THE PALACE OPENING

Louis Blue's New Quarters Inspected by a Large Crowd.

Louis Blue opened his Palace on Saturday evening with music and feasting.

The city band marched down to the new hotel at 7 o'clock and after playing a few selections were entertained by the proprietor.

The house was crowded during the evening and the new premises were thoroughly inspected and admired.

The lowest floor is given over to the kitchen and larder, the supplies being sent up to the different flats by a single lift. When the heating apparatus is installed it will be on this level also but at present the building is supplied with stoves.

Above the kitchen is a spacious flat containing four billiard tables and two bowling alleys well made and laid. On the first floor the bar, a lengthy one fitted up with all the modern requirements and specially well stocked takes up one half of the room while the remainder is devoted to the restaurant proper. The two upper flats contain a number of well finished and well furnished bed rooms and snug looking private dining rooms, parlors, billiard rooms and lavatories, in fact "all the comforts of home."

The walls of the upper stories have been finished in the rough and very prettily tinted in different colars.

The whole establishment is on an elaborate scale and reflects the greatest credit on the management. Mr. and Mrs. Escalet will have charge of the restaurant and the rooming portion of the house.

Louis Blue was on hand at the opening to welcome and entertain all the visitors who crowded in to view the latest addition to the list of hotels.

For high-grade whiskey go to the International Liquor Store.

For Fresh Salmon, Halibut, Herring Shrimps and Crabs go to the B. C. Market, Columbia avenue.

RHODES AND W. T. STEAD

Boer War Did Not Break Their Very Strong Friendship.

London, April 7.—Referring to the close friendship between Cecil Rhodes and W. T. Stead, D. A. Hawkesley, writing to the English papers, says:

"In far back days when Mr. Stead expounded the common interests of English speaking peoples, his acquaintance was sought by Mr. Rhodes, the acquaintanceship ripened into close intimacy and continued to the last. Mr. Rhodes recognized in Mr. Stead one who thought as he did, and had the marvelous gift of enabling him to cleave with literary charm the ideas they both held dear. As Mr. Rhodes frequently said to me and others, including Mr. Stead himself, the friendship of the two men was too strong to be broken by passing differences about the South African war."

For Active Service.

Halifax, N. S., April 7.—Third special service battalion Royal Canadians now stationed at Halifax has volunteered for service in South Africa.

THE NEXT LOT TO GO

Two Batallions Will be Formed of one Thousand Men Each.

Ottawa, April 7.—When the Minister of Militia returns to Ottawa from his trip to New York and Boston he will probably find awaiting him a dispatch from the colonial office giving the details respecting the organization of the force of 2000 men to be dispatched to South Africa.

It is learned that in addition to the mounts required for this force 500 extra horses will be taken, making 2500 in all. The general impression is that the force will be divided into two regiments, and it would not be surprising if the command of one were given to Major Cameron, who is now in South Africa with the Second Mounted Rifles.

Will Take Command.

San Francisco, April 7.—Admiral Robley D.Evans is here from Washington and will leave on Tuesday for the Orient, to become senior squadron commander-in-chief of the Asiatic station six months hence, when the latter officer will be relieved.

A BAD ACCIDENT

Railway Disaster on Great Northern Today.

SCENE IS CLOSE TO SPOKANE

Medical Aid Has Been Sent Out—Full Particulars are Wanting.

Spokane, April 7.—A disastrous train wreck is reported on the Great Northern railroad 100 miles from Spokane. A number of physicians have been requested from this place.

Later.

Spokane, April 7.—Meagre details to hand say that no passengers were killed.

For high-class family liquors go to the International Liquor Store.

IS AGAIN ADJOURNED

Water Rights Case Before Commissioner Kirkup--Up Again April 30.

The water rights case came up for hearing this morning at 11 o'clock before Gold Commissioner Kirkup but, owing to the absence of A. C. Galt, representing the War Eagle and Centre Star, the matter was adjourned until April 30.

In the meantime the gold commissioner will personally inspect certain portions of the ground covered to see whether the water claimed has actually any existence. For instance, the War Eagle and Centre Star are laying claim to an interim record on Rock creek, where the Trail smelter has already a grant of 400 miners inches and the city a subsequent record. It is claimed that all the water available is being used.

