NORTHERN RAILWAY

Has Been Incorporated at Ottawa.

FROM MIDWAY TO YUKON RIVER

Promoters Have Not the Power to to Build Any Branch Lines as Feeders.

Ottawa, April 29—An act to incorporate the Boundary, Kamloops and Cariboo Central Railway company passed the railway committee today.

The incorporators are George T. Wade, Mark Sweeton Wade, Donald Joseph McDonald and John McDonald Swanson, of Kamloops, and Norman Guthrie, of Ottawa.

R. G. MacPherson explained the provisions the bill. The proposed road will run from Midway to Okanagan lake and Grand Prairie, thence to Kamloops and will followthe valley of the North Thompson river through Cariboo to some point on the Nechaco river, and thence by Fraser lake eith to Bulkley river or Babine lake, to Hazelton on Skeena river and northerly to the Stikine river and Teslin lake, thence to the confinence of the Hootalinqua river with the Yukon river.

The power asked for to build branches was strrck out.

REFUSE A SUBSIDY

Railway Promotors Turned Down by the Premier McBride

Victoria, April 28.—The provincial government today received a deputation of the island railway promoters, who asked for a subsidy of $10,000 cash and 5000 acres of land per mile for the construction of a line of railway from Cowichan to the northern end of the island, with ferry connection with Port Angeles.

The government declined to consider any such a subsidy.

ST. LOUIS EXHIBITION

Dominion Appoints Munroe to Look After the Kootenays.

Greenwood, April 29.—Hugh B. Munroe of this place has been appointed by the Dominion government to a position in one section of the Canadian exhibit at the St. Louis fair.

It will be in the mining section of the exhibit, as he will there be in a position to do this district some good, having a fairly thorough knowledge of the mining resources of the Kootenay.

A TERRIFIC CONFLAGRATION

Fernie Has Been Wiped Off the Map.

WHOLE OF BUSINESS AREA IS GONE

Flames Raged Unchecked This Morning Until There Was Nothing Left to Destroy.

Fernie, April 29 (Special).—The whole of the business portion of Fernie has gone up in flames and the loss is estimated at not less than half a million dollars.

Not a business house remains standing. All the stores are gone, every hotel in the place, the bank and the churches, and every residential property within the flame swept district. All that remains of Fernie are those residences which are lying outside the business portion of theplace and altogether detached from it.

The fire broke out at an early hour this morning and burned till noon. All efforts to get it under control were found to be useless, as the water supply is deficient. The fire brigade, helped by the half frantic citizens, made heroic attempts to stem the onward sweep of the flames, but to no avail. The fire was uncontrollable from the very start, and stopped only when there was no more material upon which it could feed. Hundreds of families are homeless.

PREFERENTIAL TARIFF

Enquiries to Be Made Into Working of Present Duties

Ottawa, April 29.—There was a government caucus yesterday. In addition to the work of the session and similar matters, the tariff came up for consideration. This was no doubt in view of the early deliverance of the budget speech by Finance Minister Fielding. It would appear that there was nothing definite before the caucus but merely a question of whether any changes in the tariff were advisible or not at the present session.

The opinion of members is said to be in favor of very little being done at present. There is an idea prevalent that the best thing to do is to first enquire into the whole question by means of commission or committee of cabinet the same as was done in 1897, and then all parties would have an opportunity of being heard.

The only definite complaints about the tariff comes from the woollen men, who want more protection, and from consumers against the coal oil duty. It would not be difficult to meet the views of both these parties but even in regard to these there are other interests which may desire to be heard.

REMOVE RESTRICTIONS

Alaska Canners Now Allowed to Fish Before July 1.

Seattle, April 29—Alaska canners have been made happy by receiving word from Washington that the order issued a year or so ago restricting the season for fishing in Alaskan waters was about to be rescinded.

As the order stood fishing could not be begun until July 1. At that date many of the runs were over and only a few of the cheaper grades of fish could be caught in quantities after that date. There was considerable protest last year, and it is claimed the order seriously crippled many of the cannery companies.

