SPYING OUT THE LAND

J. L. Whitney Returns From Poplar.

NEW CAMP ON EVE OF BOOM

Good Discoveries Are Daily Being Made—Much Work in Progress.

The outlook for Poplar Creek is very bright, says J. L. Whitney, who has just returned from there, and much will be accomplished in that camp this season. The town is growing rapidly and the streets are being cleared and put in good condition. A telegraph office has been established, which is greatly appreciated by the citizens. It is understood that the C. P. R. has selected a site for a depot, west of the platform now in use, and will shortly erect a building. Many who own mining claims have started development work, and some very important finds have been made.

Mr. Spiers has uncovered a fine body of galena ore on his property, next to the Marquis & Gilbert claims.

Work has been started on the Riverside claim, and the ledge shows some good looking ore mixed with white quartz.

The Red Rock is also under development, and has a good showing on the upper ledge.

The usual amount of work is going on at the Marquis & Gilbert property, the Swede group.

A shaft is being sunk on the Lucky Jack, which is now down 80 feet, and some splendid ore is being hoisted. Gold can be panned from the country rock at different places for a distance of 200 feet from the vein.

The tunnel on the Home Run is in a distance of 100 feet, and a contract has been made for an additional 100 feet. The dyke has been cut through, and the face of the tunnel shows some nice looking ore mixed with quartz carrying iron and gold. Further on this tunnel will cut some veins which showed ore of fabulous richness on the surface.

The fact that gold can be panned from the schist, which composes a large percentage of this section, is a surprise to many, and to what extent the gold exists in it is not yet known, But if it is found to extend generally through the country, the magnitude of the discovery can hardly be realized.

That Poplar is destined to make a great mining camp is not doubted by those who are in a position to know, and things will "hum" up there sooner or later.

Some very important strikes have recently been made which have not been given to the public, for reasons best known to those interested. Mr. Whitney says he saw some magnificent rock being brought away, containing a large amount of gold, and was assured that there was a large quantity where it came from. In fact the satchels containing it were sufficiently known by their heft to contain something more than ordinary. After certain things have been accomplished, and transactions made there is no doubt that this rich find will be made known to the public.

For several miles up and down Lardo river, each way from Poplar, many good discoveries have already been made this season, and as the snow disappears, in the higher places, there is no doubt, with the large army of eager prospectors now upon the ground, that others equally important will be made as the summer advances.

It looks, says Mr. Whitney, that this is an excellent season for investors to take hold of Poplar property.

Twenty per cent discount on waists balance of this week at the Crescent.

TREBLES INVADING ARMY

Redistribution of Fleet Is Necessary.

HEAVY FIRING HEARD FROM CHEFOO

Bombardment of Port Arthur Again in Progress---Jap Movements Involved in Secresy.

London, May 26.—The correspondent of the Times, on board the new steamer Haimun, under the date of May 24, says he understands that the restrictions on his movements will be removed May 30. He says that he hears that the delay in the Japanese occupation of Dalny arises from the intricate nature of the mine fields, which prevents adequate naval cooperation. The trebling of the Japanese basis of invasion, the correspondent says, has necessited the redistribution of the fleet.

Chefoo, May 26—Heavy firing was heard in the direction of Port Arthur yesterday, indicating that a land attack had commenced, as the Japanese fleet is not to be seen off Port Arthur. Dalny refugees say that General Stoessel has taken all the cash from the Port Arthur and Dalny banks so that the depositors are unable to cash checks.

Chefoo, May 26—Four Japanese cruisers and a fleet of torpedo boats and torpedo boat destroyers passed midway between Port Arthur and the Miaotao islands at 4 o'clock this morning, but no sounds of firing have yet been heard. The Russians again have removed their guns and troops to the forts at Newchwang.

Seoul, May 26.—Colonel Kishote's column arrived at Niuyang on May 17 and found the Russians had divided, one party going north west and other going east. The latter attacked Hamheung. It was impossible for the Japanese infantry to overtake the noble Cossacks and so the column returned to Anju on May 23.

The main commissariat base of the Japanese, which has been located at Chemulpo since the out break of the war, has been transferred to Seoul.

A SUNDAY TRAIN

Tuesday last was a public holiday and not being Sunday a train left here in the morning for Robson and Nelson. The consequence was that upwards of 50 people left for a day's outing at Trail and along the Columbia generally taking in the beautiful country and fishing along the banks of the grand river. At nightfall another train, the usual one, conveyed the holiday makers home.