As the case stands now the city has established prior rights to the three forks of Murphy, the north, (Boulder creek) main and south; also to Stoney and to the east and west forks of Little Sheep creek. To Rock creek it has a record but subsequent to that of the smelter. The twin mining companies are laying claim to a record on all five of the creeks north of the city, the claim to Stoney being a new pretension. On Stoney creek the smelter has also a record but subject to the city's rights.

BACK FROM THE WAR

Canadians are Very Well Thought of in South Africa.

Halifax, N. S. April 7.—H. H. Gardner, of Nelson, B. C. and J. B. Henderson, of Cranbrook, B. C., two invalided members of South African constabulary arrived by the Corinthian this morning and left for the west this afternoon. Henderson had suffered with fever and Gardner was kicked by a horse. They say Canadians are thought well of by imperial officers in South Africa.

LABOR PARTY.

The Slocan Drill says that the Labor Party and the reform convention at Kamloops on April 14th, promises to be an important event and the outcome is fraught with material interest to the political world. All parts of the province will be represented, the call having been enthusiastically received by the various bodies acting. The reform movement in British Columbia is more deeply rooted and has attained a greater growth than the old parties realize, and it stands for independent political action. The belivers in the movement will rely on the ballot for future aggression, knowing full well that it is the vote that creates the remedy for existing evils. A glance at the situation as revealed by the redistribution bill, particularly in the Kootenays and Yale, and taking the Foley election as a basis of comparison, demonstrates how secure the independents are in their position. There will be a new party in British Columbia, of which more than one representative will find his way to Victoria as the result of the next election.

BETTER TIMES.

Simon Guggenheim, not unknown in Rossland as a mining expert, and at present filling the position of chairman of the directors of the American Smelting and Refining company, predicts better prices for all metals during the next twelve months.

Mr. Guggenheim asserts:

"I believe that the coming twelve months will see a great improvement in the market price and demand for all the metals.

"The outlook for silver, I think, has improved because the prospect of passing the Philippine coinage bill is good. The measure will provide a new market for the metal and will, I think, materially affect the price. Just what price may be reached I am not prepared to say.

"The lead situation is more roseate. This is caused by the prosperity all over the country. The farmers are painting their houses, and that means the consumption of an immense amount of lead used in making white lead. Then the great amount of construction work which is being done all over the country will require a corresponding amount of lead pipe. I believe that the market for that metal will be much improved.

"Copper, I believe, will raise in price somewhat because of an agreement between the various interests which will probably be made within the next twelve months. I do not believe copper will go back where it was before—that is not reasonable to expect—but it may go to 13 or 14 cents, which is perhaps a nominal and natural price. The outlook may appear a little blue for some of the metals just now, but I believe that the future holds much better prospects."

Mr. Guggenheim's views apply of course to the situation in the United States, but have a direct bearing on the outlook in the Kootenays at the present moment. If the forecast given is a correct one it will tend to greatly encourage all our mining men, and materially aid in advancing the mining industry.

NOTES AND COMMENTS.

The long list of casualties in the Canadian contingent at the Hart's river fight published today tells its own tale. Before long we will have many details of the encounter which will demonstrate how well the Canadians bore the brunt of the fight.

The Toronto Painters and Decorators union who have been locked out by their employers and who number about 250 men are considering the co-operative plan and may tender for all unfinished work on buildings in course of erection. The plan meets with the approval of the owners of the building, who have expressed their willingness to deal directly with the union.

Notwithstanding the lengthy dispatches about the Prince of Wales visiting the United States this summer it is extremely improbable that he will do so as his official program for the balance of the year has already been prepared and including, as it does, the coronation festivities, and a tour of India to complete his trip around the Empire, it is most unlikely that a visit to the States will be undertaken this year.

Those who want to be in touch with the really great movements of the day, says the Toronto Globe, should keep their eyes on the Canadian west, where settlers are coming in at an unprecedented rate. When there is a larger population west of the lakes than east of them the outlook will be completely changed. The politicians will have to revise all their calculations; the alarmists will require to get up an entirely new set of scares. We are getting broader already, but there are still a few old ruts that will be abandoned when the new road is opened up.