Most of the cannery companies have already sent their crews north to get ready for the coming season, and the word that they will be able to begin fishing earlier than last year means for them a largely increased output in a season when the fish market promises to be good, especially on account of the Japanese demand.

The run of red salmon always comes in June and is practically over by July 1. On that account the supply of red salmon last year was short. It is understood that fishing may commence as early as desirable.

THE LILLOOET ELECTION

Liberal View of Conservative Candidate J. D. Prentice

Victoria, April 29.—J. D. Prentice remains here. Apparently he has not yet secured from the government adequate guarantee of the right thing being done in the event of his undertaking to contest the Lillooet seat in their behalf.

Judging from remaks he let drop today, in conversation on the political situation Prentice is by no mean enamored of McBride's financial policy and doubtless would insist upon being given the portfolio of finance as a condition precedent to his candidature.

OUR SCHOOLS.

Oxford, Cambridge and Dublin, Haarlem, Leyden, Gottingen and Salamanca have gained their repute as educational centres by the excellence of their teaching faculty. There are hundreds of universities in the world, some of which are teaching as well as some of those mentioned, but there is no disputing the fact that the educational centres mentioned, spring first to the mind not only of scholars but of all well read men. Other centres have a larger local repute, but few have the world wide reputation that these have attained. It is results that tell. Many of the Oxford and other halls of those referred to particularly, would be thought all unworthy of a first class university on this continent. And this is the only criticism which the Mosely commission had to offer unfavorably as to the schools in America. They pointed out that while money was lavished upon the school or university architecture, the salaries paid the teachers were too small to attract or having attracted, to keep good men. The idea of the American school, to teach the many rather than the few, as in the Old Country, was a worthier policy than in their own native land, but the criticism of the Mosely men was nevertheless just. Our school teachers are poorly paid, and it is hardly worth their while to thoroughly instruct themselves, for the expense will not be warranted by the income they will draw from teaching the coming generation. Yet the coming generation holds in its hands the future of this continent and it cannot have too good teachers. It is not a question for municipalities, nor even for the province. It is a question for the whole country to take up. Raise the standard of the teachers and the standard of the coming generation will also be raised. There will be fewer disputes over economic questions when the children are taught to think as well as to learn by rote a certain number of useless names of capes and rivers and deem it an education.

NOTE AND COMMENTS.

Probably the Japs think it pays them to lose a transport or two and paralyze the Russians by moving before there were any expectations of their doing so, owing to the prevalence of the general war tactics of seeing everything was safe before sending transports to sea. The Duke of Wellington sacrificed thousands to gain Badajoz. By the early sending of transports, in spite of the risks, the Japs have crossed the Yalu and driven the Russians out of Korea almost without striking a blow.

Many Liberal papers are saying much about that stolen paper which Mr. Borden produced recently with such great effect. Whether the paper was stolen or not, whether Mr. Borden's actions are defensible or not, is beside the point. which is why did not the Liberal cabinet accept the advice of their colleague who was in the best position to advise in the railway matter of any in the cabinet, and whose advice was strictly in accordance with that platform on which the Liberals were returned to power.

As Canada is soon to consider changes in its postal laws it might well adopt the clause, justly protecting newspapers, which is in force in the United States. The latest United States postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid, and ehen orders the postmaster to mark it "Refused," and has a card sent notifying the publisher, lays himself liable to arrest and fine, the same as for theft, etc.—Vancouver World.

HAD A NARROW ESCAPE

An Accident on the C. P. R. At Grand Forks

Grand Forks, April 28.—Three trainhands were injured in a collision between four ore cars and a yard engine on the Granby spur yesternoon at 4 o'clock. Engineer Joe Skinner sustained painful bruises on his head and body. Fireman Charles Hagitt, jumped through the window of the cab and was badly shaken up and received several nasty cuts on his face and head and was otherwise badly bruised. When piched up he was unconscious.