Now were this train run on Sunday during the summer months there is no doubt that the trippers would be an increasing number and the outlay of the C. P. R would be more than recouped There would indeed be plenty of time for people to take a run to Bonnington or Nelson and enjoy the fishing and the boating on the lake and in the Kootenay river which now cannot be done unless with the loss of a day's business which few can afford Of course there would be the usual outcry from the Lord's Day Alliance but as these people very properly have little influence here, that might be disregarded.

WEEKLY HOLIDAY

A petition was to be presented to the City Council last evening by a leading firm of grocers begging that the Early Closing bylaw be enforced: a letter was written to the local press during the week saying that there should be a half holiday for the employees of the various places of business in the city once a week. Both matters are related and the city would have no objection, were a plebiscite taken, if the law were enforced in the one case and made to suit the other. As long as all places of business employing help are obliged to close down at certain hours no one can get any undue advantage over the other. Just as long, however, as it is merely a matter of mutual agreement, the business of those who keep good faith is encroached upon by those men who conceive it to be no disgrace not to live up to their agreements.

On the other hand the public has its rights and should be safeguarded. The ordinary hours of business here are from seven to six with some portion of the day, usually an hour, off for a midday meal. On Saturday nights, on the nights preceding a pay day, and there are two paydays in the camp, the shops do not close until at least nine at night and sometimes ten and eleven. That is to say that the unfortunate employees not only work their ten hours a day for 26 days in the month but on six days put in an extra three hours or so more, almost doing away with the results of Sunday observance. This is to suit the public convenience and the public in turn should have no objection in the employees having a few hours to themselves three or four times a month. Three or four times is said because the weekly holiday will not be permitted to interfere with the pay day late hours.

As far as the employer is concerned he loses nothing by his liberality. In fact he gets a better service out of his refreshed employees. In Sumatra, within the writer's knowledge, the Dutch tobacco fields work from six to six every day including Sunday excepting a half day on the 15th and last day of the month. The English firms work from six to five and make the day shorter on Sunday. Yet a glance at the shareholding lists will show that the English firms are ahead of their Dutch rivals, for one result of the Dutch system is that there is a constant change in the European superintendence and constant riots among the Chinese coolies. Yet of the two the Hollanders certainly reckon themselves better business men. They are in small things but the general result is sacrificed to order to gain, apparently, a little something here and a little something there, at the expense of those who are employed. The best business policy as is constantly shown by results is the liberal policy. Most of the Rossland merchants act up to this, as befits their strain, and they certainly should be protected against the competition of those who will not take a thought for any one else but themselves, especially as no one is injured and a large class of hard-working people are benofitted.

One of the most useful institutions of this country promises to be the Diabetic Institute of London, established for scientific research into the origin, cause and treatment of Diabetes and the secondary symptoms: gout, rheumatism, carbuncles, etc. Hardly any disease is so little understood, and at the same time so insidious and dangerous as Diabetes, which, according to the highest modern authorities, is curable after all, when treated in time. If interested, write to the Diabetic Institute, St. Dunstan's Hill, London, E. C. for information.

Estimates for complete plants on application. Special attention given to mining engineer's specifications. Telegrams—"JIGGER," Aberystwyth.

JUSTICE IS SHOCKED

Deputy Sheriff Appears in Court Without a Dress Suit.

It is with more or less regret that Progress, says that Victoria paper, finds itself called upon to draw public attention to a piece of culpable negligence on the part of the provincial government. It appears that in a certain bailiwick of British Columbia the workings of that ancient institution, the British Constitution were seriously embarassed by reason of the fact that the deputy sheriff was not attired in a dress suit, and, it is added, with what degree of truth deponent saith not, that the wheels of the Car of Justice were arrested for a considerable space of time while the deputy sheriff aforesaid skirmished around to borrow the necessary apparel. Surely this ought not to be.

The McBride government ought to see that its myrmidons are properly attired in order that justice may be properly administered. If the munificent salary of $40 per month be alleged insufficient to permit a deputy sheriff to go dressed like Solomon in all his glory, dress suits ought to go with the office and be constructed on an adjustable plan so that in case an officer should be removed for pernicious partizanship, it can be made to fit his successor. It is also desirable that the law in regard to these matters should be made explicit.

A story is told of a certain North Carolina judge, who was incensed because the sheriff appeared at court with a white vest on. "Mr. Sheriff," said he, "do you not know that the law requires you to appear in a black coat and vest." To which the sheriff replied that he was aware of the fact, and that he was so attired. "Your vest is white, Sir," thundered the judge, "and it ought to be black." "Excuse me," answered the sheriff, "the law says nothing about the color of the vest. It simply says I must wear a black coat and vest. I have a black coat and I have on a vest. It also says that the sheriff must have a cocked hat and sword.' Does this mean that the sword must be cocked?"