SANGSTER PING PONGED

A Pleasing Presentation on Saturday--How the Victims Did it.

On Saturday evening a very pleasing presentation took place in this city, when C. E. Sangster was duly honored by a number of his friends.

The presentation consisted of a beautiful pair of Ping-Pong knickerbockers trimmed with frills and bows of green ribbon at the knees, with suitable mottoes hand painted on each leg, and scenery in the background.

Accompanying the articles in question was the following feeling address.

Rossland, B.C., April 5, '02,

Dear Sangster:—We, the undersigned victims, beg leave to present you with a small token of our appreciation of your heroic and patriotic self-denial in entering into the agonies of Ping-Pong.

We beg to assure you that you have our heartfelt sympathy, in this, your hour of affliction, and we all unite in hoping that you will succeed in saving yourself from the dire consequence of this dreadful scourge which has invaded our midst, and which is threatening our beloved institutions with its dreadful influence. It is our sincere prayer that our efforts have not been in vain, and that we may hope to see you safely restored to us in the near future.

Yours sincerely.

PING-PONG-PUNG.

At the conclusion of the pleasing ceremony Mr. Sangster, who was greatly affected by his friends' devotion, invited the assembled company down town, and duly "set 'em up" all round.

WHY STEAD WAS DROPPED

Not Named as an Executor in Cecil Rhodes' Will.

London, April 7.—The fact that W. T. Stead's name was not among the executors of Cecil Rhodes' will, has given rise to some comment, as it was generally understood that he was closely associated with those designated to carry out Mr. Rhodes aspiration. In order to dispell any misapprehensions D. A. Hawkesley, who was counsel for Mr. Rhodes, declares in an open letter that the removal of Mr. Stead's name was not in any way due to the differences of opinion on the South African war but for other causes quite appreciated by Mr. Stead and which did honor alike to both men.

Another Earthquake.

Panama. Col, April 7.—A severe earthquake shock was felt here yesterday.

Examination for Assayers Licence to Practice in British Columbia.

IN ACCORDANCE with section 12 of the Bureau of Mines Act, examining for efficiency in the practice of assaying will be held at Nelson, B. C., on April 21st, 1902, and on such following days as may be found necessary.

ENTRANCE FOR EXAMINATION:

Entrance for any examination must be made in writing to the Secretary of the Board of Examiners, at least ten days before the day set for beginning of examination, and must be accompanied by the prescibed fee ($10).

The examination will consist chiefly of the practical assaying of samples, and while the Department of Mines will provide all the apparatus and chemicals usually necessary, it will not undertake to provide any special or unusual appliances or chemicals which might be called for, and if a candidate should require such he will have to provide them at his own expense.

Candidates must provide themselves with such platinum ware and set of weights as they may require.

The Department of Mines will make no charge for the use of chemicals or apparatus, but a candidate will be charged for all breakages or unnecessary loss caused by him.

Any additional information desired may be obtained from H. Carmichael, Secretary, Board of Examiners, Victoria,

E. G. PRIOR,
Minister of Mines.

NOTES OF MINING

News From the Boundary and Slocan.

GRANBY OUTPUT PILING UP

More Ore Cars Sent in by the C. P. R.—Greenwood and Granby Smelters.

No. 2 furnace at the Granby works, which has been rebuilt, was blown in on Wednesday, making four furnaces now in operation.

The C. P. R. has sent in a lot of new ore cars to Phoenix and 1500 tons of ore a day can now be handled. Three ore trains leave Phoenix daily, two of 20 cars each and one of ten.

The second furnace at the B. C. smelter at Greenwood is practically completed and ready for work. The plant will now be able to handle 850 tons daily, or twice its nominal capacity.

Phoenix is still snow bound, but half way down to Greenwood the mine road is dusty and in Greenwood and Grand Forks the water cart was badly needed during the early part of last week.

Slocan Notes.

More ore is coming into the drift on the Combination.

The Arlington and Speculator have been laying in supplies sufficient for a month or so, as the roads are breaking up.

Ernest Mansfield is on his way out from England. On his arrival something may eventuate in connection with the Chapleau.

The Binish boys are developing a likely prospect on Twelve Mile, adjoining the Paystreak. It carries high values in gold and silver.