Conductor C. Wetherington jumped and was knocked down and covered with ore from the wrecked cars. When extricated he was found to have sustained painful bruises all over his body and head. Medical aid was immediately summoned and the injured men were removed to their homes. The wreck was caused by four ore cars becoming detached from the ore train and starting down grade at the same time the yard engine was leaving the yard and before the engine could be stopped the collision occurred.

The tender was the first to strike the ore cars and in conseuqence was completely wrecked and a considerable portion of the track was torn up. It is almost a miracle that none of the train men were killed, as the runaway cars were going a pretty good rate of speed.

MORGAN GOES BACK

Leyland Line is Drawing Heavily Upon its Reserves

A cable from Liverpool says: Frederick Leyland & company, Limited, the first British line purchased by J. P. Morgan when forming the shipping combine, issued a report today for the thirteen months ending with December.

The directors say that, even after drawing $1,347,500 from the reserve, it is only possible to pay the preferred dividend for six months. This withdrawal reduces the reserve to $825,000. The directors attribute this result to the epidemic of foot and mouth disease in New England last year, stopping shipments of live stock therefrom, and to the inadequacy of Atlantic freights.

The Olympias are playing in Seattle and the Opera House management are trying to secure them for Rossland. It is to be hoped that they succeed.

Some body declares that the Le Roi is going to shut down for good. If that mine were to shut down for six months it might have the effect of sending a few people whom Rossland could well spare to Edmonton and other delectable spots.

The Rossland Water & Light company company are to be congratulated on the better service they have supplying. Ill natured people say that they did not wish private folks to get experimenting on a test of the light really given. But ill natured people will say anything and, of course, nobody listens.

THE NEWS OF THE WAR

Japs Have Succeeded in Making Another Landing.

Chefu, April 29.—Chinese junkmen arriving from the Yalu, says that a Japanese force has occupied Kinliencheng, a town just north of the Yalu river. They say that only a small body of the Japanese army crossed the river.

The Chinese cruiser Haitien is a total wreck on Elliott island, north of Shanghai.

St. Petersburg, April 29.—No official despatches were given out this morning. The Associated Press is informed that no further news has been received fron Gensan, Korea or from the Yalu river. Communication at those places is slow.

Twisted Account of Rossland in Coast Papers

The following interesting item appears in a Seattle paper:

Because of the flood Rossland only shipped 3000 tons of ore last week, which is about two-thirds of the usual output. The connecting track between the Canadian Pacific and the Great Northern has been washed out, preventing the sendibg of ore to the Boundary smelters. A further washout below the mines has cut off the Gooderham properties from Trail.

At Trail, that section of the town which lies on the Red Mountain line, between here and Northport, a distance of seventeen miles, there are at least fifty slides. The first through communication with Spokane is not expected before Sunday.

Goes East

LOSES THE NYANZA

Will Destroy All Red Railway from Cape to Cairo.

London, April 29—The Associated Press understands that one of the most important results of the delimination work in East Africa along the Anglo-German-Congo frontier, west of Victoria Nyanza, is the discovery that the whole of Albert Nyanza belongs to the Congo independent state.

As a result Great Britain loses an important piece of territory, including the valuable salt deposits north of Lake Albert. It is announced that the mouth of the Kagera river is in British territory. Hitherto it had been believed to be in German territory.

To the Merchants

Why Don't You Increase Your Business?

Do not sit down and complain of lack of business, because people are sending out of the city for their goods.

Hustling will Do the Trick

Give them to understand that they can save money by dealing at home.

YOU WILL HAVE TO SHOW THEM

That you can sell them better goods for less money than they can get them for at some Cheap John department store in the east, and keep the money at home.

When you have done this You will get the results

The next question is how to reach the people to tell them what you want them to know

You can do this by keeping your advertisement in

The Evening World....

It reaches all the people and goes in all the homes in the city. * * Its circulation is increasing every day.

Give it a Trial

And you will not complain as to the results
