes the following item with reference to the Mayor Morris incident under the head of "what will they say in England?"

Ottawa, Nov. 17.—The lord mayor of Ottawa, the capital of Canada while dining with the governor general at a state ball given by His Excellency, the chief of police at Russell Hall, was arrested by order of Xavier St. Jacques and Sir Thomas Tankard, a distinguished guest, and severely fined, besides being sentenced to two weeks in the jail on the banks of the St. Lawrence near Halifax. He was also disfranchised. This caused the greatest dissatisfaction amongst the provincial premiers, showing plainly the popularity of the Laurier government.

Don't forget the concert at the Baptist church, Thanksgiving evening, Thursday 28th. Ticket 25 cents.

How Did He Know?

Last Sunday, says the Trail News, little Bert Sibbald, the jeweler's son, thought he would like to go to Sunday school. He knew there was a money transaction of some kind about Sunday school, so he asked his father for a nickel for a ticket. His father gave him two nickels saying, "one is for the Lord and the other is for yourself." Bert was eager to start, but as it was a little early, he was permitted to play in front of the store. In a moment, he dropped one of the nickels, and it disappeared down a crack. Without a moment's hesitation, and still clutching the remaining coin in his clenched fist he looked up at his father, exclaiming: "Oh, papa, there goes the Lord's nickel!"

Voters Register at Once.

The registration for city election closes on Nov. 30th. Register at city hall. For information or assistance in placing their names on voters' list, all workingmen should apply to Trades and Labor Council.

Keep Your Eye on Meteor

METEOR is the new high-grade mining camp in the south half of the Colville Reservation, seven miles west of the Columbia river, eight miles southwest of Daisy and 28 miles by good road from Meyers Falls. The townsite is in the centre of the rich aggregation of mines comprising the Meteor, Stray Dog, White Swan and Given groups, all of which are working in high-grade shipping ore. A great number of very promising properties are opening up in the vicinity. It is surrounded by a splendid agricultural, fruit growing and stock raising country, unequalled in the northwest, and has a splendid supply of timber for building and mining purposes, together with unlimited water power near It has already, besides a store, a number of buildings in course of erection, and a telephone service, saw mill, etc., will be in operation within a short time. Meteor is a high-grade camp of the real Leadville type, the ores mined being gold, silver, lead and copper. Picked assays have given as high as $140,000 to the ton, the average of the camp being about $35. You can't afford to forget Meteor. Now is your time to get in at bed-rock prices.