R. I. Kirkwood has been opening up a promising prospect on his townsite at Enterprise Landing. It has a big vein, carrying much iron.

As a result of smelter talk up the lake numerous iron cap ledges on Ten Mile have recently been staked. The government is so much ahead.

A SUCCESSFUL TOUR.

Phoenix Minstrels Make a Record Trip in the Boundary.

The Phoenix Minstrels held the boards at Phoenix, Greenwood and Grand Forks last week giving five remarkably good performances in all. The proceeds went for the building and furnishing fund of the Phoenix hospital, which is now completed and ready for occupation. Many of the performers were working miners, and the show fully justified the large and enthusiastic audiences which greeted its appearances.

Special mention may be made of the good work of Alan G. Simpson as a female impersonator, J. F. Hemenway and C. H. Flood, and little Gladys Harvey, of Greenwood, the only outside member of the company.

Recent Important Discovery on Garesche Green.

Geo. Blair, says a coast exchange, has received word from his partner in Nicola Valley, that A. E. Law has discovered a seam of of coal 11 feet thick on his property on the Garesche Green estate, Nichola Valley. Mr. Blair says he cannot realize that the news is correct, as veins in that country do not as a rule run over five feet.

WANT OUR PRINCE

New York Chamber of Commerce Interested.

KING EDWARD IS WILLING

Difficulties That May Be Overcome—H. R. H. May Come on His Way to India.

New York, April 7.—The suggestion that the Prince of Wales attend the dedication of the home of the New York chamber of commerce excites the liveliest surprise here, coupled with satisfaction at the indication of good feeling on the part of leading members of America's industrial community, cables the World's London correspondent. Undoubtedly it is hoped in political circles that the expected invitation will be accepted. Inquiries have elicted the fact that that in court and official circles it is recognized that there are certain obstacles in the way but it is hoped that they may not prove insurmountable.

King Edward personally is said to be strongly favorable to such a visit. It has been arranged already that the Prince shall go to India next winter to complete the tour of the empire and to attend the proclaiming of his father as emperor of that dependency unless the prince can visit New York on the way, it will be too great a strain on him to cross the Atlantic and back in the autumn, especially as heavy demands on his by no means robust constitution will be made by the coronation festivities. Anyway it is a fact that such a visit would be extremely popular here, and it is believed in court circles that the King, who is well aware of the international advantages of such an interchange of courtesies, will do all in his power to accede to the New York chamber of commerce's hospitable invitation.

PROJECTED CABLE LINE

Will Build Irrespective of Congressional Action--Start in July.

San Francisco, April 7.—George G. Ward, of New York, vice-president of the Commercial Cable company, arrived here yesterday to select a landing place for the projected cable between this city and the Philippines. While here Mr. Ward will consult with John W. Mackay, president of the company. Mr. Ward said last night:

"We are going to build the cable irrespective of congressional action. The first link between San Francisco and Honolulu, will be completed by the end of next October. The cable will be shipped from England next July. It has not yet been decided where we will land on this coast. It will either be at Monterey or this city, probably the latter.".

THE WIDOW WON OUT

Court Decides Against the Grand Trunk Railway's Plea.

Montreal April 7.—The court of review has confirmed the judgement of Mr. Justice Doherty in the case of Mrs. Richard Marsden v. the Grand Trunk Railway. Mrs. Marsden's husband was a freight conductor, and was killed in a collision at St. Henri. The widow sued for $6000 damages for herself and $4000 for each of her children. The chief defence of the Grand Trunk was that deceased had been a member of the Provident and Insurance society, and that one of the by laws was that he could not sue the company for damages. The lower court awarded the damages, leaving the legal point to be decided by the court of review. All the judges were unanimous that the contention of the company was not tenable.

Pro-Boer Dispatch About Australian Officers.

SAYS THEY MURDERED CHILDREN

Discharged Trooper Gives Out an Alleged Statement—A Most Improbable Yarn.

Liverpool, April 7.—A former trooper of the bush veldt carbiners who has returned here is quoted as saying that the convicted Australian officers belonging to that corps, since disbanded, murdered from 35 to 40 persons.