It is alleged that the business of the court proceeded forthwith. In view of the possibility of errors of this kind being committed, whereby the liberty of the subject may be grievously imperilled, that any legislation which may be introduced will be as explicit as language can make it.

MINOR MENTION

Summer really seems to have come.

There will be a meeting of the Eagle's this evening.

It is about time some of those buildings which were warned to be destroyed came down.

St. George's Guild met this afternoon at the home of Mrs. Ternan on West Columbia avenue.

There was no quorum of the City Council last night, only Aldermen McDonald and Rolt being present.

Rev. John Cleland has been appointed examiner for McGill in Roseland at the forthcoming examinations in June.

S. F. PARRISH RESIGNS

Announcement is Made in the Spokesman Review

True to its policy of keeping the camp in the dark the Le Roi management gave no inkling to the press of the resignation of Ma ager Parrish which the Spokane paper claims was sent in on May 13 although this is probably wrong. No reason is directly assigned to the resignation which indeed, under other circumstances might well be laid to ill health with perfect justice. But our contemporary immediately discusses the alleged discrepancy in the valuation of the mine which cuts off two thirds of the profits made last year and which has been given in more than one London paper on the authority of a cablegram from Acting Manage Mackenzie.

Rosslanders will recognize that Manager Parrish has had a hard row to hoe since he took charge of the mine a year or more ago and whetner he has done successfully or no depends on the revelations of the future when the shareholders demand an investigation.

Agnew's for anything in groceries.

A MEMORIAL CHURCH

St. George's Congregation Builds Near Present Site.

A meeting was last night held of St. George's congregation and it was finally decided to build at the corner of Earl street and Le Roi avenue.

The proposal is to acquire the lots facing on Le Roi avenue as well as those facing on Kootenay, making a block of eight lots in all, and getting permission, under due provisos, to close the lane between the two avenues, as far as these lots are concerned. The present building will stand as it is, to be used as a Sunday school and parish hall for meetings, socials, etcetera. It may be remembered that the edifice which was built by Father Pat just before Christmas, 1896, was never consecrated, but was dedicated only, a distinction that has this difference, that a consecrated building may not afterwards be used for any other purpose than those which are Anglican, whereas a dedicated building may be put to secular use. Room will be left on the site for the building hereafter, of c rectory.

As to the church proper, plans are being got out by Charles Simpson for submission to the vestry which will now resolve itself into a committee of ways and means, and report later. It is hoped that a start will be made this year.

There are two or more proposals before the vestry, the one being to utilize the rough stone of the camp, and put up a rough stone church, completing sufficient of the building as will serve for present purposes and eaving its addition and its adornment to a later period in the history of Rossland. The other is to put up a complete but small building, which will be in fit keeping with the present status of Rossland, and let the future take care of itself. As far as outlay is concerned the one will be about as costly as the other.

It is understood the parish is clear of all debts, has some funds on which it can draw for an immediate start, and moreover has much real estate which can be used as wanted.

The site will require little or no foundations, it is nearly level and the bedrock outcrops.

Special sale of all silk gloves Thursday, Friday and Saturday at 33⅓ per cent discount at the Crescent.

Nice fresh lake trout at the B. C. Market, Columbia avenue.

PHOENIX CITY COUNCIL

Trouble Is To Be Cured by an Election in June.

Phoenix, May 26—Acting under a warrant received fron the lieutenant governor for that purpose, D. J. Matheson, city clerk, who has been appointed returning officer, has given notice to the electors of Phoenix that nominations for five aldermen will be received on June 4th. and that an election, if needed, will take place on the 7th of June.

It will be remembered that the five aldermen resigned some two months ago as a protest against a decision of the police magistrate, W. P. Williams, who dismissed a case brought against the chief of police, C. H. Flood, by a woman of the half world. The police commission sustained the police magistrate, and the resignation of five members of the council followed as a protest. They and their friends assert that no council can be obtained till both police magistrate and chief of police are let out.

To the Merchants

Why Don't You Increase Your Business?

Do not sit down and complain of lack of business, because people are sending out of the city for their goods.

Hustling will Do the Trick

Give them to understand that they can save money by dealing at home.

YOU WILL HAVE TO SHOW THEM

That you can sell them better goods for less money than they can get them for at some Cheap John department store in the east, and keep the money at home.

When you have done this You will get the results

The next question is how to reach the people to tell them what you want them to know

You can do this by keeping your advertisement in

The Evening World....

It reaches all the people and goes in all the homes in the city. Its circulation is increasing every day.

Give it a Trial

And you will not complain as to the result