As an instance of their cold bloodedness the trooper relates how three Dutch children, two brothers, ten and twelve years of age respectively, and their little sister, arrived at the Carbineers camp to surrender in order to be given food. The girl and one of the boys were wounded, the uninjured boy took his little brother on his back and was carrying him off when a second shot killed both boys. The girl died shortly afterwards.

Examination for Assayers Licence to Practice in British Columbia.

IN ACCORDANCE with section 12 of the Bureau of Mines Act, examining for efficiency in the practice of assaying will be held at Nelson, B. C., on April 21st, 1902, and on such following days as may be found necessary.

ENTRANCE FOR EXAMINATION:

Entrance for any examination must be made in writing to the Secretary of the Board of Examiners, at least ten days before the day set for beginning of examination, and must be accompanied by the prescibed fee ($10).

The examination will consist chiefly of the practical assaying of samples, and while the Department of Mines will provide all the apparatus and chemicals usually necessary, it will not undertake to provide any special or unusual appliances or chemicals which might be called for, and if a candidate should require such he will have to provide them at his own expense.

Candidates must provide themselves with such platinum ware and set of weights as they may require.

The Department of Mines will make no charge for the use of chemicals or apparatus, but a candidate will be charged for all breakages or unnecessary loss caused by him.

Any additional information desired may be obtained from H. Carmichael, Secretary, Board of Examiners, Victoria,

E. G. PRIOR,
Minister of Mines.

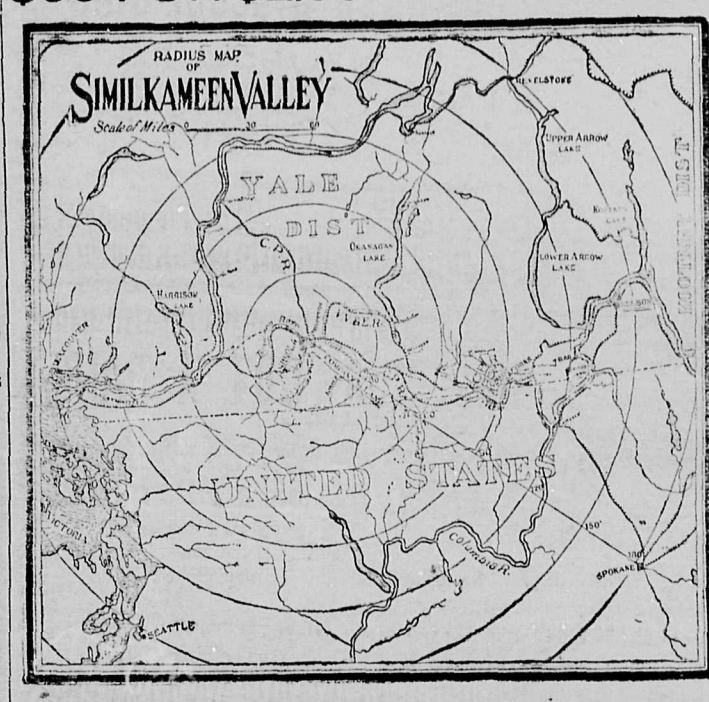
$10.00 FOR $1.00
In one year is a fair profiit. Buy Similkameen Valley Coal Company's shares and make it.
$90 FOR $2.50 Were the Profits made in four years in Crow's Nest Coal Shares.



The map shows the location of the company's coal land and their City of wonder, progress and prosperity, ASHNOLA, water power, timber limits and electric light. Stockholders participate in the profits of all the above mentioned. Estimated assets of the company are now $1 350,000. THE ASHNOLA COAL COMPANY, LIMITED, of Toronto is also establishing its western office and pay roll at ASHNOLA. ASHNOLA SMELTER, LIMITED. now an assured fact, with a capitalization of $2,000,000 will not only erect a smelter with a five thousand ton daily capacity, but will also make ASHNOLA its head office, which means a pay roll of three gigantic incorporations for ASHNOLA. These facts make it possible for the Similkameen Valley Coal Company's shares to soon advance to at least $25 within the next year. These shares are now being offered by our official brokers for $1.10 on calls of ten cents per month, with a non-forfeiture clause, which means you get shares for the cash you pay into the company in any event.
